Max ABBOTT

Health Board Action

I'm AUT University's North Shore Campus Pro Vice-Chancellor and Faculty of Health and Environmental Sciences Dean. Currently the Board's Deputy Chair I seek re-election to ensure implementation of planned initiatives to enhance our health services. Progress has been made during challenging financial times but more remains to be done to increase timely access and further improve outcomes. Patron of the North Shore Community Health Network for over 20 years, I have long experience in senior management, board governance, community development, advocacy, research and clinical practice. Previous roles include Mental Health Foundation National Director, World Federation for Mental Health President and chair or member of various voluntary, statutory and government advisory bodies in health, social development, justice and education. My current research involvements focus on the health of older people, child health, Pacific and migrant health and addictions. Please also support fellow board member Warren Flaunty with whom I work effectively.

Conflict of Interest Statement

I hereby disclose the following conflict of interest with the Waitemata District Health Board at the date of my notice of consent to being nominated as a candidate:

I have been the patron of Raeburn House (North Shore Community Health Network) since its inception. This voluntary sector health promotion organisation receives grants from Waitemata DHB and other sources to support its work.

I hold various senior positions at Auckland University of Technology, including Pro Vice-Chancellor (North Shore), Dean of the Faculty of Health and Environmental Sciences and Co-director of the National Institute for Public Health and Mental Health Research. The Faculty provides a range of health and related services. It also has a formal memorandum of understanding with Waitemata DHB which includes a commitment to work together to enhance the health of the communities they jointly serve. To this end the University and the DHB collaborate on a number of health delivery, education and research projects.

I am an appointed board member of Health Workforce New Zealand, recently established by government to drive innovation in workforce development and ensure that the country has the appropriate mix and number of health professionals. The Board engages actively with DHBs.

I have played a role in the establishment, development and governance of a number of voluntary sector organisations, e.g. Health Promotion Forum, Mental Health Foundation, Alzheimer's Foundation, Victim Support, AIDS Foundation, Refugees as Survivors Centre, Phobic Trust and 60s-Up movement. While no longer holding office in these and other

organisations I have had a close involvement with, I retain an interest in their work and in some cases have ongoing informal links. Some of these organisations may from time-to-time receive support from the DHB to assist their work.

Possible future conflict of interest:

I am currently involved in the establishment of a new voluntary sector organisation, Social Services Online Trust, to develop and provide on-line health and related resources and referral information nation-wide. This organisation may in future have some form of involvement with the DHB, along with the wider health sector. To the best of my knowledge I have no other conflicts of interest, or likely future conflicts of interest, with the DHB at the date of my notice of consent to being nominated as a candidate for membership of the DHB board. In the event that conflicts do arise I will declare them and act accordingly.

Let's have a fresh approach to health and cut through the politics.

Having a key role in successful commercial and NGO enterprises in the Health sector, I have experience in resolving the current issues I see facing Waitemata DHB – capital development, staffing/funding resources and service delivery.

My appointments in the Health sector include being a Director Waitemata Health (1992–94), Chairman Spectrum Care Trust (1993–2003) which is a Provider of services/accommodation for the Intellectually Impaired 1,000 plus staff.

I'm currently a Trustee of Dayspring Trust which deals with Mental Health issues and Deputy Chairman Agape Homes Trust which provides services for the Intellectually Impaired.

My background is in financial services including Merchant and Investment Banking and accountancy. I am a member of the Institute of Directors. Qualifications: B.Comm, CA, ACIS, Minst D.

I am an Elder of St Giles Church.

With your vote we will make a difference.

My policies if elected, are as follows: I would try to reduce wastage and duplication within the health board, and to eliminate unnecessary layers of management. I want more money spent on patient services and operations, and reducing waiting lists is my priority.

I believe that we cannot continue to operate on a cost plus basis, and that we need innovation and change in the way we operate.

If elected, I would look at other areas that the health board could make profits from, such as providing paid operations in a 'private setting', and the profits from those activities can be used to perform more 'unpaid operations'.

We also need to find ways to reduce the cost of medicines by using generic brands and the like.

I have a business degree and a property degree.

Conflict of Interest Statement

To the best of my knowledge and belief, I have no conflicts of interest with the Waitemata District Health Board at the date of my notice of consent to being nominated as a candidate for membership for the board of the District Health Board, and I do not believe that any such conflicts of interest are likely to arise in future.

Russell BAU

I have over 14 years experience as a Registered Nurse. Three years ago as a patient in North Shore Hospital, I experienced first hand some of the best care I could have imagined as well as moments of sub-standard treatment. I witnessed unparalleled commitment and compassion from staff, but a woeful lack of investment in personnel, facilities and equipment.

In an effort to make a positive contribution, I have taken up employment with Waitemata District Health Board as a staff nurse, however I believe that I can make a greater difference as a board member.

I live in the WDHB catchment area with my family, and have done so for most of my life.

My previous experience includes employment with: NZ Military (both civilian and uniformed roles); working with NZ's largest private healthcare provider; a Primary Health Organisation, overseas deployment with the United Nations, and work for other DHB's.

Conflict of Interest Statement

I hereby disclose the following conflict of interest with the Waitemata District Health Board at the date of my notice of consent to being nominated as a candidate:

I am currently employed by Waitemata DHB as a staff nurse, I am currently a NZNO delegate, and my wife is employed by Auckland DHB as a staff nurse. I have no other conflicts of interest with the DHB at the date of my notice of consent to being nominated as a candidate for membership of the Board of the DHB. I do not believe any conflicts of interest are likely to arise in the future, other than those stated above.

Waitemata Health Board member since 2004, previously Northland Health Board, Waitakere City and Far North District councils. Now at Leigh. Retired editor, author and investigative writer, including studies of health issues, Maori and Pacific Islanders' statistics, child health and, in particular, NZ's terrible child abuse records.

Awarded OBE for services to journalism and the community, and Media Peace Prize. Independent thinker in board debates, notably in his sustained criticism over four years of the laboratory contract decision. Accepts legal obligation for widest possible public and professional consultation backed by clearer, more concise, simpler backgrounding material. Supports need-based rather than race-based funding. Critic of past Ministry of Health overcontrol of board processes and policies and under-funding, worsening waiting lists, delaying patient examination, diagnosis and treatment. Will continue the pledge he was first elected on: Asking the hard questions.

Ivan Dunn: Candidates with a medical background are important but a strong candidate with experience in other spheres is also vital for balanced decision-making. If you want a candidate with broad experience, energy and integrity I'm your choice. As a Resource Management Act hearing commissioner, JP, former long-term crusading editor of the North Shore

Times and 2004–7 North Shore City councillor and Takapuna Community Board member I know how to ask the tough questions and these are tough times. I have also represented the city at Local Government New Zealand, the Auckland Civil Defence management committee and on the North Shore Events Centre Trust. I am also a former Westlake Boys High Board of Trustees member and a new member of Grey Power. With your vote and support I will work to bring concerns of ordinary folk to the Waitemata Health Board table.

I am married, a mother, grandmother and daughter of elderly parents. As such, I have come into contact with our public health system on various occasions, and I believe there is room for improvement in many areas. Our public health system should provide value for money while still delivering excellent health services to all, especially those in greatest need – our seniors, children, and those whose needs are often ignored. When elected I will bring new energy and work tirelessly to promote the delivery of more convenient and more accessible health care; for example providing services closer to home. As your District Health Board member I will endeavor to reduce waiting times, especially in emergency departments, in provision of cancer treatments, and in waiting times for operations. I intend to provide you with a health system that will better serve you and your family.

I have served on the Board for the past three years and believe I have helped make a difference – improved services at North Shore Hospital, expanded emergency services at Waitakere Hospital, greater accessibility to primary care services. I chair the Board's Hospital Advisory Committee, am Trustee North Shore Hospital Foundation, have 28 years local and regional governance experience, understand the issues and how to get things done. I was previous Mayor Takapuna City, North shore City and Auckland Regional Councillor, Chancellor Auckland University of Technology, Chair Trustees NZ National Library, and National Animal Ethics Advisory Committee. I am a barrister, have served on variety of boards, including Earthquake Commission, Transit NZ, Building Research (BRANZ), Civil Defence, and was awarded Queen's Service Order for Public Services (QSO) in 2004.

I will be a strong advocate for our North Shore, Waitakere, and Rodney communities and work with you and for you.

Conflict of Interest Statement

I hereby disclose the following conflict of interest with the Waitemata District Health Board that may arise in the future:

I am a Trustee of the North Shore Hospital Foundation, Trustee of the Three Harbours Health Foundation, and a member of North Shore Community Health Voice, and I give professional legal advice and assistance to persons and organisations involved in the health sector from time to time in my capacity as a barrister.

James LE FEVRE

I am a 29-year-old Emergency Department Doctor, trained at the University of Auckland. I was born in Auckland, raised in Birkenhead and attended Northcote College. I have worked in multiple hospitals across New Zealand and Australia, including the Emergency Care Centre at North Shore Hospital. Working at the 'coal-face', I see the problems confronting our population, and have recent first-hand experience as a patient myself. At the present time people presenting to the Emergency Care Centre can wait for hours to receive pain-relief, and there are long waits for elective surgery. This is unacceptable. If elected, I aim to increase bed numbers, improve staff retention by improving working conditions and morale, and to decrease elective surgery waiting times. I believe that, in part, this can be achieved through spending money more intelligently, and with more input from front-line staff.

Sitting member second term WDHB, chair audit finance committee, Massey Community Board member, company director, former Member of Parliament. Waitakere hospital has received overdue attention due to the disparity of health delivery in Waitakere, surgical theatres are now fully operational, 24-hour service for children has opened and by Jan 2011 we will have 24 hours emergency service for all. More services will be added over the coming months. North Shore hospital has new construction projects that will see the emergency department receiving overdue resources to alleviate overcrowding and slow service. Careful attention is also being paid to the local needs of Rodney residents as their population expands. As chair of the audit and finance committee I have overseen huge amounts of money redirected into the front line. There is more to do to bring about the best possible service for our patients, especially those in the outlying areas.

I have spent most of my life on the North Shore and north west Auckland and live on Herald Island near Greenhithe. Health care has been a career and an interest for 35 years since I qualified at the University of Otago School of Physiotherapy.

I have worked in public health, private health and health education and have a good knowledge of what works and what does not work, based on wide, practical experience. I have seen 35 years of change in health care, some good, some not so good.

One of the big issues is how our health dollars are spent. Decisions are based on short-term accounting which results in very high and unacceptable, long-term health costs to patients and to the public purse. My commitment is to work with a passion to improve our health service.

I have worked as a practice nurse and a postnatal care nurse and I am presently employed both as a key dementia worker for Alzheimers Auckland in the Rodney district and as a team leader for older persons

day care in Warkworth.

I am currently in my fifth year as an executive on Rodney Health Link and a director on Harbour Health PHO.

This experience ensures I have a strong working knowledge of the health services, geographical knowledge of the district and an understanding of community.

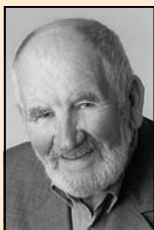

I am committed to working with healthcare providers and the community to ensure provision of healthcare is affordable, accessible and accountable.

Conflict of Interest Statement

I hereby disclose the following conflict of interest with the Waitemata District Health Board at the date of my notice of consent to being nominated as a candidate: 1) I am a director on Harbour Health PHO which contracts with the DHB; 2) I am an executive on Rodney Healthlink which is funded by the DHB; 3) I work with clients who receive individual services funded by the DHB.

Your local Hospital is a vital public asset, but too many patients, including me, have had less than satisfactory experiences at this hugely important community facility.

I am seeking election to the Health Board to bring about changes necessary to restore confidence in our hospitals, and all other Waitemata District Health

Board facilities which provide for the care of the sick – across all age ranges.

While I recognise the heavy cost of providing health services I am deeply concerned that too much taxpayer funding is being diverted to enlarged administration and away from the primary purposes of restoring health and preventing sickness.

My experience in business and local government will be at your service in my aim to improve your local health service which seems to be under constant pressure.

As Mayor of North Shore City I am acutely aware of the issues facing the Health Board. The board needs smart people to manage its funding and health planning, who can provide sound governance, and who have the connections and negotiation skills to secure resources from government and other sources. I bring my considerable mayoral influence, business and financial background to the board to help give better health delivery to our community. It is vital that the board has a balance of medical, business and community input. As Mayor I have first hand experience of the wide ranging health and social needs of our diverse Waitemata communities – seniors, ethnic groups, youth, families, disabled and the disadvantaged. I'm known as a peoples' representative who delivers for the community. The Health Board would benefit from my involvement as a leader in the region who will stand up for the board's needs. www.andrewwilliams.co.nz

After retiring as President of the Labour Party, I became CEO of the Stellar Trust, a registered charity dedicated to fighting the drug methamphetamine or 'P'.

West Auckland and the North Shore have the worst methamphetamine or 'P' statistics in New Zealand, where prevalence of drug is amongst the worst in the world. A member of the Judiciary has told me that West Auckland is the 'P capital of New Zealand'.

I strongly believe that the Waitemata District Health Board has a very important role in fighting this epidemic, particularly in the provision of education, counselling and rehabilitation for users and addicts.

I believe that DHBs, Police, Customs, the Courts, and the Government agencies must be much better coordinated in their fight against this insidious threat to our young people, and I believe I have the proven skills to make this happen if elected to the DHB.
