#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

People should not be able to camp in areas other than those designed for that purpose AND they should pay for the facilities those areas provide and that they need and use.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

Do you not support having general rules because, in your view: Another reason (please explain)

**Another reason (please explain):** We don't agree with overnight camping on roads or berms. There are other facilities provided for campers which should be used. e.g.s camping grounds, nz motor home assn and doc provide for facilities for mobile people.

Take look at Hatfields beach. Do you want that

view of motor homes, vans and tents outside your home permanently?

We dont.

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

### How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

### How do you think the general rules will unfairly impact some people?

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store

water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to FreedomCampers especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's general rules will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

Do you support having general rules because, in your view:

Another reason (please explain):

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

Do you not support having general rules because, in your view: Another reason (please explain)

Another reason (please explain): Freedom camping should be prohibited in residential areas

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom

Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The

Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Use more parks and recreation areas other than Boat ramp/marine area parking. It's already busy enough in many places and hard to find parking without adding freedom campers to the mix. No reason they should be able to take up already limited parking.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Use more parks/regional or roadside places instead.

**How do you think the general rules will unfairly impact some people?** Boat parking is hard enough to find on a busy day. We don't need to limit the already scarce parking for car and trailers.

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

Provide freedom campers with set carparks **WITHOUT** cutting into the already limited boat and car parking we have. Or put areas in parks.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

Do you not support having general rules because, in your view: Another reason (please explain)

Another reason (please explain): I do not support freedom camping.

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** I do not support this freedom camper proposal.

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** I believe freedom campers should be in a designated camping area that has adequate facilities for toilets.

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** I do not support freedom camping. Campers should be only in a designated camping area.

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? No – I support another no-return period rule (please explain)**

**No – I support another no-return period rule (please explain):** I do not support freedom camping.

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

I do not agree with the proposal to allow freedom campers to camp on any road or off-road area. There will be rubbish and debris left everywhere. Who will police this? Who will check that every vehicle is self-contained? This will cause social disruption and anger between campers and residents. Campers should be in a designated area where there are sufficient facilities like a public camping ground.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Rodney Local Board area

### Prohibited sites

**Helensville - Helensville Civic Centre Grounds 49 Commercial Road, Helensville, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** Campers should be restricted to designated camp sites.

**Huapai - Huapai Service Centre/Kumeu Library 24 Oraha Road, Huapai, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** Campers should be restricted to designated camp sites.

**Waimauku - Waimauku War Memorial Hall 22 Waimauku Station Road, Waimauku, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** Campers should be restricted to designated camp sites.

**Leigh - Leigh Library and grounds 15 Cumberland Street, Leigh, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** Campers should be restricted to designated camp sites.

**Ti Point - Ti Point walkway Ti Point Road, Ti Point, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** Campers should be restricted to designated camp sites.

**Pakiri - Pakiri Hall grounds 1026 Pakiri Road, Pakiri, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** Campers should be restricted to designated camp sites.

**Warkworth - Warkworth Town Hall grounds 2 Alnwick Street, Warkworth D, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** Campers should be restricted to designated camp sites.

**Restricted sites**

**Port Albert - Port Albert Wharf Reserve carpark Adjacent to Wharf Road, Port Albert. Do you agree that freedom camping should be restricted in this area?** No – freedom camping should not be allowed in this area

**Which of the proposed restrictions for this area would you want to change at Port Albert Wharf?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

[Do you have any other comments on the general rules?](#)

Totally against freedom camping in residential streets, most of our streets are too narrow and there is always rubbish or evidence of were they were. Rubbish is not disposed of properly.

This is just not simply parking and then leaving, berms are damaged also and then we are responsible to maintain.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. ### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** At Omaha Beach we will very likely have camper vans parked on the grass verge outside our home. They will restrict the amenity value to residents who are already paying large rates bills.

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

All designated freedom camping areas should be 500m from boat ramps. Boat ramps and associated parking area are under maximum utilization in the Auckland area. Accordingly it is inappropriate to further congest these areas with adding in freedom camping. Boat ramp users have a limited range of locations to launch and so their user of ramps and parking should be prioritized. Gulf Harbour is not an appropriate location for freedom camping because of these issues. Already there is regular conflict between users in this area as the facilities are at maximum utilization.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this, Having a set departure time will help with enforcing the maximum stay rule, Another reason (please explain)

**Another reason (please explain):** 9am means the campervans will be leaving at peak traffic time. For Snells Beach and its problem with congestion at Hill Street this is very applicable. Also, from observation of the Sunburst Avenue carpark, campervans leave later anyway - many later than the current 10am deadline. There also needs to be an arrival time rule.

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

A 2 week rule encourages the local campervans which move from site to site. These are more likely to be the problematic campers. Rules need to be enforced.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Rodney Local Board area

### Prohibited sites

Helensville - Helensville Civic Centre Grounds 49 Commercial Road, Helensville, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Huapai - Huapai Service Centre/Kumeu Library 24 Oraha Road, Huapai, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Waimauku - Waimauku War Memorial Hall 22 Waimauku Station Road, Waimauku, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Leigh - Leigh Library and grounds 15 Cumberland Street, Leigh, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Ti Point - Ti Point walkway Ti Point Road, Ti Point, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Pakiri - Pakiri Hall grounds 1026 Pakiri Road, Pakiri, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Warkworth - Warkworth Town Hall grounds 2 Alnwick Street, Warkworth D, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

### Restricted sites

Port Albert - Port Albert Wharf Reserve carpark Adjacent to Wharf Road, Port Albert. Do you agree that freedom camping should be restricted in this area?

Which of the proposed restrictions for this area would you want to change at Port Albert Wharf?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area?

**Snells Beach - Whisper Cove (adjacent parking on road reserve) 70 Kokihi Lane, Snells Beach. Do you agree that freedom camping should be restricted in this area? Yes – restricted freedom camping should be allowed, and I support the proposed restrictions**

Which of the proposed restrictions for this area would you want to change at Whisper Cove?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

**Do you have any other comments you would like to make about this area?** Snells Beach currently has 2 sites (not this one) where people can freedom camp. Sunburst carpark and Snells Beach Road. These have room for more vans - 5 at Sunburst carpark. So vans that cannot park in the 2 proposed spaces will park outside residential houses. The bylaws ignore this problem. It is completely stupid to remove freedom camping at these 2 sites as they are reserves. It will cause problems for the local householders - particularly in Snells Beach Road and Sunburst Avenue, Snell Beach where I live.

**Warkworth - 8 Church Hill carpark, Warkworth. Do you agree that freedom camping should be restricted in this area?**

**Which of the proposed restrictions for this area would you want to change at Church Hill?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

**Parry Kauri Park 32 Tudor Collins Drive, Warkworth. Do you agree that freedom camping should be restricted in this area?**

**Which of the proposed restrictions for this area would you want to change at Parry Kauri Park?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people, Another reason (please explain)

**Another reason (please explain):** There are not enough people around to police other things that should not happen, how will this be controlled ?

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Have more areas and facilities to accomodate them

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Don't have freedom campers in the first place

**How do you think the general rules will unfairly impact some people?** Maybe the party ( parties ) who thought this up should have a trial period of freedom campers parking outside their homes for a while and see what it is like.

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Do you have any other comments on the general rules?

I object to the Council's proposal completely regarding opening streets in Auckland to freedom campers, especially at Omaha Beach as it is not appropriate. All they have to do is drive around the corner and stay there so there is no way it can be enforced. Also, Omaha is mainly a family environment so having others just staying there when THEY desire is not desirable. The residential streets and houses WILL NOT be protected by the campers who have no care or responsibility to maintain the area.

In summary, the Council Rules regarding this will be ineffectual and also unenforceable. Owners at Omaha pay their Rates to maintain the area, campers pay nothing !!

### Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Another reason (please explain)

**Another reason (please explain):** I don't believe in letting freedom campers camp everywhere.

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

We don't agree with overnight camping on roads or berms. There are other facilities provided for campers which should be used. e.g.s camping grounds, nz motor home assn and doc provide for facilities for mobile people.

Take look at Hatfields beach. Do you want that

view of motor homes, vans and tents outside your home permanently?

We dont.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

We don't agree with overnight camping on roads or berms. There are other facilities provided for campers which should be used. e.g.s camping grounds, nz motor home assn and doc provide for facilities for mobile people.

Take look at Hatfields beach. Do you want that

view of motor homes, vans and tents outside your home permanently?

We dont.

Omaha beach has protected bird species and should not be available for freedom campers. I say no to freedom camping!

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Rodney Local Board area

### Prohibited sites

**Helensville - Helensville Civic Centre Grounds 49 Commercial Road, Helensville, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Huapai - Huapai Service Centre/Kumeu Library 24 Oraha Road, Huapai, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Waimauku - Waimauku War Memorial Hall 22 Waimauku Station Road, Waimauku, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Leigh - Leigh Library and grounds 15 Cumberland Street, Leigh, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Ti Point - Ti Point walkway Ti Point Road, Ti Point, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Pakiri - Pakiri Hall grounds 1026 Pakiri Road, Pakiri, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Warkworth - Warkworth Town Hall grounds 2 Alnwick Street, Warkworth D, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

### Restricted sites

**Port Albert - Port Albert Wharf Reserve carpark Adjacent to Wharf Road, Port Albert. Do you agree that freedom camping should be restricted in this area?**

**Which of the proposed restrictions for this area would you want to change at Port Albert Wharf?**

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area?

**Snells Beach - Whisper Cove (adjacent parking on road reserve) 70 Kokihi Lane, Snells Beach. Do you agree that freedom camping should be restricted in this area? No – freedom camping should not be allowed in this area**

Which of the proposed restrictions for this area would you want to change at Whisper Cove?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

**Do you have any other comments you would like to make about this area?** Despite the map supplied (& relied upon), the adjacent area is now a vibrant cafe. Plus, the relatively small car park is actively used by many, many people who park and exercise along the foreshore. Allowing any form of extended use would severely impact on the ability of local (& not-so local) visitors to enjoy our foreshore. There are other facilities not far away which are far better suited to the provision of overnight camping.

**Warkworth - 8 Church Hill carpark, Warkworth. Do you agree that freedom camping should be restricted in this area?**

**Which of the proposed restrictions for this area would you want to change at Church Hill?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Do you have any other comments you would like to make about this area?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential streets and roads

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

## Do you have any other comments on the general rules?

I have noticed that even if self contained vehicles do stay, in a previous allowed area Matheson Bay, that the toilet facilities are more convenient to use than using up resources in the self contained vehicle. ie toileting, washing dishes, showering.

By Council now following the Reserves Act This will eliminate the the use, manufacture and selling of drugs,

bad behaviour and extended stays at Matheson Bay.

The Reserve can now return and be used for whanau picnics, barbeques, ball games and wedding services etc

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I don't know

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrict

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

This submission is made on behalf of the Buckleton Beach Ratepayers and Residents Association. The Buckleton Beach community is centred on only one road, Buckleton Road and the Association believes that it is not appropriate for Council to allow freedom camping on Buckleton Road. Buckleton Road could become a popular freedom camping spot: it is level and it is an easy walk to the Buckleton Reserve and Buckleton Beach. The Association does not believe it is appropriate to allow freedom camping on Buckleton Road because the road is short and narrow, and the residential and beach houses of our community front directly onto this road. It is not possible for cars to be parked on both sides of the road, so parking is already very limited. The road is very busy over summer, as people drive to their houses and day trippers drive to the beach. There are no pedestrian footpaths at Buckletons, so all walking is done along the road. There are many young children in the Bay walking from their houses or from parked cars to the beach. There are also a lot of cars with boat trailers accessing the beach launching ramp and subsequently parking on the road. With all this congestion and activity, our community believes that allowing freedom camping on Buckleton Road will add significant risks to the Health and Safety of our residents and the visitors to Buckleton Beach. It is for these Health and Safety reasons that the Buckleton Beach Ratepayers and Residents oppose freedom camping on Buckleton Road. We request that the council add Buckleton Road to the list of Prohibited Areas where no freedom camping would be allowed.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential streets and roads

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle. It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste. A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, Having a set departure time will help with enforcing the maximum stay rule

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** With the volume of campers freedom camping, we believe it gives more people a chance to freedom camp if it is limited to 2 days every month. Having it set to a calendar month is better to monitor and not as easy to dispute than the two or four week rule.

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

There have, in the past, been pilot projects to trial freedom camping in some places. In our area in Matheson Bay, Leigh, we have seen a small window of council interest in monitoring this and then we were left without support. The camping got out of hand very quickly and subsequently we would see over 30 freedom campers dotted over the local reserve and sometimes spilling out into the small carpark. Tents were being pitched, clothes hung from trees, fat was deposited down the sinks in the beach toilets and on at least two occasions locals had to intervene to stop chemical toilets being poured into the toilets. We are on a septic system and that sort of behaviour causes the septic to stop working.

When our local reserve has been locked off from use, due to the ground being too wet for campervans or even cars, we have seen a disregard of parking lines in our carparks with campers choosing to park over several carparks in order to get the best view? Or, as with some of the longer vehicles, in order not to completely block the carpark.

There is no, one size fits all for freedom campers. Some areas will be better able to accommodate a designated number for a limited stay. When the carparks to our beach are both full, we have extremely limited street parking leading up to Matheson Bay and if vehicles park on both sides of the road, we then cannot get emergency vehicles down to the bay. Therefore if freedom camping is to take place anywhere in Auckland it needs to have limits and it needs to be monitored, not just during office hours.

Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

#### ENFORCEMENT.

It is not enough to have a Bylaw unless you are prepared to enforce this. We have seen in the past when pilot projects have been undertaken, that there is very limited support given to ensure compliance. Examples of this are having a ranger or a warden that works office hours, and have to cover for an extremely wide area (impracticable for the enforcement). When problems have arisen there has been a reluctance to do anything about transgressions. Fines could have been given as a deterrent.

Locals have had to put up with branches being pulled of trees for campers to make fires and during lockdowns council would not come out at all to help with unlawful camping and tents, cars being lived in. Laws are only for honest people and given that most freedom campers are very well behaved it must be frustrating beyond measure for them to have such campers in their midst on a site.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** It is not necessary to impose basic rules on freedom campers everywhere in Auckland

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Using a vehicle that is not self-contained does not pose a risk to the environment or public health and safety

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste. A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities. A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

Do you not support having general rules because, in your view: The general rules will unfairly impact some people

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people? Local residents could have campers parked outside their properties for several days before they move on to another resident's property

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

#

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

[Do you have any other comments on the general rules?](#)

I object to the council's proposal in its entirety in regard to opening up the streets of Auckland to freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** Freedom camping mainly happens over summer. At that time or year parking around beaches is usually very difficult especially as the majority of visitors are day trippers needing somewhere to park. This can be very difficult with people often having to park illegally on grass verges creating even more traffic problems or a long way from the beach. Freedom Camping will only make this significantly worse. Freedom camping in these spots also means that campers will be able to reserve spots overnight continuously which will make it a lot more difficult for day trippers and there is nothing to stop a large number of freedom campers spending a whole summer at a particular beach so long as there are a minimum of 7 local roads with parking spots as they can just relocate.

Groups of Freedom Campers will also be able to target local people if they are known opponents of Campervans with one arriving as soon as one leaves

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

Many streets in residential areas ( this is particularly true in Omaha) are not designed for significant on street parking. Some streets only have a few limited parking bays. For example while there are no painted parking restrictions on Mangatwhiri Road any cars parked on that road block traffic as it was not designed for roadside parking. However under these rules there is nothing to stop freedom campers parking all along that road. The locals know not to park on these roads. It can be dangerous. Campervans will make it even worse. . We are not even allowed to park campervans on our own property long term.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** In our experience freedom campers seem to choose prime locations such as beaches and set up camp for extended periods of time, blocking use and access by the public. Freedom camping has a significant impact on local communities.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** In our view there should be more regulated or "restricted" areas rather than less. Otherwise it will be a free for all with campervans spreading throughout residential areas and annoying local residents.

**How do you think the general rules will unfairly impact some people?** The greatest impact is going to be on the unwitting host communities. We already have numerous campervans camping in front of us in our residential street. The campers have little respect for local residents and seem to adopt "to hell with you" attitude. they take liberties. In our experience they do not respect local residents, let dogs run loose, drink, party and treat the road reserve like it is a camping ground by setting up awnings and sports equipment. We did not choose to live in a camping ground and Council should not allow this to happen.

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Although council has not identified any serviced areas in this proposal, I am aware of serviced areas on public land which should be included, Another reason (please explain)

**Another reason (please explain):** You are dealing with human behaviour and some people have no respect. We have had a campervan guy just urinate outside his campervan in full view of my 90 year old mother in law. Perhaps he didn't want to soil his own van or is just totally uncouth. This is the reality of what unsuspecting host communities are dealing with.

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? No – I support another no-return period rule (please explain)**

**No – I support another no-return period rule (please explain):** We feel we are between a rock and a hard place with this general rule proposal. We don't think campervans and house buses should be able to park in residential areas at all. The problem with the no return suggestion is that one van will be replaced by another. so it is the cumulative or aggregate situation of local residents constantly having vans parked in front of them, just different vans.

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

The impact on residents seems to have been forgotten with a much more permissive set of general rules. It is starting to look like people using campervans have more rights than local residents. The freedom to camp anywhere on residential street is a reversal of our rights as ratepayers to be able to enjoy our residential amenity. The balance is being tipped and the impact on host communities is not being recognised by Council.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

In the past where we have had difficulties with campervans and buses parking on the grass reserve, staying for the whole of Easter, letting dogs run loose and abusing local residents, blocking the boat ramp and the well used Dalton

#1437

Road picnic table. Council has not taken any enforcement action following calls to the Council service line. I doubt whether this will change and we will be left to fend for ourselves in North Rodney again. See attachment for more info

## Rodney Local Board area

### Prohibited sites

Helensville - Helensville Civic Centre Grounds 49 Commercial Road, Helensville, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Huapai - Huapai Service Centre/Kumeu Library 24 Oraha Road, Huapai, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Waimauku - Waimauku War Memorial Hall 22 Waimauku Station Road, Waimauku, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Leigh - Leigh Library and grounds 15 Cumberland Street, Leigh, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Ti Point - Ti Point walkway Ti Point Road, Ti Point, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Pakiri - Pakiri Hall grounds 1026 Pakiri Road, Pakiri, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Warkworth - Warkworth Town Hall grounds 2 Alnwick Street, Warkworth D, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

### Restricted sites

Port Albert - Port Albert Wharf Reserve carpark Adjacent to Wharf Road, Port Albert. Do you agree that freedom camping should be restricted in this area?

Which of the proposed restrictions for this area would you want to change at Port Albert Wharf?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area?

**Snells Beach - Whisper Cove (adjacent parking on road reserve) 70 Kokihi Lane, Snells Beach. Do you agree that freedom camping should be restricted in this area? Yes – restricted freedom camping should be allowed, but with different restrictions**

**Which of the proposed restrictions for this area would you want to change at Whisper Cove? Maximum stay, No-return period**

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site? 1 night

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site? There shouldn't be a no-return period

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

**Do you have any other comments you would like to make about this area?** Only having two "restricted" sites in Snells Beach is insufficient. In our view Council should reinstate the existing "restricted" sites in Sunburst Avenue carpark and in the Snells Beach Reserve carpark. These areas worked in the past and there are public amenities there as well. Otherwise with only two "restricted" spaces campervans are going to spread anywhere along residential streets in Snells Beach and exacerbate the impacts for local residents.

**Warkworth - 8 Church Hill carpark, Warkworth. Do you agree that freedom camping should be restricted in this area?**

**Which of the proposed restrictions for this area would you want to change at Church Hill?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

**Parry Kauri Park 32 Tudor Collins Drive, Warkworth. Do you agree that freedom camping should be restricted in this area?**

**Which of the proposed restrictions for this area would you want to change at Parry Kauri Park?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

## Submission on Proposed Auckland Council Freedom Camping Bylaw

### Introduction

We are the owners of [redacted]. We have owned the property for more than 10 years. We made a submission to the 2018 Freedom Camping Bylaw review as well.

We have been directly affected by the ongoing use of Dalton Road for freedom camping. Our level of amenity and quality of life is compromised by the behaviour of some freedom campers. We are totally opposed to allowing the sanctioned spread of such overnight camping along Dalton Road. This is a residential area, not a camping ground. As ratepayers we expect more protection of our rights from Auckland Council and would like the implications of the bylaw reviewed by the Council and the Rodney Local Board.

### Revised Bylaw Proposal

The proposed bylaw appears to reverse the existing situation under the current bylaw. Currently there are two specified or "restricted" areas in Snells Beach where Freedom Camping is permitted. These areas are in the carpark off Snells Beach Road at Snells Beach Reserve below Sunrise Boulevard and in the carpark off Sunburst Avenue.

The new proposal removes the two existing restricted sites and replaces them with one site with only two parks in Kokihi Lane adjacent to the Bayside Café. This is a significant cutback and is compensated by the ghastly proposal to allow freedom camping anywhere on residential streets for certified camper vehicles for up to two nights. We are totally opposed to this loosening of existing restrictions, and we believe it will further detrimentally impact on residents and the community.

The focus of both the Freedom Camping legislation and the proposed bylaw is on vehicle certification with respect to on board toilet facilities. This may well address the waste issue, but it does nothing to deal with the indiscriminate parking of campervans and house buses in residential areas and the significant impacts on residents.

The location of where these vehicles can park up overnight is the aspect of the proposed bylaw that we submit needs to be addressed.

### Impact on our Residential and Community Amenity

Over the last ten years we have experienced extensive unauthorised camping activity along Dalton Road. We have had campervans and buses park up for up to three nights over long weekends. They park in prime locations, hog the picnic table and block off parking for boat trailers using the Dalton Road boat ramp, as well as for day trippers and locals coming down for a swim and a picnic when the tide is in. The monopolisation of the picnic table is galling as this community amenity is utilised by up to five or six groups a day in summer for picnics and for locals to just come down and eat their fish and chips by the beach. Often the camper vans just park right beside it and use the table as their own. In addition, they park vehicles on the grass and pitch awnings and set up sports equipment as if they were in a camping ground, not a residential street.

In terms of our level of personal amenity, we did purchase the property for the sea views and having large vehicles like house buses and large campervans parked in front of our property blocking our view is not acceptable to us as ratepayers. We also do not expect to be living in an unsupervised camping ground with the associated behaviour that seems to eventuate. This has included a man urinating in front of my 90-year-old Mother-in-Law last Christmas, rather than walk 50 metres to the public toilets or use his own camper van facilities if he had them. On another occasion campers let dogs run free despite the local dog bylaws, one chased our cat around the back of our house and when I asked them to please control the dog I got told to f...off, the dog bowl was hurled at me, and I was threatened with assault. This is all very unpleasant and stressful.

Relief Sought and an Amended Bylaw Suggestion

We are asking for the following relief:

Reinstate the specified "restricted" overnight campervan parks with a maximum two nights stay in the Snells Beach Reserve and Sunburst car parks

Do not allow unfettered overnight freedom camping on residential streets in Rodney and in Snells Beach in particular

Make the Dalton Road waterfront a specified "No Overnight Camping" zone between the boat ramp opposite 29 Dalton Road and along Dalton Road to opposite 11 Dalton Road, Snells Beach. Appropriate parking bylaw and signage to be initiated accordingly.

We wish to acknowledge the opportunity provided by the Bylaws Committee to hear our verbal submission on 15 November. That was appreciated.

Photographic evidence supporting our submission

Everyday summer use of the road by beach visitors and boat trailers.

More locals enjoying the beach and picnic table.

Long term parking by campervans occupying spaces that locals and visitors would use and re-use over the period of a normal summer day.

Campervans monopolising the picnic table for day/s , not allowing the usual 5 or 6 groups that would picnic there daily.

This campervan certainly made himself at home, parked up on the grass by the picnic table for the weekend.

Wheels up on the grass, outside parking lines and blocking the launching ramp.

This bus was parked with its awning out for three days over Easter 2019.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Omaha Beach Community Inc. Submission to Auckland Council.**  
**Re: Proposed New Te Ture ā-Rohe Noho Puni Wātea ā-Waka 2022 / Freedom  
Camping in Vehicles Bylaw 2022**

## RELEVANT BACKGROUND

1. This document is submitted to you by the Omaha Beach Community Inc. (“OBC”) (<https://omahabeach.co.nz/>), believed to be one of New Zealand’s largest funded ratepayer associations, with circa 90% plus of all eligible ratepayers in Omaha Beach as financial members. We currently have some 1,200 paid up members, who are property owners in Omaha Beach.
2. Contact details:  
OBC Email: [us@omahabeach.co.nz](mailto:us@omahabeach.co.nz)  
Chris Allan, President: 021 745337  
Murray Beatson, Vice-President: 021 741391
3. We can reasonably claim that **the views and opinions expressed in this submission are reflective of the overwhelming majority of residents and ratepayers of Omaha Beach.**
4. Since the OBC first became aware of Auckland Council’s freedom camping proposals towards the end of 2018, we have undertaken a significant amount of research, and been in regular dialogue with the Local Board, Council, planners and lawyers.  
On 16 February 2019 the OBC made a written submission to Auckland Council in relation to the then proposed Freedom Camping in Vehicles Bylaw. A copy of this previous submission is attached at Appendix A for reference (noting we have not provided all the Appendices to this previous submission, but they are available on request, if required).
5. The OBC opposed the then proposed Freedom Camping in Vehicles Bylaw and requested a total prohibition of freedom camping in Omaha Beach. This view was based on what we had learned regarding the then proposed bylaw, and its potential impact on Omaha Beach. The OBC’s views submitted to Auckland Council were, and remain, based on the very strong views of the members expressed at our AGM, and also from the responses to an online survey undertaken on our members, where **83% of survey respondents were against**

**freedom camping at Omaha Beach.** The survey results formed part of our previous submission.

6. The key reasons for us then opposing Auckland Council's previously proposed Freedom Camping in Vehicles bylaw, included:
  - We were (and remain) extremely concerned about the implications of Part 1, Clause 6 of the Freedom Camping Act 2011 ("Freedom Camping Act"), where the local authority area for the Council includes areas of land controlled or managed by Auckland Transport; where the roads - and the numerous parking bays around Omaha Beach – could be severely impacted through freedom campers being permitted to stay in residential streets.
  - We believed that the 'not scheduled' areas could have general rules like other councils have used, including not parking outside a private house or business (as seen in Tauranga city) and limits on vehicle type and time periods.
  - Freedom camping is currently prohibited under the Rodney legacy bylaws.
  - The Freedom Camping Act does not prevent freedom camping being prohibited in some of Auckland Council's areas – such as Omaha Beach.
  - Council then proposed that sites for freedom camping in Omaha Beach, where it is currently prohibited under the Reserves Act 1977, be allowed using the delegated authority from the Minister of Conservation to overturn this prohibition, and allow freedom camping. We successfully objected to that.
  - Omaha Beach is a residential settlement, and we do not believe the Freedom Camping Act ever envisaged freedom camping in such areas, and.
  - The proposed restrictions on the sites were not realistic and we believe, unenforceable.
  
7. Subsequent to OBC's submission to Council on 16 February 2019, in relation to the consultation on the then proposed Freedom Camping in Vehicles Bylaw, the OBC engaged with Auckland Council via its lawyers, Grove Darlow & Partners ("Grove Darlow") (Letter dated 14 June 2019 which is attached at Appendix B for reference). Key points addressed in the correspondence were:
  - expressing real and substantive concerns with the content and lawfulness of the proposed bylaw and the process of decision-making of Council.
  - reasons why the proposed bylaw was unreasonable, unworkable, and unlawful.
  - that Council was proceeding with the bylaw under the misunderstanding that the Freedom Camping Act provides a mandate to actively promote freedom camping, which is not correct.
  
8. A letter from Grove Darlow to Simpson Grierson, on behalf of Auckland Council, on 2 August 2019 sought an undertaking to preserve the position re the bylaw pending resolution of the legal dispute with the OBC, and in the absence of such an undertaking the OBC advised it would have no option but to issue proceedings against Auckland Council.
  
9. On 22 August 2019 the Auckland Council Governing Body made the decision (Resolution number GB/2019/82) (inter alia) to:
  - defer any decision on a Freedom Camping in Vehicles bylaw pending advice from officers on the content of a new Statement of Proposal for a bylaw, and further information on a possible review of the Freedom Camping Act 2011.
  - direct officers to provide advice on the following potential elements of a future Statement of Proposal:
    - proposed prohibitions in the following areas:

- all areas the Freedom Camping Hearings Panel recommended should be prohibited
- the 61 sites proposed in public submissions for inclusion as prohibited areas, which were not specified in the original Statement of Proposal but are identified in Attachment E of the Hearings Panel Report
- all Reserves in residential areas that are Reserves held under the Reserves Act 1977
- o a General Rule that regulates freedom camping outside restricted and prohibited areas not listed in the proposed bylaw, which includes provision for:
  - a prohibition of all freedom camping in vehicles parked directly outside residential homes (unless the resident has granted permission for the vehicle to be parked outside their home)
  - a prohibition of all freedom camping in vehicles parked directly outside commercial premises, educational facilities, healthcare facilities, playgrounds, and swimming pools
  - a maximum number of nights stay at any specific site
  - the same enforcement approach in relation to homelessness as set out in the original Statement of Proposal, which aims to offer compassionate support for people with social needs

## **THE EXERCISE CURRENTLY UNDERWAY**

10. At a meeting of the Auckland Council General Body on 25 March 2021 it was then however resolved (Resolution number GB/2021/19) that (inter alia) the Governing Body:
  - confirm the specific policy intent and operational objectives for a Freedom Camping Act 2011 bylaw, within the context of a broader policy intent and operational objectives that includes the protection of reserves, outlined in the table at paragraph 81.
  - agree that the preferred option for progressing freedom camping regulation is Option two: Freedom Camping Act 2011 bylaw (excluding reserves), to:
    - i) make a bylaw under the Freedom Camping Act 2011 to control freedom camping on land held under the Local Government Act 2002
    - ii) retain the existing prohibition on freedom camping on land held under the Reserves Act 1977 and exclude all reserves from the scope of the bylaw.
  - direct staff to develop a detailed options report to support a decision on whether to include a general rule and possible settings for that rule, for inclusion in a new statement of proposal.
  - direct staff to also begin work on a new statement of proposal and draft freedom camping bylaw based on the option indicated in the second bullet point above
11. As a result of the above decision of Auckland Council's General Body, on 9 September 2021 Grove Darlow (acting for OBC) wrote to Auckland Council reiterating the contents of their letter of 14 June 2019. The letter notes that the bylaw is both unlawful and unreasonable; and that is apart from the fact that the proposed bylaw will, in relation to Omaha Beach, be both unworkable and unenforceable, and referring Auckland Council again to the OBC's submission of 16 February 2019.
12. On 17 September 2021 Simpson Grierson responded to Grove Darlow's letter. Simpson Grierson advised that presently no bylaw capable of challenge has, as yet, been adopted and encouraged OBC to have their say in the upcoming consultation process – which is the subject of this submission.

**THE “CONSULTATION” CURRENTLY UNDERWAY AND THE OBC’S WITHOUT PREJUDICE PARTICIPATION**

13. We note there are four parts to Auckland Council’s feedback form:

1. General rules for freedom camping
2. Feedback on specific areas where freedom camping will be prohibited or restricted
3. Other feedback on the Bylaw proposal
4. Some questions about us

**The OBC’s feedback below covers all four parts:**

**Question:**

**14. Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

15. Where freedom camping is not otherwise prohibited or restricted it would be appropriate to have general rules, such as a vehicle being required to be self-contained. However, OBC notes that what is proposed for a General Rule in the now proposed bylaw is contrary to Resolution number GB/2019/82 passed unanimously by the Auckland Council Governing Body on 22 August 2019, to regulate freedom camping by way of:

- a prohibition of all freedom camping in vehicles parked directly outside residential homes (unless the resident has granted permission for the vehicle to be parked outside their home)
- a prohibition of all freedom camping in vehicles parked directly outside commercial premises, educational facilities, healthcare facilities, playgrounds, and swimming pools

**Comments on the proposed general rules:**

16. As noted in Grove Darlow’s letter (acting for OBC) to Council on 9 September 2021 (and also their letter of 14 June 2019) key aspects of the proposed bylaw with which the OBC has an issue are:

- a) All roads across the whole of greater Auckland (except where there are currently parking restrictions) will become “restricted freedom camping sites”, with restrictions on the number of nights and only for self-contained vehicles displaying a blue sticker.
- b) There will be no limit on vehicle numbers in a street or a broader residential area.
- c) There will be no restrictions on ancillary use by the “freedom campers” of public areas, grass verges, reserves etc, adjoining any such streets (which might be termed a “spillover” problem).
- d) Only very limited additional resources and funding for enforcement or the monitoring of compliance is being provided by Auckland Council.

17. The Statement of Proposal incorrectly suggests that by reason of the Freedom Camping Act Auckland Council cannot prevent ‘freedom camping’ in campervans on the residential streets and roads of Auckland. That is wrong and clearly so. In terms of section 10 of the Freedom Camping Act, ‘freedom camping’ is simply conditionally “permitted ... unless it is restricted or prohibited in an area in accordance with a bylaw made under the Act or under any other enactment.”

18. The consequence of Auckland Council’s proposals will be that ‘freedom campers’ (as the Council now wrongly describes them) in a self-contained stickered campervan or caravan can live on the streets of any Auckland suburb, including Omaha Beach, indefinitely. They

would be entitled to park on a street or carpark for 3 days/2 nights before having to move. They can then move to another neighbouring street. Technically they are not entitled to return to the same street for 14 days. Even if that restriction were observed (and it would be impossible for council to enforce) so long as there are 7 streets in any given residential area the 'freedom camper' can stay in the same area indefinitely. The proposed bylaw would fail to contain freedom camping, or to protect residential areas at all.

19. OBC again notes that what is proposed for a General Rule is contrary to Resolution number GB/2019/82 passed unanimously by the Governing Body, to regulate freedom camping by way of:
  - a prohibition of all freedom camping in vehicles parked directly outside residential homes (unless the resident has granted permission for the vehicle to be parked outside their home)
  - a prohibition of all freedom camping in vehicles parked directly outside commercial premises, educational facilities, healthcare facilities, playgrounds, and swimming pools
20. In the results of the OBC's survey, Omaha Beach ratepayers overwhelmingly expressed the view that not all freedom campers will abide by restrictions placed on sites (95% of respondents do not believe freedom campers will abide by restrictions). Evidence at Omaha Beach has shown this is already the case. We fail to see how the proposed general rules, and restrictions can be managed.
21. In relation to our survey, we asked Omaha Beach ratepayers about their confidence in Auckland Council being able to adequately enforce any restrictions. 94% of respondents answered "No – I don't believe Council will be able to adequately enforce any non-compliance with the restrictions."

## **OMAHA BEACH SPECIFIC FACTORS**

22. Omaha Beach is located just an hour's drive north of Auckland and 15 minutes east of Warkworth. It is effectively a sand spit, reached by way of a causeway and bridge over the Whangateau Harbour. It has one of greater Auckland's best white sand beaches, and is a popular spot for all beach activities. The opening of the new northern motorway will further increase the popularity of Omaha Beach as a destination for day visitors from the rest of Auckland.
23. While Omaha Beach started as a holiday location, it is now very much a residential area, with a fast-growing permanent resident population. However, Omaha Beach is also a vital and popular seaside area for tens of thousands of visitors annually from the greater Auckland region and beyond. It is not uncommon during summer and even on fine winter days for the carparks, boat trailer parking and grass verges to be full with an overflow of vehicles to the nearby streets and cull-de-sacs. The facilities and infrastructure of Omaha Beach comes under extreme pressure from under-resourced facilities.
24. We also note that the Omaha Beach boat ramp has become extremely popular with boat owners from all over Rodney, and beyond as it is the only all-tide ramp in the area. We know that 80% of all users of the ramp are from outside Omaha Beach, and the volume of traffic is causing disruption on busy days to the residents of Omaha Drive and the side streets off it. As an example, on Saturday 16<sup>th</sup> October 2021 there were in excess of 350 vehicles with trailers, from boats launched from the ramp, in Omaha Beach, and an additional 50 vehicles associated with the boats also needed to find parking. The queue to enter the boat ramp was back to the Golf Club along Omaha Drive at 6:30am in the morning, and there have been

Omaha Beach Community Inc.  
Submission re Proposed Freedom Camping in Vehicles Bylaw 2022

many similar days already this summer. As we move into summer the congestion will be many times worse.

25. The area is also considered to be a sensitive coastal environment, with the residential area protected by dunes, a kahikatea forest/wetland vested in the Crown as reserve, and areas vested as neighbourhood Reserves, with pedestrian access and walkways to the beach carefully planned to protect the sensitive dunes environment.
26. Omaha Beach is also home to the Omaha Shorebird Sanctuary, managed by the Omaha Shorebird Protection Trust ('OSPT') (<http://www.omashorebirds.co.nz/>). The Omaha Spit forms a barrier between the open sea and Whangateau Harbour, a relatively unspoilt tidal estuary.
27. We do strongly oppose placing additional pressure on the already stretched facilities at Omaha Beach by opening up and promoting the additional provision of freedom camping, even with the proposed restrictions, which it will be impossible to enforce.
28. We note the statement on page 6 of the Auckland Council's proposal document that "Our research has found the Auckland does not currently have enough places for freedom campers to go".
29. The OBC strongly refutes the suggestion that Auckland residents or their Council are under any obligation to provide more places for freedom campers to set up camp and certainly not in residential areas.
30. In fact there is an abundance of alternative camping facilities in the Omaha Beach area, with some requiring stayers to pay a nominal amount for the location and facilities provided:
  - Whangateau Holiday Park – 60 sites – 10 minutes from Omaha – the most obvious of location for this area – and operated by Auckland Council! Situated on Whangateau Harbour, east of Warkworth and near Leigh in the Matakana Coast area, with sites right on the waterfront.
  - Martins Bay Holiday Park - again, operated by Auckland Council!
  - Matakana Country Park – 9 sites – 5 minutes from Omaha – and unlimited potential to increase
  - Sandspit Holiday Park
  - Scandrett Regional Park
  - Tawharaunui Regional Park
  - Goat Island Camping and Accommodation – Leigh
  - Snells Beach
  - Mathesons Bay
  - Warkworth campground

### **CONSULTATION DEFECTIVE**

31. Finally, the OBC records its position that the current consultation itself is defective in numerous respects. Please refer to the letter from our lawyers Grove Darlow to the Council's solicitors dated 1 December 2021.

Omaha Beach Community Inc

5 December 2021

**Omaha Beach Community Inc. Submission to Auckland Council.  
Re: Proposed Freedom Camping in Vehicles Bylaw**

**1. Introduction**

This document is submitted to you by the Omaha Beach Community Inc. ('OBC') (<https://omahabeach.co.nz/>), believed to be one of New Zealand's largest funded ratepayer associations, with circa 90% plus of all eligible ratepayers in Omaha Beach as financial members. We currently have some 1,200 paid up members, who are property owners in Omaha Beach.

Contact details:

OBC Email: us@omahabeach.co.nz

Chris Allan, President: 021 745337

Murray Beatson, Vice-President: 021 741391

We can reasonably claim that **the views and opinions expressed in this submission are reflective of the overwhelming majority of residents and ratepayers of Omaha Beach.**

Since we first became aware of Council's proposals towards the end of last year, we have undertaken a significant amount of research, and been in regular dialogue with the Local Board, Council, planners and lawyers.

We believe we now have a much greater understanding of the Council's proposals and the implications for Omaha Beach.

The OBC is making this submission to Council, **opposing the bylaw as proposed, and requesting a total prohibition of freedom camping in Omaha Beach.** This view is based on what we have learned regarding the proposed bylaw, and its potential impact on Omaha Beach; the views expressed at the AGM, and also from the responses to an online survey undertaken on our members, where **83% of survey respondents were against freedom camping in Omaha Beach.** The survey results form part of this submission, and are included as Appendix 8.

Omaha Beach Community Inc.  
Submission re Proposed Freedom Camping in Vehicles Bylaw

**Key reasons for us opposing the Council's Freedom Camping in Vehicles bylaw, as proposed, include:**

- We are extremely concerned about the implications of Part 1, Clause 6 of the Freedom Camping Act 2011 ('the 'Freedom Camping Act'), where the local authority area for the Council includes areas of land controlled or managed by Auckland Transport ('AT'); the roads - and the numerous parking bays around Omaha Beach - and with the default position under the Freedom Camping Act and the proposed bylaw essentially being that ... if a site is not restricted or prohibited under another enactment, and is 'not scheduled' in the bylaw, then freedom camping is permitted. It is our understanding we could therefore see, under the proposed bylaw, freedom campers parking and setting up 'camp' outside and beside people's homes, essentially in any vehicles they like – which would be totally unacceptable!
  - We believe that the 'not scheduled' areas must have general rules like other councils have used, including not parking outside a private house or business (as seen in Tauranga city) and limits on vehicle type and time periods.
  - Freedom Camping is currently prohibited under the Rodney legacy bylaws.
  - Our view is that the Freedom Camping Act does not prevent freedom camping being prohibited in some of Auckland Council's areas – such as Omaha Beach.
  - The Council proposed sites for freedom camping in Omaha Beach are all currently protected from camping under the Reserves Act 1977 ('the Reserves Act'), but Council proposes using a delegated authority from the Minister of Conservation to overturn this prohibition, and allowing freedom camping – which we object to, and question.
  - Those property owners with properties adjacent to the proposed Reserve sites bought there having the comfort of the Reserves Act to prohibit camping.
  - Omaha Beach is a residential settlement, and we do not believe the Freedom Camping Act ever envisaged freedom camping in such areas.
  - The Reserves sites proposed by Council, and noted below, even as 'restricted' sites, are totally unsuitable for freedom camping and are strongly objected to:
    - Pukemateko Reserve, 177 Mangatawhiri Rd,
    - 160 Omaha Drive (overflow boat trailer parking),
    - William Fraser Reserve, 37 Broadlands Drive
- These Reserves are adjacent to residential properties; they are already heavily utilised; there will be a severe reduction of car parks for use by resident ratepayers and visitors if camping sized vehicles are allocated spaces; none of the sites can comfortably accommodate the safe movement of 2-4 berth campervans without significant ground works being undertaken; and they have very limited, or no, public toilet facilities or drinking water available.
- The proposed restrictions on the sites are not realistic and are, we believe, unenforceable.

Whilst strongly opposing freedom camping in Omaha Beach, we have also given careful consideration of other, local, more suitable sites, and comment on these is contained in Section 18. of this submission.

## 2. Executive Summary

- Omaha Beach ratepayers are overwhelmingly opposed to the Freedom Camping Bylaw, as proposed, and to allowing freedom camping in Omaha Beach.
- Freedom Camping is currently prohibited in Omaha Beach under the Rodney legacy bylaws, and this prohibition must continue, due to the unique combination of factors that would otherwise result in a significant negative impact on the access, amenity and safety for all residents and visitors to Omaha Beach.
- The Freedom Camping Act does not prevent freedom camping being prohibited in some of Auckland Council's ('Council') areas – such as Omaha Beach.
- The Freedom Camping Act ensures the ongoing protection of the Omaha Beach Reserves through the Reserves Act.
- We are also extremely concerned about the proposed revoking of Rodney District Council General Bylaw 1988: Chapter 8 Public Places, and the implications of losing the no-camping protection in our residential streets and carparks.
- We object to the proposed bylaw with no 'general rules' for the areas classified as 'not scheduled'. Included in these areas are land controlled or managed by AT. We believe including nearly every kerbside and cul-de-sac carpark in our residential streets in the 'not scheduled' category results in unenforceable and unrestricted camping in any vehicle for an unlimited time period. This has significant and extraordinarily wide reaching negative impacts on the amenity, access and safety for the residents and ratepayers of Omaha Beach and the many visitors to the area.
- The impact of freedom camping will be magnified in Omaha Beach due to its immense popularity and accessibility from Auckland, together with the proposed widespread promotion as a freedom camping spot by Council, and also social media.
- The impact and loss of amenity and access will not just be limited to our Reserves but, also our residential streets by having freedom camping right outside our houses across nearly all of Omaha Beach.
- We already experience issues with freedom campers – even though it is prohibited (but Council may not be aware of these issues, as we believe they haven't been reported).
- We need ongoing protection of our Reserves and limiting damage and illegal activity in these Reserves, and the streets and cul-de-sacs, across Omaha Beach.
- Omaha Beach is a residential area, and we do not believe it was ever the intention of the Freedom Camping Act to actively promote freedom camping in such areas.
- The Reserves were vested in Council for protection of residents, and it was never contemplated that such a use as camping would ever be permitted on them.
- Those property owners adjacent to the proposed Reserve sites bought there having the comfort of the Reserves Act to prohibit camping.
- All the proposed sites are in built up residential areas, within metres of the nearest houses. The Reserves are all in viewing channels and noise zones of surrounding residential properties.
- We recognise that the two sites in Omaha Beach designated as prohibited in the proposed bylaw are also Reserves where camping is prohibited by the Reserves Act. However we agree that those two Reserves must have their prohibited status continued under any new bylaw and highlighted with signage to this effect. The sites are
  - 223 Omaha Drive (Omaha Beach Boat Launching Ramp and Wharf);
  - 15 North West Anchorage (Omaha Reserve).
- The Council proposed sites for restricted freedom camping in Omaha Beach are all currently protected from camping under the Reserves Act. We do not support Council using the delegated Ministerial authority to overturn the prohibition of camping in these Reserves, and allowing freedom camping.
- The Reserves proposed by Council, noted below, even as 'restricted' sites, are totally unsuitable for freedom camping and are strongly objected to:
  - Pukemateko Reserve, 177 Mangatawhiri Rd,

Omaha Beach Community Inc.

Submission re Proposed Freedom Camping in Vehicles Bylaw

- 160 Omaha Drive (Rita Way, Excelsior Way, Lagoon Way),
- William Fraser Reserve, 37 Broadlands Drive
- These restricted Reserves are already heavily utilised and frequently the traffic overflows through to the surrounding streets.
- There will be a severe reduction of car parks for the use of resident ratepayers and visitors if camping sized vehicles are allocated spaces and access in those car parks, and we maintain that none of the proposed restricted reserves can accommodate the safe movement of 2-4 berth campervans without significant ground works being undertaken.
- The proposed sites have very limited, or no, public toilet facilities or drinking water in the proposed restricted reserves, with no sites having 24/7 water or toilet facilities, and are considered unsuitable even for certified self-contained vehicles.
- None of the proposed Reserves meet any of the criteria set by Council that mitigates the known harms from freedom camping.
- We request the appointment of Insite Security Ltd as a local 'enforcement officer' for Omaha Beach, as is permitted under the Freedom Camping Act.
- We note the obligations on Council to use the special consultative procedure set out in Section 83 of the Local Government Act 2002 ('LGA') for the proposed bylaw. We are of the view that Council have not fully met their obligations under the special consultative procedure.
- Council's consultation process required us to make numerous further enquiries of Council to obtain a full understanding of the proposal, and its implications – particularly regarding the significant implications on the access, amenity and safety of the people of Omaha Beach in relation to the inclusion of the AT areas in the 'not scheduled' areas of the proposed bylaw.
- We are also disappointed that, whilst we were made aware of Council's a 'Have Your Say' drop-in session in Warkworth, it was held on 16<sup>th</sup> February 2019, giving us only 2 days to finalise our submission before the close of the consultation process – which we believe to be inadequate.
- We do not believe the primary harms, noted by Council in relation to freedom camping, will in fact be adequately managed with the proposed bylaw and will in fact magnify beyond all proportion in the Omaha Beach area the recognised primary harms of freedom camping.
- Whilst acknowledging that a bylaw may be a way of addressing the perceived problems, we maintain that the desirability of Omaha Beach to campers means that **prohibition of freedom camping in Omaha Beach is the most appropriate and proportionate response.**

Omaha Beach Community Inc.  
Submission re Proposed Freedom Camping in Vehicles Bylaw

Spot the difference between these 2 pictures ... They are both freedom camping sites ... although the one at the bottom is of one of the proposed sites in Omaha Beach.  
Note close proximity to residents, no running water, no toilets facilities  
Surely this was never the intention when the Freedom Camping Act was enacted?

**Pukemateko Reserve - 177 Mangatawhiri Rd-  
Busy carpark, immediately adjacent residential area, no room for safe manoeuvring of  
designated camper vans, no toilets, no running water.**

### **3. Omaha Beach – Unique conservation area already under pressure from visitors**

Omaha Beach is located just an hour's drive north of Auckland and 15 minutes east of Warkworth. It is effectively a sand spit, reached by way of a causeway and bridge over the Whangateau Harbour. It has one of the best white sandy beaches, and a popular spot for surfing, within an hour's drive of Auckland city.

The area is considered a sensitive coastal environment, with the residential area protected by dunes, a kahikatea forest/wetland vested in the Crown as reserve, and areas vested as neighbourhood Reserves, with pedestrian access and walkways to the beach carefully planned to protect the sensitive dunes environment.

Omaha Beach is also home to the Omaha Shorebird Sanctuary, managed by the Omaha Shorebird Protection Trust ('OSPT') (<http://www.omashorebirds.co.nz/>). The Omaha Spit forms a barrier between the open sea and Whangateau Harbour, a relatively unspoilt tidal estuary. The area is important for a range of native shorebirds, which feed on the estuary at low tide. Some of them, such as the threatened New Zealand Dotterel and the Variable Oystercatcher, nest on Omaha Spit in significant numbers. With the formation of the OSPT in 2009, the community has taken the lead in protecting Omaha's shorebirds and the successes have been very heartening for the community. See also letter from OSPT at Appendix 9.

While Omaha Beach started as a holiday location, it is now very much a residential area, with a fast growing permanent resident population. However, Omaha Beach is also a vital and popular seaside area for tens of thousands of visitors annually within the greater Auckland region and beyond. At times its carparks, boat trailer parking and grass verges are full with the overflow of vehicles to accommodate the visitors. With the numbers of residents, and visitors, swelling dramatically at weekends, holidays, and over the summer period in particular, the facilities and infrastructure of Omaha Beach comes under extreme pressure from under-resourced facilities – as is evidenced by the need for the OBC to arrange twice weekly residential rubbish collections by Northland Waste, and weekly recycling collections by Council's contractor (with the OBC and its resident ratepayers contributing to the cost of these additional collections). At the main beach Reserve (William Fraser Reserve) the only public toilets are inside the surf club building, which are locked at night, and are totally inadequate for the visitor numbers. There is no drinking water for visitors as Omaha Beach is on individual tank water. *See Appendix 1- for photos of overflowing car parks in our designated Reserves.*

Omaha Beach was first developed in the early 1970's, in northern Omaha. Work on the southern end (under the control of the Omaha Beach Residents Society (<http://www.obrs.co.nz/homepage>) – but under the overall umbrella of the OBC) commenced in the late 1990s. Over the years the Omaha Beach community has funded and improved many of the services and facilities it has today – such as the golf course, tennis courts, boat ramp, community centre, sewerage disposal system, and surf lifesaving clubrooms.

We do not support placing additional pressure on the already stretched facilities at Omaha Beach by opening up and promoting the additional provision of freedom camping. While the current Reserve sites are unsuitable, as detailed in the following sections, the very nature of Omaha Beach's visitor numbers would see a significantly magnified and negative impact from the recognised 'primary harms' with the inclusion and overflow of freedom campers. The overflow would be parked in the surrounding streets in the immediate vicinity of the proposed freedom camping Reserves. As these streets would be classified as 'not scheduled' they would be open for unrestricted, unenforceable, and unlimited freedom camping in any vehicle. It is basically opening up the whole of Omaha Beach, a popular and at times overflowing residential beach side area that has little if any available toilet or fresh water facilities, into an unrestricted, unenforceable and unlimited freedom camping hub only an hour from NZ's largest city. This is strongly objected to by the residents and ratepayers of Omaha Beach.

#### **4. NO to freedom camping from the residents and businesses of Omaha Beach Public meetings and Survey of Omaha Beach residents on the proposed bylaw**

Omaha Beach ratepayers are opposed to freedom camping in Omaha Beach.

We undertook an online survey of our members (those for whom email addresses were held), during a period of one month, from 16<sup>th</sup> January 2019, with a 59% response rate. The survey results show 83% of respondents are against freedom camping in Omaha Beach. In relation to the sites proposed for freedom camping by Council, between 84% - 88% of respondents were against permitting freedom camping there. Full survey results are contained as an Appendix 8

In relation to the survey question “Do you support Council permitting freedom camping at Omaha Beach? **83% of respondents said “No – I do not support Council permitting freedom camping at Omaha Beach, even with restrictions on the use of sites.”**

In relation to the proposed restrictions on freedom camping sites, there was basically no confidence in these being at all effective, or abided by.

**95% of respondents answered “No – I do not believe freedom campers will abide by all restrictions.”**

At the OBC AGM held on 20<sup>th</sup> January 2019, the topic of freedom camping attracted the largest turn out to an AGM in many years. A motion was passed such that the OBC seek a continuation of the current prohibition of freedom camping in Omaha Beach as currently stands under the Rodney legacy bylaws, and the protection given to the proposed sites under the Reserves Act.

A statement from the OSPT has also been obtained. *See Appendix 9* The reasons given are pressure and tension between users already being experienced in the Reserves, lack of basic facilities like toilets and running and drinkable water in the Reserves, issues already being experienced with freedom camping and the negative effect on local business and income, and impact on the conservation areas, if this bylaw went ahead as proposed.

#### **5. Evidence of the damage being experienced at Omaha Beach from freedom campers.**

The Omaha Beach residents have collected significant evidence as examples of the issues experienced with illegal freedom camping at Omaha Beach, including evidence of human excrement left from campers, fires in conversation reserves, disturbances in the Omaha Beach protected bird sanctuary, parking across multiple car parks restricting other user access, noise, and alcohol. *Appendix 2 shows pictures of this evidence collected over only 2-3 weeks pre this submission.*

Whilst we have experienced issues with freedom campers in Omaha Beach, we are aware that these may not in fact have been reported to Council – due to Insite Security’s current patrols and the frustration by residents in having ineffective enforcement of other bylaws, and frustration with trying to phone Council.

However, we believe the issues experienced in the past will pale into insignificance if the Freedom Camping in Vehicles Bylaw is enacted as proposed.

There is sufficient evidence from other popular areas in NZ through other Council’s meeting minutes, press reports and industry body reports, to give us serious cause for concern on the impact of promoted and advertised freedom camping at Omaha Beach.

## 6. Representation and interpretation of the Freedom Camping Act and the proposed Freedom Camping in Vehicles bylaw

We have noted a view by Council (Agenda of the Regulatory Committee meeting 10 August 2017; para 19) stating that ...

*"The Freedom Camping Act 2011 allows freedom camping to occur on any local authority area or conservation land, unless prohibited by another enactment. The council may not 'absolutely prohibit freedom camping in its area or district'."*

We note that what has actually been quoted in the Council papers is the heading of Section 12 ... whereas the Act (Section 12) actually states the following ...

*"(1) A local authority may not make bylaws under section 11 that have the effect of prohibiting freedom camping in all the local authority areas in its district.*

*(2) This section is for the avoidance of doubt."*

The OBC is of the view that the wording of Part 2 Section 12 of the Act, means that, whilst prohibiting Council from making a bylaw that has the effect of prohibiting freedom camping in all the Council areas, banning it in some is not actually excluded by the Act.

Omaha Beach is a residential area, but with unique factors of close location to the centre of Auckland, conservation zones alongside built up residential zoning, and is experiencing pressures from ever-increasing visitor numbers. There is evidence based proof that show the damage and pressure that illegal freedom campaign is doing now to the area and also the learnings as documented in the Council's 'primary harms'.

We do not believe it was ever the intention of the Freedom Camping Act to promote freedom camping in such residential areas as Omaha Beach, and contend that the Freedom Camping Act does allow for prohibition in some areas that require protection. The Freedom Camping Act gives Council the ability to provide a proportionate response to the issues seen. We maintain that a proportionate response to Omaha Beach's unique factors is the prohibition of all freedom camping at Omaha Beach to protect the amenity, access and health and safety of all Omaha Beach residents and visitors to Omaha Beach.

## 7. Protections under the Reserves Act and the Freedom Camping Act

All Reserves in Omaha Beach are protected from Camping under the Reserves Act. These protections are also recognised in the Freedom Camping Act (clause 10b). We note that Council also hold this view as they state they require Ministerial Consent to overturn these protections before freedom camping can proceed in these current Reserve sites.

We note the comment in the consultation documents that delegated authority is held by Council, from the Minister of Conservation. We have obtained a copy of this document ('Reserves Act Instrument of Delegation for Territorial Authorities' dated 8 July 2013). The document was only received by us a couple of days ago, and we haven't yet had the opportunity to fully study it, and obtain a legal view. However, we do question the Council's use of this delegated authority for the proposed purpose, noting the 'general purpose' of the Reserves Act talks of *the preservation of the sites for the public of NZ, and protection of the Reserves from unnecessary subdivision and development.*

Our view is that permitting 'camping', and the opening up of the reserves to freedom camping as is proposed, especially under the currently documented 'primary and secondary harms' as published by Council, is considered 'development' in this sense, and not is adhering to the 'preservation' and 'protection' of these Reserves.

Omaha Beach Community Inc.  
Submission re Proposed Freedom Camping in Vehicles Bylaw

We object to the proposal to overturn these protections and to permit 'camping' on these Reserve sites and thus create parks for freedom campers.

## **8. Rights of current residents and the vesting in Council of Omaha Beach Reserves for ongoing protection**

We believe it was never contemplated that a use, such as 'camping', would ever be permitted on the Reserves when they were created as part of the Omaha Beach development - with homes adjacent to the proposed sites. These reserves were paid for from the developers - and therefore, effectively, the residents of Omaha Beach and vested with Council for protection. We believe it is a huge breach of trust that Council are now proposing to overturn these protections in some of Omaha Reserves.

Those property owners with properties adjacent to the proposed Reserve sites bought there having the comfort of the Reserves Act to prohibit camping, and it would be totally wrong for Council to change this status for the purpose now intended under the proposed bylaw.

## **9. The magnified impact on Omaha Beach of the 'not scheduled' areas in the proposed bylaw.**

We are extremely concerned about the proposed revoking of the Rodney District Council General Bylaw 1998: Chapter 8 Public Places. The proposed new Freedom Camping in Vehicles bylaw has almost all of the Omaha Beach residential streets and local resident car parking being classified as 'not scheduled' in the bylaw. There are no general rules given or proposed in these 'not scheduled' areas. We understand consideration had been given by Council to including 'general provisions' in the proposed bylaw, to apply to camping on residential streets, but these were voted down by the Council's Regulatory Committee.

With the non-inclusion of general rules for all other areas of Omaha Beach residential streets and car parking bays and areas, the impact on Omaha Beach is potentially catastrophic, unacceptable, and entirely unmanageable.

As already stated, Omaha Beach has unique factors with its location close to Auckland, and the airport, as well as the hugely popular beach side amenity that is at times overrun with pressures on existing infrastructure. The opening up and promotion of freedom camping at such a renowned and popular beach will result in the overcrowding of any freedom camping space allowances. This will then result in the spilling out across all of Omaha Beach, into its streets and carparks for unlimited, unrestricted, unenforceable freedom camping in any vehicle. The setting up 'camp' outside and beside people's homes is totally unacceptable and, again, we believe was never the intention under the Freedom Camping Act.

Following enquiry to Council, we have been advised that *"AT controlled land can be included in the bylaw if there is evidence that a restriction or prohibition is required based on one of the three criteria specified in the Act. If there are specific roads or parking areas that ... (we) has evidence for the need for a restriction on then ... (we) should include this in ... (our) submission and the hearings panel will consider this."*

Our argument is that it is unrealistic to specify every street, parking bay and area, for inclusion in the bylaw ... but that freedom camping should be prohibited in all of Omaha Beach.

## **10. Learnings from other cities**

All of the other NZ cities include general rules for areas like the 'not scheduled' areas that Council are proposing.

Tauranga, for example, appears to be leading the way in balancing the needs of its people with the requirements of the Freedom Camping Act, and has general rules that allow the protection of access and amenity, and the health and safety of their residents. They state:

Self-contained vehicles only (non self-contained must go to a campground)

You can **not** camp in front of a private residence or business

Maximum 2 nights stay

Wellington, Christchurch and Dunedin have also self-contained requirements.

Auckland, as NZ's largest and most populated city, needs to prioritise the needs of its ratepayers and residents.

## **11. Omaha Beach meets the standards of being a HIGH /HIGH on the Council's matrix rating - requiring PROHIBITION**

The unique factors of Omaha Beach classify it in the Council matrix utilised to determine freedom camping restrictions - as Level of Protection needed HIGH, and Desirability to campers HIGH. On this basis Omaha Beach and its residential streets and car parking bays and areas MUST have the protection required from freedom camping to protect the amenity, accessibility, and health and safety of its visitors, its residents, its ratepayers and its conservation environment.

The Council are within its rights under the Freedom Camping Act to put in place prohibition to areas that require protection of the amenity, accessibility and health and safety of the people and the area. All evidence presented here, both written and photographic, clearly states and shows the required prohibitions on freedom camping is needed for Omaha Beach.

## **12. Sites selected and proposed as prohibited are supported by Omaha Residents**

We recognise that the two sites in Omaha Beach designated by Council as prohibited in the bylaw proposal are reserves where camping is currently prohibited as covered in the Reserves Act. We agree that those two Reserves must have their prohibited status continued under any new bylaw and highlighted with signage to this effect. The sites are 223 Omaha Drive (Omaha Beach Boat Launching Ramp and Wharf); and 15 North West Anchorage (Omaha Reserve).

## **13. Unsuitability of the proposed 'restricted' sites designated by Council for Omaha Beach**

The sites selected and proposed by Council as 'restricted' sites' are all currently protected under the Reserves Act and remain protected under clause 10.b in the Freedom Camping Act. These sites being opened to freedom camping are objected to by the residents of Omaha Beach and we request that the current protection from camping in these Reserves remains in place. We suggest that appropriate and proper signage be erected to advise of the no-camping status of these protected Reserves – as well as at the entry to Omaha Beach itself. These Reserves are already stretched at peak periods and do not have the infrastructure to handle current usage now, before the addition of over-night freedom camping – even if it was restricted to certified self-contained vehicles only. The Council commissioned report 'Rodney Public Toilet Provisions March 2018'

Omaha Beach Community Inc.  
Submission re Proposed Freedom Camping in Vehicles Bylaw

stated “*The public toilet provision in Omaha is insufficient to meet the demand from both locals and tourists*”.

The Reserves proposed by Council as restricted freedom camping sites are:

- Pukemateko Reserve, 177 Mangatawhiri Rd
- 160 Omaha Drive (Rita Way, Excelsior Way, Lagoon Way)
- William Fraser Reserve, 37 Broadlands Drive

### **Pukemateko Reserve, 177 Mangatawhiri Rd**

Proposed by Council as a ‘restricted’ site. This site is not supported by the local residents and businesses of Omaha. *Note please see Appendix 4 for photo evidence of the following points*

Reasons being:

- This Reserve is surrounded by residential properties fronting onto the Reserve, who will be severely impacted by the proposed change in status from the current prohibition of camping that remains in place.
- It is immediately adjacent and in full view and sound zone of a fully built up residential area. (See Appendix 4).
- This site has NO running water, NO public toilet facilities, and is a busy and at times overflowing public car park for day visitors and locals (see Exhibit 3)
- There is only one rubbish bin
- The protected Reserve is also a popular and safe children’s playground. *Appendix 4*
- The car parking area is popular for ‘surfies’ who often surf at the southern end of the beach.
- The current experience from illegal camping in this reserve is that because parking and turning is tight and set for cars, illegal campers park horizontally across multiple parks taking significantly greater space than one carpark. *See Appendix 4*
- The site is a busy residential car park and is not large enough to allow the safe entry, exit and manoeuvrability required for a standard 2 berth camper van and would require substantial earthworks to accommodate these. As shown in an independent review *Appendix 3*
- The suggestion is 3 freedom camping parks; certified self-contained vehicles only, Although 3 parks are proposed, with no active Council funded enforcement, this will not prevent greater numbers using the area and setting up camp, as recognised in “primary harms” in Council’s own documents. It is considered highly unlikely freedom campers will vacate the sites during the daytime.
- The overflow from this site will have no barriers to moving into the adjacent residential streets that will be classified as ‘not scheduled’ and will result in unenforceable, unlimited and unrestricted freedom camping for an indefinite period in these streets.
- **Prohibition is required to protect access to this area.**

Our survey asked for views on the Council’s 3 proposed sites for freedom camping. In relation to this site, **84% of respondents answered “No – I do not support Council’s proposal to have (restricted) freedom camping in the car park at Pukemateko Reserve, 177 Mangatawhiri Rd, Omaha South.”** See Appendix 8- OBC Survey Results

Omaha Beach Community Inc.  
Submission re Proposed Freedom Camping in Vehicles Bylaw

### **160 Omaha Drive (Rita Way, Excelsior Way, Lagoon Way)**

Proposed by Council as a 'restricted' site. This site is not supported by the local residents and businesses of Omaha. *Note please see exhibit 3 for photo evidence of the following points*

Reasons being:

- This site is the location of the overflow boat trailer parking, and is utilised heavily throughout summer - not just by the residents of Omaha Beach, but also the surrounding areas. *Appendix 5*
- This site is also surrounded by residential properties, who will be severely impacted by a proposed reversal of the current prohibition of camping as covered in the Reserves Act with this prohibition remaining in place under 10.b of the Freedom Camping Act.
- There is no running water, no toilets and 1 rubbish bin.
- The site is a small car park utilised for overflow boat ramp parking and does not have a large enough hard stand area to allow the safe entry, exit and manoeuvrability required for a standard 2 berth camper van and would require substantial earthworks to accommodate these. As shown in an independent review *Appendix 3*
- It is proposed by Council as 'restricted', with 2 freedom camping parks; certified self-contained vehicles only.
- With no additional funding being proposed by Council to enforce the rules, as recognised in the "primary harms", it is we believe it is unlikely freedom campers will vacate the site during the daytime and leave the area free for use by the boating residents and visitors, and for the use it was established and intended.
- 2 parks are proposed and any overflow will be able to move to immediately surrounding residential streets and resident carparks as these are classified as 'not scheduled'. Campers will be permitted to set up camp overnight in their non-self-contained vehicles indefinitely in "not scheduled" areas.
- Prohibition and signage is required to protect access to this area.

In relation to this site in our survey, **88% of respondents answered "No - I do not support Council's proposal to permit restricted freedom camping at 160 Omaha Drive ..."**

### **William Fraser Reserve, 37 Broadlands Drive**

Proposed by Council as a 'restricted' site. This site is not supported by the local residents and businesses of Omaha. *Note please see Exhibit 3 for photo evidence of the following points*

Reasons being:

- Currently proposed by Council as a 'restricted' site, with 5 freedom camping parks, but with 'non self-contained' vehicles permitted.
- This is the main Reserve and car parking area in Omaha Beach, located adjacent to commercial premises and the Surf Life Saving Club, and the main access to the beach itself.
- This Reserve is prohibited for camping under the Reserves Act
- The Reserve is also surrounded by established residential houses.
- There are only very limited toilet facilities, and an outside shower, all as part of the Surf Life Saving Club building. These facilities are already under immense pressure. *Appendix 6*
- There is no potable water supply - it being from a bore. There is a question mark over the continued availability of these facilities to the public, due to the impact it is having on the Surf Life Saving Club itself, with the public just expecting to also use the facilities in their clubrooms, and theft of property from the premises.
- These facilities are locked at night due to prior issues from night time disturbances.

Omaha Beach Community Inc.  
Submission re Proposed Freedom Camping in Vehicles Bylaw

- The car park currently cannot enable safe manoeuvring of campervans (2-4berth) and would require substantial earthworks. The resulting loss of parks is estimated at over 16. This assessment work was completed for the OBC by an independent planner. Losing multiple car parks to larger camping vehicles has an impact on reducing already insufficient parking in this area see – *Appendix 3*
- The public car park area is already bursting and overflowing during busy times –*Appendix 6*
- With advertised and promoted freedom camping it is logical to anticipate a significant over-subscription of night time campers. The overflow would go into the nearby residential streets and car parks which are classified as “not scheduled” and lose the protections under the Rodney Bylaw 8 when revoked. This will create unrestricted, unenforceable, unlimited freedom camping in non-self-contained vehicles being permitted in Omaha Beach streets.
- The overflow into ‘not scheduled’ areas creates a disproportionate impact on the health, safety, amenity and access to Omaha, its residents and its visitors.
- The proposed restriction to permit non self-contained vehicles at this site is entirely inappropriate – it would have needed to be certified self-contained vehicles only due to the non-access and unsuitability of the toilet and water facilities nearby.
- We also believe other restrictions should also have been imposed, such as times to arrive at, and vacate the site by, for campers in vehicles.
- However, our lack of confidence in freedom campers adhering to any such restrictions and our current experiences of freedom camping harms already experienced at Omaha, together with the lack of Council funds designated for adequate enforcement, would make the restrictions totally ineffective.
- Prohibition is required to protect access to this area

In relation to this site, **84% of the survey respondents answered “No – I do not support Council’s proposals to permit restricted freedom camping in the car park at William Fraser Reserve, 37 Broadlands Drive.”**

#### **14. Ignoring Health and Safety standards impacting safety of all users in areas allocated for Freedom Camping**

We are of the view that there is also health and safety issue with vans being parked, occupied overnight, and too close together with cooking inside with gas bottles. We have noted that the Camping-Ground Regulations require a minimum level of separation ... *“No temporary living place shall be erected or placed on any camp site within 3 metres of any other temporary living place, or within 1.5 metres of any camp site boundary, as the case may be”*.

Wouldn’t this health and safety requirement apply also to gas cooking within vans? We find it unusual that Council would suggest (as noted in Meeting Minutes of 13 September 2018), that the safety of those people utilising the carparks with freedom campers and for those freedom campers themselves, would be allowed at a lower level of safety than that applied to camping grounds. We cannot understand why the health and safety of those people would be protected in any less of a way than that covered in camp grounds. By applying the health and safety requirements for the safety of ALL users of the carpark, this would require the significant over taking of multiple more carparks than proposed, in what is already limited carparks in the designated freedom camping carparks in Omaha Beach.

We note from Council papers (Regulatory Committee meeting 13 September 2018 – para 64) that Council are aware of this issue, and where it was stated ... *“Feedback from local boards and community stakeholders included that campers should be at least three metres apart to align with the regulations imposed on commercial campgrounds. While this is a relevant consideration for fire*

Omaha Beach Community Inc.  
Submission re Proposed Freedom Camping in Vehicles Bylaw

*safety, it is impractical to implement within existing infrastructure and will reduce the number of camping areas on a site.” ...*

Of some considerable concern to us, Council would appear to have chosen to just ignore this issue ...and place people at risk!

The location of Omaha Beach, being on the east coast is, unfortunately, at risk in the event of a Tsunami. Whilst we are able to (and do) educate Omaha Beach property owners of the risks and actions to take in the event of a warning or the sirens sounding, we are unable to do the same for freedom campers – potentially putting them at a greater risk.

In relation to the proposed parking spaces for freedom campers at the ‘restricted’ Reserve sites, the currently marked parking spaces are designed primarily for cars. Camper vans these days are of a size such that they cannot be accommodated in one of these marked parks. We have seen evidence of vans actually parking sideways across 5 car parks! – see photos in *Appendix 2*. To evidence this issue, and the pressure the proposed bylaw will place on the limited number of parking spaces we currently have, we have had a plan / theoretical layout of the sites drawn up, allowing the minimum distances, etc between vehicles, and showing the car park modifications that would be required to accommodate the length of an RV camper van. See *Appendix 3*. This would therefore see a considerable number of the existing marked car parks taken over to provide a small number of freedom camping parks – at additional cost to Council (and its ratepayers).

## **15. Evidence shows restrictions are broken and Council do not adequately resource enforcement**

In terms of the ‘restrictions’ on the sites proposed – these provide little or no comfort. The results of our survey show that Omaha Beach ratepayers have overwhelmingly expressed the view that not all freedom campers will abide by restrictions placed on sites (95% of respondents do not believe freedom campers will abide by restrictions). Evidence at Omaha Beach shows this is already the case. Although the number of freedom camping parking spaces proposed is limited, which we acknowledge, we fail to see how this can be managed to ensure only those numbers are used, and that they will only be used only at night and be vacated during the day. We fail to see how length of stay can possibly be managed, unless sites are inspected daily. If required to vacate parking spaces during the day, where is it anticipated the vans will move to – the ‘not scheduled’ areas of Omaha Beach? There also appears to be no mention of a time of day that vans can park there to commence their overnight stay.

In relation to our survey, we asked about their confidence in Council being able to adequately enforce any restrictions. **94% of respondents answered “No – I don’t believe Council will be able to adequately enforce any non-compliance with the restrictions.”**

Enforcement of the ‘restrictions’ is also an issue as reflected in the Council’s ‘primary and secondary harms’ document. From our survey, the residents of Omaha Beach strongly expressed the view that any restrictions will not be adequately enforced by Council (94% of respondents do not believe Council will be able to adequately enforce non-compliance with restrictions) – hence our request for the appointment of Insite Security as an ‘enforcement officer’ for Omaha Beach. See Section 17; and Appendix 10

**16. Council breaking their own guidelines on how to minimise primary and secondary harms in Omaha Beach**

We maintain that the sites selected at Omaha Beach contravene the Council's own guidelines for mitigating primary harms.

Council have selected sites that are the most popular and already under intense pressure by locals and visitors.

Council have chosen sites that are the most convenient and attractive.

Council have chosen sites adjacent to residential properties, and right in the middle of view shafts and adjacent to children playgrounds.

We note from Council Regulatory Committee meeting agenda and minutes (10 August 2017), that the intent of the bylaw is to address the harms from freedom camping ...

*“Managing primary harms:*

*30. The problems associated with freedom camping can be divided into two problem types.*

*31. The first type is managing direct impacts or primary harms. These are intrinsic to the activity of freedom camping. They are generally unavoidable, though they can be mitigated to reduce their impact. Primary harms can be summarised as:*

- *loss of visual amenity due to presence of campers*
- *noise and other emanations, e.g. cooking smells*
- *conflict between other users including local residents*
- *blocked views*
- *privatisation of public space.*

**Table 1. Summary of complaints according to harm and approach available to respond**

Level of harm	Impacts	Management	Approach
Primary	Conflict of use between users and freedom campers.		Placing designated parking spaces away from the most convenient or attractive locations is an effective mitigation strategy. Restricting the length of time that campers can stay may also help reduce harms.
Primary	Privatisation of a public space.		The location and design of future designated sites could assist in managing this.
Primary	Amenity impacts, such as a loss of privacy or obstructed views.		Locating campers away from prime spots and residential view shafts is an effective way of avoiding these problems.

However, we do not believe these primary harms have in fact been adequately addressed, and nor will they be adequately managed in Omaha Beach, with the Council's proposed bylaw.

## 17. Requirement for an enforcement officer at Omaha Beach

We also request the appointment of an 'enforcement officer' for Omaha Beach, in terms of Subpart 3. Section 32 of the Freedom Camping Act, to be given powers to enforce a prohibition, and any restrictions, in relation to freedom camping in Omaha Beach (which is an area easily defined). Our request for a local warrant to be granted results from the community's belief that not all freedom campers will comply with a prohibition, or restrictions; and Council officers will not be able to adequately enforce a prohibition or restrictions. To support this request, and based on our experience locally with the lack of enforcement of existing bylaws (such as Set Netting; Liquor bans; and the hours dogs are permitted on the beach); and we fail to see how, as noted in Council papers, the enforcement can possibly be improved – to address the primary harms noted above - when, in those same Council papers, it is stated that "*Resourcing to enforce the bylaw will therefore be met from existing baselines*".

The OBC has, for a number of years now, contracted with Insite Security Ltd to provide security patrols in Omaha Beach – particularly over the peak holiday periods when the number of properties occupied increases, and the number of visitors and day trippers (and issues) swells significantly. In patrolling Omaha Beach, including the beach itself, they have been able to suppress potential problems and 'hot spots' – including breaches of the various bans and bylaws in place at Omaha Beach. These bans and bylaws include the hours dogs are permitted on the beach; the set netting ban; and alcohol bans – where we have found the Council officers unable to effectively manage and enforce these bans and bylaws. Issues discretely dealt with by Insite Security to protect people and property, and the natural environment, include fires on the beach; cleaning rubbish from the beach; gatherings on the beach with alcohol, in breach of the alcohol ban; noisy parties and traffic offences etc. In handling these situations, Insite Security also deal closely with the appropriate government and Council authorities.

It is therefore considered appropriate, and necessary, for Insite Security to be appointed as an 'enforcement officer' to ensure the prohibitions and restrictions in relation to freedom camping at Omaha Beach are adequately enforced.

Details for Insite Security form part of this submission – See Appendix 10

## 18. Alternative options and sites for ALL camping in the area

In requiring the prohibition of freedom camping in Omaha Beach, we would note that there is an abundance of alternative camping facilities nearby. Some require stayers to pay, what appears to be a nominal amount, and certainly a nominal amount for the location and facilities provided:

1. Whangateau Holiday Park <https://www.whangateauholidaypark.co.nz/> . The most obvious of locations for this area – and operated by Auckland Council! Situated on Whangateau Harbour, east of Warkworth and near Leigh in the Matakana Coast area, with sites right on the waterfront.
2. Martins Bay Holiday Park <https://www.martinsbayholidaypark.co.nz/> . Again, operated by Auckland Council!  
Why not encourage greater use of the Council operated facilities nearby, and increase income, rather than make ratepayers pay for the cost of putting in place new freedom camping parks at locations where those same ratepayers don't want them?
3. Sandspit Holiday Park <https://www.sandspitholidaypark.co.nz/> .
4. Scandrett Regional Park <https://www.aucklandcouncil.govt.nz/parks-recreation/stay-at-park/Pages/accommodation-details.aspx?itemID=65>
5. Tawharunui Regional Park <https://www.newzealand.com/int/feature/tawharunui-regional-park/>
6. Goat Island Camping and Accommodation <https://www.goatiscamping.co.nz/>
7. Happy Dayz Backpackers <https://www.facebook.com/Happy-Dayz-Backpackers-103021149774083/>

Omaha Beach Community Inc.  
Submission re Proposed Freedom Camping in Vehicles Bylaw

8. Snells Beach- current provision in two reserves for freedom camping
9. Mathesons Bay –current provision for freedom camping
10. Warkworth camp ground

In our survey, we also sought feedback regarding possible alternative sites considered suitable for freedom camping. Examples of responses were: *Appendix 8*

“No. The prohibition on freedom camping in Omaha must continue. This is a residential area!”

“We consider the best spot for freedom campers in the area to be the Warkworth Showgrounds where there is ample room, public toilets and rubbish facilities, no near residents. They can commute to the beaches and surrounding regional parks just like the local rate paying public have to.”

“It is there now - 50 per cent occupancy rate, just upgraded in line with Council requirements - this is where FCs stay!” We believe this comment was referring to ‘Happy Dayz Backpackers’ on Omaha Flats Rd – see Section 17.

“No - the residential nature of omaha does not suit freedom camping . There are no suitable sites with at least 200 metres to closest residential property and parking facilities are already stretched to the max .”

“Self contained vehicles only on spare land next to cafe on Omaha Flats Road before you drive over causeway into Omaha. Must pay \$10.00 per person per night, maximum 2 nights and a code will be released once payment is made. Just like ARP.”

With Council operated holiday parks in the area it seems inconsistent that Council would be pushing the freedom camping angle so hard, underpinning the viability of ratepayers businesses and privately owned businesses. Surely you would want to encourage greater use of your own facilities first – to partially offset the costs that will be incurred with the proposed freedom camping sites. These holiday parks are also in scenic spots – and not in a residential areas.

We note it is also inconsistent that Council have prohibited freedom camping near or alongside its own managed camping facilities where management and negating of primary and secondary harms could be easily handled by council staff. Instead of this option they have pushed freedom camping into the heart of residential areas and areas under significant pressure with no plan nor additional resources to enforce or manage these sites.

We would also note that we have had some very preliminary, informal, discussions with a party who has expressed interest in providing an attractive site for freedom campers to park, close by the Whangateau Harbour.

## 19. Final statement

**We acknowledge that, in terms of Section 11 of the Freedom Camping Act, the bylaw must be the most appropriate and proportionate way of addressing the perceived problems in the area and, based on this submission, we maintain that the desirability of Omaha Beach to campers together with the unsuitability of the sites means that prohibition of freedom camping in Omaha Beach is the most appropriate and proportionate response.**

AUCKLAND COUNCIL  
By Email: [dani.gardiner@aucklandcouncil.govt.nz](mailto:dani.gardiner@aucklandcouncil.govt.nz)

Dear Sirs,

**PROPOSED FREEDOM CAMPING IN VEHICLES BYLAW – COURT PROCEEDINGS**

1. We act for Omaha Beach Community Inc (OBC) and are instructed to write in relation to the proposed Freedom Camping in Vehicles bylaw, as it relates to Omaha Beach in particular, which is currently being progressed by the Auckland Council.
2. OBC is a ratepayer association with around 90% plus of all eligible ratepayers in Omaha Beach as financial members. It currently has some 1,200 paid-up members who are property owners in Omaha Beach. Accordingly, the submissions which it has made to the Auckland Council can and should be fairly taken as reflecting and representing the views and concerns of the overwhelming majority of residents and ratepayers of Omaha Beach.
3. OBC and its members have real and substantive concerns with the content and, indeed, lawfulness of the proposed bylaw and with the process and decision-making of the Auckland Council. What the Council is intending to do, certainly as it relates to Omaha Beach is, in our view, legally unjustifiable and it will be challenged. OBC has engaged this firm and retained Mr Hollyman QC as counsel for that purpose.
4. Given the position reached, if Auckland Council wishes to resolve this matter short of Court proceedings, then we invite you to contact either the writer or Mr Hollyman QC to discuss that.

---

**Unreasonable and unlawful bylaw and related steps and decisions proposed/taken by Auckland Council**

5. Under the broadly stated objective, or guise of "improving the management of freedom camping in Auckland", Auckland Council, in respect of Omaha Beach, is proposing:
  - (a) to repeal or otherwise remove existing protections and prohibitions on freedom camping in vehicles and instead to pass a bylaw which, in relation to Omaha Beach, allows freedom camping in vehicles on three recreation reserves under the Reserves Act; and
  - (b) to effectively allow freedom camping in vehicles on roadside parking spaces and verges, by first removing existing prohibitions against freedom camping in these areas and then refusing/failing to replace such prohibitions. The result will be that freedom camping in vehicles will be permitted on roadside parking spaces, and outside residential properties, by virtue of the combined effect of the definition in section 6(2) and then section 10 of the Freedom Camping Act 2011.
6. The residential area and related amenities, carefully established at Omaha Beach, are totally unsuitable for freedom camping in vehicles.
7. In relation to Omaha Beach, the result of the above will be that the proposed bylaw, and the relevant decisions leading to it, including to remove existing protections, are unreasonable and totally inappropriate. They are damaging to the rights and reasonable expectations of the community which the OBC represents.
8. It is beyond the scope of this letter to set out the detailed reasons and facts and matters which demonstrate why what is being decided in relation to the bylaw and the bylaw itself are unreasonable and unlawful; and quite apart from the fact that the proposed bylaw will, in relation to Omaha Beach, be both unworkable and unenforceable. Most of those matters have been clearly articulated in the OBC's detailed written submissions to Auckland Council dated 16 February 2019, and we invite you to refer to those submissions for further detail. Such material will of course necessarily be placed before the Court in the context of the legal proceedings which we are instructed to commence if a satisfactory outcome cannot be agreed.
9. For present purposes we summarise below the key aspects of the legal challenge.
10. The bylaw to be enacted is unreasonable and should be quashed by the Court, both under the Bylaws Act 1910, and by the court exercising its usual judicial review jurisdiction.
11. The process that has been followed by the Auckland Council in relation to the passing of the bylaw has also been legally flawed. There has been a failure to properly follow the special consultative processes under the Local Government Act resulting in, for example in the case of Omaha Beach, the Rodney Local Board not being consulted either at the correct time or in the appropriate manner, or effectively at all. There also seems to be clear evidence of the Council representatives failing to consider or properly take into account numerous relevant matters which OBC has raised with it.
12. The Auckland Council's related decision, to purportedly exercise a delegated power of the Minister of Conservation under section 44(1) of the Reserves Act 1977, so as to

remove existing protections on the three recreation reserves at Omaha Beach (along with, it would seem, some 84 others elsewhere in Auckland) is also legally flawed. It ignores the significance of the status of reserves; the regime to protect and manage them established by the Reserves Act; and indeed, in cases such as the reserves at Omaha, the legal status and protections under that Act, and the reserve management plans implemented under that Act.

13. In relation to the reserves, the situation is that the Auckland Council has decided to exercise a delegated legal power, so as to remove existing protections on recreation reserves, which in turn creates a potential problem of freedom camping in vehicles. The Council is then purporting to formulate a bylaw to deal with a potential problem, which the Council itself has created.
14. The material we have seen suggests that the Auckland Council seems to be proceeding on the erroneous basis that there is within the Freedom Camping Act a mandate to actively provide freedom camping. That is not correct. The statute merely delegates to local authorities the power to regulate freedom camping, where it is occurring and creating problems, subject only to the limitation that any prohibition of freedom camping must not be taken to the point of simply banning it completely throughout the local authority's entire region.
15. We consider that the Auckland Council has misunderstood both its task and its jurisdiction under the Freedom Camping Act 2011, and certainly insofar as it appears to have approached the matter of freedom camping on the basis that it must first open up areas to such activity, and then regulate those areas.
16. We refer you to the decision of Cooper J in *New Zealand Motor Caravan Association v Thames-Coromandel District Council* [2014] NZHC 2016. There the Court upheld very substantial prohibitions on freedom camping which were, as a matter of policy, determined by proper consultation with the public/local community (see para [100]). We also refer you to paras [104] and [108] of the judgment.
17. Omaha Beach, and the reserves and streets serving what is essentially a residential area, are simply inappropriate for freedom camping in vehicles, and there is absolutely nothing in the Act which somehow mandates that the Auckland Council should find and make available any such areas to freedom campers in vehicles.
18. Moreover, even if it were thought relevant or necessary that Omaha Beach needed to cater for camping and camper vans, there is already just outside Omaha Beach on Omaha Flats Road a designated and well run camping ground where appropriate parking overnight – "camping in vehicles" – is available for a modest charge, and with provision for related facilities which such campers require. There is also a Council-run camping ground nearby at Whangateau.

#### Next steps

19. As recorded above, OBC has retained us and Mr Hollyman QC and legal proceedings will be issued (unless a satisfactory outcome can be agreed).
20. In particular, we have been instructed to require an undertaking from Auckland Council not to repeal any existing bylaws or other legal provisions which presently prohibit freedom camping in vehicles on the three reserves in question and on the streets,

---

grass verges and parking bays in adjoining streets at Omaha Beach - pending the resolution of the legal challenge, whether by agreement or by the Courts.

21. In the absence of receiving such an undertaking, we are instructed to seek interim relief from the Court.
22. Given the timeframes involved, we ask that you contact the writer or Mr Hollyman QC directly on 021 489 811 and urgently regarding possible resolution and, in particular, regarding the undertaking sought.

Yours faithfully

**GROVE DARLOW & PARTNERS**

A handwritten signature in black ink, appearing to be 'A. Hollyman', written in a cursive style.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

Your local board: Rodney

---

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

#### Do you not support having general rules because, in your view: Another reason (please explain)

**Another reason (please explain):** The entire concept, if it can be called that, of freedom camping, more accurately referred to as "Freeloader" camping, is misguided, causes human (public displeasure and individuals in affected communities) annoyance, inconvenience, disturbance and often pollution, eg rubbish, excrement and visual. And it is not "camping" at all. It is parking up on public spaces for free accommodation and use of public toilets for washing (humans and clothing and eating gear). Look at Hatfields Beach. What a disgusting mess.

It was proposed as short-term accommodation solution for the 2011 Rugby World Cup and to encourage tourism from visitors for that event, but all that it has achieved is a lot of cheapskate young people effectively bludging off ratepayers and taxpayers. Meanwhile camp grounds and other more appropriate tourist accommodation is undermined.

Council is not legally obliged to provide for freeloader squatting (for that is what in reality it is).

Declare it illegal except at limited designated places where there is toilet and rubbish facilities and charge a modest tariff if we must have this low end tourism and itinerant/homeless (often by choice) NZers. Take a look at Kiwicamp if it is still in existence.

Get real Council!! Whose interests are you obliged to protect and support? Us, the ratepayers. Not freeloaders. And that applies to kiwis wealthy enough to own campervans and buses who can well afford to stay at campgrounds.

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

### How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

### How do you think the general rules will unfairly impact some people?

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

I object strongly to the Council's proposal in its entirety to open up the streets and reserves of Auckland to freeloader travellers, and especially at Omaha Beach and its surrounds. And even if you do promulgate Rules you will not effectively and efficiently monitor and enforce them.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** By allowing Freedom Camping in designated areas and not allowing free access to the streets of Auckland.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Freedom Camping should be restricted to areas that have suitable facilities on site or nearby

### How do you think the general rules will unfairly impact some people?

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom

Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The

Council's General Rule will be ineffectual and also unenforceable and in practice will not protect residential

streets and roads

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments you would like to make about this area?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

I object to the councils proposal in its entirety in regard to opening up the streets of Auckland to freedom campers, especially at Omaha Beach. Freedom camping on residential streets is not appropriate. the councils general rules will be ineffectual and unenforceable and in practice will not protect residential streets and roads.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause. Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I believe that all campers, freedom and others, should be in designated camping sites (paid) so that they have access to facilities, can discard rubbish in the correct places, and are not staying in general streets of popular tourist spots - like the beaches. I live in a beautiful beach town of Omaha. We have a few parks that are very popular for day stayers. To allow freedom stayers, even in self-contained motorhomes, to have overnight stays in these areas would create issues with rubbish, noise, and general crowding (as this area is already very popular for day trips and hiring of baches) in the summer. Omaha also has many parking spaces on most of its streets used by the residents which would potentially be used if Freedom Camping is permitted in this area. This is not ideal as could have 100's of motorhomes in Omaha at peak times of the year. We already have issues in Omaha with rubbish bins overflowing at busy weekends and this would just make the area overcrowded with vehicles, people and rubbish. I would request that Omaha beach is designated as a prohibited area for Freedom campers to protect our environment, our neighbourhood and ensure we are not overrun with day AND overnight visitors. There are some camping areas close to Omaha already that can accommodate overnight visitors to our beautiful beach - keep it that way - prohibit Freedom Campers from staying in our beautiful community. Thank you.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

As previously mentioned freedom camping should be confined to designated parking spots. The current spaces are located in the small car park which must allow daily visitors to park safely. Additionally there are designated boat parking spaces which should not be used by freedom campers due to limited space.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Algies Bay Main Car Park - We have good compliance from freedom campers but need to ensure that we are able to support and attract visitors on a daily basis. Current parking is limited. Parking spaces are currently marked and located at top LHS looking at roadway. 1. Primary concern is to ensure that only the designated freedom camping spaces are used for short term stay. 2. Freedom camping on roads around Algies Bay should be prohibited. 3. Enforcement is always an issue and should not be left to communities to undertake. Therefore there should be some routine controls by council enforcement officers.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I would like to strongly endorse the prohibition of freedom camping on Auckland reserves.

In my area of residence, Rainbows End, Matakana, the local reserve is ill suited to freedom camping, as was thoroughly documented in previous feedback/consultation.

I strongly believe that such small reserves as ours, particularly those without public sanitation amenities, are best saved for the exclusive use of local residents. Our experience has also shown that even moderate sized self-contained recreational vehicles are simply too large to be accommodated in the very limited parking available.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Omaha Spit - As residents of the Omaha Spit, we totally oppose the concept of 'freedom camping' at the Omaha Spit. The area is totally unsuitable for this kind of activity. We do not oppose having camper vans visit the area for a short day stay but overnight stays are not appropriate. There is a camper van park a few kilometres away that should be developed further to provide toilets, laundry facilities, effluent disposal facilities and run on a commercial basis (as happens in other parts of the world).

The Omaha Spit is a residential area where the entire infrastructure was paid for by residents. It is inequitable that 'freedom campers' are able to avail themselves of those assets that are already at a premium without contributing to the cost of that infrastructure. Security and Community services are paid for by the residents. The Auckland Council, in the 28 years we have lived here, has been woeful in enforcing its bylaws (dogs on the beach, etc) and it is likely that 'freedom camping' rules will not be enforced either. (So who will?).

Then there is the matter of rubbish disposal. No one can guarantee that there won't be rubbish left after a 'freedom camper' has departed. Ditto, the maintenance of the limited number of public waste bins.

The Omaha Spit, by its nature as a residential area, has very limited parking that is at a premium in the peak seasons. To say that 'freedom campers' can park at or near the boat launching ramp is a ludicrous idea because, as was shown recently, the boating fraternity (many coming from miles away) clogs the parking areas for up to 1500metres away.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Submitter details

Organisation (if applicable):

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Another reason (please explain)

**Another reason (please explain):** It is good, so that it is simple and clear what the requirements are, regardless of where you stay

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, and council has not identified any serviced areas in this proposal, It makes sense to match our self-containment requirements to the N

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** I believe it should be Three days rather than two night. If you arrive late at night and need to leave after two nights, you only get 1 day. If you state three days, it achieves the same effect as two nights, but is more fair for people regardless of what

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** Leave by Noon or even 1pm, allows time for the person to have lunch before leaving if they wish, and allows time for people arriving from Noon or 1pm till nightfall to arrive and setup.

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

'- Need to ensure that for enforcement of self containment, proof of compliance needs to be clarified as a current Self Containment warrant card, displayed to be viewed from outside the vehicle. The self containment bumper sticker is meaningless and easily copied, or purchased without actually meeting the self containment regulations.

- Need to clarify what constitutes "the same road or off-road parking area" for the purposes of the No-return period rule, this is grey and therefore open to interpretation.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

You have a list of prohibited sites, but these presumably exclude many sites which are effectively excluded by their status as a 'reserve' under the reserves act. Yet the information as to which sites in Auckland are prohibited due to the reserves act is not available, and even if it were, it is not integrated with this bylaw. This is not only confusing, it is incomplete. You should include ALL prohibited sites in one easy to search (by name/address) and/or browse (map), and integrate this info with this Bylaw. If this is unachievable in the timeframe for the release of the bylaw, set and advertise a date when this will be completed by, rather than just saying its too hard due to the number of sites. Otherwise expect a deluge of requests for information, and/or non compliance through ignorance of these sites, because freedom campers cannot access this information.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** "or because they are choosing to live in a vehicle voluntarily for lifestyle reasons" - this is basically another way to describe homeless people who in any other city would be considered well off. No thanks to making Auckland a landlords paradise.

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay for an indefinite period in the same road or off-road parking area (no maximum stay rule)

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** "or because they are choosing to live in a vehicle voluntarily for lifestyle reasons" - this is basically another way to describe homeless people who in any other city would be considered well off. No thanks to making Auckland a landlords paradise.

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** "or because they are choosing to live in a vehicle voluntarily for lifestyle reasons" - this is basically another way to describe homeless people who in any other city would be considered well off. No thanks to making Auckland a landlords paradise.

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** "or because they are choosing to live in a vehicle voluntarily for lifestyle reasons" - this is basically another way to describe homeless people who in any other city would be considered well off. No thanks to making Auckland a landlords paradise.

**Is this because, in your view:** Another reason (please explain) Another reason (please explain)

**Another reason (please explain):** "or because they are choosing to live in a vehicle voluntarily for lifestyle reasons" - this is basically another way to describe homeless people who in any other city would be considered well off. No thanks to making Auckland a landlords paradise.

## Do you have any other comments on the general rules?

Homelessness doesn't have to be dirt poor people living on the streets because they can't get a job - it includes working people who's jobs unfortunately don't pay them enough to live in this expensive city. These rules set a very dark precedent if moved forward.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** It is not necessary to impose basic rules on freedom campers everywhere in Auckland

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** More and more people are beginning to live out of vehicles either as an alternative lifestyle or because they can't afford rent or a mortgage. These people will be negatively impacted.

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** As taxpaying citizens, we should be allowed to use the natural resources in our country as long as we respect them. Potentially could set up cameras in areas to make sure that people aren't being disrespectful?

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Cameras or better signposting? Or allow more freedom camping spots rather than having restrictions everywhere.

**How do you think the general rules will unfairly impact some people?** People often freedom camp when they can't afford to pay for a camp ground. Now you're taking that away from them.

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store

water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

## Do you have any other comments on the general rules?

I am totally opposed to the concept of "freedom camping" anywhere in NZ, regardless of any rules that are set.

It may be free for campers but someone - either taxpayers or rate payers have to foot the cost of services, cleaning, compliance issues, security, etc. It is already costing me as a ratepayer insofar as someone has spent time researching, writing and presenting the rules outline and undertaking this survey. There are already campsites that provide this service and this should not be a part of core Council services

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

I am totally opposed to the concept of "freedom camping" anywhere in NZ. It may be free for campers but someone - either taxpayers or ratepayers have to foot the cost of services, cleaning, compliance issues, security, etc. There are already campsites that provide this service and this should not be a part of core Council services.

I believe that there should be a bylaw banning any form of "freedom camping" In the Auckland Council area.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** Your employees exploit this rule to fine good people who have simply pulled over for a rest (nap). On a long journey. People on a road trip should feel safe to pull over anywhere to rest without fear of catching a fine for freedom camping in the wrong vehicle.

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule, Having a set departure time will help with enforcing the maximum stay rule. Another reason (please explain)

**Another reason (please explain):** If you are on holiday, wtf would you be up before 9am. It's unreasonable to expect people to move on that early.

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):** Basically think freedom campers should stay in caravan parks or camping grounds in order to protect Auckland's environment, public health and safety. If they don't stay in caravan parks or camping grounds they should be banned totally from Auckland.

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, Having a set departure time will help with enforcing the maximum stay rule

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, and council has not identified any serviced areas in this proposal

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule? Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, Having a set departure time will help with enforcing the maximum stay rule

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a shorter no-return period means campers would be able to return to a favourite place if they wa

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

I think there should be rules around expectations of what self-contained means and the general behaviours - eg no defecating outside, all rubbish and refuse to be removed in the vehicle, no pitching of tents (awnings attached to vehicles are okay) etc.

And maximum number of vehicles per area. Also there needs to be some behavioural expectations set in terms of noise and alcohol/drug consumption.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, The general rules will unfairly impact some people, Another reason (please explain)

**Another reason (please explain):** It should not be allowed. Facilities New Zealand wide are stretched as it is

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** By not allowing it

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Councils cant manage it so dont allow it

**How do you think the general rules will unfairly impact some people?** Noise, rubbish, blocked accessways. In Omaha, for instance, how many public toilet facilities are there? One small one by the ramp and at the Surfclub. You figure where freedom campers are going to go to relieve themselves.

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

Do you not support having general rules because, in your view: The general rules will unfairly impact some people

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people? There will be little to no enforcement.

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially in Hobsonville/West Harbour. Freedom Camping on residential streets is not appropriate. The Council's General Rules will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Upper Harbour Local Board area

### Prohibited sites

**North Shore Memorial Park 235 Schnapper Rock Road, Schnapper Rock, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially in Hobsonville/West Harbour. Freedom Camping on residential streets is not appropriate. The Council's General Rules will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

**Jack Hinton Drive Adjacent to Rosedale Park, Rosedale, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially in Hobsonville/West Harbour. Freedom Camping on residential streets is not appropriate. The Council's General Rules will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** We all pay our council rates and it is not fair if freedom campers can live in their vans for free. If they were to park outside our properties this leaves less parking for residents. I think it would be better if they park in carparks by the beach between certain hours e.g. 7.30pm to 7.00am during summer

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). ### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, and council has not identified any serviced areas in this proposal

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** I'd prefer 3 nights, simply because most holidays we take are a long weekend, which are always 3-nights long, and we stay away from home all 3 nights, and having to pack up and move and reset then pack up again just to satisfy this rule is a lot of work w

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

After reading all 53 pages, and the bylaw, it seems this complex and comprehensive drive to restrict and prohibit the great New Zealand pastime of enjoying our beautiful country and coastline with our kids and friends is a kneejerk reaction to abuse and trouble committed by visitors from foreign nations. It is clear they are not here now, and so the incredible respect us Kiwis have for our nation, beaches, waterfronts is once again obvious by the absence of trouble and environmental abuse in the area's you have focused on. In fact, the campervan/motorhome community look after our nation so well, most places are left better off than when we turned up. We pick up rubbish blown by the wind, broken bottles dumped by local thugs etc to help make these camping areas safe and pleasant for locals and visitors. To restrict and prohibit New Zealanders from enjoying New Zealand is not the New Zealand way. Who is behind this nonsensical and punitive work? It needs to be abandoned and abolished. The laws and bylaws are working absolutely fine. the specific restrictions are already complex, limiting and sometimes very difficult to follow, and serve the purpose of protection the environment and ther users of the area. Fine tuning them is all that is necessary, not this heavy handed abuse of the right to enjoy the country. It is more important than ever for our family to get out in the camper and stay at places that do not cost big bucks since recent politics have destroyed the livelihoods of hundreds of thousands of New Zealanders, put 15000 businesses to death, and created so much fear and dread and stress to humanity. For Council to apply draconian restrictions on places already restricted, and blanket prohibitions on fantastic coastal places that are perfect for growing children to explore whilst Mums & Dads relax is morally, ethically and socially wrong. You dont need to go ahead with this. There is no reason at all, as we all know the abuse of our country was being done by people from other lands. If any restrictions are worthy of change, it is the restrictions on international tourists, and the standard of vehicles they are allowed to use. The 9am rule really needs to be altered to 10am. To wake,, wash, breakfast, clean up pack up and depart by 9 means waking up at 630 - too early for our family. The minimum night stay really can be 3 nights. Not returning rules seem pretty tough, but are ok if there are other places nearby that are suitable with space for the volume of campers out and about in any given season. If the volume restrictions are too fierce (without any good reason) it divides the community, and pushes holiday makers out into the local streets. It is more favourable for the community to have all the campers together, instead of parking up on a backstreet. It is also added security to have campers together,

knowing we have some very senior members who need a helping hand from us younger ones. I'd love to make a verbal presentation.

## Henderson-Massey Local Board area

### Prohibited sites

**Fred Taylor Park** 184 Fred Taylor Drive, Whenuapai, do you agree that freedom camping should be prohibited in this area? No – freedom camping should be allowed subject to the general rules

**Tell us why and any other comments you would like to make about this area?** There are no environmentally or culturally sensitive features about this area.

The health and safety of freedom campers and other users of public space do not have any specific factors that need protection.

Access for everyone to our public places, facilities, and amenities are not in any way affected by freedom camping under general rules.

**McLeod Park** 200 McLeod Road, Te Atatu South, do you agree that freedom camping should be prohibited in this area? No – freedom camping should be allowed subject to the general rules

**Tell us why and any other comments you would like to make about this area?**

**Waitākere Central and Central One** 2-6 Henderson Valley Road, Henderson, do you agree that freedom camping should be prohibited in this area? No – freedom camping should be allowed with area specific restrictions

**Tell us why and any other comments you would like to make about this area?**

### Restricted sites

**Trusts Arena** Central Park Drive, Henderson. Do you agree that freedom camping should be restricted in this area? Yes – restricted freedom camping should be allowed, but with different restrictions

**Which of the proposed restrictions for this area would you want to change at Trusts Arena?** Departure time

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Do you have any other comments you would like to make about this area?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, and council has not identified any serviced areas in this proposal, It makes sense to match our self-containment requirements to the N

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this, Having a set departure time will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a shorter no-return period means campers would be able to return to a favourite place if they wa

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should be self-contained, but they shouldn't have to be certified

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The cost of buying, hiring, or converting to a certified self-contained vehicle is too high, and that could mean some people can't afford to freedom camp in Auckland, It would be too hard to enforce a requirement to be certified self-contained, Another reason (please explain)

**Another reason (please explain):** Potential future self containment rules are likely to be draconian and not fit for purpose. Your ability to enforce a changed certification requirements, some aspects identified by the ill thought out, knee jerk proposals by the government will leave you in a difficult position trying to enforce against compliant vehicles with no future certification.

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule? No – freedom campers should not have to leave by a set time (no set departure time rule)**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

9am is to early for leisure trippers in particular. These are the people who support local businesses e.g. having breakfast at local restaurants..... not practical really before 9am..... and return to vehicle and depart.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

## Hibiscus & Bays Local Board area

### Prohibited sites

**Metro Park (East) 218 Millwater Parkway, Silverdale, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

### Restricted sites

**Gulf Harbour Marina, Hammerhead Reserve 40 Gulf Harbour Drive, Guld Harbour. Do you agree that freedom camping should be restricted in this area? Yes – restricted freedom camping should be allowed, but with different restrictions**

**Which of the proposed restrictions for this area would you want to change at Gulf Harbour Marina?**

Maximum number of vehicles, Departure time, No-return period, Proposed location of freedom camping parking spaces within this area

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):** 5+

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?** There shouldn't be a set departure time

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?** 2 weeks

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?** The indicated area on the map is far to wide and interacts with the ferry car park and would make it impossible for freedom campers to identify whether the maximum number of campers would be exceeded. Why make change when none is needed at this location!

In the existing spots there is no interaction with the bulk of car park users (when are you going to add more parking space inept council?) and thus no need for an early departure time of 9am.

**Do you have any other comments you would like to make about this area?**

## Rodney Local Board area

### Prohibited sites

**Helensville - Helensville Civic Centre Grounds 49 Commercial Road, Helensville, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Huapai - Huapai Service Centre/Kumeu Library 24 Oraha Road, Huapai, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Waimauku - Waimauku War Memorial Hall 22 Waimauku Station Road, Waimauku, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Leigh - Leigh Library and grounds 15 Cumberland Street, Leigh, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Ti Point - Ti Point walkway Ti Point Road, Ti Point, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed subject to the general rules

**Tell us why and any other comments you would like to make about this area?** Little used and practical freedom camping site. No need for new restrictions here!

**Pakiri - Pakiri Hall grounds 1026 Pakiri Road, Pakiri, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Warkworth - Warkworth Town Hall grounds 2 Alnwick Street, Warkworth D, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

### **Restricted sites**

**Port Albert - Port Albert Wharf Reserve carpark Adjacent to Wharf Road, Port Albert. Do you agree that freedom camping should be restricted in this area?**

**Which of the proposed restrictions for this area would you want to change at Port Albert Wharf?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

**Snells Beach - Whisper Cove (adjacent parking on road reserve) 70 Kokihi Lane, Snells Beach. Do you agree that freedom camping should be restricted in this area?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I don't know

### Do you support having general rules because, in your view:

Another reason (please explain):

Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know? Yes, having put in a radio button answer you can't take it out again! What? This is so basic on what not to do on a form!

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

### Do you have any other comments on the general rules?

The Freedom Camping general rules are yet another tier of bureaucracy in addition to the Reserve Act rules and restrictions. Many freedom camping areas and reserves in your maps are adjacent to each other and there will be great difficulty for freedom campers to abide by the rules. The cost of signage to accurately identify all the location boundaries and individual restrictions should be prohibitive. they will be hard to enforce and hard to abide by. A \$200 and a \$800 enforcement fine process is hard to see why any official would propose or agree to such a procedure.

### Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** Another reason (please explain)

**Another reason (please explain):** We live on Waiheke. We are overrun with freedom campers (usually) and they park where they want and toilet everywhere.

Additionally, there is no method of policing the stay limit.

Also, there is no dump station. We have all these tiny vans with 'self contained' stickers that clearly aren't and never will be, (even now).

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

### How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

### How do you think the general rules will unfairly impact some people?

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store

water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed no-return period rule? No – I support another no-return period rule (please explain)**

**No – I support another no-return period rule (please explain):** Too few options. Again, no one is here to police or enforce any camping rules. Any, at all.

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

The proposal is hopelessly one-size and takes zero account of our situation here. We do not support allowing freedom camping on Waiheke, unless it is in one place only.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

Looks like minor stuff, the real issue is we don't want the poo-ers here. The rules are unenforceable.

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** You should come over here some time. These areas are precisely (along with Onetangi) where the freedom poo-ers camp. They will continue to. You can't stop them.

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** You should come over here some time. These areas are precisely (along with Onetangi) where the freedom poo-ers camp. They will continue to. You can't stop them.

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** This is a particularly funny one, as it is the one area they could stay, as it's roomy, and has water and showers/toilets. See how stupid these proposed rules are?

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** They will camp where they want to. The rules are useless.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Although council has not identified any serviced areas in this proposal, I am aware of serviced areas on public land which should be included

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this, Having a set departure time will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** It is not necessary to impose basic rules on freedom campers everywhere in Auckland

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):** Freedom camper vehicles take up parking spaces needed by the rate payers of Auckland to visit their amenities.

2. Without rules, there would effectively be an incentive to become freedom campers and rent out house over summer especially... this IS happening on Waiheke

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule? No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

When it is more than one night, the campers 'set up camp' and their belonging spread out around the vehicle. Many also sit and drink etc. As the carparks are beside beaches this causes access problems for children and elderly pedestrians... and quite unpleasant for the family whose house this is outside.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

1. How, and WILL, the general rules be policed? Will someone actually check overnight campers have moved on, have not stayed more than 2 nights, have left the island to pump out?

1a. Who will pay for this extra policing - our local board? Will extra funding be provided?

1b. Please provide a DEDICATED phone number to call to report breaches and for someone to come clean up broken glass, human faeces, and old mattresses left behind. When we contact AT we get no response.

2. Is there a total limit for stay on Waiheke island (given no pump out facilities).

3. Can we all become freedom campers and not pay rates, put our house on AirBnB?

4. Second Ave parking is the only parking for those using First Ave boat ramp (First Ave is just a turning circle). Boaties and their passengers often go out fishing early in morning. By Second Ave carpark being full of freedom campers almost every single night thru summer (see photos), where are boaties, family beach goers, daytrippers etc, supposed to park?? Isn't that breaching your intent - "maintaining public amenity".

5. Second Ave, Onetangi carpark (and several others on Waiheke) are right outside residential houses. We know of 2 elderly couples considering selling their houses because they are so sick of freedom campers right beside their house all summer (and defaecating and drinking), and often actually scared. How would you feel if it was your house?
6. We no longer walk that way to the beach with our small children now, as we are scared to walk passed the drunk people (not all), there is broken glass, the pathway is often blocked etc.
7. Can you add a rule that the camper can't park ACROSS the parks (see photos). One guys brings his camper and associated cars, parks across ways, and puts up his solar panel!! Ie., he has effectively moved in, pays no rates, and blocks the car parks for other users.
8. There is also a bus that has been parked on the beachfront for many months... can I buy a bus and do that? (I note this person is well-behaved, but really!).
9. There is a narrow and blind corner on Second Ave & Strand, full of vehicles, kids, elderly in summer... the freedom campervans (especially the bigger ones) really hamper the view around the corner - someone is going to get hurt.
8. I have just realized can only upload ONE photo! Why? That is crazy if you genuinely want input. see attachments for more info

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area? No – freedom camping should be allowed with area specific restrictions**

**Tell us why and any other comments you would like to make about this area?** This is actually one of the few sites actually SOMEWHAT SUITABLE for freedom camping in summer as there ARE toilets, showers, and water (given we have water shortages on the island). Some rules should still apply - eg x days limit. However, we do have a camp ground at the Whakanewha regional park... so why can't freedom campers go there? I think the answer to both of these questions is that there's no water view!

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** If you are only travelling for a week and want to stop over somewhere familiar this should be possible.

**Do you support the no-return period rule because, in your view:**

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Do you have any other comments on the general rules?

Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

Who is going to check these vehicles for self containment. At the moment they just slap on a sticker on a station wagon for example.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

The Police should be allowed to move illegal freedom campers on. The council is not resourced to police these freedom campers and all the mess and rubbish and noise they make. We should be supporting local campgrounds and accommodation providers during Covid instead of us taxpayers stumping the bill for policing and cleaning up after these freedom campers.

## Albert-Eden Local Board area

### Prohibited site

**Heron Park 1625-1627 Great North Road, Waterview, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** They should pay to stay in a campsite and not wreck a park with their rubbish and sewage and noise.

## Aotea/Great Barrier Local Board area

### Prohibited sites

**Blind Bay (parking area by wharf) Opposite 670 Blind Bay Road, Great Barrier Island, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** They should pay to stay in a campsite and not wreck a park with their rubbish and sewage and noise.

**Goosebury Flat, Shoal Bay Opposite 418 Shoal Bay Road, Great Barrier Island, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** They should pay to stay in a campsite and not wreck a park with their rubbish and sewage and noise.

**Medlands Beach carpark Sandhills Road, Great Barrier Island, do you agree that freedom camping should be prohibited in this area? Yes**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule. Another reason (please explain)

**Another reason (please explain):** Keeping in mind that most Freedom Campers are on holidays, a vacate time earlier than 10am is Draconian.

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** I think 2 weeks is a long time. 7 - 10 days is more appropriate. Otherwise, campers holidays could be over and they're back at work before they're allowed to return to a freedom camp. It could be that a camper found a lovely spot on the way out and wants to stay in the same place on their way home.

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

A majority of Freedom Campers are nice people who are on holidays from work, who want to take care of their environment and who don't want to cause grief or upset to other people.

I strongly believe that living in vehicles without a specific and accessible (24 hour) toilet facility should not be permitted anywhere.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Requiring campers to leave at 8am, before standard business hours begin, protects access to shared parking or other amenities for other users – which is more of a priority than campers' convenience

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, and council has not identified any serviced areas in this proposal

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Another reason (please explain)

**Another reason (please explain):** Most would probably understand tolerance on freedom camping is practical but there does need to be a fall back for abuse of said tolerance. Having an inadequate policing capability is not a valid reason for having no rules, its not a big deal if someone e.g. stays an extra night but if they "move in" or abuse the facilities available there needs to be the legal option of removing them even if this might not happen immediately.

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

You must make the signage really simple and clear, dont overdo it and do NOT merely create a fecund ground for towaway services, as I've noticed happens elsewhere. An outcome that provides for tow-truck scavenging would be the worst outcome.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed subject to the general rules

**Tell us why and any other comments you would like to make about this area?** The parking area and surrounds are spacious and removed from busiest tourist/coastal locations. There are good toilet and shower facilities

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people. Another reason (please explain)

**Another reason (please explain):** The right to pull over and sleep in a self contained vehicle on the roadside in residential areas needs to continue. We have a motorhome and sometimes use it in other parts of Auckland to avoid drinking and driving. Eg - a BBQ and stay in a nearby street overnight or drive over 20km home. Or visiting friends in other parts of Auckland and staying in our vehicle overnight to continue the next day. Simple and harmless. Surely then also legal. Not all properties have driveways suitable for large vehicles.

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

### How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

**How do you think the general rules will unfairly impact some people?** Unfairly impacts those who are responsible with vehicles suitable for an overnight stay in a location away from home. Those who use these vehicles as a way of commuting to Auckland to work and returning a few days later without blowing the budget. Unfairly impacts all the businesses that benefit from being motorhome friendly towns - cafes, bars and other businesses.

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, and council has not identified any serviced areas in this proposal

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

Responsible freedom camping supports local business. More dump stations are however required in central Auckland.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

The limited number of places in designated areas is an issue. What do you suggest people do if all places are full and they are too tired to drive and unable to afford other accommodation? Surely the right to pull over on a residential street and have a sleep should be allowed in a self-contained vehicle.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

Do you not support having general rules because, in your view: Another reason (please explain)

**Another reason (please explain):** I refer to Waiheke Island only, I don't think that the rules will fit all areas, I feel that Local Board should determine what freedom camping rules should apply to the island.

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** I do not think that any freedom camping should be allowed on the island. We do not have any pump out facilities, if we had to have freedom campers then they should be both self contained and certified.

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** I still take the view that we should not have any freedom campers on the island. If however this does not come to pass then they should not stay longer than two nights.

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? No – I support another no-return period rule (please explain)**

**No – I support another no-return period rule (please explain):** I feel that we should have no freedom campers on the island, any rule that might be decided upon will not be able to be enforced unless additional staff are employed to do this job. We must also take into consideration unpleasant responses that are potentially leveled at the person employed.

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

To repeat myself, I feel that Waiheke Island is too small for freedom campers. We have a very good campsite that is situated within near proximity of all places of interest. We have no pump out facilities and having no freedom campers will be a simple solution.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

I would like to comment on the sites not included in the restricted areas. All beaches have small parking areas, these should not be taken up with freedom campers. If we have to have freedom campers, then the residents and local board should be able to make the decision about areas, number of nights, fines and policing of the places. This will mean that additional funds will need to be made available to cover the costs of employing additional staff. We are a small island with few facilities and no great distances between places of interest. Hence we ask the question, why do we need freedom campers.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

The current freedom camping regime doesn't work and campers (often residents) simply ignore whatever guidelines that exist. Furthermore, local councils (such as Waiheke) refuse to enforce the few rules that do exist.

And so...

1. The freedom camping regime needs to be simplified (these are the ONLY areas where camping is permitted)
2. Enforce needs to be done by the police
3. We need to be meaningful fines for breaches.....overstaying, defecating, dumping rubbish, etc which is all currently happening on Onetangi Beach and I am certain elsewhere.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area? Why aren't Onetangi Beach, Palm Beach, etc also included as "prohibited areas"??**

Why is the Onetangi Sports Park a prohibited area and these idyllic beaches aren't? As a consequence, we have local resident freedom campers who camp on these beaches for many weeks/months of the year, defecate under trees, dump rubbish....and the local board thinks this is all ok.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, and council has not identified any serviced areas in this proposal

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** only designated camping areas should be allowed

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? No – I support another no-return period rule (please explain)**

**No – I support another no-return period rule (please explain):** this is never policed

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area? No – freedom camping should be allowed subject to the general rules**

**Tell us why and any other comments you would like to make about this area?**

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** I would like Onetangi beach a prohibited area. This is a narrow road and large camper vans park on the side of the road causing traffic congestion and danger to pedestrians.

Also this beautiful beach has a fragile bank and these heavy vehicles park and cause damage.

This has been an on going problem, for many years and local residents have spoken to our local council to no avail.

There is supposed to be a parking restriction on this road but it is never policed.

Human waste on this area is a common problem. Not a great look when taking ones grandkids to play on the beach.

This is voted one of the most beautiful beaches in New Zealand we need to protect it.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** The general Rules are detrimental to Waiheke Island. On behalf of and as Chairman of the Onetangi Beach Ratepayers' Association Inc , I object to the General Rules applying to Waiheke Island and our Association fully supports the position voiced by the Waiheke Community Board (Cath Handley).

Waiheke Island has little or no infrastructure to accommodate freedom campers who are committed to using beach user facilities ie toilets, water etc akin to a campground.

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store

water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The kind of vehicle used for freedom camping in Auckland should be a personal choice, Using a vehicle that is not self-contained does not pose a risk to the environment or public health and safety, The cost of buying, hiring, or converting to a self-contained vehicle is too high, and that could mean some people can't afford to freedom camp in Auckland

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** A two-night stay gives campers more opportunity to enjoy the area and support local businesses, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Campers should have the right to come back to favourite places during their trip

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

I think Freedom camping is part of New Zealand culture and we should embrace it. Rule are rules people will always brake them. But don't make it difficult for those who enjoy a freedom camp because of a handful of people who reck it for the rest. We are New Zealand we are known for our relaxed freedom camping. It's all good bro grab a seat chuck a sausage on the bbq settle in for the night 🍖

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed without any restrictions

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed with area specific restrictions

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed without any restrictions

**Tell us why and any other comments you would like to make about this area?** There should be camper parking here and this should be set up as a camping hub it's perfect and it's out of public main roads it's. Well respected area with the facilities for This use 100% even expand this area for some freedom camping.

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed without any restrictions

**Tell us why and any other comments you would like to make about this area?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

[Do you have any other comments on the general rules?](#)

Who will monitor how long self-contained vehicles stay at multiple sites on Waiheke Island? Impossible to monitor!

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Reference part three: Your proposed regulations do not permit local board to adjust or limit freedom camping on Waiheke Island.

Regarding point .4. Enforcement powers at the detail level will be impossible to apply on Waiheke Island. The only enforcement that can be applied is complete limitation of freedom camping on Waiheke Island! The fine for any unauthorised freedom camping anywhere on Waiheke Island, should be set at \$5000 for the first offence!

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** This is a carpark, to get to a bathroom facility it is necessary to cross the busy road!

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** Who on earth is suggesting the sites to you! You have not listened to the recommendations from the Waiheke people and local board. There are many areas where restriction should be in place,. This location might actually be one of the more appropriate locations if we have to have them on Waiheke. Again no toilet facilities, no waste water or dumping facilities for freedom camping exist on Waiheke Island. Just stop it!

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** This area is used by current Residents of Waiheke who have no other options for living. Encouraging freedom campers from the rest of the country to this site is absurd!

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** As for all the sites that are proposed, this area would be subject to Noise and the dropping of bathroom refuse on our island. We have one campsite on Waiheke Island, this is the only place where freedom camping should be permitted. Our waiheke people ask you to please listen to them

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. **Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule? No – freedom campers should have to vacate their parking space by 10am on the day of departure**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule, Having a set departure time will help with enforcing the maximum stay rule

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby. Another reason (please explain)

**Another reason (please explain):** I live on Waiheke, following are the reasons we shouldn't have freedom campers.

1/. Waiheke does not have a waste station

2/. The self contain leave there residue all along the road as they drive off.

3/. The un self container i.e. vans, cars. These people I see swatting in the bushes and along the bank. There are no public toilets open in level 4 and even if there was there is none in the area I live. I and my neighbours have had used toilet paper, feces, and used tampons in our gardens.

4/. They cook on the beaches which is prohibited and leave their circles of wood smoldering for anyone, animal to come across.

5/. The converted buses, trucks, vans and cars are damaging the area along the front of the Onetangi beach as the bollards were taken away illegally and not replaced.

6/. the Aims cannot mow the lawns across the beach front as these vehicles are always parked their.

7/. Environment .The sea baskets which have been built to hold the bank of the beach is eroding, and the dunes are no longer, no matter how many strings the council ties along the beach.

8/. Rats are living under the canoes that are tied to the pohutakawa trees where the freedom campers throw food down the bank.

- 9/. Whilst these vehicles are park ( there are yellow lines painted) two other vehicles using the road cannot pass safely. Once a person had died down the end of the beach and it took 10 cars for the police are to get passed.
- 10/. Safety for people a lady walking her dog was hit in the shoulder and had to have surgery. Another long term resident was pushed up against a camper van whilst cars squeezed passed.
- 11/. No safety for pedestrians and tourist, we cannot push our prams, wheelchairs along as no footpath. The parking area where these freedom campers park are parked on it.
- 12/. People need to enjoy our lovely beaches not tons of metal!
- 13/. Arrange for the bollards to be replaced, taken illegally for the Onetangi beach races and were suppose to go back the following week, they have not.
- 14/. we have taken our cause regarding the freedom campers to our Local Board, unfortunatly not one thing has been done about this, This board does not have Waiheke, The Beach which is one of the top 10 beaches in the world in there concerns. The did say that they would put up 4hr parking signs, 3 years ago, still nothing.

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** I think they should be banned from Waiheke, until the powers to be can provide a safe environmental park for them with full facilities.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Banning them from our public places.

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Policing is key here. It should be a matter of presence, persuasion. Self-contained vehicle visitors should know they will be stopped, checked and put on the next outward ferry if they cannot contain their waste while on Waiheke.

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed subject to the general rules

**Tell us why and any other comments you would like to make about this area?** We cannot keep visitors away and these areas provide space for self-contained vehicles.

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?** Its a cemetery. Our civilian and war dead should be left in peace.

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?** Self-contained vehicles should be allowed to park for 2 days max at the Sports ground car park.

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed subject to the general rules

**Tell us why and any other comments you would like to make about this area?** We need as an island to be open to self-contained vehicular visitors. The self-containment of the vehicles needs to be consequently policed. No dumping on-island. A dumping site could be set up connected to the Oneroa sewerage system.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Freedom camping is widespread across NZ and the world now, Freedom campers are all ages and many live in their motor homes. Most towns and cities provide facilities for these campers, i.e. Whitianga, Taupo. Waiheke currently has no facilities or parking areas for freedom campers nor a dump station. Why try and make it illegal to camp overnight in a suitable camper when thousands of Kiwis are doing this as a lifestyle choice. Managing the proposed laws would be a nightmare. Create a couple of suitable areas and campers will use them. Sure make it illegal to camp on the beach front or other public areas but Waiheke seriously needs to catch up with the rest of the country here. A comment from our Local Board Chairperson seemed to indicate most motorhomes are too large for Waiheke roads, this is a nonsensical statement because AT and the board have consented to Double Decker buses operating on Waiheke and now wider longer and heavier electric buses. The board needs to be very accurate when making general comments designed to sway public opinion

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed with area specific restrictions

**Tell us why and any other comments you would like to make about this area?** The carpark at Kennedy Point is empty most nights and would provide an ideal overnight location for Freedom Camping as long as it was vacated by 9:00am each morning.

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed subject to the general rules

**Tell us why and any other comments you would like to make about this area?** This area is a prime location for Freedom Camping, there is no sporting activity here overnight or during the summer it is a winter only venue. There are good shower and toilet facilities. There are many available carparks overnight. If a security person maintained the parking area and even if an overnight charge was made, say \$10 or \$15 to assist in running the park. This park would be the ideal location for a waste water dumping station, there isn't one on the island and this would prevent illegal dumping elsewhere on the island.

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, The general rules will unfairly impact some people. Another reason (please explain)

**Another reason (please explain):** Some places simply aren't suited to freedom camping because it WILL damage the natural environment, and result in misuse of public toilets, e.g. Waiheke

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Leave the regs up to each Local Board

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** If freedom camping is allowed on Waiheke, locals will be affected by faeces in their gardens - this has already happened!!

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule? No – I support another maximum stay rule (please explain)**

**No – I support another maximum stay rule (please explain):** 3 or 4 days per stay

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule? No – freedom campers should have to vacate their parking space by 10am on the day of departure**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this, Having a set departure time will help with enforcing the maximum stay rule. Another reason (please explain)

**Another reason (please explain):** 9am is too early in winter

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** one week return period

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

'Waiheke is doing this for all the WRONG reasons

- there should be weight and width restrictions on all vehicles
- there needs to be a designated campsite or a few
- employers need to pay staff enough to live in a house
- freedom campers on Waiheke have never been a problem
- address the cause not the symptom

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

Do you not support having general rules because, in your view: Another reason (please explain)

**Another reason (please explain):** I do not support the certified self contained rule. Most of the areas have public toilets, and therefore self contained should not be a requirement. I support all the other rules.

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

I live/own a house on Waiheke and the Local Board are proposing to ban freedom camping. I disagree with this, i believe we should provide a dump station own the island and welcome freedom, campers with a 2 - 3 night max stay in any one locale, self contained and other regulations all good, maybe charge a small fee/night in designated areas :)

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I've heard some people suggest Whakanewha regional park be made option for freedom campers. Please please please No!

It would require a dumping station & upgrading of the facilities. The campground is perfect BECAUSE of it's limitations; it's not a "Top 10" holiday park or whatever, it's a regional park filled with wildlife that cope with campers because the numbers and facilities are limited. Freedom campers would use up a lot of the capacity leaving less availability for regular campers - which, ironically, often include people who need to vacate their rental for the christmas week. The campground is an affordable 'holiday' option for our family, and many others' on Waiheke. It's not the solution to freedom camping. We seem to have two issues: freedom camping, and a housing shortage; the latter should be the priority & the former shouldn't be the 'solution' to the latter. Thank you.

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?** Because it's a car park.

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?** The only camping allowed here should be permanent, and six feet under. I'm sorry, but how else do you answer "should people camp in a cemetery?" RIP

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area?** I don't know

**Tell us why and any other comments you would like to make about this area?** I feel this site is the only one with potential - only the carpark and building areas, the bush areas are for nature & recreation. The facilities could 'weather' upgrades without upheaval of the bush areas, and there aren't people living nearby that would have their neighbourhood changed - a pretty big deal if you have a huge mortgage on your dream home & then council decides to build your nightmare.

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?** Again, a car park, and after three months without our library: that carpark will be needed!

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Another reason (please explain)

**Another reason (please explain):** clarity - so everyone knows what generally applies

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay for an indefinite period in the same road or off-road parking area (no maximum stay rule)

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule. Another reason (please explain)

**Another reason (please explain):** we need some special areas for people who are living in their cars

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed without any restrictions

**Tell us why and any other comments you would like to make about this area?** it seems to be an attack on putiki bay protestors. they should be allowed to stay

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed without any restrictions

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a shorter no-return period means campers would be able to return to a favourite place if they wa

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

Waiheke just does not have the infrastructure to cope with freedom campers.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

Do you not support having general rules because, in your view: The general rules will unfairly impact some people

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people? There is a lack of beach parking on Waiheke Island. Not fair on the locals as the freedom campers and folk living in cars will take all the dam parks. Not fair.

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, and council has not identified any serviced areas in this proposal, It makes sense to match our self-containment requirements to the N

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, and council has not identified any serviced areas in this proposal

[Do you have any other comments on the general rules?](#)

Ratepayers finance amenities for rubbish collection and cleaning of public areas. Designated camping areas set up with amenities and a small fee payable towards upkeep. I think unfair people can freedom camp beachfront, use public amenities, take up valuable parking space, without contributing anything.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Post Covid could see an influx of freedom living

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?** New marina and bulk of schools located in this area from primary to secondary. High traffic flow

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?** For one it's a burial area. Gateway to onetangi with tourist venues, ecological areas

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?** Even though it's a large area with public amenities it is for sports use. Who will police this and pay for upkeep if used by freedom campers? I for one dont want to pay for this out of my ratepayers money.

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?** A very public arts area with tourist spots, limited parking for locals for library and theatre. Main start to the village from ferry for the island experience

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

One size does not fit all - highly valued and sensitive locations must be protected and exempted from FC .

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

The islands of Tikapa Moana are unique, globally important and highly sensitive. THEY MUST BE EXEMPT from this nonsense. Some, eg Waiheke Is have camping grounds - that is enough.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, Shorter stays are already the norm for most freedom campers, so a stricter rule is not necessary, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, If freedom camping starts to cause problems somewhere, this is better managed by putting extra rest

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrict

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

My comments pertain to main land Auckland and not to Great Barrier or Waiheke.

Waiheke does not have the infrastructure to support freedom campers and should be excluded from having them on the Island. We already have difficulty providing for our community without the additional responsibility and cost associated with freedom camper.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** On Waiheke the roads and infrastructure are not suited to larger self-contained vehicles but smaller vehicles are fine. Maybe only allow self-contained vehicles with a WOF should be allowed but owners with a larger COF vehicle are probably better off leaving their vehicle on the mainland and staying in one of our many holiday accommodations.

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, If freedom camping starts to cause problems somewhere, this is better managed by putting extra rest

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrict

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

They seem quite reasonable, it's just a bit of a mystery as to how they will be enforced and where will the funding for this come from.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** The environment and public health and safety would be protected by not allowing freedom campers anywhere on Waiheke Island. there are no dump facilities for toilets and a scarcity of water in the summer months. I can not believe (or trust) that people with camper vans will pay the very high price of the car ferry to only stay on the island for two nights then leave to empty their toilets. Who is going to monitor this or the requirement of moving every 2 days? The island septic systems will be ruined if chemical toilets are emptied into them. There are a number of homeless people & itinerant workers who live in their cars and they need to be given priority for the few facilities available

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store

water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, Although council has not identified any serviced areas in this proposal, I am aware of serviced areas on public land which should be included, It makes sense to match our self-containment requirements to the National Standard, It would be too hard to enforce the self-containment rule without referencing the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** The two night stay is reasonable for Auckland generally but on Waiheke Island freedom camping should not be allowed at all. There are no pump out facilities for wastewater and there is a significant risk that chemicals could be put down public toilets whi

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

On Waiheke one of the few places that is suitable for people overnighing in vehicles (because of the services available) is Onetangi Sports Park. Whilst banning casual freedom campers from this area is reasonable, measures should be taken to enable those forced to live in vehicles longer term from being able to stay there, subject to limits on numbers and possibly hours of occupation. Aside from teh above consideration, if this Bylaw does go ahead as currently proposed then Onetangi Sports park should not be a banned area.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

They do not define the difference between not-restricted, restricted and prohibited. This makes them very confusing. If there are general rules, is that not also a restriction? In the case of Waiheke, the general text says it is restricted, but Waiheke does not appear in the list of restricted areas. I don't see how we can seriously be expected to provide feedback on this.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

It will be impossible to enforce the two-day limit on Waiheke. How do you propose to do this and who will pay for it?

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?** Here it says there are no other restrictions proposed, but the beginning of the by-law specifically mentions restrictions on Waiheke and then does not specify them! I would like to see freedom camping prohibited on the whole of Waiheke, i.e. make the whole island a prohibited area. The reason for this is two-fold: 1) We have a lot of homeless people on the island living in various vans/buses on the island already and they should not have to compete with visitors. 2) The Island does not have the infrastructure to cope with Freedom Camping. As already noted, there are no dump stations. However, there are also inadequate roads to cater for the extra traffic (our roads are too narrow and already over-full), and this is a huge and unnecessary addition to our carbon footprint with these heavy vehicles being brought across on fossil-fuel burning ferries for a period of two-days, which will no doubt enjoy offering extra services to cater for the upswing in demand. If additional sailings are not offered, this will simply make it difficult for locals who may need to take vehicles off-island and for other freight services that also rely on the ferry.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive

## Do you have any other comments on the general rules?

Waiheke is not Auckland city and has a rural character. This island is not suitable to Freedom camping at this time and it can not be managed. Currently our island is currently facing a crisis in housing on the island. We can not allow Freedom campers to encroach on our very badly resources island in terms of toilets, roading and infrastructure. The time for Freedom camping on the Island is not now.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

There should be no Freedom camping on Waiheke or on Aotea until there is infrastructure in place to provide pump out facilities. Also Waiheke roads are not fit to have campervans and large vehicles on them. Almost every road on Waiheke is a sharrow and thus are shared by cyclists and walkers and those who are vulnerable. Already trucks are buses are pounding poorly constructed Waiheke Roads.

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** There should be no freedom camping anywhere on the island. However currently there is a dreadful construction at Kennedy Point and there must be protectors allowed to occupy that space until that construction of a floating carpark and a marina are halted.

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** There should be no Freedom Camping allowed anywhere on the Island - we do not have the infrastructure

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** There should be no Freedom Camping in this area or anywhere on the island

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** There should be no Freedom Camping anywhere on the island

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby. Another reason (please explain)

**Another reason (please explain):** It is not illegal to sleep in cars unless you happen to be driving, it is a matter of where.

The Strand in Onetangi has been turned into a de facto resort by these so called freedom campers.

The solution is cheap and easy. Replace the bollards which were removed decades ago as a temporary measure (One day for the Onetangi Races) and not replaced yet.

Until that can be done, install a NO PARKING sign.

Until then, allow longtime locals who have been driven out of their homes by high holiday rentals, camp in reserves such as the Sports Park.

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** By not allowing freedom campers on waiheke

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Ban them

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** Onetangi beach and associated Reserves / road ways etc are commonly used for vehicle overnighing for days / weeks at a time. All vehicle overnight camping on Reserves and associated road ways should be prohibited in the Onetangi area (in part because of the limited parking for daily recreational purposes - often lines of vans take up all parking spaces in Onetangi).

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, Although no serviced areas have been identified in this proposal, providing sites suitable for non-self-contained vehicles should be a priority for council, It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Although freedom campers are meant to be self contained many vehicles with a "self contained" sticker are not in fact self contained. This means people are going to have to be employed to monitor freedom camping areas. Where possible eco toilets should be provided where freedom camping is allowed. There should be NO freedom camping allowed on Waiheke Island. The island has no dump station or camping ground. At the moment people who are unable to afford to pay the high rents are sleeping in their vehicles and our limited facilities should be available to them and not to freedom campers.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** There is no dump site on the island. There is limited parking for the Sealink ferries and freedom campers would take up parks for people using the early ferries. Also the residents who cannot afford the rents and live in cars need to use the limited facilities on the island.

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** Again, there are limited facilities for freedom campers on the island and no dump site. Our limited facilities should be used by those residents unable to pay the high rents and not be crowded out by freedom campers.

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** Again, there is no dump site on the island and the limited facilities should be used by those who cannot afford to pay the high rents rather than being crowded out by freedom campers.

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** This is at the beginning of the commercial area of Oneroa. Again the island's limited facilities and no dump site should not allow freedom campers. Those people who have to live in vehicles because of the high rents need to use the limited facilities and should not be crowded out by freedom campers.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** how are you going to police the occupants actually using the facilities in their vehicle. they get good monetary kick backs by not using them from the company leasing the vehicle

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** from my experience on waiheke island the freedom campers will stay a lot longer than 2 days and no one is ever policing the mass groups of crappy vans/cars living at the beach. Very few rubbish bins are available so it becomes a shit show

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** whose going to police it, last i heard Auckland Council was shredding the amount of staff it employed due to covid , can't see any of the 86 over paid council rich list taking a cut in salary . so it will all be just lip service and the campers will do wh

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** see above comment

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

just ban freedom camping on waiheke. we are not set up for it

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area? why are none of the carparks by the beaches not prohibited. there is only limited parking anyway and the amount of campers would take a majority of these**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Without general rules, there is a risk that any problems caused by freedom camping could move from regulated areas to unregulated areas nearby, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be avail

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

As noted in previous response, Waiheke Island has unique circumstances that require area specific rules. There are no pump out facilities, unsuitable roads and limited places for campers to park.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area? No – freedom camping should be allowed with area specific restrictions**

**Tell us why and any other comments you would like to make about this area?**

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** It is not necessary to impose basic rules on freedom campers everywhere in Auckland

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Although council has not identified any serviced areas in this proposal, I am aware of serviced areas on public land which should be included

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay for an indefinite period in the same road or off-road parking area (no maximum stay rule)

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** It would be too hard to enforce a no-return period rule

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I don't know

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know? Self containment rule is very problematic on Waiheke. We do not have (or want) chemical dumping facilities.

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** It is not clear how these chemical toilets will be emptied on islands where there are no facilities. The rules need to be refined to account for such situations.

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Yes, I have litter picked (with a grabber) soiled toilet paper from Wharf Road and also the beach area below the car park on several occasions recently - really not pleasant! Hence my comment about consistency of approach and not increasing problems here because you have arbitrarily banned camping in other car parks.

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed subject to the general rules

**Tell us why and any other comments you would like to make about this area?** This seems like an arbitrary selection based on who is shouting loudest. It would increase pressure on other areas such as the car park by the Wharf Road boat ramp where we have problems already. This is unfair. Please either include all such car parks or none, to be consistent and fairer to all residents.

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area?** I don't know

**Tell us why and any other comments you would like to make about this area?** There are facilities here such as toilets and showers that could perhaps mitigate issues from freedom camping - particularly since chemical toilets cannot be emptied on Waiheke.

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this, Having a set departure time will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed with area specific restrictions

**Tell us why and any other comments you would like to make about this area?** Disallowing freedom camping in this area undermines the Protect Pūtiki movement. Which in actual fact is more important than banal discussions about freedom camping at this time.

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
