**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Without general rules, there is a risk that any problems caused by freedom camping could move from regulated areas to unregulated areas nearby

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, Shorter stays are already the norm for most freedom campers, so a stricter rule is not necessary

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

**Is this because, in your view:** Campers should have the right to come back to favourite places during their trip, A no-return period is not necessary: most campers don't return to the same place Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays. A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Requiring campers to leave at 8am, before standard business hours begin, protects access to shared parking or other amenities for other users – which is more of a priority than campers' convenience

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle. It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities. If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule, Having a set departure time will help with enforcing the maximum stay rule

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** Should not be allowed to stay on any street, only in a proper camp ground or similar or else we will end up having homeless people living on the street. It is already happening. Give them somewhere to live, this is just being lazy and hiding a problem. A

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Requiring campers to leave at 8am, before standard business hours begin, protects access to shared parking or other amenities for other users – which is more of a priority than campers' convenience, Having a set departure time will help with enforcing the maximum stay rule. Another reason (please explain)

**Another reason (please explain):** Why are we paying rates then to have people being cheap and living or camping on the street, can guarantee the majority of these people are NOT ratepayers

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** These have been worded to be biased & misleading. They should not be able to return ever to the same place, it is not necessary unless you are trying to encourage homeless people to live on the street

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Freedom camping is a joke. We've seen people littering and worse! The majority are not freedom campers, and create a nuisance to the environment and the community. I do not support freedom camping in any form. If you want to camp fine, park your campervan in a campground!

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I don't know

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know? I don't support this entire proposal so this question is irrelevant. I believe freedom camping should be limited to specific designated locations

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, and council has not identified any serviced areas in this proposal

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, If freedom camping starts to cause problems somewhere, this is better managed by putting extra rest

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Having a longer no-return period means most campers are unlikely to visit an area more than once. Another reason (please explain)

**Another reason (please explain):** If people are in NZ to freedom camp and explore, then they should move on to the next place... a campground perhaps

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? Yes

Tell us why and any other comments you would like to make about this area?

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area? No – freedom camping should not be allowed in this area

Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

**Do you have any other comments you would like to make about this area?** This area is of significant concern. It is an area widely enjoyed by the local community. My primary concern is that this law will allow campers all along Glendowie Rd. This is a residential neighborhood with families. There is already a problem with people camping overnight while it is illegal. My mother in law has to clean up after them fairly regularly and has even accidentally picked up a used condom. Further up Glendowie Rd is a sailing club where members have an expectation of being able to access their club. Allowing unlimited freedom camping along this road will unfairly impact residents and members of the sailing club. This stretch of road along Glendowie Rd should be prohibited from freedom camping

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Requiring campers to leave at 8am, before standard business hours begin, protects access to shared parking or other amenities for other users – which is more of a priority than campers' convenience

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

I would like to see more restricted/prohibited areas in Auckland generally and in particular to do not want to see campervans blighting the waterfront areas in Orakei ward when tourism starts again.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? Yes

Tell us why and any other comments you would like to make about this area?

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area? No – freedom camping should not be allowed in this area

Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

**Do you have any other comments you would like to make about this area?** As mentioned on previous page, I would like freedom camping restricted in all waterfront parks and open areas in Orakei, including along Tamaki Drive

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** In Tamaki drive there is already a problem of parking during summer, and we 2 days of staying on camper van this will be a mess

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Another reason (please explain)

**Another reason (please explain):** As a Kohimarama and Parnell property owner I object to any form of freedom camping in Tamaki Drive and its surrounding areas. Freedom camping should be reserved to 20ks from the CBD

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Requiring campers to leave at 8am, before standard business hours begin, protects access to shared parking or other amenities for other users – which is more of a priority than campers' convenience, Having a set departure time will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** Another reason (please explain)

**Another reason (please explain):** If certification is required it must be easily obtained from numerous places such as DOC, Park rangers, Councils Parks shops (like Waitakere ranges), suppliers and other outlets - really cheap

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Freedom campers should be made responsible for the tidyness of the immediate area around their vehicle including picking up litter or waste (theirs or others) - call it a koha.

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed with area specific restrictions

**Tell us why and any other comments you would like to make about this area?** Out of the way enables enjoyment of the waterfront. Prohibit freedom camping on Tamaki Drive (berms and adjoining reserves) and especially all boat ramps and manoeuvring areas off Tamaki Drive.

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area?** Yes – restricted freedom camping should be allowed, and I support the proposed restrictions

**Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** The general rules will unfairly impact some people.  
Another reason (please explain)

**Another reason (please explain):** Only 2 restricted areas are left close to the Airport. When International or domestic travelers in hire Vans need to return the Vans to the hire company they will probably need to stay outside of Auckland the night before. Early Van returns will be difficult and probably result in some people missing flights. Airport camping facilities will mark Auckland as a city and council who care about tourists.

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

### How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

**How do you think the general rules will unfairly impact some people?** The huge reduction in campsites and no doubt a numbers limit on available spaces in restricted areas will disadvantage campers and mean it will cost to stay in Auckland. Senior travelers will probably chose not to visit. This is yet another example of Council having NIMBY attitudes to tourists except when they can make a buck out of them.

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store

water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

## Do you have any other comments on the general rules?

There are 107,000 individual members of the NZ Motor Caravan Association. They Represent 58,000 families. This does not include use of rental vehicles or Campervanner's not in the NZMCA. Auckland council is limiting local businesses access to this market because of a few unruly people who will not take notice of the By-Laws anyway. It's counter productive. Council should provided better services for these people which will help to maintain responsible use of facilities. Having seen businesses like KiwiCard at Bowen town who provide free toilets but charge reasonable rates for showers and cooking facilities the council is missing out. Again.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** Having a set departure time will help with enforcing the maximum stay rule

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

I am not happy that freedom campers can park on any street in any suburb. I have visions of Tamaki Drive being lined with freedom campers day in, day out. There need to be more prohibited and restricted areas - like Mission Bay, Takapuna Beach, Glover Park, Vellenoweth Green.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays. A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Requiring campers to leave at 8am, before standard business hours begin, protects access to shared parking or other amenities for other users – which is more of a priority than campers' convenience, Having a set departure time will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Requiring campers to leave at 8am, before standard business hours begin, protects access to shared parking or other amenities for other users – which is more of a priority than campers' convenience

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

To be effective, rules have to be enforced, and one of the major problems with freedom camping is just that. There are thousands of Toyota van type campers which are manifestly NOT self contained, but manage to get a blue sticker, and these cause the problems because they simply do not care, but just looking for a dirt cheap (literally) holiday. They infest the entire country and have ruined the freedom camping experience for people who've proper s/c campervans. FYI FREEDOM CAMPING is banned in the uk and Europe.. Public health issues especially during COvid should be foremost in the Councils decisions. We cannot go back to the hordes of cheap tourists who could not care less about the environment. We must move on. What about Climate change? It is all relevant

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

I do believe people of NZ should be allowed to travel and stay in places of nature freely, where there are amenities they should and would be used. I suggest more maintained/services amenities should be available where camping is taking place and waste dump sites. Currently many are living in cars and vans and tents. Please help provide basic human requirements of fresh water and toilets for these areas. This way of life for many is going to increase, you have travellers who are able to move on however many need to work in the day and require a safe place to return of an evening - people need areas they can return to daily to feel secure and have basic needs met. Water and toilets. Provide these things help them don't turn a up coming generation into nomads.

Shower rooms open 24/7 that people can pay for, set rules and regulations for these. Help this next generation, food forest areas, food pantries, it makes it easier if we know where people are camping at night for others to help.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Please look at me other answer. We need to have foresight that areas of help and security with amenities need to be provided across Nz in every county

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? No – freedom camping should be allowed subject to the general rules

Tell us why and any other comments you would like to make about this area?

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area? No – freedom camping should be allowed subject to the general rules

Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area?

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** I do not support any Freedom Camping in a city, and in fact I do not support ANY length of stay at all. Freedom camping takes away from accommodation businesses and peoples jobs

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** I do not support any Freedom Camping in a city, and I do not support any length of stay at all

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** I do not support any Freedom Camping in a city, and I do not support any length of stay at all

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

I would just like to make the following statement as I believe other cities like Tauranga and Gisborne have much greater protections for residential streets in their Freedom Camping Bylaws than the ones that Auckland Council are proposing.

As you are aware, under the Auckland Council proposed Freedom Camping Bylaw an unlimited number of certified vans/caravans will be permitted to park and live throughout Auckland's suburban streets as well as along Tamaki Drive. The proposed Bylaw effectively means a Freedom Camper can live indefinitely in any suburb they choose, as long as that suburb has 7 or more streets.

I believe that Freedom Camping is a great Kiwi experience but it should be an experience based where there is little to no infrastructure, not in the middle of a city.

Freedom Camping is about getting amongst it, getting into nature and feeling the grass under your feet and the wind in your hair, not parking in a suburban street for 3 nights then moving around the corner for 3 nights, or even to another location around a city.

Cities have infrastructure that have been built and developed at great cost to taxpayers, to individuals and to businesses; there are hotels, motels, Air BnBs, bed & breakfasts, hostels and campgrounds - all manner of accommodation is available at every price point, and that accommodation and those business owners pay ground rent, rates, water use, power etc, and employ people.

What will happen to accommodation places like those, as well as to the existing campgrounds and caravan parks?

Freedom Camping erodes revenue from these existing businesses. These businesses have spent a lot of money to put the appropriate infrastructure in place, to make sleeping there safe and secure, and who pay rent for the land, the Council rates, and not to mention creating jobs for workers such as cleaners, gardeners, front desk personnel, office administration, telephonists etc.

Freedom Camping means livelihoods are reduced and we will end up with more people out of work and in financial difficulties. Freedom Camping takes the income from those business owners and operators, and in today's climate where industries and businesses are doing it tough, Freedom Camping takes away and reduces their ability to put food on the table for their own families.

In addition, who polices a Freedom Camper? Who knocks on the van door and says "you've been here 3 days, time to move on"? No one can monitor the time spent in each area, and no one is going to be driving through every single Auckland street with a little black book noting licence plates and asking a Freedom Camper to move around the block.

In the case of our delicate foreshore and Tamaki Drive, Freedom Camping will make parking very difficult overall but especially so for visitors, non-residents and disabled people, taking away their opportunity to promenade and enjoy the area. Effectively, parking a certified vehicle along Tamaki Drive will block access to all other users or visitors for 3 days/2 nights before being required to move only a few feet away to a nearby street.

I previously lived in an area where Freedom Camping was common and the Council Bylaw for it was in fact even more rigid to the one being proposed. The issue experienced there were numerous and were largely social ones, including drug dealing to supplement income as well as drug and alcohol abuse, assaults and an increase in crime, especially petty theft, as well as defecating and urinating in the streets and long stays in one place. For some, their Freedom Camper vehicle became their full-time home and all because the local Council had thought it was a nice, wonderful experience to legislate its acceptance - which it is! - but human nature means that people largely take advantage if they can.

If the Council are wanting local foreshore areas to be safe havens for Freedom Camping then maybe areas of Bastion Point or Okahu Bay could be developed at the cost of the local lwi, with the local lwi building infrastructure like toilets, shower blocks and kitchens, and with people hired to run these as campgrounds where people can camp as an alternative to Freedom Camping, but with the local lwi benefiting from the income? Perhaps that's an option which could also benefit our community instead of Freedom Camping?

I just feel Freedom Camping in our cities is not only inappropriate, it takes away from businesses and livelihoods.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I just feel Freedom Camping in our cities is not only inappropriate, it takes away from businesses and livelihoods.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, It makes sense to match our self-containment requirements to the National Standard, It would be too hard t

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Requiring campers to leave at 8am, before standard business hours begin, protects access to shared parking or other amenities for other users – which is more of a priority than campers' convenience, Having a set departure time will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

What do we do if people are not obeying the rules / dumping waste water into stormwater drains etc....? What's the probability of them being 'caught' or 'fined' before they are required to depart at 8am or 9am? How easily can this be enforced?

There needs to be a lot more prohibited areas, including beach fronts, beach carparks, parks and roads within close vicinity of popular areas. I would be concerned if I lived in these locations (or any area to be honest), where strangers are staying overnight on the streets. There would be safety concerns, walking home from bus stops at dusk past campers with unknown people. Are they allowed to setup deck chairs and tables on the grass curb sides, right in front a private property where the resident would normally expect privacy or people only walking down the street? Would they be taking up valuable car parking space for residents in the evenings? Some streets could become over-run with continual freedom campers.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

How would you enforce payment of fines from overseas visitors that break the bylaws? Other regions (e.g. Queenstown) have significant issues freedom camping and the mess left behind. Cities around NZ have created greater protection in the freedom camping bylaws.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** The area of Tamaki Drive from Achilles Point to Judges Bay should be treated as a prohibited area. This is a resource for all city dwellers to enjoy the Waitemata. The zone is already under pressure and parking is difficult for short-term visitors. Allowing freedom camping in this zone will limit the ability of Aucklanders to enjoy this space and also add to an already sizeable rubbish problem in this zone.

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area?**

**Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. **Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** Freedom campers should not be permitted to return to the same spot. Otherwise you will just have groups rotating between streets (as we currently have in our area).

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

They should be banned full stop, but as that takes legislative change Auckland Council should show leadership and make freedom campers only stay in registered campsites. This creates controls, reduces the potential environmental impact and reduces potential risks to residents. If they are visiting from overseas and can afford flights, they can afford a few bucks to stay in a registered area.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

We all know that despite your best intentions, these by laws are totally unenforceable. Do you really expect the streets of Auckland will be patrolled to make sure people are abiding by the rules. Of course they won't. Make them stay in camp sites where they can actually be controlled and monitored. No brainer.

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area? Yes – restricted freedom camping should be allowed, but with different restrictions

**Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?** Maximum number of vehicles, Maximum stay, Departure time, No-return period, Proposed location of freedom camping parking spaces within this area

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify): None

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site? 8am

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify): Other suggestion: No return, period!

**Where do you think the freedom camping parking spaces should be located within this area?** Nowhere. Have you considered that freedom campers will naturally migrate to places where people, including families visit? This will impact kids getting to (and enjoying) sport, getting to the beach, walking in parks. Not to mention the destruction that will be created to our environment. Unless you have lived in a cocoon, we have all seen the mess, including faeces, that is created by allowing them 'freedom'

**Do you have any other comments you would like to make about this area?** The options you provide are ridiculous. Freedom campers basically have carte blanche to park up anywhere. Think about the community and protect it, if they are permitted make it be in camp sites. Why should they be able to stay on any road they fancy. And who is going to enforce it.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, Having a set departure time will help with enforcing the maximum stay rule

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

There should be way more prohibited and restricted areas, the list is way to small for the Auckland area.

More areas must be added to the lists.

All residential areas including side of road, grass verge, streets, roads should have No freedom camping allowed.

Kids playgrounds, parks, other car parks must have more freedom camping rules, more than just the 4 proposed general rules.

These rules must have set guidance to explain the requirements for noise control, waste control, litter control, anti social behaviour rules and for other community laws that police have control of and will act on if those laws are broken.

Number of freedom vehicles per street /road place etc should be set to only 2 self contained vehicles

Any more that 2 vehicles it becomes a party.

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? Yes

Tell us why and any other comments you would like to make about this area?

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area? Yes – restricted freedom camping should be allowed, but with different restrictions

**Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?** Maximum number of vehicles, Maximum stay, Departure time, No-return period, Proposed location of freedom camping parking spaces within this area

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify): 2

What do you think is the appropriate maximum stay at this site? 2 nights

Other (please specify):

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Ban freedom camping from residential areas period.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** not allow them to park on residential roads at all, especially in Omaha8

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, The general rules will unfairly impact some people

#### Another reason (please explain):

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

I object to the councils proposal in its entirety in regard to opening up the streets of Auckland to freedom campers. Freedom camping is not appropriate on residential streets. The councils general rules will be ineffectual and unenforceable and will not protect residential streets and roads.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

#799

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** No freedom camping in Auckland.

This is a city, not a mobile carpark.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Ban it everywhere in urban areas, except limited designated areas

**How do you think the general rules will unfairly impact some people?** Reduce street parking.

Unruly 'tenants' in street with no responsibility

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store

water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** Any time limit can be worked around by moving from A to B...so quasi permanent & thus defeating purpose of rules. Ban freedom camping.

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** No freedom camping at all

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

No freedom camping in urban Auckland

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** The general rules will unfairly impact some people, Another reason (please explain)

**Another reason (please explain):** The rules would allow freedom campers to park up ALL the beach side public roads e.g. Tamaki drive , on the beach side. Parking already at a premium. And beaches appearance spoilt by campers and all their gear.

No parking on roads adjoining beaches or parks. No parking in residential streets within City limits. If you want to pay nothing, then you should only be allowed to park in rural auckland where there are very few houses. Way outside the city boundaries. Or pay for a camp site.

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

### How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

**How do you think the general rules will unfairly impact some people?** I pay rates to have the parks and beaches maintained for public use not for camping. Campers with their washing hanging out and kitchen set ups in public places is ugly. Also more importantly AC is now allowing very dense housing in every street with only 1 car park per dwelling. There is already a huge shortage of off street parking in many many streets. This law will mean that campers get priority over residents to park. It's insane thinking! Almost like one arm of Ac does not know or care what the other is doing!

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** Self containment is just box ticking. Very very few will use their own unless in an Rv. The problem if people shitting and peeing in public spaces will get worse .

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** The rules are Impossible to enforce. Not enough staff to patrol all of akl. Tourists don't pay parking fines in most cases. Sell the van and fly off.

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule? No – I support another set departure time rule (please explain)**

**No – I support another set departure time rule (please explain):** Impossible to enforce effectively across all of AKL. Has anyone worked out how many more staff would be needed to ticket Vehicles. And how do you distinguish between AKL residents parking outside their homes in such vehicles, and those who are camping ??

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? No – I support another no-return period rule (please explain)**

**No – I support another no-return period rule (please explain):** Again impossible to enforce. Or are you proposing g to put up cameras in EVERY SINGLE STREET??

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I strongly oppose freedom camping in Akl. Not enough off street parking already in many areas and this problem will increase significantly over the next 2 to 3 years. This bylaws is creating an even bigger parking problem.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

Do you support having general rules because, in your view:

Another reason (please explain):

Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Without general rules, there is a risk that any problems caused by freedom camping could move from regulated areas to unregulated areas nearby

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? Yes

Tell us why and any other comments you would like to make about this area?

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area? No – freedom camping should not be allowed in this area

Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** Self-containment should only be certified when there's a toilet cube with a door inside the campervan. I can definitely guarantee that camper with a toilet in the middle of the room will less likely use it and be more likely to pollute the public ground they're staying on. Most of those campers haven't even used that kind of toilet (without door) yet, it's usually only there to get the SCC sticker.

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay for an indefinite period in the same road or off-road parking area (no maximum stay rule)

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles should be allowed to come back to stay in the same area after dumping their waste responsibly, it is not necessary to prevent their return through this rule

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses

**Another reason (please explain):**

**Is this because, in your view:** Campers should have the right to come back to favourite places during their trip, A no-return period is not necessary: most campers don't return to the same place, If freedom camping starts to cause problems somewhere, this is better managed by putting reNot setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses

**Another reason (please explain):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** Freedom campers should have to vacate by 7am

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** Freedom campers should not be allowed to camp on residential roads

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I don't want any freedom camping on residential streets

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** More restrictive rules. Stay only 1 night & locked out for 4 weeks after

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):** We need clear and robust rules and standards to describe clear boundaries of acceptable behaviour, and consequences for breaches.

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-

**Another reason (please explain):** The reality is that many freedom campers are travelling on a tight budget, and so will be tempted to take advantage of shortcuts. The residents bear the burden of these decisions, as the travellers leave. It is to everyone's advantage that there is an unambiguous standard.

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Do you have any other comments on the general rules?

We must have strong standards and clear consequences for breaches of rules/standards.

### Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

The bylaws will only work if they are enforced and have teeth. It will be a considerable burden on Council to monitor compliance but it is vital that Council activities are very visible, fair, but aligned with protecting our environment. Visitor experience is important, but not at the expense of drops in standards. This requires pro-activity, monitoring and imposition of sanctions so that the message of clear - freedom camping does not mean freedom to negatively impact Aucklanders' home environments.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Campers should use camping grounds in all situations.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Ban freedom camping

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Make it illegal across the city. Let them stay in areas such as camp grounds or council owned land but not on suburban streets anywhere

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Without general rules, there is a risk that any problems caused by freedom camping could move from regulated areas to unregulated areas nearby, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available

**Another reason (please explain):** Auckland's residential streets should not be opened at all to freedom camping. Freedom camping belongs in designated freedom camping sites, not across residential suburbs

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** Freedom camping should not be in residential streets, they should be prohibited, in all other areas the maximum stay should be one night

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Parking access to all other users is vital, out by at the latest 8 am

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** It should be no return for 4 weeks BUT to the whole suburb, not just the carpark they left. If you have NO RETURN TO JusT THE CARPARK THEN THE VEHICLE CAN STAY ACROSS OUR SUBURB INDEFINITELY AND THIS IS LUDICROUS. It needs to be NO return to the whole suburb for 4 weeks

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Residential streets should be prohibited. Gisborne City Council have as a prohibited zone their whole urban boundary, with just designated sites for freedom camping, Tauranga has not in front of houses or businesses. AK needs a general rule that protects our residential streets like these two more onto Councils have done.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Freedom Camping Act enables you to prohibit areas. Our residential streets should be a prohibited area. The Act requires you to not have a total ban. By having 19 freedom camping sites across Auckland this satisfies the Act. Your General rules do not go far enough in protecting residential streets, this will be a disaster for some areas.

Tamaki Drive from the Kohimarama yacht club to the Mission Bay entrance needs to be a prohibited area. This is used by thousands of people a week, already there is no parking, having vans being able to park up and block access for 3 days is ludicrous. The freedom Camping Act allows you to prohibit this area of Tamaki Drive based on protecting Access to all.

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? Yes

Tell us why and any other comments you would like to make about this area?

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area? No – freedom camping should not be allowed in this area

Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area?

#991

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

**Is this because, in your view:** It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Maungakiekie-Tāmaki Local Board area

### Prohibited sites

**Gloucester Park North 62 Onehunga Mall, Onehunga, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed subject to the general rules

**Tell us why and any other comments you would like to make about this area?** Prohibition is excessive and against the spirit of the legislation - what is so special about this area? Seems a suitable place for freedom camping to me.

### Restricted sites

**Taumanu Reserve (Onehunga foreshore) Orpheus Drive, Onehunga. Do you agree that freedom camping should be restricted in this area?** Yes – restricted freedom camping should be allowed, but with different restrictions

**Which of the proposed restrictions for this area would you want to change at Taumanu Reserve?**  
Departure time

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?** There shouldn't be a set departure time

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

It is not acceptable to have almost all residential streets open to freedom camping. This is unacceptable to residents in areas where parking is already tight. Increasing housing intensification is only going to make the problem of street parking worse. There should be designated areas where freedom camping is allowed that does not affect residents ability to park outside or near to their homes.

Local businesses also need to be considered as freedom camping in front of businesses could reduce trade due to lack of easy access to that business. Perhaps the council should invest in more appropriate places for freedom camping rather than put out its rate payers. If there are only 90 odd places available currently for freedom camping, surely that is a sign that there should be more designated places made available or created, rather than placing the burden on city residents to house them on their streets.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

Freedom campers park up and then their activities always expand outside the vehicle to the immediate vicinity. Open doors, preparing and eating food, awnings, outside seating - all of these normal camping activities are suitable for a limited and use-specific type of park-up environment ONLY. Freedom campers should not be able to park-up and camp on ANY residential streets e.g. all of Tamaki Drive, nor any area which is a popular location for locals to enjoy e.g. Cornwall Park.

A minimum stay period and no-return period are great ideas in principal but almost impossible to enforce in reality unless freedom campers pay a levy in their rental fee (not all freedom campers are renters btw), to fund this enforcement.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

In general the privelege of Freedom Camping and the benefits it gives those who participate in it, should come with additional restrictions to ensure the protection of our environment and safety of the populace within it.

If staying at a designated camp ground, clear rules apply - so giving people the privelege to 'freedom' camp, relying as it does on self-regulation, the integrity and honesty of those involved, should be balanced by stricter rules and penalties.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Add Tamaki Drive to the prohibited list. This road - from Mission Bay to St. Heliers - is in high demand for daily use by the community. Freedom campers will interfere with local use and create safety issues. Parking along the walking/biking path is already precarious due to the lack of a median between the paths and road in most spots. Having freedom campers set up tables or regularly open doors will interfere with pedestrian use and poses a significant danger to cyclists in particular.

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** As already mentioned, all of Tamaki Drive should be restricted, as should all local village/suburb on-street parking areas, not just carparks like that for the St. Heliers library, Misson Bay off-street parking, Kohimarama Beach, etc. Freedom CAMPING versus Freedom 'parking up for the night' are two totally different things....assuming the latter does not involve any more than activities inside the camper van i.e. no awnings, open doors, activities that 'spill out' onto the immediate external environment, which can impede, otherwise hinder or disturb other people's free and unfettered rights to enjoy the environment.

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area? Yes – restricted freedom camping should be allowed, and I support the proposed restrictions**

**Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

## Ōrākei Local Board area

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** The general rules will unfairly impact some people,  
Another reason (please explain)

**Another reason (please explain):** Allowing freedom camping on residential streets will adversely impact residents in terms of their peaceful enjoyment of their homes and access to parking. It seems unlikely that council will police the campers properly - it already struggles with noise control etc

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

### How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

**How do you think the general rules will unfairly impact some people?** See comment above

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Freedom camping should NOT be allowed on roadsides. There are enough Auckland campgrounds, and council facilities to park on already. This change will not only increase waste from freedom campers outside private homes, but also present a security risk to homeowners.

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

This new rule is an attack against ratepayers. It will encourage crime, diminish health and safety, and WILL be an environmental nightmare. We have had vans WITH self containment stickers park outside our home and they have emptied their waste in our drains, used our outdoor water tap (attached to the house) to top up their water tanks and dumped hard waste on our grass verge.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? No – freedom camping should be allowed with area specific restrictions

**Tell us why and any other comments you would like to make about this area?** This will at the very least keep unsightly vans off Tamaki dr

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area? No – freedom camping should not be allowed in this area

**Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** Having a shorter no-return period means campers would be able to return to a favourite place if they wanted to, as part of a longer trip

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

The penalty for the issue of an Infringement notice should be larger

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? Yes

Tell us why and any other comments you would like to make about this area? Not suitable for freedom campers

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area? Yes – restricted freedom camping should be allowed, and I support the proposed restrictions

Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area? There should be specified areas for Freedom campers along Tamaki Dr/ Cliff Road as this is an area used extensively by the general public and campers would limit use of this area by Aucklanders

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Keep freedom campers all together in specific areas NOT residential areas.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

[Do you have any other comments on the general rules?](#)

Freedom campers are NOT suitable to be scattered around Auckland. Keep them in designated areas where they can be monitored and the area can be cleaned up after they leave.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Freedom camping should not be allowed in urban areas or areas where there are no public facilities

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

Capervan rental companies apparently offer discounts for not using the self contained toilet, which is then taped up, so just because a van is self contained it is not necessarily being used. Would be good to regulate the rental industry to make this practice illegal.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays. A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

Kohimarama

Auckland 1071

re Proposed Freedom Camping on Tamaki Drive.

We are residents on Tamaki Drive, Kohimarama.

We oppose the suggestion to allow Freedom Camping on any part of Tamaki Drive.

Roadside parking on Tamaki Drive is at a premium all year around.

From early morning until late afternoon people drive here to gain access to the beach to walk their dog, swim, pursue kite boarding, paddle boarding, launch their boats at the boat ramp and then try to find parking for their car and trailer along Tamaki Drive.

A huge amount of parking has been lost to the recently dedicated, coned off cycle lane on the seaward side. This has accentuated the parking problem in the area.

The Kohimarama Yacht Club holds sailing days during the year and many members drive here with their yacht on a trailer and park and unload their yachts. This they used to do in relative safety on the roadside which is now a cycle lane. Now these people must somehow find parking for their car and boat trailer in the side roads which is not easy and causes further congestion in the area and is a road safety issue.

During the fine weather in summer, groups of people drive here by mid-morning, set up their tents and BBQ's and stay all day, many not leaving until 3 or 4am the following day, some of them "entertaining us" with their anti-social behaviour and noisy boom box "music."

Once a week during the summer months the Barfoot and Thompson swimming event is held at Kohimarama Beach in the late afternoon and again parking is very difficult to find for the people who drive here to take part and or watch the events.

The last thing this area needs is to allow large Freedom Camping vehicles to parked on Tamaki Drive occupying the space which is already insufficient for locals.

This is very much a road safety issue as people crossing Tamaki Drive do so at their peril due to the volume of traffic. Large, parked vehicles increase the risk for pedestrians trying to cross the road as these vehicles reduce the visual warning drivers have of seeing someone needing to cross, often accompanied by young children and lots of baggage.

Tamaki Drive is a residential area and is a very busy main thoroughfare and should not become a freedom camping area where large vehicles can and would become a permanent hazard.

Charles Archibald

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** Freedom campers would affect our view of the waterfront, they would affect security in our street and noise levels. They would have an immediate negative impact in multiple ways to our home environment and we do not see why we should have to cater for them after paying top dollar for an Auckland home.

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** We do not want them in our street in any form.

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** We do not want them in our street even for one night.

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** Ridiculous as no one is going to police this.

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** We do not want them in our street at all. No one would police this rule anyway.

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Freedom campers should not be allowed to camp wherever they like and affect people's lives in their own homes and streets.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Install cameras in sensitive areas and have fines for trash being left etc

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** Homeless people or travellers in cars. Covid has to put a lot of pressure on people and not everyone can afford a self sustained unit

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Using a vehicle that is not self-contained does not pose a risk to the environment or public health and safety, The cost of buying, hiring, or converting to a self-contained vehicle is too high, and that could mean some people can't afford to freedom camp in Auckland

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** One week

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:** Campers should have the right to come back to favourite places during their trip, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule  
Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Ban Freedom camping from urban areas as they are already heavily used by the public which leads to noise pollution, traffic congestion and parking difficulties and rubbish being left behind.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Stringent policing of the rules by officials checking areas regularly, fines being handed out and Freedom camping status taken away for multiple infringements

### How do you think the general rules will unfairly impact some people?

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

Freedom camping should not be allowed in urban areas.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? Yes

Tell us why and any other comments you would like to make about this area?

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area? No – freedom camping should not be allowed in this area

Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays. A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space. Another reason (please explain)

**Another reason (please explain):** In some more remote areas the blocking of access to parking may not be an issue but parking in most areas of Auckland is hard enough. Locals or day visitors also support local businesses, sometimes more than freedom campers.

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, If freedom camping starts to cause problems somewhere, this is better managed by putting extra rest

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Freedom camping could be improved by specifying and identifying areas people can freedom camp as opposed to allowing camping anywhere bar a few prohibited places. Having such a broad area for freedom camping makes it impossible for Auckland Councils to properly check and enforce compliance of the rules in all the places. Providing identified areas and maps highlighting areas where freedom camping is allowed would provide clarity and clear guidelines for freedom campers as well as providing a manageable area for councils to check on and enforce compliance.

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? Yes

**Tell us why and any other comments you would like to make about this area?** Freedom camping locations should be kept to a manageable size and only allowed in identified areas.

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area?

**Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Using a vehicle that is not self-contained does not pose a risk to the environment or public health and safety

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** It would be too hard to enforce a set departure time rule

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** It would be too hard to enforce a set departure time rule

**Another reason (please explain):**

**Is this because, in your view:** It would be too hard to enforce a set departure time rule

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Without general rules, there is a risk that any problems caused by freedom camping could move from regulated areas to unregulated areas nearby, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be avail

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** I support a zero return, in other words they should not be able to come back at all to urban residential streets of Auckland. If there is off road parking, fine.

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

I dont want freedom campers in urban residential streets. There should be designated areas only for freedom camping. They dont pay fees and often they leave rubbish behind.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? Yes

**Tell us why and any other comments you would like to make about this area?** It should be prohibited in all building carparks such as all libraries. Should be prohibited on all residential streets in greater Auckland

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area? Yes – restricted freedom camping should be allowed, and I support the proposed restrictions

**Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?** Freedom camping on a restricted basis should be allowed in all areas where there are grassed off road areas in addition to the road and footpaths. Should not be allowed on residential streets.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** The general rules will unfairly impact some people, Another reason (please explain)

**Another reason (please explain):** Freedom campers make no contribution to the facilities provided in an area by ratepayers. They are free loaders and allowing them to free load off ratepayers adversely impacts back backer accommodations, camp grounds and motels, all of which do contribute to paying for local facilities.

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

### How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

**How do you think the general rules will unfairly impact some people?** The Council's General Rules will be ineffectual and also unenforceable and in practice will not protect residential

streets and roads. There will be a substantial loss of amenity for residents in streets favoured by freedom campers.

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom

Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The

Council's General Rules will be ineffectual and also unenforceable and in practice will not protect residential

streets and roads

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

Freedom camping should not be allowed under any conditions on residential streets or reserves in residential areas.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

Freedom camping should not be allowed under any conditions on residential streets or reserves in residential areas of Auckland. There is nothing in these bylaws that will prevent an explosion in the numbers of freedom campers and their vehicles residing on our residential streets. The rate paying residents of Auckland do not want any of this.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** I support dedicated freedom camping areas, but not in public streets. We are near a Council park that regularly has freedom campers stay overnight without issue regardless of current rules. I cannot understand how the Council would actively govern the proposed rules of 2 days and relocation distances.

**How do you think the general rules will unfairly impact some people?** Parking already is issue in our street. The street is not far from city/waterfront and next to park facilities- so appealing to campers. We could end up with multiple freedom campers in our street.

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store

water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):** Probably impracticable to provide adequate information to advise free campers of local requirements eg by use of signage, media and so on. When vehicle certification is carried out information packs could be supplied by the (duly authorised) certifying agent.

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, and council has not identified any serviced areas in this proposal, It makes sense to match our self-containment requirements to the N

**Another reason (please explain):** Question: Under what criteria will certification be offered ie what is regarded as "safe" for vehicles living in residential streets with many children and older residents

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** A one night stay with early departure of say 8am would be more suitable to prevent freecamping vehicles blocking access for all users to public spaces eg waterfront, beach and residential side streets. In the case of Burwood Crescent there have been four

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** I would support an 8am departure time (if residential freecamping is permitted at all) to minimise impact on local traffic eg school (Burwood Crescent is heavily used by Baradene and St Kentigens students/parents) and business travel; also on the activitie

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Another reason (please explain)

**Another reason (please explain):** Preferably a non return period for a suburb as this prevents freecampers camping permanently in a suburb eg as I understand Whangarei has comendably required.

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

I question how these rules will be policed over designated areas and (hopefully not) residential streets in Auckland. I am unaware of any planning/budgetting for resourcing and administration of the proposed new freecamping bylaw and consider it inappropriate to introduce such a bylaw until that has been done

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? I don't know

Tell us why and any other comments you would like to make about this area? I am unfamiliar with that area

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area? I don't know

Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area? I am unfamiliar with that area

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

Freedom camping should NOT be allowed in residential streets and places like Tamaki Drive AT ALL. Ridiculous!!! There isn't enough parking for residents

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I don't know

### Do you support having general rules because, in your view:

Another reason (please explain):

Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, If freedom camping starts to cause problems somewhere, this is better managed by putting extra rest

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrict

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I holiday at Buckletons Beach in Rodney and I do not believe it is appropriate for freedom campers to use Buckelton Road for camping as it is a small and narrow road and already very busy over summer.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Freedom camping for those on a holiday should be considered quite differently than for those living in a vehicle-that is either survival or a life choice, not camping.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** Yes. Taxpayers and home owners do not want people camping/living in neighbourhoods or at public facilities/parks and allowing it is likely to inhibit enjoyment of the communal space

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space, Another reason (please explain)

**Another reason (please explain):** Stays on residential streets should be actively discouraged with one night only allowed as a safety issue so campers have somewhere to go if they cant find a proper serviced camping ground.

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Bylaw should not encourage campers to treat residential streets as camping grounds. This use invariably conflicts with the rights and wishes of resident ratepayers other than local businesses who may see campers as customers

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area?

Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

**Do you have any other comments you would like to make about this area?** Restrictions should be applied to The Parade where it borders Vellenoweth Green.

Campers routinely stay there for extended periods flouting the 2 day rule.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Blanket prohibition of freedom camping in the megacity of Auckland. It is unrealistic given lack of enforcement manpower to expect that there will be resources available to enforce ANY rules, there to allow freedom camping even with rules, is tantamount to giving free reign to the detriment of Auckland City residents. Council surely could govern with the simple rule of do no harm.

### How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

### How do you think the general rules will unfairly impact some people?

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

These are unenforcement with the current budgetary restraints on Auckland residences and will cost more the enforce and them rectify damage caused, than there is money available. There are no benefits to Auckland rate payers to allowing freedom camping in a modern city.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

They are not enforceable. So why bring further stress and distress to residents if Auckland. Auckland should not be treated like a rural trust town. It is a commerical centre and needs to provide safe residential areas for workers to stay in the city, bearing the high costs to keep the city's economy going. It is quite bewildering that councillors think that the city economy would benefit from budget travellers? Youth hostels adequately service that area.

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? Yes

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I think you should consider making boat ramps with adjoining parking areas banned zones. They would be attractive to campers because they're literally sea side. Omaha boat ramp is a good example, it is extremely busy and not enough parking for boat trailers compared to how much demand has grown which means on a busy day there are boat trailers parked along omaha drive and adjoining streets up to a km away. It would be infuriating for ramp users to have the carpark full of campervans which in summer could easily be 20 to 30 vans.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I'm not sure I understand correctly but it looks as though these rules would allow freedom camping along Tamaki Drive and surrounding neighborhood streets. Allowing campers to park overnight would block already congested regular daily access. It would be unsafe given the already high volume of car and bus traffic as well and bicycles and pedestrians along Tamaki Drive and the surrounding streets. It would obstruct access to these areas and block views.

I have seen first hand the effect of allowing campers busy urban areas, when living in California, and in built up residential urban areas the only viable option that prevents long term overstaying issues, health and safety problems and impact to rate paying local residents is to limit campers and camping to designated serviced camping grounds. Freedom camping in urban areas that already have high usage, and limited parking should not be permitted at all.

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? Yes

Tell us why and any other comments you would like to make about this area?

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area? No – freedom camping should not be allowed in this area

Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area? The area is too urban and too busy with foot and cycle traffic to safely consider camper vans.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, If freedom camping starts to cause problems somewhere, this is better managed by putting extra rest

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Concerning if campers can stay on roads outside residential premises where on road parking is already an issue. Fear their rights will override the rights of others and or inappropriate behaviour will not be seen as a priority by other acts e.g police/criminal/nuisance.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? Yes

Tell us why and any other comments you would like to make about this area? There should be more prohibited areas in this zone

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area? Yes – restricted freedom camping should be allowed, and I support the proposed restrictions

Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area?

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

Do you not support having general rules because, in your view: Another reason (please explain)

**Another reason (please explain):** I fundamentally disagree with freedom camping in residential areas. There should be dedicated camp grounds for people that want to camp. This is inappropriate and unsafe.

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule? No – I support another maximum stay rule (please explain)**

**No – I support another maximum stay rule (please explain):** As stated above, zero. Roads are already highly congested, the city is becoming more dense. Taking street parking when many new units / townhouses have little to no off street parking is a recipe for disaster!

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I don't believe there should be any freedom camping in suburban areas of Auckland. As ratepayers we already pay for the services we require and shouldn't have to subsidise those who choose to live outside these regulations. It is expensive to rent in Auckland, and those who rent are also contributing to the cost of Council services. Freedom campers are outside these obligations and should use existing camping grounds while in the city. If these are not large enough there should be investment into facilities for such campers.

Living opposite a public park I already witness the abuse of rubbish disposal and high maintenance requirements that are being met by the Council and ratepayers. This situation is already inflated and freedom camping would add another layer.

We also experience increase security issues with after hours activities in the park and having people outside our neighbourhood community would add another stress to our safety. We all look out and after each other as a community but frequently have 'visitors' who break the rules and damage park property or the property of those nearby.

As a citizen of Auckland, and a long term ratepayer, I feel freedom campers staying in suburban streets will alter our community and create problems for all in it. Even the procurement of water will be an issue. We have had people use our garden supply during the night without our permission.

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? Yes

Tell us why and any other comments you would like to make about this area?

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area? Yes – restricted freedom camping should be allowed, and I support the proposed restrictions

Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area?

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, Another reason (please explain)

**Another reason (please explain):** People are struggling to own a home and you want these people start camping on any and every residential street???? What's wrong with you????? Zero common sense. It takes millions to buy a waterfront property but people can just camp there?? And residents lose parking spaces which are already scarce ... disgusting!!

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Release council owned remote land to them no freedom camping in main residential areas .... this is a no Brainer. I do t want to wake up and see a freedom camper outside my house on the streer because it's public property! I don't want my packages stolen! I don't want to struggle getting in and out of my driveway. What about street appeal....you guts are coming up with absolutely useless initiatives....stop it

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store

water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

No freedom camping in residential or beachfront or busy roads!!!

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

No freedom camping in Central auckland!!!!

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? Yes

Tell us why and any other comments you would like to make about this area? Freedom camping should be prohibited in all of Central Auckland...this is just wrong!!!!

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area? Yes – restricted freedom camping should be allowed, and I support the proposed restrictions

Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours

**Is this because, in your view:**

**Another reason (please explain):**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? Yes

**Tell us why and any other comments you would like to make about this area?** Additional prohibited areas should be added. Specifically all beachfront locations along Tamaki Drive

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area? Yes – restricted freedom camping should be allowed, and I support the proposed restrictions

**Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

?

5 December 2021

Auckland Council

### **Feedback on Proposed Freedom Camping Bylaw**

We believe that the proposed Freedom Camping Bylaw has potentially serious implications for the residents on the Mission Bay and Kohimarama areas that we represent, and offer our comments and suggestions below.

#### 1. General rule

We do not support the proposed general rule which allows freedom camping anywhere unless specifically prohibited. The current rule may well be too restrictive, but could easily be loosened up by adding more acceptable locations. We strongly believe that activities which have serious potential to negatively impact communities should have to be assessed first before being allowed as of right.

The community has found to its cost that with such permissive approaches any unexpected problems prove almost impossible to correct. For example, if the new rules result in nose to tail campervans parked along Tamaki Drive at peak periods, detracting from the area's ambience and causing problems with access, parking, noise, rubbish and violence, we believe it would take years before anything could be changed.

We have seen a similar reversal of tree protection, where blanket protection was thrown out and replaced with protection only for individually identified trees. The result has been an unprecedented and uncontrolled removal of trees in Auckland at the same time Council has developed an urban forest strategy to preserve trees. This makes no sense.

We recommend an approach based on the current approach, that freedom camping is prohibited except in approved areas. We would support a substantial increase to the approved areas, including in our area of Mission Bay and Kohimarama.

We believe that such an approach can be framed to be compatible with the Freedom Camping Act 2011.

#### 2. Self-containment rule

We agree with the approach taken. We believe that non-self-contained vehicles pose a risk to our environment and impose a clean-up cost on rate-payers. That would be inappropriate. Regarding the standard, there is already a national standard for self-containment, and we see little need to introduce a new Auckland-specific rule that may confuse freedom campers. It is common sense to utilise the existing standard.

In short, our view is that yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

### 3. Maximum stay rule

We do NOT agree with the proposed 2 night stay. We believe that multiple nights would create problems for local communities in popular areas, reducing parking availability for locals and visitors from the wider Auckland area, blocking views, and reducing the attractiveness of the areas.

Instead, we support 1 night stays.

### 4. Set departure time rule

We agree with the proposed 9am departure, but would also be reasonably comfortable with a 10am departure.

### 5. No-return period rule

We do not agree with the proposed rule. We do believe that there should be a no-return rule, but consider that limiting the exclusion to the same street is inappropriately narrow. That would mean freedom campers could easily circumvent the spirit of the rule by moving a few metres away to another street. Instead, we believe that the exclusion should prohibit returning to a location within 1km of anywhere they have camped in the previous no-return period.

The exclusion time must first be designed to protect local communities, and providing for free holidays for tourists should be a secondary concern. We believe that 4 weeks would be a more suitable time frame, as this would help avoid popular locations being overloaded as much.

The proposed bylaw has nominated very few exclusion zones, leaving open the possibility that popular areas such as Mission Bay and Kohimarama beaches would be overcrowded with freedom campers. If Council is not prepared to protect local communities from such an influx, then they must at least ensure that campers move on quickly and don't simply move a short distance while staying within the area. The combination of a no-return period and maximum stay rule help mitigate the potential for overcrowding and impact on local communities.

For this reason, we support a 4 week no-return period.

### 6. Prohibited and restricted areas

We believe that the proposal does not prohibit freedom camping in sufficient locations. In our area, we see the beachfront areas in Mission Bay, Kohimarama, St Heliers and Okahu Bay as needing protection, and yet there is nothing proposed. We are comfortable with freedom camping on the points between the various beaches, but note that locals already use the beachside locations very heavily and would be disadvantaged if they have to compete with tourists for parking. In addition, the connection between the beaches and the adjacent suburbs is critically important to the character of these suburbs, and to undermine this by allowing unrestricted campervan parking to create a wall between the beach and community would be totally inappropriate.

These areas currently do not allow freedom camping, and so Council must justify why they would reverse this position, given the high probability of issues arising from overcrowding in

these areas. We, along with the police and Council, are already trying to manage a major problem with overnight noise and anti-social behaviour in Mission Bay and St Heliers. It seems unbelievably foolish to compound this problem by allowing more people to overnight in the area. Failure to add at least Mission Bay and St Heliers to the designated prohibited areas would be a demonstration of bad faith in the Council's negotiations with community groups and the police to solve the current problems.

We therefore suggest adding the beachside locations of Mission Bay, Kohimarama, St Heliers and Okahu Bay to the designated prohibited areas.

#### 7. Parking controls

Mission Bay already has parking controls prohibiting parking between midnight and 6am. This effectively creates a prohibited freedom camping area. It could be argued that similar controls could be enacted at the other beaches if freedom camping creates a problem. In our view, this would not be the right approach. Council should provide freedom campers with a clear and unambiguous set of rules that prohibit freedom camping in sensitive areas, rather than an indirect parking restriction.

Nevertheless, if our recommendation for prohibited areas on the beachfronts is not accepted, we ask for assurance that Council will monitor the situation, and if problems arise, either add additional prohibited or restricted zones or install overnight parking restrictions similar to those in force in Mission Bay.

#### 8. General comments

We point out that the Eastern Suburbs beaches serve multiple purposes. They attract recreational users for swimming, picnics, sunbathing etc; they are used for formal and informal sports such as triathlons, ocean swimming, exercise classes, touch rugby etc; and Mission Bay and St Heliers in particular are also key hospitality and shopping centres. It would be negligent for Council to open these areas up to unrestricted freedom camping without first taking considerable care to ensure that freedom camping would not compromise these existing functions. Has Council undertaken studies on the likely impacts to these areas?

We note that Council, to our knowledge, has NEVER enforced the existing overnight parking restrictions in Mission Bay, despite regular overnight parking, much of which directly contributes to the noise and behaviour problems that Council has undertaken to solve. We therefore have little faith in Council's willingness to enforce anything that they consider too difficult, although we note they are happy to enforce parking restrictions during the day when infringements cause few problems.

We therefore seek an assurance from Council that the proposed Freedom Camping Bylaw will be enforced.

Yours sincerely

Don Stock

Chairman

Mission Bay Kohimarama Residents Association

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

The Freedom camping by-law proposed is generally positive <p>However overnight parking needs to be further restricted along Tamaki Drive to also include the length of Kohimarama Beach in the interests of safety and accessibility </p><p>This beach is used increasingly by families for picnics , swimming , and recreational activities , ( kite and wind surfing ,and canoeing ) Let alone the many yachting regattas The number of walkers and joggers has also increased tremendously , driven by the lockdown , but will continue as Aucklanders and visitors have come to further appreciate this iconic beach</p><p>Parking is becoming dangerous as motorhomes take up spaces for lengthy stays . In the interest of safety any motorhome should be restricted to the back streets . The upgraded pedestrian crossings is helpful , but families still have to negotiate across the busy Tamaki Drive , and motorhomes restrict visibility . It is only a matter of time till there is a serious accident . </p><p>Restricting motorhome parking would reduce this risk </p>

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** Period before you can return - From your options I chose 4 weeks. I add though that there needs to be an addition to this similar to Whangarei where the van must move each time to a new park 3+ kilometres away. This prevents vans living indefinitely within a suburb.

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

Freedom camping should not be allowed in any streets around school or community sports grounds. Already we have limited speed zones around schools for child safety which is excellent. Freedom camping must not be allowed in these designated school areas nor around community sports grounds for safety reasons. Firstly, large freedom camping vehicles limit visibility for children trying to locate whānau. They would take up much needed pick up and drop off parking required for whānau e.g. close to school gates. I know other regions in New Zealand e.g. Queenstown have had significant issues with freedom campers roaming around school grounds and sports fields and defecating in these areas. Who will be responsible for cleaning this up each morning before children arrive? Freedom camping should not be allowed all along Tamaki Drive on both sides of the road. This is one of the jewels of Auckland for all Aucklanders to enjoy from a recreational perspective. So much work is going into making Tamaki Drive a safe and enjoyable place for cyclists, walkers, beach goers and swimmers. Why would you want freedom camping vehicles parked along Tamaki Drive taking up parking spaces that Auckland residents need. We pay rates to maintain many of these services and recreational spaces and you will be restricting our access to them with this bylaw. These freedom camping vehicles are often large and will make Tamaki Drive far more dangerous for cyclists. You have already allocated many spaces in Auckland for freedom camping that are working ok. Stick with these. Has demand changed so much over the last two years, that these are now no longer sufficient? The answer is no. I can think of many locations on the outskirts of the city that are not populated with residents where freedom campers could park for a night. If you don't think there are enough spaces at the moment, then Auckland Council could buy up a couple of paddocks in the countryside for freedom campers and this will be a lot cheaper than having to pay for scores of Auckland Council staff to ensure freedom campers are obeying the law and also following up in a timely way when they are not. We also have many camping grounds available for campers travelling by van to use. Why would you not want to support these businesses, especially during these tough COVID times when we have had very restricted tourism. If you are travelling, we all expect to have to pay something for accommodation each night. Choose a location to suit your budget. You appear not to have analysed the challenges many other Councils in New Zealand have had with freedom campers. Otherwise you would realise how ridiculous these changes are that Auckland Council are proposing. You will know that many Councils have very restricted bylaws for freedom campers that sensibly address the issues I have raised above and other issues. The timing of this proposed change is terrible. Aucklanders are focused on surviving COVID right now. Leave things as they are for another couple of years and then ask us to review. It feels like you are trying to rush this through at a time when many of

us have to focus on other more important things like our wellbeing, social and financial needs as a result of COVID implications. This is not fair and reasonable. I have now done further research on the Freedom Camping Act and its requirements. Firstly, I understand that Auckland Council had the option to replace their current Public Places Bylaw with a similar bylaw under the Local Government Act. They chose not to do that and have chosen instead to create a Freedom Camping bylaw under the Act which would strip our current protections on our residential roads for the future. The choice of continuing with a new Public Places Bylaw versus creating a new Freedom Camping bylaw was not consulted on with the public of Auckland back in 2017/2018. I believe that this is a major error in judgment by the Auckland Council Policy team and protections of our roads is lost for the future due to this error of judgment. Other Councils have Freedom Camping bylaws in place with significantly better protections for their local roads. These Councils have had their freedom bylaws in place for some years, and have experience with the impacts that freedom camping have on communities. Tauranga states no camping immediately in front of houses and businesses. Gisborne allows for freedom camping at designated sites within urban limits and then has a map of its urban limit which is listed as prohibited - as the Freedom Camping Act allows for. Both cities do not have a total ban and hence are complying with the Act. Whangarei has a no return policy of one month and you must move at least a kilometre away from your last park. This stops the movement of vans just popping around the corner and living indefinitely within a suburb. All of these bylaws are in place and made under the Freedom Camping Act 2011. However, Auckland Council have not matched what other New Zealand cities have in place. Auckland Council's proposal opens up nearly every residential street in Auckland to camping in a vehicle. There is no restriction on how far you have to move every few days, so you are opening up our suburb to an unrestricted number of vans and caravans to live indefinitely across our suburb - as our suburb has more than 7 streets. It is devastating that this could be so easily avoidable if proper consideration and learnings were given to what other NZ cities have in place who have been dealing with freedom camping across their streets. This is a major missed opportunity and a real gap in the proposal from Auckland Council. It is very disappointing that you

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area? No – freedom camping should not be allowed in this area

Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

**Do you have any other comments you would like to make about this area?** In many areas resident parking is already so restricted in the evenings and weekends. We should not allow any freedom camping on residential roads. I live in Peacock St, Glendowie. During most summer weekends and early evenings it is often impossible even for residents to find a car park in our street with locals visiting Karaka Bay for a swim or picnic. We already have neighbours asking to park on our lawn in these situations because otherwise they have to park on Riddell Road and walk a significant distance to their homes. If you go ahead with this bylaw and have freedom campers able to park in residential streets, this will take up more parking spaces that residents need for themselves and guests. If you go ahead with this bylaw, you will first need to allocate resident parking permits in each street for home owners and their visitors across Auckland. These resident needs should come before visiting freedom campers needs. We pay rates, not them.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

### Do you support having general rules because, in your view:

**Another reason (please explain):** Allows having some control on parking/freedom camping in reserves and roads generally in the city

### Do you not support having general rules because, in your view:

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** Another reason (please explain)

**Another reason (please explain):** To mitigate the risk of campers hurting the environment and causing offence

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** Freedom camping in urban areas should be transitory i.e. overnight only. Longer term freedom camping areas may be made available in non urban areas

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am is a reasonable time

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** Need to discourage the minority who may seek to rotate around a number of city locations

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I am requesting that Waiata Ave Remuera 1050 be designated as a street where freedom camping is prohibited. Waiata Ave is not suitable for Freedom camping. Freedom camping would block access to Waiata reserve which lots of people use for recreational purposes. Parking is often in high demand, particularly from dog walkers. In addition the council's lawn mowing contractors park there in order to access the reserve and if freedom camping is allowed such access would be restricted.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, and council has not identified any serviced areas in this proposal

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** Having a set departure time will help with enforcing the maximum stay rule

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** 5 Days should be the length, people can leave and come back within the space of a working week

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** I cant explain without sounding petty. Some people is not most people, but there you go.

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, Having a set departure time will help with enforcing the maximum stay rule

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## Manurewa Local Board area

### Prohibited sites

**Weymouth Community Hall 11 Beihlers Road, Manurewa, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?** A community hall is not a camp ground by any stretch of the imagination.

## Ōtara-Papatoetoe Local Board area

### Prohibited sites

**Hayman Park 51-55 Lambie Drive, Manukau, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?** That's a big area if campers who could potentially find themselves in trouble.

**Ōtara Centre, Town Centre and Bairds Road playground Bairds Road, Ōtara, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?** This is area is not a camping ground by any stretch of the imagination.

## Papakura Local Board area

### Restricted sites

**Hingaia Reserve Near 380 Hingaia Road, Hingaia. Do you agree that freedom camping should be restricted in this area?** Yes – restricted freedom camping should be allowed, and I support the proposed restrictions

**Which of the proposed restrictions for this area would you want to change at Hingaia Reserve?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?** Too close to residential properties at least that what it looks like.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** I'll build you an app or help you build an app that lets you report rogue freedom campers.

**How do you think the general rules will unfairly impact some people?** Absolutely. Many people in auckland live out of their cars. This would just add another place the homeless can't sleep or rather they'd still do it but now in fear of fines they can't pay.

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Using a vehicle that is not self-contained does not pose a risk to the environment or public health and safety, The cost of buying, hiring, or converting to a self-contained vehicle is too high, and that could mean some people can't afford to freedom camp in Auckland

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** Give them a week.

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:** If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule, It would be too hard to enforce a no-return period rule if freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

## Do you have any other comments on the general rules?

This law is unnecessary and will have profound impacts on social welfare and freedom in Auckland. I've never considered freedom camping to be an issue in Auckland and I don't see it becoming one. I'm guessing this came up from people living in wealthy areas who want to have areas all to themselves.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

You should only be able to ask freedom campers to move on. Penalise them if they don't comply not first time.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Although council has not identified any serviced areas in this proposal, I am aware of serviced areas on public land which should be included

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** 4 nights stay

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** Having a shorter no-return period means campers would be able to return to a favourite place if they wanted to, as part of a longer trip

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** majority of freedom campers are doing this as a lifestyle because the other 'normative' lifestyle is now unattainable. for many people freedom camping is the most affordable way to live, visit places in NZ, explore our country and save money by not paying for accomodation.

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should be self-contained, but they shouldn't have to be certified

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The cost of buying, hiring, or converting to a certified self-contained vehicle is too high, and that could mean some people can't afford to freedom camp in Auckland, It would be too hard to enforce a requirement to be certified self-contained

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** 1 week would be nice, or 2 weeks in any calendar month

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule. Another reason (please explain)

**Another reason (please explain):** it is really offputting to have to leave at a set time. Some people work from thier vans or cars or need to eb able to park in one spot for 24 hours to be able to do other things. IT is public land, anyone should have the right to park there!

From personal experience it was horrible being asked to leave a spot in Kaikoura at 8am when no one was there, no over seas tourists etc. I wanted to go for a walk, walk to towm, go to a cafe and I couldnt. I felt like i was ran out fo town and therefor I refused to even shop at the local supermarket I felt so unwelcome.

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** maybe like they could stay 10 days in a calender month, in which ever order they like

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule. ### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Without general rules, there is a risk that any problems caused by freedom camping could move from regulated areas to unregulated areas nearby

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule? No – freedom campers should have to vacate their parking space by 10am on the day of departure**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

Please for the love of god make the parking spaces bigger for us as most time the big campers are there and we cannot squeeze in to the free spot :( very off putting in the size of the freedom camping spots

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

## Henderson-Massey Local Board area

### Prohibited sites

**Fred Taylor Park** 184 Fred Taylor Drive, Whenuapai, do you agree that freedom camping should be prohibited in this area? No – freedom camping should be allowed with area specific restrictions

Tell us why and any other comments you would like to make about this area? A perfectly good park and feel safe staying there

**McLeod Park** 200 McLeod Road, Te Atatu South, do you agree that freedom camping should be prohibited in this area? No – freedom camping should be allowed with area specific restrictions

Tell us why and any other comments you would like to make about this area?

**Waitākere Central and Central One** 2-6 Henderson Valley Road, Henderson, do you agree that freedom camping should be prohibited in this area? No – freedom camping should be allowed subject to the general rules

Tell us why and any other comments you would like to make about this area?

### Restricted sites

**Trusts Arena** Central Park Drive, Henderson. Do you agree that freedom camping should be restricted in this area? No – freedom camping should be allowed subject to the general rules

Which of the proposed restrictions for this area would you want to change at Trusts Arena?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area?

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses, Shorter stays are already the norm for most freedom campers, so a stricter rule is not necessary, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this, Having a set departure time will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a shorter no-return period means campers would be able to return to a favourite place if they wa

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Every camper should sit the Rcai course and become educated in responsible camping. This includes what it means to be self contained. Supplies for one overnight beach side stay does not mean having water supplies for 3 days. A portable toilet used in toilet tent is sufficient. Certification does not necessarily mean that the camper owners are responsible.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule? No – freedom campers should not have to leave by a set time (no set departure time rule)**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

Leaving in the morning would mean joining the rush hour traffic while looking for a new place. There is a reason people like to camp, mainly visiting something like museum or just drive into town. If you have to leave by 9 and need to look for a new spot with all the others more stress is created. Looking at a later time is much more convenient.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Do you have any other comments on the general rules?

'YES I do support a set departure time - 10.00 am

\*\*\*\*\* PLEASE MAKE THE SIGNAGE VERY CLEAR \*\*\*\*\*

One night stay - must depart by 10.00am

Two nights stay - must depart by 10.00am following your second night stay

The reason for this is to make it very clear for everyone

- to inform the campers

- to inform the public that the parking area does not need to be evacuated if staying 2 nights

### Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

We do a lot of freedom camping and find that some councils have a great system - especially in a 'park-like' environment. They appoint a volunteer who pops round, a casual meet and greet and leaves a brochure with the regions freedom camping spots, rules, terms.

PLEASE WHEN MARKING OUT THE DESTINATION AREA ALLOW

1 - FOR MOTORHOME/5TH WHEELERS WHO HAVE POP OUT'S

2 - BUS AND HOUSE BUSES THAT CAN BE UP TO 12 METRES LONG

We do find that if the areas are monitored and if campers over stay their welcome and receive a fine WORD get's around, the joy of modern technology, for those who do abuse the rules THEY do not want to get a fine!

## Devonport-Takapuna Local Board area

### Prohibited sites

**Queens Parade, Devonport, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed with area specific restrictions

**Tell us why and any other comments you would like to make about this area?** Be great to be able to park support Devonport and catch the ferry over to Britomart, Queen Street as at the moment the inner city area is a NIGHTMARE

**Becroft Park Reserve 8A Becroft Drive, Forrest Hill, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed with area specific restrictions

**Tell us why and any other comments you would like to make about this area?** Be ideal for parking to be able to have a night for a quick visit on the North Shore

## Upper Harbour Local Board area

### Prohibited sites

**North Shore Memorial Park 235 Schnapper Rock Road, Schnapper Rock, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed with area specific restrictions

**Tell us why and any other comments you would like to make about this area?** Be ideal for parking to be able to have a night for a quick visit on the North Shore

**Jack Hinton Drive Adjacent to Rosedale Park, Rosedale, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed with area specific restrictions

**Tell us why and any other comments you would like to make about this area?** let campervans stay in camp grounds supporting those businesses. Let people withor without campervans stay in accommodation provided in all suburbs and streets of the whole of Auckland city including all of Rodney. Restrict all street frontages, parks a

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, Having a set departure time will help with enforcing the maximum stay rule

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. #### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** If you are concerned about waste from freedom campers, both in terms of sewage and general rubbish, you can provide toilets at sites and rubbish bins for visitors. The issues around freedom camping waste is also largely anecdotal, and you should provide accurate statistics if you feel it is a large scale issue.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** There is a housing crisis - in Auckland more than anywhere else. Freedom camping is not only an escape for some people, but a way of life for others. As housing has become unattainable for most of the population, mobile living is getting more popular. It needs to be supported and enabled as an alternative for our less fortunate, rather than kept and regulated behind a veil of privilege.

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store

water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay for an indefinite period in the same road or off-road parking area (no maximum stay rule)

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles should be allowed to come back to stay in the same area after dumping their waste responsibly, it is not necessary to prevent their return through this rule, No maximum stay gives campers the best opportunity to enjoy the area and support local businesses, Shorter stays are already the norm for most freedom campers, so a maximum stay rule is not necessary, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Campers should have the right to come back to favourite places during their trip, A no-return period is not necessary: most campers don't return to the same place, If freedom camping starts to cause problems somewhere, this is better managed by putting re

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Overall, enforcing rules like this on an activity which is an integral experience to most kiwi families, as well as a way of life and a housing option for others. feels elitist and disenfranchising. Moreover, freedom camping is not the large scale issue it's being portrayed as, and until evidence is fielded that shows it's an overall negative activity, stricter rules shouldn't be enforced.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Albert-Eden Local Board area

### Prohibited site

**Heron Park 1625-1627 Great North Road, Waterview, do you agree that freedom camping should be prohibited in this area?** I don't know

**Tell us why and any other comments you would like to make about this area?** My comments follow on from the earlier page, and apply to ll areas. Everyone pays for freedom camping sites in taxes and rates, and everyone is entitled to them. New Zealand is a country strongly rooted in sharing our taonga and natural spaces, and this should not change now.

## Aotea/Great Barrier Local Board area

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** Those in camping methods that are not 'self contained' according to a group which makes profit off of certification

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** Education. Certify the person, not the vehicle or method. Like a driver's licence.

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

All the money spent lobbying for 'certification' benefits only those who can afford expensive motor homes, and will only make the problem you are trying to address more prevalent and make certain organisations money. Some of the worst, self entitled behaviours come from that exact section of the community. This is an expensive and proven to be ineffective method, punishing the most needy.

Suggest a more reward based approach with levels of education, and added rewards system for proven good behaviours (cleaning up after said mega vans/RVs would be a start) and perhaps, spend the money you will spend on enforcement actions on better facilities and maintenance of them.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Pecuniary measures have been proven not to work and only make certain loud, minority groups with financial interests more powerful and elitist.

Suggest spending budget on better maintained, 24hr, staffed and or automated facilities for the use of all. And, give people jobs, apart from existing overworked rangers and more lawyers.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, Although no serviced areas have been identified in this proposal, providing sites suitable for non-self-contained vehicles should be a priority for council

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** 3 night stay as must be able to self contain for at least 3 days & gives 2 full days to be able to see attractions in area

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** 12 mid day if 2 or more nights stay as gives another day to see area. Most will depart before this time to find alternate night parking but means there is no rush to depart in the morning Which means better checking of area before departure. Not departing

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** Having a shorter no-return period means campers would be able to return to a favourite place if they wanted to, as part of a longer trip, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in t

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

If using dedicated car parks Please DO NOT allocate car parks unless they are at least 1 car park between each. as this causes a fire hazard of parking too close to each other & not being able to get out of vehicle very easily

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

designated car park spaces are a fire hazard. It also makes it hard to get out of

some vehicles as they are too close

One night stays are too short especially if you have to leave by 9am Doesn't give time to check out the area or do shopping unless moving to a normal car park taking up car parking space for others while leaving your space empty. Doesn't make sense.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The kind of vehicle used for freedom camping in Auckland should be a personal choice, Using a vehicle that is not self-contained does not pose a risk to the environment or public health and safety, The cost of buying, hiring, or converting to a self-contained vehicle is too high, and that could mean some people can't afford to freedom camp in Auckland

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Do you have any other comments on the general rules?

The camper is responsible for there own conduct whether they are in a vehicle be it self contained or not and should held accountable.

Campers in self contained vehicles still may choose not to use there on facilities.

The 'self contained certification' is biased towards large motorhomes and takes away the opportunity for many people.

### Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

This is titled 'freedom camping in vehicles bylaw' so it will be misleading if any of this apply to people not in a vehicle eg tent. I believe there should be provision for this also.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, It is not necessary to impose basic rules on freedom campers everywhere in Auckland

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The kind of vehicle used for freedom camping in Auckland should be a personal choice, Using a vehicle that is not self-contained does not pose a risk to the environment or public health and safety

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Campers should have the right to come back to favourite places during their trip, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, It makes sense to match our self-containment requirements to the National Standard, It would be too hard t

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Although no serviced areas have been identified in this proposal, providing sites suitable for non-self-contained vehicles should be a priority for council, It makes sense to match our self-containment requirements to the National Standard, It would be too hard to enforce the self-containment rule without referencing the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** Other opinions exist to satisfy self containment issues . Education must be the key.

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

It is not good enough to be certified self contained if the vehicle just has a toilet on board. It **MUST** be able to be used anytime night or day. Too many of the van type vehicles may have the facility on board but have no way of using it and therefore ruin it for genuine self contained vehicles.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

#### Do you support having general rules because, in your view:

Another reason (please explain):

#### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, and council has not identified any serviced areas in this proposal

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** I feel that 2 nights is too restricted long holidays are usually three nights

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Yes another of camper now have small dogs and Auckland has gone our of there way to not allowing places for these motor homes to stay in Auckland. We are more likely to have our dogs on leads than the average person.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Camp with dogs for companionship is coming common so more places are needed with rules that dogs must be on leads

## Albert-Eden Local Board area

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, Shorter stays are already the norm for most freedom campers, so a stricter rule is not necessary

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, Having a set departure time will help with enforcing the maximum stay rule

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## **Proposed Freedom Camping in Vehicles Bylaw**

Thank you for the opportunity to submit on this Bylaw. This submission is on behalf of the Holiday Accommodation Parks Association of New Zealand known as Holiday Parks New Zealand.

### **About Holiday Parks New Zealand**

Established in 1955 as the Camp and Cabin Association, HAPNZ is the industry association that represents the commercial holiday park sector in New Zealand.

There are 420 commercial holiday parks in New Zealand that annually provide more than 8.7 million guest nights.

There are currently 17 holiday parks in the Auckland regional tourism region.

### **General Rules**

- 1 We fully support the rule that freedom Campers must use a certified self-contained vehicle
- 2 We agree that where freedom camping is permitted that campers can only stay for a maximum of two nights.
- 3 We agree that where freedom camping is permitted that campers must vacate their parking space by 9am on the day of departure.
- 4 We believe that the proposed rule that campers must not return to the same area for two weeks is being too permissive. This will encourage itinerants to cruise around the free camping areas. Providing freedom camping areas is a way of encouraging visitors to a region. Allowing free campers to return to the same area within two weeks will encourage people to live in their vehicles rather than encourage genuine visitors.

**Where Freedom Camping is Permitted**

We support the 22 restricted areas and the 45 prohibited areas. We do however believe that freedom camping should be prohibited in all urban areas. This is consistent with our position on Freedom Camping throughout New Zealand see Appendix 1

**Your sincerely**

A handwritten signature in black ink, consisting of a stylized 'F' followed by a large, circular flourish and a long horizontal stroke extending to the right.

**Fergus G Brown  
Chief Executive**

## Appendix 1

### Holiday Parks New Zealand Position on Freedom Camping & Responsible Camping

#### Summary

1. Freedom camping should be **prohibited** in all urban areas
2. Outside of urban areas freedom camping should be restricted to vehicles which are fully self-contained and meet the self-containment standard NZS 5465:2001
3. Freedom Camping should be prohibited in non-self-contained vehicles.

#### Bylaws

We believe that Councils should develop bylaws that stipulate the following:

##### Prohibited Areas

No person may freedom camp in any local authority area identified in Schedule One—Prohibited Areas for Freedom Camping.

All urban areas should be included in Schedule one

##### Restricted Areas

No person may freedom camp in any local authority area identified in Schedule Two—

Restricted Areas unless he or she complies with the restrictions imposed on use of that area as set out in Schedule Two. There should be a district wide restriction that only self-contained vehicles which meet NZS5465 should be permitted. Restrictions should also include the maximum length of stay and the number of vehicles permitted at a site at any one time.

Council may prohibit, by putting up signs, freedom camping in any restricted area where:

- (a) there is a high risk of fire or imminent flood in the area;

- (b) there is a potential health and safety risk at the sites including overcrowding;
- (c) the area is being used for an event approved by Council;
- (d) there is a need to better protect public access; or
- (e) maintenance is required at the restricted area.

There is no such thing as free camping – there is a cost whether it is to local ratepayers, DOC or taxpayers. We fully support the principle that the user should pay.

As part of local communities our members take an active part in the development of policies and bylaws which apply to freedom camping. Our members provide feedback on suggested freedom camping areas. In some cases, we will support free camping areas and in others we will oppose them; these decisions will be linked to the appropriateness of the location and the mood of the community. We do not consider urban locations as being appropriate for free camping.

While we do not seek special protection for our members from the bylaws it is sensible that some buffer around commercial holiday parks be put in place. This can assist in discouraging the unlawful use of facilities e.g. showers toilets and dump stations, which occur at many parks, but also remove the inevitable tension that will arise from campers overnighing for free in close proximity to commercial holiday parks.

HAPNZ has been an active participant in the NZ Responsible Camping Forum and fully supports the key messages and information that has been agreed and promoted by group members. HAPNZ's Chief Executive is a member of the Ministers Responsible Camping Working Group.

We believe that strong, consistent national messages, backed by comprehensive regional information will help remove much of the tension that has existed over vehicle-based camping and result in better experiences for campervan holidaymakers and communities.

We have been active in working with Government and the tourism industry to promote responsible camping behaviour. As an Association we support responsible camping in New Zealand in appropriate locations.

**Note:** Responsible Camping is a behavioural expectation around good camping practices. Freedom Camping is a category of camping defined by legislation. Responsible camping should be encouraged in holiday parks, DOC sites and free sites.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** Not all freedom campers are the same!  
Especially NZ citizens!

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.
