It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** 3 days seems reasonable, 2 is too short a time.

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Be self contained, stay maximum of three days, and be allowed to park outside of restricted areas, regardless of the distance.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should be self-contained, but they shouldn't have to be certified

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** Certification only lasts 4 years and therefore is just a money grabbing exercise for those of us that have vehicles.

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

There should be a central data base, for NZ citizens and residents that shows the vehicle is self contained, such as police can know if a vehicle is registered or WOFed for example. Reliance on a sticker or window ID is open as we know to fraud.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Freedom Camping Act does not clearly provide a definition of 'camp' as many a times I have been parked in my RV during the day to enjoy the sights only to be told to move on despite the fact I am not camping. Then I am threatened with an enforcement notice despite 5(2) being explicitly clear in the ACT. In my view parked up, does not mean camping. There is no legal definition of 'camp'

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** If you are in a self-contained vehicle, then you are not really 'freedom camping'. Freedom camping should apply only to those with no toilet/water facilities. Self contained vehicles should have their own rules, which should pertain to self containment.

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should be self-contained, but they shouldn't have to be certified

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment and/or public health and safety, but the National Standard is too restrictive

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain) It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):** Safety is an issue irrespective of vehicle. If your camp space is safe for you, you should be able to stay in the area for at least 3 nights, and spend money in the area. Being forced to find somewhere new every night is not conducive to a pleasurable camping trip.

## Do you have any other comments on the general rules?

Decide what is Freedom Camping. Self contained or not? Freedom = Not Self contained, no water or less than 10 litres, no waste or rubbish disposal. Dangerous to the public, the environment etc. Implies a lack of responsibility but some basic knowledge of outdoor living. (camping). Hazardous adventure on a budget.

Self Contained. Speaks for itself. Water, waste, rubbish, all taken care of in a secure manner. Reasonably safe inside a large metal vehicle with amenities on hand. No open fires, fire extinguisher and first aid kit usually part of the equipment.

Make the General Rules for those who need them most, not for those who don't need them at all.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a shorter no-return period means campers would be able to return to a favourite place if they wa

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

Do you not support having general rules because, in your view: Another reason (please explain)

**Another reason (please explain):** At Whatipu, there is a campground business 100m from the carpark. Permitted freedom camping will impact the business. Additionally, Whatipu is a Scientific Reserve, a wildlife sanctuary, Whatipu needs special protection from the risk of freedom campers making fires, leaving rubbish, making noise etc.

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## Waitākere Ranges Local Board area

### Prohibited sites

**Entrance of Goldie Bush walkway Horseman Road, Waitākere, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

**Lopdell Hall and House 418 Titirangi Road, Titirangi, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

**Sandys Parade, Laingholm Bay, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** Whatipu carpark should be included. Whatipu is a Scientific Reserve and deserves special consideration. There is also an Auckland Council (leased) camping ground business with 100m of the carpark.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Leave poor people and travellers alone. Fix the housing crisis. More public facilities of yours so worried about toilets

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** Fines just punish already struggling people

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

#### **Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

Do you support having general rules because, in your view:

Another reason (please explain):

Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

In this explanation of the Maximum stay rule it says "Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the 'maximum stay rule')". I believe it should say Freedom campers MAY stay a max....."

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

There appears to be about 110 locations where freedom camping is allowed subject to restrictions. While seemingly a large number it is grossly inadequate for a city the size and area of Auckland and the number of people (both local and visitor) who wish to responsibly freedom camp.

## Rodney Local Board area

### Prohibited sites

Helensville - Helensville Civic Centre Grounds 49 Commercial Road, Helensville, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Huapai - Huapai Service Centre/Kumeu Library 24 Oraha Road, Huapai, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Waimauku - Waimauku War Memorial Hall 22 Waimauku Station Road, Waimauku, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Leigh - Leigh Library and grounds 15 Cumberland Street, Leigh, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Ti Point - Ti Point walkway Ti Point Road, Ti Point, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Pakiri - Pakiri Hall grounds 1026 Pakiri Road, Pakiri, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Warkworth - Warkworth Town Hall grounds 2 Alnwick Street, Warkworth D, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

### Restricted sites

Port Albert - Port Albert Wharf Reserve carpark Adjacent to Wharf Road, Port Albert. Do you agree that freedom camping should be restricted in this area?

Which of the proposed restrictions for this area would you want to change at Port Albert Wharf?

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

**Snells Beach - Whisper Cove (adjacent parking on road reserve) 70 Kokihi Lane, Snells Beach. Do you agree that freedom camping should be restricted in this area?**

**Which of the proposed restrictions for this area would you want to change at Whisper Cove?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?** Yes. Freedom camping currently allowed at Snells Beach over 2 sites allows about 10 vehicles. The new site allows only two. This is grossly inadequate for this very popular location.

**Warkworth - 8 Church Hill carpark, Warkworth. Do you agree that freedom camping should be restricted in this area?**

**Which of the proposed restrictions for this area would you want to change at Church Hill?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

**Parry Kauri Park 32 Tudor Collins Drive, Warkworth. Do you agree that freedom camping should be restricted in this area?**

**Which of the proposed restrictions for this area would you want to change at Parry Kauri Park?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

**Wellsford - Wellsford Community Centre grounds 1 Matheson Road, Wellsford. Do you agree that freedom camping should be restricted in this area?**

**Which of the proposed restrictions for this area would you want to change at Wellsford Community Centre?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

**118 Rodney Street, Wellsford. Do you agree that freedom camping should be restricted in this area?**

**Which of the proposed restrictions for this area would you want to change at 118 Rodney Street?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area?

## Upper Harbour Local Board area

### Prohibited sites

**North Shore Memorial Park** 235 Schnapper Rock Road, Schnapper Rock, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

**Jack Hinton Drive Adjacent to Rosedale Park, Rosedale**, do you agree that freedom camping should be prohibited in this area? No – freedom camping should be allowed with area specific restrictions

**Tell us why and any other comments you would like to make about this area?** The plan does not show the full extent of the reserve area and it is not clear if freedom camping is still allowed in the LARGE carpark adjacent to the toilets - (Not the toilets nearer Rosedale Rd.)

This area is large, close to toilets, and away from residential, and appears to be a very suitable location for freedom camping.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, Although council has not identified any serviced areas in this proposal, I am aware of serviced areas on public land which should be included

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Who's going to police the two night/two week rules? Will there be a contact number for locals to call if they spot freedom campers that break the rules, such as non self contained etc?

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Can I suggest providing information of the bylaws etc via a QR code at each site, in different languages for international persons. Use the same shaped/coloured signage throughout Aotearoa, so areas are easily identifiable to all. I was hoping to find something to deal with the dumping of waste/rubbish which is also a health and safety issue. Will these designated areas have sufficient amenities such as recycling, general waste bins? There is nothing worse than bags of rubbish piling up beside bins, pecked apart by seagulls or other wildlife. , used nappies or human excrement (which could happen if their on board facilities are full. Does there need to be anything re quite piece and enjoyment of others, alcohol consumption, anti social behaviours? What about safety and lighting etc? Will these areas have safety cameras +/- patrolling for everyones safety? What is total cost to the tax payer to provide amenities and resources etc to these areas per annum? What is the expected return on investment to those in the communities? At freedom camping sites, could there be an opportunity for those using the site to make a koha/donation via text towards kaitiaki/guardianship of the site/s for future dwellers, or towards

waterways, nature or wildlife conservation etc??

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Invest in decent infrastructure for public areas, which see use by campers, such as public toilets, and signage as to where to find said toilets.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Uppercut nimby's. Or you know, you could invest in public relation campaigns that set out expectations for how one can responsibly free camp.

**How do you think the general rules will unfairly impact some people?** Homelessness is not a problem that is going to go away by passing bylaws like this, which shift the onus from expectation that the the council should provide public spaces which are designed and for all the public to use, to the expectation that public spaces are only for those wealthy enough to afford housing.

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** "Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health." So... this means that using Auckland's public facilities is a risk to the environment and public health? Maybe you might want to fix that. And plan public facilities better, so that this isn't an issue. If public facilities aren't usable by the public to meet their basic needs, then there's a problem which isn't going to be solved by requiring one subsection of the population to be regulated and self contained.

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** Having suitable public facilities would do more to encourage campers to dump their waste responsibly. There is the assumption here that folk staying in one area will have absolutely no recourse but to store their waste in their vehicle - one can free camp

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** Again this seems like a problem caused by poor planning. Asking people to leave by a certain time because there is not enough parking spaces, is passing planning shortfalls onto the general public. It also encourages the idea towards homelessness that if it's not seen, then it's not a problem. People on holiday also don't conform to a 9-5 workday and commute.

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** Again this seems like a problem caused by poor planning. Asking people to leave by a certain time because there is not enough parking spaces, is passing planning shortfalls onto the general public. It also encourages the idea towards homelessness that if it's not seen, then it's not a problem. People on holiday also don't conform to a 9-5 workday and commute.

**Is this because, in your view:** If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule, Another reason (please explain)Another reason (please explain)

**Another reason (please explain):** All of the options above, but also folk can be freedom camping for shorter trips than two weeks. Being at a safe good spot is important, and not being able to return to a good nap spot is not good for trips where you might be returning the same way on a trip shorter than two weeks. This rule could make it more dangerous for freedom campers for whom having a safe reliable spot is important.

## Do you have any other comments on the general rules?

Have any of the people who wrote up the general rules ever freedom camped recently? Or are they nimbys that prefer bylaws which keep freedom camping out of sight out of mind. This makes me fairly angry - when public services and facilities are not up to scratch, then rather than fixing the problem, bylaws are made that penalize those who's needs are not being met by public facilities.

Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

we agree a bylaw is necessary to help manage freedom camping in Auckland and reduce overcrowding in popular areas; there are some positive elements within the Council's proposal, however, the proposed regime will be difficult for people to comply with and difficult to enforce; the Council's approach prevents responsible campers from staying in desirable areas (parks and reserves); the possible imposition of \$800 fines for camping in parks and reserves is onerous and unreasonable when the fines under the Freedom Camping Act are just \$200;

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule? No – I support another maximum stay rule (please explain)**

**No – I support another maximum stay rule (please explain):** If no one else there - increase to maximum of 7 days

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule? No – I support another set departure time rule (please explain)**

**No – I support another set departure time rule (please explain):** Mid day - is better - time to relax, do something and then move on.

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** If maximum campers not met then why have a no return period at all.

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

#### **Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Puketāpapa Local Board area

### Restricted sites

**Margaret Griffen Park 16-38 Griffen Park Road, Mount Roskill. Do you agree that freedom camping should be restricted in this area? No – freedom camping should not be allowed in this area**

**Which of the proposed restrictions for this area would you want to change at Margaret Griffen Park?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?** Many in our communities use the facilities in the park especially young families. Many young kids also walk home through the park after schools including my kids(Marshall Laing Primary and Lynfield College). Having constant random strangers in the park in self contained unit I fear for kids safety. What if they get pulled into their vehicles? Many in our community voiced our objections few years back and it is disappointing this is being brought up again. Our park has many wildlife and I worry irresponsible campers do harm and cause damage to to their environment too.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Education on the area they are camping in, if there's environmental problems then put up signage or maybe some barriers for public safety etc. Freedom campers are honestly the most considerate of the land as that is their home for the time they are staying there, the people that trash the areas are the people passing through that are usually just out for a picnic/day trip.

Also the environmental problem isn't freedom campers, it is the big corporations/factories pumping out CO2 into the atmosphere - there are much bigger problems you should be attending to.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Charge a fee for the regulated areas and leave unregulated areas free.

Or make stricter rules (within reason) for people to obtain the self containment certification on their vehicle.

**How do you think the general rules will unfairly impact some people?** By restricting freedom camping, you are taking away someone's ability to see this beautiful country. As an Australian living in NZ, I love freedom camping as it gives me the opportunity to sight-see and go everywhere affordably whilst also contributing to the growing economy. The only law I think freedom camping should have (although it is a general unspoken rule of thumb when camping) is leave the area/environment in a better state than you found it, i.e. pick up some extra rubbish you see lying around etc.

**Do you want to comment on why you don't know?****Self-containment rule**

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Maximum stay rule**

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay for an indefinite period in the same road or off-road parking area (no maximum stay rule)

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles should be allowed to come back to stay in the same area after dumping their waste responsibly, it is not necessary to prevent their return through this rule, No maximum stay gives campers the best opportunity to enjoy the area and support local businesses, Shorter stays are already the norm for most freedom campers, so a maximum stay rule is not necessary. Another reason (please explain)

**Another reason (please explain):** Think about Christmas periods when families get together for a week or so freedom camping and contributing to the local businesses in the area.. Don't enforce this rule.

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, It would be too hard to enforce a set departure time rule. Another reason (please explain)

**Another reason (please explain):** When someone is travelling in their van etc. they usually don't get to campsites early anywhere unless they're waking up at the crack of dawn to drive there.

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, It would be too hard to enforce a set departure time rule. Another reason (please explain)

**Another reason (please explain):** When someone is travelling in their van etc. they usually don't get to campsites early anywhere unless they're waking up at the crack of dawn to drive there.

**Is this because, in your view:** Campers should have the right to come back to favourite places during their trip, A no-return period is not necessary: most campers don't return to the same place, It would be too hard to enforce a no-return period rule. Another reason (please explain)Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, It would be too hard to enforce a set departure time rule. Another reason (please explain)

**Another reason (please explain):** This is a (sorry) stupid rule. Why would you want to restrict someone from coming back to a place they enjoyed? They might even want to bring back other people, meaning more people supporting those local businesses.

[Do you have any other comments on the general rules?](#)

Freedom camping gives citizens and tourists the opportunity to travel around NZ and contribute to small town incomes, along with the greater economy. If you don't allow people to freedom camp, some towns might go unrecognised and not receive the money they could have made when freedom campers were allowed all around NZ.

Also restricting car parks etc. is not a valid idea as they are made for vehicles. I have had many times where I couldn't find a well signed campsite when arriving somewhere in the dark and have camped overnight in a carpark as I felt safe there and knew I was allowed there. There is nothing more stressful than trying to locate a campsite or area where I am allowed to camp in pitch black darkness. It'd be so much easier and safer for freedom campers to keep doing this. As some might argue to find campsites in the day and know where you're going, if you're not from the town/place you are visiting, it can be hard to locate these areas. Also trying to finish driving whilst it's still daytime is sometimes impossible to do.

Additionally, if you make these restrictions it will force freedom campers to possibly drive for longer to find a camping area they are allowed to be in. If this is a long way away from their previous campsite, this could cause driving fatigue which can lead to a possible increase in preventable road accidents/crashes; especially if they're not allowed to pull over on the side of the road for a power nap.

Not meaning to sound rude, but I know every middle aged person that lives in place like the Coromandel, Waiheke etc. (richer, beachy suburbs) will all be agreeing to these bylaws as they "pay the rates" or something (we got yelled at by this old man when we parked up in the coromandel, not even to stay the night, just to enjoy a picnic by the sunset, he said we weren't allowed to camp there as we were in our van and wouldn't listen to a word we were saying so we just ended up moving because he stood over us until we did. We were very scared to be honest with you). I hope you take into consideration everything I have said because this won't be beneficial for environmental, economy, or public safety reasons. I understand where you are coming from with some of these bylaws but they all are extremely unnecessary when it comes to freedom camping. You should be focusing on the bigger picture in regard to environmental problems as I can tell you that freedom camping contributes to less than 0.1% of this.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I agree with only part 3 of this. But if you are going to enforce this, there should be a time limit on how long maintenance will take (maximum 2 days) as this will stop people from coming back possibly for a while.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** The two-day maximum is too strict, as is the 9am departure rule. Aucklanders and people travel inside this area currently have had severe economic impact and may be opt-ing for a more affordable holiday alternative. This is far too limiting for people that didn't envision driving lots and spending additional money on petrol, just to ensure they are at a different spot in two days. This should be increased to 3 or 4 days. Also, it's important for travellers they are well rested and fully-prepared for long drives, which some people find difficult directly after waking up. We should extend tis departure time to 11am or noon, to ensure drivers are in a focused and appropriate headspace for driving (often for long times before their next stop).

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store

water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule? No – I support another maximum stay rule (please explain)**

**No – I support another maximum stay rule (please explain):** The two-day maximum is too strict. Aucklanders and people travelling inside this area currently have had severe economic impact and may be opt-ing for a more affordable holiday alternative. This is far too limiting for people that didn't envision driving

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** It's important for travellers to be well rested and fully-prepared for long drives, which some people find difficult directly after waking up. [Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Section 36 is far too broad, and needs to include criteria that outlines what 'reasonable grounds' for an offence would require / involve.

Also the use of 'he or she' exclusively is bad form, and excludes non-binary identities from this bylaw. As it appears, nonbinary people using 'they/them' pronouns may not feel that these laws apply to them. This should be inclusive, as should all Government legislation.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Build more infrastructure to accommodate freedom campers such as designated car parks with toilet blocks, waste disposal & water refills. The disposal/refill facilities could be a simple all in one design that costs \$2 to use such as the ones in Europe. Instead of taking a negative stance on freedom camping, turn it into a positive by providing specific areas for freedom campers to use instead of forcing them to pay for overpriced accommodation in the city. What freedom campers save on accommodation, they spend on activities and experiences so money will still be flowing into the economy. Therefore if it's really about the environment (which I highly doubt) then build more infrastructure to encourage people in general to use. International tourists are taxed when entering the country so an application could be made to use some of this money when the borders re-open and regional travellers pay taxes and rates so surely some of this money could be used as these spaces could benefit everyone. Don't just ban something completely before actually trying to make a positive difference. Support mid-income workers instead of only the rich by providing other ways to travel and see our city.

### How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

### How do you think the general rules will unfairly impact some people?

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** Build serviced areas!!

Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area .

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** No, two nights wouldn't be long enough to visit and explore the city which tourists who use freedom camping would be doing. I agree having a maximum stay rule but think 3 Nights.

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

The "rules" don't actually help protect the environment, they just limit people's ability to freedom camp. If more infrastructure was built such as serviced areas with waste disposal, water refills, rubbish bins and the like, then people would have easy access to use these facilities. Easy access to these facilities would encourage their use and in affect protect the environment. The rules are negative on freedom campers and are a smoke screen to just ban freedom camping completely.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Include in the bylaw what locations are available for freedom camping without the enforcement of the bylaws.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, and council has not identified any serviced areas in this proposal, It makes sense to match our self-containment requirements to the N

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrict

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

Do you not support having general rules because, in your view: Another reason (please explain)

**Another reason (please explain):** There needs to be specific areas allowed for freedom camping, as opposed to prohibit areas. In that was, it is far easier to enforce.

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause. Another reason (please explain)

**Another reason (please explain):** I don't actually support freedom camping at all, but if it must happen I would like there to be strict rules in place to limit its impact.

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule? Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities. Another reason (please explain)

**Another reason (please explain):** Prefer it to be one night stay

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** Prefer them to go by 8 am

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

In general, I do not support freedom camping and would like to see it limited and restricted as much as possible. I think it undermines local accomodation businesses and causes environmental pollution and inconvenience to those living in areas that are sites for freedom camping,

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** To keep freedom campers safe from the daily breaking and entering vehicles that Aucklanders face on our streets daily and give them access to better public facilities so they are safe and clean by providing more designated areas not in City or suburb streets

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** People with bowel conditions, that need public toilets and families with kids needing public facilities could find long delays with freedom campers needing to use these facilities, should their self contained options not be sufficient. Children will not feel safe walking past a freedom camper on the side of the footpath. Putting kids at risk or being approached. Majority of nées homes being built to do provide parking so residents even if they use public transport will have a car. There a limited parking spaces on roads now and this will reduce even more for these residents if freedom campers are allowed to park on the streets. The above unfairly impacts these groups and have following consequences.

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I don't know

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know? If a place is not on either prohibited or general list, does that mean freedom campers can just park up? e.g. in our streets?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, Another reason (please explain)

**Another reason (please explain):** I have experience of self-containment sticker on vans that are NOT self-contained - I do not believe this can be policed adequately - too many loopholes around. I believe that if freedom camping is expanded, it should only be allowed in certified serviced areas.

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, Having a set departure time will help with enforcing the maximum stay rule

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I am worried that freedom campers will move to suburban streets if this is not prohibited. In general I do not agree with freedom campers being able to park up in suburban streets and am not sure I see anything in these bylaws to prohibit that.

## Papakura Local Board area

### Restricted sites

Hingaia Reserve Near 380 Hingaia Road, Hingaia. Do you agree that freedom camping should be restricted in this area? No – freedom camping should not be allowed in this area

Which of the proposed restrictions for this area would you want to change at Hingaia Reserve?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area?

## Puketāpapa Local Board area

### Restricted sites

Margaret Griffen Park 16-38 Griffen Park Road, Mount Roskill. Do you agree that freedom camping should be restricted in this area? No – freedom camping should not be allowed in this area

Which of the proposed restrictions for this area would you want to change at Margaret Griffen Park?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?** The last time freedom camping was trialled in this park, the numbers were significant and impacted on other users of the park and YMCA. These areas are well used already and having lots of vans and freedom campers will destroy the amenities. WE do not need more freedom camping areas.

## Waitematā Local Board area

### Prohibited sites

**Highwic House 40 Gillies Avenue, Epsom, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?** These areas are significant to Tamaki Makaurau and having lots of vans and freedom campers will destroy the amenities. WE do not need more freedom camping areas.

**Myers Park 72 Greys Avenue, Auckland Central, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?** These areas are significant to Tamaki Makaurau and having lots of vans and freedom campers will destroy the amenities. WE do not need more freedom camping areas.

**Outhwaite Park 53 Carlton Gore Road, Newmarket, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?** These areas are significant to Tamaki Makaurau and having lots of vans and freedom campers will destroy the amenities. WE do not need more freedom camping areas.

**Point Erin Park 94 Shelly Beach Road, Ponsonby, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?** These areas are significant to Tamaki Makaurau and having lots of vans and freedom campers will destroy the amenities. WE do not need more freedom camping areas.

**Seddon Fields 180 Meola Road, Point Chevalier, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** These parks are well used and are significant to Tamaki Makaurau and having lots of vans and freedom campers will destroy the amenities. WE do not need more freedom camping areas.

**Wynyard (tank farm) Brigham Street and Hamer Street, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** WE have spent many millions of dollars improving this site and having lots of vans and freedom campers will destroy the amenities. WE do not need more freedom camping areas.

### **Restricted sites**

**Cox's Bay Esplanade West End Road, Herne Bay. Do you agree that freedom camping should be restricted in this area? No – freedom camping should not be allowed in this area**

**Which of the proposed restrictions for this area would you want to change at Cox's Bay Esplanade?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?** Tamaki Makaurau's attraction to live and survive is based on the beauty of it's beaches and open spaces - freedom camping should not be allowed in these areas - there has been no evidence or reasoning that we should provide free accomodation to travellers.

**Carpark opposite Western Springs Reserve 820 Great North Road, Grey Lynn. Do you agree that freedom camping should be restricted in this area? No – freedom camping should not be allowed in this area**

**Which of the proposed restrictions for this area would you want to change at Western Springs Reserve?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping, Another reason (please explain)

**Another reason (please explain):** Auckland should not be an area they stay in. Traffic and parking areas are already congested. There is nowhere for locals to park. This can be see by the cars parked and filling local streets. This will make it worse. There should be more areas out of the central city. Self contained is a joke. I have seen faeces dumped in the bush. I also have no faith in the monitoring and enforcement. Look at how unsafe our central city is. No police presence, being accosted by homeless, no movement due to works, no where to park, etc. This is another reason to move out of the city. When urgent incidents such as assault, burglary, vandalism are not addressed, it is unlikely that parked vans will be even looked at. It will be a short time until vans are used for intelligence gathering for criminal activity. This could be from drug dealing to casing for burglary. I have seen vans parked at Jellicoe Park and someone living in it for months. No action taken. Again no enforcement. Normal hardworking, law abiding people will once again be bullied by lack of support from authorities.m

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

There needs to be waste dumping facilities at the designated areas. Even though I don't think we should have them. Who will monitor.? I have no faith in the the enforcement.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

Reserves are not properly policed as it is.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

### Do you support having general rules because, in your view:

**Another reason (please explain):** Allows having some control on parking/freedom camping in reserves and roads generally in the city

### Do you not support having general rules because, in your view:

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** Another reason (please explain)

**Another reason (please explain):** To mitigate the effect of freedom camping hurting the environment and causing offence

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** Freedom camping in urban areas should be transitory i.e. overnight only. Longer term freedom camping areas may be made available in non urban areas

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am is a reasonable time

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** Need to discourage the minority who may seek to rotate around a number of city locations

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Kiwi Esplanade/Ambury Road Mangere Bridge - I object to the freedom campers on the esplanade reserve at Mangere Bridge as it spoils the ambience of the place and they leave behind all their rubbish.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Fire and Emergency in Tāmaki Makaurau acknowledges clause 7, which provides that council may temporarily prohibit or change restrictions on freedom camping. In particular sub-clause 1, which provides that council may temporarily prohibit or change restrictions on freedom camping to protect the health and safety of people who may visit the area and to protect access to the area. I note that under section 52 (1)(b) of, the Fire and Emergency New Zealand Act 2017, Fire and Emergency may also prohibit or restrict any activity such as freedom camping in an area, including access, if Fire and Emergency consider the activity may cause a fire to start or to spread<sup>4</sup>. This power may interact with the Freedom Camping bylaw. Fire and Emergency in Tāmaki Makaurau also acknowledges clause 8, which provides that council may temporarily approve freedom camping when it is otherwise not allowed in special circumstance. To protect the health and safety of people who may visit local authority areas; and protect access to local authority areas, Fire and Emergency in Tāmaki Makaurau recommends the following requirements for approval in the relevant section of the bylaw: • That access for emergency vehicles is always maintained as part of the condition of the approval. Access should adhere to specifications outlined in the Fire and Emergency Vehicle Access Guide (included as an attachment to this submission).

• If the application is for 10 or more vehicles, that an evacuation plan is required to support the application, in the event of an extreme weather event, natural disaster or emergency.

1 December, 2021

**Ref: Feedback on Te Ture ā-Rohe Noho Puni Wātea ā-Waka 2022 Freedom Camping in Vehicles Bylaw 2022**

Thank you for the opportunity to provide feedback on Te Ture ā-Rohe Noho Puni Wātea ā-Waka 2022 Freedom Camping in Vehicles Bylaw 2022

## 1.0 Context

1.1 The primary objective of Fire and Emergency is to reduce the incidence of unwanted fire and the associated risk to life and property. We seek:

- to protect and preserve life
- prevent or limit injury
- prevent or limit damage to property and land, and;
- prevent or limit damage to the environment<sup>1</sup>.

1.2 Fire and Emergency also has secondary functions including responding to medical events, rescues and public assists.

1.3 Over the last year<sup>2</sup> Fire and Emergency attended 24,472 incidents across Tāmaki Makaurau.

1.4 The requirement for emergency response for fire and medical is increasing. The rate of change per year shows:

- structure fire incidents increasing by 2.36%.
- vegetation fire incidents increasing by 4.08%.
- medical incidents increasing by 1.99%<sup>3</sup>.

1.5 Ensuring adequate access to and from public spaces is crucial to protecting people and property in the event of a fire extreme weather event, or other emergency.

1.6 Fire and Emergency in Tāmaki Makaurau supports the purpose of the Freedom Camping in Vehicles Bylaw (the Bylaw), specifically its intent to protect the health and safety of people who may visit local authority areas; and protect access to local authority areas.

## 2.0 Part 2, Clause 6, Areas where freedom camping is restricted or prohibited

2.1 Fire and Emergency in Tāmaki Makaurau is supportive of the prohibition and restriction to freedom camping in cars in certain circumstances, and the general requirements for freedom camping in cars.

<sup>1</sup> Fire and Emergency New Zealand Act 2017 section 10(a)(b)

<sup>2</sup> FYE 2020/2021

<sup>3</sup> FY 2017/18 to 2020/21

## 2.2 We support:

- 2.2.1 sub-clauses 4(a) and 5(a), the requirement to use a self-contained vehicle at all times. The requirement of self-contained vehicles, equipped with cooking devices, is likely help to prevent the use of open fires for cooking or heating, therefore reducing the risk of fire or fire spreading.
- 2.2.2 sub-clauses 4(b) and 5(b), limiting the stay to two nights, and the limitation of vehicles permitted to freedom camp in cars in schedule 2. The limitation on nights of stay and number of vehicles is likely to reduce the risk of overcrowded sites, supporting efficient and effect access for emergency appliances should an incident occur.

### 3.0 Part 3 Controls and Approvals

- 3.1 Fire and Emergency in Tāmaki Makaurau acknowledges clause 7, which provides that council may temporarily prohibit or change restrictions on freedom camping. In particular sub-clause 1, which provides that council may temporarily prohibit or change restrictions on freedom camping to protect the health and safety of people who may visit the area and to protect access to the area.
- 3.2 I note that under section 52 (1)(b) of, the Fire and Emergency New Zealand Act 2017, Fire and Emergency may also prohibit or restrict any activity such as freedom camping in an area, including access, if Fire and Emergency consider the activity may cause a fire to start or to spread<sup>4</sup>. This power may interact with the Freedom Camping bylaw.
- 3.3 Fire and Emergency in Tāmaki Makaurau also acknowledges clause 8, which provides that council may temporarily approve freedom camping when it is otherwise not allowed in special circumstance.
- 3.4 To protect the health and safety of people who may visit local authority areas; and protect access to local authority areas, Fire and Emergency in Tāmaki Makaurau recommends the following requirements for approval in the relevant section of the bylaw:
  - That access for emergency vehicles is always maintained as part of the condition of the approval. Access should adhere to specifications outlined in the Fire and Emergency Vehicle Access Guide (included as an attachment to this submission).
  - If the application is for 10 or more vehicles, that an evacuation plan is required to support the application, in the event of an extreme weather event, natural disaster or emergency.

Ngā mihi,

Ron Devlin

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

NZMCA appreciates Auckland Council's practical and legal requirements to finalise an adequate Bylaw under the Freedom Camping Act immediately. The legacy bylaws which were amalgamated into the 2015 Bylaw have no doubt run their course both as policy tools and legal instruments. If the region is to have comprehensive and effective regulation of freedom camping, a Bylaw under the Act is the best option. The proposed Bylaw appears legally sound and is demonstrably based on previous policy work. For the most part its approach is straightforward and sensible although perhaps a little desultory. The blanket use of Reserve Act provisions to virtually prohibit any type of camping on as many as 4000 reserves is summary and lazy. Within the scope of the proposed Bylaw itself, it would be difficult to argue that Council has been unreasonable in its justification for the Bylaw and in the exercise of its discretion to prohibit or restrict freedom camping on nominated sites. The opportunity which the Bylaw leaves for freedom camping across the region is unclear however. It appears that the proposed Bylaw will fail to adequately cater for future demand<sup>2</sup> although it shows no interest in doing so anyway. We note that the proposed Bylaw imposes a two-night limit on self-contained vehicles staying on Waiheke Island – clause 6(4). We understand the thinking behind this limitation but submit that it is heavy-handed and somewhat un-related to the effect or risk it is attempting to manage. The two-night limit is most likely being prescribed because this complies with the minimum waste-water holding capacity a self-contained vehicle is required to have under NZS 5465-20013. It is of course perfectly feasible for a vehicle to have a larger capacity or for it not to be fully occupied (up to its capacity) which means that wastewater effluent can be dumped off the Island even with a stay of more than two nights. NZMCA submits that this, across the board two-night limit, is designed to discourage motorhomes and campervans even visiting the Island given the high cost of ferrying over and that this amounts to a de facto ban on any self-contained camping on Waiheke. We suggest that the two-night limit should be applied with potential exceptions based on vehicles having a greater waste-water holding capacity than three days. NZMCA suggests that there may be problems enforcing site capacity limits on restricted overnight parking sites where there is no clear delineation of the area available for parking. A site such as the Waiuku Service Centre has a proposed limit of three vehicles but a designated area able to accommodate perhaps 20 vehicles. Clearly if a designated site can contain far more vehicles than the maximum provided for in the Bylaw, there is some justification for a higher maximum. This argument notwithstanding, it becomes difficult for an enforcement officer to determine who is breaching a bylaw limit in an over-parked site when there is no evidence of who arrived first or last. NZMCA fully expects Auckland Council to conduct the special consultative procedures around the proposed Bylaw in good faith and with an open mind. However, the urgent need for a freedom camping bylaw along with the qualities of the draft proposal suggest to us that little will change between the proposed and adopted version. In the proposed version we have major concerns with the exclusion of reserves from the Bylaw but outside of this are generally comfortable with the proposed prohibitions and restrictions and encourage Council to adopt them. Any expansion of the prohibitions and any extension of the restrictions are in our opinion unwarranted and we believe that the Review Panel should avoid further change. A hallmark of the proposed Bylaw is with what it doesn't do. It does not seek to regulate freedom camping on land which Council holds under the

Reserves Act 1977 or on regional parks. The NZMCA believes that this is an important shift in focus between the 2018 version of the proposed Bylaw and the 2022 version and that this shift should be scrutinized for its reasonableness and practicality. The proposed exclusion of land held under the Reserves Act from the definition of Local Authority Area in section 5 of the proposed Bylaw appears to have two purposes. Firstly, it relies on the prohibition of camping on reserves which is provided for in section 44 of the Reserves Act. This avoids Council having to schedule every reserve as a prohibited area as required in s.11(3) of the Freedom Camping Act. Secondly, it offers the Council an opportunity to apply infringement fines of \$800 rather than the \$200 fines applicable under the Freedom Camping Act. NZMCA has two main problems with this reliance. While it is perfectly reasonable for Council to utilize its powers under s.44 of the Reserves Act to impose a broad prohibition of freedom camping on the region's parks and reserves, it is not at all clear when an area of publicly or Council owned land is actually a reserve. It appears too that Council staff are not clear about this either. Section 44 of the Reserves Act prohibits (outside of Ministerial consent) anyone living temporarily or permanently on a reserve. Presumably the term 'reserve' is used particularly here to mean a reserve as defined by the Interpretation section of the Act (s.2). This section, inter alia, defines a reserve as: 'any land acquired after the commencement of this Act in any manner by an administering body as a reserve within the meaning of this Act, and any land vested in any local authority which, not theretofore being a public reserve, is by resolution of the local authority pursuant to section 14 declared to be set apart as a reserve. Section 14 allows a local authority to declare (by way of a formal resolution) the vesting of land in itself as a reserve. Once the various processes for confirming any such resolution, the local authority is required, under s.14(3), to refer it to the Minister who has discretion to confirm or reject the resolution (under s.14(4)). If the Minister chooses to confirm the resolution then the status of the subject land as reserve is determined finally by gazettal. Importantly s.14(5) determines that: 'No resolution under this section shall have any force or effect until it is gazetted as aforesaid'. It would appear then that while it is possible for Council to hold a parcel of land under the Reserves Act, its status as a reserve depends critically on it being gazetted. The definition of a reserve and so the application of s.44 to unauthorised uses relies on this. Council's 2018 report Managing freedom camping: Findings report acknowledged that the Reserves Act only applied to gazetted parcels of land and reported that 60% to 70% of the region's 4,000 reserves under Council's control had been gazetted (at p.9). Assuming that only modest progress has been made in rectifying this situation over the intervening three years, it would seem that between 1,000 and 1,500 of Council's reserves cannot have the Reserves Act prohibitions available under s.44 applied to them. But where are these reserves and how will the public be able to identify them? NZMCA has made a LGOIMA request of Council seeking this information. The statutory deadline for fulfilling this request was still running at the time submissions to the proposed Bylaw closed. Council staff have however promptly responded to the information request seeking a clearer definition of the types of land we entirely on the application of s.44 to prohibit camping on all 4,000 reserves in Auckland. The initial response from Council staff to our LGOIMA request does not of course answer the question of which reserve land is gazette or ungazetted, classified or unclassified. In the sought information about. This response argued: 'the bylaw doesn't mention 'gazette' in any context so requesting data on reserves that are 'gazetted or ungazetted' would be inapplicable. 'They (the Council team responding in the first instance) have also made of note the if the terms used were classified reserves or unclassified reserves then the answer is the same, it still makes no difference as the bylaw refers to 'land held under the Reserves Act'. All land held under the Reserves Act is subject to the Reserves Act whether the land has been classified or not. The fact that it is subject to the Act means the Act and its provisions apply as if it was classified. The only major issue with unclassified land is that in terms of granting an interest to a third party such as a lease, this cannot be done until the land is classified. In summary, for the purposes of this bylaw it makes no difference whether the land is classified or not, if it's held under the Act by Auckland Council – its prohibited.4. NZMCA submits that the failure of the proposed Bylaw to mention 'gazette' does not negate the application of s.14(5) of the Reserves Act because bylaws are a subservient form of legislation. We suggest that Council clarifies the legal position on this question before it decides to rely entirely on the application of s.44 to prohibit camping on all 4,000 reserves in Auckland. The initial response from Council staff to our LGOIMA request does not of course answer the question of which reserve land is gazette or ungazetted, classified or unclassified. In the that it is reasonable to assume that Council does not know which of its reserves are ungazetted or unclassified. If this is the case, the application of s.44 to prohibit camping on reserves may (pending a legal opinion to clarify the question) not be as straightforward as the Bylaw proposal suggests. The ambiguity with what is and is not a reserve has a more practical difficulty as well. Some pieces of land -the Auckland Domain for example; are clearly reserves and there would be no credibility in arguments that an errant camper misunderstood the status of the land he or she was parked on. For some other parcels of land - a local purpose reserve which is developed as a suburban carpark for example; there may be stronger cases for such misunderstandings. While it is likely that any enforcement officer would first request a camper (or a homeless person) to move on before issuing them with an \$800 infringement fine, they are not obliged to do so. To the NZMCA this ambiguity and the scale of the penalties which may be heaped on people offer the conditions for unreasonable use of Council's statutory powers. This unreasonableness is in part due to the scale of the infringement fines at stake here. In comparison with the \$200 fine applicable for a similar offence under the Freedom Camping Act, \$800 is significant. We note the Minister of Tourism's announcement on 30th November 2021 that he is introducing higher fines for breaches of local freedom camping bylaws enacted under the Freedom Camping Act. A maximum possible fine of \$1000 has been mentioned although supporting documentation for the Minister's announcement does not mention a figure. It does however suggest that fines above \$200 will be introduced and that these will be able to be graduated to take account of the seriousness of a breach or offence. We suggest that such a graduated approach is far more reasonable as a penalty than a blanket \$800 fine which may be levied under the Reserves Act.21. NZMCA would prefer that Council abandoned the idea of using the Reserves Act to prohibit self-contained camping on parks and reserves and instead used the proposed Bylaw and the analysis and evidence it already has, from its 2018 work, to designate restricted camping sites on reserves as appropriate. This more considered approach would avoid ambiguity, confusion and the doubtful legality of attempting to use Reserves Act provisions on sites which have not been gazetted as reserves. Managing homelessness. The assurance offered in the Bylaw proposal that it 'is not the intention of this bylaw to manage people who are living in vehicles involuntarily, due to homelessness' and that Council 'has committed to taking a humane enforcement approach to protect vulnerable members of the Auckland community'(p.19) is encouraging. However, there is nothing in the actual Bylaw which guarantees that this approach will be taken. While the summary offered at the front of the proposed Bylaw repeats this assurance, it is clear that this summary is not actually part of the Bylaw. The Bylaw proposal reports that 'the

council takes a risk-based 'graduated' approach to all our enforcement activities'. In respect of the proposed Freedom Camping in Vehicles Bylaw the proposal acknowledges that 'most breaches of the bylaw will be low risk, but if campers are committing more serious offences (such as dumping waste or lighting fires illegally), these will be responded to as a higher priority' (p.18). This may be the original intention of those administering the Bylaw but the political reality may be quite different given the sensitivity of freedom camping for some communities. The efforts of the Omaha Beach Community Association's to derail Council's previous attempts in 2018 and 2019 to introduce a fully researched and well considered Bylaw is an obvious example of this political reality.<sup>5</sup> Most likely much of the monitoring and enforcement work by Council staff in relation to the proposed Bylaw will be complaints driven. Council should expect that a large proportion and perhaps the majority of such complaints will come out of wealthy beachside communities. 24. While it might be an unfair generalisation, it may be the case that the communities most likely to complain about unlawful freedom camping in their neighbourhoods, are the least sympathetic to the plight of homeless people who may be forced to live in cars or vans. Their complaints are as likely to be over holiday makers doing a spot of freedom camping as they are toward a homeless person. In terms of the impact on what they believe is their legitimate right to enjoy the local character and amenity, there will be little difference between the two cases.

Part 4 of the proposed Bylaw relating to enforcement, offences and penalties is clear that discretion rests with Council on the use of its statutory powers. However this discretion is applied, it must be applied consistently and in terms of the effects and problems which are intended to be addressed by the Bylaw. This suggests that without some formal indication of how Council expects to apply its discretion and the Bylaw's provisions, citizens have a right to expect it to be applied consistently against the effects the Bylaw was created to address. Plainly put, Council staff may not actually have the discretion to take a 'humane enforcement approach' because explicit provision for this is not made in the Bylaw. The Bylaw Proposal makes a distinction (at p.19) between freedom camping and homelessness. It suggests that freedom camping is 'people staying in vehicles overnight as part of leisure travel, or living in vehicles for longer periods as a lifestyle choice' which it contrasts with 'people who are living in vehicles involuntarily, due to homelessness'. NZMCA suggests that the distinction is not so clear-cut especially around definitions of lifestyle choice and involuntary circumstances. The Association has members who make a choice to live in a motorhome or housebus rather than occupying a house. Some of these members may park in inappropriate locations from time to time including unlawfully under local freedom camping bylaws. Not all of these people are well-off financially or have made a lifestyle choice perhaps as a way of avoiding the costs of housing. Some have few economic choices given their incomes, the cost of rents and the availability of rental housing. This is especially so for older single people working for low wages. For example, rent for a modest one-bedroom flat in Auckland is likely to be between \$350 and \$400 per week<sup>6</sup> while the take home income for a person earning \$50,000 per year is around \$800 per week. The spill-over of housing demand into vehicles in Auckland is perhaps inevitable given the high cost of housing relative to income for the working poor. The characterisation of this demand as a lifestyle choice is inaccurate and unfair and the proposed Bylaw fails to recognise this. The question of how homelessness is managed is not of direct interest to NZMCA although the Association and many of our members are as keen as Council is to see homeless people being treated compassionately and respectfully. Homeless people are not protected from prosecution under the proposed Bylaw and ways should be found to ensure that they are. Provision might be made in Part 4 of the Bylaw for the exception of homeless people from the application of Council's statutory powers to enforce the Bylaw. This of course would require the application of some criteria to determine when such exception is applied. NZMCA is happy to work with Council staff in developing these criteria if the Review Panel see merit in such an idea. More creative responses to freedom camping. Given the political and practical necessity for some form of bylaw to regulate freedom camping in Auckland, it seems likely that the proposed Bylaw, more or less in its present form, will be adopted by Council. NZMCA believes that it is very difficult to estimate the extent to which the supply of freedom camping opportunities practically provided for under the proposed Bylaw will match with demand for such opportunities. This ambiguity arises in part because Council has not been able to identify which potential overnight parking sites under Council control fall between those designated as restricted sites and are not on reserve land – whether gazetted or not. This ambiguity is increased because demand is quite diffused between travelers and the marginally housed and will change once Covid-19 related international travel restrictions are lifted. The Bylaw proposal cites data from 2018 which indicated that there were an estimated 320 freedom camping vehicles at any time on Auckland's roads during February season and that there were 11 legal freedom camping sites which offered parking spaces for 93 vehicles. The proposed Bylaw offers 22 restricted freedom camping sites which provide spaces for 110 vehicles. An ongoing shortfall seems likely although the tangibility of this will depend both on campers' behaviours and the focus and stringency of any enforcement efforts. From NZMCA's perspective a shortage of freedom camping opportunities is a problem for other than the obvious reason that our members may not be able to easily freedom camp in Auckland. The national situational analysis undertaken in 2016 by a working group of local authority and Department of Internal Affairs officials offered the following conclusion around the impact of any shortage of freedom camping opportunities. 'A shortage of freedom camping areas and an increase in demand in some regions at peak times has resulted in overcrowding and subsequently a higher risk of primary and secondary harms. This is not conducive to community buy-in and has consequently led to negative media coverage and perceptions of the freedom camper, especially towards international visitors..... A lack of community support has contributed to the reduction of freedom camping available areas in some regions. However the perceived harms are not necessarily as a result of freedom campers as there is insufficient information available to be able to determine if harms are as a result of freedom campers, day trippers or indeed locals. The dominance of some communities' perceptions and preoccupations within the broader policy debate around freedom camping is problematic. These perceptions are most often, poorly performed because there is very little reliable data on the tangible harms caused by freedom camping and on the appropriation of any harm to a particular group. Some preoccupations are prejudicial against visitors and even people outside of the immediate community. This can mean that a local council's policy and regulatory efforts are driven by anecdote, squeaky wheels and those with the best paid lawyers. Such drivers miss the opportunities that visitors bring to communities and ignore the fact that most of us are at some time visitors in others' communities. The DIA led working party observed that 'few councils actively plan with their communities, how to accommodate and optimise the benefits of freedom camping to their region. Consultation at the community level tends to focus on regulating to control the associated harms from

freedom camping. A more positive approach to exploring the opportunities for communities may result in a shift in perception and open up the idea to increasing the number of suitable freedom camping areas within regions and focusing on managing the camping activity rather than restricting and prohibiting it.' NZMCA encourages Auckland Council and its local boards to now go on to explore the opportunities for more expansive provision of freedom camping opportunities across Auckland. This consideration should also look at opportunities in selected reserves. Such an exploration should acknowledge the clear differences in demand for camping sites in rural and urban parts of the region. We understand that Council is presently reviewing local reserve management plans in Rodney and perhaps Franklin and that some attention will be given in these reviews to providing for freedom camping of some form. NZMCA is planning to be proactively involved in these reviews, at whatever level we can be, and will be engaging our local members in this work. We look forward to hearing of progress on them and welcome the opportunity to be involved as soon as possible. The proposed Bylaw offers Council, and the communities it serves, a tool to manage some of the risks associated with freedom camping as well as the poor behaviours of a very small minority of freedom campers. The limitations of regulation and of adopting prohibitive stances toward the control of social activities are well understood. The temptation to regulate for every perceived social problem needs to be overcome if we are to avoid being immersed in bureaucracy and parochialism. In this instance such tendencies can be tempered if a fuller perspective was taken on freedom camping which acknowledges it as a legitimate and useful use of carefully selected parts of the public domain.

## **NZMCA's submission to Auckland Council on the Proposed Te Ture ā-Rohe Noho Puni Wātea ā-Waka 2022 | Freedom Camping in Vehicles Bylaw 2022**

1. This is the New Zealand Motor Caravan Association (Inc) (NZMCA) submission to Auckland Council's proposed Freedom Camping in Vehicles Bylaw. The NZMCA is a membership-based organisation representing the interests of private motor caravan owners in New Zealand. It was established in 1956, and became an incorporated society in 1970. The purpose of the NZMCA is to foster and advance the motor caravan movement by providing relevant services and information and by promoting fellowship, vehicle safety, road courtesy and protection of the environment.
2. Over 110,000 New Zealanders are members of NZMCA of whom around 15,000 live in Auckland. We represent our members interests' in making this submission on the proposed freedom camping Bylaw. They have told us, through various membership surveys, that freedom camping is important to them both as a personal opportunity and as a kiwi cultural value. The gradual diminution of these opportunities by local councils through more and more restrictive bylaws is a concern for the Association and its membership and this concern has motivated this submission and our participation in the latest consultation process.
3. NZMCA and many of our members continue to see freedom camping as a traditional activity and legitimate use of public space. We reject arguments that freedom camping has had its day due to claims such as that by the Parliamentary Commissioner for the Environment that the '*campervan sector and its customers have been able to socialise the environmental costs of their activities*'<sup>1</sup>. We accept that the behaviours of some freedom campers and their misuse of the environment have been reprehensible, but believe that such behaviours are not commonplace and have been overstated by parochial interests. Evidence of who is responsible for the pressure on and damage to popular visitor locations is poor and often non-existent. Freedom campers are often scapegoated for this harm which could just as easily been caused by day-trippers or locals. In such an evidence vacuum, local councils have often relied on anecdote and narrow preference to drive and decide policy. Preliminary work to the current Bylaw proposal for Auckland which was undertaken during 2018 was however sound and robust and we applaud Auckland Council for making these efforts.

<sup>1</sup> Parliamentary Commissioner for the Environment (2021) *Not 100% but four steps closer to sustainable tourism*. P.106

### **Basis of the Association's submission**

4. NZMCA's submission on the proposed Bylaw has four elements which are discussed in some detail below. These four elements are:
- the practical and immediate need for a responsible camping bylaw,
  - reliance on Reserves Act regulation and the reasonableness of this,
  - managing homelessness, and
  - more creative responses to freedom camping.

### **The need for the present proposed bylaw**

5. NZMCA appreciates Auckland Council's practical and legal requirements to finalise an adequate Bylaw under the Freedom Camping Act immediately. The legacy bylaws which were amalgamated into the 2015 Bylaw have no doubt run their course both as policy tools and legal instruments. If the region is to have comprehensive and effective regulation of freedom camping, a Bylaw under the Act is the best option.
6. The proposed Bylaw appears legally sound and is demonstrably based on previous policy work. For the most part its approach is straightforward and sensible although perhaps a little desultory. The blanket use of Reserve Act provisions to virtually prohibit any type of camping on as many as 4000 reserves is summary and lazy. Within the scope of the proposed Bylaw itself, it would be difficult to argue that Council has been unreasonable in its justification for the Bylaw and in the exercise of its discretion to prohibit or restrict freedom camping on nominated sites. The opportunity which the Bylaw leaves for freedom camping across the region is unclear however. It appears that the proposed Bylaw will fail to adequately cater for future demand<sup>2</sup> although it shows no interest in doing so anyway.
7. We note that the proposed Bylaw imposes a two-night limit on self-contained vehicles staying on Waiheke Island – clause 6(4). We understand the thinking behind this limitation but submit that it is heavy-handed and somewhat un-related to the effect or risk it is attempting to manage. The two-night limit is most likely being prescribed because this complies with the minimum waste-water holding capacity a self-contained vehicle is required to have under NZS 5465-2001<sup>3</sup>. It is of course perfectly feasible for a vehicle to have a larger capacity or for it not to be fully occupied (up to its capacity) which means that wastewater effluent can be dumped off the Island even with a stay of more than two nights. NZMCA submits that this, across the board two-night limit, is designed to discourage motorhomes and campervans even visiting the Island given the high cost of ferrying over and that this amounts to a de facto ban on any self-contained camping on Waiheke. We suggest that the two-night limit should be applied with potential exceptions based on vehicles having a greater waste-water holding capacity than three days.

---

<sup>2</sup> The Bylaw Proposal (at p.6) suggests that there may be as many as 320 freedom camping vehicles on Auckland's roads during the peak of summer and that the designated sites will offer overnight parking spaces for 93 vehicles. The sum of the places identified in Schedule 2 of the proposed Bylaw identify a figure of 110.

<sup>3</sup> NZS 5465-2001 Cl. 6.3 requires that all 'toilet systems shall provide sufficient waste holding capacity for the occupants of a motor caravan for a minimum of three days'.

8. NZMCA suggests that there may be problems enforcing site capacity limits on restricted overnight parking sites where there is no clear delineation of the area available for parking. A site such as the Waiuku Service Centre has a proposed limit of three vehicles but a designated area able to accommodate perhaps 20 vehicles. Clearly if a designated site can contain far more vehicles than the maximum provided for in the Bylaw, there is some justification for a higher maximum. This argument notwithstanding, it becomes difficult for an enforcement officer to determine who is breaching a bylaw limit in an over-parked site when there is no evidence of who arrived first or last.
9. NZMCA fully expects Auckland Council to conduct the special consultative procedures around the proposed Bylaw in good faith and with an open mind. However, the urgent need for a freedom camping bylaw along with the qualities of the draft proposal suggest to us that little will change between the proposed and adopted version. In the proposed version we have major concerns with the exclusion of reserves from the Bylaw but outside of this are generally comfortable with the proposed prohibitions and restrictions and encourage Council to adopt them. Any expansion of the prohibitions and any extension of the restrictions are in our opinion unwarranted and we believe that the Review Panel should avoid further change.

#### **Unreasonable reliance on Reserves Act provisions**

10. A hallmark of the proposed Bylaw is with what it doesn't do. It does not seek to regulate freedom camping on land which Council holds under the Reserves Act 1977 or on regional parks. The NZMCA believes that this is an important shift in focus between the 2018 version of the proposed Bylaw and the 2022 version and that this shift should be scrutinized for its reasonableness and practicality.
11. The proposed exclusion of land held under the Reserves Act from the definition of Local Authority Area in section 5 of the proposed Bylaw appears to have two purposes. Firstly, it relies on the prohibition of camping on reserves which is provided for in section 44 of the Reserves Act. This avoids Council having to schedule every reserve as a prohibited area as required in s.11(3) of the Freedom Camping Act. Secondly, it offers the Council an opportunity to apply infringement fines of \$800 rather than the \$200 fines applicable under the Freedom Camping Act. NZMCA has two main problems with this reliance.
12. While it is perfectly reasonable for Council to utilize its powers under s.44 of the Reserves Act to impose a broad prohibition of freedom camping on the region's parks and reserves, it is not at all clear when an area of publicly or Council owned land is actually a reserve. It appears too that Council staff are not clear about this either.
13. Section 44 of the Reserves Act prohibits (outside of Ministerial consent) anyone living temporarily or permanently on a reserve. Presumably the term 'reserve' is used particularly here to mean a reserve as defined by the Interpretation section of the Act (s.2). This section, inter alia, defines a reserve as:
 

*'any land acquired after the commencement of this Act in any manner by an administering body as a reserve within the meaning of this Act, and any land vested in any local authority which, not theretofore being a public reserve, is by resolution of the local authority pursuant to section 14 declared to be set apart as a reserve.*

Section 14 allows a local authority to declare (by way of a formal resolution) the vesting of land in itself as a reserve. Once the various processes for confirming any such resolution, the local authority is required, under s.14(3), to refer it to the Minister who has discretion to confirm or reject the resolution (under s.14(4)). If the Minister chooses to confirm the resolution then the status of the subject land as reserve is determined finally by gazettal. Importantly s.14(5) determines that :

*'No resolution under this section shall have any force or effect until it is gazetted as aforesaid'.*

14. It would appear then that while it is possible for Council to hold a parcel of land under the Reserves Act, its status as a reserve depends critically on it being gazetted. The definition of a reserve and so the application of s.44 to unauthorised uses relies on this.
15. Council's 2018 report *Managing freedom camping: Findings report* acknowledged that the Reserves Act only applied to gazetted parcels of land and reported that 60% to 70% of the region's 4,000 reserves under Council's control had been gazetted (at p.9). Assuming that only modest progress has been made in rectifying this situation over the intervening three years, it would seem that between 1,000 and 1,500 of Council's reserves cannot have the Reserves Act prohibitions available under s.44 applied to them. But where are these reserves and how will the public be able to identify them?
16. NZMCA has made a LGOIMA request of Council seeking this information. The statutory deadline for fulfilling this request was still running at the time submissions to the proposed Bylaw closed. Council staff have however promptly responded to the information request seeking a clearer definition of the types of land we sought information about. This response argued:
 

*'the bylaw doesn't mention 'gazette' in any context so requesting data on reserves that are 'gazetted or ungazetted' would be inapplicable.*

*'They (the Council team responding in the first instance) have also made of note the if the terms used were classified reserves or unclassified reserves then the answer is the same, it still makes no difference as the bylaw refers to 'land held under the Reserves Act'. All land held under the Reserves Act is subject to the Reserves Act whether the land has been classified or not. The fact that it is subject to the Act means the Act and its provisions apply as if it was classified. The only major issue with unclassified land is that in terms of granting an interest to a third party such as a lease, this cannot be done until the land is classified.*

*In summary, for the purposes of this bylaw it makes no difference whether the land is classified or not, if it's held under the Act by Auckland Council – its prohibited.<sup>4</sup>*
17. NZMCA submits that the failure of the proposed Bylaw to mention 'gazette' does not negate the application of s.14(5) of the Reserves Act because bylaws are a subservient form of legislation. We suggest that Council clarifies the legal position on this question before it decides to rely entirely on the application of s.44 to prohibit camping on all 4,000 reserves in Auckland.
18. The initial response from Council staff to our LGOIMA request does not of course answer the question of which reserve land is gazette or ungazetted, classified or unclassified. In the

---

<sup>4</sup> Email correspondence from Council employee received on 23 November 2021.

absence of a final response, and given the defensiveness of the initial responses, we believe that it is reasonable to assume that Council does not know which of its reserves are ungazetted or unclassified. If this is the case, the application of s.44 to prohibit camping on reserves may (pending a legal opinion to clarify the question) not be as straightforward as the Bylaw proposal suggests.

19. The ambiguity with what is and is not a reserve has a more practical difficulty as well. Some pieces of land -the Auckland Domain for example; are clearly reserves and there would be no credibility in arguments that an errant camper misunderstood the status of the land he or she was parked on. For some other parcels of land - a local purpose reserve which is developed as a suburban carpark for example; there may be stronger cases for such misunderstandings. While it is likely that any enforcement officer would first request a camper (or a homeless person) to move on before issuing them with an \$800 infringement fine, they are not obliged to do so. To the NZMCA this ambiguity and the scale of the penalties which may be heaped on people offer the conditions for unreasonable use of Council's statutory powers.
20. This unreasonableness is in part due to the scale of the infringement fines at stake here. In comparison with the \$200 fine applicable for a similar offence under the Freedom Camping Act, \$800 is significant. We note the Minister of Tourism's announcement on 30<sup>th</sup> November 2021 that he is introducing higher fines for breaches of local freedom camping bylaws enacted under the Freedom Camping Act. A maximum possible fine of \$1000 has been mentioned although supporting documentation for the Minister's announcement does not mention a figure. It does however suggest that fines above \$200 will be introduced and that these will be able to be graduated to take account of the seriousness of a breach or offence. We suggest that such a graduated approach is far more reasonable as a penalty than a blanket \$800 fine which may be levied under the Reserves Act.
21. NZMCA would prefer that Council abandoned the idea of using the Reserves Act to prohibit self-contained camping on parks and reserves and instead used the proposed Bylaw and the analysis and evidence it already has, from its 2018 work, to designate restricted camping sites on reserves as appropriate. This more considered approach would avoid ambiguity, confusion and the doubtful legality of attempting to use Reserves Act provisions on sites which have not been gazetted as reserves.

### **Managing homelessness**

22. The assurance offered in the Bylaw proposal that it *'is not the intention of this bylaw to manage people who are living in vehicles involuntarily, due to homelessness'* and that Council *'has committed to taking a humane enforcement approach to protect vulnerable members of the Auckland community'*(p.19) is encouraging. However, there is nothing in the actual Bylaw which guarantees that this approach will be taken. While the summary offered at the front of the proposed Bylaw repeats this assurance, it is clear that this summary is not actually part of the Bylaw.
23. The Bylaw proposal reports that *'the council takes a risk-based 'graduated' approach to all our enforcement activities'*. In respect of the proposed Freedom Camping in Vehicles Bylaw the proposal acknowledges that *'most breaches of the bylaw will be low risk, but if campers are committing more serious offences (such as dumping waste or lighting fires illegally), these will be responded to as a higher priority'* (p.18). This may be the original intention of those

administering the Bylaw but the political reality may be quite different given the sensitivity of freedom camping for some communities. The efforts of the Omaha Beach Community Association's to derail Council's previous attempts in 2018 and 2019 to introduce a fully researched and well considered Bylaw is an obvious example of this political reality.<sup>5</sup> Most likely much of the monitoring and enforcement work by Council staff in relation to the proposed Bylaw will be complaints driven. Council should expect that a large proportion and perhaps the majority of such complaints will come out of wealthy beachside communities.

24. While it might be an unfair generalisation, it may be the case that the communities most likely to complain about unlawful freedom camping in their neighbourhoods, are the least sympathetic to the plight of homeless people who may be forced to live in cars or vans. Their complaints are as likely to be over holiday makers doing a spot of freedom camping as they are toward a homeless person. In terms of the impact on what they believe is their legitimate right to enjoy the local character and amenity, there will be little difference between the two cases.
25. Part 4 of the proposed Bylaw relating to enforcement, offences and penalties is clear that discretion rests with Council on the use of its statutory powers. However this discretion is applied, it must be applied consistently and in terms of the effects and problems which are intended to be addressed by the Bylaw. This suggests that without some formal indication of how Council expects to apply its discretion and the Bylaw's provisions, citizens have a right to expect it to be applied consistently against the effects the Bylaw was created to address. Plainly put, Council staff may not actually have the discretion to take a 'humane enforcement approach' because explicit provision for this is not made in the Bylaw.
26. The Bylaw Proposal makes a distinction (at p.19) between freedom camping and homelessness. It suggests that freedom camping is '*people staying in vehicles overnight as part of leisure travel, or living in vehicles for longer periods as a lifestyle choice*' which it contrasts with '*people who are living in vehicles involuntarily, due to homelessness*'. NZMCA suggests that the distinction is not so clear-cut especially around definitions of lifestyle choice and involuntary circumstances. The Association has members who make a choice to live in a motorhome or housebus rather than occupying a house. Some of these members may park in inappropriate locations from time to time including unlawfully under local freedom camping bylaws. Not all of these people are well-off financially or have made a lifestyle choice perhaps as a way of avoiding the costs of housing. Some have few economic choices given their incomes, the cost of rents and the availability of rental housing. This is especially so for older single people working for low wages. For example, rent for a modest one-bedroom flat in Auckland is likely to be between \$350 and \$400 per week<sup>6</sup> while the take home income for a person earning \$50,000 per year is around \$800 per week. The spill-over of housing demand into vehicles in Auckland is perhaps inevitable given the high cost of housing relative to income for the working poor. The characterisation of this demand as a lifestyle choice is inaccurate and unfair and the proposed Bylaw fails to recognise this.

---

<sup>5</sup> See Localmatters newspaper report of 3<sup>rd</sup> July 2019 at <https://www.localmatters.co.nz/hibiscus-news/omaha-challenges-freedom-camping-bylaw/>

<sup>6</sup> This estimate is based on a survey of rents in south and west Auckland suburbs taken from the Ministry of Business, Innovation and Employment's Tenancy Bond database.

27. The question of how homelessness is managed is not of direct interest to NZMCA although the Association and many of our members are as keen as Council is to see homeless people being treated compassionately and respectfully. Homeless people are not protected from prosecution under the proposed Bylaw and ways should be found to ensure that they are. Provision might be made in Part 4 of the Bylaw for the exception of homeless people from the application of Council's statutory powers to enforce the Bylaw. This of course would require the application of some criteria to determine when such exception is applied. NZMCA is happy to work with Council staff in developing these criteria if the Review Panel see merit in such an idea.

#### **More creative responses to freedom camping**

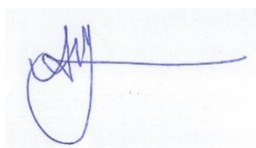

28. Given the political and practical necessity for some form of bylaw to regulate freedom camping in Auckland, it seems likely that the proposed Bylaw, more or less in its present form, will be adopted by Council. NZMCA believes that it is very difficult to estimate the extent to which the supply of freedom camping opportunities practically provided for under the proposed Bylaw will match with demand for such opportunities. This ambiguity arises in part because Council has not been able to identify which potential overnight parking sites under Council control fall between those designated as restricted sites and are not on reserve land – whether gazetted or not. This ambiguity is increased because demand is quite diffused between travelers and the marginally housed and will change once Covid-19 related international travel restrictions are lifted.
29. The Bylaw proposal cites data from 2018 which indicated that there were an estimated 320 freedom camping vehicles at any time on Auckland's roads during February season and that there were 11 legal freedom camping sites which offered parking spaces for 93 vehicles. The proposed Bylaw offers 22 restricted freedom camping sites which provide spaces for 110 vehicles. An ongoing shortfall seems likely although the tangibility of this will depend both on campers' behaviours and the focus and stringency of any enforcement efforts.
30. From NZMCA's perspective a shortage of freedom camping opportunities is a problem for other than the obvious reason that our members may not be able to easily freedom camp in Auckland. The national situational analysis undertaken in 2016 by a working group of local authority and Department of Internal Affairs officials offered the following conclusion around the impact of any shortage of freedom camping opportunities. *'A shortage of freedom camping areas and an increase in demand in some regions at peak times has resulted in overcrowding and subsequently a higher risk of primary and secondary harms. This is not conducive to community buy-in and has consequently led to negative media coverage and perceptions of the freedom camper, especially towards international visitors..... A lack of community support has contributed to the reduction of freedom camping available areas in some regions. However the perceived harms are not necessarily as a result of freedom campers as there is insufficient information available to be able to determine if harms are as a result of freedom campers, day trippers or indeed locals.'*<sup>7</sup>
31. The dominance of some communities' perceptions and preoccupations within the broader policy debate around freedom camping is problematic. These perceptions are most often

---

<sup>7</sup> Department of Internal Affairs (2016) *Managing Freedom Camping in Public Places – national situational analysis*. p.5

poorly performed because there is very little reliable data on the tangible harms caused by freedom camping and on the appropriation of any harm to a particular group. Some preoccupations are prejudicial against visitors and even people outside of the immediate community. This can mean that a local council's policy and regulatory efforts are driven by anecdote, squeaky wheels and those with the best paid lawyers. Such drivers miss the opportunities that visitors bring to communities and ignore the fact that most of us are at some time visitors in others' communities.

32. The DIA led working party observed that *'few councils actively plan with their communities, how to accommodate and optimise the benefits of freedom camping to their region. Consultation at the community level tends to focus on regulating to control the associated harms from freedom camping. A more positive approach to exploring the opportunities for communities may result in a shift in perception and open up the idea to increasing the number of suitable freedom camping areas within regions and focusing on managing the camping activity rather than restricting and prohibiting it.'*
33. NZMCA encourages Auckland Council and its local boards to now go on to explore the opportunities for more expansive provision of freedom camping opportunities across Auckland. This consideration should also look at opportunities in selected reserves. Such an exploration should acknowledge the clear differences in demand for camping sites in rural and urban parts of the region. We understand that Council is presently reviewing local reserve management plans in Rodney and perhaps Franklin and that some attention will be given in these reviews to providing for freedom camping of some form. NZMCA is planning to be proactively involved in these reviews, at whatever level we can be, and will be engaging our local members in this work. We look forward to hearing of progress on them and welcome the opportunity to be involved as soon as possible.
34. The proposed Bylaw offers Council, and the communities it serves, a tool to manage some of the risks associated with freedom camping as well as the poor behaviours of a very small minority of freedom campers. The limitations of regulation and of adopting prohibitive stances toward the control of social activities are well understood. The temptation to regulate for every perceived social problem needs to be overcome if we are to avoid being immersed in bureaucracy and parochialism. In this instance such tendencies can be tempered if a fuller perspective was taken on freedom camping which acknowledges it as a legitimate and useful use of carefully selected parts of the public domain.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Heart of the City (HOTC) is the business association for Auckland's city centre, representing the interests of businesses and property owners. We are committed to the growth and success of the city centre as a vibrant, accessible, safe and welcoming urban community. Feedback: Our feedback on the Proposed Freedom Camping in Vehicles Bylaw 2022 raises a number of points in relation to the potential issues that could come from the change in how this activity is permitted and managed in Auckland. Whilst we acknowledge that the Freedom Camping Act 2011 only allows local authorities to prohibit or restrict Freedom Camping where it is satisfied that restrictions are necessary due to evidence of existing problems, we note our concern that the shift from near-total prohibition to near-total permission could result in Freedom Camping-associated problems arising in areas that haven't previously seen demand. We note that the process to add new prohibited or restricted areas to the Bylaw schedules is not detailed in the draft Bylaw, although it is mentioned in the online FAQs ("What happens if problems emerge in other areas?"). It would be useful to have this clarified. HOTC would like to see a robust process developed for a) monitoring demand and issues, and b) considering whether additional areas should be scheduled. We suggest the latter should include but not be limited to the frequency at which additions should be considered as well as the risk/harm threshold for addition. Enforcement (Part 4, Clause 9) and the availability of enforcement resource to respond to any problems that arise is important. We acknowledge the wide range of enforcement work that is already required of Auckland Council, and given this, we wanted to raise whether Auckland Council is adequately resourced to withstand the additional demand potentially created by effectively opening Auckland up for Freedom Camping. We note that a process exists for the temporary easing of Freedom Camping restrictions (Part 3, Clause 8, points 1 – 6), but that no similar process exists for the temporary addition of restrictions (Clause 7). We suggest that parties such as major event organisers may have cause to request that restrictions are temporarily put in place to allow the effective functioning of their activities, and that a process should be included in the Bylaw for this to be able to take place.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? Yes** – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No** – I support another no-return period rule (please explain):

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

We do however, advocate for adding an additional rule relating to management of pets by freedom campers. Pets – specifically dogs and cats – pose significant threats to native wildlife through disturbance or predation. Specifically: 5.1. Flightless birds such as kiwi and weka, Department of Conservation's Draft Kiwi Recovery Plan 2018-20281 section 5.1.2. makes particular mention to the impact of dogs on kiwi stating that "dogs are the greatest threat to adult kiwi in areas where kiwi habitat overlaps with or is close to human populations or activity ..", 5.2. Nesting and breeding birds, if disturbed by cats or dogs may leave their nests resulting in the loss of clutches or broods and increases the risk of eggs or chicks being predated. Research has shown that nesting success in areas where dogs or cats are permitted is low. Birds that feed on our beaches, estuaries and braided rivers such as dotterel, little blue penguin, godwits and oyster catchers, if disturbed by cats or dogs may be disrupted in their feeding patterns which is concerning for migratory birds as this influences their flight plans and weight in preparation, similarly, shorebirds need a lot of undisturbed time to forage for small invertebrates in the sand and mud<sup>4,5</sup>, and Ground dwelling lizards, for example, one cat recently was found to have consumed 28 native lizards<sup>6</sup>. This is a particular concern given that there are areas that allow freedom camping which are located in Significant Ecological Areas or Conservation Zones. We therefore propose that an additional rule is added to the Bylaw that require freedom campers to: Keep dogs and cats on leashes at all times, no roaming allowed and they must be kept contained overnight. If additional rules such as that in point 7.1. is not added, we strongly advocate for areas which are considered Significant Ecological Areas or Conservation Zones to be prohibited areas for freedom camping. We also use this opportunity to highlight that when determining areas where freedom camping can occur, and presenting this to the public, Auckland Council should present this spatially so that people can determine where the potentially high-risk areas are by overlaying the map with Significant Ecological Areas and Conservation Zones. Furthermore, we propose that Auckland Council invests in better education in popular freedom camping spots around the threats that dogs and cats pose to native wildlife, e.g., erection of signs, and, undertakes public education on how to be a responsible pet-owning freedom camper. Please see the appendix which contains recent images of impacts on native wildlife from dogs and cats to illustrate the importance of Auckland Council taking urgent steps to avoid these impacts in any way possible.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

We are pleased to see the restrictions on disposal of waste from chemical toilets on Waiheke Island and we hope that this is enforced by Auckland Council officers. further use this opportunity to highlight that at present, there are not enough waste disposing facilities in the Auckland region. For example, in numerous popular freedom camping areas (e.g., Shore Road Reserve, Gulf Harbour, Piha, etc) often have over flowing bins in summer from freedom campers. We suggest that Auckland Council provides larger bins in popular freedom camping areas to avoid overflow and litter ending

up in the environment. To avoid mis-use of bins (e.g., illegal household dumping), options could be developed which require freedom campers to purchase some form of keytag which allows for bins to be opened.

## **SUBMISSION ON PROPOSED FREEDOM CAMPING IN VEHICLES BYLAW**

### **Introduction**

1. The Royal Forest and Bird Protection Society of New Zealand Incorporated (Forest & Bird) is New Zealand's largest, and oldest, independent nature conservation organisation with many members and supporters. Our mission is to be a voice for nature on land, in fresh water, and at sea. We have 47 branches throughout the country who are involved in a wide range of conservation and advocacy activities, seven of which are in the Auckland region.
2. We wish to be heard in support of this submission.

### **Submission**

#### Proposed general rules

3. Our submission is neutral regarding the four proposed general rules:
  - 3.1. Freedom campers must use a certified self-contained vehicle (the **safe-containment rule**)
  - 3.2. Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the **maximum stay rule**)
  - 3.3. Freedom campers must vacate their parking space by 9am on the day of departure (the **day of departure time rule**)
  - 3.4. Freedom campers must not return to stay in the same road or off-parking area for two weeks (the **no-return period rule**)
4. We do however, advocate for adding an additional rule relating to management of pets by freedom campers.
5. Pets – specifically dogs and cats – pose significant threats to native wildlife through disturbance or predation. Specifically:

Ground floor, 205 Victoria Street, Wellington  
 PO Box 631, Wellington 6140, New Zealand  
 0800 200 064  
[www.forestandbird.org.nz](http://www.forestandbird.org.nz)

- 5.1. Flightless birds such as kiwi and weka, Department of Conservation's Draft Kiwi Recovery Plan 2018-2028<sup>1</sup> section 5.1.2. makes particular mention to the impact of dogs on kiwi stating that *"dogs are the greatest threat to adult kiwi in areas where kiwi habitat overlaps with or is close to human populations or activity .."*,
- 5.2. Nesting and breeding birds, if disturbed by cats or dogs may leave their nests resulting in the loss of clutches or broods and increases the risk of eggs or chicks being predated. Research has shown that nesting success in areas where dogs or cats are permitted is low<sup>2,3</sup>,
- 5.3. Birds that feed on our beaches, estuaries and braided rivers such as dotterel, little blue penguin, godwits and oyster catchers, if disturbed by cats or dogs may be disrupted in their feeding patterns which is concerning for migratory birds as this influences their flight plans and weight in preparation, similarly, shorebirds need a lot of undisturbed time to forage for small invertebrates in the sand and mud<sup>4,5</sup>, and
- 5.4. Ground dwelling lizards, for example, one cat recently was found to have consumed 28 native lizards<sup>6</sup>.
6. This is a particular concern given that there are areas that allow freedom camping which are located in Significant Ecological Areas or Conservation Zones.
7. We therefore propose that an additional rule is added to the Bylaw that require freedom campers to:

***Keep dogs and cats on leashes at all times, no roaming allowed and they must be kept contained overnight.***

8. If additional rules such as that in point 7.1. is not added, we strongly advocate for areas which are considered Significant Ecological Areas or Conservation Zones to be prohibited areas for freedom camping.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** More public toilet and trash cans, dumping Stations, simple as that

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Providing toilets, shower and trash cans, dumping Stations will solve problems.

**How do you think the general rules will unfairly impact some people?** Its not fair to restrict anyone freedom

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The kind of vehicle used for freedom camping in Auckland should be a personal choice, Using a vehicle that is not self-contained does not pose a risk to the environment or public health and safety, The cost of buying, hiring, or converting to a self-contained vehicle is too high, and that could mean some people can't afford to freedom camp in Auckland

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay for an indefinite period in the same road or off-road parking area (no maximum stay rule)

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles should be allowed to come back to stay in the same area after dumping their waste responsibly, it is not necessary to prevent their return through this rule, No maximum stay gives campers the best opportunity to enjoy the area and support local businesses, Shorter stays are already the norm for most freedom campers, so a maximum stay rule is not necessary

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

**Is this because, in your view:** Campers should have the right to come back to favourite places during their trip. Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Please don't restrict people, people are responsible and clean and we should all have the right the nature of the country

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Please don't put more restrictions, but improve and make more places travel and camp friendly

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should be self-contained, but they shouldn't have to be certified

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment and/or public health and safety, but the National Standard is too restrictive, The use of non-self-contained vehicles poses a risk to the environment and/or public health and safety, but vehicle owners should decide what makes a vehicle 'self-contained'

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule? Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste. A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities. If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** I support a set time of between 8-9am unless they are parking in areas that has heavy overflow/commuter parking for PT hubs ( such as streets and parking used by park and ride customers that normally fills up early) it should then be changed/designated t

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrict

## Do you have any other comments on the general rules?

Please ensure council/enforcement officers and the relevant power/control through the bylaw is provided for so they can enforce compliance and move people on etc.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

1; Please prohibit freedom camping in the Shelley Beach (South head- Kaipara harbour) parking lots opposite the wharf area ( if not already covered in the bylaw/other measures)

2: Please prohibit as a matter of importance freedom camping along the carparks in front of the Milford Marina - Inga road, Milford. Competing usage especially in summer is causing issues with marina users and walkers. The marina is not gated and burglaries are common at times on the vessels.

Please also prohibit:

1. The gravel carpark near the southern end of Colonial Road, Birkenhead (commonly assumed to be part of Chelsea Estate Heritage Park).

2. The carparks at the end of Exmouth Road, Northcote (commonly assumed to be part of Heath Reserve).

3. All marked carparks at the western end of Beach Haven Road in the vicinity of Beach Haven Wharf, and the access road to the wharf.
4. All marked carparks at the southern end of Queen Street in the vicinity of Te Onewa (Northcote) Wharf.
5. All marked carparks within the road corridor of College Road between Kilham Ave and Ernie Mays St, that form part of the wider south-western Northcote Town Centre carpark.
6. All marked carparks at the Rawene Road carpark, Birkenhead.
7. All carparks at the carpark behind the Sunnyhaven Ave shops that services the shops and Opaketai Beach Haven Gardens.
8. All formed carparks designed to service neighbourhood shops and businesses, including (but not limited to):
  - Birkdale Rd shops,
  - Chartwell Rd shops,
  - Chivalry Rd/Diana Rd shops,
  - Glenfield Rd/Wairau Rd shops (portion of carpark),
  - Levesque Rd shops,
  - Manuka Rd shops,
  - Moore St shops,
  - Pupuke Rd shops,
  - Rangatira Rd/ Lysander Cr shops,
  - 71 Roseberry Ave,
  - Salisbury Rd shops,
  - Sunnybrae Rd shops,
  - View Rd (western end) shops,
  - View Rd (eastern end)/Wairau Rd shops (portion of carpark).
9. All slip roads within the road corridor that provide access to private properties, whether they are parallel to roads (for example on Glenfield Road) or across corners/intersections (for example corner of Sunset Rd/Target Rd; corner Mokoia Rd/Colonial Rd).
10. All carparks servicing community centres/houses, libraries and leisure centres that are on parcels of land held under the Local Government Act, (but not limited to):
  - Active Zone carpark (Lot 1 DP 94804);
  - Bayview Community Centre (Lot 2 DP 79494);
  - Birkdale Community Hall (Part Lot 55 DP 1675);
  - Glenfield Leisure Centre (Lot 11 DP 65017, Lot 11 DP 65017, Lot 11 DP 65017, Lot 11 DP 65017, Lot 11 DP 65017);
  - Glenfield Library (Part Lot 2 DP 49045, Part Lot 3 DP 49045, Part Lot 4 DP 49045, Part Lot 5 DP 49045);
  - Highbury House (Pt Lot 12 Blk I DP 804, Lot 13 Blk I DP 804);

- Kaipatiki Community Facilities Trust (Lot 151 DP 49752);
- NorthArt (Allot 651 Psh of Takapuna);
- Northcote Library (Allot 652 Psh of Takapuna, Lot 1 DP 92328).

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

We are NZMCA members and have a fully compliant and certified vehicle

However many backpackers and others have non compliant and non certified vehicles which they just print off and stick on their vehicle

In order for an enforcement officer to check if the sticker is genuine it should be able to be electronically checked by being part of the vehicle road license sticker issued by NZTA which of course needs a current WOF/COF TO comply

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:** If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):** Freedom camping is becoming a synonym for freeloading, where people are choosing to live in vehicles long term not because they can't afford rent or have no jobs but because they can live on a beachfront free of charge without having to pay for the infrastructure they use - roads, toilets, beach reserves, beach maintenance, water quality monitoring, rubbish pick up, stormwater, and water - not to mention the other services provided by ratepayers and the Councils they support. So yes, freedom camping needs restrictions, not invitations. Is it some basic human right to camp anywhere you want? Not anywhere else in the world - try camping on the village reserve somewhere in Spain or Japan! Yet we found Te Araroa walkers to name just one group, blatantly camping in the middle of our village or in our park endlessly due to the 2011 legislation. Why can't they support local businesses providing accommodation or use the local campground? Because they don't want to spend any money at all. The average Te Araroa spends \$8 a day in NZ, much like freedom campers who choose to stay in their vehicles for free rather than support local hotels and motels.

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space. Another reason (please explain)

**Another reason (please explain):** A one night stay discourages the current abuse of areas where freedom camping is permitted. Even where it is banned we still took over one year to make a bus move out of our Council reserve, and it moved only 6 km. So if there is a general rule that only one night, it gives local people support to remind freedom campers if they overstay.

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, If freedom camping starts to cause problems somewhere, this is better managed by putting extra rest

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Our local experience with freedom camping, both with vehicles and without, has been overwhelmingly negative and reinforces that most people freedom camping are not doing so because they are poor, but because they choose not to pay. The freedom camping mentality is to make use of what is available and move on, with never a thought to contribute in any way. They walk right past volunteers working, add their rubbish to overfull bins when they could carry it away, and love to congregate in ever increasing numbers to party, which is becoming a containment issue.

On another level, freedom campers in self contained vehicles are contributing hugely to our loss of wild and isolated places, as they seek out these spots to park up for weeks at a time. Using social media to share their experiences encourages ever increasing numbers to go to one place, reducing the ability of local people or other visitors to enjoy the place because they can't get a park, or because they are seeking out just the isolation and solitude that freedom campers are destroying.

When did freedom camping become a national right and what was the purpose? There is a great policy paper by our late National government laying out the need to educate New Zealanders as to the great economic value of freedom camping and that this form of tourism was to be encouraged in order to generate GST for government coffers. Yet these great profits, which are totally disputable, go not to our government, local or national, but to a handful of firms specializing in overpriced rentals of self contained vehicles, putting eateries and accommodation providers out of business. These vehicles don't spend money in small towns, they drive right through them to the freedom camp the Council was forced to provide 2 km away. Freedom camping is a plague and I support any restrictions that Auckland Council wishes to introduce and the creation of an effective and fulltime enforcement agency to ensure that thee bylaws are followed. We might then have an answer to the gangs colonizing our suburban beaches during and after our lockdowns. Move them on, they come back in a week.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, Having a set departure time will help with enforcing the maximum stay rule

**Is this because, in your view:**

**Another reason (please explain):**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** It is not necessary to impose basic rules on freedom campers everywhere in Auckland

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The kind of vehicle used for freedom camping in Auckland should be a personal choice, Using a vehicle that is not self-contained does not pose a risk to the environment or public health and safety, The cost of buying, hiring, or converting to a self-contained vehicle is too high, and that could mean some people can't afford to freedom camp in Auckland

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay for an indefinite period in the same road or off-road parking area (no maximum stay rule)

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles should be allowed to come back to stay in the same area after dumping their waste responsibly, it is not necessary to prevent their return through this rule, No maximum stay gives campers the best opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

**Is this because, in your view:** Campers should have the right to come back to favourite places during their trip. Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

Self containment certificates should have the vehicle registration on the cert so they can not be just printed and purchased on the internet which is what is happening at the moment ,and toilets in these vehicles should have to be permanently mounted not just there for show under the bed.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

[Do you have any other comments on the general rules?](#)

There should be large designated areas not small beaches as they take up too much room and prevent families going to the beach and also erode the banks at local beaches. In my experience most leave rubbish.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, It is not necessary to impose basic rules on freedom campers everywhere in Auckland

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Put in infrastructure for freedom camping in most used popular areas , ie toilets , showers in some areas , and LARGE refuge bins that are emptied WHEN FILLED not left to overflow .

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule? No – I support another maximum stay rule (please explain)**

**No – I support another maximum stay rule (please explain):** 3 days every 7 days , not more than 2 times every 30 days .

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

### Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping. Another reason (please explain)

**Another reason (please explain):** The streets of Auckland are crowded and parking often difficult without allowing Freedom Camping .

I live in a neighbourhood which specifies on our own property titles 'no long term parking of caravans or campervans', to prevent the unsightliness of camper vehicles in the neighbourhood.

This mass freedom on Auckland roads unless specified as regulated is awful, as it does not cover coastal areas which in turn will disavail flexible and available parking for visiting public.

Every kerb! Outside every house! As well as undercatered day parking at reserves and on coastal land! Ridiculous.

Freedom camping is not for cities and environs.

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays. Another reason (please explain)

**Another reason (please explain):** The freedom to move within a 500m area and park again is again outrageous!

Within a 20km radius maybe.

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Requiring campers to leave at 8am, before standard business hours begin, protects access to shared parking or other amenities for other users – which is more of a priority than campers' convenience

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

In truth I do support the general rules, but only as they would be applied to specified areas within a City. 1 night 8am departure, 20km distance between nightly parks and no return within 6 months minimum. No idea how you would ever patrol this.. but equally no idea why you would ever permit the extensive availability.

I do not support Freedom Camping on ever available kerb and park other than those few 'reserves' noted in the proposal. I think this will cause enormous disturbance in areas where the populace pays high rates to the Council to maintain standards of living which don't allow unsightly freedom camping. When I camp I am quite satisfied to support and utilise the facilities of the camps and reserves available.

Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Albert-Eden Local Board area

### Prohibited site

**Heron Park 1625-1627 Great North Road, Waterview, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** These prohibitions are too localised! These are crowded town dwelling areas with few recreation areas, fewer car parks and appalling public transport options! This does not provide for campers to support camp ground providers, or accommodation providers in the city.

## Aotea/Great Barrier Local Board area

### Prohibited sites

**Blind Bay (parking area by wharf) Opposite 670 Blind Bay Road, Great Barrier Island, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** As above .. insufficient coverage by restricted area.

**Goosebury Flat, Shoal Bay Opposite 418 Shoal Bay Road, Great Barrier Island, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** As above .. insufficient coverage over restricted area.

**Medlands Beach carpark Sandhills Road, Great Barrier Island, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** As above .. insufficient coverage over restricted area.

**Old Service Centre 75-81 Hector Sanderson Road, Great Barrier Island, do you agree that freedom camping should be prohibited in this area? Yes**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Submitter details

---

Your local board: Rodney

---

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

#### Do you not support having general rules because, in your view: Another reason (please explain)

**Another reason (please explain):** The option of 'It is not necessary to impose basic rules on freedom campers' is a biased way of wording it and shows the council has already decided what they are going to do. The question is about having general rules so should be worded as such. The change to basic rules implies that you are not asking much and shouldn't be questioned.

My view is I know a lot of freedom campers and do a bit myself. Just because someone doesn't have a self contained vehicle does not mean that they will cause harm to the environment. By taking away the option to sleep in a vehicle that is not self contained you are taking more freedom away from New Zealanders - particularly ones that are not wealthy enough to own a self contained vehicle. Everyone should have the opportunity to travel around our own country in an affordable way.

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

### How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

### How do you think the general rules will unfairly impact some people?

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The kind of vehicle used for freedom camping in Auckland should be a personal choice, Using a vehicle that is not self-contained does not pose a risk to the environment or public health and safety, The cost of buying, hiring, or converting to a self-contained vehicle is too high, and that could mean some people can't afford to freedom camp in Auckland

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** A two-night stay gives campers more opportunity to enjoy the area and support local businesses, Shorter stays are already the norm for most freedom campers, so a stricter rule is not necessary, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities. Another reason (please explain)

**Another reason (please explain):** I support the two day max rule however putting a departure time doesn't make a lot of sense. How can you put more value on someone else using that park than the freedom camper staying those extra few hours who as you have mentioned - could be spending money at local businesses. Being too strict and unreasonable is not good for tourism and is also not very Kiwi. As you have also mentioned, areas that require the space during peak traffic are already restricted.

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities. Another reason (please explain)

**Another reason (please explain):** I support the two day max rule however putting a departure time doesn't make a lot of sense. How can you put more value on someone else using that park than the freedom camper staying those extra few hours who as you have mentioned - could be spending money at local businesses. Being too strict and unreasonable is not good for tourism and is also not very Kiwi. As you have also mentioned, areas that require the space during peak traffic are already restricted.

**Is this because, in your view:** Campers should have the right to come back to favourite places during their trip, A no-return period is not necessary: most campers don't return to the same place, If freedom camping starts to cause problems somewhere, this is better managed by putting reNot setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities. Another reason (please explain)

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Freedom campers should be given warnings before being fined. Our country has so many mixed freedom camping rules and restrictions that it is becoming incredibly confusing and hard to manage. There should be more compassion. Look at queenstown as a prime example - you basically can't stay there anymore if you are wanting to freedom camp (or even park!) so heaps of people just bypass it now which is a loss to the local businesses. Most freedom campers are good people who are responsible and do the right thing. We shouldn't be penalizing everyone because of a few people's poor choices. Do we stop people from driving on our roads because there are a few that are irresponsible and cause harm to people and the environment? No.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

Do you support having general rules because, in your view:

Another reason (please explain):

Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

## Do you have any other comments on the general rules?

This debate goes on and on and the days of freedom camping in my opinion are over in today's world. We have campgrounds. The system proposed relies on people doing the right thing and unfortunately many don't. And if there are so many rules people generally like to break them unless there are systems of enforcement and fines. We'll be having this debate again next year and forever

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

**Do you not support having general rules because, in your view:** It is not necessary to impose basic rules on freedom campers everywhere in Auckland

Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule? No – I support another maximum stay rule (please explain)**

**No – I support another maximum stay rule (please explain):** 3 days is better

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule? No – freedom campers should not have to leave by a set time (no set departure time rule)**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** Having a shorter no-return period means campers would be able to return to a favourite place if they wanted to, as part of a longer trip

**Another reason (please explain):**

**Is this because, in your view:** It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

**Is this because, in your view:** It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this, Having a set departure time will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a shorter no-return period means campers would be able to return to a favourite place if they wa

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I would like to see a formal warning for a first time offence as sometimes mistakes are made when arriving in a new spot, after dark.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this, Having a set departure time will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a shorter no-return period means campers would be able to return to a favourite place if they wa

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, Having a set departure time will help with enforcing the maximum stay rule

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a shorter no-return period means campers would be able to return to a favourite place if they wa

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

Do you have any other comments on the general rules?

Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I don't know

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste. A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities. A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

To whom it may concern:

As residents of the Omaha Spit, we totally oppose the concept of 'freedom camping' at the Omaha Spit. The area is totally unsuitable for this kind of activity. We do not oppose having camper vans visit the area for a short day stay but overnight stays are not appropriate. There is a camper van park a few kilometres away that should be developed further to provide toilets, laundry facilities, effluent disposal facilities and run on a commercial basis (as happens in other parts of the world).

The Omaha Spit is a residential area where the entire infrastructure was paid for by residents. It is inequitable that 'freedom campers' are able to avail themselves of those assets that are already at a premium without contributing to the cost of that infrastructure. Security and Community services are paid for by the residents. The Auckland Council, in the 28 years we have lived here, has been woeful in enforcing its bylaws (dogs on the beach, etc) and it is likely that 'freedom camping' rules will not be enforced either. (So who will?).

Then there is the matter of rubbish disposal. No one can guarantee that there won't be rubbish left after a 'freedom camper' has departed. Ditto, the maintenance of the limited number of public waste bins.

The Omaha Spit, by its nature as a residential area, has very limited parking that is at a premium in the peak seasons. To say that 'freedom campers' can park at or near the boat launching ramp is a ludicrous idea because, as was shown recently, the boating fraternity (many coming from miles away) clogs the parking areas for up to 1500metres away.

We believe that the Omaha Spit must be designated a no-Freedom Camper area in preference of a properly developed camper van park at the nearby Matakana Farm Park on Omaha Flats Road (enhancing the existing camper van park already located there).

Thank you for this opportunity.

Yours faithfully

ROBERT ROY BUCKETT FEng. NZ

Retired Chartered Professional Engineer

Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, If freedom camping starts to cause problems somewhere, this is better managed by putting extra rest

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

Do you not support having general rules because, in your view: Another reason (please explain)

Another reason (please explain): Why are the options saying freedom camping problem.

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, Shorter stays are already the norm for most freedom campers, so a stricter rule is not necessary

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? No – I support another no-return period rule (please explain)**

**No – I support another no-return period rule (please explain):** 3 days is reasonable and what we used when travelling around Australia last year

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

There is not enough freedom camping areas in akld. Departure time of 09:00 is too early 10:00 is reasonable

## Hibiscus & Bays Local Board area

### Prohibited sites

**Metro Park (East) 218 Millwater Parkway, Silverdale, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed subject to the general rules

**Tell us why and any other comments you would like to make about this area?** There is not enough freedom camping areas in akld.

### Restricted sites

**Gulf Harbour Marina, Hammerhead Reserve 40 Gulf Harbour Drive, Guld Harbour. Do you agree that freedom camping should be restricted in this area?** No – freedom camping should be allowed without any restrictions

**Which of the proposed restrictions for this area would you want to change at Gulf Harbour Marina?**  
Maximum number of vehicles, Departure time

**What do you think is the appropriate maximum number of vehicles allowed at this site?** There shouldn't be a maximum number

**Other (please specify):**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this, Having a set departure time will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, Although council has not identified any serviced areas in this proposal, I am aware of serviced areas on public land which should be included, Although no serviced areas have been identified in this proposal, providing sites suitable for non-self-contained vehicles should be a priority for council, It makes sense to match our self-containment requirements to the National Standard, It would be too hard to enforce the self-containment rule without referencing the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Omaha should clearly be a prohibited area. People use their bach to relax, not to have their parking place taken by a camper, not to be kept up at night or woken in the morning by campers (particularly when people have young children) , not to have the merge toilet facilities taken up by campers, not to have their outside water taps and showers used by campers when the bach owners are on valuable tank water (remember bach owners are not resident for most days in the year), it would provide substantial difficulties in excluding campers from the community/golf club bathrooms. Campers often visiting Omaha for the only time do not understand the set up at Omaha and have no interest in abiding by any general rules. Example, they ask where a tap is and when they are told there are no public taps they simply stop by a property and use a tap. Campers will use what ever facilities they can find rather than use their own facilities in their van for obvious reasons.

The Council simply do not have the manpower or the money to enforce the rules and even if the campers are charged, they are likely to leave the country before they can be convicted and/or pay the fine.

The Council cannot even enforce existing bylaws regarding dogs on the beach which are a substantial risk to children. I see this openly flouted on most visits to the beach.

The Auckland rates are already excessive and it is the ratepayer who will have to pay for putting the rules into effect and enforcing the same.

There are numerous loopholes the campers can explore such as they were resting see the recent Tasman DC case.

If the Council see any advantage in having Campers in Auckland, then they need to provide more designated sites with facilities.

Having any freedom camping makes it difficult for private campgrounds to maintain customers throughout the year. Closing private campgrounds will put even more pressure on places where campers would like to camp but should not.

The last thing you want when you are at home in Auckland or at a bach is to have an argument with a freedom camper outside your property .

There should be absolutely no freedom camping in Auckland.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this. Another reason (please explain)

**Another reason (please explain):** Once again, I support limits for Freedom campers but ask for leeway for those who are legitimately living and working.

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Campers should have the right to come back to favourite places during their trip

**Another reason (please explain):**

## Do you have any other comments on the general rules?

I am not only thinking of freedom campers. For a time I lived in my (self contained) vehicle while working (also variable shifts) away from home and had to find suitable places to park, so I appreciated places I could go where I felt safe, where were basic facilities, where I felt I would not be bullied to move and where I was not so far from my job that it would be difficult. I met others also in the same position. I believe some measure of thought needs to be given to these people.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Requiring campers to leave at 8am, before standard business hours begin, protects access to shared parking or other amenities for other users – which is more of a priority than campers' convenience, Having a set departure time will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule? No – freedom campers should have to vacate their parking space by 10am on the day of departure**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Commercially hired or rented campervans should only be permitted if the hirer has a master licence with Council in the same manner as we have with e-scooter licensing so Council can enforce rules against the operator instead of chasing individuals all over the world after poor compliance.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** It makes sense to match our self-containment requirements to the National Standard, It would be too hard to enforce the self-containment rule without referencing the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses, Shorter stays are already the norm for most freedom campers, so a stricter rule is not necessary

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

I agree with rules about self containment where toilets are not provided. I think there should be more freedom camping sites with facilities. I agree with a maximum stay - maybe 3 nights is more reasonable and 10am for departure.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

Most NZ freedom campers are responsible people who care about the environment and leave the place as they found it. I agree with measures to stop the few who do not respect the site and the privilege but please do not punish the many for the offences of the few. Thank you.

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed subject to the general rules

**Tell us why and any other comments you would like to make about this area?** Waiheke is becoming priced out for many Aucklanders. I was a resident there for 25 years until I lost my home in a divorce. I would like to be able to camp there - the only way I can now afford to go there. The island used to welcome the less fortunate and those on low incomes. Freedom camping offers a way to continue this and as many sites as possible should be provided.

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed subject to the general rules

**Tell us why and any other comments you would like to make about this area?** Waiheke is becoming priced out for many Aucklanders. I was a resident there for 25 years until I lost my home in a divorce. I would like to be able to camp there - the only way I can now afford to go there. The island used to welcome the less fortunate and those on low incomes. Freedom camping offers a way to continue this and as many sites as possible should be provided.

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed subject to the general rules

**Tell us why and any other comments you would like to make about this area?** Waiheke is becoming priced out for many Aucklanders. I was a resident there for 25 years until I lost my home in a divorce. I would like to be able to camp there - the only way I can now afford to go there. The island used to welcome the less fortunate and those on low incomes. Freedom camping offers a way to continue this and as many sites as possible should be provided.

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed with area specific restrictions

**Tell us why and any other comments you would like to make about this area?** I think this area should offer freedom camping in Alison Park but not in the car parks by the library. It can be difficult to get a park there which is a problem for elderly and disabled people or mothers with children trying to access the library and other amenities.

## Waitākere Ranges Local Board area

### Prohibited sites

**Entrance of Goldie Bush walkway Horseman Road, Waitākere, do you agree that freedom camping should be prohibited in this area?**

**Sandys Parade, Laingholm Bay, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a shorter no-return period means campers would be able to return to a favourite place if they wa

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Two comments:

1. I believe that Buckleton Road in Rodney should be a prohibited area. Buckleton Rd is a small and narrow road adjacent to the Buckleton Beach Reserve. It is the only flat road in the community (the access Rd, Whitmore Road, is steep and therefore not suitable for freedom camping). Buckleton Road becomes congested over summer, and there are many children in the Bay. I believe that our children's Health and Safety is at risk by allowing freedom camping on Buckleton Road.

2. I am most concerned about the ability of Auckland Council to provide staffing to respond to freedom camping issues at Buckleton Beach. There is a clear and obvious risk that freedom campers will attempt to camp on the Buckleton Reserve (which is illegal). Our community is 45 minutes drive from council's Orewa base. This distance makes effective policing of council's freedom camping bylaw very difficult. Other beaches in our area - including Omaha - will have the same issue. I believe that council should employ a dedicated 'Matakana Beach area' officer over the summer months in order for freedom camping issues to be dealt with quickly and efficiently.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, Shorter stays are already the norm for most freedom campers, so a stricter rule is not necessary

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule, Having a set departure time will help with enforcing the maximum stay rule

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrict

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** By allowing ratepayers in each ward to vote whether freedom campers would be allowed into their ward.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** By making it compulsory for all camper vans to have satellite tracking units fitted in them so that it can be seen where each vehicle has parked with heavy fines being imposed on the freedom campers who break the rules (i.e. confiscation & crushing of vans).

### How do you think the general rules will unfairly impact some people?

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule? No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays. A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Do you have any other comments on the general rules?

Campers do not support local business/shops near the area of natural beauty where they want to stay, rather they will buy at the largest supermarket near to where they come from as very large city supermarket costs will always be cheaper than small shops in a rural/out of town area.

### Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

This bylaw heavily favours campers over ratepayers who live in the area, pay big rates and have to suffer having their local facilities over used by people who don't pay (i.e. the campers) and who with their camper vans block up local roads.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay gives campers more opportunity to enjoy the area and support local businesses, Shorter stays are already the norm for most freedom campers, so a stricter rule is not necessary

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** Having a shorter no-return period means campers would be able to return to a favourite place if they wanted to, as part of a longer trip, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in t

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

Helensville - Helensville Civic Centre Grounds 49 Commercial Road, Helensville, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Huapai - Huapai Service Centre/Kumeu Library 24 Oraha Road, Huapai, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Waimauku - Waimauku War Memorial Hall 22 Waimauku Station Road, Waimauku, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Leigh - Leigh Library and grounds 15 Cumberland Street, Leigh, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Ti Point - Ti Point walkway Ti Point Road, Ti Point, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Pakiri - Pakiri Hall grounds 1026 Pakiri Road, Pakiri, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Warkworth - Warkworth Town Hall grounds 2 Alnwick Street, Warkworth D, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

### Restricted sites

Port Albert - Port Albert Wharf Reserve carpark Adjacent to Wharf Road, Port Albert. Do you agree that freedom camping should be restricted in this area?

Which of the proposed restrictions for this area would you want to change at Port Albert Wharf?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area?

**Snells Beach - Whisper Cove (adjacent parking on road reserve) 70 Kokihi Lane, Snells Beach. Do you agree that freedom camping should be restricted in this area? Yes – restricted freedom camping should be allowed, and I support the proposed restrictions**

Which of the proposed restrictions for this area would you want to change at Whisper Cove?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

**Do you have any other comments you would like to make about this area?** I am very surprised the existing permitted but restricted areas at Sunburst Ave and Snells Beach Road carpark have not been included in the permitted areas. As a resident in Sunburst Ave We appreciate the campers presence in the carpark as it assists with moderating bad night time behaviour by zealous youths. The balance with the 5 presently allowed fits well.

**Warkworth - 8 Church Hill carpark, Warkworth. Do you agree that freedom camping should be restricted in this area?**

**Which of the proposed restrictions for this area would you want to change at Church Hill?**

[Do you have any other comments on the general rules?](#)

The restricted areas must be limited as much as possible. You guys love rules and enforcement for its own sake. We don't want to end up with no unrestricted areas, or the nice parts of Auckland all blocked off. Leave some interesting places unrestricted.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Keep the restricted areas to a minimum. I agree that you need some, but the number is excessive. What is wrong with Huapai library for example?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should be self-contained, but they shouldn't have to be certified

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment and/or public health and safety, but vehicle owners should decide what makes a vehicle 'self-contained', The cost of buying, hiring, or converting to a certified self-contained vehicle is too high, and that could mean some people can't afford to freedom camp in Auckland

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay for an indefinite period in the same road or off-road parking area (no maximum stay rule)

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles should be allowed to come back to stay in the same area after dumping their waste responsibly, it is not necessary to prevent their return through this rule, No maximum stay gives campers the best opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses

**Another reason (please explain):**

**Is this because, in your view:** Campers should have the right to come back to favourite places during their trip. Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses

**Another reason (please explain):**

Do you have any other comments on the general rules?

Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** It is not necessary to impose basic rules on freedom campers everywhere in Auckland

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Without general rules, there is a risk that any problems caused by freedom camping could move from regulated areas to unregulated areas nearby, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be avail

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should be self-contained, but they shouldn't have to be certified

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, and council has not identified any serviced areas in this proposal

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should be self-contained, but they shouldn't have to be certified

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment and/or public health and safety, but vehicle owners should decide what makes a vehicle 'self-contained'. Another reason (please explain)

**Another reason (please explain):** I have a Jeep with a roof top tent. I am a very responsible a conscientious camper. I never leave any waste behind, often taking other people's waste with me, but I would be unlikely to be certified as self-contained.

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:** It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):** support independent campgrounds to provide no frills services and contain this issue. Can u imagine how someone who has to go through all the hurdles of consent for a campground feels about council allowing folks to camp free in the area and use council (read ratepayer) funded facilities while the campground goes broke?

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** It makes sense to match our self-containment requirements to the National Standard, It would be too hard to enforce the self-containment rule without referencing the National Standard. Another reason (please explain)

**Another reason (please explain):** Who certifies it??? Can't get the MBIE dos, it won't download...u can already buy a fake sticker online so how will it be authenticated?

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

#527

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Establish designated freedom camping parks that freedom campers can use rather than any public street or parking area...having designated freedom camping parks will ensure (i) residential streets don't get overused / blocked by freedom campers taking away from the use of the street, and especially parking, utilized by residential residence and (ii) that residential streets, residential berms and open residential sections adjacent to residential streets are not used as toilets and places to dump refuse...which I have seen happening

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Do not permit use of unregulated area's...instead set up designated freedom camping parks complete with public toilets and rubbish bins

**How do you think the general rules will unfairly impact some people?** They will affect residential owners (i) who would otherwise use roads outside of their properties for parking and (ii) who have to clean up sanitary waste and rubbish from the street, berm and their own properties

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** Because there is no real capability to monitor and enforce the self-containment rule, I advocate for designated freedom camping parks where services are available so self containment is not a requirement and therefore does not need to be monitored and enforced...use of technology that licenses a vehicle, together with a phone app, could those vehicles access to designated freedom camping parks meaning monitoring and enforcement would not be required.

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** Because there is no real capability to monitor and enforce the maximum -stay rule on public streets and parking area's, I advocate for designated freedom camping parks where it is more feasible for designated officials to monitor and enforced maximun-stay

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** Because there is no real capability to monitor and enforce the set-departure-time rule, I advocate for designated freedom camping parks where it is more feasible to monitor and enforced set-departure-times...use of technology that licenses a vehicle for a

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** Because there is no real capability to monitor and enforce the no-return-period rule, I advocate for designated freedom camping parks where it is more feasible to monitor and enforced non-return-period limits...use of technology that licenses a vehicle for a period of time via a phone app and a localized beacon could be used to limit access to designated freedom camping parks.

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Setting up designated freedom camping parks and using technology such as vehicle-transmitters and/or phone apps that grant licensed access to the freedom camping sites and facilities and also automatically monitors and manages maximum--stay, set-departure and no-return rules would provide an optimal solution for residence in ensuring their streets and properties are retained for their quiet enjoyment while providing freedom campers with certainty around places to stay, facilities and access to a community of like-minded travelers.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Monitoring and enforcement, to be effective, needs to be maintained at high levels across all locations freedom campers could utilize...this is just not possible given the wide domain freedom campers will have access to...to make this feasible (i) limit the areas freedom campers have access to by setting up designated freedom camping parks complete with essential facilities such as freshwater, toilets and rubbish bins and (ii) use technology such as vehicle transmitters and/or phone apps that grant licenses to access, stay and use facilities at designated freedom camping sites which would be fitted out with beacons and gates...(iii) vehicles could be fitted with transmitters via VTNZ and/or approved providers or phone apps could be made available via NZTA...NZTA could also be responsible form monitoring and enforcement using the facilities they have in place for billing and collecting tolls.

## Rodney Local Board area

### Prohibited sites

**Helensville - Helensville Civic Centre Grounds 49 Commercial Road, Helensville, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Huapai - Huapai Service Centre/Kumeu Library 24 Oraha Road, Huapai, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Waimauku - Waimauku War Memorial Hall 22 Waimauku Station Road, Waimauku, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Leigh - Leigh Library and grounds 15 Cumberland Street, Leigh, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** I would also advocate than all of the suburban streets be prohibited from freedom camping...(i) there are many streets where roadsides are used by residence for their own parking, especially in Omaha, (ii) these areas do not have access to town supply fresh water and sewerage systems

and the limited number of public facilities that do provide access to tank water for drinking / washing and toilets with inground septic tank systems will be over utilized and (iii) nesting native birds and sea life in the area will be at risk of being disturbed / killed as freedom campers will not appreciate / respect the wild life as much as local residence, especially dotterels in the Omaha dunes...there is also an abundance of council land throughout Rodney that could be turned into designated freedom camping sites i.e. Matheson Bay Reserve.

**Ti Point - Ti Point walkway Ti Point Road, Ti Point, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?** I would also advocate than all of the suburban streets be prohibited from freedom camping...(i) there are many streets where roadsides are used by residence for their own parking, especially in Omaha, (ii) these areas do not have access to town supply fresh water and sewerage systems

and the limited number of public facilities that do provide access to tank water for drinking / washing and toilets with inground septic tank systems will be over utilized and (iii) nesting native birds and sea life in the area will be at risk of being disturbed / killed as freedom campers will not appreciate / respect the wild life as much as local residence, especially dotterels in the Omaha dunes...there is also an abundance of council land throughout Rodney that could be turned into designated freedom camping sites i.e. Matheson Bay Reserve.

**Pakiri - Pakiri Hall grounds 1026 Pakiri Road, Pakiri, do you agree that freedom camping should be prohibited in this area? Yes**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Without general rules, there is a risk that any problems caused by freedom camping could move from regulated areas to unregulated areas nearby, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be avail

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, It would be too hard to enforce the self-containment rule without referencing the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a shorter no-return period means campers would be able to return to a favourite place if they wa

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Requiring campers to leave at 8am, before standard business hours begin, protects access to shared parking or other amenities for other users – which is more of a priority than campers' convenience

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

Signage must be installed to limit roadside camping in historically narrow rural access ways especially those without footpaths. An example is at the Takatu peninsula and in particular small bays en route eg Campbells beach

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

Prohibitory Signage must be installed to limit roadside camping in historically narrow rural access ways especially those without footpaths. An example is at the Takatu peninsula and in particular small bays en route eg Campbells beach

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Without general rules, there is a risk that any problems caused by freedom camping could move from regulated areas to unregulated areas nearby

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

I feel that Freedom Camping is fine is Self contained but I would like to suggest that Council consider increasing Parking Areas for these vehicles in spaces that do not infringe on others lifestyle or local activities. Beach Fronts and roadsides are for all not just campers.

In our area the roads are far too narrow and hazardous as we have no Kerb/footpath and channelling or walk ways that do not infringe on the road traffic. I would like to see the Road side at Campbells Bay and the Roadside at Baddeleys put aside from the general rule preventing parking including Baddeleys Beach rd, Clifton Road, Campbells Beach Rd, Kookabura Place and Pigeon Place.

Policing of such bylaws is very fragmented and as such parking can cause difficulty for rescue and leisure vehicle.

The new bylaws should include legislation about width of roads and areas and be more defined.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

Council should not make decisions that affect locals without Consultation. we the Taxpayers and Ratepayers have rights to determine what assets and/or structural changes should be made to ownership of Parks Reserves and Roadways, waterways and Beach Access.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste. A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities. If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, If freedom camping starts to cause problems somewhere, this is better managed by putting extra rest

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a shorter no-return period means campers would be able to return to a favourite place if they wa

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

For these rules to work Council needs to staff appropriately to police the freedom camping areas and alerts from citizens when the rules are not being complied with.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** Having a set departure time will help with enforcing the maximum stay rule

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a shorter no-return period means campers would be able to return to a favourite place if they wa

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Rodney Local Board area

### Prohibited sites

**Helensville - Helensville Civic Centre Grounds 49 Commercial Road, Helensville, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Huapai - Huapai Service Centre/Kumeu Library 24 Oraha Road, Huapai, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Waimauku - Waimauku War Memorial Hall 22 Waimauku Station Road, Waimauku, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Leigh - Leigh Library and grounds 15 Cumberland Street, Leigh, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Ti Point - Ti Point walkway Ti Point Road, Ti Point, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Pakiri - Pakiri Hall grounds 1026 Pakiri Road, Pakiri, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Warkworth - Warkworth Town Hall grounds 2 Alnwick Street, Warkworth D, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

### Restricted sites

**Port Albert - Port Albert Wharf Reserve carpark Adjacent to Wharf Road, Port Albert. Do you agree that freedom camping should be restricted in this area?** Yes – restricted freedom camping should be allowed, but with different restrictions

**Which of the proposed restrictions for this area would you want to change at Port Albert Wharf?**  
Proposed location of freedom camping parking spaces within this area

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?** The current proposed area for freedom camping encloses the only area that is suitable for boat trailer parking. This is the bottom half of the orange shaded area used to indicate where restricted parking should be, and is the only space that has sufficient room for the maneuvering of long vehicles with trailers. The wharf and boat ramps are used primarily for boating, and therefore it would be completely wrong to remove the only area where boat trailers are able to park. In summertime there are already issues with boaties being unable to park in this space due to camper van overcrowding, leading to trailers being parked on the grass causing damage. Therefore the area I have identified should be designated as trailer parking only, with camper parking to be designated further north of that area where the turning space is more limited

**Do you have any other comments you would like to make about this area?**

**Snells Beach - Whisper Cove (adjacent parking on road reserve) 70 Kokihi Lane, Snells Beach. Do you agree that freedom camping should be restricted in this area?**

**Which of the proposed restrictions for this area would you want to change at Whisper Cove?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people. Another reason (please explain)

**Another reason (please explain):** The Rules that no account of Traffic Safety. In some areas allowing campers to park on the roadside with large campervans would be a major safety hazard. Have you consulted with the Police and have you inspected every street and road to ensure Traffic Safety would not be compromised. if not do so now.

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** One size doesnt fit all. Use some common sense.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** One size doesnt fit all. Use some common sense.

**How do you think the general rules will unfairly impact some people?** One size doesnt fit all. use some common sense.

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store

water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

Again one size doesn't fit all. Use some common sense and apply according to the circumstances. A roads and streets are not the same width therefore not all have the capacity to safely accommodate camping vehicles. It should not be about making it easy for the Council to make a bye-law. It should be about good governance.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

How are you going to ensure compliance. You are incapable of ensuring compliance at the Campbells and Baddeleys Beach Reserves now. Camper breach the bye-law knowing you lack the capacity and capability to enforce your own bye-laws.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Another reason (please explain)

**Another reason (please explain):** I agree with the rules but you need to have more freedom camping areas available/ designated in Auckland so you dont have campers in SCC camping legally at the moment you on advertise on your web site gulf harbour and snells beach and tui glen in henderson and yes some out south but nothing in the greater auckland area. that is safe to stay

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste. A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities. A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule, It would be too hard to enforce a set departure time rule

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule, It would be too hard to enforce a set departure time rule

**Another reason (please explain):**

**Is this because, in your view:** Campers should have the right to come back to favourite places during their trip, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule, It wouldNot setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule, It would be too hard to enforce a set departure time rule

**Another reason (please explain):**

## Do you have any other comments on the general rules?

I have a SCC and I dont like doing the wrong thing I would like to know where I can stay safe and I am not going to be moved on or fined We live in Auckland and it would be nice to know there are places we can go and stay overnight so we dont have to travel far just to have a break away for the weekend or a night (so we dont get caught in all the traffic on a friday night or a sunday night coming home more places like Gulfharbour would be great. Every SCC I have uncouncted respect the environment and clean up after them selfs it is the people who come for the day make most of the mess

thanks

Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### [Do you have any other comments on the general rules?](#)

Self containment can be pretty arbitrary. Better to have sites with access to public toilets, otherwise vehicles should leave no trace.

### [Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

For many sites the number of vehicles overnighing is small - provision should be made to enable more to stay overnights & leave by say 8 or 9am, so daytime use is available.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Freedom camping should be restricted to roads and streets that have marked parking spaces or to car parks. Otherwise they can park on narrow roads restricting pedestrian and vehicular movement. this particularly dangerous on roads where there is no footpaths

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

For or the by law to be effective it will need prompt enforcement. It is no use if the enforcement officials don't respond promptly to complaints as the offenders will have moved on and will soon learn that they can ignore the by law with impunity.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Most people have no idea what is a "Reserve" and what is a roadside. I think that the provision of freedom camping in some reserves should be allowed but the rules all need to be in one easily understood place. Here we have a reserve which is perfect for freedom camping and is only used for dog walking, but now people aren't allowed to camp there. A real case of the NIMBY attitude. Those of us lucky enough to own beach property should make provision for other people to also share the beachfront.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):** I believe freedom campers also have rights and I've seen many examples of residents being unreasonable and unwilling to share what they believe to be 'their' own areas with outsiders

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Without general rules, there is a risk that any problems caused by freedom camping could move from regulated areas to unregulated areas nearby, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle. It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule? No – freedom campers should not have to leave by a set time (no set departure time rule)**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** if its a public location then why are they not to be permitted normal daytime usage, if they have had their two nights, then as long as they are gone by nightfall there isnt a real issue, they have as much right to regular day time usage as the rest of us.

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** if its a public location then why are they not to be permitted normal daytime usage, if they have had their two nights, then as long as they are gone by nightfall there isnt a real issue, they have as much right to regular day time usage as the rest of us.

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):**

## Do you have any other comments on the general rules?

How are you planning on allowing daytime only usage, ie someone using their camper as regular transport and perhaps parking up near their workplace for the day...or even a nightshift. There is alot of ignorance on the usage of these vehicles for regular transit, esp in non peak hours when travel by public transport can be dangerous. I know a woman who uses hers as both transport and toilet as public facilities when she goes to her night job are actually scary and sometimes dangerous.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

All enforcement officers should be properly trained and understand the difference between day tripping and freedom camping....if people have pulled into a carpark and having dinner at a restaurant, they should not be assumed to be staying overnight. Also they should not insist on seeing inside/inspecting the vehicle, if its certified its certified and women should not have to fear what is currently happening...late night knocking and insistance on inspection!!!!

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I don't know

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should be self-contained, but they shouldn't have to be certified

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment and/or public health and safety, but the National Standard is too restrictive, The cost of buying, hiring, or converting to a certified self-contained vehicle is too high, and that could mean some people can't afford to freedom camp in Auckland

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses, Shorter stays are already the norm for most freedom campers, so a stricter rule is not necessary

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Please consider that our public spaces are for everyone, the certified freedom camper pay road users fees and most pay rates and have for many many years. Seems that the locals just dont want Campervans at thier local beach, Campervans bring security to the beach parking lots and reduce anti social behaviours, we need to encourage Freedom camping at each and every council car park which is at a beach or park. Limit to 3 spaces, for upto 2 nights over the next two weeks, ensure alot of them allow dogs (on and off leash options) as many retired RV camping people have small non threatening dogs as companion animals.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people. Another reason (please explain)

**Another reason (please explain):** The problem is not setting the rules it is the fact that no one takes notice, there is no regulations put in place to monitor it. If the correct campervans with correct facilities are parked in these areas then the others without this will just think they can park as well. If there are no toilet facilities then there is going to be a problem. In the past freedom parkers think they have the right to park where and when they want and also for how long . No Regulations then what?????

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** There are generally camp sites where for a small fee all the facilities they need are available. perhaps maybe regulated areas are made available for this with toilet facilities to

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** Reason being nobody to check and the mess left behind will upset people who have to put up with this, washing in public toilets hanging washing on the outside of their vans all day There needs to be controlled area for the freedom parkers as as yet this has not happened in Orewa I have complained to council on several times that freedom parkers are taking up space at the Surf Club car park preventing tourists parking

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):** There are people with vans with the certified sticker and it is evident these do not adhere to the correct rules to obtain these stickers

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** This has in the past been abused max 2 nights in a month, the last 2 nights in one month and first 2 in the second month making a total of 4 nights

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Having a set departure time will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

These rules must be able to be checked on and enforce or otherwise it is a total waste of time as in the past

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities. If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

There has to be a greater presence of compliance inspectors, and regular inspections all year round checking freedom campers are obeying the rules.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):** The non return period is open to abuse. For example Orewa has more than 15 roads within 150m of the beach so freedom campers could stay permanently in Orewa as long as they move to another street after 2 days. The proposal wording needs to change to prevent suburban streets being turned into permanent accommodation. Perhaps a 10km rule would fix this.

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Without general rules, there is a risk that any problems caused by freedom camping could move from regulated areas to unregulated areas nearby

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause. Another reason (please explain)

**Another reason (please explain):** Parking on all Council owned land other than restricted will include many pinch points with designated roadside parking spaces outside businesses or in narrow roadways. Berms in Rural areas would also be used with little chance of being caught. The wording does NOT specifically prohibit berms and should do. Parking outside most houses randomly also poses a vast problem.

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** By allowing greater freedom for campers but ensuring that Rural roads are better protected. There will be little opportunity to police/enforce self containment, rubbish disposal, open fires, and offensive noise in remote areas which, none the less, have residential dwellings.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store

water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, The general rules will unfairly impact some people. Another reason (please explain)

**Another reason (please explain):** Please see comments at end of this submission under "other feedback"

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Set aside specific areas where freedom camping IS permitted so that problem campers can be more easily tracked and controlled, and these areas can be better and more easily policed by the enforcement officers.

Please see comments at end of this submission under "other feedback"

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** See comments above. Avoid the current scatter gun approach. Prevent freedom camping both as defined by the Act and outside of the Act (refer my comments in last section on comments on the regulations) on all roads (but allow selected safe laybys) and set aside zones for freedom camping. These can be mapped as required by the Freedom Camping Act on Council Geomap layers and campers can have a link to their phones, via the internet, to show those areas where they can camp.

**How do you think the general rules will unfairly impact some people?** Multiple reasons, mainly around camping on residential roads, reserves, community hall carparks causing health and safety issues, restricted access to ratepayers, sports teams, etc etc, . Please see comments at end of this submission under "other feedback"

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, Although no serviced areas have been identified in this proposal, providing sites suitable for non-self-contained vehicles should be a priority for council, It makes sense to match our self-containment requirements to the National Standard, It would be too hard to enforce the self-containment rule without referencing the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, If freedom camping starts to cause problems somewhere, this is better managed by putting extra rest

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrict

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Submission on Freedom camping

The following is a submission by \_\_\_\_\_ on the Auckland Council proposed Freedom Camping Bylaw 2021. I note that the Freedom Camping Act 2011 gives people the right to freedom camp on public land and allows councils to make reasonable rules "...to protect the environment, public health and safety, and public access to shared space."

Further the Auckland Council states in the "Statement of Proposal, "To control freedom camping in an area, the council needs to be satisfied that it would otherwise pose a risk to the health and safety of visitors to the area, public access to the area, or the area itself."

I have 9 areas of concern.

### 1. Reserves

Freedom Camping on reserves under the Reserve Act 1953 are prohibited and I support this position. However, neither the Rodney Local Board nor any unitary plan maps, as per the Council online GIS Geomaps, explain which reserves are reserves under the Reserves Act and which are not. Therefore, this affects my ability to make an informed submission.

I submit that Council needs to go through their records and identify all such reserves and parks that are NOT under the Act and put these on an appropriate register and prohibit Freedom Camping on these reserves as well. For example, what about Totara Park, Manurewa?

Will Council be allowed to maintain barriers at the entrances to other parks, if so, how is this covered under the bylaw?

Since Reserves under the Reserves Act are unclear to the local boards, the general public and certainly to travelling freedom campers, all Council sites with the word "reserve" in the name plate need to be excluded as Freedom Camping sites. Sites that are reserves under the Reserve Act but do not have the word "reserve in their name" need to be replaced to make it clear that Freedom Camping is prohibited at these sites.

To avoid confusion, I submit that ALL reserves, open space and recreational reserves as set out in the Unitary Plan maps, whether under the act or not, are prohibited camping areas. It is important that car parks associated with these public areas are kept free for the community use for sports and recreation, particularly at weekends. Sports recreation reserves need to have restricted use at weekends, public holidays and from 15th December to say 31st January. As such recreation reserves need to be restricted and bookings required just as community groups have to book times on recreation reserves.

### 2. Coastal Marine areas

There appears to be nothing in the bylaws to protect coastal margins, the coastal marine areas and in particular the intertidal zone. The Act states "freedom camp means to camp (other than at a camping ground) within 200 m of a motor vehicle accessible area or the mean low-water springs line of any sea or harbour...."

How a freedom camper calculates this is a mystery to me as the chart datum and land datum conversion varies across Auckland and the two harbours. It seems that the law theoretically permits freedom campers to set up camp on the beach (other than a Reserve under the Reserve Act), as for example at Snells Beach the mean low water spring level is more than a kilometre out to sea (although the corresponding mean high-water spring is 3.3 metres).

There is nothing to stop campers setting up camp on breakwaters.

To avoid confusion, I submit that all camping in the coastal marine area and within 50 metres of the Mean HIGH water spring line, as shown on the Council GIS Unitary plan maps, is prohibited.

### 3. Where strangers to the City are able camp will be unclear.

How are strangers to Auckland expected to understand which reserves, areas and locations are available for camping and which are not? It would have been preferable to show areas where freedom camping is permitted, not where it is not permitted, although the Act seems to be trying to confound this logical approach.

It seems that people will camp at random and then it will be up to the community reporting and Council employed enforcement officers to apply the bylaw if they are camped illegally. This does not meet the multiple criteria Council have set of "to protect the environment, public health and safety, and public access to shared space" and, "the council needs to be satisfied that it would otherwise pose a risk to the health and safety of visitors to the area, public access to the area, or the area itself."

The latest Freedom of Camping Act (updated October 2021 law states "freedom camp means to camp (other than at a camping ground) within 200 m of a motor vehicle accessible area or the mean low-water springs line of any sea or harbour, or on or within 200 m of a formed road or a Great Walks Track"

Therefore, Freedom Camping using a tent can occur, without ablutions, if more than 200 metres away from a road (for example off an access road along a stream walkway). I don't think this is suitable for Auckland.

There needs to be a distance where camping is prohibited from all watercourses and I submitted 50 metres is reasonable. Again, these no permitted camping zones can be shown on a Freedom Camping layer on GIS mapping.

I submit that a leaflet and signage is used to direct Freedom Campers, together with a link to Council's GIS mapping with layers showing areas where camping is prohibited or restricted, and allowed. Then the rules are clear to everyone and not left to multiple judgements of random people.

#### 4. Roads and access

I strongly disagree that road carriageways be used as freedom camping areas and that Council "wait to see if there are issues" rather than prohibiting now. The currently proposed bylaw fails to address the key criteria Council have set for the bylaw.

The use of road carriageways or parking spaces immediate adjacent to the carriage pose a health and safety risk to road users and freedom campers; interfere with public safety in terms of public sightlines and pedestrian road crossings, cause blockage of stormwater channels in the road increase the risks of litter and greywater discharges (thereby resulting in increased environmental risks) and interfere with emergency service access.

There need to be provisions added to allow for a flexible system so that signs can be erected if problem areas found and also to identify sites that need to be excluded from the general permitted rules – like boat and trailer bays adjacent to roads; parking in busy areas like Piha and West coast beaches, outside licenced camp-grounds, outside schools, etc.

These can easily be mapped and identified through a layer in the Council's GIS system.

Furthermore, the Freedom Camping Act states "Freedom camping is permitted in any local authority area unless it is restricted or prohibited in an area—

(a) in accordance with a bylaw made under section 11; or

(b) under any other enactment."

It is unclear whether the Transport Act, and other parking bylaws have precedence or not, as on page 8 it currently states, "The Bylaw will not duplicate rules that are relevant to freedom camping, but which are already set out in .....". It does not say which bylaw takes precedence.

For the avoidance of doubt, I submit that the new Freedom of Camping Bylaw needs to clearly state which other bylaws have precedence.

There needs to be a prohibition on using all road carriageways such that road safety takes precedence over Freedom Camping to avoid major issues such as:-

- Restricting access to emergency vehicles
- Increased risk of night-time nose to tail collisions and serious injury to freedom camper occupants
- increased risk of vehicle damaged due to narrowed carriageways due to parked campers (which are generally larger vehicles with more protrusions than cars)
- Increased risk to the general public due to changes to sightlines due to large, parked vehicles for pedestrians and people crossing roads.

I submit that only laybys, in locations at least 10 metres from the edge of road carriageways, be permitted and all other roads shown on the GIS mapping are prohibited.

For the avoidance of doubt and to assist strangers, it would be good to have a digital layer in the GIS showing "common locations used for freedom camping," or something similar.

#### 5. Community Hall and long term leased Carparks and Events

I submit that community hall car parks are specifically prohibited for use as Freedom Camping sites. Whilst the underlying community hall land is owned by Auckland Council, many of the halls are run by local communities for local community purposes and the car parks are often in high demand, particularly in the evenings and at weekends.

Furthermore, Council will have a number of longer-term car parks leased to various organisations and also short-term restrictions for public events. Provision needs to be made in the bylaw Auckland Council to place restriction on the use of these this from time to time or permanently where a long-term lease to a party has been made.

#### 6. Auckland Council Car Parks

There are a large number of Auckland Council car parks that are under used at night. Can these be used for Freedom Camping as many are in the central city and places like Baxter Carpark in Warkworth? In these cases, Freedom campers would need to depart by say 7 am.

#### 7. Enforcement of Rules

I remain concerned over how the Freedom Camping rules will be enforced.

It appears that enforcement will fall on the current Auckland Council enforcement Officers, but most of these are in urban areas and many freedom campers will be in rural areas. So, there is a fundamental disconnect. There are already significant enforcement response issues around environmental spillages and other actions in rural and more remote areas. How will the Council ensure that the bylaw rules will be enforced, as this is very unclear and non-committal in the proposed by-law? A clear commitment from Council on ensuring enforcement occurs is needed.

#### 8. Wildlife Act and Biosecurity laws

There is a requirement to identify areas covered by the Wildlife Act which seems to be missing from the proposed bylaw information. Again, the precedence of the Freedom Camping law and other legislation, like Biosecurity, needs to be made clear in Auckland Council's bylaw.

#### 9. Freedom Camping Activities not Covered by Act

The Freedom Camping Act defines Freedom camping as "freedom camp means to camp (other than at a camping ground) within 200 m of a motor vehicle accessible area or the mean low-water springs line of any sea or harbour, or on or within 200 m of a formed road"

Namely one can "Freedom camp" by parking at a road end and walking 200 metres to camp in a tent on a grassed area without ablutions being required. Therefore, I submit that the Auckland Council bylaw needs to make provision for "Freedom Camping" not covered by the Act, to stop illegal or other camping in the City. These restrictions need to be extended to tents (namely one cannot park a car and then take a tent, with or without a toilet/shower tent and setup camp on grass patches 200 metres away).

16th November 2021

## Rodney Local Board area

### Prohibited sites

**Helensville - Helensville Civic Centre Grounds 49 Commercial Road, Helensville, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Huapai - Huapai Service Centre/Kumeu Library 24 Oraha Road, Huapai, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Waimauku - Waimauku War Memorial Hall 22 Waimauku Station Road, Waimauku, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Leigh - Leigh Library and grounds 15 Cumberland Street, Leigh, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Ti Point - Ti Point walkway Ti Point Road, Ti Point, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Pakiri - Pakiri Hall grounds 1026 Pakiri Road, Pakiri, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Warkworth - Warkworth Town Hall grounds 2 Alnwick Street, Warkworth D, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area? It is already very busy in this area.**

### Restricted sites

**Port Albert - Port Albert Wharf Reserve carpark Adjacent to Wharf Road, Port Albert. Do you agree that freedom camping should be restricted in this area?**

**Which of the proposed restrictions for this area would you want to change at Port Albert Wharf?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

**Snells Beach - Whisper Cove (adjacent parking on road reserve) 70 Kokihi Lane, Snells Beach. Do you agree that freedom camping should be restricted in this area? No – freedom camping should not be allowed in this area**

**Which of the proposed restrictions for this area would you want to change at Whisper Cove?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?** The aerial attached to this plan is grossly out of date and there is a popular commercial cafe/restaurant (Bayside) directly opposite the proposed site now. This car park is currently used by the community to park and eat at the cafe there. Having freedom camping immediately opposite the cafe is undesirable as the campers will affect customer by taking up carparks and destroy the ambiance of the area. It is also at the end of the beach where there are sensitive an endangered shore birds and therefore noise and lights at night need to be minimised.

**Warkworth - 8 Church Hill carpark, Warkworth. Do you agree that freedom camping should be restricted in this area?** I don't know

**Which of the proposed restrictions for this area would you want to change at Church Hill?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

**Parry Kauri Park 32 Tudor Collins Drive, Warkworth. Do you agree that freedom camping should be restricted in this area?** Yes – restricted freedom camping should be allowed, and I support the proposed restrictions

**Which of the proposed restrictions for this area would you want to change at Parry Kauri Park?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?** It is important that there is a ban on ALL open fires including outdoor cooking.

**Wellsford - Wellsford Community Centre grounds<sup>1</sup> Matheson Road, Wellsford. Do you agree that freedom camping should be restricted in this area?**

**Which of the proposed restrictions for this area would you want to change at Wellsford Community Centre?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

118 Rodney Street, Wellsford. Do you agree that freedom camping should be restricted in this area?

Which of the proposed restrictions for this area would you want to change at 118 Rodney Street?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** Roading needs to be able to be able to accommodate camper vans, roads at Campbells/ Baddelys are too narrow.

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.
