**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Another reason (please explain)

**Another reason (please explain):** I do Not support freedom camping in anything other than camp sites.

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

Is this because, in your view:

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

Strongly support public reserves not being included in the bylaw - see attached.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

This submission is from a community group. REaREG represents 63 members of the Rainbows End and Green Road, Matakana, community.

Rainbows End has a public reserve that is covered by the Reserves Act 1977.

When the previous version of the bylaw went out for public consultation, the parking area at the Rainbows End reserve was designated as a freedom camping area. REaREG at the time made a submission opposed to this small community area being designated for freedom camping.

REaREG strongly agrees with the decision to remove public reserves from this bylaw and for them to remain under the Reserves Act. We also emphasise that when any Reserve Management Plan is developed or changed for public reserves, then community consultation must be part of this process.

REaREG still considers that the small parking area at Rainbows End Reserve is not suitable for freedom camping for health and safety, community access, and environmental reasons.

Auckland Council needs to identify other ways to meet future freedom camping demand rather than utilising public reserves, perhaps by the development of some larger facilities to cater for peak demand.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Do you have any other comments on the general rules?

freedom campers generally take premium spots that prevent rate payers enjoying the benefits of the site that they pay rates for, it is inappropriate.

### Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Freedom camping should be in commercial sites with support structure.

## Rodney Local Board area

### Prohibited sites

**Helensville - Helensville Civic Centre Grounds 49 Commercial Road, Helensville, do you agree that freedom camping should be prohibited in this area?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, It makes sense to match our self-containment requirements to the National Standard, It would be too hard t

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** By using DOC freedom camping sites that are not in areas where families and high density housing is.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Need regulated areas to contain human pollution and waste . Either camp grounds or designated camp sites .

**How do you think the general rules will unfairly impact some people?** Yes

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** No freedom camping unless in designated camping areas

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

### Do you have any other comments on the general rules?

As a resident of both Remuera and Rodney, I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is a terrible idea and not appropriate. The Council's General Rules will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

### Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

I have residence places in both Remuera and Omaha, please don't let Freedom Camping ruin our beautiful beaches.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

Do you not support having general rules because, in your view: Another reason (please explain)

**Another reason (please explain):** I am opposed to any general rules which allow freedom camping. Freedom campers pollute the environment and leave a mess everywhere they go.

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

Another reason (please explain):

Do you have any other comments on the general rules?

Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Do not allow Freedom camping on residential streets

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

I object to the council's proposal in it entirety in regard to opening up the streets of Auckland to freedom campers, especially at Omaha Beach. Freedom camping on residential streets is not appropriate. The councils "general rules" will be ineffectual and unenforceable and in practice will not protect residential streets and roads.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

No

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

Freedom camping should only be allowed in controlled and dedicated area's

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** The general rules will unfairly impact some people,  
Another reason (please explain)

**Another reason (please explain):** I do not see the benefits for providing freedom camping in residential areas. With increased units per lot as per the unitary plan there are already a lot of vehicles and noise in the neighbourhood, freedom campers can add to this and further disrupt neighbourhoods and nice public spaces for families and pedestrians to use.

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

### How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

### How do you think the general rules will unfairly impact some people?

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** Home owners in residential streets. I am greatly concerned about having strange vehicles with people living in them in front of my house where my young kids go out and play at the front of the house along with other neighbourhood children.

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

#### **Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

I object to the Council's proposal in it's entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause. Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):** Basically I do not approve of freedom camping on any residential streets across Auckland. If certain reserve areas are deemed appropriate for freedom camping then rules must apply.

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

Do you not support having general rules because, in your view: The general rules will unfairly impact some people

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers , especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's "General Rules" will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Another reason (please explain)

**Another reason (please explain):** Freedom camping has the potential to cause inconvenience, stress, and safety issues for residents and other members of the public, and needs to be carefully regulated to minimise that. Note that my support for the implementation of appropriate general rules in this question, and support of the specific rules in the following question, is \*not\* to be taken as agreement with freedom camping taking place in residential streets, which I strongly oppose.

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

This public consultation process fails to address the key question of whether residents and ratepayers agree that freedom camping should be permitted on residential streets at all. The consultation process instead assumes that the only relevant questions are as to the rules that should apply to such freedom camping. But it is important first to address the question whether freedom camping should be permitted on residential streets at all. Residential streets are inherently unsuited to camping. Residential streets are often narrow. They are not designed to accommodate the sorts of vehicles that the Council is contemplating permitting to set up camp in residential streets (i.e. self-contained mobile homes) which are typically large vehicles. There are traffic flow, safety, and access issues with permitting mobile homes (i.e. large self-contained vehicles) to set up camp in residential streets. To the extent that vehicular parking is permitted in residential streets that parking is generally required by the residents themselves for their own vehicles and by people who are visiting residents. Parking is generally at a premium in residential streets, i.e. there is already often insufficient parking available for the needs of the residents and of people who are visiting residents or who otherwise have a valid reason to need to park in a residential street (e.g. to visit a shop nearby). Residential streets are not camping destinations. They have two main purposes: they are places where residents live, and they are thoroughfares. There are further practical issues with permitting people to camp on residential streets in mobile homes. Children often play on quiet residential streets. Residential streets do not have public rubbish bins. Residents, however, do have rubbish bins and have to put out their rubbish and recycling bins on collection days. The Council rubbish and recycling trucks are able to work around parked cars to empty these bins, but they will not – or may not – be able to work around larger mobile homes to empty – or even be able to see – residents' bins. The spectre has already been raised, as a result of the Council's plans, of confrontations taking place between unhappy residents and freedom campers who set up camp in residential streets. For all these sorts of reasons roadside camping is entirely inappropriate in residential streets. The first thing that should be addressed by the Council's new bylaw is the prohibition of freedom camping in all residential streets, as well as in the specific areas currently slated for protection. Only then should consideration be given to the sorts of general rules that should apply on other Council-owned land, if freedom camping is to be permitted there.

Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

Do you not support having general rules because, in your view: The general rules will unfairly impact some people

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people? I think Freedom camping on Streets of Auckland will cause inconvenience and a lot of work cleaning up after them by the residents of the Street

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Do you have any other comments on the general rules?

Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The

Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential

streets and roads

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

Do you not support having general rules because, in your view: The general rules will unfairly impact some people

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

Shouldn't open up residential streets for freedom camping

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

[Do you have any other comments on the general rules?](#)

Personally do not agree with the councils rules in its entirety. Freedom camping on public streets is in no way appropriate. The rules proposed will in no way protect residential streets and roads . I for one do not want to see freedom campers parked in our cul de sac ! There is a place for mobile homes / caravans called camping grounds .

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

Do you not support having general rules because, in your view: The general rules will unfairly impact some people

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential streets and roads

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

### Do you have any other comments on the general rules?

Firstly I do not believe Council have legal rights to implement these proposed changes. I object to the proposition as outlined . I live in a cul de sac in Matakana and we have horrendous issues with parking throughout the summer, this proposal will simply exacerbate the problem. To Councils credit on a submission from me and the Lane homeowners painted no parking lines which has helped marginally but I have already had an unpleasant experience with freedom campers who fouled the berm and left food scraps outside adjoining properties. Council will be unable to police these mooted changes so they will be subject to abuse. There should be consideration given to expanding purpose built camping areas and not a decision that will without doubt impact on home owners in some areas of Auckland.

### Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

i object to the councils proposal in its entirety in regard to opening up the street of auckland to freedom campers, especially at Omaha beach. Freedom camping on residential streets is not appropriate. the councils general rules will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

The general rules should be designed to protect environment, public health and safety absolutely (not reasonably). Living/camping on suburban streets should not be permitted. Designated areas, campgrounds, specific public reserves should be available to self-contained vehicles.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** I object to the Council's proposal its entirety in opening up the streets of Auckland to Freedom Camping, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

### How do you think the general rules will unfairly impact some people?

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

#### **Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in it's entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate.

The Council's "General Rules" will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

#### **Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom camping on residential streets is not appropriate. The Council's "General Rules" will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** If my property/home is in an area where a freedom camper can regularly frequent and park outside, this will result in the loss of the quiet use and enjoyment of my asset that I have worked hard to pay for my whole life.

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

#### **Do you support the proposed set departure time rule?**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** there should be no freedom camping in residential areas

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. ## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. "The Council's General Rules" will be ineffectual and in practice will not protect residential streets and roads.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I support the decision to exclude public reserves from the bylaw - their main purpose should be for the recreational use of the community. These amenities should not be disturbed by freedom camping, especially on smaller reserves. Some are not suitable.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom

Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The

Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential streets and reserve type areas.

### How do you think the general rules will unfairly impact some people?

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store

water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom

Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The

Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential

streets and roads

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential streets and roads

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

I object to Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules will be ineffectual and also unenforceable and in practice will not protect the residential streets and roads.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

It seems that you have made the assumption that ,apart from the red dot areas on the map, freedom camping can be anywhere. This is too liberal. I do not want to see freedom camping in and around the North Omaha Reserve area. I also live in Mahurangi West, and its not unusual to find camper vans parking on the side of the road, particularly the area for people to pull over & look at the views. There needs to be more clarity of the areas where camping is NOT allowed.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

I'm not sure what you have based your decisions onin creating the few restricted areas on the map. There are way more areas where freedom camping should be prohibited. I would prefer AC created proper facilities for freedom campers that included toilets and rubbish bins. Instead it seems it will be a "free for all". This has been shown to be unworkable in the past. Rubbish & human waste strewn about the sites by our smaller parks & reserves is common.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Without general rules, there is a risk that any problems caused by freedom camping could move from regulated areas to unregulated areas nearby, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be avail

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, It makes sense to match our self-containment requirements to the National Standard, It would be too hard t

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space, Another reason (please explain)

**Another reason (please explain):** Freedom camping should not be in residential streets, but in designated freedom camping sites. Residential areas and streets across Auckland City are not the right place for freedom campers.

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once, A no-return period will help with enforcing the maximum stay rule, Another reason (please explain)

**Another reason (please explain):** The no return for 4 weeks period should also include a no return to the whole

Suburb NOT just the street. No return to the suburb ensures that camping vehicles can not live indefinitely across a suburb.

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Freedom Camping should only be in designated camping areas across the city, NOT across ALL residential streets of Auckland. Auckland Council are reducing access for parking NOW to residents and ratepayers of Auckland BUT on the other hand then opening unlimited parking up to huge large camper vans across our residential streets. This is insane logic!

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Have designated areas for camping as currently. There's no need to expand as it will only kill natural habitat! We are already seeing that in the community!

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

This is silly! There are already well established camp grounds. No need for more.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** By not having people living in vehicles on streets, beach fronts or public reserves.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Do you have any other comments on the general rules?**

Freedom camping must only be allowed in serviced areas.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

As a resident of Rodney I am completely shocked and disappointed that this freedom camping/parking is being considered. Already the effect from the freedom campers is showing. This madness and freedom camping must be limited to serviced centres that would need fulltime monitoring.

## Hibiscus & Bays Local Board area

### Prohibited sites

Metro Park (East) 218 Millwater Parkway, Silverdale, do you agree that freedom camping should be prohibited in this area? Yes

Tell us why and any other comments you would like to make about this area?

### Restricted sites

Gulf Harbour Marina, Hammerhead Reserve 40 Gulf Harbour Drive, Guld Harbour. Do you agree that freedom camping should be restricted in this area? No – freedom camping should not be allowed in this area

Which of the proposed restrictions for this area would you want to change at Gulf Harbour Marina?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules will be ineffectual and also unenforceable and in practice will not protect residential streets and roads

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** Any freedom camper is able to purchase a self containment sticker off Trade Me. Rental companies offer financial incentives to not use van toilets. This system is a joke. Council needs to impose a WOF self containment system with a data base and a renewal every year. Otherwise the system will continue to be abused

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** Freedom Campers should not be allowed to park on any road. Extremely dangerous, unhygienic and infringes on the rights of people who live on the road

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** They should not be parking on a road

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Do you have any other comments on the general rules?

It is unrealistic to try and dictate general rules for freedom camping when you do not have the money, personnel, and expertise to enforce them

### Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Council needs to be far more accurate in naming restricted areas . Large tracts of land, beach fronts are Recreational Reserves , 1977 Reserves Act. These need to be documented.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential streets and roads

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom campers, especially at Omaha Beach.

Freedom Camping on residential streets is not appropriate.

The Council's General rules will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people, Another reason (please explain)

**Another reason (please explain):** They are unworkable, unreasonable, overstate the problem and impact on freedom campers who are parked overnight to go tramping or kayaking the following morning (ie the vacate the site by 9am)

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** Penalises people who aren't self contained. Self containment or not isn't the problem since most campers even in flash motorhomes use public facilities, not their own on-board loos.

Penalises people who are late arriving. How is freedom camping any worse than someone parking up all day?

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The kind of vehicle used for freedom camping in Auckland should be a personal choice, Using a vehicle that is not self-contained does not pose a risk to the environment or public health and safety, The cost of buying, hiring, or converting to a self-contained vehicle is too high, and that could mean some people can't afford to freedom camp in Auckland, It would be too hard to enforce a self-containment rule, Another reason (please explain)

**Another reason (please explain):** Even campers in self contained vehicles don't necessarily use their own on-board toilet. Mostly people seem to use public facilities.

The problems are overstated and reflect an elitism where coastal residents for example want to monopolise access to beaches - overflowing public sewerage systems and poorly functioning septic tanks cause more harm, yet freedom campers get the blame

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay for an indefinite period in the same road or off-road parking area (no maximum stay rule)

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles should be allowed to come back to stay in the same area after dumping their waste responsibly, it is not necessary to prevent their return through this rule, No maximum stay gives campers the best opportunity to enjoy the area and support local businesses, Shorter stays are already the norm for most freedom campers, so a maximum stay rule is not necessary, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** This is unreasonable. In our case we usually stay overnight in a place so we can explore it thoroughly - by foot, bike or kayak. Having to move by 9 limits our opportunity to use the area in a way we are there for. There's no more harm from staying there

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** It's unreasonable and unjustified. It impacts on campers ability to use and explore the natural settings and attractions. It penalises campers when a day visitor coming back day after day can create the same impact - virtually nothing, if there is appropriate public facilities nearby

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

Don't give in to the NIMBYs

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

The restrictions are not related to adverse effects, and are largely driven by NIMBYism and perceived impacts of freedom campers. More sites mean more distribution of campers, rather than concentration. our experience is that day trippers create much more disturbance, leave more rubbish and make more impacts on toilets than freedom campers

**Tell us why and any other comments you would like to make about this area?** There are no reasons for prohibiting freedom camping here. In fact it would improve security for facilities on the site. There is adequate space and public facilities to provide for camping, and it can be accommodated without disrupting neighbours

**Leigh - Leigh Library and grounds 15 Cumberland Street, Leigh, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed without any restrictions

**Tell us why and any other comments you would like to make about this area?** There are no reasons for prohibiting freedom camping here. In fact it would improve security for facilities on the site. There is adequate space and public facilities to provide for camping, and it can be accommodated without disrupting neighbours

**Ti Point - Ti Point walkway Ti Point Road, Ti Point, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed without any restrictions

**Tell us why and any other comments you would like to make about this area?** There are no environmental reasons for prohibiting freedom camping here. In fact it would improve security for facilities on the site. There is adequate space and public facilities to provide for camping, and it can be accommodated without disrupting neighbours. Prohibiting freedom camping will unduly restrict people's use of the coast

**Pakiri - Pakiri Hall grounds 1026 Pakiri Road, Pakiri, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed without any restrictions

**Tell us why and any other comments you would like to make about this area?** There are no reasons for prohibiting freedom camping here. In fact it would improve security for facilities on the site. There is adequate space and public facilities to provide for camping, and it can be accommodated without disrupting neighbours

**Warkworth - Warkworth Town Hall grounds 2 Alnwick Street, Warkworth D, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed with area specific rules

**Tell us why and any other comments you would like to make about this area?** There's no harm from freedom camping here. In fact the more sites like this, the better because it distributes and dilutes campers across more sites, avoiding concentration effects

### **Restricted sites**

**Port Albert - Port Albert Wharf Reserve carpark Adjacent to Wharf Road, Port Albert. Do you agree that freedom camping should be restricted in this area?** Yes – restricted freedom camping should be allowed, but with different restrictions

**Which of the proposed restrictions for this area would you want to change at Port Albert Wharf?**

Maximum number of vehicles, Maximum stay, Departure time, No-return period, Proposed location of freedom camping parking spaces within this area

**What do you think is the appropriate maximum number of vehicles allowed at this site?** There shouldn't be a maximum number

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?** There shouldn't be a maximum stay

**Other (please specify):**

**What do you think is the appropriate departure time at this site?** There shouldn't be a set departure time

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?** There shouldn't be a no-return period

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?** Anywhere

**Do you have any other comments you would like to make about this area?** There's no harm in freedom camping here.

**Snells Beach - Whisper Cove (adjacent parking on road reserve) 70 Kokihi Lane, Snells Beach. Do you agree that freedom camping should be restricted in this area?** No – freedom camping should be allowed without any restrictions

**Which of the proposed restrictions for this area would you want to change at Whisper Cove?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?** This area is discreet and there are no adverse effects from freedom camping -no neighbours or environmental impacts

**Warkworth - 8 Church Hill carpark, Warkworth. Do you agree that freedom camping should be restricted in this area?** Yes – restricted freedom camping should be allowed, and I support the proposed restrictions

**Which of the proposed restrictions for this area would you want to change at Church Hill?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

**Parry Kauri Park 32 Tudor Collins Drive, Warkworth. Do you agree that freedom camping should be restricted in this area?** No – freedom camping should be allowed without any restrictions

**Which of the proposed restrictions for this area would you want to change at Parry Kauri Park?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area?

**Wellsford - Wellsford Community Centre grounds<sup>1</sup> Matheson Road, Wellsford. Do you agree that freedom camping should be restricted in this area?** No – freedom camping should be allowed without any restrictions

Which of the proposed restrictions for this area would you want to change at Wellsford Community Centre?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

**Do you have any other comments you would like to make about this area?** There's a huge amount of capacity on this site with the massive carpark to accommodate freedom camping sustainably

**118 Rodney Street, Wellsford. Do you agree that freedom camping should be restricted in this area?** Yes – restricted freedom camping should be allowed, but with different restrictions

**Which of the proposed restrictions for this area would you want to change at 118 Rodney Street?**

Maximum number of vehicles, Maximum stay, Departure time, No-return period

**What do you think is the appropriate maximum number of vehicles allowed at this site?** There shouldn't be a maximum number

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):** As many as people want

**What do you think is the appropriate departure time at this site?** There shouldn't be a set departure time

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?** There shouldn't be a no-return period

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

## **Upper Harbour Local Board area**

### **Prohibited sites**

**North Shore Memorial Park 235 Schnapper Rock Road, Schnapper Rock, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Jack Hinton Drive Adjacent to Rosedale Park, Rosedale, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

The Council does not have the resources , expertise or the impetus to enforce such rules

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

To allow camper vans to park over night on the streets of Auckland City lacks any foresight of the huge array of problems this will cause. There are numerous camping facilities owned by Council or privately in the Rodney District that would alleviate any need for freedom camping. This be an economic benefit to Council and private enterprises

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

Do you not support having general rules because, in your view: Another reason (please explain)

**Another reason (please explain):** "I strongly object to the council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom

Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The

Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential

streets and roads

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** by banning freedom camping

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** by banning freedom camping

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

i object to the councils proposal to allow freedom camping in the streets of auckland, inclusive of the Rodney district incl Omaha. freedom camping should not be allowed in built up areas, it will be unenforceable and cause conflict to residents etc

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, It makes sense to match our self-containment requirements to the National Standard, It would be too hard t

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** People should not be allowed to freedom camp on residential streets in front of peoples property. It is a huge security risk for residents

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, and council has not identified any serviced areas in this proposal

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

Do you not support having general rules because, in your view: Another reason (please explain)

**Another reason (please explain):** I don't believe that freedom campers should be able to stay in residential area Especially in Omaha, Matheson Bay and other beach neighbourhoods where residents will be impacted by the campers behaviour Noise, toilets, time of departure and personal infringements caused by the campers

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

Freedom campers for the most part should be directed to places that the council will monitor at least twice daily and be ready to respond to any problems that may arise within a short period of time. Otherwise they should be allowed to camp outside of neighbourhoods in especially designated areas and only for those that are actually fully self contained.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Without general rules, there is a risk that any problems caused by freedom camping could move from regulated areas to unregulated areas nearby, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be avail

**Another reason (please explain):** The General Rules need to be significantly stronger to protect Auckland's streets from an unlimited number of vans able to live indefinitely across suburbs. The General Rules as you have them give little or any protection to the thousands of acres of Auckland Streets that will become ONE huge campsite.

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, It makes sense to match our self-containment requirements to the National Standard, It would be too hard t

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, Another reason (please explain)

**Another reason (please explain):** This one night stay should only be in non residential areas. Auckland resdeintail local roads are NOT the right place to become a camp site

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once, A no-return period will help with enforcing the maximum stay rule, Another reason (please explain)

**Another reason (please explain):** The no return rule is nearly meaningless unless you extend this rule to be no return to the SUBURB not just the street. If you make the rule no return to the street, you can just move a few feet round the corner to the next street making the no return rule pointless

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Residential streets should be prohibited as seen in freedom camping bylaws by Gisborne and Tauranga.

the no return policy should be for no return to a suburb, not just no return to a single street.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Submitter details

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

I have had a lot of experience watching these freeloaders and the tactics they will use to ply under the radar unnoticed while living in prohibited public carparks and reserves in the Hibiscus coast community .

If the councils don't act now and ban this behaviour they may as well forget asking for rates from people who live and pay for the privilege to rightfully have access to the amenities supplied from the rates they pay unlike these freeloaders that can just pull

Up wherever they please and receive free rubbish removal free water and waste water as well as the convenience of using public toilets that are cleaned for them because they are too lazy to clean and empty their own self contained bathrooms .

As an Auckland ratepayer the last thing we want is public carparks and roads filled with transient mostly undesirable bludgers filling our community . If we don't have enough Holiday parks / motor camps that they can pay to stay at isn't this a good opportunity for Auckland council

To develop more and create another revenue stream that might help reduce the high rates we already pay to facilitate thes freeloaders ?

Ban freedom camping !

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

You would only have to have a chat with one of your current freedom camping compliance team to see the lengths some of these freeloaders go to , to get around breaching the bylaws to remain defiant of them .

Bylaws and prohibition will not stop them because the penalties are not severe enough ! There is one of these freeloaders that has lived in a caravan at almost every public carpark and reserve here on the hibiscus coast for over 7 years . He has been trespassed from multiple places for lewd acts , urinating in public etc but still Auckland council let this creep defiantly live in our community 🙄

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, and council has not identified any serviced areas in this proposal

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

I support a review of the term "Self Contained" so that the term means

totally self contained, not partially self contained.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Do you have any other comments on the general rules?**

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom

Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The

Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential

streets and roads

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I don't know

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know? Life is complicated enough without having more rules fines & restrictions. Most people are very responsible freedom campers.

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should be self-contained, but they shouldn't have to be certified

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment and/or public health and safety, but vehicle owners should decide what makes a vehicle 'self-contained'

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** I would say allow a maximum of 5 days. If you need to empty tanks you go off & empty tanks. When you come back, chances are you may lose the spot to another vehicle anyway. If the space is still available, what does it matter if you continue to stay. So

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, Another reason (please explain)

**Another reason (please explain):** When you are on holiday you don't want time schedules, its supposed to be relaxing & fun, go with the flow. I for one am tired of rules, mandates, restriction & look forward to some freedom.. please don't over complicate our basic human right to camp freely to our own time schedule.

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, Another reason (please explain)

**Another reason (please explain):** When you are on holiday you don't want time schedules, its supposed to be relaxing & fun, go with the flow. I for one am tired of rules, mandates, restriction & look forward to some freedom.. please don't over complicate our basic human right to camp freely to our own time schedule.

**Is this because, in your view:** Campers should have the right to come back to favourite places during their trip, A no-return period is not necessary: most campers don't return to the same place. Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, Another reason (please explain)

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I'm not sure about the area changes you are proposing as I couldn't view area maps on this submission. I just hope you don't take away great camping spots. Just make sure there are good signs up encouraging good behavior & do some spot checks. Let people be responsible for themselves. Have a phone number visible to report bad behavior too. Most people are self regulatory & responsible. My vehicle is certified, but I think of the younger ones just starting out camping that can't afford expensive vehicles to begin with. We need to encourage them to get out in nature. Not restrict them with rules & fines. Just encourage good camping behavior & values. Let's get out there & enjoy our country.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Not allow Freedom Camping in any residential areas unless the occupants are friends of the neighbouring property and only stay within the rules. And Especially not at the beach communities

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** Who will enforce them and when

Freedom Camping in Residential area should be excluded/ not permitted

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule? Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, If freedom camping starts to cause problems somewhere, this is better managed by putting extra rest

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

"I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach.

Freedom Camping on residential streets is not appropriate.

The Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential streets and roads

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** It is not necessary to impose basic rules on freedom campers everywhere in Auckland

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

Only two parks for freedom campers in Snells Beach is crazy. It is a pleasure to see these campers in our carparks enjoying the beach etc. They need to be able to freedom camp in the Sunburst Ave Carpark and the Snells Beach Road carpark as well. Especially as both these carparks have toilet facilities closeby. Leave it as it is and let these people enjoy themselves and our community

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, Another reason (please explain)

**Another reason (please explain):** As members of the NZ Motorhome Assn we do not support freedom camping being allowed on rural road berms with the 'blanket approach' of the proposed bylaw.

We have over the years seen the outcome of freedom camping on rural roadsides

e.g. rubbish, offensive noise and human waste.

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** If Auckland Council insists pursuing its present 'blanket approach' for freedom camping on rural roads, we insist there be some form of log/record kept of all freedom campers - where and when they stayed as is presently done by motor camps. The onset of the Covid pandemic has created enormous Health and Safety concerns so keeping track of peoples movements is paramount.

This would be the responsibility of Auckland Council.

### How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

### How do you think the general rules will unfairly impact some people?

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):** We have noted many random vehicles with Self Contained stickers on the rear of the vehicle. It is common knowledge that these stickers can be purchased on the net.

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Another reason (please explain)

**Another reason (please explain):** 2 night stays or longer encourage people to park over during the daytime, so what happens to day trippers pausing for a look at a view. That said , more reason to oppose any freedom campers on rural roads.

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** Having a set departure time will help with enforcing the maximum stay rule

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Do you have any other comments you would like to make about this area?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Without general rules, there is a risk that any problems caused by freedom camping could move from regulated areas to unregulated areas nearby

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, and council has not identified any serviced areas in this proposal, It makes sense to match our self-containment requirements to the N

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

If adopted, the proposed general rules would mean that there is nowhere in Auckland where freedom camping can take place without any controls at all. However, we think this is justified under the Freedom Camping Act 2011 to protect the environment, public health and safety and public access in all the areas covered by the rules.

The proposed Bylaw would also greatly increase the number of places for safe and legal freedom camping compared with the status quo, particularly as freedom campers would be able to use most roads (which are off-limits under the current Bylaw). We will need to continue to assess the cumulative impact as the process continues.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential streets and roads

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):** Some vehicles show a Self-contained sticker which is fraudulent and this needs to be monitored. These people often continue to have disregard for considerate camping practice and give genuine SC campers a bad name.

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** As above, the Self Contained certificate is easily copied and rarely are these vehicles genuinely self contained. Having a toilet 'on board' can mean the toilet is in a locker which can't be accessed when the bed is down, or there is no area for the toilet to be used in private. This should not be considered Self Contained. Also, if cooking and eating cannot take place in the vehicle, the vehicle should not be considered self contained. Better certification and overseeing of compliance is required.

**Do you support the self-containment rule because, in your view:**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, It would be too hard to enforce the self-containment rule without referencing the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, If freedom camping starts to cause problems somewhere, this is better managed by putting extra rest

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** I think campers should only stay in areas where there is a public toilet. Therefore self-containment is not necessary.

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Rules need to be NZ wide or it will be confusing to campers. I like the rules in Queenstown where people cannot stay within a certain distance from a town. Rules are only worthwhile if someone polices them. Perhaps NZMCA should pay towards policing of freedom campers. Ratepayers should not have to pay while campers camp free. I don't think campers should have the right to camp in prime spots that have lots of daytime visitors or where there is a camping ground nearby or a lot of housing. But why not let them camp outside these areas? For example parking areas and streets, for just one night.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Freedom camping should be limited to designated camping site/ground areas more suited to freedom camping than the general roads and by ways such as Whangateau camping site /the site at country park on Omaha flats road

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** by having designated camping ground areas

**How do you think the general rules will unfairly impact some people?** in Omaha the roads are narrow there are limited parking areas for general visitors and campervans are too large for the roads and by ways and parking areas

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

### Do you have any other comments on the general rules?

I object to councils proposal in its entirety in regard to the opening up the streets of Auckland to Freedom Camping, especially at Omaha beach. Freedom camping on residential streets is not appropriate .The Councils general rule will be ineffectual and also unenforceable and in practice will not protect residential streets and roads

### Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Rodney Local Board area

### Prohibited sites

**Helensville - Helensville Civic Centre Grounds 49 Commercial Road, Helensville, do you agree that freedom camping should be prohibited in this area?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** Freedom camping should not be on any road within an urban area with speed limit under 50kph. The suggested bylaw will allow any urban street to become a permitted location for freedom camping. Who would want a large van parked outside their own home for a

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** Having a set departure time will help with enforcing the maximum stay rule

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Having observed the [LACK of] Council Management of Freedom Camping at Matheson Bay [no rangers or compliance officers making patrols] makes a mockery of suggesting all these general rules if council is not serious about managing the bylaw. The nearest ranger is at Warkworth, and works Mon-Fri 9-5 - and freedom camping is at its premium on weekends - no match at all!!

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Thanks for observing the Reserve Act after all this time - Matheson Bay has been abused by freedom campers; the reserve area is too small on busy weekends for day trippers and vans/campers; it has been unmanaged by council, and has left a very bad taste in the mouths of local residents after a potentially good start with the Pilot program. Matheson Bay has a very small facility block - camping vans maybe self contained, but observations show that they prefer to use public facilities rather than their self contained items. Whatever Council does, throughout the whole Super City, management of designated Freedom Camping locations needed to be an honest and upfront part of the bylaw. It is the free range/ free reign aspect of Freedom camping which has seen the local communities lose respect for the practice.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

**Do you have any other comments on the general rules?**

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's GENERAL rules will be ineffective and also unenforceable and in practice will not protect residential streets and roads.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping, Another reason (please explain)

**Another reason (please explain):** I support the self-containment rule except where there is access to public toilets.

I do not support the 2 days max. The period should be longer.

I do not support the 9 a.m. departure. This is too early.

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** 4 nights would be more appropriate

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses. It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities. If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** A no-return of 1 week would be more appropriate. A camper could be say travelling north and heading back south sooner than 2 weeks

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses. It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities. If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses. It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities. ## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

There should be no Freedom Camping in NZ. There are many Government run and privately run campgrounds that provide facilities and supervision of campers. With Freedom Camping areas like Matheson Bay, Leigh there is no supervision and the campers do not self regulate keeping to reasonable numbers and some do not have reasonable behaviour. Supervision is not done by Council and what overseeing there is, is done by residents which is not fair to them and not a good plan. Matheson Bay is a beautiful place but over loved by day visitors and campers and this is not a good situation for visitors or residents. The existing plan that allows camping except in specific places like Leigh Library grounds is not a good plan. It should be obvious and not have to be stated that Leigh Library is not a suitable camping spot even for self contained campervans.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

This survey does not ask the right questions. Taking Matheson Bay, Leigh, Auckland City as an example, there should be no Freedom camping allowed now that there is such pressure by visitors. This situation is going to be much more problematic for Matheson Bay when the Puhoi to Wellsford highway is complete because it there will be very easy access to this area. There could be specifically allocated areas for camping such as the very suitable Tawharanui Park.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom

Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The

Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential

streets and roads

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Another reason (please explain)

**Another reason (please explain):** I am pleased to see that the Reserves Act 1977 will rightly be brought back into law and therefore Matheson Bay reserve will no longer be a place for Freedom Campers. I would hope that this is upheld by Rodney and no exception will be made. We feel that due to the limited number of parking for cars currently, and the lack of street parking, that there is not the room for campervans also. When the pilot was undertaken in our Bay we had campers washing fatty utensils in the basins of the local ablution block and on at least two occasions had campervan waste being poured into the toilet, along with the chemicals that kills the bacteria in our septic system. Rules are good if they are monitored, that being the key.

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Given the volume of Freedom campers these days, it would be better to have a non-return area of 4 weeks to ensure that all have access to popular areas. Avoiding overcrowding.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

If you have penalties for those breaking the act, it would be good to have someone available during the times (after 5pm and on weekends) when these rules are most likely to be broken. Laws are work when penalties are actually implemented on those breaking them. Most campers are great and it is such a shame those that flout the laws ensure they all get a bad name.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom

Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The

Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential

streets and roads

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

Do you not support having general rules because, in your view: Another reason (please explain)

**Another reason (please explain):** I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

### How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

### How do you think the general rules will unfairly impact some people?

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Having very clearly marked designated areas for fully internally serviced vehicles with inspection by AC staff especially in the evenings. No camping at all on urban streets or parking lots.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

We need to be cognisant of the number of freedom campers who want to avail themselves of these spaces. If the camper hasn't booked a campground spot it suggests that they are itinerant campers.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Any new by-law of this nature will need to be monitored to be successful. perhaps an o/night charge could pay for that process.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Without general rules, there is a risk that any problems caused by freedom camping could move from regulated areas to unregulated areas nearby

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

I object to the Council's proposal in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential streets and roads

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Do you have any other comments on the general rules?

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom campers, especially at Omaha Beach. Freedom camping on residential streets is not appropriate. The Council's General Rules will be ineffectual and also unenforceable and in practice will not protect residential streets and roads. Where are they meant to go to the toilet ? In my front yard ?? Is there nobody in the council with even half a brain??

### Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules" will be quite ineffectual. They will not be enforced in practice, because it is not practical to do so city-wide. They are realistically unenforceable, and in practice will not protect residential streets and roads in any real sense.

It is interesting to note the prohibited areas are largely Council owned or managed - Council NIMBY-ism perhaps?

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

Freedom camping on residential streets in Auckland should not be allowed. it is totally inappropriate. This is particularly the case in beach residential areas like the city waterfront and in beach settlements like Omaha beach. There should be no reliance on enforcement as that will be non-existent in practice for the vast numbers of streets.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom

Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The

Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential

streets and roads

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. freedom Camping on residential streets is not appropriate. The Council's General Rules will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Although council has not identified any serviced areas in this proposal, I am aware of serviced areas on public land which should be included

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste. A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities. A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrict

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

There needs to be some way of monitoring the use of these freedom camping sites. The parking area at the end of Sunrise Boulevard, Snells Beach is often full of camper vans some of which are there for more than two nights, and many of which don't move out during the day. Also there are sometimes converted buses, and also trailer type caravans that are obviously not self contained parked there. Does a council staff member visit these sites on a daily basis? like a parking warden?

## Rodney Local Board area

### Prohibited sites

Helensville - Helensville Civic Centre Grounds 49 Commercial Road, Helensville, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Huapai - Huapai Service Centre/Kumeu Library 24 Oraha Road, Huapai, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Waimauku - Waimauku War Memorial Hall 22 Waimauku Station Road, Waimauku, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Leigh - Leigh Library and grounds 15 Cumberland Street, Leigh, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Ti Point - Ti Point walkway Ti Point Road, Ti Point, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Pakiri - Pakiri Hall grounds 1026 Pakiri Road, Pakiri, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

Warkworth - Warkworth Town Hall grounds 2 Alnwick Street, Warkworth D, do you agree that freedom camping should be prohibited in this area?

Tell us why and any other comments you would like to make about this area?

### Restricted sites

Port Albert - Port Albert Wharf Reserve carpark Adjacent to Wharf Road, Port Albert. Do you agree that freedom camping should be restricted in this area?

Which of the proposed restrictions for this area would you want to change at Port Albert Wharf?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area?

**Snells Beach - Whisper Cove (adjacent parking on road reserve) 70 Kokihi Lane, Snells Beach. Do you agree that freedom camping should be restricted in this area? Yes – restricted freedom camping should be allowed, and I support the proposed restrictions**

Which of the proposed restrictions for this area would you want to change at Whisper Cove?

What do you think is the appropriate maximum number of vehicles allowed at this site?

Other (please specify):

What do you think is the appropriate maximum stay at this site?

Other (please specify):

What do you think is the appropriate departure time at this site?

Other (please specify):

What do you think is the appropriate no-return period at this site?

Other (please specify):

Where do you think the freedom camping parking spaces should be located within this area?

**Do you have any other comments you would like to make about this area?** I think there should be three camping sites at the parking area at the bottom of Sunburst Avenue. At the moment there are 5 spaces designated there. However, they are very close together, which I believe is a fire hazard.

It looks like all of these spaces will go, and none be available according to the proposed plan. However, I think there is plenty of room for three selfcontained camper vans plus the private vehicles, and boats and trailers that use this parking area.

**Warkworth - 8 Church Hill carpark, Warkworth. Do you agree that freedom camping should be restricted in this area?**

**Which of the proposed restrictions for this area would you want to change at Church Hill?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, It would be too hard to enforce a set departure time rule

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a shorter no-return period means campers would be able to return to a favourite place if they wa

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, It would be too hard to enforce a set departure time rule

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, It would be too hard to enforce a set departure time rule

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

I do not agree with any part of this proposal to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. I think that Freedom Camping on residential streets will pose many problems, will be hard to monitor and is not appropriate where people are living their daily lives. The Council's General Rules will be hard to enforce and the proposal is completely impractical. It doesn't seem very streamlined or coherent and I cannot see that it is workable in a city like Auckland.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom

Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The

Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential

streets and roads

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

Do you support having general rules because, in your view:

Another reason (please explain):

Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom

Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The

Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential

streets and roads

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.
