We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Re the "harm" impacts - there's no difference between a self-contained freedom camper and a day tripper when it comes to view blocking, littering, smells from cooking, noise, over-use of public facilities etc. As there are usually many more day trippers than freedom campers at a site, I suggest that similar restrictions and limits on numbers at a site be applied to picnickers and day trippers so as to avoid blocking the views of, or offending the olfactory senses of, the entitled residents during daylight hours. After all, at night, when the freedom campers are present, it's dark and they can't see anything anyway. And while you're at it, how about bylaws that manage the impacts of noise, smells, and other unsavory actions of the residents and their BBQs, cooking preferences etc. on public users of council land.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

It's already been identified that reducing the number of spaces for freedom campers only puts more pressure on surrounding areas and increases the risk of non-compliance. Therefore it seems nonsensical to halve the number of spaces in locations such as Gulf Harbour, as there's nowhere else to go. Similar tight restrictions on the number of vehicles allowed will only exacerbate the issue. I suggest higher numbers be allowed in most places. And more places that are listed as "restricted" would spread campers more broadly across the city and reduce the impacts locally - which after all seems to be what the residents want. If you squash them all into a small number of locations and pack them in like sardines, of course the residents will complain. So make more places available, make the limits one-night-only, and enforce bylaws that control litter and other behaviour for EVERYONE. Again, your own research showed that the majority of freedom campers behave responsibly. Can your researcher say the same about day-trippers and picnickers?

## Hibiscus & Bays Local Board area

### Prohibited sites

**Metro Park (East) 218 Millwater Parkway, Silverdale, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

### Restricted sites

**Gulf Harbour Marina, Hammerhead Reserve 40 Gulf Harbour Drive, Guld Harbour. Do you agree that freedom camping should be restricted in this area?** Yes – restricted freedom camping should be allowed, but with different restrictions

**Which of the proposed restrictions for this area would you want to change at Gulf Harbour Marina?**

Maximum number of vehicles

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):** 5+

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?** This is an important overnight spot for people moving through Auckland, and for people who have just arrived in NZ - so once the borders are open again, expect it to come under pressure from tourists as well as locals. It needs to be big enough for them.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses, Shorter stays are already the norm for most freedom campers, so a stricter rule is not necessary

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a shorter no-return period means campers would be able to return to a favourite place if they wa

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

The proposals put forward on the face of it seem fair and in keeping with the freedom camping act. But one of the proposed restrictions seems harsh, especially given the size and limited use by locals of some of these areas. They could easily accomodate more vehicles with little to no inconvenience to locals. By using the proposed departure time but with a restricted arrival time would ensure most campers would be gone and parks available for public use throughout the day, especially in highly desirable areas. As the day ends and the public vacate the area campers could take additional slots and be gone by the proposed departure time the following day. Thereby removing the likelihood that vehicles would be randomly camping around the streets.

Maximum number of vehicles, Maximum stay, Departure time

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):** 5+

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):** 3 nights

**What do you think is the appropriate departure time at this site?** 10am

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?** It's a very large area and could easily accomodate more vehicles safely and with very little inconvenience to locals. It's a long journey out there from the main road with no other options available once out there, forcing campers to park randomly around the streets if the ten slots are taken. Given the entire area is nothing more than a parking lot for ferry commuters and fishers, it doesn't seem too much of a stretch to allow more vehicles and for them to stay three nights if desired.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

Do you support having general rules because, in your view:

Another reason (please explain):

Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule? No – I support another set departure time rule (please explain)**

**No – I support another set departure time rule (please explain):** Midday

**Do you support the set departure time rule because, in your view:**

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** One week

**Do you support the no-return period rule because, in your view:**

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Do you have any other comments on the general rules?

Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

Do you not support having general rules because, in your view: Another reason (please explain)

**Another reason (please explain):** The rules proposed are too permissive, and are constructed in an ingenious way that masks here the permitted areas are. They might be more supportable if the permitted areas were added to the schedule. As stated, the proposal looks manipulative and designed to minimise public opposition.

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

As stated, the consultation process is restricting available responses and is not a good faith effort. For example, several spots in my local area are carte blanche for campers, eg coxes bay, the reserves off pt chevalier road, and campers have previously created nuisance in all these areas. Suggest inclusion of a list of all public places that can be used for camping, and invitation of responses on these. I also note that provisions such as departure times will be difficult to monitor, and will not be enforced unless a complaint is made. Definition of what departure means is also not clear, does moving to the next carpark over within the same site for the day qualify as departure?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule? No – freedom campers should not have to leave by a set time (no set departure time rule)**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities. Another reason (please explain)

**Another reason (please explain):** There might be some places where this is necessary. I.e. Takapuna beach, but a place like little shoal bay, give people the time to pack up and move on with their day. Campervans etc are all about finding that slower pace of life.

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities. Another reason (please explain)

**Another reason (please explain):** There might be some places where this is necessary. I.e. Takapuna beach, but a place like little shoal bay, give people the time to pack up and move on with their day. Campervans etc are all about finding that slower pace of life.

**Is this because, in your view:** Campers should have the right to come back to favourite places during their trip, A no-return period is not necessary: most campers don't return to the same place. Another reason (please explain)Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities. Another reason (please explain)

**Another reason (please explain):** There are some people who own vans that utilise on street parking in their own streets. Would be sad to limit them. By having a maximum days and but no no-return they have an out.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Although council has not identified any serviced areas in this proposal, I am aware of serviced areas on public land which should be included, Although no serviced areas have been identified in this proposal, providing sites suitable for non-self-contained vehicles should be a priority for council, It makes sense to match our self-containment requirements to the National Standard, It would be too hard to enforce the self-containment rule without referencing the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses, Shorter stays are already the norm for most freedom campers, so a stricter rule is not necessary, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a shorter no-return period means campers would be able to return to a favourite place if they wa

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

There should be an allowance for a person to park their self contained vehicle on the road near their property without restrictions above those already in place for other vehicles.

Otherwise these bylaws will be open to abuse.

## Devonport-Takapuna Local Board area

### Prohibited sites

**Queens Parade, Devonport, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed subject to the general rules

**Tell us why and any other comments you would like to make about this area?** This area is time controlled and paid parking anyway. There is no reason to further restrict against a problem that doesn't exist.

**Becroft Park Reserve 8A Becroft Drive, Forrest Hill, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed with area specific restrictions

**Tell us why and any other comments you would like to make about this area?** Overnight only. It should be legal to camp overnight when the carpark is not in use.

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed subject to the general rules

**Tell us why and any other comments you would like to make about this area?**

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed subject to the general rules

**Tell us why and any other comments you would like to make about this area?**

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area?** No – freedom camping should be allowed subject to the general rules

**Tell us why and any other comments you would like to make about this area?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** Campers should be in a designated area that can cope with it.

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** 7am , im not sure if aucklands rush hour has been considered here

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? No – I support another no-return period rule (please explain)**

**No – I support another no-return period rule (please explain):** Freedom campers are exploring nz , we must be talking about homeless people if we think they are likely to keep coming back

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The kind of vehicle used for freedom camping in Auckland should be a personal choice, Using a vehicle that is not self-contained does not pose a risk to the environment or public health and safety, The cost of buying, hiring, or converting to a self-contained vehicle is too high, and that could mean some people can't afford to freedom camp in Auckland, It would be too hard to enforce a self-containment rule

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay for an indefinite period in the same road or off-road parking area (no maximum stay rule)

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles should be allowed to come back to stay in the same area after dumping their waste responsibly, it is not necessary to prevent their return through this rule, No maximum stay gives campers the best opportunity to enjoy the area and support local businesses, Shorter stays are already the norm for most freedom campers, so a maximum stay rule is not necessary

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

**Is this because, in your view:** Campers should have the right to come back to favourite places during their trip, A no-return period is not necessary: most campers don't return to the same place. Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Let's share these beautiful sights. Not sure why we have to limit, restrict and show such greediness. Freedom camping is a given right and shouldn't be altered.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** By joining with other Councils to campaign for the freedom camping law to be abolished.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** Several times before Covid-19 I have observed up to 20 vans parked overnight in the reserve carpark at Narrow Neck Beach.

They were not allowed to be there, yet Council couldn't stop them.

So, clearly Council would fail to police freedom campers anywhere.

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Requiring campers to leave at 8am, before standard business hours begin, protects access to shared parking or other amenities for other users – which is more of a priority than campers' convenience

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Having a longer no-return period means most campers are unlikely to visit an area more than once

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

I strongly object to having any freedom camping at all due to all the well known inherent problems.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

I do not support any freedom camping anywhere in NZ due to the long history of problems it creates.

All campers should be forced to use a proper camping ground.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Some of the marked carparks at the southern end of Queen Street in the vicinity of Te Onewa (Northcote) Wharf are diagonal parking. For Large RV's these means that they stick out a long way into the road. I cycle around here and large vehicle parked here cause a H&S issue. I don't think diagonal parked freedom camping should be allowed in this area. At a minimum I request a roading engineer assesses the situation here.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-

**Another reason (please explain):**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users. If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrict

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Although no serviced areas have been identified in this proposal, providing sites suitable for non-self-contained vehicles should be a priority for council

**Another reason (please explain):**

**Is this because, in your view:**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

Although I don't believe freedom camping in properly certified self contained vehicles does cause a problem . It's the vehicles that are not csc or got a csc cert but don't meet the requirements that are the problem . Better policing of the csc system would help .zAt present you can buy a blue sticker of FB marketplace.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, Although council has not identified any serviced areas in this proposal, I am aware of serviced areas on public land which should be included, Although no serviced areas have been identified in this proposal, providing sites suitable for non-self-contained vehicles should be a priority for council, It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Rodney Local Board area

### Prohibited sites

**Helensville - Helensville Civic Centre Grounds 49 Commercial Road, Helensville, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Huapai - Huapai Service Centre/Kumeu Library 24 Oraha Road, Huapai, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Waimauku - Waimauku War Memorial Hall 22 Waimauku Station Road, Waimauku, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Leigh - Leigh Library and grounds 15 Cumberland Street, Leigh, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

**Ti Point - Ti Point walkway Ti Point Road, Ti Point, do you agree that freedom camping should be prohibited in this area? No – freedom camping should be allowed with area specific restrictions**

**Tell us why and any other comments you would like to make about this area?** Ti Point is an isolated spot which is well known for rock climbing, fishing and diving. Including this seems inconsistent with the purpose of both the act and the proposed bylaw.

**Pakiri - Pakiri Hall grounds 1026 Pakiri Road, Pakiri, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

**Warkworth - Warkworth Town Hall grounds 2 Alnwick Street, Warkworth D, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

### Restricted sites

**Port Albert - Port Albert Wharf Reserve carpark Adjacent to Wharf Road, Port Albert. Do you agree that freedom camping should be restricted in this area?**

**Which of the proposed restrictions for this area would you want to change at Port Albert Wharf?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** The number of prohibited areas in the schedule should be drastically increased rather than saying freedom campers can go anywhere except to a very, very small number of prohibited or restricted areas. In the proposed form of bylaw virtually the whole of Auckland's streets and car parks etc are open to freedom campers which is far too wide. It is far more logical for campers to know what areas are allowed and it makes enforcement so much easier too.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Stringent policing with strong deterrents

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? No – I support another no-return period rule (please explain)**

**No – I support another no-return period rule (please explain):** It should not be limited to the same road but rather the same suburb or area. The maximum stay time and leaving time are acceptable but only in the designated allowable areas not over the entire city otherwise campers will "street hop" in the same area just moving from street to street close by or just around the corner.

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Do you have any other comments on the general rules?

Yes as above proposed bylaw is flawed. Rather than permitting everywhere except a very small number of permitted and restricted areas it should be turned around and provide it is not permitted except in a very small number of permitted or restricted areas

### Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Proposed bylaw is worse than the last proposed bylaw as it's far too wide now. It will lead to freedom campers being able to camp basically anywhere all over Auckland for as long as they like in any suburb or area by street hopping and be almost impossible to enforce because it is such a big area to enforce. By restricting it to a much smaller number of permitted or restricted areas there won't be as many wide scale problems such as noise and anti social behaviour as the areas will be more contained making enforcement easier.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

I don't like the self contained rule because I ride a motorcycle and freedom camp with a hammock. I use public restroom facilities.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Not everyone uses a car to go freedom camping, this, therefore, restricts excludes and discriminates against bicycles, motorcycles and te araroa trail walkers from being able to freedom camp by not being self-contained. The other changes are acceptable.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** The answer is that you will not - because it will be impossible to police/monitor.

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** Supporting this rule means supporting the whole proposal; which is so deeply flawed it is unbelievable the Council ever considered it.

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain): 7am**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? No – I support another no-return period rule (please explain)**

**No – I support another no-return period rule (please explain):** Again, support these questions and support the whole. A badly designed question. Also again, who monitors this?

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Do you have any other comments on the general rules?

So AT wants to stop residents parking on streets, but wants to allow freedom campers to do this.

Is anyone there looking at consistency?

### Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

How come the Birkenhead area isn't in your list?

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, and council has not identified any serviced areas in this proposal

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

How will council enforce / properly check self-containment? How many officers will be employed/are there to regularly monitor sites where people stay to ensure they are USING the onboard toilet and not the bushes?

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

It's not good to let freedom campers park on a suburban street or a school parking lot.

I live beside Little Shoal Bay and there are regularly people who live there in their vans/cars. This is a safety and sanitation issue, so it is good there is now a law regarding two nights. Currently I see no enforcement persuading the people there to leave. It is thus unsafe for my daughter to walk past them on her own to school.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping. Another reason (please explain)

**Another reason (please explain):** To protect the environment from irresponsible freedom campers. There are certainly more responsible freedom campers than irresponsible and it is upsetting when the few spoil it for the majority.

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

Totally agree with part 4

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Hibiscus & Bays Local Board area

### Prohibited sites

**Metro Park (East) 218 Millwater Parkway, Silverdale, do you agree that freedom camping should be prohibited in this area?**

**Tell us why and any other comments you would like to make about this area?**

### Restricted sites

**Gulf Harbour Marina, Hammerhead Reserve 40 Gulf Harbour Drive, Guld Harbour. Do you agree that freedom camping should be restricted in this area?** Yes – restricted freedom camping should be allowed, but with different restrictions

**Which of the proposed restrictions for this area would you want to change at Gulf Harbour Marina?**

Maximum number of vehicles

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):** Other suggestion: The area should be split half and half between boaties and campervanners.

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?** This is a beautiful spot and we have loved staying here over the years. It is currently spoiled by permanents who have taken over. We won't go any more - they make us feel threatened plus they hog all the best spots. Bring in the Rules, please! And enforced them!!! For the sake of responsible freedom campers

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I understand the problem and self containment rules are a good idea, but please not those old fashioned rules theyre trying to implement - these (NZMCA derived) rules were never designed with the rigour required for this kind of limitation. They suit the NZMCA and their typical formats, but not everyone.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The kind of vehicle used for freedom camping in Auckland should be a personal choice, Using a vehicle that is not self-contained does not pose a risk to the environment or public health and safety, The cost of buying, hiring, or converting to a self-contained vehicle is too high, and that could mean some people can't afford to freedom camp in Auckland, It would be too hard to enforce a self-containment rule, Another reason (please explain)

**Another reason (please explain):** Of course freedom campers need access to toilet facilities, however there is a large community of four wheel drive enthusiasts who love camping, and typically a toilet is the only element missing from a well-equipped camping setup. This prevents the vehicles being certified as self-contained.

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

Do you not support having general rules because, in your view: Another reason (please explain)

**Another reason (please explain):** Safety for staff at Sports sites used from 5.30 to 22.00 when arriving and departing and also using the centres facilities when they are open

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this, Having a set departure time will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Most overseas countries forbid freedom camping, especially Europe, why is it allowed in NZ. These people are not supporting local cafes and business other than supermarkets to buy provisions

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers, especially at Omaha Beach. Freedom Camping on residential streets is not appropriate. The Council's General Rules" will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Another reason (please explain)

**Another reason (please explain):** While I accept there should be rules making them too draconian or complicated is against the spirit of it being council owned ie public land tht we pay rates to use etc. I see no issues with any public council owned car parks or reserves being available for single night overnight stays from say 4pm to 9 am for self contained vehicles.

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I would like to submit my feedback for Beach Haven Road, Beach Haven. The road narrows at the end of Beach Haven Road leading down to the wharf and there is no carpark or turning area. Many cars already park on the LHS and cause congestion. Pedestrians and cyclists frequently use this road to access the beach and catch the ferry. There is also a public toilet building and bus stop. Freedom camping vehicles will cause further congestion to this area and having to reverse and turn around in a limited space poses a threat to public safety. This is a recreational area, many people gather down here, some with small children and dogs. I have already witnessed many "almost" accidents. I don't believe there is enough space for freedom camping in this area.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Allow NO freedom camping as freedom campers do not respect the environment and leave the place with rubbish and worse behind. Not a safe environment for our children to have campers outside on the street.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

#### **Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

Where is the prohibited area for BEACH HAVEN and BEACH HAVEN WHARF? Why has this not been protected? I am disgusted that this has been left of these submissions and propose that BEACH HAVEN and BEACH HAVEN WHARF become prohibited areas for freedom camping. This is degrade our neighbourhood, make our environment dirty and our community for our children unsafe!

#1261

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** No freedom camping in NZ - our campgrounds are ample and amazing and able to manage the needs of the campers

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** 7am when everyone is up and on the roads looking for parks and buying coffee

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** 2 month period

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Do you have any other comments on the general rules?

again - i do not support freedom camping it is a nuisance and increases crime in urban areas also leaves it open to abuse of those just sleeping rough not genuinely freedom camping, and in rural areas in unhygienic and puts the environment at risk

our campgrounds are plentiful and well resourced.

### Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** I believe it is incredibly blinkered of the council to generalise where freedom campers may stop. This proposed rule will be open to constant abuse and cause many issues, particularly on residential streets, industrial estates and parks. Freedom camping areas MUST be properly identified and policed, no other options.

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, and council has not identified any serviced areas in this proposal

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Don't have them at all. Definitely do not allow them to park on just any public street. I do not want to wake up and find somebody hanging out their laundry or shaving their face in front of my house. They should be restricted to specific areas, and that does not include residential areas, nor should it include areas like the bottom of Colonial Rd, Birkenhead, which is already a problem for litter and dubious characters hanging out there, making it feel unsafe to go for a bush walk.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Good question - how are these rules to be policed? Is it up to residents to move them on or notify authorities? Just shrink the number of available places so much that they're forced to stay in campgrounds, where they should be anyway.

### How do you think the general rules will unfairly impact some people?

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store

water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I cannot believe that there are no prohibited or restricted areas in Kaipatiki or Otahuhu. This smacks strongly of a bias toward keeping freedom campers out of higher income areas and is frankly a disgusting attempt to dump freedom campers on our doorsteps. We. Do. Not. Want. Them. Please go back and have a good look at restricting campers to a very few carparks, such as those at Little Shoal Bay if we have to have them, with some amenities. Despite the self-contained rule, people would still rather toilet someplace other than where they sleep.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

Do you not support having general rules because, in your view: Another reason (please explain)

**Another reason (please explain):** Freedom camping will encourage more people to sleep in vehicles without toilet amenities. Already we see in Northcote Point evidence of freedom campers with vans that are not equipped with proper toilet facilities defecating in public areas around Northcote Wharf, camping on reserve land and dumping rubbish.

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** Vehicles should have full toilet and shower facilities. Currently, a vehicle may be registered as self-contained by having a porta-potty, which invariably is never used.

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** The vandalism, defecation and dumping of rubbish from freedom campers is already apparent in Northcote Point. It is irresponsible that Aucckland Council encourages freedom camping that means commuters need to sidestep camping debris and toilet waste walking on the streets and getting access to the Wharf. Freedom campers are not paying rates, and this policy encourages anti-social behaviour when groups of individuals gather to spend time freedom camping by taking over a road area or reserve for partying.

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** Freedom campers should move at 7am. Invariably they have camping debris including bbq's and washing lines strung out on reserves that inhibit local residents from going about their day to day business.

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** In summary, I don't support freedom camping because there is no safety or protection for local residents. Most freedom campers that I see are in small vans without proper facilities.

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

Very disappointed that Auckland Council has not considered the impact of this proposal on rate payers.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Why are there no restricted areas in Northcote Point? How will Auckland Council police the area for anti-social behaviour, rubbish dumping, defecation and vandalism? See attachment for more info

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Restrict freedom campers to camp sites

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** How would this ever be be policed? The proposed law says all vehicles must be self contained but note that every proposed area has public toilets so the expectation is that non-complying vehicles would park there.

**How do you think the general rules will unfairly impact some people?** Parking near the Beach Haven wharf will impact ferry commuters - these car parks are needed well before 9am. Again, how would compliance be policed? We will see homeless people sleeping in their cars and the potential problems that could bring to neighbourhoods.

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store

water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrict

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Rules are irrelevant if there is no enforcement. The Proposal is silent about what resources will be applied to enforcement. In the Freedom Camping proposal of 2019, Council deflected questions on this with statements that enforcement is not the responsibility of a Freedom Camping Bylaw and that they have a Bylaw Enforcement team to manage this. Unfortunately Council complaint response times are inadequate as they are mismatched to the General Rules proposed for what is a very transient group of travellers. It is disingenuous for Council not to be upfront within a Proposal on the addition resource requirement and budget any new Bylaw would require. I would like to understand how Council proposes to enforce any new Bylaw before it is introduced. This matter is not answered by the "graduated" approach outlined in the Proposal. Without adequate funding for enforcement the new Bylaw is at risk of failure and causing widespread resentment from the community.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

'1. I fully support the proposed ban on freedom camping in Reserves.

2. I do not think the roadside is an appropriate place to allow freedom camping from either a safety perspective or for the loss of amenity value it will cause ratepayers. Roadside camping in any urban environment does not seem a sensible

practice for Council to endorse with possible legal/moral ramifications from a safety perspective. Campers parked outside a house that has a "lovely view" which the camper wants to take advantage of will put them into direct conflict with local residents and ratepayers. Council should prioritise ratepayer amenity value rather than that of a freedom camper.

3. There is little consistency in the prohibited/restricted areas eg certain areas near wharfs have been designated but others have not (eg Nothcote/Birkenhead wharfs) and some town centres have protection and others do not.

4. There should be a "one strike and you are out" rule for those found infringing any Rule.

5. By allowing freedom campers free access throughout the City (other than identified areas) does not minimise the "impact". The same level of "impact" will be felt it will just be in smaller individual amounts but felt by many residents. This type of "impact" will be much easier for Council to sweep under the carpet.

I do not believe that the Proposal is fit for purpose as certain provisions in it are counter to:

- The Freedom Camping Act that recognises that some areas may not be suitable for any Freedom Camping and
- One of Councils objectives is to provide "more suitable areas where the impacts will be low and can be managed"

Quiet suburban roadsides and busy roads are not "suitable" from both a safety and ratepayer amenity value perspective. In addition the Rules proposed need a detailed and funded enforcement plan which is sorely lacking in the Proposal.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

Do you not support having general rules because, in your view: Another reason (please explain)

**Another reason (please explain):** A blanket ban is enforceable as demonstrated in Nelson. Therefore freedom campers should go to camping grounds or designated sports-hub facilities where they can pay a minimal charge for access to toilets and rubbish facilities. Ratepayers should not be required to subsidise these lifestyle choice of these so called "freedom campers".

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** Please provide your enforcement plans before passing any by-laws as this is a nonsense otherwise.

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** Please provide your enforcement plans before passing any by-laws as this is a nonsense otherwise.

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** Please provide your enforcement plans before passing any by-laws as this is a nonsense otherwise.

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** Please provide your enforcement plans before passing any by-laws as this is a nonsense otherwise.

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Please explain your enforcement plans before passing any by-laws as this is a nonsense otherwise.

[Do you have any other comments on the general rules?](#)

I object to the Council's proposal in its entirety in regard to opening up the streets of Auckland to Freedom Campers. Freedom Camping on residential streets is not appropriate. The Council's General Rules will be ineffectual and also unenforceable and in practice will not protect residential streets and roads.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):** The rule relating to self-contained vehicles is appropriate. However “self-contained” brings to mind nice “Maui” type vans. Unfortunately the “Juicy” van can also get “self-contained certification” as they have a loo under the seat/bed. It should be noted that rental rebates were given if the seal on the loo was unbroken when returned. This is not in the spirit of what Council is defining as self-contained and encourages toilet habits that are not conducive to Councils aims. Note: Juicy is no longer operating however a similar business will undoubtedly open up as tourism returns to NZ. Council needs to force an improvement to the self-contained certification process if their objectives are to be met. At the time of writing, the Government has indicated that some rules surrounding Freedom Camping are under revision including definitions around self-contained toilet requirements and penalties. We urge Council to ensure that these revisions are understood and reflected in the new Bylaw. We are concerned with the following statement within the proposal “sites suitable for non-self-contained freedom camping may be developed in future however, and if so, the bylaw schedules can be amended to reflect this”. The Proposal is silent on how this process would be implemented. We request information on this process and strongly recommend that any area considered be subject to public consultation prior to it being opened to non-self-contained vehicles. Rules are irrelevant if there is no enforcement. The Proposal is silent about what resources will be applied to enforcement. In the Freedom Camping proposal of 2019, Council deflected questions on this with statements that enforcement is not the responsibility of a Freedom Camping Bylaw and that they have a Bylaw Enforcement team to manage this. Unfortunately Council complaint response times are inadequate for what is a very transient group of travellers. It is disingenuous for Council not to be upfront within a Proposal on the additional resource requirement and budget any new Bylaw would require. We would like to understand how Council proposes to enforce any new Bylaw before it is introduced. This matter is not answered by the “graduated” approach outlined in the Proposal. Without adequate funding for enforcement the new Bylaw is at risk of failure and causing widespread resentment from the community. Regarding penalties we recommend that if a Freedom Camper has been found to break any of the rules then they

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

### Do you support the proposed set departure time rule?

**No – I support another set departure time rule (please explain):** 9am is too late in the morning if the parking area is one regularly used by commuters. Alternatives: move the vacation time to 8am OR ban Freedom Camping from areas used

by commuters. In our local area examples would be adjacent to Birkenhead and Northcote

### Do you support the set departure time rule because, in your view:

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

### Do you support the proposed no-return period rule?

**No – I support another no-return period rule (please explain):**

### Do you support the no-return period rule because, in your view:

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Do you have any other comments on the general rules?

### Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

“enabling freedom camping to happen in more suitable areas where the impacts will be low and can be managed”: Not met - A roadside is not a “suitable area” in relation to traffic accident risk or loss of

amenity to ratepayers. Not met – “The impacts will be low”, in reality the same amount of negative “impact” will be felt from this Proposal. The difference is it will be spread through the City in smaller individual amounts and be far less easily managed eg rubbish bags left in many different places, a toilet “deposit” behind a tree or a ratepayers wall. Cynically one could say that one ratepayer complaining about a camper outside his house is easier for Council to ignore rather than manage. Not met – “can be managed” requires resources to manage and enforce. No resources have been allocated. The Proposal states that “most breaches of the bylaw will be low risk”. Individual cases may be deemed as “low risk” however to individual ratepayers trying to get a timely response to a breach, it will be immensely frustrating. “setting stricter rules in specific areas where they are required (because the areas are known or likely to be desirable to freedom campers, and their protection is justified under the Freedom Camping Act 2011 to protect the area, public health and safety, or access to the area)”. Not met - “stricter rules” and “protection” only work if they can be policed effectively. There is no discussion in the Proposal on how this will be done or the additional Budget allocated. “having general rules for all other areas that: a. “are simple and regionally consistent” Not met - the area noted at Queens Parade Devonport has parking restriction but is a

Prohibited Area yet the area approaching Northcote Point Warf is not noted as either Prohibited or Restricted and yet has no parking restrictions. “protect Auckland’s environment and public health, by ensuring that all campers have access to a toilet, drinking water and suitable places to cook and wash” Not met - the self-contained certification that the Bylaw relies on is flawed. It is illogical that Council would draft a Bylaw that relies on flawed regulations. Not met – to “protect” requires appropriate response times and resources. Council has neither the systems nor resources to support this objective. Flawed objective – we do not believe that providing such facilities in an urban environment is either appropriate or that the community be expected to support such an objective. “protect access for everyone to shared amenities and parking.” Not met – A Freedom Camper parked outside a ratepayers house blocking their view/taking up the car parking will not feel that the Freedom Camper (non-ratepayer) should have access to this particular “shared amenities and parking”. Not met - Commuters looking for a park near a ferry terminal finding some taken by Freedom Campers will not feel that the Freedom Camper (non-ratepayer) should have access to this particular “shared amenities and parking”. Met - Reserves not open for Freedom Camping. In summary – the proposed by-law does not meet Auckland Council’s stated objectives. And neither does it add value for the ratepayers and community that Auckland Council is paid to represent. Alternatives Council is required by the Freedom Camping Act to “considered other ways to manage the problem, other than through a bylaw”. The following are alternatives to the Proposal which Council could consider: The existing campsite industry is set up to service and manage campers of all varieties. We urge Council to consider partnering with the industry for them to provide service to the Freedom Camping community. In this way Freedom Campers get a properly managed camping experience with no local resident backlash and the Campsite industry gets a much needed shot in the arm. The current 11 sites open to Freedom Camping could be expanded upon. These areas would contain the harm that Freedom Camping can cause rather than spreading it throughout the city. Investigate the use of “micro-sites”. These would be for a handful of parks at various locations across the city. Examples could be in town/village centre car parks and by encouraging organisations such as clubs/RSA’s to allocate a few parks and direct a small revenue stream into their facilities. See attachment for more info

**Submission of the Birkenhead Residents Association on  
Proposed Freedom Camping in Vehicles Bylaw**

3 December 2021

The Birkenhead Residents Association (BRA) is proud to represent the community of Birkenhead in the Kaipatiki Local Board area.

This submission relates to the proposed Freedom Camping areas within Birkenhead and also provides general feedback on the Bylaw.

**We do not support the proposed Bylaw in its current form.**

**We request the opportunity to give verbal feedback to the Panel.**

The proposal reflects a significant change in community outcomes and environmental risk. Further, the lack of clarity on local compliance and enforcement of both certified and non-certified vehicles will lead to widespread failure and resentment from the community. The rules are insufficient and not appropriate in an urban environment where community access to local leisure resources is already under pressure.

**The following feedback covers:**

In regard to General Rules proposed:..... 1  
 In regard to Prohibited, Restricted and Reserves rules: ..... 2  
 Does the Proposal meet Councils intended purpose/objectives?..... 3  
 Alternatives ..... 4

**In regard to General Rules proposed:**

In principle we support having General Rules as noted in the Proposal **BUT** with the following comments and amendments:

1. 9am is too late in the morning if the parking area is one regularly used by commuters. Alternatives: move the vacation time to 8am OR ban Freedom Camping from areas used by commuters. In our local area examples would be adjacent to Birkenhead and Northcote wharfs.
2. The rule relating to self-contained vehicles is appropriate. However “self-contained” brings to mind nice “Maui” type vans. Unfortunately the “Juicy” van can also get “self-

contained certification” as they have a loo under the seat/bed. It should be noted that rental rebates were given if the seal on the loo was unbroken when returned. This is not in the spirit of what Council is defining as self-contained and encourages toilet habits that are not conducive to Councils aims. Note: Juicy is no longer operating however a similar business will undoubtedly open up as tourism returns to NZ. Council needs to force an improvement to the self-contained certification process if their objectives are to be met.

3. At the time of writing, the Government has indicated that some rules surrounding Freedom Camping are under revision including definitions around self-contained toilet requirements and penalties. We urge Council to ensure that these revisions are understood and reflected in the new Bylaw.
4. We are concerned with the following statement within the proposal “sites suitable for non-self-contained freedom camping may be developed in future however, and if so, the bylaw schedules can be amended to reflect this”. The Proposal is silent on how this process would be implemented. **We request information** on this process and strongly recommend that any area considered be subject to public consultation prior to it being opened to non-self-contained vehicles.
5. Rules are irrelevant if there is no enforcement. The Proposal is silent about what resources will be applied to enforcement. In the Freedom Camping proposal of 2019, Council deflected questions on this with statements that enforcement is not the responsibility of a Freedom Camping Bylaw and that they have a Bylaw Enforcement team to manage this. Unfortunately Council complaint response times are inadequate for what is a very transient group of travellers. It is disingenuous for Council not to be upfront within a Proposal on the additional resource requirement and budget any new Bylaw would require. We would like to understand how Council proposes to enforce any new Bylaw before it is introduced. This matter is not answered by the “graduated” approach outlined in the Proposal. Without adequate funding for enforcement the new Bylaw is at risk of failure and causing widespread resentment from the community.
6. Regarding penalties we recommend that if a Freedom Camper has been found to break any of the rules then they should be prohibited from Freedom Camping within the City for 4 (?) weeks.

### In regard to Prohibited, Restricted and Reserves rules:

In principle we support having restricted areas **BUT** with the following comments and amendments:

1. We strongly support prohibiting Freedom Camping from all Reserves but are very concerned with the statement “except where it has been specifically considered and approved”. The Proposal is silent on how this process would be implemented. **We request information** on this process and strongly recommend that any Reserve under consideration to be opened up for Freedom Camping be subject to prior public consultation.
2. We do not see any consistency in the 45 Prohibited or 22 Restricted areas. For example only certain Civic Centres, Wharf and Town Centre areas are designated. Why are all areas like this not so protected? For example; the areas near Birkenhead and Northcote wharfs are not noted nor is Birkenhead or Northcote shopping centres.
3. We note there are NO protected areas in Kaipatiki. We strongly support protecting the areas listed by the Kaipatiki Local Board and the submission they have made.

4. One of the consequences of the Proposal is to allow Freedom Camping on the roadside. We strongly request that Freedom Camping be prohibited from **all** roadside areas:
  - a. We **DO NOT** consider the roadside is an appropriate place to allow Freedom Camping. Safety of campers and road users must be a priority. The Proposal needs to address this. If Freedom Camping is allowed on the roadside then enforcement is paramount but without additional resources this cannot be effectively managed.
  - b. Whilst there are some lovely roadsides for Freedom Camping (Paratai Drive, Waimana Ave etc) we doubt the home owner who has one or two Freedom Campers outside their home would agree. The Proposal does not protect ratepayers from the loss of amenity value from this consequence of the Proposal; the loss of a view, their rubbish bin used and perhaps a hedgerow used as a toilet. Good sites will get to be known (social media/apps targeting Freedom Camping for instance) and will be an ongoing problem. There is a degree of “pack” mentality within some Freedom Camping circles.
  - c. The Freedom Camping Act recognises that some areas may not be suitable for any Freedom Camping (Proposal page 6). Quiet suburban roadsides and busy roads are not “suitable” and could be seen as counter to the Act.

### Does the Proposal meet Councils intended purpose/objectives?

#### Assessment of whether the proposal meets Council Objectives (Proposal page 9):

1. “enabling freedom camping to happen in more suitable areas where the impacts will be low and can be managed”:
  - a. **Not met** - A roadside is not a “suitable area” in relation to traffic accident risk or loss of amenity to ratepayers.
  - b. **Not met** – “The impacts will be low”, in reality the same amount of negative “impact” will be felt from this Proposal. The difference is it will be spread through the City in smaller individual amounts and be far less easily managed eg rubbish bags left in many different places, a toilet “deposit” behind a tree or a ratepayers wall. Cynically one could say that one ratepayer complaining about a camper outside his house is easier for Council to ignore rather than manage.
  - c. **Not met** – “can be managed” requires resources to manage and enforce. No resources have been allocated.
  - d. The Proposal states that “most breaches of the bylaw will be low risk”. Individual cases may be deemed as “low risk” however to individual ratepayers trying to get a timely response to a breach, it will be immensely frustrating.
2. “setting stricter rules in specific areas where they are required (because the areas are known or likely to be desirable to freedom campers, and their protection is justified under the Freedom Camping Act 2011 to protect the area, public health and safety, or access to the area)”
  - a. **Not met** - “stricter rules” and “protection” only work if they can be policed effectively. There is no discussion in the Proposal on how this will be done or the additional Budget allocated.
3. “having general rules for all other areas that:
  - a. “are simple and regionally consistent”  
**Not met** - the area noted at Queens Parade Devonport has parking restriction but is a Prohibited Area yet the area approaching Northcote Point Warf is not noted as either Prohibited or Restricted and yet has no parking restrictions. Why do certain civic/town centre areas get Prohibited zoning and others do not?

- b. “protect Auckland’s environment and public health, by ensuring that all campers have access to a toilet, drinking water and suitable places to cook and wash”

**Not met** - the self-contained certification that the Bylaw relies on is flawed. It is illogical that Council would draft a Bylaw that relies on flawed regulations.

**Not met** – to “protect” requires appropriate response times and resources. Council has neither the systems nor resources to support this objective.

**Flawed objective** – we do not believe that providing such facilities in an urban environment is either appropriate or that the community be expected to support such an objective.

- c. “protect access for everyone to shared amenities and parking.”

**Not met** – A Freedom Camper parked outside a ratepayers house blocking their view/taking up the car parking will not feel that the Freedom Camper (non-ratepayer) should have access to this particular “shared amenities and parking”.

**Not met** - Commuters looking for a park near a ferry terminal finding some taken by Freedom Campers will not feel that the Freedom Camper (non-ratepayer) should have access to this particular “shared amenities and parking”.

**Met** - Reserves not open for Freedom Camping.

In summary – the proposed by-law **does not meet Auckland Council’s stated objectives**. And neither does it add value for the ratepayers and community that Auckland Council is paid to represent.

## Alternatives

Council is required by the Freedom Camping Act to “considered other ways to manage the problem, other than through a bylaw”. The following are alternatives to the Proposal which Council could consider:

- a. The existing campsite industry is set up to service and manage campers of all varieties. **We urge Council to consider partnering with the industry for them to provide service to the Freedom Camping community**. In this way Freedom Campers get a properly managed camping experience with no local resident backlash and the Campsite industry gets a much needed shot in the arm.
- b. The **current 11 sites open to Freedom Camping could be expanded upon**. These areas would contain the harm that Freedom Camping can cause rather than spreading it throughout the city.
- c. **Investigate the use of “micro-sites”**. These would be for a handful of parks at various locations across the city. Examples could be in town/village centre car parks and by encouraging organisations such as clubs/RSA’s to allocate a few parks and direct a small revenue stream into their facilities.

Thank you.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

#### **Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, It is not necessary to impose basic rules on freedom campers everywhere in Auckland. Another reason (please explain)

**Another reason (please explain):** THE BASIC SOLUTION TO FREEDOM CAMPING ISSUES IS FLAWED,

THE SOLUTION SHOULD BE PROVIDE BASIC TOILETS & LARGE GENERAL WASTE CONTAINERS AT PARKING LOCATIONS,, & NOT TO INHIBIT PEOPLES FREEDOMS. NZ IS OBSESSED WITH RULES, !!

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** PROVIDE BASIC TOILET FACILITIES, & LARGE GENERAL WASTE BINS, AT PLACES OF INTEREST, ALLOW ONE OVERNIGHT PARK UP FOR REST & RECUPERATION OF DRIVER,,, NZ seems to prefer restriction favoring one party to pragmatic solutions to what is called for by ALL partys

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store

water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The kind of vehicle used for freedom camping in Auckland should be a personal choice, Using a vehicle that is not self-contained does not pose a risk to the environment or public health and safety, The cost of buying, hiring, or converting to a self-contained vehicle is too high, and that could mean some people can't afford to freedom camp in Auckland. Another reason (please explain)

**Another reason (please explain):** BASIC TOILET FACILITY'S SHOULD BE PROVIDED & LARGE GENERAL WASTE BINS, AT SITES OF INTEREST! SOLUTIONS SHOULD BE ON A WIN FOR ALL BASIS NOT FAVORING ONLY ONE PARTY!!

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? No – I support another no-return period rule (please explain)**

**No – I support another no-return period rule (please explain):** FIVE DAY NON RETURN RULE FACILITATE BETTER AS PEOPLE MAY BE PASSING THROUGH & ONLY REQUIRE A RECUPERATION STOP ON THEIR JOURNEY OF A WEEK OR LONG WEEKEND AWAY

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

NZ SEEMS TO HAVE A VERY NARROW CONSTRUCTIVE MINDSET TO PROBLEM SOLVING,

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle. Another reason (please explain)

**Another reason (please explain):** They shouldn't be dominating or putting undue pressure on facilities available for all public - bbqs, showers, toilets, tables etc

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this, Having a set departure time will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** Goes against the idea of freedom camping. Freedom camping should be permitted and dated within specific regions and capped to manage the overall number of freedom campers in an area at one time.

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Do you have any other comments on the general rules?

Freedom Camping shouldn't be available in metro areas April - October. There is already too much congestion. Outside these times it makes sense.

### Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Albert-Eden Local Board area

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule? No – I support another maximum stay rule (please explain)**

**No – I support another maximum stay rule (please explain):** Only in specifically designated freedom camping areas not general road/street

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Why is it carte Blanche to freedom camp on our doorsteps apart from a small number of restricted sites. It should be the other way around where Freedom camping should be restricted to designated non-residential areas, as is in other parts of the country. Freedom camping brings mess noise and minimal economic contribution to Auckland.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

I am disappointed that there are no proposed prohibited and restricted areas in Māngere. Especially as that is where many of the vehicles used for freedom camping are stored.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

We live at Kiwi Esplanade, Mangere Bridge. We already have a problem with people staying overnight, for many days on end at times. Invariably they are not self contained vehicles. in the morning there is often a pile of used baby wipes, tissues, bottles, cans, takeaway wrappers, and all manner of other rubbish etc dumped on the side of the road- very gross. Even worse- as there is no toilet, " well I will leave that one to your imagination ! " There have been many instances of unruly drunken behaviour, despite an alcohol ban. NB: There is a legitimate place to park overnight at Ambury Park, just up the road.

Our area is renowned for its peacefulness, quietness, bird sanctuary. It is used by many many families for walking, bike riding, picnics, skating, kicking a ball around, flying a kite, bird watching . We need to retain this character and ambience for the many families who enjoy it and who don't abuse it.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Freedom camping on Kiwi Esplanade, Mangere Bridge should not be permitted. It poses a great risk to the endangered birdlife. There is a risk that toilets and grey water will get emptied into the Manukau Harbour. Overflowing rubbish bins will be a health hazard and there is a council camping ground at Ambury Farm, so there is no need to park on the side of the road. Please protect our area for the enjoyment of all the families who currently enjoy it, as well as all future families.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

[Do you have any other comments on the general rules?](#)

They seem valid and reasonable to me.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I suggest that an additional restricted area be added along Kiwi Esplanade in Mangere Bridge. My suggestion is that freedom campers be required to leave at least one hundred metres between each vehicle parked along Kiwi Esplanade. Otherwise I expect it will quickly become a heavily utilised freedom camping area, to the detriment of the migrating bird species and the local residents.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Do you have any other comments on the general rules?

The general rules will only be effective if council allocates funding to monitor and enforce compliance. Additional general rule should be no parking in front of houses of businesses

### Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Kiwi Esplanade, Mangere Bridge - I submit that the length of Kiwi Esplanade, Mangere Bridge should be a designated prohibited area for freedom camping due to combination of

- 1) High desirability
- 2) High sensitivity

High desirability is because it is a highly attractive harbourside location within 10 minutes of the campervan rental hubs near Auckland airport. This means it has potential to be inundated with freedom camper vans.

High sensitivity is because

a) It borders an environmentally sensitive reserve area with precious and unique native birdlife. The Manukau Harbour is home to mud flats with unique wading birds. The rubbish bins along Kiwi Esplanade are already overflowing during summer and high numbers of freedom campers would compound this, negatively impacting the environment.

b) The likely high numbers of freedom campers choosing to use this street would compromise the health and safety of other users of this public space, with litter, disposal of toilet and other waste into the harbour rather than using dump stations. The public toilets are for all users of Kiwi Esplanade reserve but could become a hygiene hazard with high numbers of camper vans. (Even though technically self contained, most campervaners use public toilets as don't want to empty on-board toilets)

c) High numbers of freedom campers would displace other users of the reserve as would limit parking and access along the road

There is the Council owned campsite at Ambury Farm at the end of Kiwi Esplanade where campervans can stay at very low cost.

Kiwi Esplanade reserve is a jewel of South Auckland and need to be protected for all public to enjoy and for unique birdlife to thrive.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The kind of vehicle used for freedom camping in Auckland should be a personal choice, Using a vehicle that is not self-contained does not pose a risk to the environment or public health and safety

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay for an indefinite period in the same road or off-road parking area (no maximum stay rule)

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles should be allowed to come back to stay in the same area after dumping their waste responsibly, it is not necessary to prevent their return through this rule

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:** Campers should have the right to come back to favourite places during their trip It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby

#### Another reason (please explain):

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** I am concerned that there are no restrictions on freedom camping in my local board area Mangere. With our proximity to the airport hub I am concerned that freedom camping could fill up areas such as dairy pl Oteorangi road Ihumatao including Stonefields the esplanade Mangere Bridge Memorial Hall/Playcentre car park Mangere Bridge Boating and Yachting club car parks Mangere Bridge and there are probably more. These facilities are well used by residents clogging up the parking and streets with camper vans limits residents access too and enjoyment of these areas.

### How do you think the general rules will unfairly impact some people?

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store

water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

#1331

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once, A no-return period will help with enforcing the maximum stay rule, Another reason (please explain)

**Another reason (please explain):** There is no budget or additional funding for compliance monitoring so a longer period of non return is reasonable and will make non compliance more apparent.

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I am concerned that there are no areas in Mangere-Otahuhu that have been prohibited or controlled.

I am specifically concerned that allowing Freedom camping along Kiwi Esplanade Manukau Harbour foreshore will negatively impact the bird sanctuary / nesting grounds and impede resident views of the harbour.

We already have large groups of day visitors to the foreshore reserve. I am concerned that unrestricted and unpoliced freedom camping in the road reserve will severely impact the amenity of the area.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Without general rules, there is a risk that any problems caused by freedom camping could move from regulated areas to unregulated areas nearby, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be avail

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, It makes sense to match our self-containment requirements to the National Standard, It would be too hard to enforce the self-containment rule without referencing the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

I believe all of Kiwi Esplanade in Mangere Bridge should be a prohibited area mainly due to the proximity of the bird refuges but also because it is a narrow, heavily used road and freedom campers would cause congestion. Existing problems with rubbish being left on Kiwi Esplanade would be exacerbated.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** We should prohibit freedom camping from the whole of Auckland.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** Freedom camping should be totally prohibited even if vehicles are self contained, because a) camper don't use their own toilet facilities as they don't want to or don't know where to dispose of their sewerage, and b) there are no places for freedom campers to dispose of their sewerage, so it risks being dumped in the sea/estuary/rivers.

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** Freedom camping should be prohibited completely, because even if there is 1 night rule, campers will just move their vehicle down the road 50m or so and then they can stay a 2nd night, and move another 50m and stay a 3rd night. Freedom campers will not u

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** Freedom camping should be prohibited completely, because even if there is a 9am set departure rule, campers will just move their vehicle down the road 50m or so and then they can stay a 2nd night, and move another 50m and stay a 3rd night. Freedom campe

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** Freedom camping should be prohibited completely, because even if there is a 'no return' rule of 2 weeks or 4 weeks, who is going to police this, and anyway campers will just move their vehicle down the road 50m or so and then they can stay a 2nd night, and another 50m and stay a 3rd night. Freedom campers should be banned because campers will not use their own self contained toilets and will dispose of their sewerage into the sea, rivers or estuaries. They will dispose of their trash into public rubbish bins. They will cause noise and pressure on the natural environment such as nesting birds. All of us NZ citizen must pay council rates in order to live here, in order to fund public facilities and infrastructure. Similarly, freedom campers should also have to pay for their own and public facilities.

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Who is going to police the general rules? Taxpayers and council rate payers will end up paying to police the general rules through rates/tax increases, whilst free-loading freedom campers get everything for free. Freedom camping must be banned totally in New Zealand. There is no logic that supports freedom camping. Freedom camping does not attract high value domestic or international visitors. Freedom camping only attracts backpackers and those that can't afford a house or to pay rent.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

I would like to request that several areas around MANGERE BRIDGE are added to the prohibited list for Freedom Camping, including:

- Kiwi Esplanade (east to west)
- the roads surrounding Ambury Farm
- The roads surrounding Maunuga Mangere (Mangere Mountain and Domain)

- The northern end of Coronation Road and Waterfront Road
  1. Disruption to bird roosting areas: The foreshore reserve is internationally known as a destination for migratory birds including South Island pied oystercatchers, pied stilts, wrybills and Godwits. They use the pahoehe lava along the Esplanade to roost and especially the grassed areas. It is critical that these birds are not distressed as they recover from or prepare for their long journeys. Protection of roosting areas is crucial to the health and wellbeing of our birdlife.
  2. Risk to delicate mangroves right along the foreshore of Manukau Harbour: The trash and sewerage from self contained toilets, or freedom campers just pooing in the bushes, would risk the delicate mangrove ecosystem. Even already today, there have also been many observed instances of people using the reserve as a toilet and emptying their toileting cassettes straight into the Manukau Harbour.
  3. Increased litter: Rubbish dropped by the public is already a problem along the reserve. After a sunny weekend, bins are overflowing already. We already have community rubbish collection working bees to deal with rubbish dropped by people using these areas. People come, park up, stay for short or long periods and some overnight in cars or vans that are not self-contained, then drive away leaving their rubbish where they stopped. Litter would increase dramatically if these was allowed to become a freedom camping destination and there is also a health and safety risk to the public that enjoy the reserve and the waterside.
  4. Noise problems: In the past there have been significant noise problems along Kiwi Esplanade. The Local Board has exercised leadership in working with the Police, residents, Māngere Bridge Residents and Ratepayers, and Council Officers to deal with this unruly and antisocial behaviour. Freedom camping would add probability of re-igniting this.
  5. Risks shutting out local families from the area: The local reserves, pedestrian bridge, fishing areas and Ambury farm should be places for local families and people to enjoy, without the congestion and lack of parking driven by volumes of campervans and freedom campers.
  6. There is no supporting infrastructure from campers to dump their trash, empty their toilets or dispose of grey water. Risk that it gets dumped into the delicate natural environment of Manukau Harbour.
  7. Loss of views/view shafts: Views of the harbour, mountain and farm will be obstructed by freedom camping vehicles for many residents. The consultation document accepts that protecting views is a reasonable consideration.
  8. Increased Pressure on all resources that public use. Kiwi Esplanade and Ambury Farm are enjoyed by many of the public of South Auckland for recreation. It is one of the jewels of South Auckland and is becoming popular due to increased housing density in Māngere and neighbouring communities + has been discovered by many during the Covid-19 lockdowns. There is already pressure on toilets, rubbish bins and parking, without adding overnight camping vans.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Kiwi Esplanade/Ambury Road Mangere Bridge - We are writing in our capacity as Co-Chairs of Friends of the Farm, Ambury Regional Farm Park, Māngere Bridge. We are also both long-time residents of Māngere Bridge. lives on Kiwi Esplanade and lives on Ambury Road in a Council property as she is also a Farm Ranger at Ambury Farm.

Friends of the Farm is a group of passionate and hardworking community volunteers that has been operating for ten years in support of a vision of a Caring, Connected, Wastewise Community. Most of our work is environmentally focussed and we encourage local residents and other groups to join us in our efforts to look after our beautiful natural environment in Māngere Bridge. Our wastewise work has been funded through an ongoing contract with Auckland Council's Waste Solutions Team for many years. We have received recognition for our voluntary efforts from the Māngere- Ōtahuhu Local Board, who have also more recently funded the development of a community newsletter that we now produce four times per year. We host countless working bees, have created a community orchard, run family fun events (such as school holiday programmes or community picnics), act as a community voice on issues affecting our community, run Living Locally information evenings for new and existing residents, will soon launch a community calendar of events, and lead many more activities. See our website: <https://aboutmangerebridge.nz/> and Facebook page: <https://www.facebook.com/FriendsoftheFarmMangereBridge/>

We are writing to seek a PROHIBITION ON FREEDOM CAMPING IN THE FOLLOWING LOCATIONS IN MĀNGERE BRIDGE:

- The full length of Kiwi Esplanade (including all parking areas and the entrance to Ambury Farm at the western end) and the length of Ambury Road (most of which hugs the farm and at the western end provides access to the main entrance of Ambury Regional Park).
- The entrance to Māngere Mountain and surrounding high traffic areas (including the Maunga parking areas, Domain Lane, and parking areas near the Maunga Skate Park, Memorial Hall, Plunket rooms, Tennis Club, Bowling Club, Scout Hall, and Māngere Bridge School.)

These key locations in Māngere Bridge need protection from freedom camping through prohibition and compliance/policing. These areas are already used inappropriately for freedom camping with significant detrimental effects. Given our community's proximity to the airport, our community could become a key destination point for freedom camping, which raises the following concerns:

- **Disruption to bird roosting areas (Kiwi Esplanade):** We are most concerned about the impact of freedom camping on migratory bird roosting areas along Kiwi Esplanade. Our area is known internationally as a destination for migratory birds including South Island pied oystercatchers, pied stilts, wrybills, Godwits, and others. Our migratory birds rely on the grassed areas of the Kiwi Esplanade foreshore reserve (especially from 64 Kiwi Esplanade along to the end of the Esplanade where it joins the Farm. But these special birds also use the pahoehoe lava along the entire Esplanade to roost. During roosting season it is crucial that these beautiful birds are left in peace to recover from or prepare for their long journeys. Many residents are already aware of these roosting areas and are very respectful towards our birdlife. But some visitors are not and run or drive mini motorbikes illegally through the roosting flocks causing distress and making them take flight. We are already planning to take further action to work with Council to create better signage along Kiwi Esplanade to educate the public using this area for recreation. But long term protection of roosting areas is crucial to the health and wellbeing of our birdlife and it is vital that this area be excluded from Freedom Campers.
- **Improper use of Ambury Farm facilities (Ambury Road/Kiwi Esplanade):** Freedom Campers already use these areas – at times for extended periods - and do so using vehicles (cars and vans and tents) that are not self-contained. They use the ablutions block at the Farm without permission or payment. The Farm has locked gates overnight but can be accessed by foot. The ablutions blocks are open at night for users of the Ambury Farm campground.
- **High traffic areas around the Maunga, halls and clubs:** These locations/facilities carry a lot of traffic and host numerous recreational and sporting activities mainly for local residents but also visitors. It is an area known for a history of undesirable behaviour and those problems continue to flare up. There are no public toilet facilities in that area.
- **Increased litter (all named areas):** We already routinely host pop-up rubbish collection working bees to deal with rubbish dropped by people using these areas. People come, park up, stay for short or long periods and some overnight in cars or vans that are not self-contained, then drive away leaving their rubbish where they stopped. We are concerned litter could increase. Rubbish bins are scarce (in an attempt to encourage people to take their litter home with them).
- **Noise problems (all named areas):** In the past there have been significant noise problems in these areas. Along the Esplanade especially our Local Board has exercised leadership in working with the Police, residents, Māngere Bridge Residents and Ratepayers, and Council Officers to deal with disruptive behaviour that caused major stress to and sleep deprivation of residents. Freedom camping adds another dimension to an ongoing issue that flares from time to time.
- **Retaining views/view shafts (all named areas):** Some residents are concerned their views of the harbour, mountain and farm will be obstructed by freedom camping vehicles. There are many surprising view shafts in Māngere Bridge given the contour of the land. The consultation document accepts that protecting views is a reasonable consideration.
- **Increased use and pressure (all named areas) –** More local residents and whānau from neighbouring communities are using Kiwi Esplanade, Ambury Farm and the Maunga for recreation (due to prolonged pandemic lockdowns and increasing housing density, here and in neighbouring communities). It is a pleasure to see families enjoy our beautiful place. There is work to be done however to prevent littering and keep noise levels at reasonable levels, and ensure appropriate behaviour around birdlife and other users. We think there is enough pressure on these named high traffic areas for parking without adding more pressure from overnight freedom camping vehicles.
- **Compliance and Policing (all named areas):** We understand there is no additional funding planned for compliance and policing of the new bylaws, which will put the burden on locals and inevitably the Local Board to address.

A wholesale right to freedom camping in Māngere Bridge (even within limits) makes no sense when Ambury Regional Farm Park has an affordable, accessible, well-run camping site that can accommodate self-contained camping vans and provides facilities for others. This camp ground is well away from local residents and does not cause disruption to anyone. Farm Rangers ensure compliance and campground rules keep everyone safe. We ought to be encouraging proper use of this locally approved campground and its facilities, but also ensure these facilities are not exploited, which inevitably creates more work for Ambury Farm Rangers.

Finally we wish to raise a concern about the consultation process. This process is happening at a time when everyone is exhausted from an extended period of lockdown due to COVID and many people are unaware of a pending bylaw change. Ordinarily on an issue of this importance – which has significant environmental and social impacts – we would actively engage with our Residents and Ratepayers Group, alert the community through our networks and community newsletter, have a public meeting and seek signatures to a submission. But we are presenting this submission on the day the consultation process ends without having had the opportunity to lead such engagement work. For that reason we ask especially that the matters raised above are taken into serious consideration because as long-time residents and active community volunteers we strongly believe the matters raised here would gain broad support in our community if people were aware of the consultation and the issue.

We understand that feedback will now be analysed and a summary made available to the public on the 'Have your Say' webpage following the consultation period. All feedback will be considered by a Bylaw Panel at a public meeting in April 2022. The Bylaw Panel will use the feedback to make recommendations on the proposal to the Governing Body in May 2022. We hope you will keep us informed of other opportunities to address this issues.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Kiwi Esplanade/Ambury Road Mangere Bridge - I am writing to provide feedback regarding the proposed Freedom Camping Bylaw and specifically to prohibition on Freedom Camping along the full length of Kiwi Esplanade and Ambury Road.

Due to their proximity to Auckland airport and the camping van pick up and drop off hubs, combined with the attractiveness of harbourside and Regional Farm, these roads require protection from inundation of freedom camper vans. They would be very likely to become a renowned destination freedom camping site. Should they be permitted there will be detrimental impacts on the sensitive environment and the enjoyment and health of the public who use the reserve and the farm.

My concerns are:

- **Disruption to bird roosting areas :** The foreshore reserve is internationally known as a destination for migratory birds including South Island pied oystercatchers, pied stilts, wrybills and Godwits. They use the pahoehoe lava along the Esplanade to roost and especially the grassed areas. It is critical that these birds are not distressed as they recover from or prepare for their long journeys. Protection of roosting areas is crucial to the health and wellbeing of our birdlife.
- **Increased litter:** Rubbish dropped by the public is already a problem along the reserve. After a sunny weekend, bins are overflowing already. We already have community rubbish collection working bees to deal with rubbish dropped by people using these areas. People come, park up, stay for short or long periods and some overnight in cars or vans that are not self-contained, then drive away leaving their rubbish where they stopped. There have also been many observed instances of these people using the reserve as a toilet and emptying their toileting cassettes straight into the Manukau Harbour. Litter would increase dramatically if these was allowed to become a freedom camping destination and there is also a health and safety risk to the public that enjoy the reserve and the waterside.
- **Noise problems :** In the past there have been significant noise problems along Kiwi Esplanade. The Local Board has exercised leadership in working with the Police, residents, Māngere Bridge Residents and Ratepayers, and Council Officers to deal with this unruly and antisocial behaviour. Freedom camping would add probability of re-igniting this.
- **Loss of views/view shafts:** Views of the harbour, mountain and farm will be obstructed by freedom camping vehicles for many residents. The consultation document accepts that protecting views is a reasonable consideration.

- Increased Pressure on all resources that public use. Kiwi Esplanade and Ambury Farm are enjoyed by many of the public of South Auckland for recreation. It is one of the jewels of South Auckland and is becoming popular due to increased housing density in Mangere and neighbouring communities + has been discovered by many during the Covid-19 lockdowns. There is already pressure on toilets, rubbish bins and parking, without adding overnight camping vans.

It is ridiculous to allow Freedom Camping along Kiwi Esplanade and Ambury Road when there is a Council run campsite at Ambury Farm Park. This camping ground is affordable, accessible and has appropriate facilities and rules to ensure there is no environmental impact and no disruption to the public enjoyment of the area.

While I appreciate there would be general rules in place to minimise long stays and semi permanent residency by freedom campers, if there is no additional money for ensuring policing and compliance by Auckland Council, it will fall to the local residents and the Local Board to address those who do not stay by the rules.

I am most concerned that one of the most environmentally sensitive, beautiful and much enjoyed areas of South Auckland will be detrimentally impacted unless it is prohibited to freedom campers and they are encouraged to use the Council owned campsite and Ambury Farm instead. So much has been done by both the Council and the Local Board over the 2 decades to enhance the Manukau Harbour, Kiwi Esplanade Reserve and Ambury Farm, it would be devastating to see it undone due to lack of foresight regarding the full impact of permitting freedom campers to save a few dollars rather than using the campsite so close by.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Kiwi Esplanade/Ambury Road Mangere Bridge - I am writing to express my disquiet about the impact of freedom camping on Kiwi Esplanade and Ambury Road in Māngere Bridge and our local area.

The intent to allow freedom camping almost everywhere in the city, with no restriction in my local board is disappointing. allowing freedom camping will reduce the income of accommodations providers and the council itself. the council has complained that it lost revenue during Covif - yet they are denying the many camping grounds run by the council the opportunity to make up this lost revenue, as people can stay free. Accommodation providers and camping ground operators who pay council rates are having the opportunity gain revenue reduced by this thoughtless action on behalf of council.

in addition, you are asking for feedback during a period when the population of the city is exhausted by the current Coivid lockdown - and giving people a very short time to respond. Anybody would think this process is designed to allow you to push through this measure without attracting attention, it is not a democratic way to do this.

These two environmentally sensitive areas need protection from freedom camping through prohibition and compliance/policing. Freedom camping (even short stays) raise the following concerns:

- **Disruption to bird roosting areas:** I am very concerned about the impact of freedom camping on migratory bird roosting areas along Kiwi Esplanade. This area is known internationally as a destination for migratory birds including South Island pied oystercatchers, pied stilts, wrybills, Godwits, and others. Migratory birds rely on the grassed areas of the Kiwi Esplanade foreshore reserve (especially from 64 Kiwi Esplanade along to the end of the Esplanade where it joins the Farm. But these special birds also use the pahoehoe lava along the entire Esplanade to roost. During roosting season it is crucial that these beautiful birds are left in peace to recover from or prepare for their long journeys. Some visitors already run or drive mini motorbikes illegally through the roosting flocks causing distress and making them take flight. Long-term protection of roosting areas is crucial to the health and wellbeing of our birdlife and it is vital that this area be excluded from Freedom Campers.
- **Increased litter:** People come, park up, stay for short or long periods and sometimes overnight in cars or vans that are not self-contained, then drive away leaving their rubbish where they stopped.

- Noise problems along the Esplanade and Ambury Road: In the past there have been significant noise problems in these areas. Freedom camping adds another dimension to an ongoing issue that flares from time to time.
- Retaining views/view shafts: Views of the harbour will be obstructed by freedom camping vehicles. The consultation document accepts that protecting views is a reasonable consideration.
- Increased use and pressure – More people are using Kiwi Esplanade and Ambury Farm areas for recreation (especially due to lockdown and increasing housing density). There is enough pressure on these areas for parking without adding more pressure from freedom camping vehicles.
- Compliance and Policing: I understand there is no additional funding planned for compliance and policing of the new bylaws, so how will problems be addressed. Just because a bylaw requires vehicles to be self-contained doesn't mean freedom campers will follow the rules. Noise control and the police are already under pressure.

Ambury Farm has a proper camping ground and its use ought to be encouraged, rather than allowing freedom camping in a special natural environment that needs protection.

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Kiwi Esplanade/Ambury Road Māngere Bridge - I am concerned about the impact of freedom camping on Kiwi Esplanade and Ambury Road in Māngere Bridge, both of which lead to Ambury Regional Farm Park and are actively used by our walking group.

These two environmentally sensitive areas need protection from freedom camping through a prohibition and compliance/policing. Freedom camping (even short stays) raise the following concerns:

- Disruption to bird roosting areas: I am very concerned about the impact of freedom camping on migratory bird roosting areas along Kiwi Esplanade. This area is known internationally as a destination for migratory birds including South Island pied oystercatchers, pied stilts, wrybills, Godwits, and others. Migratory birds rely on the grassed areas of the Kiwi Esplanade foreshore reserve (especially from 64 Kiwi Esplanade along to the end of the Esplanade where it joins the Farm. But these special birds also use the pahoehoe lava along the entire Esplanade to roost.

- During roosting season it is crucial that these beautiful birds are left in peace to recover from or prepare for their long journeys. Some visitors already run or drive mini motorbikes illegally through the roosting flocks causing distress and making them take flight. Long term protection of roosting areas is crucial to the health and wellbeing of our birdlife and it is vital that this area be excluded from Freedom Campers.

I- increased litter: People come, park up, stay for short or long periods and sometimes overnight in cars or vans that are not self-contained, then drive away leaving their rubbish where they stopped.

- Noise problems along the Esplanade and Ambury Road: In the past there have been significant noise problems in these areas. Freedom camping adds another dimension to an ongoing issue that flares from time to time.

- Retaining views/view shafts: Views of the harbour will be obstructed by freedom camping vehicles. The consultation document accepts that protecting views is a reasonable consideration.

- Increased use and pressure – More people are using Kiwi Esplanade and Ambury Farm areas for recreation (especially due to lockdown and increasing housing density). There is enough pressure on these areas for parking without adding more pressure from freedom camping vehicles.

- Compliance and Policing: I understand there is no additional funding planned for compliance and policing of the new bylaws, so how will problems be addressed. Just because a bylaw requires vehicles to be self-contained doesn't mean freedom campers will follow the rules. Noise control and the police are already under pressure.

- Ambury Farm has a proper camping ground and its use ought to be encouraged, rather than allowing freedom camping in a special natural environment that needs protection.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Kiwi Esplanade/Ambury Road Mangere Bridge - My concerns regarding this issue surround the Mangere Bridge area. I am writing to seek a PROHIBITION ON FREEDOM CAMPING IN THE FOLLOWING LOCATIONS IN MĀNGERE BRIDGE:

- The full length of Kiwi Esplanade (including all parking areas and the entrance to Ambury Farm at the western end) and the length of Ambury Road (most of which hugs the farm and at the western end provides access to the main entrance of Ambury Regional Park).
- The entrance to Māngere Mountain and surrounding high traffic areas (including the Maunga parking areas, Domain Lane, and parking areas near the Maunga Skate Park, Memorial Hall, Plunket rooms, Tennis Club, Bowling Club, Scout Hall, and Māngere Bridge School.)

Impacts in the areas include:

- Disruption to the bird roosting on the waterfront – we value this roosting area and we often see visitors running thorough the roosting birds.
- Littering
- Increased traffic
- Noise
- Interruption of the view shafts to Mangere Maunga

We have a fantastic camping ground at Ambury Farm which is reasonably priced and accessible. The campground is well-run and can accommodate self-contained camping vans and provides facilities for others. It in fact provides a much better experience for campers. Farm Rangers ensure compliance and campground rules keep everyone safe. We ought to be encouraging proper use of this locally approved campground and its facilities, but also ensure these facilities are not exploited, which inevitably creates more work for Ambury Farm Rangers.

#1557

This consultation period is closing today and we are disappointed that our submission is only just squeaking in due to community communication, not council communication as far as I can see.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Submitter details

Organisation (if applicable):

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** It is not necessary to impose basic rules on freedom campers everywhere in Auckland

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Using a vehicle that is not self-contained does not pose a risk to the environment or public health and safety, The cost of buying, hiring, or converting to a self-contained vehicle is too high, and that could mean some people can't afford to freedom camp in Auckland

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay for an indefinite period in the same road or off-road parking area (no maximum stay rule)

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles should be allowed to come back to stay in the same area after dumping their waste responsibly, it is not necessary to prevent their return through this rule, No maximum stay gives campers the best opportunity to enjoy the area and support local businesses, Shorter stays are already the norm for most freedom campers, so a maximum stay rule is not necessary, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:** Campers should have the right to come back to favourite places during their trip, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule. Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Without general rules, there is a risk that any problems caused by freedom camping could move from regulated areas to unregulated areas nearby

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** Some of us, like myself, have invested a significant sum of money in a vehicle with proper on-board ablution facilities, while some have cobbled together a basic car-type vehicle with a portaloos stuck under a piece of fabric. Unfortunately we are all subject to the same rules around self-containment when there should really be a 2-tiered system. My vehicle, for example, is certified to store grey/black waste on board from 6 persons for 5 days at a time. I have personally been parked up next to certified self-contained cars and have witnessed the occupants using the bushes to relieve themselves.

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** I support the maximum stay rule in principle, but would make a few changes. I propose a 2 (or even 3) night stay for all self-contained vehicles with a proper fitted chemical toilet housed in a separate enclosure with a door. Vehicles with portaloos or to

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? No – I support another no-return period rule (please explain)**

**No – I support another no-return period rule (please explain):** Fully self-contained vehicles with a proper fitted chemical toilet housed in a separate enclosure with a door should be able to return to the same place after a week.

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Do you have any other comments on the general rules?

I strongly feel that a 2-tiered self-containment certification program will sort out most of the problems and make the general rules more equitable as there are 2 clear tiers of self-contained vehicles.

### Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Penalties are excessive and, like the bed tax, it may come back to haunt Council if ever a class action case is taken.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, It makes sense to match our self-containment requirements to the National Standard, It would be too hard t

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Council continually say they do not have the resources to manage the Auckland park system to the standard desired by ratepayers yet want to add more required man hours with this law. Once the Council can successfully manage what they currently have control over then perhaps it would be time for further workloads

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this, Having a set departure time will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I don't know

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Requiring campers to leave at 8am, before standard business hours begin, protects access to shared parking or other amenities for other users – which is more of a priority than campers' convenience, Having a set departure time will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

Where do you think the freedom camping parking spaces should be located within this area?

Do you have any other comments you would like to make about this area?

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

I have a modern self contained motor-home myself, but I don't see freedom camping around Auckland as a good proposition due to the lack of suitable areas. The population is now too dense and sadly it's often the local rate payers who are disadvantaged by uncaring freedom campers who often can't be controlled.

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, Although council has not identified any serviced areas in this proposal, I am aware of serviced areas on public land which should be included, It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** 9am would be more convenient for campers than 8am, but still protects access to shared parking or amenities for other users during standard business hours, If freedom camping starts to cause problems somewhere, this is better managed by putting extra rest

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a shorter no-return period means campers would be able to return to a favourite place if they wa

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay for an indefinite period in the same road or off-road parking area (no maximum stay rule)

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles should be allowed to come back to stay in the same area after dumping their waste responsibly, it is not necessary to prevent their return through this rule

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

**Is this because, in your view:** Campers should have the right to come back to favourite places during their trip, A no-return period is not necessary: most campers don't return to the same place. Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities

**Another reason (please explain):**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause. It is not necessary to impose basic rules on freedom campers everywhere in Auckland. The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should be self-contained, but they shouldn't have to be certified

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment and/or public health and safety, but vehicle owners should decide what makes a vehicle 'self-contained'

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this, Having a set departure time will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a shorter no-return period means campers would be able to return to a favourite place if they wa

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Without general rules, there is a risk that any problems caused by freedom camping could move from regulated areas to unregulated areas nearby, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available

**Another reason (please explain):** Why cannot they go into proper caravan parks that someone is trying to make a living from.

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

#### **Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule? No – I support another maximum stay rule (please explain)**

**No – I support another maximum stay rule (please explain):** Two nights assume a motorhome is at maximum capacity of people and has no reserve water / wastewater.

While in the 22 designated allowed places, if a camper arrives in the afternoon they only see the place for 1 full day. Assuming they have waste capaci

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule. Another reason (please explain)

**Another reason (please explain):** Generally few customers/clients arrive before 10am.

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** For the 22 designated areas I would support a the no return rule.

In non designated spaces, for instance on the road outside a relatives house, not being able to return for 2 weeks is very restrictive. As an NZMCA member, many motorhomes I know have fewer people than the maximum and some also have additional tanks. My motorhome has solar panels and I can live very easily for 4 days without having to find a dump station. Forcing them to move every second day then causes unnecessary use of diesel. I anticipate helping children after additions to their families. I would say a maximum of 4 nights for general on street parking would reduce unnecessary travel, as there is no particular desirability in the area other than proximity to relatives what is the point/need for the no return rule? NZMCA paks have a maximum of 10 nights per month - perhaps that could be applied at roadside parks.

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

In other centres, NZMCA members can park in club car parks for a small fee (\$5 eg). Not many Auckland clubs seem to do this.

YMCA car park in Ellerslie would make a great place to overnight but is this possible?

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Please allow overnighting in more clubs and parks such as YMCA car parks - for a small fee.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** Yes – freedom campers should have to vacate their parking space by 9am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:** If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in that area, rather than having a stricter general rule

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** danger to our club if people would be in staying overnight in our carpark. around club members and childreb

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** Even though vehicular are certified self contained, they never get used because they stink out the van. They go to the toilet in the Bush. There should be a total ban on freedom camping for this reason

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Another reason (please explain):**

**Do you have any other comments on the general rules?**

There should be a total ban on freedom camping

**Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?**

Just ban freedom camping. It costs the ratepayer money for no benefit

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

Agree with all these rules :)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Waiheke Local Board area

### Prohibited sites

**Kennedy Point Wharf carpark Donald Bruce Road, Surfdale, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** Waiheke has limited infrastructure & already gets very busy in peak season & the environment needs to be protected.

**Onetangi Cemetery 191 Onetangi Road, Onetangi, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** Waiheke has limited infrastructure & already gets very busy in peak season & the environment needs to be protected.

**Onetangi Sports Park (Rangihoua) 133-165 O'Brien Road, Onetangi, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** Waiheke has limited infrastructure & already gets very busy in peak season & the environment needs to be protected.

**Waiheke Island Artworks 2-4 Korora Road, Oneroa, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** Waiheke has limited infrastructure & already gets very busy in peak season & the environment needs to be protected.

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people. Another reason (please explain)

**Another reason (please explain):** In our experience the people who leave rubbish etc at sites we visit are usually day tripping tourists or locals. People legitimately camping are mostly very clean and tidy.

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Check self contained - and then leave them alone.

**How do you think the general rules will unfairly impact some people?** Look at the group that causes the issues. Usually not legitimate freedom campers. Easy to victimise but wont make any difference to the litter and waste issues caused by others.

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should be self-contained, but they shouldn't have to be certified

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** Usually not the problem

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** 3 days would be wiser - as some enforcement agents consider 2 days is one night - i.e. arrive in the afternoon and must be gone by the next day.

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule. Another reason (please explain)

**Another reason (please explain):** Allowing a more relaxed leaving time would allow for more site cleaning before moving on, especially in winter when the sun rises later.

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers should be able to return to stay in the same road or parking area at any time (no no-return period rule)

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule. Another reason (please explain)

**Another reason (please explain):** Allowing a more relaxed leaving time would allow for more site cleaning before moving on, especially in winter when the sun rises later.

**Is this because, in your view:** Campers should have the right to come back to favourite places during their trip, A no-return period is not necessary: most campers don't return to the same place, If freedom camping starts to cause problems somewhere, this is better managed by putting reNot setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule. **Another reason (please explain):**

## Do you have any other comments on the general rules?

Sometimes it makes more sense to return to a place you feel safer etc on the return journey.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Where are the statistics for any of these sites causing issues and have they been investigated as to whether its day trippers or freedom campers? Our experience (being fully self contained) is that most of the mess is caused either by locals, or lazy day trippers.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The kind of vehicle used for freedom camping in Auckland should be a personal choice, Using a vehicle that is not self-contained does not pose a risk to the environment or public health and safety, The cost of buying, hiring, or converting to a self-contained vehicle is too high, and that could mean some people can't afford to freedom camp in Auckland

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):** freedom campers should be able to stay for a longer period in the same road or off-road parking area to be able to enjoy the area, especially for children. 5 nights would be a fairer number

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should not have to leave by a set time (no set departure time rule)

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** I support another no-return period rule of 1 week. 2 is too long

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

**Another reason (please explain):**

**Is this because, in your view:** Not setting a departure time will be more convenient for campers, and make it much more likely that they will visit local businesses, It is not necessary to require campers to leave at a set time; they don't block others' access to shared parking or amenities, If freedom camping starts to cause problems somewhere, this is better managed by putting restrictions just in that area, rather than having a stricter general rule

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

### Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, The general rules will unfairly impact some people. Another reason (please explain)

**Another reason (please explain):** Waikaraka Park/Captain Springs Road is not listed as a prohibited space.

There area is not safe.

Already has persons dumping rubbish.

No amenities available.

Secluded with hidden access from the seafront walkway.

Area subject to vandalism.

ALready has vagrants frequenting /sleeping at the park.

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause? No Freedom camping in general areas.

Restrict to open spaces on main thoroughfares.

### How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby? We lock the gates.

Who else will be supervising/checking/on who is there?

**How do you think the general rules will unfairly impact some people?** Damage to our facility,  
breakins,  
Insurance cost increases.  
rubbish cleanup

**Do you want to comment on why you don't know?**

### Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule. This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):** REgardless of self containment, it will only be undertaken by the honest ones.

If the need to empty selfcontained units, it will be done in the carpark as they leave.

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste. Another reason (please explain)

**Another reason (please explain):** Who is going to police only one nights stay. and what time.

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Requiring campers to leave at 8am, before standard business hours begin, protects access to shared parking or other amenities for other users – which is more of a priority than campers' convenience, Having a set departure time will help with enforcing the maximum stay rule. Another reason (please explain)

**Another reason (please explain):** There may be other activities planned that require the parking spaces.

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

Not in favour in Auckland.

Waikaraka Park and Captian Springs road is not considered a safe place..

Clash with members vehicles during evening training sessions, weekend games etc that start approx 8 am with persons arriving from 7.am

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

No Freedom camping at the carparks at Waikaraka Park

## Maungakiekie-Tāmaki Local Board area

### Prohibited sites

**Gloucester Park North 62 Onehunga Mall, Onehunga, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?** Like Waikaraka Park the area is secluded and is not open.

Waikaraka Park to also be prohibited.

### Restricted sites

**Taumanu Reserve (Onehunga foreshore) Orpheus Drive, Onehunga. Do you agree that freedom camping should be restricted in this area?** Yes – restricted freedom camping should be allowed, and I support the proposed restrictions

**Which of the proposed restrictions for this area would you want to change at Taumanu Reserve?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, It is not necessary to impose basic rules on freedom campers everywhere in Auckland

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Although no serviced areas have been identified in this proposal, providing sites suitable for non-self-contained vehicles should be a priority for council

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities, A two-night stay gives campers more opportunity to enjoy the area and support local businesses, Shorter stays are already the norm for most freedom campers, so a stricter rule is not necessary

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** 12pm

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?** Waikaraka Park already has problems with homeless, facilities breakin's, dumping of stolen vehicles and rubbish. Allowing freedom camping in a public reserve area will only escalate problems at the reserve.

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, Having a set departure time will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

As a frequent user of Waikaraka Park this area should be included as having Freedom camping banned due to an already presents of homeless and having facilities breakins at the sports clubs there. It worries me as freedom campers could also be targeted.

## Maungakiekie-Tāmaki Local Board area

### Prohibited sites

**Gloucester Park North 62 Onehunga Mall, Onehunga, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?** Main Public access area so shouldn't have freedom campers

### Restricted sites

**Taumanu Reserve (Onehunga foreshore) Orpheus Drive, Onehunga. Do you agree that freedom camping should be restricted in this area?** Yes – restricted freedom camping should be allowed, and I support the proposed restrictions

**Which of the proposed restrictions for this area would you want to change at Taumanu Reserve?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, It is not necessary to impose basic rules on freedom campers everywhere in Auckland, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, It makes sense to match our self-containment requirements to the National Standard

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained UNLESS staying in a serviced area (noting that there are no serviced areas in the current proposal)

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-serviced areas, Although council has not identified any serviced areas in this proposal, I am aware of serviced areas on public land which should be included, Although no serviced areas have been identified in this proposal, providing sites suitable for non-self-contained vehicles should be a priority for council

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste, A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this, Having a set departure time will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** Having a shorter no-return period means campers would be able to return to a favourite place if they wanted to, as part of a longer trip, If freedom camping starts to cause problems somewhere, this is better managed by putting extra restrictions just in t

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Not allowing freedom camping in residential streets, it is not appropriate

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space, Another reason (please explain)

**Another reason (please explain):** There is no need for freedom campers to be 'staying put' on Auckland streets.

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):** There should be more rules and regulations. Most of yours are insufficient to protect our neighbourhoods from people using 'freedom camping' as a way to live in their cars. Who will be policing this? With an already stretched police force people will park up and stay two weeks, move next door and then return two weeks later. This is NOT an answer to your housing crisis. Freedom campers do not contribute to our economy, how can you even be considering this following our months of lockdown. It's disgraceful.

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store

water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

As above, all of the rules are too simple and 'soft'

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Scrap this whole idea. Aucklanders are going to be so angry about this. Crime will increase, pollution. People living outside our houses. Big stray dogs. It's a ridiculous notion- support the economy, don't allow people to camp out for free everywhere! Why don't you set up proper camping grounds in several areas with a small charge and appropriate resources for toileting etc.

## Maungakiekie-Tāmaki Local Board area

### Prohibited sites

**Gloucester Park North 62 Onehunga Mall, Onehunga, do you agree that freedom camping should be prohibited in this area?** Yes

**Tell us why and any other comments you would like to make about this area?** Why are there not more prohibited sites? Cornwall park, the streets surrounding the public parks etc.

### Restricted sites

**Taumanu Reserve (Onehunga foreshore) Orpheus Drive, Onehunga. Do you agree that freedom camping should be restricted in this area?** Yes – restricted freedom camping should be allowed, but with different restrictions

**Which of the proposed restrictions for this area would you want to change at Taumanu Reserve?**  
Maximum number of vehicles

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):** 3

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The kind of vehicle used for freedom camping in Auckland should be a personal choice, Using a vehicle that is not self-contained does not pose a risk to the environment or public health and safety, Another reason (please explain)

**Another reason (please explain):** Public facilities in NZ are below acceptable standard. If all major towns and cities had well documented toilet facilities, issues which annoy residents would not continue. The irony is that in many places where facilities do exist, they are locked overnight.

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

Rather than penalising all freedom campers with blanket bans, ablutions facilities should be upgraded nationwide, with outdoor surveillance cameras to prevent vandalism etc and heavy fines for breaking the rules.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

As NZMCA points out, \$800 fines are excessive for those who inadvertently stay overnight near reserves. Many freedom campers have low incomes and \$200 serves as a more than adequate deterrent.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** A two-night stay gives campers more opportunity to enjoy the area and support local businesses

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule? Yes** – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No** – I support another no-return period rule (please explain):

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Freedom Camping rules will require some type of oversight/enforcement, with the woeful oversight/enforcement of normal vehicle parking, how do you propose to ensure compliance. If special/extra staff are required, to ensure compliance, why aren't there people enforcing our current parking laws

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I don't know

### Do you support having general rules because, in your view:

Another reason (please explain):

### Do you not support having general rules because, in your view:

Another reason (please explain):

How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

How do you think the general rules will unfairly impact some people?

Do you want to comment on why you don't know? I do not believe in camping for free.

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

I do not believe in camping for free.

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** There should be no right of return

**Do you support the no-return period rule because, in your view:**

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Is this because, in your view:

Another reason (please explain):

Do you have any other comments on the general rules?

Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### **Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule? No – freedom campers should have to vacate their parking space by 10am on the day of departure**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A later departure time will be more convenient for campers, and make it more likely that they will visit local businesses, 10am is a typical check-out time if you are paying for accommodation, so it makes sense to align with this

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

#### Do you not support having general rules because, in your view: Another reason (please explain)

**Another reason (please explain):** This approach is even more idiotic than the first attempt. It does not properly assess the realities of parts of the city and will create a situation where people unfamiliar with Auckland will camp in dangerous areas unaware of the risks they are taking.

The bylaw needs to be done properly and identify all areas where freedom camping is unsafe or ill advised.

### How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?

### How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?

### How do you think the general rules will unfairly impact some people?

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space, Another reason (please explain)

**Another reason (please explain):** Prolonged stays in unsafe areas will only place the occupants in increased risk of being subject to crime

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Many of the locations likely to be used will be car parks that usually serve sports clubs. There is already inadequate parking at most clubs and the presence of extra vehicles further restricting access to sports facilities will only cause conflicts

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

There is no realistic probability that effective enforcement can be done given the wide scope of the Bylaw allowing free for all parking across the region.

There must be the inclusion of the ability in future to gazette permanent exclusion of areas where freedom camping becomes a problem or is identified as being unsafe.

## Maungakiekie-Tāmaki Local Board area

### Prohibited sites

**Gloucester Park North 62 Onehunga Mall, Onehunga, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

### Restricted sites

**Taumanu Reserve (Onehunga foreshore) Orpheus Drive, Onehunga. Do you agree that freedom camping should be restricted in this area? Yes – restricted freedom camping should be allowed, and I support the proposed restrictions**

**Which of the proposed restrictions for this area would you want to change at Taumanu Reserve?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?** There are multiple other sites in the Maungakiekie area where Freedom camping must be prevented on the grounds of being unsafe and environmentally compromised.

The Captain Springs Road car park at Waikaraka Park is a perfect example.

It is an isolated area hidden from all traffic or passers by. Making it very dangerous for anyone staying overnight.

There are multiple access points and escape routes for anyone engaged in criminal purposes.

Cell phone coverage is poor and can 'drop out' increasing the vulnerability of anyone in the park over night.

The Onehunga Combined Sports Trust building has been victim of vandalism , the most recent incident occurring within recent months.

The Waikaraka Speedway has been a constant victim of theft and vandalism, in most cases the perpetrators gaining access to the Speedway from the direction of the Captain Springs Road car park.

There are no public ablutions facilities. The belief that you can prevent non-self-contained vehicles is ridiculous, as no one is going to be policing somewhere as isolated as the Captain Springs Road car park. There will be human waste in a carpark used by large numbers of families during weekends.

There is no refuse collection in the Captain Springs Road car park. The car park, which is already poorly maintained will be used as a dumping zone.

There is already a serious problem with 'fly-tipping' on the waste land south of the Captain Springs Road car park. Including incidents of toxic waste being dumped. The primary access to this land is via the car park and leaving the car park open at night will not only endanger freedom campers, but create a 'free for all' on the waste land and turn it into a toxic mess preventing it from ever being developed into sports grounds.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Your feedback

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, The general rules will unfairly impact some people, Another reason (please explain)

**Another reason (please explain):** The Onehunga Combined Sports Trust is deeply concerned by this bylaw. It has not been properly considered. Just as the first attempt for a bylaw was rushed and ill considered, this version is equally poorly thought out.

Before preparing this bylaw there should have been a proper audit of possible freedom camping areas where camping will be allowed. With particular reference to the risks that potential sites may pose. As this bylaw stands there will be areas where freedom camping will be officially allowed, but which will be potentially dangerous for the campers.

Most of the people likely to be freedom camping will be from outside Auckland and New Zealand, they will not have local knowledge of potential risks in some areas. Allowing them to camp in these areas will create a false sense of security, based on the assumption if the Council allows a location for freedom camping it must therefore be safe. Failing to assess potential risks to campers across the region is short-sighted.

Additionally the wide scope of areas allowed make it virtually impossible to police breaches of the rules by freedom campers.

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Targeted zones, with proper safety management

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Targeted zones, with proper safety management

**How do you think the general rules will unfairly impact some people?** The environmental impact of waste from freedom campers in areas where there are no public ablutions or proper refuse facilities and collection will negatively impact local residents.

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a one-night maximum stay will help encourage responsible dumping of waste, Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent

longer-term stays, A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Sports parks a likely to be popular sites. There is already a woeful shortage of parking for sports grounds. Adding to that shortage by allowing freedom campers to take parking spaces from park users will only cause conflict.

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users, Having a longer no-return period means most campers are unlikely to visit an area more than once, A no-return period will help with enforcing the maximum stay rule

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

Do you have any other comments on the general rules?

Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

Only allowing for temporary variations is short-sighted. The bylaw must include the power to permanently add locations that are identified as risky or problematic for local residents to the prohibited sites.

## Maungakiekie-Tāmaki Local Board area

### Prohibited sites

**Gloucester Park North 62 Onehunga Mall, Onehunga, do you agree that freedom camping should be prohibited in this area? Yes**

**Tell us why and any other comments you would like to make about this area?**

### Restricted sites

**Taumanu Reserve (Onehunga foreshore) Orpheus Drive, Onehunga. Do you agree that freedom camping should be restricted in this area? Yes – restricted freedom camping should be allowed, and I support the proposed restrictions**

**Which of the proposed restrictions for this area would you want to change at Taumanu Reserve?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?** The Onehunga Combined Sports Trust protests the absence of the Trust's carpark off Captain Springs Road from the prohibited list.

This car park is not safe or suitable for freedom camping. Its location far from any major thoroughfare and being so far out of sight means anyone staying there overnight will be particularly vulnerable. A vulnerability that can only be exacerbated by the poor cell phone coverage in the area and the fact that there is no video coverage of the area.

During the recent lockdown the Trust building was targeted and subjected to substantial vandalism. The Waikaraka Speedway is also frequently targeted for theft and vandalism. There is already a significant level of crime in the area. Plus the car park's isolation means it is rarely patrolled. Allowing freedom camping will place campers at unnecessary risk.

Allowing freedom camping in this car park clearly breaches all the principles of CPTED (Crime Prevention through Environmental Design) and will put visitors to Auckland at an unacceptable level of risk. There is the real risk that freedom campers will make the mistake of assuming because it is legal to camp in the car park, then it is also safe. It is not.

Allowing freedom camping in this area will also be environmentally damaging.

We also doubt the requirement for self-contained vehicles only can be enforced which will raise the prospect of a car park that is primarily used by families becoming unsanitary and unhealthy .

The only possible ablutions facilities are in the Trust building. These are locked at night. This raises the real prospect that families using the park on Saturdays and Sundays will be presented with the sight of human waste.

If we are forced to keep our ablutions facilities open overnight for possible freedom camping the Trust building will be made significantly more vulnerable. We would be forced to disconnect our alarm system, making the risk of vandalism of the building greater.

The Trust would have no other choice but to bill the Auckland Council for the costs of cleaning these facilities and hiring security to protect the building.

The refuse collection facilities in the park are also woefully inadequate and were freedom camping to be allowed the car park will become a festering dump which the Trust will be forced to clean simply for the safety of park users. The Trust does not have the resources for this and again will have no option but to charge the Council for cleaning the area.

Finally illegal waste dumping, including toxic waste, on the land south of the car park is already a problem and only kept in check by locking the car park at night. The only access to this waste ground is via the car park. If it became known the car park was accessible at night it would only embolden those who already target the area for illegal dumping. Plus adding a further risk to freedom campers as potential witnesses to this dumping.

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### Your feedback

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

**Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?**

**Do you support having general rules because, in your view:**

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for

people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?**

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?**

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Kiwi Esplanade/Ambury Road Mangere Bridge - I would like to voice my concern that freedom camping should not be allowed close to residential areas in Maungakiekie and Mangere Bridge.

Places like Cornwall Park, One Tree Hill Domain, and Jellicoe Park near the swimming pools are well used by local people who want quiet walks and enjoyment of the facilities and their own properties, without the noise, traffic hassles and rubbish that is often left by freedom campers. We do not want them to empty their on-board toilets in the area either. ( It would be more suitable to allow them to use the Ellerslie racecourse parking area.)

I am especially concerned about the impact of freedom camping on Kiwi Esplanade and Ambury Road in Māngere Bridge, both of which lead to Ambury Regional Farm Park and are actively used by our walking group.

These two environmentally sensitive areas need protection from freedom camping through a prohibition and compliance/policing. Freedom camping (even short stays) raise the following concerns:

- Disruption to bird roosting areas: I am very concerned about the impact of freedom camping on migratory bird roosting areas along Kiwi Esplanade. This area is known internationally as a destination for migratory birds including South Island pied oystercatchers, pied stilts, wrybills, Godwits, and others. Migratory birds rely on the grassed areas of the Kiwi Esplanade foreshore reserve (especially from 64 Kiwi Esplanade along to the end of the Esplanade where it joins the Farm. But these special birds also use the pahoehoe lava along the entire Esplanade to roost.

- During roosting season it is crucial that these beautiful birds are left in peace to recover from or prepare for their long journeys. Some visitors already run or drive mini motorbikes illegally through the roosting flocks causing distress and making them take flight. Long term protection of roosting areas is crucial to the health and wellbeing of our birdlife and it is vital that this area be excluded from Freedom Campers.

I- increased litter: People come, park up, stay for short or long periods and sometimes overnight in cars or vans that are not self-contained, then drive away leaving their rubbish where they stopped.

- Noise problems along the Esplanade and Ambury Road: In the past there have been significant noise problems in these areas. Freedom camping adds another dimension to an ongoing issue that flares from time to time.

- Retaining views/view shafts: Views of the harbour will be obstructed by freedom camping vehicles. The consultation document accepts that protecting views is a reasonable consideration.
  
- Increased use and pressure – More people are using Kiwi Esplanade and Ambury Farm areas for recreation (especially due to lockdown and increasing housing density). There is enough pressure on these areas for parking without adding more pressure from freedom camping vehicles.
  
- Compliance and Policing: I understand there is no additional funding planned for compliance and policing of the new bylaws, so how will problems be addressed. Just because a bylaw requires vehicles to be self-contained doesn't mean freedom campers will follow the rules. Noise control and the police are already under pressure.
  
- Ambury Farm has a proper camping ground and its use ought to be encouraged, rather than allowing freedom camping in a special natural environment that needs protection.

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and carparks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** You should not allow any camping close to schools eg Margret griffen park. There are young primary kids walking to school who walk through the park. All you need is some kid to be dragged into a van.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – I support another set departure time rule (please explain)

**No – I support another set departure time rule (please explain):** 7am departure

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?**

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

Do not allow any camping close by schools

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – I support another rule about self-containment (please explain)

**No – I support another rule about self-containment (please explain):** I support that if you are staying in an area that does not have public facilities then you must be self contained (but not necessarily certified). If a public facility is available within 100m of where you are parked then no need to be self contained. There are people that are homeless and living in their cars/vans and should be entitled to use public facilities 24/7 without prejudice.

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – I support another maximum stay rule (please explain)

**No – I support another maximum stay rule (please explain):** Maximum stay would have to be related to the specific area. If it was a high usage area then 2 nights would be fine. However, if the area was not likely to interfere with local traffic or daytime use, then it could be comfortably be extended to 3-4 days.

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 10am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Another reason (please explain)

**Another reason (please explain):** All of the above

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – I support another no-return period rule (please explain)

**No – I support another no-return period rule (please explain):** Residential areas should be a 2 week no return, but commercial areas one week.

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Do you have any other comments on the general rules?

My major concern is with the potential to discriminate against people who have not the means to afford a vehicle that can be suitably made self contained. I support public facilities/toilets being open 24/7 for the use of all the public at all times regardless of whether they are camping or driving through town.

## Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?

# Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

### General rules

#### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

Do you not support having general rules because, in your view: Another reason (please explain)

**Another reason (please explain):** Freedom camping close to public facilities (with non self contained vehicles) should be acceptable. Bring in harsh fines/penalties for people who leave rubbish, waste, disturbance, etc

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** No – freedom camping vehicles should not be required to be self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** The kind of vehicle used for freedom camping in Auckland should be a personal choice. The cost of buying, hiring, or converting to a self-contained vehicle is too high, and that could mean some people can't afford to freedom camp in Auckland

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** Freedom campers should be subject to some basic rules wherever they stay in Auckland – no areas should be available for unlimited or indefinite freedom camping

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** Yes – freedom campers should be able to stay a maximum of two nights in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:** Vehicles are required to have three days' onboard waste storage per occupant, so a two-night maximum stay will help encourage responsible dumping of waste. A two-night stay will prevent campers staying in an area longer-term, blocking others' access to parking or other amenities

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Requiring campers to leave at 8am, before standard business hours begin, protects access to shared parking or other amenities for other users – which is more of a priority than campers' convenience

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** Yes – freedom campers shouldn't be able to return to stay in the same road or parking area within a two-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:** A two-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

Browns Bay beach area has been occupied for weeks at a time by a group of approximately 20 people with multiple tents. People who regularly walk their dogs have to stop them eating the bones that they throw onto the beach. I also doubt that they are walking the 500 metres to the toilets during the night, especially the children. It's not safe and last summer the beaches had restricted swimming due to human excrement. I think Browns Bay beach should have restricted camping and should exclude people camping in tents.

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I support having general rules

**Do you support having general rules because, in your view:** General rules are a reasonable way to protect Auckland's environment, public health and safety, and public access from the problems freedom camping can cause, Without general rules, there is a risk that any problems caused by freedom camping could move fr

**Another reason (please explain):**

**Do you not support having general rules because, in your view:**

**Another reason (please explain):**

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?**

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Maximum stay rule

We propose that freedom campers should be able to stay a **maximum of two nights** in the same road or off-road parking area, in any area covered by this rule.

A self-contained freedom camping vehicle must be able to store water and waste for its occupants for at least three days. Having a two-night maximum stay will encourage campers to move on and dump their waste responsibly.

A two-night maximum stay also helps to prevent campers from staying in one parking area long-term, which could impact fair access to shared parking and amenities for other users of the area (including other campers).

We think two nights strikes the right balance between protecting public access and giving visitors to Auckland time to explore and enjoy an area and support its local businesses.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed maximum stay rule?** No – freedom campers should be able to stay a maximum of one night in the same road or off-road parking area

**No – I support another maximum stay rule (please explain):**

**Do you support the maximum stay rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** Requiring vehicles to move on the following morning will prevent campers from blocking others' access to parking or other amenities during the day, and prevent longer-term stays. A one-night stay still gives campers some opportunity to enjoy the area and support local businesses, but this is less of a priority than protecting access for other users of public space

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

### Set departure time rule

We propose that freedom campers should have to **vacate their parking space by 9am** on the day of departure, in any area covered by this rule.

We think 9am strikes the right balance between protecting public access and giving visitors a more enjoyable experience during their stay in Auckland.

A set departure time of 9am ensures turnover of parking spaces, protecting fair access to shared parking and amenities for other users of an area during standard business hours.

Having a departure time rule also supports the enforcement of the maximum stay rule, by making it easier to determine whether someone had intended to stay another night.

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

Note: areas with high traffic volumes before 9am will usually have parking restrictions in place, and freedom camping vehicles must comply with these.

**Do you support the proposed set departure time rule?** No – freedom campers should have to vacate their parking space by 8am on the day of departure

**No – I support another set departure time rule (please explain):**

**Do you support the set departure time rule because, in your view:**

**Is this because, in your view:** Requiring campers to leave at 8am, before standard business hours begin, protects access to shared parking or other amenities for other users – which is more of a priority than campers' convenience

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

## No-return period rule

We propose that freedom campers **can't return to stay overnight** in the same road or off-road parking area **for two weeks**, in any area covered by this rule.

We think allowing people to return to an area after two weeks strikes the right balance between protecting public access, and allowing campers to return to a favourite spot during a longer stay.

A no-return period helps to prevent campers from moving their vehicle a very short distance to get around the maximum stay rule and stay in one location for long periods. Long stays impact fair access to shared parking and amenities for other users of the area (including other campers).

If freedom camping starts to cause problems, we think this is better managed by putting extra restrictions in that area (by designating it in Schedule 2 of the Bylaw).

**Do you support the proposed no-return period rule?** No – freedom campers shouldn't be able to return to stay in the same road or parking area within a four-week period

**No – I support another no-return period rule (please explain):**

**Do you support the no-return period rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:** A four-week non-return period helps prevent people staying in one area long-term, which protects access to shared parking and amenities for other users

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

[Do you have any other comments on the general rules?](#)

[Do you have any comments on these other parts of the Bylaw, or any other feedback you would like to give us?](#)

## Ōrākei Local Board area

### Prohibited sites

**St Heliers Community Library and Hall** 32 St Heliers Bay Road, St Heliers, do you agree that freedom camping should be prohibited in this area? Yes

**Tell us why and any other comments you would like to make about this area?** The roads are already crowded and tight for passers by, cyclists and with parking. The area already has parking issues, just no need to make it worse. This area needs less traffic - not more. Parking bays have recently been removed.

### Restricted sites

**Carpark on Road Reserve by Anderson's Beach Reserve** Near intersection of Riddell Road and Glendowie Road, Glendowie. Do you agree that freedom camping should be restricted in this area? No – freedom camping should not be allowed in this area

**Which of the proposed restrictions for this area would you want to change at Anderson's Beach Reserve?**

**What do you think is the appropriate maximum number of vehicles allowed at this site?**

**Other (please specify):**

**What do you think is the appropriate maximum stay at this site?**

**Other (please specify):**

**What do you think is the appropriate departure time at this site?**

**Other (please specify):**

**What do you think is the appropriate no-return period at this site?**

**Other (please specify):**

**Where do you think the freedom camping parking spaces should be located within this area?**

**Do you have any other comments you would like to make about this area?**

## Proposed new Freedom Camping in Vehicles Bylaw 2021

We asked for feedback on an earlier version of this Bylaw, in 2018-19. After considering feedback, the council decided to develop a new Bylaw proposal. From October 26 to December 5, we asked the public to tell us what they think of this new Bylaw proposal.

We wanted submitters views on whether we have the balance right – between providing a safe and enjoyable experience for freedom campers visiting Auckland and protecting our environment, health and safety and access to public space for everyone.

Our Freedom Camping in Vehicles Bylaw will set rules for freedom camping in a vehicle on most council land in Auckland to protect:

- areas that are environmentally or culturally sensitive
- the health and safety of freedom campers and other users of public space
- access for everyone to our public places, facilities, and amenities.

The Bylaw:

- identifies areas where freedom camping is prohibited
- identifies areas where freedom camping is restricted and sets the specific rules that apply in these areas
- sets general rules that apply in all other areas covered by the bylaw (including most roads).

Reserve land has been excluded from the scope of the proposed Bylaw. This means camping at Auckland's reserves will continue to be managed under the Reserves Act 1977. The Reserves Act 1977 already prohibits all camping on reserves unless specific approval is given. You can find out more on our FAQs tab on the right side of the page.

**Note: this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.**

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, There are better ways to prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby, The general rules will unfairly impact some people

#### Another reason (please explain):

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** I do not support freedom camping in any form.

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?** Ban any form of freedom camping

**How do you think the general rules will unfairly impact some people?** Parking and restricting access along side roads for one.

### Do you want to comment on why you don't know?

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

**Do you support the proposed self-containment rule?** Yes – freedom camping vehicles should be certified self-contained

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:** The use of non-self-contained vehicles poses a risk to the environment or public health and safety, and shouldn't be allowed anywhere, on principle, The use of non-self-contained vehicles poses a risk to the environment or public health and safety in un-s

#### General rules

##### About general rules

The Freedom Camping Act 2011 gives people the right to freedom camp on public land.

However, the Act also allows councils to make reasonable rules to protect the environment, public health and safety, and public access to shared space.

We're proposing four general rules that we think will:

- encourage responsible freedom camping and provide a reasonable minimum level of protection for most public places in Auckland
- make sure people can't move a short distance from a prohibited or restricted area to camp somewhere without any rules, as this could just displace any problems to adjacent areas
- make sure we're not limiting people's right to freedom camp any more than is necessary and justified under the Act.

## Proposed general rules for Auckland

The four general rules we're proposing are:

- Freedom campers must use a certified self-contained vehicle (the '**self-containment rule**')
- Freedom campers must stay a maximum of two nights in the same road or off-road parking area (the '**maximum stay rule**')
- Freedom campers must vacate their parking space by 9am on the day of departure (the '**departure time rule**')
- Freedom campers must not return to stay in the same road or off-road parking area for two weeks (the '**no-return period rule**').

Our rationale for each of the general rules we're proposing is summarised under the question relating to that rule.

### Where the general rules would apply

The general rules would apply in any area that is covered by the Bylaw, except for:

- designated areas where freedom camping is **prohibited** (listed in Schedule 1)
- designated areas where freedom camping is **restricted** (listed in Schedule 2), as these areas have their own specific rules.

This means the general rules will cover most public roadsides and car parks in Auckland. Note: any existing rules that control parking in these places – for example road markings and parking restrictions – still apply to freedom camping vehicles.

The general rules would not apply in areas that aren't covered by the Bylaw, including areas:

- on private property
- not managed by council (for example motorways)
- managed by council under other regulations (e.g. land held under the Reserves Act 1977).

### Do you support the use of general rules for freedom camping in all areas not otherwise prohibited or restricted?

I do not support having general rules

### Do you support having general rules because, in your view:

#### Another reason (please explain):

**Do you not support having general rules because, in your view:** There are better ways to protect the environment, public health and safety, and public access from the problems freedom camping can cause, It is not necessary to impose basic rules on freedom campers everywhere in Auckland. Another reason (please explain)

**Another reason (please explain):** Full time leaving in self contained vehicle is reality of many people. To make their leaving easier, I suggest max of 5 days of stay, leaving until lunchtime

**How do you think we can better protect the environment, public health and safety, and public access from the problems freedom camping can cause?** Better education, more rubbish bins

**How do you think we can prevent any problems caused by freedom camping moving from regulated areas to unregulated areas nearby?**

**How do you think the general rules will unfairly impact some people?**

**Do you want to comment on why you don't know?**

## Self-containment rule

We propose that freedom campers must use a **certified self-contained vehicle** to stay in any area covered by this rule.

This means that the vehicle has been inspected and certified as meeting the New Zealand Self-Containment Standard (or its equivalent). To meet the standard, a freedom camping vehicle must have an onboard toilet and be able to store water and waste for its occupants for at least three days. To find out more about the New Zealand Self-Containment Standard, visit our FAQs page.

We consider freedom campers travelling in these vehicles can camp responsibly in most places in Auckland, because they don't require access to public facilities to meet their basic daily needs.

Campers in vehicles that aren't self-contained would be reliant on Auckland's limited public facilities to meet their basic needs, and this poses a risk to the environment and public health.

It makes sense for us to align our expectations for vehicle self-containment with the New Zealand Standard. Referencing an existing certification process that is widely used by the industry and other councils will make compliance simpler for people who own or hire vehicles, including those from outside Auckland. It will also make checking compliance more efficient for our enforcement staff.

#### **Do you support the proposed self-containment rule?**

**No – I support another rule about self-containment (please explain):**

**Do you support the self-containment rule because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**

**Another reason (please explain):**

**Is this because, in your view:**
