
I hereby give notice that a hearing under the Reserves Act 1977 and under the Local Government Act 2002 (for a Special Consultative Procedure) will be held on:

Date: Monday, 9 May (commencing with Local Board feedback followed by submitters), Monday 16, Tuesday 17 and Friday 20 May 2022
Time: 9.30am each day
Meeting Room: Reception Lounge (or via MSTeams if required)
Venue: Level 2, Auckland Town Hall
301 Queen Street, Auckland Central

SUBMISSIONS – VOLUME SIX

DRAFT REGIONAL PARKS MANAGEMENT PLAN

PANEL MEMBERS

Chairperson
Members

Cr Linda Cooper, JP
Cr Christine Fletcher, QSO
IMSB Member Glenn Wilcox
Independent Commissioner David Hill
Independent Commissioner James Whetu

Nick Somerville
Kaitohutohu Whakawātanga
Hearings Advisor

Telephone: 09 890 2082 or 027 303 6197
Email: nick.somerville@aucklandcouncil.govt.nz
Website: www.aucklandcouncil.govt.nz

Note: The reports contained within this document are for consideration and should not be construed as a decision of Council. Should panel members require further information relating to any reports, please contact the hearings advisor.

WHAT HAPPENS AT A HEARING

Te Reo Māori and Sign Language Interpretation

Any party intending to give evidence in Māori or NZ sign language should advise the hearings advisor at least ten working days before the hearing so a qualified interpreter can be arranged.

Hearing Schedule

If you would like to appear at the hearing please return the appearance form to the hearings advisor by the date requested. A schedule will be prepared approximately one week before the hearing with speaking slots for those who have returned the appearance form. If changes need to be made to the schedule the hearings advisor will advise you of the changes.

Please note: during the course of the hearing changing circumstances may mean the proposed schedule may run ahead or behind time.

Cross Examination

No cross examination is allowed at the hearing. Only the hearing commissioners are able to ask questions. Attendees may suggest questions to the commissioners and they will decide whether or not to ask them.

The Hearing Procedure

The usual hearing procedure is:

- **the chairperson** will introduce the commissioners and will briefly outline the hearing procedure. The Chairperson may then call upon the parties present to introduce themselves. The Chairperson is addressed as Madam Chair or Mr Chairman.
- The **council staff** will be called upon to provide a brief overview of the proposal. The hearing panel may ask questions of the staff.
- The **local board's** have the opportunity to provide comments on Monday, 9 May 2022. These comments do not constitute a submission however the Local Government Act allows the local board to make the interests and preferences of the people in its area known to the hearing panel.
- **Submitters** (for and against the proposal) are then called upon to speak. Submitters speaking time may be restricted, please refer to your hearing notification letter. Submitters' active participation in the hearing process is completed after the presentation of their evidence so ensure you tell the hearing panel everything you want them to know during your presentation time. Submitters may be represented by legal counsel or consultants and may call witnesses on their behalf. The hearing panel may then question each speaker.
 - Late submissions: The council officer's report will identify submissions received outside of the submission period. At the hearing, late submitters may be asked to address the panel on why their submission should be accepted. Late submitters can speak only if the hearing panel accepts the late submission.
 - Should you wish to present written evidence in support of your submission please ensure you provide the number of copies indicated in the notification letter.
- **Council Officers** will then have the opportunity to clarify their position and provide any comments based on what they have heard at the hearing.
- **The chairperson** will outline the next steps in the process and adjourn or close the hearing.
- If adjourned the hearing panel will decide when they have enough information to make a recommendation and close the hearing. The hearings advisor will contact you once the hearing is closed.
- The hearing panel will now deliberate on what they have heard and read and will make a recommendation to the Parks, Art, Community and Events Committee.

Please note

- the hearing will be audio recorded and this will be publicly available after the hearing
- catering is not provided at the hearing.

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

not answered

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? not answered

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

not answered

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) not answered

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapter and Appendix 4. **What is your opinion of our proposed principles and criteria?** not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). **What is your opinion of these plans?** not answered

Q9. Tell us why and how we can improve this section.

not answered

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

not answered

Q11. Tell us why and how we can improve this section.

not answered

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

not answered

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.

not answered

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.

not answered

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).

not answered

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.

not answered

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** not answered

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

not answered

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** not answered

Q23. **Tell us why and how we can improve this section.**

not answered

Q24. **Do you want to comment on any other aspect of the general policies?** Yes

Q25. **Provide your comment/s.**

not answered

Q26. **Do you want to comment on any of the regional park chapters?** not answered

Q27. **Which regional parks you would like to comment on?** not answered

Q28. **Ambury Regional Park**What is your opinion on our intentions for managing Ambury? See the park chapter. not answered

Q29. **Tell us why and how we can improve this chapter.**

not answered

Q30. **Ātiu Creek**What is your opinion on our intentions for managing Ātiu Creek? See the park chapter. not answered

Q31. **Tell us why and how we can improve this chapter.**

not answered

Q32. **Āwhitu**What is your opinion on our intentions for managing Āwhitu? See the park chapter. not answered

Q33. **Tell us why and how we can improve this chapter.**

not answered

Q34. **Duder**What is your opinion on our intentions for managing Duder? See the park chapter. not answered

Q35. Tell us why and how we can improve this chapter.

not answered

Q36. **Glenfern Sanctuary**What is your opinion on our intentions for managing Glenfern Sanctuary? See the park chapter. not answered

Q37. Tell us why and how we can improve this chapter.

not answered

Q38. **Hūnua Ranges**What is your opinion on our intentions for managing Hūnua Ranges? See the park chapter. not answered

Q39. Tell us why and how we can improve this chapter.

not answered

Q40. **Long Bay**What is your opinion on our intentions for managing Long Bay? See the park chapter. not answered

Q41. Tell us why and how we can improve this chapter.

not answered

Q42. **Mahurangi East**What is your opinion on our intentions for managing Mahurangi East? See the park chapter. not answered

Q43. Tell us why and how we can improve this chapter.

not answered

Q44. **Mahurangi West**What is your opinion on our intentions for managing Mahurangi West? See the park chapter. not answered

Q45. Tell us why and how we can improve this chapter.

not answered

Q46. **Motukorea / Browns Island**What is your opinion on our intentions for managing Motukorea / Browns Island? See the park chapter. not answered

Q47. Tell us why and how we can improve this chapter.

not answered

Q48. **Muriwai** What is your opinion on our intentions for managing Muriwai? See the park chapter. not answered

Q49. **Tell us why and how we can improve this chapter.**

not answered

Q50. **Ōmana** What is your opinion on our intentions for managing Ōmana? See the park chapter. not answered

Q51. **Tell us why and how we can improve this chapter.**

not answered

Q52. **Ōrere Point** What is your opinion on our intentions for managing Ōrere Point? See the park chapter. not answered

Q53. **Tell us why and how we can improve this chapter.**

not answered

Q54. **Pakiri** What is your opinion on our intentions for managing Pakiri? See the park chapter. not answered

Q55. **Tell us why and how we can improve this chapter.**

not answered

Q56. **Scandrett** What is your opinion on our intentions for managing Scandrett? See the park chapter. not answered

Q57. **Tell us why and how we can improve this chapter.**

not answered

Q58. **Shakespear** What is your opinion on our intentions for managing Shakespear? See the park chapter. not answered

Q59. **Tell us why and how we can improve this chapter.**

not answered

Q60. **Tāpapakanga** What is your opinion on our intentions for managing Tāpapakanga? See the park chapter. not answered

Q61. **Tell us why and how we can improve this chapter.**

not answered

Q62. **Tāwharanui** What is your opinion on our intentions for managing Tāwharanui? See the park chapter. not answered

Q63. Tell us why and how we can improve this chapter.

not answered

Q64. Tawhitokino What is your opinion on our intentions for managing Tawhitokino? See the park chapter.

not answered

Q65. Tell us why and how we can improve this chapter.

not answered

Q66. Te Ārai What is your opinion on our intentions for managing Te Ārai? See the park chapter.

not answered

Q67. Tell us why and how we can improve this chapter.

not answered

Q68. Te Muri What is your opinion on our intentions for managing Te Muri? See the park chapter.

not answered

Q69. Tell us why and how we can improve this chapter.

not answered

Q70. Te Rau Pūriri What is your opinion on our intentions for managing Te Rau Pūriri? See the park chapter.

not answered

Q71. Tell us why and how we can improve this chapter.

not answered

Q72. Waharau What is your opinion on our intentions for managing Waharau? See the park chapter.

not answered

Q73. Tell us why and how we can improve this chapter.

not answered

Q74. Waitākere Ranges What is your opinion on our intentions for managing Waitākere Ranges? See the park chapter.

not answered

Q75. Tell us why and how we can improve this chapter.

not answered

Q76. Waitawa What is your opinion on our intentions for managing Waitawa? See the park chapter.

not answered

Q77. Tell us why and how we can improve this chapter.

not answered

Q78. **Wenderholm** What is your opinion on our intentions for managing Wenderholm? See the park chapter. not answered

Q79. **Tell us why and how we can improve this chapter.**
not answered

Q80. **Whakanewha** What is your opinion on our intentions for managing Whakanewha? See the park chapter. not answered

Q81. **Tell us why and how we can improve this chapter.**
not answered

Q82. **Whakatīwai** What is your opinion on our intentions for managing Whakatīwai? See the park chapter. not answered

Q83. **Tell us why and how we can improve this chapter.**
not answered

Q84. **Do you have any other comments on, or think anything else should be included in, the draft plan?**

1 .A mahurangi west regional park there is a small amount of flat land that I feel should NOT be planted. It is at the northern end of mita bay. There is very small amounts of flat land especially close to the beach. If this area is regenerated with bush future generations will miss opportunities for picnic and camping. I would be happy to provide map references and or photos of this area. 2. At te muri regional park there is an area of flat land land that I feel should NOT be planted. It is at the south Eastern corner of the park next to the Puhoi river. There is very small amounts of flat land especially close to the river. If this area is regenerated with bush future generations will miss opportunities for picnic and camping. I would be happy to provide map references and or photos of this area.

Q85. **Do you want to speak to your submission?** Yes

Q86. **Overall, how satisfied or dissatisfied were you with your experience of submitting feedback?** not answered

Q87. **How can we improve the process of submitting feedback to Auckland Council?**
not answered

Respondent No: 252 Ian Greenwood

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Other

Q2. Tell us why

I do not support any form of change to the governance or ownership of the regional parks. They must be retained 100% under control of the council. This includes the strongest objection to "45. Investigate formally including regional parks that contribute to the coastal area of the Gulf into the Hauraki Gulf Marine Park."

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

not answered

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

not answered

Q11. **Tell us why and how we can improve this section.**

not answered

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?**

not answered

Q13. **Tell us why and what is most important to you about our farmed areas.**

not answered

Q14. **Vehicles on Muriwai beach**The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. **What changes, if any, would you like to see to this section?**

not answered

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.**

Other

Q17. Shakespeare: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	Support
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	Support
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	Support
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	Support
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	
not answered	
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	Support
Q23. Tell us why and how we can improve this section.

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

The general direction is to makes changes that cater for population increase. It is reasonable to assume that a percentage of that increase will use park facilities regularly

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

This is part of work to make parks available to all regardless of ability, and is in line with accessibility initiatives being pursued at present. This does not mean that all areas of all parks will be fully accessible, but in providing for a range of activities accessibility needs to be catered for.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

not answered

Q11. **Tell us why and how we can improve this section.**

not answered

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?**

not answered

Q13. **Tell us why and what is most important to you about our farmed areas.**

not answered

Q14. **Vehicles on Muriwai beach**The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. **What changes, if any, would you like to see to this section?**

not answered

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.**

Support

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	Support
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	Oppose
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	Support
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	Support
<p>Q21. What changes, if any, would you like us to make to the draft plan about dogs?</p> <p>I would suggest adopting the principles that have allowed DoC to open up around 60 areas for dogs, with appropriate on and off leash restrictions. The Catchpole Valley near Wellington is an excellent example of an area where this works well. A blanket ban ignores the substantial number of people who count dogs as part of their families, and that a well-used exercise area in the right place is in effect self-policing. Watching a dog taking pleasure in a new environment is a great experience.</p>	
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	Support
<p>Q23. Tell us why and how we can improve this section.</p> <p>The clear layout of priorities makes a lot of sense, especially when budgets are tighter than usual as is the case now. The danger is that worthy but low-priority projects, based on good ideas, could be discarded. One question I don't see being asked is "If council don't have the resources - could some of the gaps be filled by (supervised) volunteers?". Its a question worth asking at the moment, in my view.</p>	
Q24. Do you want to comment on any other aspect of the general policies?	Yes
<p>Q25. Provide your comment/s.</p> <p>I feel that the provisions for overnight stays do not cater for the expected growth in use. I suggest you look closely at the NZ Motor Caravan Association's submission around overnight stays, particularly because the amount of such facilities in the Auckland region is very limited. As with the equivalent areas under DoC control, there is no expectation these facilities will be anything other than self-funding on an operational level.</p>	
Q26. Do you want to comment on any of the regional park chapters?	No

Q27. Which regional parks you would like to comment on? not answered

Q28. Ambury Regional Park What is your opinion on our intentions for managing Ambury? See the park chapter. not answered

Q29. Tell us why and how we can improve this chapter.

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Other

Q2. Tell us why

There are serious flaws in the draft plan - see comments below

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Other

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Special Management Zones must exist to control the management of high use areas, or areas that need special care, and protect the park values from the impacts of increased visitors, including the reinstatement of caps on specific activities, as in the 2010 RPMP.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.)

Accessing tracks in the Waitākere Ranges
Responding to the climate emergency
Vehicles on Muriwai beach
Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? Support

Q7. Tell us why and how we can improve this section.

not answered

<p>Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?</p>	Other
<p>Q9. Tell us why and how we can improve this section.</p>	
<p>200ha is insufficient</p>	
<p>Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?</p>	Support
<p>Q11. Tell us why and how we can improve this section.</p>	
<p>not answered</p>	
<p>Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?</p>	Reduce farming
<p>Q13. Tell us why and what is most important to you about our farmed areas.</p>	
<p>not answered</p>	
<p>Q14. Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?</p>	Support
<p>Q15. What changes, if any, would you like to see to this section?</p>	
<p>not answered</p>	
<p>Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.</p>	Support

Q17. Shakespeare: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	Support
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	Support
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	Support
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	Support
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	
not answered	
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	Do not support
Q23. Tell us why and how we can improve this section.	
Regional Parks need to be resourced in full by Auckland Council, not relying on unspecified co-funding arrangements with commercial entities who will have different priorities than the protection and enhancement of these parks for the benefit of all Aucklanders. Our parks are not places for commercial exploitation.	
Q24. Do you want to comment on any other aspect of the general policies?	Yes
Q25. Provide your comment/s.	
The RPMP should set out to manage the entire Waitākere Ranges and Hunua Ranges Regional Parks as Class 1 parks (as they are now) recognising their wilderness, heritage, natural and recreational values. The introduction of a new Class 1b for any Regional Parks is NOT ACCEPTABLE as this will result in over-development of these areas and the loss of wilderness values.	
Q26. Do you want to comment on any of the regional park chapters?	Yes
Q27. Which regional parks you would like to comment on?	Hūnua Ranges Waitākere Ranges

Q28. **Ambury Regional Park** What is your opinion on our intentions for managing Ambury? See the park chapter. not answered

Q29. **Tell us why and how we can improve this chapter.**

Q82. **Whakatīwai** What is your opinion on our intentions for managing Whakatīwai? See the park chapter. not answered

Q83. Tell us why and how we can improve this chapter.

not answered

Q84. Do you have any other comments on, or think anything else should be included in, the draft plan?

I reject the introduction of a new Class 1b for any Regional Park as this can result in over-development of these areas and the loss of wilderness values. I do however support the retention and use of the existing Special Management Zones which can control the management of high use areas, or areas that need special care, and protect the park values from the impacts of increased visitors, including the reinstatement of caps on specific activities, as in the 2010 RPMP. I do support the co-governance and co-management proposals for mana whenua to work with council in better management of our regional parks, including the honouring and implementation of rāhui and memoranda of understanding where they exist. Adequate resourcing is obviously needed I support the retention and expansion of the Ranger Service as effective managers of our regional parks, not just as "hosts" for visitors. All heritage sites and notable trees within regional parks should be listed in the written part of the plan and included on the maps. (A recent court ruling mainly & hopefully covered the notable trees aspect)

Q85. Do you want to speak to your submission? No

Q86. Overall, how satisfied or dissatisfied were you with your experience of submitting feedback? 3

Q87. How can we improve the process of submitting feedback to Auckland Council?

not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

It is imperative we protect our natural and cultural heritage regional parks, and all access for all NZers. I believe that splitting any public place into culture/heritage rights is discriminatory.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

More parks allowing access to self contained campers and facilities such as coin operated bbqs and public amenities.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) not answered

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

not answered

Q11. **Tell us why and how we can improve this section.**

not answered

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?**

not answered

Q13. **Tell us why and what is most important to you about our farmed areas.**

not answered

Q14. **Vehicles on Muriwai beach**The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. **What changes, if any, would you like to see to this section?**

not answered

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.**

not answered

Q17. **Shakespeare: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.** not answered

Q18. **Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).** not answered

Q19. **Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.** not answered

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** not answered

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

not answered

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** not answered

Q23. **Tell us why and how we can improve this section.**

not answered

Q24. **Do you want to comment on any other aspect of the general policies?** No

Q25. **Provide your comment/s.**

not answered

Q26. **Do you want to comment on any of the regional park chapters?** No

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

Stop trying to grab assets and place them in a co-governance model which is only going to cost ratepayers more collectively. I disagree that IWI should be given a 50% share of this governance when all ratepayers are affected and own these assets

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Every aucklander should have fair and equal access to these assets

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges
Responding to the climate emergency
Vehicles on Muriwai beach
Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? Support

Q7. Tell us why and how we can improve this section.

not answered

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?

Do not support

Q9. Tell us why and how we can improve this section.

Council has already planted trees to then have their own council staff remove them. I support trees being planted but council need to allocate locations where they will not be removed and a waste of rate payers money. Further we should not be imposed with a climate tax this should come from central government and out of rates already collected and paid by rate payers

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

Do not support

Q11. Tell us why and how we can improve this section.

Again another tax and unfair use of rates proportionally to already marginalized communities specifically rural communities. Public transportation is not available in most of the Rodney area therefore our rates will once again be used to fund this initiative where we get little to no benefit

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

Keep farming

Q13. Tell us why and what is most important to you about our farmed areas.

This allows for biodiversity and revenue collection an needs to be managed effectively

Q14. Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

Do not support

Q15. What changes, if any, would you like to see to this section?

Allow access to vehicles along this beach as a way for families to enjoy our area

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.	Support
Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	Support
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	Oppose
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	Support
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	Support
Q21. What changes, if any, would you like us to make to the draft plan about dogs? Allow dogs on beaches and in parks with no restrictions to times and locations if dogs are controlled on leads. If a dog is off lead then owners need to be able to demonstrate that the dog is under control and within reduced time frames of access	
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	Do not support
Q23. Tell us why and how we can improve this section. No further rates revenue or taxes need to be collected. Council need to manage their budget effectively and efficiently.	
Q24. Do you want to comment on any other aspect of the general policies?	No
Q25. Provide your comment/s. not answered	
Q26. Do you want to comment on any of the regional park chapters?	No
Q27. Which regional parks you would like to comment on?	not answered
Q28. Ambury Regional Park What is your opinion on our intentions for managing Ambury? See the park chapter.	not answered

Q29. Tell us why and how we can improve this chapter.

Q83. **Tell us why and how we can improve this chapter.**
not answered

Q84. **Do you have any other comments on, or think anything else should be included in, the draft plan?**

i would like to comment specifically on a few things: wasp control is not mentioned that i could see but needs to be part of pest management. Secondly looking at special zone Anawhata; It is unclear what is to happen to maintain view shafts and lookouts on the farm. The information is nonspecific. It is essential that planting allows for the elevated areas to continue to provide the magnificent and 360 degree views. That requires planting to be in the valleys and low level ground only. (7.22) I would strongly support the loop walking track with some form of bridging on the western swamp area to allow for this (8.33) We have a small community group -Friends of Anawhata- involving land owners at the distal end of Anawhata road (232 onwards). Our work is primarily in pest control but we want to be seen as a stake holder (we are part of the alliance) in order to be considered as the detail develops around the plan.

Q85. **Do you want to speak to your submission?** Yes

Q86. **Overall, how satisfied or dissatisfied were you with your experience of submitting feedback?** 4

Q87. **How can we improve the process of submitting feedback to Auckland Council?**
not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

removing local control

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

none

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) not answered

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapter and Appendix 4. **What is your opinion of our proposed principles and criteria?** not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). **What is your opinion of these plans?** not answered

Q9. Tell us why and how we can improve this section.

not answered

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

not answered

Q11. Tell us why and how we can improve this section.

not answered

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

not answered

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.

not answered

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.

not answered

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).

not answered

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.

not answered

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** not answered

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

not answered

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** Other

Q23. **Tell us why and how we can improve this section.**

not answered

Q24. **Do you want to comment on any other aspect of the general policies?** Yes

Q25. **Provide your comment/s.**

I don't like the way you have structured this feedback document; trying to avoid the fundamental problem

Q26. **Do you want to comment on any of the regional park chapters?** No

Q27. **Which regional parks you would like to comment on?** not answered

Q28. **Ambury Regional Park**What is your opinion on our intentions for managing Ambury? See the park chapter. not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

I and my family are active users of the parks in and around Auckland and very interested that they are well maintained and friendly for outdoor activities, picnics etc. As well as protected from overuse of the nature resources - marine life in particular

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

as above

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapter and Appendix 4. What is your opinion of our proposed principles and criteria? Support

Q7. Tell us why and how we can improve this section.

Waitakere rangers track should be opened. I don't believe that closing the tracks may really save kauri. Like with the covid the closure may just slow virus infection but will not save the trees. Little use to wait for decades while birds and rodents will spread the disease anyway.

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

not answered

Q11. **Tell us why and how we can improve this section.**

not answered

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?**

not answered

Q13. **Tell us why and what is most important to you about our farmed areas.**

not answered

Q14. **Vehicles on Muriwai beach**The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. **What changes, if any, would you like to see to this section?**

not answered

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.**

not answered

Q17. Shakespeare: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	not answered
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	not answered
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	not answered
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	not answered
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	not answered
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	Other
Q23. Tell us why and how we can improve this section.	can't comment
Q24. Do you want to comment on any other aspect of the general policies?	Yes
Q25. Provide your comment/s.	<p>My special interest in the parks use is outdoor activities: cycling, kayaking, walking and especially paragliding. I fly often (and for many years) on Long Bay, Rothesay (Churchill reserve), Kennedy park, Takapuna, North head, Muriwai, Piha, Bethels beach, Kariotahi ... - just to mention. And it is very important that our environment-safe activity is included in the parks activities list. MOreover our colorful paragliders/hang-glidings wings always provide great amusement for other park visitors.</p>
Q26. Do you want to comment on any of the regional park chapters?	No
Q27. Which regional parks you would like to comment on?	not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Other

Q2. Tell us why

Would like Waitākere and Hunua to remain at 1a as a wilderness area. Plenty of other parks for a less wilderness experience

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

not answered

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges
Vehicles on Muriwai beach

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? Other

Q7. Tell us why and how we can improve this section.

Want Currently closed tracks monitored for weeds and weeds controlled . Control of pigs and goats to prevent spread of kauri dieback I would like currently closed tracks reopened ASAP to provide a wilderness experience for kiwis Young and old. Valuable resource on our doorstep currently under-utilised. Mostly the Waitākere should be staying at 1a

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

If we don't acknowledge the use of the park it wont stop people coming - this will only cause overuse of some areas, overflowing carparks, rubbish and other anti social behaviour. It is important to keep with the times, and the times are a growing city with less outdoors space than ever in the urban environment. The park is a vital place for people to connect with nature and recreate. I wasn't going to submit as I felt like things were under control. But there seems to be a strong campaign by Sandra Coney to not support the plan. I have now seen on three different Facebook groups a submission by Sandra being forwarded around as a template for people to oppose the plan. Scare mongering people with worst case scenarios.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Continue to open more tracks. Have tracks that suit a wider range of people - from wheel chair access to multiday hikes. Allow more activities to take place in the park e.g. horse riding, mountain biking (on select tracks that are appropriate).

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges
Responding to the climate emergency
Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? Support

Q7. Tell us why and how we can improve this section.

not answered

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

Support

Q9. **Tell us why and how we can improve this section.**

A balanced approach based on science, not fierce local advocates that seem to have lost touch with the public.

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

Support

Q11. **Tell us why and how we can improve this section.**

not answered

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?**

Other

Q13. **Tell us why and what is most important to you about our farmed areas.**

If it was used for education and training then i think it would be good. Otherwise we have enough farms in NZ.

Q14. **Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?**

not answered

Q15. **What changes, if any, would you like to see to this section?**

not answered

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.**

Support

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	Support
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	not answered
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	Support
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	not answered
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	
All the dog areas are over crowded when so many other areas are not even being used. I totally support extra suitable places for dogs.	
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	Support
Q23. Tell us why and how we can improve this section.	
not answered	
Q24. Do you want to comment on any other aspect of the general policies?	No
Q25. Provide your comment/s.	
not answered	
Q26. Do you want to comment on any of the regional park chapters?	No
Q27. Which regional parks you would like to comment on?	not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

I am opposed to the introduction of co-governance with appointed mana whenua representatives any of Auckland's regional parks. There is no legal or democratic basis for this to occur and I consider it a breach of the Auckland Council's responsibility to care for our assets on behalf of the ratepayers. There should be no transfer of management of regional parkland to "a relevant public agency or iwi authority". We have already seen the complete shambles, loss of local democratic control, loss of public access and outright nepotism that has occurred with the transfer of Te Urewera and Lake Waikaremoana to a similar model to what is being proposed in the draft plan.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

not answered

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

All of The Waitakere ranges need to remain accessible for recreation including wilderness and inner forest

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Do not support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

All tracks need to be reopened for tramping and hiking without the sanitising of tracks. There is 270 kms of tracks that need to be reopened.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges

Q6. Accessing tracks in the Waitākere Ranges We propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapter and Appendix 4. What is your opinion of our proposed principles and criteria? Do not support

Q7. Tell us why and how we can improve this section.

All tracks need to be reopened as was promised in 2019. The council has significantly reduced the track network in response to kauri dieback yet not enough has reopened.

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Other

Q2. Tell us why

Generally in support of the plan. See comments about Waitakere.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

not answered

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges

Q6. Accessing tracks in the Waitākere Ranges We propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapter and Appendix 4. What is your opinion of our proposed principles and criteria? Other

Q7. Tell us why and how we can improve this section.

Generally in support however with specific reference to the Karekare area I don't feel the current "Track Reopening Work Programme" really offers the "network of short (up to 1 hour) and half-day walking (up to 3 hours) opportunities" or showcases the diversity of ecosystems in the area. I understand the importance of preventing the spread of Kauri Dieback via foot traffic but considering the size of the NETR budget it should be feasible to upgrade several tracks in the area (e.g Zion ridge track) to walking track standard (due to presence of dieback on lower slopes) and with minimal upgrades seasonally (in the drier months) open Odilins, Buck taylor and Walker ridge track. This will offer several routes for Aucklanders and provide access to interior of the forest without entering the largely dieback free Huia Catchment. As a minimum Zion Ridge track should be upgraded and included in the track reopening programme and scheduled to be completed before 2024 to provide the Karekare community with an interior forest experience (currently not offered). Increasing traffic along the beach and through the dunes south of union bay will create significant pressure on the sensitive and unique values that the Waitapu scientific reserve is designed to protect.

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

not answered

Q11. **Tell us why and how we can improve this section.**

not answered

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?**

not answered

Q13. **Tell us why and what is most important to you about our farmed areas.**

not answered

Q14. **Vehicles on Muriwai beach**The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. **What changes, if any, would you like to see to this section?**

not answered

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.**

not answered

Q17. Shakespeare: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	not answered
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	not answered
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	not answered
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	not answered
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	not answered
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. not answered

Q70. **Te Rau Pūriri**What is your opinion on our intentions for managing Te Rau Pūriri? See the park chapter. not answered

Q71. Tell us why and how we can improve this chapter.

not answered

Q72. **Waharau**What is your opinion on our intentions for managing Waharau? See the park chapter. not answered

Q73. Tell us why and how we can improve this chapter.

not answered

Q74. Waitākere Ranges What is your opinion on our intentions for managing Waitākere Ranges? See the park chapter. Other

Q75. Tell us why and how we can improve this chapter.

On biodiversity protection in the Waitakere Ranges. The 1997 Possum operation was a significant success that has gone a long way to protecting the fauna and flora of the Waitakere Ranges. Bird counts since then have not shown a significant stable change to avifauna even in areas when regular intensive ground pest control has taken place e.g. Ark in the Park. Regional Parks and Auckland Council alongside mana whenua and conservation partners need to seriously consider other forms of landscape pest control operations. There are a number of low risk areas in the park where a pilot for this could take place. Most notably the 2500 ha south of Zion Hill ridge extending to Whatipu. This area is free of residential properties, pets, has a defensible sea boundary along two edges, does not contain any drinking water reservoirs and contains perhaps the most significant wetlands and dune complex in the region. Creating a predator free sanctuary here would provide significant refuge for wildlife and create significant tourism value.

Q76. Waitawa What is your opinion on our intentions for managing Waitawa? See the park chapter. not answered

Q77. Tell us why and how we can improve this chapter.

not answered

Q78. Wenderholm What is your opinion on our intentions for managing Wenderholm? See the park chapter. not answered

Q79. Tell us why and how we can improve this chapter.

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

not answered

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

not answered

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges
Responding to the climate emergency

Q6. Accessing tracks in the Waitākere Ranges We propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapter and Appendix 4. What is your opinion of our proposed principles and criteria? Support

Q7. Tell us why and how we can improve this section.

Need to use weed spray lots of gorse and environmentally invasive weeds on many tracks

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans? Support

Q9. Tell us why and how we can improve this section.

Need to use weed spray lots of gorse and environmentally invasive weeds on many tracks

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals? Do not support

Q11. Tell us why and how we can improve this section.

Most parks are in locations that mean personal transportation is needed, this makes walking or cycling there impossible, or public transport. Put in charging stations but soon hydrogen will take over and that will be wasted \$\$

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks? Keep farming

Q13. Tell us why and what is most important to you about our farmed areas.

Pesderian access to areas for walking

Q14. Vehicles on Muriwai beach The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan? not answered

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park. not answered

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track. not answered

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point). not answered

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	not answered
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	not answered
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	not answered
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	Support

Q9. Tell us why and how we can improve this section.

not answered

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

not answered

Q11. Tell us why and how we can improve this section.

not answered

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

not answered

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.

not answered

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.

not answered

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).

not answered

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.

not answered

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** not answered

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

not answered

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** not answered

Q23. **Tell us why and how we can improve this section.**

not answered

Q24. **Do you want to comment on any other aspect of the general policies?** not answered

Q25. **Provide your comment/s.**

not answered

Q26. **Do you want to comment on any of the regional park chapters?** No

Q27. **Which regional parks you would like to comment on?** not answered

Draft Regional Parks Management Plan Review, Auckland Council, Regionalparksplanreview@aucklandcouncil.govt.nz
March 3rd, 2022 Dear Sirs I have read the submission lodged by Federated Mountain Clubs and support the views expressed in the submission. In particular, I have the raise the following with respect to the submission points:- Document usability and purpose – “While there is a whole raft – 500 pages – of mostly well intentioned words, there is no way that it should be called a Plan. A plan must have ● A list of achievable targets ● A commitment to a timeframe to achieve those targets...” A good example is Pakiri Regional Park. Part purchased in 2010, more purchased to provide access and nothing much has been done since to enhance the visitor experience. The RPMP outlines potential tracks and facilities for the future – but no timeline, nor commitment to do anything. Waitakere and Hunua Track Network / Recreation Plans - Missing In Action Whilst a Waitakere Track reopening plan was issued nearly 3 years ago (and a commitment made to review it as part of the RPMP – not happened), there has been no Hunua Track reopening plan. The Waharau Ridge track opened recently as we came out of lockdown – no advertising of the fact that it had opened and no advice since of when extension tracks to Adam’s Lookout, Thousand Acre Clearing or Kohukohunui will be opening. There appear to be fewer tracks available in the Hunuas than before restricted access to Watercare catchment areas was lifted in the 1990’s. Recreation is Critical – And yet as noted in the FMC submission there is an absence of any recreational groups in the list of key stakeholders of each regional park. The FMC submission requests that FMC (Federated Mountain Clubs) and FOR parks (Friends of Regional Parks) should be added as key stakeholders to represent recreational interests. I trust that as a result of the submission process that Auckland Council take on board the points raised and make appropriate changes to ensure that the Regional Parks Management Plan does indeed “provide an enduring vision for 28 of our regional parks with objectives and policies to guide park management for the next decade.” Regards, Martin Woodhead

Q85. **Do you want to speak to your submission?** No

Q86. **Overall, how satisfied or dissatisfied were you with your experience of submitting feedback?** 4

Q87. **How can we improve the process of submitting feedback to Auckland Council?**

not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Other

Q2. Tell us why

I strongly believe that our regional parks should be protected to ensure that their natural and cultural heritage are preserved and enhanced, however I have concerns about these qualities being secondary to Aucklanders' ability to enjoy them for these qualities. I believe that they should be protected and open for public enjoyment only to the extent that this does not have negative impacts on the natural or cultural heritage values of the parks. I would like to see the Waitakeres and Hunuas continued to be managed as class 1 parks with no introduction of class 1b as this will result in over development and destruction of the natural heritage that makes them valuable. I am concerned about the rapid increase in visitor numbers that I have witnessed in our regional parks, particularly the Waitakeres. I would like to see steps taken to prevent uncontrolled growth in numbers to these spaces using cars (which leads to dangerously crowded narrow roads and overflow parking on road shoulders which limits pedestrian access and causes damage to nearby native vegetation.) I support the retention and use of special management zones to protect the park values from the impact of high visitor numbers, including placing a cap on the number of visitors to sites. As part of this I would like to see recognition of the Waitakere Ranges Heritage Area Act, which gives legal obligation to protect the natural heritage of this area.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Other

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

I support our parks being welcoming and accessible to diverse communities, however I do not believe that increasing access should be done at at cost to the parks themselves. I am concerned that this will result in road widening (and a loss of roadside vegetation) and carpark extensions (again at a loss to natural vegetation, habitat and impacts to nearby waterways). I also think that any improvements to tracks need to be done very carefully with the minimisation of impact on the area the track runs through being the most important priority, which should not be compromised.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.)

- Accessing tracks in the Waitākere Ranges
- Responding to the climate emergency
- Vehicles on Muriwai beach
- Dogs in regional parks

Q6. Accessing tracks in the Waitākere Ranges We propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapter and Appendix 4. **What is your opinion of our proposed principles and criteria?**

Other

Q7. Tell us why and how we can improve this section.

I am very concerned about track development putting the importance of re-opening and increasing access to more tracks above the protection and caution needed to prevent the spread of kauri dieback. I think it is more important to keep sections of the parks closed to protect these precious and threatened trees than it is to provide a leisure activity for Aucklanders.

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). **What is your opinion of these plans?**

Support

Q9. Tell us why and how we can improve this section.

I would love to see increased permanent native plantings beyond this aim, including the careful planting of local threatened and endemic species (and of course thorough weed and pest control to ensure that these plants can thrive). It is always confusing and disappointing to visit regional parks around Auckland that are run as farms (especially those that have active and well-publicised conservation projects running in them). There is no shortage of farms for Aucklanders or New Zealanders to visit should they choose and keeping these operational in parks seems a huge snub to the Maori culture of each space, as well as a massive lost opportunity for restoration and the support of native biodiversity and climate change mitigation. We Aucklanders should be seeing our natural heritage showcased in our regional parks, not the homogenising heritage of British farming culture.

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). **What is your opinion of these proposals?**

Support

Q11. Tell us why and how we can improve this section.

I think this is great. I would love to see regular public transport options to all of our parks, as well as safe and well designed walking and cycling options. I would like to suggest that instead of increasing parking and road access to our regional parks that instead public transport, walking and cycling are prioritised and a firm stand is made against the minority vociferous car-promoters. A (cheap!) park and ride service of mini shuttle buses or other public transport options for high-use areas would be a fantastic asset and would provide access for many Aucklanders who may not have cars, or who would like to reduce their use. This would also reduce the need for parking in these sites, which should not be expanded.

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

Reduce farming

Q13. Tell us why and what is most important to you about our farmed areas.

I think that farming in our parks is archaic and inappropriate. I would support the retention of Ambury as a single farm park with the purpose of providing access to animals and encouraging this connection and empathy, but I do not think that farming should have a place generally in our regional parks. Farming is a colonial practice that has obliterated original Maori land uses and many cultural sites as well as causing huge environmental damage. Open space in our regional parks, particularly those with significant views, is an asset that should be retained, but this does not need to be done through farming. Our reserves should be natural spaces that the public can enjoy and experience our natural heritage. This does not mean farm fences and cattle damaging soil and waterways. Native vegetation and biodiversity should be the highest priority in our regional parks and farms should be phased out.

Q14. Vehicles on Muriwai beach
The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

Support

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.

Oppose

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.

Support

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).

Support

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.

Oppose

Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.

Support

Q21. What changes, if any, would you like us to make to the draft plan about dogs?

I think that more attention and care needs to be paid to the damage that dogs can cause in the bush, particularly in regards to kauri dieback. I think that dogs should not be encouraged on any bush track or beach where shorebird nesting occurs.

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** Do not support

Q23. **Tell us why and how we can improve this section.**

This seems vague and concerning. While I understand that funding is required to achieve goals and maintain facilities, having unspecified partnerships and collaborations seems like a recipe for commercial exploitation of natural areas. Our parks are not spaces for commercial operations. Commercial operators will have very different priorities to the Council and this approach could easily lead to damage and miss-management of public assets. I would like to see all resourcing requirements set out in full and all fully funded by Auckland Council. There should be no place for commercial exploitation in our parks.

Q24. **Do you want to comment on any other aspect of the general policies?** No

Q25. **Provide your comment/s.**

not answered

Q26. **Do you want to comment on any of the regional park chapters?** No

Q83. **Tell us why and how we can improve this chapter.**

not answered

Q84. **Do you have any other comments on, or think anything else should be included in, the draft plan?**

I support the co-governance of regional parks between the council and mana whenua and I would like to see greater recognition of rahui. I would also like to see an extension and more support for park rangers. I think their role should primarily be the care of our parks and the biodiversity they support, as well as the protection of areas of cultural importance. It is a shame that they currently seem to operate more as visitor hosts than representatives and kaitiaki for our parks and I would like to see this changed.

Q85. **Do you want to speak to your submission?** No

Q86. **Overall, how satisfied or dissatisfied were you with your experience of submitting feedback?** 3

Q87. **How can we improve the process of submitting feedback to Auckland Council?**

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Other

Q2. Tell us why

I fully endorse NZMCA submissions there is a lack of balance in submission as a lot is left out. I have set ideas of self containment as used with vehicles in mind

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Other

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

needs to include everyone and by default does not always recognise other uses

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

not answered

Q11. **Tell us why and how we can improve this section.**

not answered

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?**

not answered

Q13. **Tell us why and what is most important to you about our farmed areas.**

not answered

Q14. **Vehicles on Muriwai beach**The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. **What changes, if any, would you like to see to this section?**

not answered

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.**

Support

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	Support
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	Oppose
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	Support
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	Oppose
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	
dogs are often better behaved than humans (dogs only reflected what owners allow them to do) kids can be worse... dogs on a lead and with responsible owners should be allowed where ever "humans " are allowed.	
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	Do not support
Q23. Tell us why and how we can improve this section.	
must be within budgets and evenly targeted to ALL USERS

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

I support the pakiri regional park community submission that has been presented to council

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

I support the pakiri regional park community submission that has been presented to council

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) not answered

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans? not answered

Q9. Tell us why and how we can improve this section.

not answered

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

not answered

Q11. Tell us why and how we can improve this section.

not answered

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

not answered

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. Vehicles on Muriwai beach The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.

not answered

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.

not answered

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).

not answered

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.

not answered

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** not answered

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

not answered

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** Support

Q23. **Tell us why and how we can improve this section.**

I support the pakiri regional park community submission that has been presented to council

Q24. **Do you want to comment on any other aspect of the general policies?** Yes

Q25. **Provide your comment/s.**

I support all parks being held under one umbrella and not be seperated and be run by one organisation

Q26. **Do you want to comment on any of the regional park chapters?** Yes

Q27. **Which regional parks you would like to comment on?** Pakiri

Q28. **Ambury Regional Park**What is your opinion on our intentions for managing Ambury? See the park chapter. not answered

Q29. **Tell us why and how we can improve this chapter.**

not answered

Q30. **Ātiu Creek**What is your opinion on our intentions for managing Ātiu Creek? See the park chapter. not answered

Q31. **Tell us why and how we can improve this chapter.**

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

I do not want "co-governance & co-management" of our parks. I want our regional parks to be owned & managed by Auckland council. I want the management of our parks by people who are accountable to ratepayers. Please remove this proposal from the management plan. I also oppose the inclusion of our regional parks into the Hauraki Gulf Marine Plan.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

not answered

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) not answered

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

• Some primary arrival areas have been distinguished as a sub-category 1b – Destination, in recognition of the need to provide visitor infrastructure that supports the high numbers visiting these areas to reduce the impact on the natural environment. Car parking capacity may be increased through marking up, onsite-management on peak days, use of overflow parking areas and potentially sealing if necessary. Toilet facilities and improving information may be considered.This was only an issue during Lockdown when Auckland residents were in need of fresh air and walks. ..Happy with current goals Natural 5. Maintain an integrated pest plant control programme that enhances the viability of habitats for native flora and fauna, prioritising areas of high ecological value. ...Individual households can manage rat control but stoat/rabbit control needs to be managed better by the rangers

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? not answered

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

not answered

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Vehicles on Muriwai beach

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

not answered

Q11. **Tell us why and how we can improve this section.**

not answered

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?**

not answered

Q80. Whakanewha What is your opinion on our intentions for managing Whakanewha? See the park chapter. not answered

Q81. Tell us why and how we can improve this chapter.

not answered

Q82. Whakatīwai What is your opinion on our intentions for managing Whakatīwai? See the park chapter. not answered

Q83. Tell us why and how we can improve this chapter.

not answered

Q84. Do you have any other comments on, or think anything else should be included in, the draft plan?

I applaud the policy of not providing rubbish bins so that users will take their litter home BUT it is not working. Everyday, I collect countless drink bottles, hair ties, masks, bottle caps, tissues, left over food containers, lolly wrappers discarded from uncaring walkers. There needs to be educated for these people as well as signage

Q85. Do you want to speak to your submission? No

Q86. Overall, how satisfied or dissatisfied were you with your experience of submitting feedback? 2

Q87. How can we improve the process of submitting feedback to Auckland Council?

Too complex

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

not answered

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

not answered

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) not answered

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans? not answered

Q9. Tell us why and how we can improve this section.

not answered

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

not answered

Q11. Tell us why and how we can improve this section.

not answered

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

not answered

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. Vehicles on Muriwai beach
The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.

not answered

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.

not answered

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).

not answered

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.

not answered

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** not answered

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

not answered

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** Support

Q23. **Tell us why and how we can improve this section.**

not answered

Q24. **Do you want to comment on any other aspect of the general policies?** Yes

Q25. **Provide your comment/s.**

not answered

Q26. **Do you want to comment on any of the regional park chapters?** Yes

Q27. **Which regional parks you would like to comment on?**

Ambury
Ātiu Creek
Āwhitu
Duder
Long Bay
Mahurangi West
Muriwai
Ōmana
Scandrett
Shakespear
Tāpapakanga
Tāwharanui
Tawhitokino
Te Ārai
Te Muri
Te Rau Pūriri
Waharau
Waitākere Ranges
Waitawa
Wenderholm
Whakatīwai

Q28. **Ambury Regional Park**What is your opinion on our intentions for managing Ambury? See the park chapter. Support

Q2. Tell us why

not answered

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Other

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Submission to Auckland Council's draft Regional Parks Management Plan NAME: Alison Burt HOME ADDRESS: 22b Wainoni Ave Auckland 1022 EMAIL ADDRESS: alisonmayburt@gmail.com PHONE NUMBER: 0212937973 I WISH TO SPEAK TO MY SUBMISSION No 1. I am a resident of Pt Chevalier I have lived in Auckland for 50 years and make use of Auckland's regional parks for camping and I have been involved as a volunteer with TOSSI for many years. This is my submission to the draft Regional Parks Management Plan. 2. I would like to see all the ranges and parks managed as Class 1 parks as they are currently, recognizing their wilderness, heritage and recreational values. Conservation of natural environments and habitats. Revegetation and reservation of important areas within the parks to enhance ecological values. Recognition of mana whenua interests in the ongoing management of the parks. Support and resource the governance and co-management proposals for mana whenua to work with council in best management of our regional parks. Recognition and implementation of traditional environmental conservation values and rahui honouring. Protection of important heritage sites. Planning for coastal retreat and other environmental changes stemming from climate change. Planning for continuing growth in visitor demand and visitor numbers. Providing for a wider range of visitor experiences including increased opportunities for camping but also supporting the use of existing Special Management Zones to control the management in high use areas. Making it easier for people and groups with limited mobility or incomes to access and use the parks 3. I encourage Council to increase provision of camping opportunities within some regional parks that can particularly accommodate more campers without compromising the environment. 4. I support the retention of the park rangers as managers of our parks, not just as hosts for visitors. 5. Heritage sites and notable trees within parks to be listed in the written part of the plan and included on the maps. 6. Recognise the national significance of the Waitākere Ranges Heritage Area Act and the legal requirement to protect and enhance its heritage features.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) not answered

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

Not enough camping areas, more are needed including specifically for certified self contained vehicles.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Do not support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Not enough camping areas, more are needed including specifically for certified self contained vehicles.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) not answered

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans? not answered

Q9. Tell us why and how we can improve this section.

not answered

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

not answered

Q11. Tell us why and how we can improve this section.

not answered

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

not answered

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.

not answered

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.

not answered

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).

not answered

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.

not answered

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** not answered

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

not answered

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** Do not support

Q23. **Tell us why and how we can improve this section.**

Not enough reserves set aside for camping areas, more are needed including specifically for certified self contained vehicles.

Q24. **Do you want to comment on any other aspect of the general policies?** Yes

Q25. **Provide your comment/s.**

Not enough camping areas, more are needed including specifically for certified self contained vehicles.

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

I take friends and family for swims and picnics and am a Paragliding pilot.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

I would like to have 2 clusters only of flax removed at Maukatia Bay, Muriwai, that impede my hobby of paragliding there just below the car park at the front. Thank you also for removing someones attempt to completely replant this area with young flax. We, (friends and family) really like the long grass also to lie in and have picnics.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges
Responding to the climate emergency
Vehicles on Muriwai beach

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? Support

Q7. Tell us why and how we can improve this section.

Canopy walks/ zip lines would be amazing in the right areas!

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

Support

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

Support

Q11. **Tell us why and how we can improve this section.**

Registered "ride (vehicle, special needs vehicles) share" website for parks and beaches from anywhere in Auckland plus App?

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?**

Keep farming

Q13. **Tell us why and what is most important to you about our farmed areas.**

In some parks the planting of shrubs and trees has impinged on our traditional launch sites for Paragliding. The launch site itself usually is a stretch of hill or cliff vicinity measuring approx 25m x 10m. It would be greatly appreciated, if these traditional launch sites for our recreational activity could be respected and maintained, eg prune some close to launch trees that have grown out of proportion. Thanks by the way for having our launch sites mowed here and there. Muriwai is great to not have mowed, because its one of our main sites and the long grass is just great for lying in it also!

Q14. **Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?**

Support

Q15. **What changes, if any, would you like to see to this section?**

not answered

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.** not answered

Q17. **Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.** not answered

Q18. **Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).** not answered

Q19. **Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.** not answered

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** not answered

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

not answered

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** Support

Q23. **Tell us why and how we can improve this section.**

not answered

Q24. **Do you want to comment on any other aspect of the general policies?** Yes

Q25. **Provide your comment/s.**

Continued, extended, and explicit support for recreational launching and flying at our traditional sites within the Auckland parks I would appreciate if parks like Duder, Long Bay, Muriwai, Pakiri, Shakespeare (Army Bay and others), Tawharanui, Te Arai, Waitakere (Bethells & Karekare), Wenderholm, which I have mostly all flown over the last 13 years or so, will continue to be accessible and perhaps even access improved for our recreational flying. Some other parks like Mahurangi East, Te Muri, Te Rau Puriri or Waitawa, would be nice to have included for launch site and flying options also. The Auckland Hang Gliding and Paragliding Club, of which I am a member, prides itself of its members' no noise contributions for other visitors excitement and observing enjoyment while there in the parks. We always have friendly conversations with non pilot visitors there that let us know that they appreciate our peaceful activities. So I am requesting our traditionally public and council supported, continued access to these launch and flying sites around Auckland, while extending our public and council supported activity to other parks also. It makes our city an interesting and diverse playground, for others to be inspired by and enjoyed along side. Thanks for your excellent submission platform and work Ka Kite Andy Spierer Beachhaven

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

The former plan to "upgrade" tracks across our beloved Wairakere Ranges keeps on being delayed. There is still no evidence that the Kaury dieback is being spread by human vs animals vs natural spread (i.e water, stream, rain, mud slide etc...). Some evidence have been proven that when praying shoes the dieback is not being carried by the walkers/runners. Instead of closing track permanently, we should educate our community and ensure people just spray their shoes accordingly.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Do not support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

i am all for getting more people on our beautiful Waitakere ranges, BUT given that the same plan is pushing for the closed of many tracks, it would mean that the few track s that remain open will be overcrowded.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? Do not support

Q7. Tell us why and how we can improve this section.

We do need more challenging and long track... spending taxpayer \$\$ on signs to showcase the track classification is a waste.

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

not answered

Q11. **Tell us why and how we can improve this section.**

not answered

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?**

See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?</p>	<p>Do not support</p>
<p>Q23. Tell us why and how we can improve this section.</p>	<p>enough tax payer \$\$ has been wasted in the past 5 years on non necessary construction of stairs and board walks where no Kauri die back was found (Omanawhanui stairs, Pararaha monster bridge etc...).</p>
<p>Q24. Do you want to comment on any other aspect of the general policies?</p>	<p>Yes</p>
<p>Q25. Provide your comment/s.</p>	<p>We should be focusing our efforts on re-opening tracks, educating our visitors and rather than closing the park and planning great walks etc... One of my previous recommendation that would tick all basis would be to put in place a "Permit" to access the park. Every year visitor would have to complete an online survey on Kauri die back + being a tidy kiwi. in order to validate the permit, visitor would have to take part in Kauri planting activities during the year and pay a yearly fee (~100\$) that could go towards maintaining tracks etc... That permit would give access to all tracks all year long. Casual visitors would not need the permit but would have their access restricted</p>
<p>Q26. Do you want to comment on any of the regional park chapters?</p>	<p>No</p>
<p>Q27. Which regional parks you would like to comment on?</p>	<p>not answered</p>

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Other

Q2. Tell us why

More dog walking sites and camper van opportunities.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

More responsibility dog owner sites More opportunities for Campervan use.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges
Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? Support

Q7. Tell us why and how we can improve this section.

not answered

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans? not answered

Q9. Tell us why and how we can improve this section.

not answered

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

not answered

Q11. Tell us why and how we can improve this section.

not answered

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

not answered

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.

Support

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.

Support

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).

Oppose

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.

Support

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** Oppose

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

More options for responsible dog owners on lead to protect wildlife but allow dog owners to enjoy parks.

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** Support

Q23. **Tell us why and how we can improve this section.**

not answered

Q24. **Do you want to comment on any other aspect of the general policies?** No

Q25. **Provide your comment/s.**

not answered

Q26. **Do you want to comment on any of the regional park chapters?** Yes

Q27. **Which regional parks you would like to comment on?** Āwhitu
Long Bay
Muriwai
Ōrere Point
Shakespear
Wenderholm

Q28. **Ambury Regional Park**What is your opinion on our intentions for managing Ambury? See the park chapter. not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? not answered

Q2. Tell us why

not answered

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? not answered

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

not answered

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) not answered

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapter and Appendix 4. **What is your opinion of our proposed principles and criteria?** not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). **What is your opinion of these plans?** not answered

Q9. Tell us why and how we can improve this section.

not answered

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

Q11. Tell us why and how we can improve this section.

not answered

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** not answered

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

not answered

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** not answered

Q23. **Tell us why and how we can improve this section.**

not answered

Q24. **Do you want to comment on any other aspect of the general policies?** Yes

Q25. **Provide your comment/s.**

• Manage the entire Waitākere Ranges and Hunua Ranges Regional Parks as Class 1 parks (as they are now) recognising their wilderness, heritage, natural and recreational values. • Reject the introduction of a new Class 1b for any Regional Parks as this will result in over-development of these areas and the loss of wilderness values. • Support the retention and use of the existing Special Management Zones which can control the management of high use areas, or areas that need special care, and protect the park values from the impacts of increased visitors, including the reinstatement of caps on specific activities, as in the 2010 RPMP. • Recognise the national significance of the Waitākere Ranges Heritage Area Act and the legal requirement to protect and enhance its heritage features. • Support and resource the co-governance and co-management proposals for mana whenua to work with council in better management of our regional parks, including the honouring and implementation of rāhui and memoranda of understanding where they exist. • Clearly identify the resourcing requirements over the next 10 years for implementation of this plan. Regional Parks need to be resourced in full by Auckland Council, not relying on unspecified co-funding arrangements with commercial entities who will have different priorities than the protection and enhancement of these parks for the benefit of all Aucklanders. Our parks are not places for commercial exploitation. • Support the retention and expansion of the Ranger Service as effective managers of our regional parks, not just as "hosts" for visitors. • Require all heritage sites and notable trees within regional parks to be listed in the written part of the plan and included on the maps.

Q26. **Do you want to comment on any of the regional park chapters?** No

Q27. **Which regional parks you would like to comment on?** not answered

Q28. **Ambury Regional Park What is your opinion on our intentions for managing Ambury? See the park chapter.** not answered

Q29. **Tell us why and how we can improve this chapter.**

not answered

Q30. **Ātiu Creek**What is your opinion on our intentions for managing Ātiu Creek? See the park chapter. not answered

Q31. **Tell us why and how we can improve this chapter.**
not answered

Q32. **Āwhitu**What is your opinion on our intentions for managing Āwhitu? See the park chapter. not answered

Q33. **Tell us why and how we can improve this chapter.**
not answered

Q1. **The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan?** Do not support

Q2. **Tell us why**

Access to park limited

Q3. **The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention?** Support

Q4. **What changes, if any, do you expect to see to make regional parks more welcoming?**

not answered

Q5. **The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.)** Accessing tracks in the Waitākere Ranges
Dogs in regional parks

Q6. **Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria?** Do not support

Q7. **Tell us why and how we can improve this section.**

The track development is terrible, they are like footpaths. So many tracks closed, tracks that provided a wilderness experience for the people of Auckland.

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

not answered

Q11. **Tell us why and how we can improve this section.**

not answered

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?**

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Other

Q2. Tell us why

I would like to take my dogs to more Beaches and parks

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Bikes and dogs

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapter and Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans? not answered

Q9. Tell us why and how we can improve this section.

not answered

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

not answered

Q11. Tell us why and how we can improve this section.

not answered

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

not answered

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.

Support

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.

Support

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).

Oppose

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.

Support

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** Oppose

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

Dogs be allowed all year around

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** Other

Q23. **Tell us why and how we can improve this section.**

not answered

Q24. **Do you want to comment on any other aspect of the general policies?** Yes

Q25. **Provide your comment/s.**

While I understand the need to keep dogs off the beach during peak times currently the only people that use the beach during the week are dog people. It would be great if dogs could have access all year around except during public holidays over summer and weekends.

Q26. **Do you want to comment on any of the regional park chapters?** No

Q27. **Which regional parks you would like to comment on?** not answered

Q28. **Ambury Regional Park**What is your opinion on our intentions for managing Ambury? See the park chapter. not answered

Q29. **Tell us why and how we can improve this chapter.**

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

I do not support the proposal to change the Huia / Karamatura area from 1a to 1b as I fell this area is under enough pressure as it is and by improving amenities in the area this would only encourage more people to come out here thus destroying the area and peace and quiet of the community.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? not answered

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

not answered

Q1. **The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan?** Do not support

Q2. **Tell us why**

This new policy creates a situation where there is a removal of any democratic control over this collectively held parkland.

Q3. **The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention?** Other

Q4. **What changes, if any, do you expect to see to make regional parks more welcoming?**

The regional Parks are already welcoming. These parks are internationally important by the very fact that nature is allowed to dominate. I object to more man/woman made developments in our regional parks. Limit signage, metal paths and allow humans to simply interact with nature. Stop trying to control it.

Q5. **The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.)** Accessing tracks in the Waitākere Ranges
Responding to the climate emergency
Vehicles on Muriwai beach
Dogs in regional parks

Q6. **Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria?** not answered

Q7. **Tell us why and how we can improve this section.**

I grew up in the Waitakere's. Stop making wider and wider paths. Stop using metal except in patches where mud builds up. This should be a walking zone only. NO bike paths through this special natural place. Build mountain bike tracks through exotic forests only.

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?

Support

Q9. Tell us why and how we can improve this section.

I applaud new government's legislation Stopping Pine forests planting to off set carbon emissions. I applaud the focus on planting more Native Forests but cutting down existing forests like Western Springs is hypocritical. I want to see Council bring back TREE PROTECTION for all native trees on public & private property. I believe succession planting is the most sustainable why to replace exotic trees with native trees without devastating the existing eco system of native birds, animals and insects.

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

Other

Q11. Tell us why and how we can improve this section.

I am sick of this mindset that you can reduce emissions by promoting Public Transport, cycling etc etc...the demographic using bikes fails to consider families with disabilities, elderly folk and the extremely young. The financial investment in this marginal group is counterproductive. Invest in all levels of EV and stop discriminating at the vehicle owner. (Consider investing in Hydrogen and start the Marsden Point refinery back up. It can already produce this sort of fuel.) If you seriously want to end cars, then stop the importation, selling and advertising of cars. Put trackless electric trains everywhere using existing roads and make it free. You need to radically change the economic models of capitalism if you want everyone to ride bikes!!!n The shear distance of our regional parks from our population base makes biking impractical. The capture of our governing bodies by the Bike lobby groups is an outrage.

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

Other

Q13. Tell us why and what is most important to you about our farmed areas.

Farming should immediately be replace by Native Tree planting on all regional Parks.

<p>Q14. Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?</p>	Other
<p>Q15. What changes, if any, would you like to see to this section?</p>	
<p>Stop all vehicles travelling on Muriwai beach now.</p>	
<p>Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.</p>	Support
<p>Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.</p>	Support
<p>Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).</p>	not answered
<p>Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.</p>	Support
<p>Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.</p>	Support
<p>Q21. What changes, if any, would you like us to make to the draft plan about dogs?</p>	
<p>That the council appreciate that dog owners too need open space to exercise in and that more positive education and advertising be used to promote responsible dog ownership and management. Dangerous breeds be banned from breeding in NZ</p>	
<p>Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?</p>	Other

Q23. Tell us why and how we can improve this section.

The management of funds by Council is appalling. Excessive amounts are being spent on cycleways built of concrete and asphalt, which both have enormous carbon footprints. There needs to be a cost benefit analyse provided for each concept. This information should be publicly available and contestable. The current preferred supplier arrangement is like insider trading. Often large multi national corps get the jobs that smaller local contractors should get which would benefit the community & ratepayers.

Q24. Do you want to comment on any other aspect of the general policies? Yes

Q25. Provide your comment/s.

Bring Back Tree Protection on public & private land now.

Q26. Do you want to comment on any of the regional park chapters? Yes

Q27. Which regional parks you would like to comment on? Ambury
Ātiu Creek
Āwhitu
Duder
Glenfern Sanctuary
Hūnua Ranges

Q28. Ambury Regional Park What is your opinion on our intentions for managing Ambury? See the park chapter. not answered

Q29. Tell us why and how we can improve this chapter.

not answered

Q85. Do you want to speak to your submission? Yes

Q86. Overall, how satisfied or dissatisfied were you with your experience of submitting feedback? 2

Q87. How can we improve the process of submitting feedback to Auckland Council?

There is too many issues running at the same time. As a member of the public it is impossible to be over all items on the council agenda. So few people have the time to read, consider and comment on proposals that the consultation is simply 'fake and flawed.' I do not feel heard. I feel like this is a tick box exercise. I only found out about the proposed regional Park plan this week. The deadline to comment are too short. Overwhelming the public with so much info in such a short amount of time is not 'genuine consultation'

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

I do not support the proposed new Hauraki Gulf authority with co-governance leadership and equal membership between mana whenua and others gifting these groups control over the regional parks.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Do not support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

I oppose the following as it will make parks less welcoming!! Demand management tools provide a way to manage entry to a site. They may include a fee or charge, or a requirement to make a booking or be registered. They may require visitors to travel to the site on shuttles from a more distant location.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) not answered

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

not answered

Q11. **Tell us why and how we can improve this section.**

not answered

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?**

not answered

Q13. **Tell us why and what is most important to you about our farmed areas.**

not answered

Q14. **Vehicles on Muriwai beach**The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. **What changes, if any, would you like to see to this section?**

not answered

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.**

not answered

Q17. Shakespeare: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	not answered
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	not answered
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	not answered
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	not answered
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	not answered
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	Do not support
Q23. Tell us why and how we can improve this section.	I do not support the following: The opportunities are generally on newer parks where early-stage assessment is needed to identify opportunities for nature conservation, heritage protection and recreational use. As funding is limited, the best use of funds is to maintain existing parks.
Q24. Do you want to comment on any other aspect of the general policies?	No
Q25. Provide your comment/s.	not answered
Q26. Do you want to comment on any of the regional park chapters?	Yes
Q27. Which regional parks you would like to comment on?	not answered
Q28. Ambury Regional Park What is your opinion on our intentions for managing Ambury? See the park chapter.	not answered

Q29. Tell us why and how we can improve this chapter.

not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Other

Q2. Tell us why

Parks should allow responsible dog owners to enjoy the park year long responsibly

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Other

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

not answered

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapter and Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans? not answered

Q9. Tell us why and how we can improve this section.

not answered

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

not answered

Q11. Tell us why and how we can improve this section.

not answered

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

not answered

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.

Support

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.

Support

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).

Oppose

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.

Support

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** Oppose

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

Responsible dog owners do not pose a threat to kiwi , other dogs or the environment . Allow them to use parks responsibly

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** Do not support

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Other

Q2. Tell us why

Not inclusive enough

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Other

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

For many families a day out or a walk with their dog keeps them active and in good mental health but you are always restricting where dogs can go and therefore people (with their well behaved on leash dogs)

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges
Responding to the climate emergency
Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? Support

Q7. Tell us why and how we can improve this section.

Do it faster!

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

Support

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

Support

Q11. **Tell us why and how we can improve this section.**

But you need to do it in stages and better. It is ridiculous to think people will utilise public transport to parks when as a society we rely so heavily on our cars just to get around Auckland. I live in pakuranga but have never been able to take public transport to work. Work being located in mt Roskill, Penrose and more recently Auckland airport. The only places I can go are town or botany. This was the same problem when I lived in at heliers 15years ago!

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?**

Reduce farming

Q13. **Tell us why and what is most important to you about our farmed areas.**

Ambury is great as a farm and kids get a lot out of it! Duder, and perhaps waitawa could be more trees, those aren't really places you go to see the farm animals

Q14. **Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?**

not answered

Q15. **What changes, if any, would you like to see to this section?**

not answered

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.	Other
Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	Other
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	Oppose
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	Other
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	Oppose
Q21. What changes, if any, would you like us to make to the draft plan about dogs? Keep and make more areas on leash friendly. I don't mind if dogs have to be on leash or you need to get a permit but it is a real pain when we want to go for a decent walk and we can't take our dog. It makes us choose other places where we can take our dog which are becoming very few and far between in Auckland. Look at other councils -Nelson, Taupo and Queenstown do it MUCH better!	
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	Do not support
Q23. Tell us why and how we can improve this section. I don't support the public transport access funding. After Covid everyone needs to be more careful of unnecessary spending and spending that isn't going to add value and that includes the council in parks.	
Q24. Do you want to comment on any other aspect of the general policies?	No
Q25. Provide your comment/s. not answered	
Q26. Do you want to comment on any of the regional park chapters?	No
Q27. Which regional parks you would like to comment on?	not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

More and more restrictions on access with dogs, meaning my family and many others are disadvantaged from utilising our local resources

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Do not support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

More accessibility for responsible dog owners, even if it required us to register and obtain a special tag (like DOC administer around NZ)

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

I believe that some of the parks, or parts of the parks, should be maintained as wildlife refuges. I believe that everyone should be able to enjoy the parks, but not at the detriment of fragile ecosystems and their inhabitants.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

More accessible, but only where this is feasible. Everybody does not need to be able to go everywhere.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Responding to the climate emergency

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapter and Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?

Support

Q9. Tell us why and how we can improve this section.

No new concrete in the parks. Restrict car movement within parks - carparks should be near existing roads and users encouraged to walk (obviously allowing for disabled access where possible). Manage development - minimal development is preferable, as disturbance release carbon. Do not disturb shorelines.

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

Support

Q11. Tell us why and how we can improve this section.

Many parks are remote. Consider leaving these parks as undeveloped locations and focus public transport options on fewer, bigger parks. Do we really need EV charging stations for locations that are, by car, well within the reach of the fully charged EV?

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

Keep farming

Q13. Tell us why and what is most important to you about our farmed areas.

As long as best sustainable management practices are followed, and tree planting is mixed native.

Q14. Vehicles on Muriwai beach
The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.** not answered

Q17. **Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.** not answered

Q18. **Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).** not answered

Q19. **Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.** not answered

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** not answered

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

not answered

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** Do not support

Q23. **Tell us why and how we can improve this section.**

On reading the plan it is not obvious to me how these criteria are to be used for each park. I am concerned that the overall focus is on visitor experience. I believe that a more environmentally focused approach that sees a balance between human activity and maintaining and protecting the natural environment is preferable. Also, the parks are not isolated from their surroundings and often form part of many existing ecosystems. So to look at the parks in isolation makes no sense.

Q24. **Do you want to comment on any other aspect of the general policies?** Yes

Q25. **Provide your comment/s.**

Please keep some of the existing undisturbed and lightly disturbed areas, particularly the foreshore, off limits to people and their activities. In the Auckland area there remain so few areas that can be used by flora and fauna in a natural state, and with development we are losing more each day. Encouraging people into the outdoors is admirable, but we do not need to have access to everything. The parks' many habitats are areas where we can make a difference to the reversal of fortunes of many of our native flora and fauna, and Council should take the opportunity to do so.

Q26. **Do you want to comment on any of the regional park chapters?** No

Q27. Which regional parks you would like to comment on? not answered

Q28. Ambury Regional Park What is your opinion on our intentions for managing Ambury? See the park chapter. not answered

Q29. Tell us why and how we can improve this chapter.
not answered

Q30. Ātiu Creek What is your opinion on our intentions for managing Ātiu Creek? See the park chapter. not answered

Q31. Tell us why and how we can improve this chapter.
not answered

Q32. Āwhitu What is your opinion on our intentions for managing Āwhitu? See the park chapter. not answered

Q33. Tell us why and how we can improve this chapter.
not answered

Q34. Duder What is your opinion on our intentions for managing Duder? See the park chapter. not answered

Q35. Tell us why and how we can improve this chapter.
not answered

Q36. Glenfern Sanctuary What is your opinion on our intentions for managing Glenfern Sanctuary? See the park chapter. not answered

Q37. Tell us why and how we can improve this chapter.
not answered

Q38. Hūnua Ranges What is your opinion on our intentions for managing Hūnua Ranges? See the park chapter. not answered

Q39. Tell us why and how we can improve this chapter.
not answered

Q40. Long Bay What is your opinion on our intentions for managing Long Bay? See the park chapter. not answered

Q41. Tell us why and how we can improve this chapter.
not answered

Q42. **Mahurangi East** What is your opinion on our intentions for managing Mahurangi East? See the park chapter. not answered

Q43. Tell us why and how we can improve this chapter.
not answered

Q44. **Mahurangi West** What is your opinion on our intentions for managing Mahurangi West? See the park chapter. not answered

Q45. Tell us why and how we can improve this chapter.
not answered

Q46. **Motukorea / Browns Island** What is your opinion on our intentions for managing Motukorea / Browns Island? See the park chapter. not answered

Q47. Tell us why and how we can improve this chapter.
not answered

Q48. **Muriwai** What is your opinion on our intentions for managing Muriwai? See the park chapter. not answered

Q49. Tell us why and how we can improve this chapter.
not answered

Q50. **Ōmana** What is your opinion on our intentions for managing Ōmana? See the park chapter. not answered

Q51. Tell us why and how we can improve this chapter.
not answered

Q52. **Ōrere Point** What is your opinion on our intentions for managing Ōrere Point? See the park chapter. not answered

Q53. Tell us why and how we can improve this chapter.
not answered

Q54. **Pakiri** What is your opinion on our intentions for managing Pakiri? See the park chapter. not answered

Q55. Tell us why and how we can improve this chapter.
not answered

Q56. **Scandrett** What is your opinion on our intentions for managing Scandrett? See the park chapter. not answered

Q57. Tell us why and how we can improve this chapter.

not answered

Q58. **Shakespear**What is your opinion on our intentions for managing Shakespear? See the park chapter. not answered

Q59. Tell us why and how we can improve this chapter.

not answered

Q60. **Tāpapakanga**What is your opinion on our intentions for managing Tāpapakanga? See the park chapter. not answered

Q61. Tell us why and how we can improve this chapter.

Q67. Tell us why and how we can improve this chapter.

not answered

Q68. **Te Muri**What is your opinion on our intentions for managing Te Muri? See the park chapter. not answered

Q69. Tell us why and how we can improve this chapter.

not answered

Q70. **Te Rau Pūriri**What is your opinion on our intentions for managing Te Rau Pūriri? See the park chapter. not answered

Q71. Tell us why and how we can improve this chapter.

not answered

Q72. **Waharau** What is your opinion on our intentions for managing Waharau? See the park chapter. not answered

Q73. Tell us why and how we can improve this chapter.

not answered

Q74. **Waitākere Ranges** What is your opinion on our intentions for managing Waitākere Ranges? See the park chapter. not answered

Q75. Tell us why and how we can improve this chapter.

not answered

Q76. **Waitawa** What is your opinion on our intentions for managing Waitawa? See the park chapter. not answered

Q77. Tell us why and how we can improve this chapter.

not answered

Q78. **Wenderholm** What is your opinion on our intentions for managing Wenderholm? See the park chapter. not answered

Q79. Tell us why and how we can improve this chapter.

not answered

Q80. **Whakanewha** What is your opinion on our intentions for managing Whakanewha? See the park chapter. not answered

Q81. Tell us why and how we can improve this chapter.

not answered

Q82. **Whakatīwai** What is your opinion on our intentions for managing Whakatīwai? See the park chapter. not answered

Q83. Tell us why and how we can improve this chapter.

not answered

Q84. Do you have any other comments on, or think anything else should be included in, the draft plan?

not answered

Q85. Do you want to speak to your submission? No

Q86. Overall, how satisfied or dissatisfied were you with your experience of submitting feedback? 4

Q87. How can we improve the process of submitting feedback to Auckland Council?

I think that providing a plan in summary would be helpful for people wanting to submit. You are not going to get a good cross-section of the community reading this tome. The level of detail in the plan is admirable but if changes are required, this is an awful lot to change. If there were earlier stages at which we could submit, they did not come to my attention.

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Other

Q2. Tell us why

While I understand that it is important to "protect the natural and cultural VALUES" If we are protecting the natural and cultural HERITAGE we are trying to preserve the past rather than moving forward. Do we want the parks to look prehistoric? Where is the arbitrary date of "heritage". Change the word heritage to values.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

The world is very diverse with regard humans and we should be welcoming to all humans. If you put the park control under a particular ethnic or religious group then they may for instance not give permission for a gathering of another ethnic or religious group. Permissions and Use should be sorted out early and not leave a governing body to have too much power to give discretionary permissions.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges
Responding to the climate emergency
Vehicles on Muriwai beach
Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? Other

Q7. Tell us why and how we can improve this section.

Restricting access to public areas should be kept to an absolute minimum. While closing access short term may help improve things, long term closures are counter productive -parks will change over time. Closing to enable some unknown future generation to benefit at the current generations cost needs to be weighed and considered. The Waitakere Ranges are a key walking and tramping resource to Aucklanders and it needs to be accessed.

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?** Other

Q9. **Tell us why and how we can improve this section.**

It is good to plant trees and forest (indigenous or not) is nice to walk through. Always remember that nothing is permanent and also our carbon problem is from taking carbon out of the ground. A permanent forest is a slow solution. Grass being eaten, converted into manure and allowed to return to the earth is also very good at storing carbon. Also indigenous trees may be less effective at absorbing carbon than other faster growing trees. Parks that are green are good for the environment and carbon. By all means justify your planting decisions but be transparent about your reasons and science.

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?** Other

Q11. **Tell us why and how we can improve this section.**

Improving access to public parks is always a good idea. Access is also includes maintaining a good carpark though. Do not decrease carparks or access to try and force people onto public transport. Please say you will not reduce access including carparking for private vehicles.

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?** Keep farming

Q13. **Tell us why and what is most important to you about our farmed areas.**

Certain Regional parks need grassy open areas as opposed to trees. When there is grass it is nice and also educational and practical to have farm animals. The alternative of mowing the grass is less desirable. Please keep an open mind on farming. Farming in some form is in every culture's heritage.

Q14. **Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?** Other

Q15. What changes, if any, would you like to see to this section?

Motorvehicles on any beach are contentious especially when users are not mindful of other users. While I dont drive on the beach I do support the ability to access the beach with rules. Better than good signage of the rules and consequences is important. Policing the rules is also important. Designated areas and times for activities is important -eg motorbikes in this area, this time, safely, max speed 80km/hr

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park. Support

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track. Support

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point). Other

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area. Support

Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone. Support

Q21. What changes, if any, would you like us to make to the draft plan about dogs?

Dogs in any park are contentious especially when users are not mindful of other users. While I dont own a dog I do support the ability to access public areas with a dog. Designated areas especially fenced free range areas is a good idea anywhere. Good signage of the rules and consequences is important. Policing the rules is also important. Ability to fine or restrict. Designated areas and times for activities is important -eg dogs allowed in this area, this time, on/off leash.

Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects? Support

Q23. Tell us why and how we can improve this section.

Good work.

Q24. Do you want to comment on any other aspect of the general policies? Yes

Q25. Provide your comment/s.

Transparency is key to reducing conflict. People need to be heard and acknowledged so your section on the submissions received was excellent. Expand on how you make decisions. Extremists will never agree with you but the rest will see where you are coming from. While I support more involvement of Maori and New Zealands unique culture public parks are for exactly that -the public regardless of ethnicity, religion and the like. Statement in your plan like "We also recognise that regional parks can play a role in supporting the economic wellbeing of mana whenua" p42 is alarming as having one ethnic group in control of a public park especially one that has a financial interest in the park is a conflict of interest and not in the public's best interest. New Zealand is ethnically diverse. No culture should be in a position to force their culture on another culture. If Maori are to co-govern then there should be clear rules on what controls Maori have over public spaces. For example a rahui can be seen as one culture imposing their culture. Certainly in the waitakere ranges this was recognised by the council (a bit slowly) as a good idea to close the area at least temporarily as a way to reorganise things but the resentment it causes is a big backlash. If Maori governance limits access to public places there needs to be accountability and transparency.

Q26. Do you want to comment on any of the regional park chapters? Yes

Q27. Which regional parks you would like to comment on? Muriwai
Pakiri

Q28. Ambury Regional ParkWhat is your opinion on our intentions for managing Ambury? See the park chapter. not answered

Q29. Tell us why and how we can improve this chapter.
not answered

not answered

Q42. **Mahurangi East** What is your opinion on our intentions for managing Mahurangi East? See the park chapter. not answered

Q43. **Tell us why and how we can improve this chapter.**
not answered

Q44. **Mahurangi West** What is your opinion on our intentions for managing Mahurangi West? See the park chapter. not answered

Q45. **Tell us why and how we can improve this chapter.**
not answered

Q46. **Motukorea / Browns Island** What is your opinion on our intentions for managing Motukorea / Browns Island? See the park chapter. not answered

Q47. **Tell us why and how we can improve this chapter.**
not answered

Q48. **Muriwai** What is your opinion on our intentions for managing Muriwai? See the park chapter. Other

Q49. **Tell us why and how we can improve this chapter.**

Thank you for recognising Maukatia as "a well-known launching site for hang gliders and paragliders when the prevailing sou-westerly wind provides favourable conditions." Under Muriwai after 7.12 "Retain the open grassed area along Oaia Road" Please put 7.13 Retain the open grassed area on Maukatia

Q50. **Ōmana** What is your opinion on our intentions for managing Ōmana? See the park chapter. not answered

Q51. Tell us why and how we can improve this chapter.

not answered

Q52. **Ōrere Point** What is your opinion on our intentions for managing Ōrere Point? See the park chapter. not answered

Q53. Tell us why and how we can improve this chapter.

not answered

Q54. **Pakiri** What is your opinion on our intentions for managing Pakiri? See the park chapter. Do not support

Q55. Tell us why and how we can improve this chapter.

Paragliding should be seen as a stakeholder and allowed here -is is a good paragliding site with minimal impact on other users or bird-life. Restricting times/dates may be acceptable but making it permit only means we lose a valuable place to fly and puts undue pressure on other sites. Consult with the paragliding club and delineate safe acceptable landing areas and "no-go" areas.

Q56. **Scandrett** What is your opinion on our intentions for managing Scandrett? See the park chapter. not answered

Q57. Tell us why and how we can improve this chapter.

not answered

Q58. **Shakespear** What is your opinion on our intentions for managing Shakespear? See the park chapter. not answered

Q82. Whakatiwai What is your opinion on our intentions for managing Whakatiwai? See the park chapter. not answered

Q83. Tell us why and how we can improve this chapter.

not answered

Q84. Do you have any other comments on, or think anything else should be included in, the draft plan?

I am a paraglider pilot and a park user. As a park user I would like to see as much access to public parks for all users regardless of ethnicity, religion or sport. As a paraglider pilot I would like to alert you to the fact that when I am flying around it is getting more and more difficult to find a good spot to land and as such I look for public parks and sports fields as a favoured area to land. I have never had an issue affecting any other park user and in fact more often or not other park users are interested to see me. Landing in a public park is to the benefit of not just me but also the public who don't want me landing in private property, beside roads or any other dangerous areas. It is essential that I am not dissuaded from landing in public parks safely. I understand that there are parts of parks that are not good to land in but if you make a ban it becomes difficult and dangerous for paragliding pilots like me. I submit that rather than a blanket "forbidden" or "by permit/permission" that all public parks should be open to paragliding activities. Then within each park you notify our club which areas we cannot land in and need to avoid. On a similar note I do not own a dog but in the same way all parks should be open to dogs but with clear restrictions for certain parks for recognised reasons such as nesting/sensitive sites. Or no dogs between these hours, or only on a leash.

Q85. Do you want to speak to your submission? Yes

Q86. Overall, how satisfied or dissatisfied were you with your experience of submitting feedback? 5 - Very satisfied

Q87. How can we improve the process of submitting feedback to Auckland Council?

Can we have the ability to save this as a PDF so we can speak to our submission. I am having to transcribe this into two places and cut and paste. Thanks.

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

Parls are for everyone

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

None jeep parks for everyone

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapter and Appendix 4. What is your opinion of our proposed principles and criteria? Do not support

Q7. Tell us why and how we can improve this section.

Leave nature alone

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans? not answered

Q9. Tell us why and how we can improve this section.

not answered

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

Q11. Tell us why and how we can improve this section.

not answered

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** not answered

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

not answered

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** Support

Q23. **Tell us why and how we can improve this section.**

We pay enough taxes

Q24. **Do you want to comment on any other aspect of the general policies?** No

Q25. **Provide your comment/s.**

not answered

Q26. **Do you want to comment on any of the regional park chapters?** No

Q27. **Which regional parks you would like to comment on?** not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

I strongly believe that the Waitakere's ranges should return back to a fully open park to allow people to enjoy the ranges as an open and accessible area and not just the fringes..

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Other

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

I support making parks more accessible, especially the closed Waitakere's ranges as these should return back to a fully open park to allow people to enjoy the ranges as an open and accessible area and not just the fringes..

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? Do not support

Q7. Tell us why and how we can improve this section.

With no clear evident proof of Kauri die I strongly believe that the Waitakere's ranges should return back to a fully open park to allow people to enjoy the ranges as an open and accessible area and not just the fringes..

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

not answered

Q11. **Tell us why and how we can improve this section.**

not answered

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?**

not answered

Q13. **Tell us why and what is most important to you about our farmed areas.**

not answered

Q14. **Vehicles on Muriwai beach**The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. **What changes, if any, would you like to see to this section?**

not answered

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.**

not answered

Q17. Shakespeare: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	not answered
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	not answered
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	not answered
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	not answered
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	not answered
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	Do not support
Q23. Tell us why and how we can improve this section.	not answered
Q24. Do you want to comment on any other aspect of the general policies?	Yes
Q25. Provide your comment/s.	I strongly believe that the Waitakere's ranges should return back to a fully open park to allow people to enjoy the ranges as an open and accessible area and not just the fringes..
Q26. Do you want to comment on any of the regional park chapters?	No
Q27. Which regional parks you would like to comment on?	not answered
Q28. Ambury Regional Park What is your opinion on our intentions for managing Ambury? See the park chapter.	not answered
Q29. Tell us why and how we can improve this chapter.	not answered

Q30. **Ātiu Creek** What is your opinion on our intentions for managing Ātiu Creek? See the park chapter. not answered

not answered

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** Support

Q23. **Tell us why and how we can improve this section.**

not answered

Q24. **Do you want to comment on any other aspect of the general policies?** Yes

Q25. **Provide your comment/s.**

I do not agree with the day to day management of the parks being taken away from Council staff and combined with the Hauraki Gulf Marine Park. As an Auckland taxpayer for 40+ years, and a business taxpayer for more than half of that time, I believe it is imperative that Council staff remain in charge of making the best decisions to look after the parks. We know how passionate they are about their jobs and the parks they treat as their own.

Q26. **Do you want to comment on any of the regional park chapters?** No

Q27. **Which regional parks you would like to comment on?** not answered

Q28. **Ambury Regional Park**What is your opinion on our intentions for managing Ambury? See the park chapter. not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

not answered

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

not answered

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapter and Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans? not answered

Q9. Tell us why and how we can improve this section.

not answered

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

not answered

Q11. Tell us why and how we can improve this section.

not answered

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

not answered

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.

Oppose

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.

Oppose

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).

Support

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.

Support

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** Support

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

As a Long Bay Resident I get concerned at the domination of the beach in the morning by dog walkers. The numbers are huge and the pollution of the beach by poos and wees must be extensive. I'd prefer to see a dedicated area for dog walking off the beaches.

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** Support

Q23. **Tell us why and how we can improve this section.**

not answered

Q24. **Do you want to comment on any other aspect of the general policies?** No

Q25. **Provide your comment/s.**

not answered

Q26. **Do you want to comment on any of the regional park chapters?** Yes

Q27. **Which regional parks you would like to comment on?** Long Bay

Q28. **Ambury Regional Park**What is your opinion on our intentions for managing Ambury? See the park chapter. not answered

Q29. **Tell us why and how we can improve this chapter.**

Castor Bay Residents & Ratepayers (CBRRA) submission to the proposed Auckland Regional Park Plan, March 2022

Development of the proposed Auckland Regional Park Plan was informed by public consultation undertaken by Auckland Council in 2020. The summary of public feedback, as presented by the Council, demonstrates that Auckland regional parks are a valued taonga for all Aucklanders. It also identifies that Aucklanders see regional parks as publicly owned, i. e. owned by ratepayers and citizens of Auckland, and managed by Auckland Council for them, i.e. managed directly via the elected representatives. This clearly means that Aucklanders believe any decision-making on regional parks has to be validated by general public. The proposed Auckland Regional Park Plan introduces entirely new elements pertaining to management of these parks. It allows for Management Transfers of the magnitude and type not seen before, and at exactly the same time broader changes are sought to other management and governance structures impacting those proposed arrangements. It is our strong impression that the complexity of these transfers and long term implications for Auckland communities and the natural environment are not sufficiently addressed in the proposed Plan. For example, the section of the Plan that deals with Management Transfers is too generic and not sufficiently supported elsewhere in the document by adequate sections specifying conditions and details of those arrangement. In addition, the proposed Plan does not provide clarity on the process Auckland Council is to follow when making decisions on management transfers of publicly owned large areas of land that hold special value to all Aucklanders. Thus, in its current form the Plan lacks clarity that would make it possible for us to support it. In particular, we believe that the sections pertaining to transfer / inclusion of 21 regional parks in the Hauraki Gulf Marine Park at the same time as initiative to change the legislation and governance of the Marine Park is entirely premature. We believe that all Auckland Regional Parks should stay in direct ownership of all Aucklanders who have had, and will for generations continue to have a deep relationship with this taonga. Therefore, we submit that the proposed Auckland Regional Park Plan is not fit for purpose in its current form. We particularly object to potential disempowerment of local communities' in decision making and transfer of power to centralised, government appointed bodies. Thus, as the first step, we request that the sections including (transferring) 21 regional parks into the Hauraki Gulf Marine Park is removed from the proposed Plan, until such a time governance arrangement for this body are clear and the wider public has had ample opportunity to consider the proposed arrangements.

Q26. **Do you want to comment on any of the regional park chapters?** No

Q27. Which regional parks you would like to comment on? not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

I support the overall direction of the plan, especially the recognition of the role of manawhenua

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Look for better universal design to meaningful destinations where feasible

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges
Responding to the climate emergency
Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? Support

Q7. Tell us why and how we can improve this section.

Remove the necessity to publicly consult if a track standard is improved. This seems like overkill. A well thought out recreation plan is long overdue for the Waitakere Ranges, the current approach of keep it natural, keep it rustic and small is out of step with the ever increasing population and demand for access

- Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?** not answered
-
- Q9. **Tell us why and how we can improve this section.**
not answered
-
- Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?** Support
-
- Q11. **Tell us why and how we can improve this section.**
not answered
-
- Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?** Reduce farming
-
- Q13. **Tell us why and what is most important to you about our farmed areas.**
Keeping open spaces for recreation and views...regional parks shouldn't be farmed for profit.
-
- Q14. **Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?** not answered
-
- Q15. **What changes, if any, would you like to see to this section?**
not answered
-
- Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.** Other
-

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	Support
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	Support
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	Support
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	Support
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	
Better enforcement of existing dog policies	
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	Support

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

I strongly disagree with permanently closing most of the Waitakere Ranges hiking tracks and only keeping a few coastal tracks open (and these significantly 'upgraded'). A more logical option would be to have some temporary closure, with monitoring over the next 5 years. I grew up in Titirangi and have always enjoyed and used all the hiking tracks throughout the Ranges. One of the main reasons is that you feel as if you are in untouched Wilderness. Not just on some small man-made stroll - which is what it looks like it will end up as. The Waitakere Ranges are a unique environment and have been enjoyed for many, many years. Maintaining this unique environment is paramount and will be lost with major permanent track closure. With only some small coastal strolls on offer - they will have lost most of their natural wilderness feelings, is a huge disappointment. There are plenty of other places around that can offer this type of outdoor activity.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Do not support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

not answered

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges

Q6. Accessing tracks in the Waitākere Ranges We propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapter and Appendix 4. What is your opinion of our proposed principles and criteria? Do not support

Q7. Tell us why and how we can improve this section.

Permanent closure of the majority of hiking tracks is a disgrace. There should be some temporary closure if required, with monitoring of the situation over 5 years. There is still a lot of unknown about the Kauri die back.

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

This is a substantive document which has clearly taken much effort to pull together. With a large amount of repetition, unclear terminology and some conflicting statements, an executive summary would have been useful to assist what the plan is really trying to achieve, what substantive changes are proposed and what is not working with the current system. As a result, it is difficult to provide feedback on the plan. Examples of where terminology is not defined or used interchangeably include: governance, co-governance, management, co-management, partnership, partnering, co-partnership etc. Recently Councillor Alf Filipaina also used the term 'guardianship'. I suggest clarifying terminology and revising the document to reflect recent Council public statements that governance and management of the parks will remain 100% under council control. There has been public concern about including regional parks that contribute to the coastal area of the Gulf into the Hauraki Gulf Marine Park. Regional Parks must be retained by Aucklanders who rely on Auckland Council to govern and manage these parks. I note that recently the Auckland Council General Manager Regional Service Planning, Investment and Partnerships, Justine Haves stated that recent commentary that ownership of regional parks being transferred to the Hauraki Gulf Forum are inaccurate and that the draft plan does not contain any intention to transfer the administration and governance of parks to any other party. The plan should be updated to reflect this statement and should also include the word management.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Sufficient space for large groups but also isolated quiet areas for other activities for quiet reflection

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) not answered

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. **Vehicles on Muriwai beach**The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan? not answered

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.** not answered

Q17. **Shakespeare: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.** not answered

Q18. **Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).** not answered

Q19. **Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.** not answered

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** not answered

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**
not answered

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** Support

Q23. **Tell us why and how we can improve this section.**

The section states 'enabling mana whenua and key stakeholders to provide valuable feedback. Aucklanders are missing as stakeholders on every park plan - they are the key stakeholders. Please specifically state 'Aucklanders' (I'm sure this is an oversight)

Q24. **Do you want to comment on any other aspect of the general policies?** Yes

Q25. Provide your comment/s.

• Aucklanders who use the parks and have funded park support through rates / rent are generally referred to as 'visitors'. This undervalues Aucklanders as the key stakeholder and Aucklanders are missing as a stakeholder in every park plan. Visitors outside of Auckland should also be listed as a stakeholder on every park plan. • There has been public concern about including regional parks that contribute to the coastal area of the Gulf into the Hauraki Gulf Marine Park. Regional Parks must be retained by Aucklanders who rely on Auckland Council to govern and manage these parks. I note that recently the Auckland Council General Manager Regional Service Planning, Investment and Partnerships, Justine Haves stated that recent commentary that ownership of regional parks being transferred to the Hauraki Gulf Forum are inaccurate and that the draft plan does not contain any intention to transfer the administration and governance of parks to any other party. The plan should be updated to reflect this statement and should also include the word management. • The plan notes the important role regional parks provide as stepping stones or ecological corridors supporting the movement of wildlife across Auckland/Tāmaki Makaurau. There is no mention of the Forest Bird Trust which is active in creating corridors in the region. QEII is only mentioned in its role of management of some park properties – yet their role in obtaining covenants, particularly on land adjacent to regional parks should be encouraged. I would like to see more collaboration with these type of groups. • The plan notes that the discharge of human waste and other contaminants into waterways is offensive to Māori. Discharge of human waste and contaminants into waterways is offensive to everyone and it is disappointing we require a council app to tell us when it is safe to swim at our city beaches. • The plan is light (absent I think) on the requirement to report to Aucklanders and on what performance measures on which they will report. There needs to be some measures by which investment in the parks and the priorities of Aucklanders for these parks can be measured.

Q26. Do you want to comment on any of the regional park chapters? No

Q27. Which regional parks you would like to comment on? not answered

Q28. Ambury Regional ParkWhat is your opinion on our intentions for managing Ambury? See the park chapter. not answered

Q29. Tell us why and how we can improve this chapter.

not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

The parks are well maintained. However the closing and opening times could be better

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? not answered

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Possible short walkways for disabled

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Vehicles on Muriwai beach

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans? not answered

Q9. Tell us why and how we can improve this section.

not answered

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

not answered

Q11. Tell us why and how we can improve this section.

not answered

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

not answered

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. Vehicles on Muriwai beach
The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

Support

Q15. What changes, if any, would you like to see to this section?

I have suggested a paid permit system which is policed

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.

not answered

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.

not answered

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).

not answered

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.

not answered

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** not answered

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

not answered

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** Support

Q23. **Tell us why and how we can improve this section.**

Nothing should be free. People only appreciate things they pay for

Q24. **Do you want to comment on any other aspect of the general policies?** No

Q25. **Provide your comment/s.**

not answered

Q26. **Do you want to comment on any of the regional park chapters?** No

Q27. **Which regional parks you would like to comment on?** not answered

Q28. **Ambury Regional Park**What is your opinion on our intentions for managing Ambury? See the park chapter. not answered

Q29. **Tell us why and how we can improve this chapter.**

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

It is so important to open the waitakeres and get as many tracks open as we can

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Keep making great walking tracks. Install more skate parks. Particularly in piha which is a world standard surf destination with lots of young families with no public transport for youth to be able to get to skate parks

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges
Responding to the climate emergency
Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? Support

Q7. Tell us why and how we can improve this section.

With what had been achieved so far i an really happy and in support of walking tracks. They are an asset and an important taonga to everyone in auckland and beyond. People need nature, they need to feel connected.

<p>Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?</p>	Support
<p>Q9. Tell us why and how we can improve this section.</p>	
<p>Please plant as many trees as you can!</p>	
<p>Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?</p>	Support
<p>Q11. Tell us why and how we can improve this section.</p>	
<p>I'm really happy with the plan.</p>	
<p>Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?</p>	Keep farming
<p>Q13. Tell us why and what is most important to you about our farmed areas.</p>	
<p>Keep existing farms and use them to educate people</p>	
<p>Q14. Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?</p>	not answered
<p>Q15. What changes, if any, would you like to see to this section?</p>	
<p>not answered</p>	
<p>Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.</p>	Support

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	Support
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	Oppose
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	Support
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	Other
Q21. What changes, if any, would you like us to make to the draft plan about dogs? Offer kiwi/bird aversion training to dog owners	
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	Support
Q23. Tell us why and how we can improve this section. Happy with what you have put down	
Q24. Do you want to comment on any other aspect of the general policies?	Yes
Q25. Provide your comment/s. Please continue to do a great job with the walking tracks

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

The plan has some major flaws and due process to consult with usergroups has not been followed.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Public access to roads and beaches through public land must be maintained. Vehicle owners represent a large portion of the public and their rights need to be acknowledged,

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges
Responding to the climate emergency
Vehicles on Muriwai beach

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?** Do not support

Q9. **Tell us why and how we can improve this section.**

35,000 hectares is a substantial proportion of the ARP. There is limited open space which needs to be preserved for future use and these open spaces are part of our historical culture.

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?** not answered

Q11. **Tell us why and how we can improve this section.**

not answered

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?** Keep farming

Q13. **Tell us why and what is most important to you about our farmed areas.**

It is important to maintain usable open space and farming as it is part of our cultural and historical heritage that needs to be preserved and available to public who may otherwise not get this experience.

Q14. **Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?** Do not support

Q15. **What changes, if any, would you like to see to this section?**

Delete Vehicles on Beach section: Vehicles have a legal right to drive on the beach. Muriwai Beach is not ARP property and is therefore is outside ARP jurisdiction.

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.** not answered

Q17. Shakespeare: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	not answered
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	not answered
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	not answered
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	not answered
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	not answered
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	not answered
Q23. Tell us why and how we can improve this section.	not answered
Q24. Do you want to comment on any other aspect of the general policies?	Yes
Q25. Provide your comment/s.	Delete sections in Muriwai Regional Parks Chapter. Delete vehicles on beaches entire section - page 99.
Q26. Do you want to comment on any of the regional park chapters?	Yes
Q27. Which regional parks you would like to comment on?	Muriwai Waitākere Ranges
Q28. Ambury Regional Park What is your opinion on our intentions for managing Ambury? See the park chapter.	not answered
Q29. Tell us why and how we can improve this chapter.	not answered

not answered

Q84. Do you have any other comments on, or think anything else should be included in, the draft plan?

Lake Wainamu SMZ We do not support the ARC intentions for managing this area. Delete; - The extensive black sand dunes are vulnerable to uncontrolled recreation, particularly motorised vehicles . Under management intentions, no 85 [pg 219] Delete- Prohibit authorised motor vehicles from the dunes area managed by the council and prohibit water craft from the lake. The Auckland Council owns sand dunes at lake Wainamu is subject to an access easement benefiting adjoining landowners who have the right to travel by whatever means they choose on the sand and stream bed at Waiti and Wainamu. They also have the right to give permission to anyone they choose to do likewise, The majority of the sand dunes at Wainamu are privately owned and managed. Those owners have not been consulted by ARP's department. The sand dunes integrity and natural dynamics have been preserved by the private property owners and are now, some of the only natural dunes in the Auckland Council area. Any management of Lake Wainamu SMZ needs to be done in authentic consultation with the neighbouring private property owners, who own more sand dune than the Auckland Council. Management Intentions: Delete -Off road recreational vehicle use as a prohibited activity-pg 149/150. Section 9. key Stakeholders: Add Muriwai Beach vehicle users, groups and individuals.

Q85. Do you want to speak to your submission? Yes

Q86. Overall, how satisfied or dissatisfied were you with your experience of submitting feedback? 2

Q87. How can we improve the process of submitting feedback to Auckland Council?

more ability to go back and review responses. This document is a save as you go, but without the ability to consider and reflect on the comments made.

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

Good; allowing for as much recreation as possible

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Allow all foot launched hang gliding and paragliding in all parks.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Vehicles on Muriwai beach

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapter and Appendix 4. **What is your opinion of our proposed principles and criteria?** not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). **What is your opinion of these plans?** not answered

Q9. Tell us why and how we can improve this section.

not answered

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

not answered

Q11. Tell us why and how we can improve this section.

not answered

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

not answered

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. Vehicles on Muriwai beach
The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

Other

Q15. What changes, if any, would you like to see to this section?

Access should be minimised and policed.

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.

not answered

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.

not answered

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).

not answered

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.

not answered

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** not answered

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

not answered

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** Support

Q23. **Tell us why and how we can improve this section.**

not answered

Q24. **Do you want to comment on any other aspect of the general policies?** Yes

Q25. **Provide your comment/s.**

I have been a paraglider [not powered] for 20 years and have flown in many of the parks in that time. It is a silent, unobtrusive and spectacular sport both personally and for other park users. I have never been aware of any complaint or criticism while flying and landing. Indeed, I have routinely received much interest and enthusiasm from fellow park patrons. I urge that foot launched hang gliders and paragliders be authorised to fly from and to any and all Regional Parks. Thank you.

Q26. **Do you want to comment on any of the regional park chapters?** No

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Other

Q2. Tell us why

I feel that I and my fellow Metal Detectorists are being excluded from the 'all' to enjoy. If there is a culturally sensitive area or site within a park, then mark or cordon that area off so nobody disturbs it. Don't ban us Metal Detectorists from the whole park.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

not answered

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Other

Q2. Tell us why

I agree with the objectives of the plan but feel you fall far short of achieving them. The Waitakeres have managed to restore themselves with tracks which have been enjoyed by Aucklanders since the devastation that was us. What is enjoyable is the smell, feel and the essence of the bush not the sanitized short walks you are suggesting. Piha has a very pleasant walk from opposite the Surf Lifesaving Club, I enjoyed it but it could have been anywhere in the world, it lacked the excitement and new Zealandness of the bush. I appreciate Kauri dieback is one of your drivers but there are plenty of tracks without Kauri or where there is an occasional tree, the track could be diverted around it.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Other

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Again, I support your sentiment but as far as the Waitakeres are concerned, bigger carparks, buses to Titirangi, which will only make Exhibition Drive more crowded. Exhibition Drive is a popular track used by local ratepayers to walk, jog or take the toddlers and their bikes along

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? Do not support

Q7. Tell us why and how we can improve this section.

I read the suggestions from the public but I don't feel they were considered to any extent. You are proposing short walks 1-3 hours. Board walks? sealed? Trampers like to spend a day and come out refreshed, relaxed and feel they have enjoyed their day (all you are aspiring to) You mention there is a possibility of longer tramps. I have spent overnight at camp sites walking between Whatipu and Titirangi. Very doable, can avoid Kauri but would take more Rangers. On that topic ,we have Ricki who is Maori and I think the most senior Ranger in the Waitakeres. Reading your plan one could get the impression there is no one of Maori ethnicity .

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans? not answered

Q9. Tell us why and how we can improve this section.

not answered

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals? not answered

Q11. Tell us why and how we can improve this section.

not answered

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks? not answered

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan? not answered

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park. not answered

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track. not answered

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point). not answered

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area. not answered

Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone. not answered

Q21. What changes, if any, would you like us to make to the draft plan about dogs?

not answered

Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects? Other

Q23. Tell us why and how we can improve this section.

I can see you need spatial planning. It took months, a truck load of wood and a lot of man hours to complete the , "Haresnape Track" I don't know how long the Piha track took. I would rather the time and effort was spent repairing the existing tracks where there are no Kauri but as I see the trees in Auckland City (Avondale for instance) just toppling down, I am not holding my breath

Q24. Do you want to comment on any other aspect of the general policies? Yes

Q25. Provide your comment/s.

I am not sure if I misunderstood, BUT, why the need for a name change?

Q26. Do you want to comment on any of the regional park chapters? No

Q27. Which regional parks you would like to comment on? not answered

Q28. Ambury Regional Park What is your opinion on our intentions for managing Ambury? See the park chapter. not answered

not answered

Q82. **Whakatīwai** What is your opinion on our intentions for managing Whakatīwai? See the park chapter. not answered

Q83. Tell us why and how we can improve this chapter.

not answered

Q84. Do you have any other comments on, or think anything else should be included in, the draft plan?

There is no mention of boot cleaning stations. When I spoke to the pig cullers in the Park, there was no sign of the virus on their trotters or noses which seems odd for a virus that can be so easily transmitted by soil. There is no time frame for re opening or any criteria to re open. I suggest you close the Watercare area and use it as a control to observe Kauri Dieback. Is there any difference in the two areas? The watercare area has been closed when the rest was open.

Q85. Do you want to speak to your submission? No

Q86. Overall, how satisfied or dissatisfied were you with your experience of submitting feedback? 3

Q87. How can we improve the process of submitting feedback to Auckland Council?

I found it difficult to access the Plan whilst completing the survey, everything I had written disappeared. Talking to others they have had the same trouble. As I feel strongly about the issue I went to Arataki and spent the day reading the plan but others may not have the luxury of time. I also hope to get some acknowledgement that you have received this so I know it will be read and not just discarded.

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

not answered

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Better access for families with dogs

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges
Dogs in regional parks

Q6. Accessing tracks in the Waitākere Ranges We propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapter and Appendix 4. What is your opinion of our proposed principles and criteria? Support

Q7. Tell us why and how we can improve this section.

Somehow we need to find a better balance between facilitating healthy human activity and protecting nature. I feel the balance has tipped too far away from supporting human activity, with the closing of so many tracks being a good example. It would be great to see more tracks re-opening.

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

not answered

The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. **What changes, if any, would you like to see to this section?**

not answered

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.**

Support

Q17. Shakespeare: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	Support
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	Oppose
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	Support
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	not answered
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	
<p>Dogs are a big part of many families lives; I am fully supportive that they should be controlled/restricted in certain areas, but I would like to see more consistent rules and consideration for families with dogs. Using Long Bay as an example - it is great that access to the beach is all year round, with a mix of on-leash and off-leash. However, what if we want to use the park together - we can't, so that either means leaving the dog at home or in the car (parked outside the park). ☹️ I would like to see parks shared for all used e.g. part of the park could be 'dogs allowed' and part dog free. In Long Bay specifically I would like to see a change to permit dogs on leash to be permitted to walk from the new Long Bay development through the park, via a designated route, to the beach. This would be a really positive change for the many dog owners within the community. It would also take some strain off car-parking at the southern end of the beach.</p>	
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. <p>Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.</p>	<p>not answered</p>
<p>Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.</p>	<p>not answered</p>
<p>Q21. What changes, if any, would you like us to make to the draft plan about dogs?</p>	<p>not answered</p>
<p>Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?</p>	<p>Support</p>
<p>Q23. Tell us why and how we can improve this section.</p>	<p>not answered</p>
<p>Q24. Do you want to comment on any other aspect of the general policies?</p>	<p>Yes</p>
<p>Q25. Provide your comment/s.</p> <p>The Plan makes reference to the Hauraki Gulf Marine Park (section 7, page 59, bullet point 45). I oppose any transfer of control to the Hauraki Gulf Forum. This is a body with a wide remit and involves other councils. It will inevitably have the effect of diluting Aucklanders' say and control over our regional parks, which have been built up and paid for by Aucklanders, for Aucklanders. I fear the result will be further funding pressure as the regional parks will have to compete with Waikato and Thames-Coromandel. It will also lessen the desire of volunteers and others to support various projects, eg at Shakespeare and Tawharanui.</p>	
<p>Q26. Do you want to comment on any of the regional park chapters?</p>	<p>No</p>
<p>Q27. Which regional parks you would like to comment on?</p>	<p>not answered</p>
<p>Q28. Ambury Regional Park What is your opinion on our intentions for managing Ambury? See the park chapter.</p>	<p>not answered</p>
<p>Q29. Tell us why and how we can improve this chapter.</p>	<p>not answered</p>
<p>Q30. Ātiu Creek What is your opinion on our intentions for managing Ātiu Creek? See the park chapter.</p>	<p>not answered</p>

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Other

Q2. Tell us why

I broadly support the draft plan but am concerned that rights of access if some groups are at risk.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Other

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

I'm concerned that the hang gliding & paragliding fraternity, which has been using a number of regional parks for over 30 years, is not mentioned as users in the proposed plan. Our impact on the parks environment is minimal and our activity adds to the public enjoyment of the parks.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Vehicles on Muriwai beach

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

not answered

Q11. **Tell us why and how we can improve this section.**

not answered

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?**

not answered

Q13. **Tell us why and what is most important to you about our farmed areas.**

not answered

Q14. **Vehicles on Muriwai beach**
The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

The council Other

Q15. **What changes, if any, would you like to see to this section?**

I agree with controlled and sensible vehicular access to Muriwai Beach. As a club we very occasionally require access to retrieve pilots who have landed at points on the beach without nearby vehicular access.

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.**

not answered

Q17. Shakespeare: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	not answered
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	not answered
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	not answered
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	not answered
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	not answered
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	Support
Q23. Tell us why and how we can improve this section.	not answered
Q24. Do you want to comment on any other aspect of the general policies?	Yes
Q25. Provide your comment/s.	<p>Hang gliding and paragliding, like any recreational activity, add value to park user's experiences. Our sport promotes healthy and low ecological impact lifestyle options, where participants are immersed in and come to terms with the forces generated by nature i.e. wind and its effect on the local topography. It requires an understanding of environmental forces, and as a club we are happy to pass on our knowledge to park visitors through conversation and engagement, that they may understand the natural world and its forces and importance to the continued survival of our species.</p>
Q26. Do you want to comment on any of the regional park chapters?	No
Q27. Which regional parks you would like to comment on?	not answered
Q28. Ambury Regional Park What is your opinion on our intentions for managing Ambury? See the park chapter.	not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

More restrictions on dog exercise areas in the parks but no accommodation in non sensitive areas to allow dedicated off lead dog exercise parks. Effectively we can't all enjoy them if we can't take all of our families with us. It is not an expectation that dogs can go everywhere but hours, places have continually been eroded under the amalgamation with no alternative dedicated dog spaces allowed on area where flora and fauna are not at risk. There is plenty of farmed land owned that could allow some to be utilised for dog walking.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

not answered

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) not answered

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapter and Appendix 4. **What is your opinion of our proposed principles and criteria?** not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). **What is your opinion of these plans?** not answered

Q9. Tell us why and how we can improve this section.

not answered

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

Q11. Tell us why and how we can improve this section.

not answered

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** not answered

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

not answered

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** Support

Q23. **Tell us why and how we can improve this section.**

not answered

Q24. **Do you want to comment on any other aspect of the general policies?** No

Q25. **Provide your comment/s.**

not answered

Q26. **Do you want to comment on any of the regional park chapters?** Yes

Q27. **Which regional parks you would like to comment on?** Mahurangi West

Q28. **Ambury Regional Park**What is your opinion on our intentions for managing Ambury? See the park chapter. not answered

Q29. **Tell us why and how we can improve this chapter.**

not answered

Q30. **Ātiu Creek**What is your opinion on our intentions for managing Ātiu Creek? See the park chapter. not answered

Q42. **Mahurangi East**What is your opinion on our intentions for managing Mahurangi East? See the park chapter. not answered

Q43. Tell us why and how we can improve this chapter.

not answered

Q44. **Mahurangi West**What is your opinion on our intentions for managing Mahurangi West? See the park chapter. Other

Q45. Tell us why and how we can improve this chapter.

I live on The Bullock Track off Mahurangi West Road and my main concern is the increase in traffic from increased visitors. Especially visitors speeding on Mahu West road and the sheer volume of traffic already on Mahu West road. Mahu West road and Ngawera Drive are not designed for the volume of traffic that already exists let alone and increase in traffic. Therefore I think it is critical that access be created via Hungry Creek road to Te Muri to spread the volume of traffic more evenly across two main access ways. Also - I think consideration needs to be given to locals and our way of life. For example I currently launch my small boat from Opahi Bay for recreation and fishing trips and I am concerned that there is already not enough room for parking of boat trailers at Opahi Bay now let alone with an increase in visitors. Therefore additional parking and facilities need to be considered to cater for local activities and not just hikers, bikers and kyakers (I also enjoy hiking too). Lastly I note that you list the Mahu West Action Group as a key stake holder. My understanding is this is small group of people and I have lived here for two years and have never heard of this group so I do wonder who they are??

Q46. Motukorea / Browns IslandWhat is your opinion on our intentions for managing Motukorea / Browns Island? See the park chapter. not answered

Q43. **Tell us why and how we can improve this chapter.**

not answered

Q44. **Mahurangi West**What is your opinion on our intentions for managing Mahurangi West? See the park chapter. Support

Q45. **Tell us why and how we can improve this chapter.**

I support the intentions, however I am concerned about having many more vehicles accessing Mahurangi West Regional Park. Mahurangi West Road is a narrow winding road and at peak times it becomes very busy and dangerous to drive on. As a local resident this concerns me, and I worry about the safety of local children, residents and visitors using the road. I think separate access to Te Muri via Hungry Creek Road would alleviate this issue, and allow more visitors without having a major impact on the already stretched roading and carparking capacity.

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

not answered

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? not answered

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

not answered

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges
Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapter and Appendix 4. What is your opinion of our proposed principles and criteria? Do not support

Q7. Tell us why and how we can improve this section.

As a Piha ratepayer, daily track user, and former Hillary trail runner I object to the proposed upgrade of Hillary Trail to a level even more groomed than Great Walks standard. I object to the proposal of charging fees to access tracks. I object to the proposal to confine movement by stipulating use to a one way direction.

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

not answered

Q11. **Tell us why and how we can improve this section.**

not answered

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?**

not answered

Q13. **Tell us why and what is most important to you about our farmed areas.**

not answered

Q14. **Vehicles on Muriwai beach**The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. **What changes, if any, would you like to see to this section?**

not answered

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.**

Support

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	Support
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	not answered
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	Support
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	Support
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	not answered
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	not answered
Q23. Tell us why and how we can improve this section.	not answered
Q24. Do you want to comment on any other aspect of the general policies?	No
Q25. Provide your comment/s.	not answered
Q26. Do you want to comment on any of the regional park chapters?	Yes
Q27. Which regional parks you would like to comment on?	Waitākere Ranges
Q28. Ambury Regional Park What is your opinion on our intentions for managing Ambury? See the park chapter.	not answered
Q29. Tell us why and how we can improve this chapter.	not answered

Q30. **Ātiu Creek**What is your opinion on our intentions for managing Ātiu Creek? See the park chapter. not answered

Q31. **Tell us why and how we can improve this chapter.**
not answered

Q32. **Āwhitu**What is your opinion on our intentions for managing Āwhitu? See the park chapter. not answered

Q33. **Tell us why and how we can improve this chapter.**
not answered

Q34. **Duder**What is your opinion on our intentions for managing Duder? See the park chapter. not answered

Q35. **Tell us why and how we can improve this chapter.**
not answered

Q36. **Glenfern Sanctuary**What is your opinion on our intentions for managing Glenfern Sanctuary? See the park chapter. not answered

Q37. **Tell us why and how we can improve this chapter.**
not answered

Q38. **Hūnua Ranges**What is your opinion on our intentions for managing Hūnua Ranges? See the park chapter. not answered

Q39. **Tell us why and how we can improve this chapter.**
not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

It closes tracks permanently and encourages building car infrastructure. This Draft Regional parks Management plan cannot go ahead until scientific research that is currently underway can be included in the plan. Without science and data with integrity on Kauri dieback disease, a plan for Kauri dieback cannot be formulated or drafted. Change the plan until it allows for people to be in nature, not on gravel. Manage the Waitakere ranges as class 1a. Not class 1b.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Do not support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Make the parks accessible through public transport and active transport. Build bike docks and bus shelters. Do not build any car infrastructure. Also, open all tracks. Doing this gives access to the parks. Reject sealing any gravel roads and carparks. Also reject turning any unformed legal roads into sealed roads.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges
Responding to the climate emergency
Vehicles on Muriwai beach
Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? Do not support

Q7. Tell us why and how we can improve this section.

Reject changing the park to class 1b. Keep class 1a. Don't seal, or enlarge carparks. Introduce public and active transport options to reduce car use and car access. Don't sanitise tracks by making them gravel. Keep the tracks in a natural but maintained state.

- Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?** Support
-
- Q9. **Tell us why and how we can improve this section.**
- Plant more native forests. The main issue within Auckland is to reduce vehicle kilometers travelled. Car use must drop. Public and active transport can help with this. Auckland Transport should be leading this mode shift but haven't done so effectively yet.
-
- Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?** Support
-
- Q11. **Tell us why and how we can improve this section.**
- Include safe separated bike paths and safe secure bike parking - such as Locky Docks.
-
- Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?** Reduce farming
-
- Q13. **Tell us why and what is most important to you about our farmed areas.**
- not answered
-
- Q14. **Vehicles on Muriwai beach**The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan? Support
-
- Q15. **What changes, if any, would you like to see to this section?**
- Remove all vehicle access from Muriwai beach.
-
- Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.** Support
-

Q17. Shakespeare: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	Support
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	Support
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	Support
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	Support
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	
not answered	
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	Support
Q23. Tell us why and how we can improve this section.	
Remove dogs from Kakamatua. The place is polluted by dog waste.	
Q24. Do you want to comment on any other aspect of the general policies?	Yes
Q25. Provide your comment/s.	
I support development of a track network plan for Waitakere Ranges Regional Park. RPMP and not be delayed. Ensure the Kauri dieback survey research is included in any future planning. Nothing should happen until this report is released. No track closures. Reject building accomodation at Pararaha. Allow mountain biking in the Waitakere Ranges.	
Q26. Do you want to comment on any of the regional park chapters?	Yes
Q27. Which regional parks you would like to comment on?	Waitākere Ranges
Q28. Ambury Regional Park What is your opinion on our intentions for managing Ambury? See the park chapter.	not answered

Q29. Tell us why and how we can improve this chapter.

not answered

Q30. **Ātiu Creek** What is your opinion on our intentions for managing Ātiu Creek? See the park chapter. not answered

Q83. **Tell us why and how we can improve this chapter.**

not answered

Q84. Do you have any other comments on, or think anything else should be included in, the draft plan?

Regional parks must have recreation stakeholders that represent all the users of the parks. I propose that both FMC and Friends of Regional Parks are added as a key stakeholder for each park, and for some specific proposed recreation reviews for the Waitakere and Hunua Regional Parks. I support the FMC submission to this feedback. Add wilderness back into the vision for the Waitakere Ranges. Do not upgrade the Hillary Trail. The original agreement was for a tough trail multiday hike. Now it's become urban park style walkways at huge cost and degraded the experience, connection to nature and the landscape.

Q85. Do you want to speak to your submission? No

Q86. Overall, how satisfied or dissatisfied were you with your experience of submitting feedback? 2

Q87. How can we improve the process of submitting feedback to Auckland Council?

Delay the closing of this feedback until the Kauri dieback report is released in April.

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

Aspects of the management of the Waitakere ranges are ill thought out and have a failure of logic.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Do not support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Auckland Regional Parks have not considered the locals who must live and deal with impacts of massive increasing visitor numbers in a place that already has no infrastructure [toilets, transport]. Aspirational desire without consultation with the local community and neighbouring private property owners will result in shortsighted and negative impact on our communities and environment.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges
Vehicles on Muriwai beach

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? Do not support

Q7. Tell us why and how we can improve this section.

Section 3 and 8 of the Waitakere Ranges Heritage Area state under Objectives 8-a, b & g ; 8a- to protect, restore and enhance the area and its heritage features. 8b- to ensure that impacts on the area as a whole are considered when decisions are made affecting any part of it. 8g- to recognise that people live and work in the area in distinct communities, and to enable those people to provide for their social, economic, environmental and cultural wellbeing. If the reopening and proposed development of Te Ara Tuhura/ The Hillary Trail is upgraded, these aspects of the Waitakere Ranges will be severely compromised. Auckland Regional Council has proved itself to be apathetic around supporting local communities with the impacts of increased visitor numbers. Delete under Waitākere Ranges Regional Park: 1. Park vision/ Te Ara Tuhura/ the Hillary Trail SMZ: Management Intentions [pg 226-227] 132. Further develop Te Ara Tuhura/ the Hillary Trail. Amend to - 1. Park vision/ Te Ara Tuhura/ the Hillary Trail SMZ: Management Intentions [pg 226-227] 132. Hold further discussion in consultation with Ngati Whātua, Te Kawerau ā Maki and local communities and neighbouring property owners about the future of Te Ara Tuhura/ the Hillary Trail SMZ: There are two portaloos between lake Wainamu and Anawhata. If the Hillary trail walk is developed and upgraded where [private land/ public land] and how will the infrastructure be managed and sited? What other aspects of tourism There needs to be a lot more authentic consultation [not confirmation] of proposed and 'aspirational' ideas before any of these start to actually occur.

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans? not answered

Q9. Tell us why and how we can improve this section.

not answered

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals? not answered

Q11. Tell us why and how we can improve this section.

not answered

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks? not answered

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. **Vehicles on Muriwai beach**The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

Do not support

Q15. **What changes, if any, would you like to see to this section?**

These recent decisions to manage vehicles on Muriwai Beach were made without due political process. This was not a consultation in its fullest sense. The public agency acted for and supposedly sought optimum public good. However, they did not consider and analyse the status quo as an option.- which was open vehicle access to the beach.-. This demonstrates both a lack of good faith and an interpretation of the political process which ultimately led not to consultation, but confirmation of a decision already made before the 'consultation' was begun. Because of this flawed process, incorrect and information corrupts this document. In the section Under Muriwai; 4; Recreational Provision, many other historical aspects of recreation are mentioned giving a context to possible responses and changes to the Muriwai of today. Driving on Muriwai Beach has been occurring for over 100 years but this information is omitted. Amend- to include a paragraph on the historic use of Muriwai Beach as a recreational destination for drivers and visitors. Delete under-5: Pressures, challenges and opportunities: vehicles on beaches, the entire section which is flawed for the reasons stated above. Replace with: An outgoing consultative process will continue with stakeholders, local community over issue around multi beach users. 6. Management focus; Delete -Addressing the environmental impacts and public safety risks of the public's use of vehicles on Te Oneone Rangatira. This is not the jurisdiction of the Auckland Regional parks.

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.**

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

not answered

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Consideration could also be given to socio-economic equity and how to address barriers for lower socio economic groups to access regional park experiences.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) not answered

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

not answered

Q11. **Tell us why and how we can improve this section.**

not answered

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?**

not answered

Q13. **Tell us why and what is most important to you about our farmed areas.**

not answered

Q14. **Vehicles on Muriwai beach**The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. **What changes, if any, would you like to see to this section?**

not answered

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.**

not answered

Q17. **Shakespeare: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.** not answered

Q18. **Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).** not answered

Q19. **Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.** not answered

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** not answered

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

not answered

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** not answered

Q23. **Tell us why and how we can improve this section.**

not answered

Q24. **Do you want to comment on any other aspect of the general policies?** Yes

Q25. **Provide your comment/s.**

I haven't had the time to fully digest the huge range of policies but wanted to note strong support for direction and policies related to Te Ao Maori in Park Management, partnership with mana whenua, interpretation, climate change and provision of a dedicated ranger force. In terms of farming, I'd love to see more areas planted up but with some farming landscapes retained. My view is regional parks farming should move towards regenerative agriculture because of the multiple benefits this approach presents in relation to carbon sequestration, improved soil health, improved biodiversity, improved water quality and reduced chemical use. I think there are also opportunities at some of the parks for continuous cover indigenous forestry that could be explored as part of the woodlots section.

Q26. **Do you want to comment on any of the regional park chapters?** Yes

Q27. Which regional parks you would like to comment on?	<p>Hūnua Ranges</p> <p>Long Bay</p> <p>Muriwai</p> <p>Pakiri</p> <p>Tāwharanui</p> <p>Te Ārai</p> <p>Te Rau Pūriri</p> <p>Waitākere Ranges</p>
Q28. Ambury Regional Park What is your opinion on our intentions for managing Ambury? See the park chapter.	not answered
Q29. Tell us why and how we can improve this chapter.	not answered
Q30. Ātiu Creek What is your opinion on our intentions for managing Ātiu Creek? See the park chapter.	not answered
Q31. Tell us why and how we can improve this chapter.	not answered
Q32. Āwhitu What is your opinion on our intentions for managing Āwhitu? See the park chapter.	not answered
Q33. Tell us why and how we can improve this chapter.	not answered
Q34. Duder What is your opinion on our intentions for managing Duder? See the park chapter.	not answered
Q35. Tell us why and how we can improve this chapter.	not answered
Q36. Glenfern Sanctuary What is your opinion on our intentions for managing Glenfern Sanctuary? See the park chapter.	not answered
Q37. Tell us why and how we can improve this chapter.	not answered
Q38. Hūnua Ranges What is your opinion on our intentions for managing Hūnua Ranges? See the park chapter.	Support

Q39. Tell us why and how we can improve this chapter.

Just wanted to note strong support for policy 12.b. Now having children ready to do overnight tramps, I'd love to see the regional parks network provide accessible weekend opportunities within Tamaki Makaurau. Peach Cove, Pinnacles and Waitewheta huts are all great but that's only 3 huts within a couple of hours of Auckland so the demand for weekends in summer is huge. Also, they'd like to experience a greater range of walks. Unfortunately they aren't strong enough yet to carry large packs and I'm not strong enough to carry their gear and camping gear to take them on tent-based walks yet.

Q40. Long BayWhat is your opinion on our intentions for managing Long Bay? See the park chapter. Support

Q41. Tell us why and how we can improve this chapter.

The walk to Piripipi Point is fabulous but would be great to have more seating and shade. Strongly support extending public access further north to connect with Okura Bush Walkway. Would be great to see better single trail mtn bike opportunity provided off the coastal track to add interest for kids and provide a greater range of mtn bike opportunities on the North Shore.

Q42. Mahurangi EastWhat is your opinion on our intentions for managing Mahurangi East? See the park chapter. not answered

Q43. Tell us why and how we can improve this chapter.

not answered

Q44. Mahurangi WestWhat is your opinion on our intentions for managing Mahurangi West? See the park chapter. not answered

Q45. Tell us why and how we can improve this chapter.

not answered

Q46. Motukorea / Browns IslandWhat is your opinion on our intentions for managing Motukorea / Browns Island? See the park chapter. not answered

Q47. Tell us why and how we can improve this chapter.

not answered

Q48. MuriwaiWhat is your opinion on our intentions for managing Muriwai? See the park chapter. Support

Q49. Tell us why and how we can improve this chapter.

Having been to Muriwai on several busy weekend days this summer and having camped there last summer, I strongly advocated for shared paths on both sides of the access road between the Sand Dunz cafe and the beach/campground. Recently I saw a mother and 3 young kids on bikes almost get hit. On these busy days cars are parked everywhere and people have gazebos right up to edge of road so it isn't as easy as just hopping over onto the grassed area.

Q50. ŌmanaWhat is your opinion on our intentions for managing Ōmana? See the park chapter. not answered

Q51. Tell us why and how we can improve this chapter.

not answered

Q52. **Ōrere Point** What is your opinion on our intentions for managing Ōrere Point? See the park chapter. not answered

Q53. Tell us why and how we can improve this chapter.

not answered

Q54. **Pakiri** What is your opinion on our intentions for managing Pakiri? See the park chapter. Support

Q55. Tell us why and how we can improve this chapter.

Would definitely support a spatial plan and improved way-finding and interpretation signage. If access can be secured and a site suitable found, it would be amazing to offer a campground here as the Pakiri Campground offers a very different experience to the regional parks camping experience and is at a different price point. This would help relieve the pressure experienced at Tawharanui.

Q56. **Scandrett** What is your opinion on our intentions for managing Scandrett? See the park chapter. not answered

Q57. Tell us why and how we can improve this chapter.

not answered

Q58. **Shakespear** What is your opinion on our intentions for managing Shakespear? See the park chapter. not answered

Q59. Tell us why and how we can improve this chapter.

not answered

Q60. **Tāpapakanga** What is your opinion on our intentions for managing Tāpapakanga? See the park chapter. not answered

Q61. Tell us why and how we can improve this chapter.

not answered

Q62. **Tāwharanui** What is your opinion on our intentions for managing Tāwharanui? See the park chapter. Support

Q63. Tell us why and how we can improve this chapter.

This is our family's all time favourite regional park. I think there is capacity to extend the campground to the north without compromising the experience. We'd love to be able to book more camping weekends here as it has everything. I also commend the team on the recent installation of the new toilet block. It is well sited with a great design.

Q64. **Tawhitokino** What is your opinion on our intentions for managing Tawhitokino? See the park chapter. not answered

Q65. **Tell us why and how we can improve this chapter.**

not answered

Q66. **Te Ārai** What is your opinion on our intentions for managing Te Ārai? See the park chapter. Support

Q67. **Tell us why and how we can improve this chapter.**

This is a park, both north and south, are great surfing breaks. It would be fantastic to get a campground developed here to provide more opportunities close to home to camp by an east coast surf beach.

Q68. **Te Muri** What is your opinion on our intentions for managing Te Muri? See the park chapter. not answered

Q69. **Tell us why and how we can improve this chapter.**

not answered

Q70. **Te Rau Pūriri** What is your opinion on our intentions for managing Te Rau Pūriri? See the park chapter. not answered

Q71. **Tell us why and how we can improve this chapter.**

not answered

Q72. **Waharau** What is your opinion on our intentions for managing Waharau? See the park chapter. not answered

Q73. **Tell us why and how we can improve this chapter.**

not answered

Q74. **Waitākere Ranges** What is your opinion on our intentions for managing Waitākere Ranges? See the park chapter. Support

Q75. **Tell us why and how we can improve this chapter.**

I'd love to see the inclusion of policy 12.b for the Hunuas in the Waitakere's section for the same reasons. More huts will get more families with young families out doing multi-day trips. We need these stepping stones close to home to train them up for the longer trips that are further afield and require more investment to get to.

Q76. **Waitawa** What is your opinion on our intentions for managing Waitawa? See the park chapter. not answered

Q77. **Tell us why and how we can improve this chapter.**

not answered

Q78. **Wenderholm** What is your opinion on our intentions for managing Wenderholm? See the park chapter. not answered

Q79. **Tell us why and how we can improve this chapter.**

not answered

Q80. **Whakanewha** What is your opinion on our intentions for managing Whakanewha? See the park chapter. not answered

Q81. **Tell us why and how we can improve this chapter.**

not answered

Q82. **Whakatīwai** What is your opinion on our intentions for managing Whakatīwai? See the park chapter. not answered

Q83. **Tell us why and how we can improve this chapter.**

not answered

Q84. **Do you have any other comments on, or think anything else should be included in, the draft plan?**

not answered

Q85. **Do you want to speak to your submission?** No

Q86. **Overall, how satisfied or dissatisfied were you with your experience of submitting feedback?** 3

Q87. **How can we improve the process of submitting feedback to Auckland Council?**

The RPMP is understandably a huge document. It needed a clickable table of contents to more easily navigate the document. Also would be great to create hyperlinks for the concept plans to easily refer to these - both in the appendix and at the start of each park section.

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

For the parks with the highest biodiversity and ecological value I believe preserving this should be the top priority. I do not support mana whenua co-governance / co-management of the regional parks. I do not believe decision-making should be disproportionately allocated to one sector of the community or to non-elected, non-accountable individuals who may have limited regard for the most regular users of the park, volunteer groups or other groups more heavily invested in biodiversity outcomes (e.g. Ark in the Park). In other co-governance arrangements (e.g. Lake Waikaremoana), the commitment to biodiversity and pest control by mana whenua representatives has proven to be in name only and not backed up by tangible actions.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Do not support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Wilderness, flora and fauna should be prioritised, particularly in the parks with higher natural values. I am concerned about the impact of vehicles, large groups, music, tents and rubbish on birdlife and the natural beauty of the parks. Having said this a few of the parks such as Long Bay are better suited for high volumes of people.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges
Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? Do not support

Q7. Tell us why and how we can improve this section.

The Waitakere Ranges used to cater for trail runners, experienced hikers, scout groups etc who prefer routes and less formed tramping tracks . There is currently too much emphasis on walking tracks / highly manicured tracks and not enough options for those seeking the back-country experience. It is noted that there is limited scope for back-country hiking within two hours of Auckland and therefore it is important to preserve routes and longer, harder tramping tracks in the Waitakere Ranges. I am opposed to upgrading the Hillary Trail to a "great walk" grade track. As above, there are limited options for the back-country wilderness experience within two hours of Auckland and these options should be preserved.

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans? not answered

Q9. Tell us why and how we can improve this section.

not answered

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals? not answered

Q11. Tell us why and how we can improve this section.

not answered

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks? not answered

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan? not answered

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.** Support

Q17. **Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.** Other

Q18. **Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).** Other

Q19. **Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.** Support

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** Support

Q21. What changes, if any, would you like us to make to the draft plan about dogs?

I own a dog. I support setting up high quality, dedicated dog exercise areas so that people concentrate their dogs there rather on our more ecologically sensitive beaches. Kakamatua Beach is a great location and if it was not there then there would be a lot more dogs at Whatipu, Huia etc. I support an even stronger education campaign about the disturbance dogs cause to endangered coastal birdlife and stronger, more regular enforcement at the most ecologically sensitive areas. I think a dedicated, fenced dog area at long bay would be good. I worry that the proposed Army Bay area is too close to the highly ecologically sensitive Shakespeare Park. Council should avoid attracting dogs into that area altogether. I defer to the park workers, volunteers and conservation workers to provide a more expert opinion on this. I am not familiar with Te Arai.

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** Other

Q23. Tell us why and how we can improve this section.

Not a focus of my submission.

Q24. **Do you want to comment on any other aspect of the general policies?** No

Q25. Provide your comment/s.

not answered

Q26. Do you want to comment on any of the regional park chapters?	Yes
Q27. Which regional parks you would like to comment on?	Scandrett Shakespear Tāwharanui Waitākere Ranges
Q28. Ambury Regional Park What is your opinion on our intentions for managing Ambury? See the park chapter.	not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

The plan waters down protection of the natural and cultural heritage of the regional parks. The plan envisages control of regional parks moving away from AC

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Other

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Partially support some access for diverse groups however the natural and cultural heritage values must take priority

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges
Responding to the climate emergency
Vehicles on Muriwai beach
Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? Do not support

Q7. Tell us why and how we can improve this section.

Do not lower the status of this park

- Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?** Support
-
- Q9. **Tell us why and how we can improve this section.**
not answered
-
- Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?** Support
-
- Q11. **Tell us why and how we can improve this section.**
not answered
-
- Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?** Other
-
- Q13. **Tell us why and what is most important to you about our farmed areas.**
This question is too simplified. Farming assists with revenue for parks. Returning farmland to trees should only be done if this land is marginal for farming
-
- Q14. **Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council’s decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?** Support
-
- Q15. **What changes, if any, would you like to see to this section?**
not answered
-
- Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.** Support
-

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	Support
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	not answered
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	Support
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	not answered
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	More signage and policing of dog areas particularly where dogs are supposed to be on lead.
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	not answered
Q23. Tell us why and how we can improve this section.	not answered
Q24. Do you want to comment on any other aspect of the general policies?	not answered
Q25. Provide your comment/s.	not answered
Q26. Do you want to comment on any of the regional park chapters?	Yes
Q27. Which regional parks you would like to comment on?	Waitākere Ranges
Q28. Ambury Regional Park What is your opinion on our intentions for managing Ambury? See the park chapter.	not answered
Q29. Tell us why and how we can improve this chapter.	not answered

Q30. **Ātiu Creek** What is your opinion on our intentions for managing Ātiu Creek? See the park chapter. not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

Natural yes.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Dog friendly.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapter and Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans? not answered

Q9. Tell us why and how we can improve this section.

not answered

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

not answered

Q11. Tell us why and how we can improve this section.

not answered

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

not answered

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.

Support

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.

Support

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).

Oppose

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.

Support

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** Support

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

Provide dog litter bins and bags. Enforce these rules. People need to pick up after their dogs.

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** Do not support

Q23. **Tell us why and how we can improve this section.**

Obtain funding from the council!!! We have paid for more than enough.

Q24. **Do you want to comment on any other aspect of the general policies?** No

Q25. **Provide your comment/s.**

not answered

Q26. **Do you want to comment on any of the regional park chapters?** No

Q27. **Which regional parks you would like to comment on?** not answered

Q28. **Ambury Regional Park**What is your opinion on our intentions for managing Ambury? See the park chapter. not answered

Q29. **Tell us why and how we can improve this chapter.**

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

not answered

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

I fully support making regional parks more accessible, however, this must not be at the risk of over-using existing parks and facilities and putting increased pressure on already at-risk spaces. For example, with Te Muri Regional Park, additional crossing points into the Park are needed over and above the two proposals via Ngarewa Drive and Hungry Creek Road.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) not answered

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

not answered

Q11. **Tell us why and how we can improve this section.**

not answered

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?**

not answered

Q13. **Tell us why and what is most important to you about our farmed areas.**

not answered

Q14. **Vehicles on Muriwai beach**The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. **What changes, if any, would you like to see to this section?**

not answered

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.**

not answered

Q17. Shakespeare: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	not answered
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	not answered
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	not answered
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	not answered
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	not answered
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	Do not support
Q23. Tell us why and how we can improve this section.	<p>The draft Plan states "In many cases, new investment is more likely to occur where investors in the wider community are able to step in and partner with the council to develop services or facilities.". It is important that private funding, such as Mahurangi Coastal Trail Trust, does not drive the planning and implementation at the exclusion of the community. The Mahurangi Coastal Trail Trust is a group of about 7 individuals, some of who live in Mahurangi West, however they do not represent the Mahurangi West community as a whole, they are a small group of individuals with their own private agenda.</p>
Q24. Do you want to comment on any other aspect of the general policies?	No
Q25. Provide your comment/s.	not answered
Q26. Do you want to comment on any of the regional park chapters?	Yes
Q27. Which regional parks you would like to comment on?	Mahurangi West Te Muri
Q28. Ambury Regional Park What is your opinion on our intentions for managing Ambury? See the park chapter.	not answered

Q29. Tell us why and how we can improve this chapter.

not answered

Q30. **Ātiu Creek** What is your opinion on our intentions for managing Ātiu Creek? See the park chapter. not answered

not answered

Q38. **Hūnua Ranges** What is your opinion on our intentions for managing Hūnua Ranges? See the park chapter. not answered

Q39. Tell us why and how we can improve this chapter.

not answered

Q40. **Long Bay** What is your opinion on our intentions for managing Long Bay? See the park chapter. not answered

Q41. Tell us why and how we can improve this chapter.

not answered

Q42. **Mahurangi East** What is your opinion on our intentions for managing Mahurangi East? See the park chapter. not answered

Q43. Tell us why and how we can improve this chapter.

not answered

Q44. Mahurangi West What is your opinion on our intentions for managing Mahurangi West? See the park chapter. Do not support

Q45. Tell us why and how we can improve this chapter.

The current proposal of a footbridge/walkway across Te Muri Stream must not be allowed to proceed whilst Mahurangi West is the main and currently only access to Auckland's new "superpark" i.e. Mahurangi and Te Muri Regional Parks. Mahurangi West is the wrong place for the main access to both Mahurangi and Te Muri regional parks, it will ruin the community and its unique atmosphere, forever. It should never be the only access, and never the main access. Mahurangi West Road and Ngarewa Drive roads are not designed for a high volume of traffic. They are narrow, windy, single lane at some points, and have high cliff face drop offs along parts of these roads. Some of the road is gravel and has deep ruts throughout summer from the existing high volumes of traffic. The existing roads already can not handle the increased numbers at Sullivans Bay as a result of the 'lockdown effect' and are definitely not suitable for the increased volumes of traffic that will come if it was the only access point into the new superpark.

Q46. Motukorea / Browns Island What is your opinion on our intentions for managing Motukorea / Browns Island? See the park chapter. not answered

Q47. Tell us why and how we can improve this chapter.

not answered

Q48. Muriwai What is your opinion on our intentions for managing Muriwai? See the park chapter. not answered

Q49. Tell us why and how we can improve this chapter.

not answered

Q68. Te Muri What is your opinion on our intentions for managing Te Muri? See the park chapter. Do not support

Q69. Tell us why and how we can improve this chapter.

Te Muri Regional Park needs its own main access via Hungry Creek Road, not via Mahurangi West. When the Te Muri park was purchased in 2010, the following was quoted by Auckland Council "The new park, including access to Te Muri Bay, will now be accessible by Hungry Creek Rd.". It is important that private funding i.e. via the Mahurangi Coastal Trail Trust, at the exclusion of the local Mahurangi West community, is not the driving force for facilitating access to Te Muri Regional Park via Mahurangi Regional Park. The current proposal of a footbridge/walkway across Te Muri Stream must not be allowed to be done with the only access into Mahurangi and Te Muri Regional Parks i.e. Auckland's new "superpark", being through Mahurangi West. Mahurangi West Road and Ngarewa Drive roads are not designed for a high volume of traffic. They are narrow, windy, single lane at some points, and have high cliff face drop offs along parts of these roads. The existing roads already can not handle the increased numbers at Sullivans Bay as a result of the 'lockdown effect' and are definitely not suitable for the increased volumes of traffic that will come if it was the only access point into the new superpark. Te Muri Regional Park does need access, but Mahurangi West is the wrong place for access, it will ruin the atmosphere forever. It should never be the only access, and never the main access.

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Support

Q2. Tell us why

not answered

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

I fully support making regional parks more accessible, however, this must not be at the risk of over-using existing parks and facilities and putting increased pressure on already at-risk spaces. For example, with Te Muri Regional Park, additional crossing points into the Park are needed over and above the two proposals via Ngarewa Drive and Hungry Creek Road.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) not answered

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

not answered

Q11. **Tell us why and how we can improve this section.**

not answered

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?**

not answered

Q13. **Tell us why and what is most important to you about our farmed areas.**

not answered

Q14. **Vehicles on Muriwai beach**The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. **What changes, if any, would you like to see to this section?**

not answered

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.**

not answered

Q17. Shakespeare: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	not answered
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	not answered
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	not answered
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	not answered
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	not answered
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	Do not support
Q23. Tell us why and how we can improve this section.	<p>The draft Plan states "In many cases, new investment is more likely to occur where investors in the wider community are able to step in and partner with the council to develop services or facilities.". It is important that private funding, such as Mahurangi Coastal Trail Trust, does not drive the planning and implementation at the exclusion of the community. The Mahurangi Coastal Trail Trust is a group of about 7 individuals, some of who live in Mahurangi West, however they do not represent the Mahurangi West community as a whole, they are a small group of individuals with their own private agenda.</p>
Q24. Do you want to comment on any other aspect of the general policies?	Yes
Q25. Provide your comment/s.	not answered
Q26. Do you want to comment on any of the regional park chapters?	Yes
Q27. Which regional parks you would like to comment on?	Mahurangi West Te Muri
Q28. Ambury Regional Park What is your opinion on our intentions for managing Ambury? See the park chapter.	not answered

Q29. Tell us why and how we can improve this chapter.

not answered

Q30. **Ātiu Creek** What is your opinion on our intentions for managing Ātiu Creek? See the park chapter. not answered

Q31. Tell us why and how we can improve this chapter.

not answered

Q32. **Āwhitu** What is your opinion on our intentions for managing Āwhitu? See the park chapter. not answered

Q33. Tell us why and how we can improve this chapter.

not answered

Q35. Tell us why and how we can improve this chapter.

not answered

Q36. **Glenfern Sanctuary** What is your opinion on our intentions for managing Glenfern Sanctuary? See the park chapter. not answered

Q37. Tell us why and how we can improve this chapter.

not answered

Q38. **Hūnua Ranges** What is your opinion on our intentions for managing Hūnua Ranges? See the park chapter. not answered

Q39. Tell us why and how we can improve this chapter.

not answered

Q40. **Long Bay** What is your opinion on our intentions for managing Long Bay? See the park chapter. not answered

Q41. Tell us why and how we can improve this chapter.

not answered

Q42. **Mahurangi East** What is your opinion on our intentions for managing Mahurangi East? See the park chapter. not answered

Q43. Tell us why and how we can improve this chapter.

not answered

Q44. Mahurangi West What is your opinion on our intentions for managing Mahurangi West? See the park chapter. Do not support

Q45. Tell us why and how we can improve this chapter.

The current proposal of a footbridge/walkway across Te Muri Stream must not be allowed to proceed whilst Mahurangi West is the main and currently only access to Auckland's new "superpark" i.e. Mahurangi and Te Muri Regional Parks. Mahurangi West is the wrong place for the main access to both Mahurangi and Te Muri regional parks, it will ruin the community and its unique atmosphere, forever. It should never be the only access, and never the main access. Mahurangi West Road and Ngarewa Drive roads are not designed for a high volume of traffic. They are narrow, windy, single lane at some points, and have high cliff face drop offs along parts of these roads. Some of the road is gravel and has deep ruts throughout summer from the existing high volumes of traffic. The existing roads already can not handle the increased numbers at Sullivans Bay as a result of the 'lockdown effect' and are definitely not suitable for the increased volumes of traffic that will come if it was the only access point into the new superpark.

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

I do not support the amalgamation of parks under a framework that will increase volume of cars to the parks without increasing the infrastructure of the roads to these parks. Particularly Mahurangi West road would need to: have speed reduced ; improved by widening. I do not support more parking at the park as it would encroach further in to the natural environment which the plan says is the very thing it is trying to protect.

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Do not support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

If more Car parking , to be put in appropriate areas. Not just greater parking at the end existing road infrastructure. I do not support more parking at the Mahurangi west park as it would encroach further in to the natural environment which the plan says is the very thing it is trying to protect. Additionally Mahurangi west road would need to be improved significant to handle an increase in road traffic.

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.** not answered

Q17. Shakespeare: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	not answered
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	not answered
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	not answered
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	not answered
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	not answered
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	Support
Q23. Tell us why and how we can improve this section.	Only interested in knowing there will be provision for necessary funding for Pakiri Regional Park so that when it opens necessary infrastructure and community and stake holder relationships are well sorted and not ad hoc
Q24. Do you want to comment on any other aspect of the general policies?	No
Q25. Provide your comment/s.	not answered
Q26. Do you want to comment on any of the regional park chapters?	Yes
Q27. Which regional parks you would like to comment on?	Pakiri
Q28. Ambury Regional Park What is your opinion on our intentions for managing Ambury? See the park chapter.	not answered
Q29. Tell us why and how we can improve this chapter.	not answered

Q30. **Ātiu Creek**What is your opinion on our intentions for managing Ātiu Creek? See the park chapter. not answered

Q31. **Tell us why and how we can improve this chapter.**
not answered

Q32. **Āwhitu**What is your opinion on our intentions for managing Āwhitu? See the park chapter. not answered

Q33. **Tell us why and how we can improve this chapter.**
not answered

Q34. **Duder**What is your opinion on our intentions for managing Duder? See the park chapter. not answered

Q35. **Tell us why and how we can improve this chapter.**
not answered

Q36. **Glenfern Sanctuary**What is your opinion on our intentions for managing Glenfern Sanctuary? See the park chapter. not answered

Q37. **Tell us why and how we can improve this chapter.**
not answered

Q38. **Hūnua Ranges**What is your opinion on our intentions for managing Hūnua Ranges? See the park chapter. not answered

Q39. **Tell us why and how we can improve this chapter.**
not answered

Q40. **Long Bay**What is your opinion on our intentions for managing Long Bay? See the park chapter. not answered

Q41. **Tell us why and how we can improve this chapter.**
not answered

Q42. **Mahurangi East**What is your opinion on our intentions for managing Mahurangi East? See the park chapter. not answered

Q43. **Tell us why and how we can improve this chapter.**
not answered

Q44. **Mahurangi West** What is your opinion on our intentions for managing Mahurangi West? See the park chapter. not answered

Q45. Tell us why and how we can improve this chapter.

not answered

Q46. **Motukorea / Browns Island** What is your opinion on our intentions for managing Motukorea / Browns Island? See the park chapter. not answered

Q47. Tell us why and how we can improve this chapter.

not answered

Q48. **Muriwai** What is your opinion on our intentions for managing Muriwai? See the park chapter. not answered

Q49. Tell us why and how we can improve this chapter.

not answered

Q50. **Ōmana** What is your opinion on our intentions for managing Ōmana? See the park chapter. not answered

Q51. Tell us why and how we can improve this chapter.

not answered

Q52. **Ōrere Point** What is your opinion on our intentions for managing Ōrere Point? See the park chapter. not answered

Q53. Tell us why and how we can improve this chapter.

not answered

Q54. **Pakiri** What is your opinion on our intentions for managing Pakiri? See the park chapter. Support

Q55. Tell us why and how we can improve this chapter.

Any conversation around the protection of ecology, specific habitats and coastal erosion can only be taken seriously if there is a cessation of sand mining. The Pakiri sand as a Miocene deposit is a non-renewal resource that protects the shoreline across seasonal geological changes. Therefore as a finite deposit the extraction of the sand cannot continue if the habitats for coastal dune species and the integrity of the shoreline particularly in light of any future sea level changes are to be considered .

Q56. **Scandrett** What is your opinion on our intentions for managing Scandrett? See the park chapter. not answered

Q57. Tell us why and how we can improve this chapter.

not answered

Q58. **Shakespear** What is your opinion on our intentions for managing Shakespear? See the park chapter. not answered

Q59. Tell us why and how we can improve this chapter.
not answered

Q60. **Tāpapakanga** What is your opinion on our intentions for managing Tāpapakanga? See the park chapter. not answered

Q61. Tell us why and how we can improve this chapter.
not answered

Q62. **Tāwharanui** What is your opinion on our intentions for managing Tāwharanui? See the park chapter. not answered

Q63. Tell us why and how we can improve this chapter.
not answered

Q64. **Tawhitokino** What is your opinion on our intentions for managing Tawhitokino? See the park chapter. not answered

Q65. Tell us why and how we can improve this chapter.
not answered

Q66. **Te Ārai** What is your opinion on our intentions for managing Te Ārai? See the park chapter. not answered

Q67. Tell us why and how we can improve this chapter.
not answered

Q68. **Te Muri** What is your opinion on our intentions for managing Te Muri? See the park chapter. not answered

Q69. Tell us why and how we can improve this chapter.
not answered

Q70. **Te Rau Pūriri** What is your opinion on our intentions for managing Te Rau Pūriri? See the park chapter. not answered

Q71. Tell us why and how we can improve this chapter.
not answered

Q72. WaharauWhat is your opinion on our intentions for managing Waharau? See the park chapter. not answered

Q73. Tell us why and how we can improve this chapter.

not answered

Q74. Waitākere RangesWhat is your opinion on our intentions for managing Waitākere Ranges? See the park chapter. not answered

Q75. Tell us why and how we can improve this chapter.

not answered

Q76. WaitawaWhat is your opinion on our intentions for managing Waitawa? See the park chapter. not answered

Q77. Tell us why and how we can improve this chapter.

not answered

Q78. WenderholmWhat is your opinion on our intentions for managing Wenderholm? See the park chapter. not answered

Q79. Tell us why and how we can improve this chapter.

not answered

Q80. WhakanewhaWhat is your opinion on our intentions for managing Whakanewha? See the park chapter. not answered

Q81. Tell us why and how we can improve this chapter.

not answered

Q82. WhakatiwaiWhat is your opinion on our intentions for managing Whakatiwai? See the park chapter. not answered

Q83. Tell us why and how we can improve this chapter.

not answered

Q84. Do you have any other comments on, or think anything else should be included in, the draft plan?

The establishment of a nursery locally eco sourcing the seed and or progeny of those endangered coastal plants needs to be established with funding help and instigation from council staff as soon as possible. This is critical so that those plants can be preserved and it is important that the locally Occuring species are reestablished from the correct genetic source planted out in the park . I think it is important that the rehabilitation of the eutrophic state of Pakiri river be a priority as the crazing and lack of fencing is contributing heavily to the degradation of the water way which impacts the coast and obviously the regional park ecology .Pakiri River not only would be a thriving habitat for aquatic fish and insects but also supports many bird species including visiting royal spoonbills as well as grey heron and bittern for example -this river is part of the amenity for accessing the park to the north and the lower reaches provide recreation opportunities for park visitors . I support the Pakiri Community Submission tendered by Professor Boyd Swinburn

Q85. Do you want to speak to your submission? Yes

Q86. Overall, how satisfied or dissatisfied were you with your experience of submitting feedback? 4

Q87. How can we improve the process of submitting feedback to Auckland Council?

not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

Danger of handover to proposed unelected authority

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Better track maintenance

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) not answered

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans? not answered

Q9. Tell us why and how we can improve this section.

not answered

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

not answered

Q11. Tell us why and how we can improve this section.

not answered

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

not answered

Q13. Tell us why and what is most important to you about our farmed areas.

not answered

Q14. Vehicles on Muriwai beachThe council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. What changes, if any, would you like to see to this section?

not answered

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.

not answered

Q17. Shakespear: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.

not answered

Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).

not answered

Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.

not answered

Q20. **Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.** not answered

Q21. **What changes, if any, would you like us to make to the draft plan about dogs?**

not answered

Q22. **The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?** Support

Q23. **Tell us why and how we can improve this section.**

not answered

Q24. **Do you want to comment on any other aspect of the general policies?** No

Q25. **Provide your comment/s.**

not answered

Q26. **Do you want to comment on any of the regional park chapters?** No

Q27. **Which regional parks you would like to comment on?** not answered

Q28. **Ambury Regional Park**What is your opinion on our intentions for managing Ambury? See the park chapter. not answered

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

I wish to object to the plan for yet more infrastructure at Piha. There are already far too many signs at Piha. Many of them are anxiety inducing and people ignore them when there are clusters in excess. The signs around the effluent field are a case in point. I have stood on the eel bridge and asked visitors if they knew the difference between effluent and affluent. Most do not, and the signs have not been read in any case. As to yet more tarsealed car parks what about runoff in extreme weather events. As it stands, Glen Esk has experienced 3 one in one hundred flood events since 2018. The road down the hill is in atrocious condition with current traffic volumes. A shuttle bus service would be a better alternative to yet more traffic. This could apply to the school buses too. Instead of three buses making 30 trips a week, with very few students on board at base of the hill, pool the students onto one bus. This makes much sense environmentally as well as reducing the damage heavy vehicles do to the road. People come to enjoy the natural genius of the place. What is proposed is parasitical tourism which degrades the experience. Please keep Piha as 1a. Yours faithfully, Geraldene Gillies. Piha resident. Sent from my iPad

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Do not support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

Leave as natural as possible

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges

Q6. Accessing tracks in the Waitākere Ranges We propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapter and Appendix 4. What is your opinion of our proposed principles and criteria? not answered

Q7. Tell us why and how we can improve this section.

not answered

Q8. **Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?**

not answered

Q9. **Tell us why and how we can improve this section.**

not answered

Q10. **We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?**

not answered

Q11. **Tell us why and how we can improve this section.**

not answered

Q12. **We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?**

not answered

Q13. **Tell us why and what is most important to you about our farmed areas.**

not answered

Q14. **Vehicles on Muriwai beach**The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

not answered

Q15. **What changes, if any, would you like to see to this section?**

not answered

Q16. **Long Bay: a potential space for a dog exercise area in the northern part of the park.**

not answered

Q17. Shakespeare: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	not answered
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	not answered
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	not answered
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	not answered
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	not answered
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	Do not support
Q23. Tell us why and how we can improve this section.	not answered
Q24. Do you want to comment on any other aspect of the general policies?	No
Q25. Provide your comment/s.	not answered
Q26. Do you want to comment on any of the regional park chapters?	No
Q27. Which regional parks you would like to comment on?	not answered
Q28. Ambury Regional Park What is your opinion on our intentions for managing Ambury? See the park chapter.	not answered
Q29. Tell us why and how we can improve this chapter.	not answered

Q30. **Ātiu Creek** What is your opinion on our intentions for managing Ātiu Creek? See the park chapter. not answered

Q31. Tell us why and how we can improve this chapter.
not answered

Q32. **Āwhitu** What is your opinion on our intentions for managing Āwhitu? See the park chapter. not answered

Q33. Tell us why and how we can improve this chapter.
not answered

Q34. **Duder** What is your opinion on our intentions for managing Duder? See the park chapter. not answered

Q35. Tell us why and how we can improve this chapter.
not answered

Q36. **Glenfern Sanctuary** What is your opinion on our intentions for managing Glenfern Sanctuary? See the park chapter. not answered

Q37. Tell us why and how we can improve this chapter.
not answered

Q38. **Hūnua Ranges** What is your opinion on our intentions for managing Hūnua Ranges? See the park chapter. not answered

Q39. Tell us why and how we can improve this chapter.
not answered

Q40. **Long Bay** What is your opinion on our intentions for managing Long Bay? See the park chapter. not answered

Q41. Tell us why and how we can improve this chapter.
not answered

Q42. **Mahurangi East** What is your opinion on our intentions for managing Mahurangi East? See the park chapter. not answered

Q43. Tell us why and how we can improve this chapter.
not answered

Q44. **Mahurangi West** What is your opinion on our intentions for managing Mahurangi West? See the park chapter. not answered

Q45. **Tell us why and how we can improve this chapter.**

not answered

Q46. **Motukorea / Browns Island** What is your opinion on our intentions for managing Motukorea / Browns Island? See the park chapter. not answered

Q47. **Tell us why and how we can improve this chapter.**

not answered

Q48. **Muriwai** What is your opinion on our intentions for managing Muriwai? See the park chapter. not answered

Q49. **Tell us why and how we can improve this chapter.**

not answered

Q50. **Ōmana** What is your opinion on our intentions for managing Ōmana? See the park chapter. not answered

Q51. **Tell us why and how we can improve this chapter.**

not answered

Q52. **Ōrere Point** What is your opinion on our intentions for managing Ōrere Point? See the park chapter. not answered

Q53. **Tell us why and how we can improve this chapter.**

not answered

Q54. **Pakiri** What is your opinion on our intentions for managing Pakiri? See the park chapter. not answered

Q55. **Tell us why and how we can improve this chapter.**

not answered

Q56. **Scandrett** What is your opinion on our intentions for managing Scandrett? See the park chapter. not answered

Q57. **Tell us why and how we can improve this chapter.**

not answered

Q58. **Shakespear** What is your opinion on our intentions for managing Shakespear? See the park chapter. not answered

Q59. Tell us why and how we can improve this chapter.

not answered

Q60. **Tāpapakanga** What is your opinion on our intentions for managing Tāpapakanga? See the park chapter. not answered

Q61. Tell us why and how we can improve this chapter.

not answered

Q62. **Tāwharanui** What is your opinion on our intentions for managing Tāwharanui? See the park chapter. not answered

Q63. Tell us why and how we can improve this chapter.

not answered

Q64. **Tawhitokino** What is your opinion on our intentions for managing Tawhitokino? See the park chapter. not answered

Q65. Tell us why and how we can improve this chapter.

not answered

Q66. **Te Ārai** What is your opinion on our intentions for managing Te Ārai? See the park chapter. not answered

Q67. Tell us why and how we can improve this chapter.

not answered

Q68. **Te Muri** What is your opinion on our intentions for managing Te Muri? See the park chapter. not answered

Q69. Tell us why and how we can improve this chapter.

not answered

Q70. **Te Rau Pūriri** What is your opinion on our intentions for managing Te Rau Pūriri? See the park chapter. not answered

Q71. Tell us why and how we can improve this chapter.

not answered

Q72. **Waharau** What is your opinion on our intentions for managing Waharau? See the park chapter. not answered

Q73. Tell us why and how we can improve this chapter.

not answered

Q74. Waitākere Ranges What is your opinion on our intentions for managing Waitākere Ranges? See the park chapter.

not answered

Q75. Tell us why and how we can improve this chapter.

not answered

Q76. Waitawa What is your opinion on our intentions for managing Waitawa? See the park chapter.

not answered

Q77. Tell us why and how we can improve this chapter.

not answered

Q78. Wenderholm What is your opinion on our intentions for managing Wenderholm? See the park chapter.

not answered

Q79. Tell us why and how we can improve this chapter.

not answered

Q80. Whakanewha What is your opinion on our intentions for managing Whakanewha? See the park chapter.

not answered

Q81. Tell us why and how we can improve this chapter.

not answered

Q82. Whakatīwai What is your opinion on our intentions for managing Whakatīwai? See the park chapter.

not answered

Q83. Tell us why and how we can improve this chapter.

not answered

Q84. Do you have any other comments on, or think anything else should be included in, the draft plan?

not answered

Q85. Do you want to speak to your submission? No

No

Q86. Overall, how satisfied or dissatisfied were you with your experience of submitting feedback? 1 - Very dissatisfied

1 - Very dissatisfied

Q87. How can we improve the process of submitting feedback to Auckland Council?

I have sent a letter that outlines my concerns. Historically, I have attended meetings and council consultation tents set up at Piha. Never have I received feedback as to the response of submitted parties. My conclusion is that consultation is really the council informing Piha residents of what they are going to do. Rarely are either the community response or even the Piha Residents and Ratepayers Association submissions adhered to. This form is a complicated tick box exercise which the council will ignore if the respondent objects to the proposal.

Q1. The draft plan proposes to continue to protect the natural and cultural heritage of the regional parks, while providing opportunities for all to enjoy them. Overall, what is your opinion of the direction of the draft regional parks management plan? Do not support

Q2. Tell us why

I believe the plan changes the fundamental access to the remote areas of the park , removing a rare Wilderness experience that used to be accessible and Concentrating human activities on to a highly developed and Commercialised great walk at the expense of other users who seek a less developed trail experience , I do not believe a Highly developed Commercialised great walk was ever intended at the Parks inception .

Q3. The draft plan promotes making the regional parks more accessible and welcoming to Auckland's diverse communities. See chapter 11 (Providing for a range of recreational uses) and relevant park chapters. What is your opinion of this intention? Do not support

Q4. What changes, if any, do you expect to see to make regional parks more welcoming?

I would like to see all the original tracks (now closed or planned for permanent closure) re opened and access without cost to all whether that be Groups like the Scouts and Guides , local and international visitors ,

Q5. The draft plan provides proposals on topics that drew many suggestions in our first consultation round. Which of these topics would you like to comment on? (All sections are optional.) Accessing tracks in the Waitākere Ranges
Responding to the climate emergency
Vehicles on Muriwai beach
Dogs in regional parks

Q6. Accessing tracks in the Waitākere RangesWe propose principles and criteria to guide track development. We propose to use these to assess which tracks to reopen and where to develop future track. See chapter 11 (Tracks), the Waitākere Ranges chapterand Appendix 4. What is your opinion of our proposed principles and criteria? Do not support

Q7. Tell us why and how we can improve this section.

I think the Tracks were closed without sufficient scientific study as to the extent , and spread of Kauri dieback and true effect of Kauri dieback (if any) on the forest taken as a whole and including kauri regeneration .

Q8. Responding to the climate emergency In addition to protecting important biodiversity habitat for 35,000ha of established forest, we plan to plant another 200ha in permanent indigenous forest to help absorb carbon from the atmosphere. See chapter 9 (Embedding our response to climate change) and chapter 7 (Restoring indigenous ecosystems). What is your opinion of these plans?

Support

Q9. Tell us why and how we can improve this section.

I support protecting the biodiversity of the forest and replanting and adding to the forest area to assist carbon absorption

Q10. We propose to reduce visitor vehicle emissions by improving and promoting public transport, cycling and walking connections to regional parks, and by considering installing electric vehicle (EV) charging stations for bikes and vehicles. See chapter 9 (Sustainable access). What is your opinion of these proposals?

Support

Q11. Tell us why and how we can improve this section.

It is clear the EVs will replace Fossil fueled vehicles and along with e bikes and improved cycle ways leading to the Park access points , any work promoting and creating access for clean public and private transport to and from the park will be beneficial

Q12. We propose to review farming with the potential to plant more trees to support our climate goals. See chapter 10 (Pastoral management). What is your opinion about farming on regional parks?

Reduce farming

Q13. Tell us why and what is most important to you about our farmed areas.

I do not think Commercial farming should be conducted in the Park , I have no problem and educational farms for Schools , clubs and visitors to experience and participate with farming activities

Q14. Vehicles on Muriwai beach
The council consulted recently and made decisions to manage vehicles on Muriwai beach. The draft plan outlines the council's decisions to introduce some further controls on access and to continue monitoring the situation. See the Muriwai chapter. What is your opinion of the approach outlined in the draft plan?

Support

Q15. What changes, if any, would you like to see to this section?

I do not agree with vehicles on beaches

Q16. Long Bay: a potential space for a dog exercise area in the northern part of the park.

Support

Q17. Shakespeare: investigation of dog use of a large flat grassed area outside the sanctuary between Army Bay and Okoromai Bay near a dog walking track.	Support
Q18. Te Ārai: that dogs be banned from the park (allowed currently at Te Ārai Point).	not answered
Q19. Waitākere Ranges: that other dog walking options be investigated in the wider Waitākere Ranges Heritage Area to alleviate the high numbers at the popular Kakamatua area.	Support
Q20. Hūnua Ranges: prohibit dogs in the Kōkako Management Zone.	Support
Q21. What changes, if any, would you like us to make to the draft plan about dogs?	
So long as the welfare of birds and bird breeding sites are protected and excluded for dog access that greater provisions should be made for dog walking	
Q22. The draft plan is ambitious, and our ambitions are not fully funded. We propose criteria for prioritising our spending and planning for development in parks. See chapter 14 (Implementing) and chapter 4 (Spatial planning). What is your opinion on our proposed criteria to prioritise projects?	Do not support
Q23. Tell us why and how we can improve this section.	
I do not agree with the development of the park , I believe the recent expenditure on installing Timber walkways and bridges on the Hillary trail using funds from the Environmental levy grossly exceeded the intent of that Levy , and the Council are proceeding with the development of the Hillary trail great walk in advance of the Consultation process and the inclusion of this work in the Park management Plan .	
Q24. Do you want to comment on any other aspect of the general policies?	Yes
Q25. Provide your comment/s.	
I am for wider Access to the Park and subject to the findings of the peer reviewed scientific survey on Kauri Dieback would like to see expansion of shared use trails as works in the redwood forest where walkers, hikers,runners and mountain bikers all enjoy the Forest trails . I do not think the RPMP should conclude before the Kauri Dieback scientific survey plan is finished and peer reviewed . I lost all respect for the Council when they enacted the Park closure without any reasonable Scientific survey which may be finally forthcoming now years after the closure	
Q26. Do you want to comment on any of the regional park chapters?	No
Q27. Which regional parks you would like to comment on?	not answered

Q28. **Ambury Regional Park**What is your opinion on our intentions for managing Ambury? See the park chapter. not answered

Q29. **Tell us why and how we can improve this chapter.**
not answered

Q30. **Ātiu Creek**What is your opinion on our intentions for managing Ātiu Creek? See the park chapter. not answered
