### **COMMISSIONERS**

<b>Chairperson</b>	<b>Kitt Littlejohn</b>
<b>Commissioners</b>	<b>David Hill</b>
	<b>Richard Blakey</b>

**Bevan Donovan**  
**HEARINGS ADVISOR**

Telephone: 09 890 8056 or 021 325 837  
Email: [bevan.donovan@aucklandcouncil.govt.nz](mailto:bevan.donovan@aucklandcouncil.govt.nz)

## **WHAT HAPPENS AT A HEARING**

At the start of the hearing, the Chairperson will introduce the commissioners and council staff and will briefly outline the procedure. The Chairperson may then call upon the parties present to introduce themselves to the panel. The Chairperson is addressed as Mr Chairman or Madam Chair.

Any party intending to give written or spoken evidence in Māori or speak in sign language should advise the hearings advisor at least five working days before the hearing so that a qualified interpreter can be provided.

Catering is not provided at the hearing. Please note that the hearing may be audio recorded.

### **Scheduling submitters to be heard**

A timetable will be prepared approximately one week before the hearing for all submitters who have returned their hearing appearance form. Please note that during the course of the hearing changing circumstances may mean the proposed timetable is delayed or brought forward. Submitters wishing to be heard are requested to ensure they are available to attend the hearing and present their evidence when required. The hearings advisor will advise submitters of any changes to the timetable at the earliest possible opportunity.

### **The Hearing Procedure**

The usual hearing procedure is:

- The applicant will be called upon to present his/her case. The applicant may be represented by legal counsel or consultants and may call witnesses in support of the application. After the applicant has presented his/her case, members of the hearing panel may ask questions to clarify the information presented.
- The relevant local board may wish to present comments. These comments do not constitute a submission however the Local Government Act allows the local board to make the interests and preferences of the people in its area known to the hearing panel. If present, the local board will speak between the applicant and any submitters.
- Submitters (for and against the application) are then called upon to speak. Submitters may also be represented by legal counsel or consultants and may call witnesses on their behalf. The hearing panel may then question each speaker. The council officer's report will identify any submissions received outside of the submission period. At the hearing, late submitters may be asked to address the panel on why their submission should be accepted. Late submitters can speak only if the hearing panel accepts the late submission.
- Should you wish to present written information (evidence) in support of your application or your submission please ensure you provide the number of copies indicated in the notification letter.
- Only members of the hearing panel can ask questions about submissions or evidence. Attendees may suggest questions for the panel to ask but it does not have to ask them. No cross-examination - either by the applicant or by those who have lodged submissions – is permitted at the hearing.
- After the applicant and submitters have presented their cases, the chairperson may call upon council officers to comment on any matters of fact or clarification.
- When those who have lodged submissions and wish to be heard have completed their presentations, the applicant or his/her representative has the right to summarise the application and reply to matters raised by submitters. Hearing panel members may further question the applicant at this stage.
- The chairperson then generally closes the hearing and the applicant, submitters and their representatives leave the room. The hearing panel will then deliberate "in committee" and make its decision.
- Decisions are usually available within 15 working days of the hearing.

Auckland 1024

### Submission details

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**

To hold up to 6 concerts at Eden Park over a 12 month period

### What are the reasons for your submission?

Concerts at other stadiums cause no problem, even those close to residential areas

Eden Park already holds activities that go into the evening

Financially it would enable Eden Park to remain self funding rather than become a burden on tax payers

### What decisions and amendments would you like the council to make?

No support the application in full.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** No

**If other people make a similar submission I will consider making a joint case with them at the hearing:** No

**Specify the aspects of the application you are submitting on:**  
Concerts at Eden Park

### What are the reasons for your submission?

"The stadium is a community asset and I want the stadium to be used. I'm okay with a little bit of action, a little bit of noise. I don't want to sit at home in silence, I want to live in a city where things are happening. I want mates to park on my lawn and drop in for a chat before they go. I want something to talk about at work the next day. I want shared experiences. I want life in my neighbourhood. And sometimes life is loud" Many thanks to Toby Morris.

### What decisions and amendments would you like the council to make?

Approve the application as is.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission? Yes**

**If other people make a similar submission I will consider making a joint case with them at the hearing: Yes**

### Submission details

**This submission:** supports the application in whole or in part

### Specify the aspects of the application you are submitting on:

Use of Eden Park as a fully functioning entertainment centre

### What are the reasons for your submission?

Eden Park has proven itself many times over to be the 100% professional provider of bums on seats entertainment. The facility has the potential to be the centre of excellence for all functions including concerts

### What decisions and amendments would you like the council to make?

Give Eden Park management the go ahead to hold concerts. There will be strict guidelines based on learnings from other inner city events locations to ensure Eden Park delivers world class entertainment as it has done with 2 very successful Rugby World Cups. I want the council to appreciate the people need a safe, local venue to enjoy themselves and be given the greatest experiences possible. Which is what Eden Park management will deliver if they are given a chance.

**Specify the aspects of the application you are submitting on:**

Providing a resource consent for Allowing Eden Park to hold 6+ major events outside of sporting

**What are the reasons for your submission?**

Eden Park is an asset paid for by the people of Auckland and though the government contribution, All New Zealanders. It is struggling financially due to the constraints imposed upon it around its operating capability. The residents who oppose have a right but not the right to deny the entire city nor to cause the insolvency of Eden Park.

**What decisions and amendments would you like the council to make?**

Let Eden Park have the right to hold any major events it wishes, without restriction by the council.

### Specify the aspects of the application you are submitting on:

I am supporting the proposal to allow concerts to be permitted at Eden Park.

### What are the reasons for your submission?

Eden Park is hugely under-utilised, but high quality asset. It has the infrastructure (hospitality, transport) in the near area to support this activity already. I understand noise and possibly anti social behaviour may occur but there is a greater need for both ratepayers and visitors to Auckland

### What decisions and amendments would you like the council to make?

To allow six concerts

### Submission details

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**

I support the application in full

### What are the reasons for your submission?

Ridiculous that Eden Park isn't utilised to it's full potential, as a venue it's well supported by public transport making it a safer environment for younger patrons. Good economic injection for local business's. The larger events are well managed already with little or no negative impact locally.

### What decisions and amendments would you like the council to make?

Allow the six events to happen with prior approval.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** No

**If other people make a similar submission I will consider making a joint case with them at the hearing:** Yes

### Submission details

**This submission:** supports the application in whole or in part

### Specify the aspects of the application you are submitting on:

I am submitting particularly on aspects of what impact (if any) the applicants submission will have on local residents and my own experience of events at Eden Park.

### What are the reasons for your submission?

I want Eden Park to be able to exercise the option to hold concerts as agreed under the Unitary Plan released by the Auckland Council and I want the resource consent for concerts to be granted.

### What decisions and amendments would you like the council to make?

I want the Council to grant the resource consent Eden Park is seeking. I also believe the Council's process for allowing Eden Park to gain consent is onerous and costly and should be standardised to allow the Park an easier path to consent. The Council has granted Eden Park a number of concerts under the Unitary Plan. The complexity, cost and time required for granting a consent makes the allowance provided in the plan to be almost meaningless.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** No

### Submission details

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**  
Eden Park being able to host concerts.

### What are the reasons for your submission?

As a neighbour of Eden Park, I fully support them being able to hold concert events there without having to go through the rigmarole and vast expense of applying for resource consent per event. The area is a fun and vibrant place when sporting events are there and it also helps local businesses greatly. It's a wonderful stadium that needs to be utilised more often!

### What decisions and amendments would you like the council to make?

The correct decision, to let Eden Park hold up to 6 concerts per year.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** No

### Submission details

**This submission:** supports the application in whole or in part

### Specify the aspects of the application you are submitting on:

Those opposed to having concerts at Eden Park do not represent the widespread view of the local community or of Aucklanders generally. We should have the opportunity to see people like Elton John at a decent stadium. Mt Smart is an awful facility, it is not well maintained and it is not safe - I have been there when they padlock gates shut with no-one present to open those gates in the event of an emergency evacuation. This is a terrible indictment on Auckland Council's ability to competently manage stadiums.

### What are the reasons for your submission?

I would like to see major music and entertainment acts in a decent stadium with good clean facilities, good security and decent transport links. The transport links to Eden Park are now excellent, especially in relation to egress. At Mt Smart the egress is much more limited. All my friends living close to Eden Park are keen to see concerts there.

### What decisions and amendments would you like the council to make?

Stop allowing one or two voices to prevent thousands of Aucklanders from enjoying potential great entertainment events at Eden Park.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission? Yes**

### Submission details

**This submission:** supports the application in whole or in part

### Specify the aspects of the application you are submitting on:

I support the granting of resource consent for Eden Park to have a set number concerts

### What are the reasons for your submission?

1. I live in the neighbourhood and think it would be great to have these over a limited number of nights
2. I am a rate payer and we need to get Eden Park to pay for itself - versus being bailed out / financed by rate payer dollars by council
3. I am over the council being dictated by a small and vocal minority that are NIMBY driven. Stop putting in barriers (such as massive legal costs to get things approved) to allow these to occur. The voice of DOnnelly and Helen Clarke can be listened to but shouldn't be followed when the majority disagree (per the last submission)

### What decisions and amendments would you like the council to make?

Award consent.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

### Submission details

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**

I wholeheartedly support the whole application.

**What are the reasons for your submission?**

I believe that music events at Eden Park would benefit the local suburbs and the greater Auckland Area. Concerts closer to the city centre would allow concert goers to enjoy Auckland's night life before and after the concert. Further to this it seems a huge waste of a resource to not be using it more often

**What decisions and amendments would you like the council to make?**

I would like the council to support the submission in full.

All aspects

### What are the reasons for your submission?

I have worked and supplied products into the Live Events Industry since 2002 and feel passionate about the impact music and cultural events have and I understand the positive impact events bring to towns and cities across the Globe. I don't see any potentially negative impact for the venues, only positive. The financial impact is enormous and felt across a wide demographic from airlines, hotels, restaurants and taxis, with that brings excitement, conversation, memories and not to mention increased revenues for all involved.

### What decisions and amendments would you like the council to make?

None, it is clear the proposal has been well thought through and no doubt the Management has the ability to execute on the plan

### Submission details

**This submission:** supports the application in whole or in part

### Specify the aspects of the application you are submitting on:

I support Eden Park's application to hold up to 6 concerts throughout the year.

### What are the reasons for your submission?

I think it's vital for our city (and New Zealand) to attract world-class events and be able to host and run quality events. I believe it's important for Auckland, and the country's, economic, as well as cultural growth. As somebody who lives in the Eden Park neighborhood, I find the vibrancy events at the venue bring as something I want to get my young family involved with.

### What decisions and amendments would you like the council to make?

I'd like to see the council support the application.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

### Specify the aspects of the application you are submitting on:

Eden park should be allowed to have a late night event once per week. It's a stadium. If you didn't like it you would choose to live next to a stadium

### What are the reasons for your submission?

I love Eden park and the events it holds. It is a special part of NZ history and that shouldn't be dictated by the few when the many choose to enjoy it

### What decisions and amendments would you like the council to make?

To grant the application for Eden park to host these events so we can continue Aucklands rich history at Eden Park and a few houses around the stadium don't dictate what Aucklands history is

### Specify the aspects of the application you are submitting on:

I am happy to support Eden Park hosting up to 6 concerts a year on top of its sporting obligations. It is a great venue, used to hosting events and doesn't get used enough.

### What are the reasons for your submission?

I think that the venue is not utilized enough, the neighborhood is used to hosting events, there is not enough good venues in Auckland at the moment and that we don't need to waste council money on building a new music venue.

### What decisions and amendments would you like the council to make?

That Eden Park as an existing venue should be utilized more often. The impact on the neighborhood would not be too dramatic given that it is already used to hosting events.

### Specify the aspects of the application you are submitting on:

I support the use of Eden park for concerts, 6 or more per year and increased use of the stadium

### What are the reasons for your submission?

It makes sense to make better use of the resource, rather than have it sit idle. If eden park is financially viable then that is better for Auckland city.

### What decisions and amendments would you like the council to make?

I would like the council to support eden parks application for holding concerts without having to apply for resource consent for each one

### Submission details

**This submission:** supports the application in whole or in part

#### Specify the aspects of the application you are submitting on:

I'm supportive on Eden Park having flexibility to organise concerts at their venue, without needing to organise a specific RC application

#### What are the reasons for your submission?

#### What decisions and amendments would you like the council to make?

I would be great if the council consent Eden Park to hold concerts, I don't understand why it hasn't, while Western Springs, which is also in a residential area, although less convenient to public transport, continues to stage events?!? Auckland Council need to let the music play at Eden Park!

### Submission details

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**  
I'm fully supportive of the submission to hold concerts.

### What are the reasons for your submission?

I live a stones throw from Eden Park and having concerts would be great for the vibrancy of the neighborhood. There is no negative that I can think of.  
The Stadium needs to be used and concerts are a perfect way to fill in the gaps in between lull periods of sport.

**What decisions and amendments would you like the council to make?**  
Please vote to allow Eden Park to have concerts (6 of them).

Fully support the application to use Eden Park for concerts

### What are the reasons for your submission?

It's crazy not to use Eden Park for these types of activities.

Neighbours who oppose the application knew they were buying a house next to NZ's national stadium. Reverse sensitivity should not be justification for denying Eden Park the right to hold concerts.

### What decisions and amendments would you like the council to make?

Approve the resource consent application

### Specify the aspects of the application you are submitting on:

Allow concerts at Eden Park within the allocated number without having to apply for separate resource consent for each concert within the pre approved quota.

### What are the reasons for your submission?

Eden park is under utilised, closer to central Auckland than Mt Smart, better served by public transport and a much better facility in which to host a concert including disabled access and seating that is far superior to Mt Smart. The handful of opponents, local residents, have purchased their properties fully aware that there is a stadium nearby. The 6 additional concerts each year is a tiny imposition and benefits a great number of people.

### What decisions and amendments would you like the council to make?

To approve , without the requirement for separate resource consent for each concert, the holding of 6 concerts ( day or night) in any calendar year.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** No

### Submission details

**This submission:** supports the application in whole or in part

### Specify the aspects of the application you are submitting on:

The ability to hold the agreed 6 concerts per year without requiring individual consent and the ability to apply for more concerts as required

### What are the reasons for your submission?

I lived near Eden Park in Sandringham Road for 11 years. I was fully aware of what that might mean on game days. I never once had any problems that were not resolvable in minutes. I enjoyed the buzz. My friends enjoyed my access to the park. I would be delighted to still live there and get 6 "free" concerts per annum as the music drifted towards my old house.

### What decisions and amendments would you like the council to make?

Change the requirement to get new permission, with all accompanying red tape, every time for the agreed 6 concerts

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** No

If other people make a similar submission I will consider making a joint case with them at the hearing: No

### Submission details

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**  
Existing use rights

**What are the reasons for your submission?**  
Eden park is an Auckland icon

The park has been there longer than the neighbours  
The neighbours all knew if waS there when they acquired their property and Eden park enjoys prescriptive rights that it has been there for its duration

Eden park enjoys historical existing use rights

Auckland needs this venue As it already enjoys this asset and it a shame to go under utilised

The costs and consenting of another venue within the central area of the city are a waste of money and to lay this property to waste would create a carbon footprint elsewhere is ignorance

Eden park simply will not financially survive without more use and that is the reality

1212

I've have seen too many events already leave this city because nobody wants the disruption

Aucklanders are pack of cry babies  
Don't want the Auckland marathon

Didn't want the street car races that went to Hamilton

Don't want the America cup

What next stop the greatest fun run in the world so cancel round the bays and let those inconvenienced people have a nice day .!!!

**What decisions and amendments would you like the council to make?**

Support the application it is in context a very mild ask

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

### Submission details

**This submission:** supports the application in whole or in part

### Specify the aspects of the application you are submitting on:

The right to hold up to 6 events per year without having to apply for a separate consent for each event

### What are the reasons for your submission?

The present situation requiring separate consents for each event effectively bans such events from taking place. The original consent meant that such events were and are considered desirable. Polls consistently show the opponents to such events are a very small minority of residents living close to the park

### What decisions and amendments would you like the council to make?

Allow one consent to permit up to 6 events to take place per year.

### Submission details

### Specify the aspects of the application you are submitting on:

As a local Sandringham resident I am supportive of Eden Park's request to be able to host concerts as well as sporting events.

The accessibility (both in terms of location and public transport) and quality of the facilities far exceeds other options in Auckland, including: Western Springs, Mt Smart, and North Harbour Stadium.

The impact on surrounding roads and transport options (which personally affects my commute) can easily be mitigated through advance notice and appropriate traffic management planning.

### What are the reasons for your submission?

Eden Park is an important strategic asset for Auckland and its communities. It would be great to get the most out of this asset through increased utilisation across a broader spectrum of cultural activities.

### What decisions and amendments would you like the council to make?

Approve the application.

Mt Albert  
Auckland 1025

### Submission details

**This submission:** opposes the application in whole or in part

### Specify the aspects of the application you are submitting on:

The stadium's six-concerts-a-year proposal.

### What are the reasons for your submission?

There are enough issues with parking/ spectators and alcohol abuse with the current sporting events without adding to them with concerts.

### What decisions and amendments would you like the council to make?

I would like the council to reject the proposal for the stadium to have 6 concerts a year.

At the very least the stadium should have to apply individually for each concert as a discretionary activity.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** No

**If other people make a similar submission I will consider making a joint case with them at the hearing.** Yes

### Submission details

**This submission:** opposes the application in whole or in part

### Specify the aspects of the application you are submitting on:

Intrusive noise during concert. Noise and traffic disruption during setting up and rehearsals/sound checks in days preceding concert, plus pack out during the night after the concert. Low frequency vibration over a period of time and possible fireworks, gunfire, military sound effects. Traffic management for mid-week concerts clashing with peak hour traffic. Different crowd behaviours depending on the artist performing.

### What are the reasons for your submission?

I am an elderly (79 yr old) resident living in close proximity to Eden Park. My comfort in my home would be adversely affected by the level of noise requested in the application. I would be unable to have my doors and windows open on hot summer nights when concerts are scheduled and even then the noise would penetrate my house. Additional disruption to my living would be caused by excess traffic and rehearsal noise in the days prior to the concert. I understand that the noise will be distorted outside the ground which would make for a very unpleasant experience in what is a peaceful and traffic free residential area.

### What decisions and amendments would you like the council to make?

I would like the council to reject the application in full.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** No

**If other people make a similar submission I will consider making a joint case with them at the hearing:** Yes

### Submission details

**This submission:** supports the application in whole or in part

#### Specify the aspects of the application you are submitting on:

Eden Park should be able to hold the concerts that it has approval to run, without having to apply for expensive Resource consent approval for each application

#### What are the reasons for your submission?

It is our national stadium. 85% of close residents approve of holding the concerts. If these were held, council would not need to help with load repayments, the stadium would be able to pay for itself.  
The people who moved into the area knew there was stadium there, let them run it as it should be

#### What decisions and amendments would you like the council to make?

Support the blanket resource consent approval being submitted by Eden Park

### Submission details

**This submission:** opposes the application in whole or in part

**Specify the aspects of the application you are submitting on:**

The request to hold concerts. Or any loud late night events.

### What are the reasons for your submission?

As a resident in this neighbourhood, it is clear that Eden Park is not suitable for large scale concerts. The natural geography of the area combined with high density housing makes sound reverberate around the area. Concerts, like U2 i recently attended at Mt Smart, are meant to be loud exciting events. Just doesn't work in high density housing area.

### What decisions and amendments would you like the council to make?

Decline the submission. Build a proper events stadium in the CBD for everyone to use.

### Submission details

### Specify the aspects of the application you are submitting on:

Eden Park should be available for use as a venue for concerts without the restrictive procedure applicants must currently go through to gain consent for a concert to go ahead. The current process seems a deliberate tactic to deter concert organizers which has been successful. This needs to change.

### What are the reasons for your submission?

Eden Park belongs to the people of Auckland and as such should be used to increase the vibrancy of the city. The council should not pander to the voice of a few residents who want to protect their investment. They knew they were moving in next to or near an stadium and should accept the inconvenience that goes with it. Property values are not a reason to stifle a cities vibrancy.

### What decisions and amendments would you like the council to make?

The current restrictive process needs to change to accommodate the concert organisers and to make Eden Park an attractive venue for concerts.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

### Submission details

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**

I am fully supporting concerts being held at Eden Park

### What are the reasons for your submission?

Eden Park has the capacity to hold large number. It is a great venue. The stadium has public transport nearby which is used by high percentage of people attending games currently. The stadium should be used to its fullest potential. A maximum of 6 concerts a year shouldn't inconvenience people. There is plenty of warning and concerts are finished well by 10-11pm. Make use of what we already have In Auckland rather than playing millions for a new stadium which the taxpayers will end up funding. Don't change things that aren't broken.

### What decisions and amendments would you like the council to make?

A positive decision in favour of Eden Park

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** No

### Specify the aspects of the application you are submitting on:

I love everything about Eden Park. It's an amazing place that's so special. As a local resident, I specifically moved into the area to be part of what goes on at the park. It amazes me that there is a very small minority of local residents that don't support the park. They do not represent me, or in my opinion, the vast majority of local residents. I'm an activity member of the community, with my 3 kids having gone through or still at Balmoral Primary. I don't know anyone who does not support all aspects of the park. I can't wait for concerts. It'll be so wonderful to wander down the road to a world class stadium to see a world class act.

### What are the reasons for your submission?

### What decisions and amendments would you like the council to make?

I'd like the council to approve the submission and allow up to 6 concerts a year, but ideally more !

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** Yes

I am submitting on all parts of this application

### What are the reasons for your submission?

Having worked at Eden Park for some time I have seen the effect events have on patrons. To add concerts into the range of events eden park can host, would likely bring substantial amounts of people from around Northland and the Waikato at the least to see artists and bands perform

**What decisions and amendments would you like the council to make?**

None at all.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

### Submission details

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**

Music or large non sporting events should happen at Eden Park

### What are the reasons for your submission?

I used to live on Reimers Ave and I think Eden Park is under utilised. When there are events there the atmosphere in the neighborhood is fantastic and despite the small amount of inconvenience around parking / access to the area for residents it is great to have public events like this happening.

### What decisions and amendments would you like the council to make?

Allow a fixed number of concerts or different (to those currently allowed) events at Eden Park each year.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** No

### What are the reasons for your submission?

Eden park needs to remain financially viable. Without increased revenue it will be forced to close and the land used for other purposes. People who live near Eden park do so (and have purchased houses so) in the knowledge that they live close to NZ best stadium. Eden Park is a big part of our community, holding and hosting numerous events that support social engagement and equity.

### What decisions and amendments would you like the council to make?

Allow the concerts and consider allowing more.

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**

I support the use of Eden Park for the six concerts that are proposed for this venue per year.

**What are the reasons for your submission?**

As a local resident of Mt Eden, both close Valley Rd in the past and now Shackleton Road, I can only see positives for the extended use of the Eden Park facility for cultural activities. This will add firstly a greater diversity of cultural activities and secondly economic benefits to the local and extended communities of Auckland/NZ.

**What decisions and amendments would you like the council to make?**

Accept all that the Eden Park Trusts submissions for. They have contacted a very professional, consultative and long process in requesting the approval of their submission.

Impact on noise from speakers on community

### What are the reasons for your submission?

Concerns over setting up a large boom box in suburban Auckland and in particular the subsequent impact of noise levels across a suburban neighbourhood. Concern over impact this will have on what today is a relatively quiet residential zone. Impact will be significant. For example, one noise modelling map highlights noise of over 50dB would extend right up to the actual mountain. How many young families live in the affected zone and importantly what impact will this have on sleep patterns / quality of life of young families many of whom live in wooden villas with single glazed windows. Issues would be exacerbated if concerts were held during the week. Imagine the impact on school performance. Also impact of traffic when kids are trying to get home (esp if they use public transport).

### What decisions and amendments would you like the council to make?

I'm opposed to late night concerts which introduce new noise limits which will have a significant quality of life impact on a large area of suburban Auckland. Don't think it has been carefully thought through i.e. short term financial issues so lets set up a large boom box in a suburb. Is that really for the greater good of Auckland?  
Day time concerts are fine as long as noise limits are carefully managed.

To not allow any concerts or any related activity including set up and pack down at all.

### What are the reasons for your submission?

I have been a resident since 2001 and have had to go through the reconstruction of the stadium and now have a view from our northfacing back yard of concrete seating. We were not mitigated for light spill or noise as EP were made as part of the Resource Consent to erect a acoustic barrier. So for 9 years residents have put up with an eyesore, light spillage and noise. Our house is raised and the back living area faces NW towards the stadium so the noise is amplified. They installed vents when they rebuilt the stadium in 2010 and these are at the same level of our house that they turned on in the morning of any event and blast into our back yard all day and often over night as they are often forgotten to be turned off.

2. ACCESS - Since the world cup they have decided it is a great idea to close of our roads. We were told when they started doing this that we, deliveries to our house, taxis to our house and visitors would be permitted in as long as we put our hazard lights on and drove slowly. However in the recent years they stop you at the barriers and refuse residents access to their homes. This is unacceptable and we our friends families and any other persons visiting should be allowed access at all times. People leaving the stadium need to be aware this is a residential area. I have seen irate

residents returning and being told they cannot have access and having to wait for up to 30 minutes. I have even seen residents irate and get out of their cars remove the barriers and drive through. When we purchased our house this was not what we had to do and is unacceptable. Often I need to leave and drop children off and then pick them up later. I need unhindered access. With 6 more concerts this means 6 more nights which will more than likely be weekends that I will not be able to entertain due to the inconvenience.

3. TRAFFIC CONGESTION - makes getting home and getting out of your house very difficult as it produces large volumes of traffic in the area particularly on Dominion Road which is already mayhem especially in rush hour traffic.

3. NOISE - CONCERTS ARE LOUD. Apparently the 45,000 fans will be facing east towards our elevated back yard. We are a particularly quiet neighbourhood with only crickets audible in our back yard at this time of year. AS mentioned we are elevated and at the same level as the near the top of the concrete seats on the east stand. We have complained about noise but Auckland Council only test at street levels on cricket which is well below our house so the readings are very different to what we hear. If we have our doors open in summer we know what has happened before the delayed cover on the TV as the noise is so loud. We can hear Mt Smart Stadium from here so god knows what it would be like if they allowed them at Eden Park. I have been advised that there is no proposed noise limit and no crowd noise has been modeled.

4. Disruption - There will be a 7-8 days setup and late finishes with additional noise in the lead up to the concert for practices.

5. We have lived here for 20 years and did not move here to be next to a concert venue.

6. No point allowing this as the rebuild of the stadium had resource condition of building acoustic barrier and no one has enforced this.

7. Depreciation in the value of our house, who wants to live next to a concert stadium.

8. No correct noise modelling done and no mitigation.

9. They should be ensuring that the owners get the right to object/support concerts not the people that rent houses who come and go.

10. Light Spill into our back yard.

11. No offer of mitigation

**What decisions and amendments would you like the council to make?**

That Eden Park be allowed no concerts at all.

**Specify the aspects of the application you are submitting on:**  
Utilisation of Eden Park venue.

### What are the reasons for your submission?

The Eden Park venue is a significant public asset that is grossly underutilised. When New Zealanders invest in an asset they should ensure that it is utilised so as to provide an adequate return (financial and social) on the investment.

### What decisions and amendments would you like the council to make?

Approve the 6 concerts per year.

#### Specify the aspects of the application you are submitting on:

I am a multi generational proud Aucklander who has had the opportunity to visit Eden Park for cricket and rugby games since I was a child. Now in my mid 40s I have watched the destruction of Carlaw Park, the threat to Western Springs operations and the massive growth of Auckland. Eden Park is an absolute gem with great transport links, bars and restaurants and a history that makes your skin tingle! Concerts at Eden Park will be a natural progression and an obvious choice when faced with the grim bleakness of Mt Smart or the pokiness of Vector/Spark Arena. Bring on the music to Eden Park, more sport, more cultural events and if the few residents don't like it, perhaps they'd like to sell their houses to me and many more that would leap at the chance to live next door to such an iconic venue.

#### What are the reasons for your submission?

#### What decisions and amendments would you like the council to make?

Let the Eden Park Trust have these concerts and cultural events so that they can be self funded into the future and not rely on the Council for bail outs.

### What are the reasons for your submission?

I love living near Eden Park, where Auckland comes to play. The joy on people's faces as they walk our local streets makes me proud, and I love to make them feel welcome.

Eden Park Stadium is a wonderful asset and ideal for concerts. Of course concerts make noise but any artist performing in such a stadium, it's got to be a good noise.

### Submission details

**This submission:** supports the application in whole or in part

### Specify the aspects of the application you are submitting on:

Events should be held at Eden Park as much as possible, including late night concerts

### What are the reasons for your submission?

As a local resident, proximity to Eden Park was a major draw card when buying our property. We would love to see more events held locally, including late concerts, to make use of the fantastic stadium and to boost local businesses in the area.

### What decisions and amendments would you like the council to make?

Grant Eden Park a resource consent for late night and loud events

### Specify the aspects of the application you are submitting on:

Timeframe of the consent - I request consideration of a 3-5 year consent approval with review/ renewal every 3-5 years which takes into account how conditions have been met in the previous term and the changing nature of the neighborhood.

Parking management - experience shows that while signs are put up and traffic flows are managed, enforcement of restrictions / residents parking is not strong or timely.

### What are the reasons for your submission?

Eden Park is actively courting Neighbours/ acting as a good neighbour in preparation for these consents. It hasn't always been that way. A 3-5 year consent term allows longer term planning but also ensure ongoing good practice.

Parking is scarce as this is an older neighborhood close to the city. Having people park across driveways preventing residents from exiting their property severely limits planned activities of residents. Calls to AT can take 20-30 minutes as events generally occur outside business times. Time is also needed for an enforcement agent to get on site.

**What decisions and amendments would you like the council to make?**

Approve the blanket Consent for up to 6 concerts per annum for a limited (renewable) term.

Add a requirement for EP to fund traffic enforcement ; with particular focus on cars blocking driveways or traffic flows ( with an expectation this should be active during the entire concert day event window .

I understand EP does not have enforcement power. By fund I mean enable AT with resources to ensure they have the right staff and partners available to carry out this activity in a timely manner.

### Specify the aspects of the application you are submitting on:

Fully support the application for up to 6 concerts per year! With its central location and easy access to public transport, I believe Eden Park would be ideal for large international acts. Further to that, due to its international fame I believe it could possibly attract more international acts that would otherwise not come here. Which ultimately will add to the not only local but also New Zealand wide economy.

### Specify the aspects of the application you are submitting on:

Supporting application for more than six concerts per annum at Eden Park

### What are the reasons for your submission?

My grand father took me to watch rugby at Eden park in 1956

My grand father took me to Carlaw Park ( planned for Eden Park) to listen to Billy Graham in 1959

My grand father took me to watch the Agfa Games in the 60's

My father took me to Eden Park to watch Plunket shield cricket in the 60/70's

I played rugby on the number one ground in 1969

I took my son to watch the kiwi league team Australia in the 70's

I have attend numerous corporate function at Eden Park over the past thirty years and nobody ever complain about the

noise created

The list of events I have attended at Eden Park could take weeks to collate.

People travelled from afar to Eden Park to attend sporting and cultural events.

Eden Park hasn't moved in the past hundred years.

Eden Park remains a valuable asset for the people of New Zealand.

Only protestors have disrupted events at Eden Park and over the years they have moved on.

Auckland City Councillors, Directors of Eden Park have a responsibility to ensure this most valuable asset is utilised for the benefit of all New Zealanders. If that means a dozen concerts per annum so be it

**What decisions and amendments would you like the council to make?**

Allow concerts to be held between the hours of 8am and 11PM on any day of the week

#### Specify the aspects of the application you are submitting on:

I would love to see Eden Park survive since it is not only a great symbol to NZ , but an icon to the rest of the world.

#### What are the reasons for your submission?

Eden Park needs more public and business events so that it can survive financially. I have lived next to Eden Park and my home of over 20 years is in the middle of the Kingsland business sector, I always love to see businesses do well. We have already lost so many venues for families to enjoy in Auckland due to the few that are selfish, and hence the many suffer. Auckland will slowly become boring, we need to keep it exciting and not remove long term existing venues

#### What decisions and amendments would you like the council to make?

Allow more of all events at Eden Park

That the residential area is not suitable for concert events.

### What are the reasons for your submission?

There is already Mt Smart & Western Springs for outdoor concerts.  
Crowd behaviours at concerts are different to sporting events - namely drug use.

**What decisions and amendments would you like the council to make?**  
Not to allow concerts at all.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

Stage shows at Eden Park

### What are the reasons for your submission?

Eden Park is an iconic venue and is older than any living resident who lives nearby. How can a few locals stop entertainment that the majority want. Not only for locals but all NZ'ers.

### What decisions and amendments would you like the council to make?

I would like the council to show some guts and allow Eden Park to be able to stage 6 outdoor entertainment shows per year at this venue. Not another Western Springs outcome. Embarrassing. NZ is watching.

### Specify the aspects of the application you are submitting on:

I support all aspects of the Proposal, We need Music at Eden park, we need to bring people together, this is our National Stadium, so it should be used as much as possible. It has far better public transport options than alternative Stadiums with Trains from all directions stopping across the road at Kingsland Station. You have to walk huge distances if you choose to use Trains to get to Mt Smart, which isn't viable if you have mobility issues.

### What are the reasons for your submission?

I live out West and getting to Eden Park using public transport is far easier than any alternative Stadium.

### What decisions and amendments would you like the council to make?

Give Eden park more than 6 Concerts a year.

**Specify the aspects of the application you are submitting on:**

Allowing up to 6 concerts in a 12 month period at Eden Park.

**What are the reasons for your submission?**

I think it will be beneficial for the local economy in the long run. We know Eden Park is losing money, so how could this be a bad thing? It will only be affecting the local community in a minor way. Everyone who lives close to Eden Park knew of it's existence and it is one of the biggest venues/stadiums we have.

**What decisions and amendments would you like the council to make?**

I Think they could put even more concerts on if there was a demand.

### Submission details

**This submission:** supports the application in whole or in part

### Specify the aspects of the application you are submitting on:

Supporting the application for resource consent for 6 music events over a 12 month period.

### What are the reasons for your submission?

I think we should utilise our facilities as much as possible and Eden Park seems a great location for a more diverse use other than just sport. Mt Smart Stadium seems to manage the balance between diverse types of events so can't understand why there is an issue using Eden Park for events other than sport. Attendance would be similar, alcohol and food policy would be similar. It's on the train and bus line and is centrally located. 6 events over an entire year does not seem unreasonable and having a resource consent that governs all 6 events seems prudent and cost effective for all concerned.

### What decisions and amendments would you like the council to make?

The council to provide clear guidelines for all 6 events that the promoters/organisers need to adhere to. With a review process after the first event.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission? No**

**If other people make a similar submission I will consider making a joint case with them at the hearing: No**

### Submission details

**This submission:** supports the application in whole or in part

### Specify the aspects of the application you are submitting on:

1. What type of band backup?
2. Neighbours response to quality of music and sound control?
3. How having only 6 bands a year will affect other bands wanting to perform?

### What are the reasons for your submission?

a. Have orchestral backing for each band!

b. If only bands are used without orchestral backing, the instruments that are used by the bands are going to sound like "noisy gonging!" and the community surrounding Eden Park, are going to suffer and they are going to start calling Noise Control! ☐☐☐☐☐☐☐☐☐☐☐☐☐☐☐☐

c. Many other bands here and around the world will want to perform at Eden Park but, having only 6 positions a year, they would rather have orchestral backing than have other bands fill those 6 positions without orchestral backing?! Also, the neighbours surrounding Eden Park would rather hear quality music from bands that have orchestral backing than, have bands that have 4 loud instruments that sound pitchy! ☐☐☐☐☐☐☐☐☐☐

**What decisions and amendments would you like the council to make?**

If only 6 bands are going to play at Eden Park every year, then those Bands should only be allowed to play if, they have quality music backed by orchestras!

If a band doesn't want an orchestra backing them then, other bands who are willing to have orchestral backing, should replace the band that refused to have quality backup and, wouldn't consider neighbours living around Eden Park, knowing that they would rather listen to a band with an orchestra, especially old people, than have to listen to a 4 piece band that blurts out their own, play it by ear, ☐☐☐☐uncontrolled loud noise! ☐☐

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

### What are the reasons for your submission?

Eden Park is a wonderful asset to our neighbourhood and we thoroughly support its activity. We moved into the area (2 streets away from Eden Park) largely BECAUSE Eden Park was there. We go to pretty much everything that it has on and it's a wonderful way to bring our family and community together. It's been great having sport in particular at Eden Park and we would love to see the stadium used for concerts as well. Getting to other concert venues can be problematic and Eden Park's central location would be ideal instead. Eden Park is a fantastic neighbour with excellent communication and interaction and it has a lot of respect for us who live in the surrounding streets.

### What decisions and amendments would you like the council to make?

Support this application in full and maintain Eden Park as the asset it is to our community.

### Submission details

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**  
use of park for 6 concerts per year

**What are the reasons for your submission?**

current situation means facility is underused

Eden Park is very well situated for transport access to events [refer World Cup 2011] and this availability should be maximised

Local residents can accomodate the increased use of the park for a large number of paeople without great inconvenience & this is what the site was developed for

### Submission details

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**  
I totally support the application for concerts at Eden Park

### What are the reasons for your submission?

Even though I am in my mid 70s it is abundantly clear that Auckland needs a venue for Concerts etc which is easily accessible and has good facilities for catering and toilets etc. I won't go to Eden park for football any more as the seats are too far away from the game and spread out crowds don't generate an atmosphere. Sure some people may say that they are disadvantaged as neighbours by concerts. But the facility was there long before they purchased or moved into the area.

### What decisions and amendments would you like the council to make?

1 build a purpose made stadium for football.  
2 approve the use of Eden park for concerts.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

### Submission details

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**

I believe that Eden Park should hold concerts

### What are the reasons for your submission?

There is a grand waste of infrastructure and it's inefficient to not utilise the existing stadium which will bring a huge amount of revenue and traffic to the surrounding suburbs and vendors. So many little restaurants, bars and cafes in Kingsland, Mt Eden and Sandringham that would thrive on the added business

### What decisions and amendments would you like the council to make?

Allow Eden Park to host up to six concerts a year, allow the increase business for locals, allow the economic impact to be positive and huge

My full support for 6 concerts each year

### What are the reasons for your submission?

Eden Park needs to have the ability to be economically viable for the future of test match rugby, big Super rugby matches & one day / T20 cricket in Auckland. 6 concerts a year is not a big imposition on residents, who knew they were buying next to a stadium when they chose to live in the area. The consequence of not making Eden Park work financially is that the area gets sold and redeveloped with high density housing, which will be worse on a daily basis for all residents.

### What decisions and amendments would you like the council to make?

### Submission details

**This submission:** opposes the application in whole or in part

### Specify the aspects of the application you are submitting on:

The application to hold up to six concerts at Eden Park in any 12 month period including all activities to set up and pack down

### What are the reasons for your submission?

The noise will be intrusive and severely impact normal residential amenity

Holding concerts at Eden Park will detrimentally impact property values

The 75dBAL eq limit is unenforceable and 15 minutes average outside the ground is ineffective.

Noise is complex and low frequency vibration will be an issue over a wide area

Finish times and noise levels will be impossible to enforce and any post event fines will not compensate residents for an extra loss of amenity

Concerts are not just one afternoon or evening. Set up can take several days and will disrupt an already busy suburb even further. Pack down the same

The possibility of Military Tattoo's adds another noise dimension; mock battles, gun salutes, fly bys, helicopter maneuvers etc will be startling and frightening to people, pets and wild life

Weekday concert starts will clash with peak evening traffic flow. Dominion Rd and Sandringham Rd's are already single laned and at a standstill from 1700-1900 every week night

Egress of crowds will be noisy and potentially threatening and once again impact normal residential amenity

**What decisions and amendments would you like the council to make?**

Decline the application and protect a residential neighbourhood from further loss of amenity.

The surveys run by Eden Park have not been honestly calibrated and have engaged with people outside the immediate area who will not be adversely affected by concerts at Eden Park.

There is no proven need for additional outdoor concert venues and granting the application will not only penalise local residents through loss of amenity and possible house value it will penalise other existing venues including Council operated venues by reducing their opportunities

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** Yes

**If other people make a similar submission I will consider making a joint case with them at the hearing:** Yes

I would like to support the submission because Eden Park has it best located stadium in Auckland it is very accessible to public transport, walking distance to the city hotels & Motels.  
This venue and its operator have proved themselves, they can handle "BIG " events it would be very woak not to allow concerts at NZ's best stadium.

### What are the reasons for your submission?

Eden Park is underused and a great venue. The public transport links are great, and the extra concerts would bring extra business to an already growing entertainment area (Kingsland). The extra revenue for the area would boost house prices and encourage further spending out of the CBD. Current events (all sporting) are well managed and really don't cause much disruption at all. The demographic of the area is changing and is now a lot of younger people - especially those flatting, and students. Very few of those people would be impinged upon by an extra 6 concerts a year. We already have the noise from Western Springs when there's a concert/ sporting event there, and it's not a big deal.

### What decisions and amendments would you like the council to make?

Review the license after 2 years.

### Specify the aspects of the application you are submitting on:

I support the application which will allow Eden Park to have up to 6 concerts per year.

### What are the reasons for your submission?

Eden Park stadium is already set up for large events. There is the onsite infrastructure in place (food, beverages, bathrooms, St Johns etc) as well as a supporting offsite infrastructure (public transport, special event buses, local restaurants and bars, traffic management plans that work really well). There is now a local appetite for there to be concerts in our community.

### What decisions and amendments would you like the council to make?

To allow Eden Park to have 6 concerts per year.

### Submission details

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**

That 6 concerts per year be held at Eden Park

### What are the reasons for your submission?

Eden Park is iconic Auckland and an ideal place to hold concerts. Local residents were aware of the presence of the Park when they moved into the area. Six concerts per year and the noise produced is not asking too much of neighbours' tolerance. There is high demand for the Park to be used for this purpose.

### What decisions and amendments would you like the council to make?

Decide that Eden Park can be the venue for six concerts per year.

### Specify the aspects of the application you are submitting on:

Eden park is a public asset and should be utilised wherever possible to provide a venue for major events such as sports and leisure, concerts and the like.

### What are the reasons for your submission?

As a ratepayer in Auckland I want to see that our sporting and cultural venues are available for a wide range of activities. Prohibiting Eden Park as a venue for music concerts is unnecessary as the facility and transport options will readily cater for major events, as seen during the 2015 Rugby World cup matches. I personally attended a World Cup match and was grateful for the ease in which we traveled to Eden Park by train, entered the park without problems and after the event left the park in good time. Congestion was not an issue.

### What decisions and amendments would you like the council to make?

Approve the submission

### Submission details

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**

Eden Park should be available for up to 6 concerts per year

### What are the reasons for your submission?

Eden Park is a community, it is much more than just a stadium. Concerts would bring in a huge variety of people to support local businesses and it would add value to the local area. I live next to Eden Park and love hearing the sound of games and warm-ups - it adds to the character of the community and the location of Eden Park was a huge drawcard for me wanting to move to the area.

### What decisions and amendments would you like the council to make?

Give consent for Eden Park to have concerts

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** Yes

### Submission details

**This submission:** opposes the application in whole or in part

**Specify the aspects of the application you are submitting on:**  
The concerts the Council proposes to endorse for Eden Park Stadium

### What are the reasons for your submission?

The concerts you propose to endorse will not be in the best interest's of the community/neighbourhood. The crowd sizes will range from 40-60 thousand with more alcohol being consumed prior to start of concert/during the concert, as is the case with the rugby matches. Noise levels will be louder so that children won't be able to sleep, especially if helicopters & fire works displays are involved. 3 hours of rehearsals & sound checks prior to concerts daytime and night time. More rubbish i.e. empty bottles of alcohol, food containers will be left to residents to clean up their property's including public pathways.

### What decisions and amendments would you like the council to make?

Although we have "No alcohol" zones, the sports events are allowing people in who are drinking alcohol prior to admission to these events, so imagine the result if you have 50-60 thousand concert goers who just want to party?

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission? Yes**

**If other people make a similar submission I will consider making a joint case with them at the hearing: Yes**

#### Specify the aspects of the application you are submitting on:

All of them. I agree to 6 concerts per year. I would actually agree to 10. I think the management plan for them is reasonable, and the time, crowd, noise and lighting limits are absolutely reasonable

#### What are the reasons for your submission?

I think Eden Park adds character to the area, and I support any endeavour which allows it to self-sustain

#### What decisions and amendments would you like the council to make?

Emphasise the importance of the self-imposed limits on:

- noise
- time
- crowd
- lighting

Also, condition the organising of the events on providing chartered buses for a minimum set number of people (i.e. 5,000 to 10,000 people, coming from all main centres (i.e. North, West, Eastern suburbs, South, Southern isthmus))

### Submission details

**This submission:** supports the application in whole or in part

### Specify the aspects of the application you are submitting on:

6 concerts are a discretionary right in the Unitary Plan but it is a Claytons right if each concert RC has to be done individually. The time and cost to do each one by one means the right cannot practically be given effect to. The 6 need a blanket approval with any mitigations and conditions and the park then left to secure events accordingly

### What are the reasons for your submission?

Auckland does not have a first class venue for such music and cultural events at large scale. Mt Smart and Western Springs are sub standard and in the case of Mt Smart simply not safe or fit for purpose.

### What decisions and amendments would you like the council to make?

Give effect to the Unitary Plan in a way that can be executed by the park.

### Submission details

**This submission:** opposes the application in whole or in part

**Specify the aspects of the application you are submitting on:**  
I am opposing the Eden Park application to hold 6 concerts a year

### What are the reasons for your submission?

As an extremely local resident (I live 1 street away) I do not consent/agree to this movement taking place. It is a disruption to our local roads around; let alone the damaging/intrusive effect this could have on other residents who have small children, elderly and those with disabilities that this may severely impact (noise sensitivity, autism etc). I think this would be an irresponsible action of the council to approve.

**What decisions and amendments would you like the council to make?**  
No concerts at Eden Park.

### Specify the aspects of the application you are submitting on:

Eden Park is a venue that can easily hold such concerts without causing much in the way of disruption to the local neighbourhood and businesses.

It has close access to a rail corridor that handles around 25,000 patrons on All Black test nights.

Although in a residential zone, the park has access to major road corridors heading East, West and South.

### What are the reasons for your submission?

When you compare the other venues around Auckland for concerts, you can often sit in traffic for hours at Mt Smart Stadium whereas at Eden Park, the nature of spread parking options, better rail and bus services to stadium, means that people get away much quicker. Also being close to local bars and restaurants, not too far a walk from the city, there is a much more social scene for those attending Eden Park for concerts.

The other venues are very much "green field" sites and requires lots of additional building to meet the needs of the concerts where Eden Park can hold up to 60,000 people with much less hassle.

I appreciate there are concerns from some residents but a) you know what you bought into when moving next to Eden Park, b) most residents will benefit from having tourists around such as Airbnb options and c) local businesses will recoup from the additional foot traffic associated with concerts.

6 nights a year is surely manageable for those residents who don't want these concerts. I used to live on Reimers Ave

and never had any issue with Eden Park. If you don't want to be around when the concert is on, take yourself away for a nice little retreat for a night.

**What decisions and amendments would you like the council to make?**

I think the council should way up the benefits of having concerts at the iconic Eden Park. It can only be a positive thing for the city.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** Yes

Permission for 6 concerts a year at Eden Park

### What are the reasons for your submission?

Eden Park is an iconic facility and needs to be given the freedom to be financially viable. I consider the concerts proposed to be a good one and will be welcomed by many people. It strikes me as unfair that a small pressure group so vehemently oppose this, given that they have all moved to the locality knowing the stadium was there! This selfishness denies the public access to an excellent venue and adds to the risk of financial ruin for Eden Park.

### What decisions and amendments would you like the council to make?

Perhaps trial period of one year.

The current cost of resource consents is ruinous, but presumably this would be avoided if Eden's Park's application is successful.

### Specify the aspects of the application you are submitting on:

I would like to see concerts and sporting events at eden park. I think that we should be utilizing the resources we have available. 6 days a year as proposed is perfectly resonable.

### What are the reasons for your submission?

### What decisions and amendments would you like the council to make?

I would like to have concerts and sporting events at Eden park. It would be such a shame given the amount of effort our governement as put into the park to let it go to waste based on a small vocal minority who have strong opinions.

### Specify the aspects of the application you are submitting on:

I am greatly concerned about the application to hold concerts at Eden Park. I have lived opposite Eden Park for 15 years and I support sporting events at Eden Park. However, even with the limited use of the stadium at present we have been adversely affected on numerous occasions .

The aspects of the application that I am submitting on is basically the whole thing- the noise limit, the crowd size, the number of concerts, the timing of proposed concerts, the need for sound checks.

### What are the reasons for your submission?

My concerns are as follows:

1. At present I have significant concerns regarding the existing road and parking management. I can only see this getting worse. I recall one situation when I was stopped at the corner of Marlborough and Burnley and told I could not return home for an hour as the game was about to end. I had a sleeping baby in the car and told the staff this was not acceptable and that I would drive slowly with hazard lights on as was the usual practice in these situations. The staff refused me entry and in the end my husband and I had to physically remove the barriers ourselves to get home. I recall another situation when I had to leave the house to head to the hospital as I was on call (during the RWC) and being told that I could not exit from Reimers. It took phone calls to the parking management in order to rectify that situation so that

I could get to the hospital. My point is, that these experiences are not isolated events and will occur with more frequency if concerts are allowed.

2. I am concerned about the noise limit of concerts which will be difficult to police. Pyrotechnics are common in concerts and again cause significant disturbance for sleeping children. We must remember that this is a residential neighbourhood with many young families, not a city centre venue.

3. I am concerned that the crowds and concerts will be primarily in the summer when we have our windows open at night and cannot block out the noise.

4. It is also in summer that we like to have friends over for BBQs and kids parties. Concerts will make parking more difficult and limit these activities.

4. A 630 start time for concerts will clash with people arriving home from work. I do not believe the surrounding area has the infrastructure to cope.

5. I do not believe that Auckland needs another concert venue. We are not "missing out " on artists.

6. I have significant concerns about the PR campaign underway by Eden Park suggesting that the majority of residents support concerts in the area. The survey cited is unscientific and based over a wide "local " area. Certainly, people that I speak to in the immediate surrounding streets are opposed to this development. We bought into an area with a sporting venue, not a concert venue and there is not an Auckland need for it. I have found the whole PR exercise very dishonest and devoid of clarity.

Overall, concerts at Eden Park will adversely affect my family-parking, noise, getting to and from work, inability to socialise...the list goes on.

This application has already being declined twice by independent hearings and does not have widespread local support. Please decline it.

**What decisions and amendments would you like the council to make?**

Decline this application outright.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

### Specify the aspects of the application you are submitting on:

Supporting Eden Park and their application for resource consent to secure up to six concerts a year.

### What are the reasons for your submission?

Eden Park is without doubt New Zealand's best and most iconic outdoor venue. It seems ridiculous in this day and age for it to be used solely for sporting events. Mt Smart & Western Springs do not even come close to Eden Park as far as accessibility and the quality of facility. Eden Park needs to be fully utilised both for sports and for music and culture and now is the chance.

I live in the neighbourhood and would welcome and be excited at the prospect of concerts. This stadium has been here longer than all of us - we moved into this area in the knowledge that this wonderful facility was just down the road. Let's make use of it and enjoy what it offers!! Bring on the concerts.....from a supportive Eden Park neighbour.

### What decisions and amendments would you like the council to make?

To support Eden Park and their application for resource consent to secure up to six concerts a year for OUR community.

### Submission details

**This submission:** supports the application in whole or in part

### Specify the aspects of the application you are submitting on:

The consent sought to hold six concerts per year.

### What are the reasons for your submission?

I believe consent should be given to permit the holding of six concerts in a year. It is sensible to grant a specified number of concerts to avoid the prohibitive cost of individual consents. Six concerts in a year is a small number and is perfectly reasonable. The Park needs to be financially viable and the concerts will support that. The Park is also a community facility and should be used as often as it can be. The Park Board have taken neighbours' concerns on board with the intention to go ahead with the installation of the previously consented acoustic barrier. Finally, those opposing the consent should ask themselves why they bought close to a major public facility and then object to it being used.

### What decisions and amendments would you like the council to make?

I would like the council to support the application for the resource consent to hold six concerts a year.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** No

If other people make a similar submission I will consider making a joint case with them at the hearing: No

### Specify the aspects of the application you are submitting on:

That I support concerts to be held at Eden Park and for more events to be held at the venue.

### What are the reasons for your submission?

I am a nearby resident and enjoy attending events at Eden Park. Being a local I do not consider additional noise from concerts to be an adverse effect. I have attended events while living at other address and while I am now within walking distance of Eden Park, I consider the transport effects to be well managed through nearby train and bus stations. I also consider that Eden Park should be utilised more as an event venue, which will provide cultural and economic benefits to Auckland. Overall, I consider the proposal only to have positive rather than adverse effects.

### What decisions and amendments would you like the council to make?

I fully support the application and would like to see council support this application. I would like them to consider allowing more than 6 concerts in future as well, particularly once the city rail link is operational. I think that late evening concerts should be allowed as well, particularly if they are for Friday/weekend events.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

### Specify the aspects of the application you are submitting on:

Eden Park to hold 6 concert a year. They have proved to be excellent neighbours, they listen and it is great to have such an awesome facility used more often. This makes it cost effective in the long run

### What are the reasons for your submission?

Eden Park is a brilliant venue and should be used for concerts.

### What decisions and amendments would you like the council to make?

The council should not charge Eden Park so much for resource consent. Other stadiums in Auckland do not pay so why should Eden Park. They have excellent communication with all stake holders and 6 concerts a year once every 8 weeks is a good number

### Submission details

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**  
Accessibility

### What are the reasons for your submission?

Large outdoor concert venues, in the Auckland region, are few. None of them are as accessible as Eden Park. Eden Park is on both a main bus line and near the train line. Availability of public transport increases many peoples options for entertainment. Accessibility within the grounds is also superior to other Auckland concert venues. Large venue entertainment should be easily available to all Aucklanders.

### What decisions and amendments would you like the council to make?

Approve the applicant's request for six or more concerts to take place at Eden Park.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** No

Permission for concerts

### What are the reasons for your submission?

I live 500m from Eden Park and want champion for the concerts even though I live in such proximity to the venue. 6 concerts a year is no nuisance for us. It will only bring more people and trade to the surrounding areas and local businesses. We already live within the eden park residents parking zone, so as long as the residents parking is respected or a reasonable alternative is made I would be happy for the concerts to go ahead.

### What decisions and amendments would you like the council to make?

The permission should be given.

### Specify the aspects of the application you are submitting on:

Consent for up to 6 concerts in any 12 month period to take place at Eden Park

### What are the reasons for your submission?

It is a large venue well supported by public transport. It is the best in the city from these aspects. The park is a major asset in the city supported by significant public money. It should not be allowed to be underutilized when demand for its use exists. Such use will allow the trust board to meet its loan commitments

### What decisions and amendments would you like the council to make?

Parking

#### What are the reasons for your submission?

We have a community church facility and the building is used for church related meetings, local community meetings, weddings and funerals on many days.

We feel that allowing the concerts will have a negative impact on the available parking and affect people wanting to attend events such as funerals, wedding, seminars, church meetings or social meetings.

As it is, people often find it hard to find parking for a funeral or other larger daytime meeting.

**What decisions and amendments would you like the council to make?**

No concerts

### Specify the aspects of the application you are submitting on:

Proposal for six concerts annually at Eden Park

### What are the reasons for your submission?

Concerns about acoustic intrusion resulting from noise emitted from concert activity. It is critical to accurately predict the likely noise levels in the community at the feasibility stage. A loud concert is likely to emit a sound pressure level of 115-120 decibels (less than 100dB is unlikely). The acoustic model does not give any consideration to the environmental noise impact. Nor does the modelling detail local reverberation times, long delayed reflections and external noise limits. In addition, the proposed acoustic barrier is untested and there is no plan to monitor the sound impact on houses that surround the stadium. Eden Park is not a designated music venue and located in a residential area. The United Kingdom's Chartered Institute of Environmental Health has considered the health impact of noise, citing the UK Chief Medical Officer's emphasis (Annual Report, 2017) that environmental noise comes second in burden of disease to air pollution and "arguably is responsible for more disturbance of quality of life." This can be due to sensitivity to noise and increased physiological arousal leading to poor quality sleep. The benefits to the local community cited in the proposal are limited. The increased activity and noise are disruptive to local residents.

The use of Eden Park as a concert venue is different from its use as a sports venue. As such, concert noise is regarded

as unwanted sound. Concert activity brings disruption to the local neighbourhood. Evidence of this are traffic restrictions, parking restrictions and increased rubbish on local streets. As such, there is an adverse impact on some residents' quality of life and wellbeing. Eden Park's designation as a sports venue is acceptable. In principle, I do not consider the designation of Eden Park as a concert venue to be acceptable.

**What decisions and amendments would you like the council to make?**

I would request that Auckland Council does not grant permission to hold six concerts annually at Eden Park.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** No

### Specify the aspects of the application you are submitting on:

I am supportive of Eden Park having a trial year engaging in 6 concerts. These would then be individually and collectively evaluated against measures

### What are the reasons for your submission?

I live locally and with the exception of a few (<10) nay-sayers there is a general consensus among residents for a desire for Eden Park to be a successful and viable destination adding to the local and Auckland wide community. Staging concerts is an obvious route to trial and investigate.

### What decisions and amendments would you like the council to make?

I want council to approve the resource consent for the purpose of understanding better how 6 annual concerts will be managed and the effect they will have.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** No

### Submission details

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**

I support the whole of the application.

### What are the reasons for your submission?

As legal specialist in the RMA and the Auckland Unitary Plan, I am familiar with the policies and rules applying to Eden Park.

The provision for up to 6 evening concert events is recognised in principle under the Plan, but this outcome is negated by a further rule that a discretionary resource consent is required for each concert. These applications will be fully notified. The cost of an application and likelihood of an appeal, effectively rules out the holding of the music events. The existing unique rules prescribing noise levels and time limits, community consultation and the preparation of event management plans, provide a sufficient safeguard for the environmental, safety and amenity interests of the local community and balance the wider public benefits of events. Eden Park is a substantial stadium to be managed for the benefit of all persons, but presently is limited to sporting events only, and this is a massive waste of a strategic resource. Cf Wembley Stadium in London, situated in the heart of a residential area, which is used for concerts.

### What decisions and amendments would you like the council to make?

That the resource consent be granted in whole.

### Specify the aspects of the application you are submitting on:

There needs to be activities that bring people together in a safe environment - attractions need to entice the public and guests of Auckland to attend and make living here a pleasure

### What are the reasons for your submission?

When we go to the Gold Coast to visit my adult children, there always seems to be activities on the go - many of these activities are free and make living there very attractive. When my children used to live in Auckland, there were not that many activities and the youth seemed to get bored with not much to do. When my adult children come back to Auckland, apart from catching up with friends, the opportunities that they have to attend activities in Auckland seem few and far between. I will actively support any initiative that makes living in Auckland a nicer experience, inclusive of having more regular and varied activities, and inclusive of having these activities in a family-friendly and safe space.

### What decisions and amendments would you like the council to make?

Allowing Eden Park to host more events over the year, and not just the sporting events.

### Submission details

**This submission:** opposes the application in whole or in part

### Specify the aspects of the application you are submitting on:

Traffic  
Parking  
Litter and crowd behaviour  
Noise

### What are the reasons for your submission?

Nobody has asked myself or anyone I know locally how we feel about this , instead we are being silenced by biased marketing .

I personally do not have off street parking and often have idling buses outside my house during events.

I cant have visitors when an event is on due to parking restrictions , I'm unable to drive myself at the moment due to illness, so use the local public transport mostly, but I cant easily get to some areas by public transport. Weekends and public holidays are difficult for socialising at home when events are on too.

I often have to deal with crowd behaviour such as drunken arguments, alcohol bottles and cans thrown on my front lawn, people urinating in my garden and other likewise behaviour, very similar to when I lived near Western Springs

Stadium.

Please dont increase this.. !!.. It is a residential area too and we need some quality time for ourselves to enjoy the area we live in. The rent here is not cheap.. and we already have so many other concert venues...some nearby..so this is not required at all.. !!

As residents we make allowances for Eden Park as a part of the neighbourhood as they should us by allowing us non event times too.

I am less bothered by noise (if it's not drunken arguments ) but there are a lot of families with babies and young children in my neighbourhood, and I stand with them on any noise restrictions they require on behalf of their children as a considerate neighbour.

**What decisions and amendments would you like the council to make?**

Consider the people who live here and who have never been asked, as there are a lot of us.

Please keep the amount of events as is, with an emphasis on daytime events.. I dont mind if they swap out sport for music.. Just let us have a reasonable amount of non event enjoyment of our neighbourhood too.

This is really not required as there are so many music venues nearby and in more suitable locations.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** No

### Submission details

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**  
To allow eden Park to host more events considering its urban setting

**What are the reasons for your submission?**  
I completely agree we should hold more concerts and events. It is the national stadium. Works renowned and perfect to get to.

**What decisions and amendments would you like the council to make?**  
More busses and trains and transport to support the extra events and support the people who live there by getting people in and out easily

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

### Submission details

**This submission:** opposes the application in whole or in part

### Specify the aspects of the application you are submitting on:

Eden Park strill badgering the community about holding concerts in their sports stadium

### What are the reasons for your submission?

I am sick and tired of Eden Park wanting to overstep the agreements that have been reached regarding the use of the sports stadium for other uses than agreed upon. We have already turned down this proposal for 6 loud concerts with late finishing times in our residential community. I am happy to hear cheering crowds at sporting events BUT the use of the incredibly LOUD PA system is intolerable at such close quarters in a residential area.

### What decisions and amendments would you like the council to make?

Oppose /Deny the proposal in its entirety and to caution the Eden Park Trust board from overstepping its Sports stadium function. Try to prevent this tiresome repetition of events again!  
Auckland has plenty of purpose built concert facilities that do not breach the peace of rate paying citizens.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

The whole application

### What are the reasons for your submission?

I support this as I think that there is benefit in having concerts at Eden Park. It's close to transport and they already know how to run events. I have no concerns regarding noise or traffic as it's very infrequent and I think this is managed well with their current events

### What decisions and amendments would you like the council to make?

Grant consent.

### Specify the aspects of the application you are submitting on:

I support the application for additional day and night concerts with the proposed noise limits.

### What are the reasons for your submission?

I am a resident on Mount Eden.

Eden Park is significantly under utilised and while I am not a big concert goer, such events are beneficial to the community and local businesses.

Additionally, I felt compelled to make this submission to counter the scaremongering approach taken by Eden Park Neighbours' Association with newsletter drops containing false information.

### What decisions and amendments would you like the council to make?

Grant the requested resource consent allowing concerts.

### Submission details

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**

I support having concerts at Eden Park.

### What are the reasons for your submission?

I used to work at a restaurant in Kingsland. I have never seen such good business as the night of the British and Irish Lions game. I think having concerts there would be great for small businesses. I also like listening to concert music from my house as I live nearby.

### What decisions and amendments would you like the council to make?

Approve concerts at Eden Park.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** No

**If other people make a similar submission I will consider making a joint case with them at the hearing:** No

### Submission details

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**  
Permitting up to six concerts per annum at Eden Park.

### What are the reasons for your submission?

I strongly believe Eden Park is Auckland's best venue for concerts. Its central location, access to public transport, high quality facilities and amenities will significantly enhance the public's safety and enjoyment of major concert events. This is an important consideration for the benefit of the people of the region and the country overall. I believe the proposal properly addresses the need to mitigate important effects, such as sound, for the benefit of residents overall.

### What decisions and amendments would you like the council to make?

I would like Council to approve the application as submitted.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** No

### Submission details

**This submission:** supports the application in whole or in part

### Specify the aspects of the application you are submitting on:

I am submitting in support of Eden Park receiving a notified consent for up to 6 concerts over a year period

### What are the reasons for your submission?

The reasons for my submission is that Eden Park has 118 years of rich history, and over this time changes have been made to the venue to keep up with industry and market trends (eg. installation of floodlights to allow for night fixtures and TV Broadcast). Like any business if you don't adapt and change with industry and mark you will be left behind. This is no different in the case of Eden Park. We need to become enablers and show that a globally renowned venue in the year 2020 can be utilised for more than just sporting events. The Park has shown over the last few years that it can be used dynamically, examples include the hosting of EID, Japan Day, NZ Home & Lifestyle Show, Lifewise Big Sleepout, the Mandela Exhibition and more. These type of events not only provide financial support to the venue, ultimately going towards the maintenance and up keep of the facility but they also allow the community to engage with the Park in different ways, as such, introducing non traditional audiences to the venue, supporting traffic to local business, providing job opportunities, and contributing to economic impact on the City to name a few. When concerts are approved at Eden Park all of the above benefits will be amplified, this is supported by the evidence of FTE and PTE job opportunities, hotel nights and significant revenue for the Park (up to a million dollars profit per event) and City. This is a no brainer and will confirm Auckland as a truly international city

**What decisions and amendments would you like the council to make?**

I would like council to grant Eden Park consent for up to 6 concerts per annum

Concerts and extra events held at Eden Park

### What are the reasons for your submission?

Noise and crowds. Noise carries in this area very badly. We are already hearing noise from events at Western springs so this would be absolutely horrific. Fireworks are horrific for us and the animals too. The bass carries as well as we won't be able to park on our road at all on these days which we already have with the rugby.

**What decisions and amendments would you like the council to make?**

To not allow any concerts ever at Eden Park. Rugby only

### What are the reasons for your submission?

Local Resident and neighbour of Eden Park

### What decisions and amendments would you like the council to make?

We fully support the application to hold more concerts and all related activities. We also would support more sporting events at Eden Park.

It's a nonsense that media reports suggest that residents and neighbours are anti Eden Park. Helen Clark maybe so, but the vast number of local residents I speak to support sporting events at Eden Park, the associated atmosphere and positive contribution that the Eden Park Trust makes to the local community and schools.

Its time for the council to grow some balls and make the right decision and support the resource consent application for more concerts and sporting events to support the long term viability of NZ's National Stadium

Submission AGAINST Eden Park Proposal# LUC60351212

Our property is approximately 400 metres from Eden Park. To have concerts at Eden Park will have a detrimental effect on the residential amenity of the neighbourhood for my family. As the proposal is to have summer concerts, where we have windows and doors open to reduce the heat build-up; we would be unable to enjoy the exterior of the property due to the noise levels and protecting the security of the property with excessive traffic outside during the late hours.

Residential Amenity of this neighbourhood is a personal thing that allows my family to have friends over to enjoy a BBQ or have a relaxing sleep. Within the proposal is a right to host Military Tattoos. This issue possibly comes with military exercises, helicopters, mock battles with gunfire and fireworks. This concept destroys the residential amenity of this Historic Neighbourhood. This is a residential neighbourhood with young families. The unprecedented crowd numbers within the area during and after the event will bring patron and traffic noise after Midnight-including midweek workdays.

Amenity is also what we buy a house for. Allowing an undemocratic proposal by Eden Park to have carte blanche over whatever that desire to do will take away my amenity. I believe that concerts will have a negative influence over this Historic neighbourhood and thus lower values for a future sell. I urge the council to decline this application.

The noise level and Finish times are unable to be enforced. The proposal states 75dBAL up to 140dBAL. A concert noise level works as a continual sound over the length of the concert which can be two to three hours compared to a sporting event which can last approx. 90 minutes. With a stage facing East the noise and vibration will cause health issues with myself and older residents. Low frequency vibration can cause specific health issues with older residents and animals. I urge the council to decline this application.

To set up for a concert is a major exercise prior and post-concert. Staff and vehicles are continually moving equipment day and night. Sound testing of equipment intrudes on normal routines young families have for their children. And we are talking LOUD NOISE.

The Council has a Governmental requirement to protect the health and safety of their residents that pay taxes. As a business I am responsible for the Health and Safety of my Staff. I expect the council to do the same and decline this proposal.

With the advent of the Pandemic we are experiencing in New Zealand; it has been shown that large gatherings can increase the spread of pathogens. Having specific concerts that bring a variety of patrons into a residential neighbourhood increases the likelihood of a community contamination. This is unsafe and another reason for Council to Decline this application.

The traffic proposals are going to have an adverse effect on the local transport roading system. We have only seen crowd size such as proposed during RWC. And that was a major logistical planning effort involving Police, NZTA and AT. From my personal experience the RWC was nightmarish with the roading

closures and the mass of exiting patrons vomiting/urinating on my property. With a concert the demographic nature of the crowd is typically younger. Alcoholism will, be prevalent. The exit of this crowd after a concert will bring security issues to this Historic Neighbourhood such as car theft/damage, burglary and undesirable elements on the street late at night. I urge the council to decline this application.

Of concern, as a ratepayer, is the impact of existing council stadiums losing revenue with another private player in the market to taking away potential revenue from ratepayer owned venues.

I urge the council to decline this application.

Anthony McAnulty

### What are the reasons for your submission?

As a resident I find the current Operating Management Plan used for other major events (particularly rugby and cricket) more than adequate regarding sound, litter, crowd management, traffic and general operations. It runs very smoothly and we would be satisfied with this plan being used (adapted as required) for up to 6 concerts per year.

### What decisions and amendments would you like the council to make?

I would support the council granting the application of Eden Park Trust, to hold up to 6 concerts per year at Eden Park.

### What are the reasons for your submission?

The biggest venue in the country should be able to hold concerts/ music events. A few concerts a year won't hurt anyone, the benefits far far far outweigh any negatives, economically, and just for the people of Auckland and New Zealand, being able to bring major global acts to New Zealand and get as many people there as possible.

### Specify the aspects of the application you are submitting on:

I support Eden Park being permitted to hold up to six concerts per year.

### What are the reasons for your submission?

Eden Park is one of the best possible venues for concerts in Auckland, and certainly the best of its size and capacity. I have worked at and attended concerts and other events at almost every venue in the Auckland region, and I can say without question that Eden Park is far superior to Mt. Smart or Western Springs for hosting large concerts. Not only is the layout of the venue itself superior, but access to public transport as well as local bars, restaurants, and shops is also excellent. Mt. Smart Stadium is in the middle of an industrial area, where the only nearby establishment is a McDonald's, and to find a decent restaurant or bar one would have to travel some distance to Onehunga. The same applies to Western Springs Stadium, where the only nearby business of any kind is a Caltex petrol station, and one would have to travel to Grey Lynn or Point Chevalier to find a bar or restaurant. On the other hand, Eden Park patrons need only to go across the road and through the train station to find a huge assortment of bars, restaurants, and stores in Kingsland. This arrangement works very well during other major events at Eden Park, such as international rugby and cricket matches. It makes no sense why this would not also work well for concerts.

The residents near Eden Park have little grounds to object to concerts at Eden Park, as the stadium was in place and

being frequently used for major events long before they were born, let alone living in the area. Their narrow-minded objections serve only to hamper the social and economic development of the area.

I was fortunate enough to attend a Phil Collins concert in Napier last year. The venue was workable, but far from ideal. Its capacity was half that of a major stadium and access to public transport was poor to non-existent. The concert was to be held in Auckland originally, but was forced to move due to Eden Park failing to secure consent to hold the concert. Likewise, Eminem was forced to move his concert to Wellington for the same reason. Those concerts could have been not only much larger successes, but a real boost to the Auckland economy if they were allowed to be held at Eden Park. Instead, a significant number of jobs and a great deal of revenue was lost due to bureaucracy and red tape. Only a few months later, the Auckland Council announced a \$63 million bailout for Eden Park, whose financial woes and successive years making substantial losses are well known. This situation does not look like it will improve, as the Auckland Council fundamentally misunderstands the problem. Eden Park doesn't need bailouts of ratepayer dollars to succeed. What they need is for the Auckland Council to help clear away the red tape and give them a real opportunity to succeed and thrive on their own. I have no doubt that Eden Park is capable of being successful and profitable given the opportunity. Give Eden Park a real chance, and let them succeed on their own merits.

**What decisions and amendments would you like the council to make?**

Fast-track approval for Eden Park to hold up to six concerts per year.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** Yes

**If other people make a similar submission I will consider making a joint case with them at the hearing:** Yes

### Specify the aspects of the application you are submitting on:

The holding of concerts and related activities at Eden Park

### What are the reasons for your submission?

As a resident of close proximity to Eden Park, all activities undertaken at the park directly affect my quality of life.

Eden Park is already failing to properly control attendees of the sporting events it currently holds.

I often find rubbish in the street and in my garden after such events.

The noise from people leaving events at Eden Park create a nuisance that can often last well over an hour after the event has finished.

### What decisions and amendments would you like the council to make?

I would like the council to deny the application.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission? No**

**If other people make a similar submission I will consider making a joint case with them at the hearing: Yes**

### Submission details

**This submission:** supports the application in whole or in part

### Specify the aspects of the application you are submitting on:

Completely agree with the need for Eden Park to provide a service/facility to both the Auckland ratepayers and the greater New Zealand public. Eden Park provides a dedicated large gathering venue with proven easy access to sporting events should be supported in music events as well.

### What are the reasons for your submission?

### What decisions and amendments would you like the council to make?

Positively consider a long term approach to enable the Eden Park venue to continuously be used as a music event and not limited to 6 events annually without the need for individual applications .

This submission is in full support of all aspects of the submission.

### What are the reasons for your submission?

As a former Board Member (1986 - 2012) and former Chairman of the Eden Park Trust Board (1994 -2010) I am fully familiar with the history of Eden Park. The Park was fully redeveloped during the time of my membership of the Board. Eden Park has developed comprehensive management plans for all aspects of sporting and other events at the Park. Consent LUC60126194 states on page 2 "The Eden Park's established track record for event management and its comprehensive event management systems and procedures have been well tested and are continuously refined to improve the outcomes for patrons and neighbours. The effects that night-time activities may have on surrounding residential amenity are able to be adequately avoided, remedied or mitigated via the implementation of the procedures and protocols that are part of the OMP." Similar comments with respect to consultation and communications with residents, stakeholders and the general public are made in the next paragraph on page 2.

The Park is in a unique position to host concerts, it has proven management and traffic plans, and is easily accessible. The current Unitary Plan provides for up to 6 concerts in any 12 month period but as a discretionary activity. The discretionary activity aspects have two major difficulties 1) the cost of, and time period for consideration of each application, and 2) the other major outdoor venues in Auckland are owned and operated by the Council; Eden Park is

the only opposition venue provider.

Eden Park requires operating income to meet its on going commitments to continue to provide a first class venue, the financial return from up to 6 concerts in any 12 month period would greatly assist in meeting this requirement, as well as providing a great venue.

**What decisions and amendments would you like the council to make?**

Fully approved the application.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

**Do you want to attend a hearing and speak in support of your submission?** No

**If other people make a similar submission I will consider making a joint case with them at the hearing:** No

### Submission details

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**  
Eden park should hold concerts to fully utilise the stadium facilities

### What are the reasons for your submission?

To utilise the facility to its fullest, Eden park should host atleast 6 concerts a year. The number of large acts that come to New Zealand are limited on options for where they can play. Eden park is ideal as it is so close to the city centre with great public transport links. It would be a waste not to hold music events here

**What decisions and amendments would you like the council to make?**  
Approve Eden park to hold up to 10 concerts per year

### Submission details

**This submission:** opposes the application in whole or in part

### Specify the aspects of the application you are submitting on:

- up to six concerts a year is too many as this is additional to the existing events that are held at Eden Park.
- implementing traffic management plan alone as currently proposed is insufficient, as historical events has shown the burden on surrounding streets and adverse effects to residents.

### What are the reasons for your submission?

### What decisions and amendments would you like the council to make?

- Up to two concerts a year, decreased from six.
- Traffic management plan to include the building of Eden Park off site parking buildings which can accommodate vehicles of event attendees and staff. As the Council has already changed parking restrictions across most of the zones, and it is well known not all homes have off site parking, this generates enormous and unnecessary pressure on residents on the dates of events. Street closures etc are inconvenient. It is time that such a large arena developed it's own site parking, so that the residents aren't having to bear the brunt of the adverse effects from events held.

### Submission details

**This submission:** supports the application in whole or in part

**Specify the aspects of the application you are submitting on:**  
I support concerts at Eden Park.

### What are the reasons for your submission?

Eden Park is a central, easily accessed venue, that would be great for concerts. This proposal maximises the use of existing facilities with good public transport links. The concerts would add to the vibrancy to the local area, support and grow local business and will be much needed as businesses recover from the COVID -19 era.

### What decisions and amendments would you like the council to make?

A finish time of 10 pm for all concerts.

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

### Specify the aspects of the application you are submitting on:

Excellent idea to hold concerts. It will be vital with the current situation to get the economy especially tourism and entertainment industry going again. Plus it will help with mental health and well being . They need not all be popular music - opera , choirs etc could be also held. It is a resource well located- use it.

### What are the reasons for your submission?

### What decisions and amendments would you like the council to make?

Just allow it to go ahead once we are all out of danger. It will be so important for employment, socialising, mental health etc

**Are you a trade competitor of the applicant?** I am not a trade competitor of the applicant.

All aspects.

### What are the reasons for your submission?

Eden Park is a fantastic venue and such an asset to our local community, but sorely underutilised in our opinion. My partner and I love living in this community and would be thrilled to attend large music events locally. We think this will keep our community vibrant and the local businesses we love busy and thriving.

### What decisions and amendments would you like the council to make?

We would like the council to approve this resource consent application.
