E3 Rivers & Streams	E3.4.1 Activity table [rp]			(A19) Discretionary Activity for the diversion of a river or stream to a new course and associated disturbance and sediment discharge.
			(A39) Permitted Activity for stormwater or wastewater outfall complying with the standards in E3.6.1.14	(A33) Discretionary Activity for culverts or fords more than 30m in length when measured parallel to the direction of water flow
				(A49) Non-Complying Activity for new reclamation or drainage
				Statutory tests required
	E3 Notification			
	E3 Permitted Activity Standards	E3.6.1.1 General standards	Will comply	
		E3.6.1.2. Standards for conservation planting	N/A	
		E3.6.1.3. Standards for depositing any substance for the purposes of providing fish passage for culverts lawfully existing on or before 30 September 2013	N/A	
		E3.6.1.4. Standards for activities involving the disturbance and the associated sediment discharge	Will comply	
		E3.6.1.5. Disturbance and the associated sediment discharge for channel clearance of less than 100m	N/A	
		E3.6.1.6. Disturbance and the associated sediment discharge for emergency works	N/A	
		E3.6.1.7. Disturbance and the associated sediment discharge for extraction of material less than 50m ³ per year from the bed of a river or stream	N/A	
		E3.6.1.8. Disturbance and the associated sediment discharge for pest plant removal	N/A	
		E3.6.1.9. Disturbance and the associated sediment discharge for mangroves seedling removals and mangrove removal of up to 200m ² immediately adjacent to existing lawful structures, infrastructure or drainage systems to enable their operation, use, maintenance, repair, and functioning	N/A	
		E3.6.1.10. Standards for works on structures lawfully existing on or before 30 September 2013 and the associated bed disturbance or depositing any substance, diversion of water and incidental temporary damming of water	N/A	
		E3.6.1.11. Works on structures lawfully existing on or before 30 September 2013 and the associated bed disturbance or depositing any substance, diversion of water and incidental temporary damming of water for the operation, use, maintenance, repair and upgrading of existing structures	N/A	
		E3.6.1.12. Works on structures lawfully existing on or before 30 September 2013 and the associated bed disturbance or depositing any substance, diversion of water and incidental temporary damming of water for the replacement, upgrading or extension of structures	N/A	
		E3.6.1.13. Works on structures lawfully existing on or before 30 September 2013 and the associated bed disturbance or depositing any substance, diversion of water and incidental temporary damming of water for the demolition or removal of existing structures	N/A	
		E3.6.1.14. Standards for new structures and the associated bed disturbance or depositing any substance, diversion of water and incidental temporary damming of water	Stormwater outfalls will comply	
		E3.6.1.15. New structures and the associated bed disturbance or depositing any substance, diversion of water and incidental temporary damming of water for temporary structures	N/A	
		E3.6.1.16. New structures and the associated bed disturbance or depositing any substance, diversion of water and incidental temporary damming of water for bridges or pipe bridges	N/A	
		E3.6.1.17. New structures and the associated bed disturbance or depositing any substance, diversion of water and incidental temporary damming of water for new cables or lines that cross over a river or stream which do not require support structures in the watercourse	N/A	
		E3.6.1.18. New structures and the associated bed disturbance or depositing any substance, diversion of water and incidental temporary damming of water for culverts or fords less than 30m in length when measured parallel to the direction of water flow	N/A	
		E3.6.1.19. New structures and the associated bed disturbance or depositing any substance, diversion of water and incidental temporary damming of water for maimai	N/A	
		E3.6.1.20. New structures and the associated bed disturbance or depositing any substance, diversion of water and incidental temporary damming of water for sign, navigational aid, ski lane marker or buoy	N/A	
		E3.6.1.21. New structures and the associated bed disturbance or depositing any substance, diversion of water and incidental temporary damming of water for structures solely under the bed of a lake, river or wetland	M/A	
		E3.6.1.22. New structures and the associated bed disturbance or depositing any substance, diversion of water and incidental temporary damming of water for swing or pile mooring	N/A	
		E3.6.1.23. New structures and the associated bed disturbance or depositing any substance, diversion of water and incidental temporary damming of water for weirs, floodgates and flow monitoring devices	N/A	
		E3.6.1.24. Standards for the removal or demolition of a lawfully existing reclamation or drained area on or before 30 September 2013	N/A	
		E3.6.1.25. Standards for livestock access on production land that is grazed by a stocking rate equal to or exceeding 18 stock units per hectare	N/A
