

## **Before you fill out the attached submission form, you should know:**

You need to include your full name, an email address, or an alternative postal address for your submission to be valid. Also provide a contact phone number so we can contact you for hearing schedules (where requested).

Please note that your submission (or part of your submission) may be struck out if the authority is satisfied that at least one of the following applies to the submission (or part of the submission):

- It is frivolous or vexatious.
- It discloses no reasonable or relevant case.
- It would be an abuse of the hearing process to allow the submission (or the part) to be taken further.
- It contains offensive language.
- It is supported only by material that purports to be independent expert evidence, but has been prepared by a person who is not independent or who does not have sufficient specialised knowledge or skill to give expert advice on the matter.

The reasons for my views are: **The proposal is conflicts with sound resource management principles; the purpose and principles of the Resource Management Act 1991, the Auckland Unitary Plan, National Policy Statements on Freshwater Management; Waste Minimisation Act 2008 and the Auckland Council Waste Management and Minimisation Plan. I object to one off bespoke objectives, policies and rules being applied to this site. See attached information.** (continue on a separate sheet if necessary)

I seek the following decision by Council:

- Accept the proposed plan change / variation
- Accept the proposed plan change / variation with amendments as outlined below
- Decline the proposed plan change / variation
- If the proposed plan change / variation is not declined, then amend it as outlined below.

**Notes to person making submission:**

If you are making a submission to the Environmental Protection Authority, you should use Form 16B.

Please note that your address is required to be made publicly available under the Resource Management Act 1991, as any further submission supporting or opposing this submission is required to be forwarded to you as well as the Council.

If you are a person who could gain an advantage in trade competition through the submission, your right to make a submission may be limited by clause 6(4) of Part 1 of Schedule 1 of the Resource Management Act 1991.

I could  not gain an  advantage in trade competition through this submission.

**If you could gain an advantage in trade competition through this submission please complete the following:**

I am \_\_\_\_\_ directly affected by an effect of the subject matter of the submission that:

- (a) adversely affects the environment; and
- (b) does not relate to trade competition or the effects of trade competition.

## **Before you fill out the attached submission form, you should know:**

You need to include your full name, an email address, or an alternative postal address for your submission to be valid. Also provide a contact phone number so we can contact you for hearing schedules (where requested).

Please note that your submission (or part of your submission) may be struck out if the authority is satisfied that at least one of the following applies to the submission (or part of the submission):

- It is frivolous or vexatious.
- It discloses no reasonable or relevant case.
- It would be an abuse of the hearing process to allow the submission (or the part) to be taken further.
- It contains offensive language.
- It is supported only by material that purports to be independent expert evidence, but has been prepared by a person who is not independent or who does not have sufficient specialised knowledge or skill to give expert advice on the matter.

## Plan change request PC42: submission by David Parker

### Continued from form 5: Reasons for the submission

This submission is made by David Parker on behalf of Kotare, an education and research trust based near Wellsford. We support Tiriti-based obligations to protect the land, waters and other taonga of te ao Māori. We have made many efforts in this regard, including managing all sewage via a land-based system on the property, and undertaking riparian planting projects; thus we strive to protect the local waterways than run into the Hoteo River and on to the Kaipara. And so we are very concerned with the proposal for the landfill in the Dome, in the Hoteo River catchment. We oppose the plan change request. Our objections are as follows:

1. Consultation – iwi & hapu (plan change request section 3.2.1) and s 32 evaluation – Treaty of Waitangi (plan change request section 6.1.4)

For this plan request to proceed, all iwi and hapu with mana whenua over the Dome Valley, the Hoteo River – and indeed, iwi and hapū with rangatiratanga over the downstream Kaipara moana that would be affected by any leachate from landfills in the precinct addressed in the plan change request – must be satisfied that their taonga are protected and respected in perpetuity. Clear opposition to the resource consent application has been set out by tangata whenua: in an aukati rahui laid in June 2019 by representatives of Ngāti Whātua, and supported by members of the community; and in strong statements by Ngāti Whātua subsequently, as indications of their robust opposition to the proposal.

As tangata tiriti, the Kotare trustees acknowledge te tino rangatiratanga and mana motuhake of tangata whenua. Therefore, in supporting tangata whenua on these matters of grave concern to them, we argue strongly that the plan change request for landfill precinct cannot possibly be granted since it is in conflict with article 2 of Te Tiriti o Waitangi, and ss 8 & 32(1) of the Resource Management Act 1991.

2. Planning Framework - Auckland Waste Management and Minimisation Plan (plan change request section 5.2.2)

The proposal for the plan change to designate the landfill precinct stands in direct opposition to the Council's committed goal of zero waste by 2040. This plan is the basis of real action resourced by the Council, and backed by the considerable co-operation of citizens, families and businesses across the region. For example, in December 2019, kerbside food waste collection across urban Auckland was given the green light. Food waste makes up 40% of the waste going to landfill. Taking this out of the waste stream in 2021 means we must question the need for a landfill of the scale proposed – or a precinct to facilitate it.

The plan change request should be rejected on the basis that it contradicts the zero-waste plan.

3. Planning framework - Auckland Council Low Carbon Strategic Action Plan (2014) (plan change request section 5.2)

The plan change request takes no account of the Auckland Council Low Carbon Strategic Action Plan. It ignores the council's actions to address climate change and, given the steps being taken towards zero waste, proposes an unnecessary landfill precinct. The request undermines the drive to zero waste since a large landfill provides an easy solution to anyone who is not concerned to put the effort into reducing and minimising waste. This is acknowledged explicitly in the Low Carbon Strategic Action Plan which states "current low landfill costs ... offer little incentive for minimising waste" (p. 15). Rather than creating a long-term incentive for waste to go to landfill, it would be much better to redouble efforts to move to zero waste.

The plan change request must be rejected on the basis that it contradicts the Council's Low Carbon Strategic Action Plan.

4. Planning framework - Auckland Council's draft Climate Action Framework (2019) (plan change request section 5.2.3)

While Waste Management's current application for resource consent for the landfill is to be measured against the existing Unitary Plan, and the plan change request is in respect of any future landfill plans, it is useful to look at the implications of the current consent application.

The current proposed landfill documents suggest up to 300 return trips to the landfill by waste trucks in the first years of operation, rising to up to 500 return trips by 2060. Even if we conservatively estimate an average of 200 return trips 5 days a week, that is 52,000 return trips by heavy waste trucks per year. This is quite a contribution to carbon emissions but is not addressed in the response to the council's draft Climate Action Framework. Thus, the plan change request fails to deal adequately with all the climate change consequences of the landfill in terms of the council's draft Climate Action Framework.

The failure to properly address the climate impact of any future landfills created in the proposed precinct, and the service infrastructure they would require, in the context of the council's draft Climate Action Framework, means the plan change request must be rejected.
