## Submission details

### This is a submission to:

Plan change number: Plan Change 68

Plan change name: PC 68: Addition of a tree at 8 Eglinton Avenue to Schedule 10 Notable Tree Schedule

### My submission relates to

Rule or rules:  
Adding a large and important tree to the notable trees schedule

Property address: 8 Eglinton Rd Mt Eden

Map or maps:

Other provisions:

Do you support or oppose the provisions you have specified? I or we support the specific provisions identified

Do you wish to have the provisions you have identified above amended? Yes

The reason for my or our views are:  
Any large historic native tree needs protection to help prevent worsening of climate change and to maintain the green spaces which make our city appealing.  
Large trees are also vital for improving bird corridors and without them the decline of native and non0native bird populations will continue.

I or we seek the following decision by council: Approve the plan change without any amendments

1.1

Details of amendments:

Submission date: 25 September 2021

## **Attend a hearing**

Do you wish to be heard in support of your submission? No

## **Declaration**

Could you gain an advantage in trade competition through this submission? No

Are you directly affected by an effect of the subject matter of this submission that:

- Adversely affects the environment; and
- Does not relate to trade competition or the effects of trade competition.

Yes

I accept by taking part in this public submission process that my submission (including personal details, names and addresses) will be made public.

### Submission details

#### This is a submission to:

Plan change number: Plan Change 68

Plan change name: PC 68: Addition of a tree at 8 Eglinton Avenue to Schedule 10 Notable Tree Schedule

#### My submission relates to

Rule or rules:

Property address: 8 Eglinton Ave, Mt Eden

Map or maps:

Other provisions:  
Addition of a tree

Do you support or oppose the provisions you have specified? I or we support the specific provisions identified

Do you wish to have the provisions you have identified above amended? Yes

The reason for my or our views are:

It is important to have old, well established trees as part of the natural inner city environment. This tree contributes to local residents well being through its beauty; offers shade because of its size; provides a habitat for birds.

With the unpredictability of climate change it is going to be increasingly difficult to replace trees of this size. We have a responsibility to look after our natural heritage.

I or we seek the following decision by council: Approve the plan change without any amendments

I **support** the specific provisions identified above

I **oppose** the specific provisions identified above

I wish to have the provisions identified above amended Yes  No

The reasons for my views are:

Totally support retention of this beautiful mature pohutukawa

I have just been to view (and photograph) it from the road frontage - it is a feature that must NOT be removed

It forms a stunning backdrop to the section

(continue on a separate sheet if necessary)

I seek the following decision by Council:

Accept the proposed plan change / variation

Accept the proposed plan change / variation with amendments as outlined below

Decline the proposed plan change / variation

If the proposed plan change / variation is not declined, then amend it as outlined below.

I wish to be heard in support of my submission

I do not wish to be heard in support of my submission

If others make a similar submission, I will consider presenting a joint case with them at a hearing

Plan change number: Plan Change 68

Plan change name: PC 68: Addition of a tree at 8 Eglinton Avenue to Schedule 10 Notable Tree Schedule

#### My submission relates to

Rule or rules:

The addition of a single tree at 8 Eglinton Avenue to the Schedule

Property address: 8 Eglinton Avenue

Map or maps:

Other provisions:

The addition of a single tree at 8 Eglinton Avenue to the Schedule

Do you support or oppose the provisions you have specified? I or we support the specific provisions identified

Do you wish to have the provisions you have identified above amended? No

The reason for my or our views are:

This large native tree is an important part of the ecosystem, providing urban birds shelter. It would be a travesty to not protect this tree.

I or we seek the following decision by council: Approve the plan change without any amendments

14.1

Details of amendments:

Submission date: 29 September 2021

Plan change name: PC 68: Addition of a tree at 8 Eglinton Avenue to Schedule 10 Notable Tree Schedule

#### My submission relates to

Rule or rules:  
Making the tree protected and notable under the Tree Schedule.

Property address: 8 Eglinton Ave

Map or maps:

Other provisions:

Do you support or oppose the provisions you have specified? I or we support the specific provisions identified

Do you wish to have the provisions you have identified above amended? No

The reason for my or our views are:  
Auckland needs more of these ancient and precious trees notified, this is only one of many that have been left off, never has our city needed these giants more. Please Auckland Council consider doing a refresh of the schedule to make sure that more of these old trees are safe. It's a critical part of our climate change programme but an often forgotten element is the contribution trees, especially big old trees make to mental health.

### Submission details

#### This is a submission to:

Plan change number: Plan Change 68

Plan change name: PC 68: Addition of a tree at 8 Eglinton Avenue to Schedule 10 Notable Tree Schedule

#### My submission relates to

Rule or rules:  
Plan Change 68

Reinstate the Eglinton Avenue Pohutukawa on the register as a notable and protected tree under schedule 10.

Property address: 8 Eglinton Avenue

Map or maps: PC68

Other provisions:

Do you support or oppose the provisions you have specified? I or we support the specific provisions identified

Do you wish to have the provisions you have identified above amended? Yes

The reason for my or our views are:  
that this omission of a previously legally protected Pohutukawa tree was an administrative oversight which must be urgently corrected.

I or we seek the following decision by council: Approve the plan change without any amendments

42.1

Details of amendments:

Submission date: 29 September 2021

### **Attend a hearing**

**This is a submission to:**

Plan change number: Plan Change 68

Plan change name: PC 68: Addition of a tree at 8 Eglinton Avenue to Schedule 10 Notable Tree Schedule

**My submission relates to**

Rule or rules:

I strongly support the addition of a tree at 8 Eglinton Avenue to Schedule 10 Notable Tree Schedule. The retention of ALL MATURE TREES, whether exotic or native is vitally important for the climate, the environment, for people, for the wealth of all.

Property address: 8 Eglinton Avenue

Map or maps:

Other provisions:

Do you support or oppose the provisions you have specified? I or we support the specific provisions identified

Do you wish to have the provisions you have identified above amended? Yes

The reason for my or our views are:

All mature trees take years & years to grow. Exotic and native trees provide beauty to the environment and have served Auckland for many years with their climate mitigation, addition of beauty to the urban landscape, nesting habitats for birds, visual beauty to streetscapes, plus much more. Auckland has not valued these trees enough.

I or we seek the following decision by council: Approve the plan change without any amendments

Other provisions:

Do you support or oppose the provisions you have specified? I or we support the specific provisions identified

Do you wish to have the provisions you have identified above amended? Yes

The reason for my or our views are:  
The recent council rules have caused 30% of all tall trees to have been removed in Auckland.  
THIS IS ATROCIOUS AND UNEXCUSABLE.  
We cant afford to lose another one.

This tree used to be Scheduled but got missed off. It is now to go back on the list to protect it for future generations

Do you support or oppose the provisions you have specified? I or we support the specific provisions identified

Do you wish to have the provisions you have identified above amended? Yes

The reason for my or our views are:

We have lost so many notable trees around Auckland it is very very sad. Trees need to be seen as an asset not a roadblock or hurdle in the way of making money and developing land. Especially in the face of climate change and urban sprawl . This and many other trees needs to be saved.

Rule or rules:

Property address: 8 Eglinton Ave

Map or maps:

Other provisions:

Do you support or oppose the provisions you have specified? I or we support the specific provisions identified

Do you wish to have the provisions you have identified above amended? No

The reason for my or our views are:

I support the addition of the pohutakawa tree at 8 Eglinton Avenue to Schedule 10 Notable Tree Schedule. I own the property at 7 Stokes Rd, Mt Eden, on the corner of Stokes Rd and Eglinton Ave and my family have lived in that property from the 1970s until my father moved into a retirement village in 2017. The pohutakawa tree adds beauty and character to the neighbourhood. In this time of climate change it is important to keep large old trees because they use the greenhouse gas carbon dioxide and create oxygen. Please protect this tree.

Good morning Julian

I hope this email finds you well.

I am contacting you as you recently made a submission on Plan Change 68: Addition of a tree at 8 Eglinton Avenue to Schedule 10 Notable Tree Schedule. I have attached your original submission.

To clarify the plan change aims to undertake the following:

- the addition of a single tree at 8 Eglinton Avenue to the Schedule
- amending the mapped overlay to reflect this addition by identifying the verified location of the tree at 8 Eglinton Avenue.

The following are not included in Proposed Plan Change 68 (i.e out of scope):

- addition of any other trees or groups of trees to the Schedule besides the single tree at 8 Eglinton Avenue
- deletion of existing trees or groups of trees on the Schedule
- amendments to the objectives or policy framework or to any of the rules relating to Notable trees.

The submission states that you oppose the plan change and wish for it to be declined. However the reasons for your views are listed as “it is unnecessary to remove the mature trees they are part of the ecological heritage”.

I am just confirming that this was your intention or do you in fact wish to support this plan change and request that it be approved? If it is the latter are you able to please send a brief response to this email confirming this by Monday 8 November. If not then please disregard this message.

Please let me know if you have any questions

Kind regards

Teuila

Plan Change 68 to replace the Pōhutukawa at 8 Eglinton Ave onto the Schedule of Notable Trees in the Auckland Unitary Plan.

Do you support or oppose the provisions you have specified? I or we support the specific provisions identified

Do you wish to have the provisions you have identified above amended? No

The reason for my or our views are:

All of our mature trees, especially in a developing area such as Auckland, are valuable assets for community wellbeing, providing both mental and physical benefits. While these trees have minimal protection and have not been assigned monetary value apposite to the services they provide, we must rely on the Schedule of Notable Trees. I therefore support adding this notable mature native tree to the Schedule for its many values to the local community.

### Submission details

#### This is a submission to:

Plan change number: Plan Change 68

Plan change name: PC 68: Addition of a tree at 8 Eglinton Avenue to Schedule 10 Notable Tree Schedule

#### My submission relates to

Rule or rules:

Plan Change 68 to undertake the work to replace the Pōhutukawa onto Schedule 10 (Notable Trees).

Property address: 8 Eglinton Ave, Mt Eden, Auckland

Map or maps:

Other provisions:

Do you support or oppose the provisions you have specified? I or we support the specific provisions identified

Do you wish to have the provisions you have identified above amended? Yes

The reason for my or our views are:

I support the actions of The Tree Council / Tiakina Rakau in bringing this egregious legacy omission to the notice of Auckland Council and subsequent legal action to force Auckland Council to actually do their job. Every tree we can save in Auckland will contribute to the health and well-being of future generations.

I or we seek the following decision by council: Approve the plan change without any amendments

82.1

Details of amendments:

Submission date: 29 September 2021

### **Attend a hearing**

Do you wish to be heard in support of your submission? No

### **Declaration**

Could you gain an advantage in trade competition through this submission? No

Are you directly affected by an effect of the subject matter of this submission that:

- Adversely affects the environment; and
- Does not relate to trade competition or the effects of trade competition.

No

**Before you fill out the attached submission form, you should know:**

You need to include your full name, an email address, or an alternative postal address for your submission to be valid. Also provide a contact phone number so we can contact you for hearing schedules (where requested).

By taking part in this public submission process your submission will be made public. The information requested on this form is required by the Resource Management Act 1991 as any further submission supporting or opposing this submission is required to be forwarded to you as well as Auckland Council. Your name, address, telephone number, email address, signature (if applicable) and the content of your submission will be made publicly available in Auckland Council documents and on our website. These details are collected to better inform the public about all consents which have been issued through the Council.

Please note that your submission (or part of your submission) may be struck out if the authority is satisfied that at least one of the following applies to the submission (or part of the submission):

- It is frivolous or vexatious.
- It discloses no reasonable or relevant case.
- It would be an abuse of the hearing process to allow the submission (or the part) to be taken further.
- It contains offensive language.
- It is supported only by material that purports to be independent expert evidence, but has been prepared by a person who is not independent or who does not have sufficient specialised knowledge or skill to give expert advice on the matter.

Do you wish to have the provisions you have identified above amended? No

The reason for my or our views are:

This heritage Pohutukawa tree is of great local significance and should have been included in the protection of legacy trees in the first place. Disappointing that we have become so financially driven that trees of such value to the local community 'accidentally' lose protection status.

Other provisions:

Do you support or oppose the provisions you have specified? I or we support the specific provisions identified

Do you wish to have the provisions you have identified above amended? No

The reason for my or our views are:

I would like to see this tree added to the schedule of Notable trees in Auckland. This was the original intention and it was a clerical error that it is not there. In Auckland we are losing too many trees to development which are not protected. People are taking them out for all kinds of discretionary reasons (ie adding a wider driveway, reducing leaves, increasing light) which are based on personal taste without a regard to the broader impact to the community and to wildlife which depends on the trees. While we can't stop this happening for trees which are not notable, we should ensure that errors do not cause notable trees to be put at risk.

Other provisions:

The submission is to replace the Pōhutukawa at 8 Eglinton Ave, Mt Eden onto Schedule 10 (Notable Trees)

Do you support or oppose the provisions you have specified? I or we support the specific provisions identified

Do you wish to have the provisions you have identified above amended? No

The reason for my or our views are:

It is an anomaly that this magnificent tree is not protected in perpetuity and so it should be legally protected in the Schedule of Notable Trees

I or we seek the following decision by council: Approve the plan change without any amendments

Other provisions:

Do you support or oppose the provisions you have specified? I or we support the specific provisions identified

Do you wish to have the provisions you have identified above amended? Yes

The reason for my or our views are:

It is vital that trees such as the pohutukawa at 8 Eglinton Ave be protected before Auckland becomes a concrete jungle. For years now our beautiful heritage of mature trees, both native and exotic, has been decimated. It is our duty to preserve the treescape for future generations and it is distressing to watch it's gradual decline.

Rule or rules:

Property address: 8 Eglinton Avenue

Map or maps:

Other provisions:

Do you support or oppose the provisions you have specified? I or we support the specific provisions identified

Do you wish to have the provisions you have identified above amended? No

The reason for my or our views are:

Ngāti Whātua Ōrākei support Proposed Plan Change 68 to add the significant Pōhutukawa at 8 Eglinton Avenue to Schedule 10 Notable Tree Schedule in the Auckland Unitary Plan.

Ngāti Whātua Ōrākei feel all native trees are worthy of protection, as all native trees are significant. Indigenous biodiversity and the whakapapa of native trees holds significance to hapū and iwi. Our role as kaitiaki requires us to protect and nurture our environment, so it in turn can protect and nurture us. Taonga species, such as our native plants, serve a part in the tohu system as cultural and environmental indicators. They relate to the maramataka; a stellar, solar, lunar calendar system that is entwined with te aoturoa, the living world. This system was a key pillar in Māori society that helps maintain the balance of well-being or ora, upheld by tikanga and informed by cultural indicators such as indigenous biodiversity. Additionally, existing trees serve an ecological function in the taiao that cannot be mimicked or remedied by replanting or offsetting

**This is a submission to:**

Plan change number: Plan Change 68

Plan change name: PC 68: Addition of a tree at 8 Eglinton Avenue to Schedule 10 Notable Tree Schedule

**My submission relates to**

Rule or rules:

Schedule 10 – Schedule of Notable Trees in Chapter L of the AUP

Property address: 8 Eglinton Avenue, Mt Eden

Map or maps:

Other provisions:

Do you support or oppose the provisions you have specified? I or we support the specific provisions identified

Do you wish to have the provisions you have identified above amended? Yes

The reason for my or our views are:

Please correct the inaccuracy in the following sentence "Correcting this error in the Schedule and the corresponding viewer/planning map: ... is appropriate, as the AUP will function as intended by recognising and protecting trees scheduled for their natural heritage values."

My concern is that the AUP (as administered by Council) is neither adequately recognising notable trees, nor is it adequately protecting these trees.

The AUP has not, as yet, "recognised" any of the trees identified in hundreds of completed applications for scheduling. Instead of adequately "protecting" these trees, Council is, to the best of my knowledge, consenting the destruction of notable scheduled trees in non-notified proceedings.

Furthermore Council had decided, last year, against raising any enforcement action against a landowner who chainsawed a tree under the canopy of the scheduled tree at 54 Canal Road Avondale -- even though this landowner had made no application for consent.

This plan change should not be asserting, counterfactually, that the AUP is functioning "as intended by recognising and protecting trees" -- unless Council's understanding of the "intent" of the AUP is to provide a thin veneer of protection to the ever-decreasing number of living trees which had been memorialised on Schedule 10. Accordingly I seek an amendment.

I or we seek the following decision by council: Approve the plan change with the amendments I requested

137.1

Details of amendments: Replace "as the AUP will function as intended by recognising and protecting trees scheduled for their natural heritage values" by "as there can be no protection for this notable tree under the AUP until the tree is listed accurately on Schedule 10."

Thank you for the opportunity to present The Tree Council (TTC)'s submission on **Plan Change 68 - Addition of a tree at 8 Eglinton Avenue to Schedule 10 Notable Tree Schedule.**

This submission is made by The Tree Council, an independent, voluntary organisation, a non-profit incorporated charitable society which has been serving the Auckland community since 1986 in the protection of trees and as advocates for the significant benefits and services that our trees and green spaces provide.

The Tree Council wishes to speak to our submission if that opportunity is provided.

**Key Points:**

## 1. Support for the Plan Change proposal

The Tree Council **SUPPORTS** the proposal in Option 2 to add the Pōhutukawa located at 8 Eglinton Ave to Schedule 10 Notable Tree Schedule and The Tree Council thanks Auckland Council for undertaking this work to correct the error made by failing to transfer it from the Legacy Council Schedule into the Unitary Plan.

140.1

The Pōhutukawa located at 8 Eglinton Ave is extremely large, visually prominent and located on top of a volcanic geological feature. Its visual amenity and unusual setting both give it a significance in the local area that is unique and it is worthy of protection in perpetuity via listing in Schedule 10. We note that the Auckland Council Heritage Arborist has confirmed that the tree meets the scheduling criteria in the Unitary Plan.

## 2. Parties to the legal action

The Tree Council notes that this proposal is being made in response to legal action taken by The Tree Council to require Auckland Council to undertake this plan change process to replace the pōhutukawa onto Schedule 10. The s32 report's Section 2 Introduction fails to recognise that the court action was brought by The Tree Council and that The Tree Council is therefore a "party" to the negotiation and agreement. This is not just an agreement between the landowner and Auckland Council, neither of whom had any intention of replacing the tree onto Schedule 10 without The Tree Council taking Auckland Council to court to force it to happen. We note that this is recognised and expanded later in the report, but it is disappointing not to see it recognised in the Introduction as well. The Tree Council asks that this point is accurately reflected in all future correspondence and publicity on this issue.

## 3. Future review of Schedule 10

The Tree Council finds it interesting that the s32 report refers to the "scoping" of a full review of Schedule 10, including "opening it up" to further additions. The Tree Council fully supports Auckland Council undertaking such a scoping exercise and opening the schedule to new nominations, in fact we have lobbied Auckland Council's committees to take action on these very points on a number of occasions.

However, The Tree Council has recently received a letter from the Auckland Council CEO (18 June 2021) which states that he will *"not be recommending to elected members that they allocate funding to the updating of Schedule 10 of the Auckland Unitary Plan for the Long-term Plan 2021-2031"*. Auckland Council's Planning Committee also decided in November 2020 not to resource any budget for work to update the schedule with any of the 587 trees already nominated for scheduling, let alone "opening it up" to more nominations. Given the lack of allocated funding for the next 10 years for any of this work The Tree Council therefore considers this statement in the s32 report to be more of a PR exercise, given the extensive public criticism that Auckland Council has received over its management of the schedule and lack of protection for trees, than a statement of intent and The Tree Council considers that to be

misleading.

The Tree Council encourages Auckland Council to urgently process the 587 nominations for scheduling already received as well as opening up the schedule for new nominations since mature trees on private land are under serious threat and have no legal protection. The Tree Council understands that this work cannot form part of this Plan Change 68, but the point needs to be made that this work is critical to the management of the urban forest and urgent due to the rapid rate of loss of mature trees on private land.

Scientists have been telling us for decades that preserving our existing mature trees is one of the best things we can do to help ensure that our cities remain liveable in the future as climate change impacts our environment. The shade provided by our large mature trees will help mitigate the warming atmosphere.

It is council's responsibility to protect our native trees, and it was their mistake that led to this tree having its protected status removed and therefore they must do everything possible to rectify this serious mistake.

Council has a duty to advocate for the citizens of Auckland and not just property developers. The cities residents deserve to continue to live alongside our beautiful native trees. This has been proven to be positive for the health and wellbeing of the community.

**SUBMISSION ON PROPOSED PLAN CHANGE 68 TO THE AUCKLAND UNITARY PLAN

This is a submission on Proposed Plan Change 68 to the Auckland Unitary Plan (Operative in Part) – Addition of a tree at 8 Eglinton Avenue to Schedule 10 Notable Tree Schedule (“**Proposed Plan Change 68**”).

I could not gain an advantage in trade competition through this submission.

I wish to be heard in support of my submission.

If others make a similar submission, I would consider presenting a joint case with them at any hearing.

**Scope of submission**

1. This submission relates to Proposed Plan Change 68 in its entirety.

**Nature of submission**

2. I oppose Proposed Plan Change 68 to the Auckland Unitary Plan (Operative in Part) ("**Unitary Plan**") in full. | 148.1

**Reasons for submission**

3. My primary reasons for this submission are that Proposed Plan Change 68:
  - a. will not promote the sustainable management of natural and physical resources, and therefore will not achieve the purpose and principles of the Resource Management Act 1991 ("**RMA**"); | 148.2
  - b. will not meet the reasonably foreseeable needs of future generations; | 148.3
  - c. will not enable the social, economic and cultural well-being of the Auckland community to be met; | 148.4
  - d. is contrary to the purposes and provisions of the relevant planning documents, including the Unitary Plan and the Regional Policy Statement ("**RPS**"); | 148.5
  - e. is contrary to Part 2 and other provisions of the RMA, including sections 74 and 75, including the functions of Auckland Council ("**Council**") under s 31; and | 148.6
  - f. does not represent the most appropriate way to achieve the objectives of the proposal or the Unitary Plan, in terms of section 32 of the RMA. | 148.7
4. Further, the section 32 evaluation provided with Proposed Plan Change 68 is deficient. It provides little analysis to support its conclusions that the objectives of Proposed Plan Change 68 are the most appropriate way to achieve the purpose of the RMA.
5. Without limiting the generality of the above, additional specific reasons for declining Proposed Plan Change 68 in its current form are set out below.

**Background to Proposed Plan Change 68**

6. I am the owner of 8 Eglinton Avenue, Mount Eden. I purchased 8 Eglinton Avenue in July 2015.
7. At the time I purchased 8 Eglinton Avenue, the Proposed Auckland Unitary Plan had been notified and submissions on the Unitary Plan were being heard by an Independent Hearings Panel chaired by Environment Court Judge David Kirkpatrick.
8. In the interim, the property was subject to the then-operative Auckland City District (Isthmus Section) Plan. The pōhutukawa tree at the rear of the property was included under the Schedule of Notable Trees at Appendix 2 of the Plan, for its botanic and visual amenity values.
9. The pōhutukawa tree was not included in Schedule of Notable Trees annexed to the Draft or Proposed Auckland Unitary Plan. No submission was lodged seeking that the pōhutukawa tree

be included in the Schedule. Protection for the pōhutukawa tree therefore lapsed when the Unitary Plan was made operative in part on 15 November 2016.

10. In more recent times, I began exploring development opportunities for the site at 8 Eglinton Avenue. I engaged expert consultants to advise as to the development potential of the site. The proposal was to remove the existing dwelling and construct four or more townhouses on the site, which would necessitate removal of the pōhutukawa tree.
11. I understand that local members of the Tree Council (Auckland) Incorporated became interested in my development plans for the site. My solicitors were contacted by a board member of the Tree Council, which acknowledged my legal right to remove the pōhutukawa tree and said they were lobbying Auckland Council to have it scheduled.
12. On 29 April 2021, the Tree Council then applied (on an *ex parte*, ie without notice basis) for interim enforcement orders under 320 of the RMA preventing me from removing the pōhutukawa tree. At the same time, it applied under s 292 of the RMA to amend what it saw as a mistake or defect in the Unitary Plan regarding the pōhutukawa tree.
13. Proposed Plan Change 68 was the result of a compromise reached in respect of those applications between the Tree Council, myself, Auckland Council and Ngāti Whātua Whai Maia Limited. As the learned Environment Court Judge noted in his decision, Proposed Plan Change 68 will “*enable the status of the tree to be fully assessed and considered, with opportunity for submissions to be made and heard*”. In the interim, the status quo was preserved by continuation of the interim enforcement order until such time as Proposed Plan Change 68 has been finally determined.

#### **The scope of Proposed Plan Change 68**

14. It is concerning, therefore, that the section 32 analysis provided with Proposed Plan Change 68 appears to present its scheduling as a *‘fait accompli’*, on the basis that it was a data entry error. Whatever reasons are given for the failure by Auckland Council to include the pōhutukawa tree in the Draft or Proposed Auckland Unitary Plan, that does not obviate Auckland Council’s obligation to “*fully asses[s] and conside[r]*” the status of the tree alongside the requirements for scheduling notable trees under the Unitary Plan and the RMA.
15. The scope of Proposed Plan Change 68 must therefore consider whether:
  - a. whether the pōhutukawa tree is worthy of protection as a notable tree under Schedule 10; and
  - b. protection of the pōhutukawa tree meets the statutory tests under the RMA for amendments to a district plan, including those under ss 32, 74 and 75 and Part 2 of the RMA.
16. Presenting the scope of Proposed Plan Change 68 as simply a matter of ‘error correction’ does not give effect to the requirements of the RMA or the expectations set down by the Environment Court in this matter. What is required is a *full* assessment.

#### **Inaccurate assessment against relevant criteria – no basis to schedule**

17. The assessment provided with Proposed Plan Change 68 makes it clear that 20 points are required before a tree can be considered for scheduling as a notable tree.

18. The Council's assessment is deficient in two material respects:
- a. First, it is internally inconsistent. The Council's expert arborist has scored the pōhutukawa tree as being an exceptional example locally, and therefore receiving 5 points under the heading "Character or form". However, under Section 6 of the assessment, he has attributed 10 points to Character and form, suggesting that it is somehow regionally significant (despite there being numerous other pōhutukawa trees like it in the region). The expert also appears to have circled a 7 in relation to age and health, but has scored it an 8 in Section 6.
  - b. Secondly, it overstates the visual contribution of the tree to the area. The tree is quite clearly located in the backyard of 8 Eglinton Ave. I would be surprised if more than 100 people walked past it each day. Our house is located in a quiet suburban area, bordering the internal road for the Mount Eden Bowling Club. Very few, if any people walk along that route daily. It does not fall within the "local park/community/beside minor road or feeder road/catchment" to which it has been allocated. That reduces the score for visual contribution from 5 to 2 accordingly.
19. With those reductions in (a) and (b) above, which is the result of the Council's own expert analysis, the score for the pōhutukawa tree decreases from 25 to 19. As a result, the tree cannot be scheduled as notable. The fundamental underlying basis for Proposed Plan Change 68 is non-existent.

#### **Inappropriate objective – section 6(f)**

20. The stated objective, or purpose, of Proposed Plan Change 68 is to "*protect the identified RMA section 6 and 7 values of the*" pōhutukawa tree (Section 32 report, pp 2 and 8).
21. The section 32 report identifies one section 6 matter, namely the "*protection of historic heritage from inappropriate subdivision, use, and development*": RMA, s 6(f). Historic heritage is defined in s 2 of the RMA to mean "*those natural and physical resources **that contribute to an understanding and appreciation of New Zealand's history and cultures***" (my emphasis), deriving from a list of qualities and including historic sites, structures, places and areas; archaeological sites; sites of significance to Māori; and their surroundings.
22. The section 32 report does not provide any analysis of Proposed Plan Change 68 against s 6(f), other than the bald assertion in paragraph 17 above.
23. Section 6(f) relates to matters of historic heritage. Whilst B1.4 and B4 of the RPS use the term 'natural heritage', it is also clear from the description of natural heritage in B4 that it encompasses matters that do not relate to *historic* heritage, such as natural landscapes and features (s 6(b)); natural character (s 6(a)); and significant indigenous vegetation (s 6(c)). The description of trees in B4.1 refers to their contribution to Auckland's natural character and biodiversity, and not to its historic heritage. Relevantly, the pōhutukawa tree has only ever been identified for its botanic and visual amenity values, and not any historic heritage values.<sup>1</sup>
24. Section 6(f) does not apply to Proposed Plan Change 68. There are no other s 6 factors identified in the section 32 analysis, so it can be assumed that none apply.

---

<sup>1</sup> The assessment provided by Mr Flynn for Auckland Council to support the section 32 report identifies that the pōhutukawa tree is not associated with or commemorates a historic event; and does not have strong public associations or an historic association with a well-known historic or notable figure. Mr Flynn describes as "potential" a strong association with a local historic feature, namely the Mount Eden Bowling Club. However, it is worth noting that the Bowling Club is not identified in the Unitary Plan as having historic heritage values worthy of protection under s 6(f).

### Inadequate section 32 analysis – section 7(c) and (f)

25. The section 32 report identifies ss 7(c) and (f) values as requiring protection through Proposed Plan Change 68.
26. Section 7(c) refers to the maintenance and enhancement of amenity values. The section 32 report does not provide any analysis of amenity value, beyond the assessment provided by Mr Flynn from an arboricultural perspective. It does not assess how inclusion of the pōhutukawa tree within Schedule 10 would better maintain and enhance amenity values, other than to identify a “non-financial cost” associated with the potential loss of amenity value (Section 32 report, p 14). No attempt has been made to assess (quantitatively or otherwise) that potential loss.
27. Section 7(f) refers to the maintenance and enhancement of the quality of the environment. No assessment is provided against that matter. In the absence of such an assessment, it cannot be said to form part of the objectives of the proposal.
28. Although not included in the objectives/purpose of Proposed Plan Change 68, the Council's section 32 report also refers to s 7(i) of the RMA. Section 7(i) refers to the requirement to have regard to the effects of climate change. The section 32 report says that Proposed Plan Change 68 “*will achieve and have to...the effects of climate change*” as “*trees, particularly mature trees, are recognised as providing vital mitigation to [sic] the effects of climate change*”. On that logic, the removal of any tree anywhere would not achieve s 7(i). The contribution, if any, of the pōhutukawa tree to mitigating the effects of climate change is so negligible as to be de minimis and not relevant to consideration of this plan change.

### Inadequate section 32 analysis – section 7(b)

29. The Council's section 32 report says that Proposed Plan Change 68 will achieve and have regard to the efficient use and development of natural and physical resources under s 7(b) of the RMA because it is “*critical to ensuring that any use and development which may affect notable trees is undertaken with appropriate care*”. With respect, this is not what s 7(b) is directed towards.
30. Section 7(b) is directed at the *efficiency* of a proposed use and development of natural and physical resources, measured against the status quo.<sup>2</sup> It allows for a comparison of the costs and benefits of implementing policies. The production costs of a project, and the commercial viability of a proposal, are relevant matters that ought to be taken into account under this heading.
31. An assessment under s 32(1)(b)(ii) of the efficiency and effectiveness of provisions for achieving the objectives of a proposal must include an assessment of the costs and benefits of the environmental, economic, social and cultural effects that are anticipated from the implementation of the provisions. This includes the opportunities for economic growth and employment that are anticipated to be provided or reduced, and, if practicable, requires a calculation of the benefits and costs referred to above.
32. However, nowhere in the section 32 report has the Council attempted to calculate the cost of imposing these restrictions on the landowner. The section 32 report is entirely deficient in this respect. Under the status quo position (ie no restrictions), I would be able to construct four or more townhouses on the section with relative ease. With the restrictions imposed, the most I could achieve on-site is three townhouses. This cost to me (and to the local economy) has not been factored into the Council's assessment. Whether or not additional dwellings can be

<sup>2</sup> *Bunnings Ltd v Queenstown Lakes District Council* [2019] NZEnvC 59, [2019] NZRMA 426 at [175].

constructed, or sufficient development capacity retained on the site through other means, may have significant flow-on effects for the viability of any intensification of residential activity on the site.

33. It is well-known and understood that Auckland is suffering from a significant housing shortage, especially terraced housing and apartments which provide alternative choices and price-points to standalone single dwellings. Again, the implications of any decision to include the pōhutukawa tree within Schedule 10 of the Unitary Plan on the ability to provide additional housing have not been factored into the Council's assessment of risks and costs.
34. These factors are just as relevant (and should be weighed alongside) the identified s 7(c) objective above.

#### **Inadequate section 32 analysis – failure to assess against existing objectives**

35. At section 2.1 of the section 32 report, the Council identifies that the objectives of the proposal, as an amending proposal which does not seek to alter the existing objectives of the Unitary Plan, is the purpose of the proposal.
36. While that is correct in respect of s 32(1)(a), an assessment is also required under s 32(1)(b) as to whether the inclusion of the pōhutukawa tree is the most appropriate way to achieve the objectives. Under this subsection, the examination of “objectives” under s 32(1)(b) must relate to the objectives of the Unitary Plan to the extent that those objectives are relevant and would remain if Proposed Plan Change 68 would take effect.
37. There is no evidence to suggest that such an analysis has been undertaken. The analysis under s 32(1)(b)(ii) at Table 2 of the section 32 report is solely focussed on the Council's desired purpose, which is protection of the values inherent in the pōhutukawa tree. If that is the sole measure against which analysis is required under s 32, then the proposal becomes self-prophesising (put simply, the proposal is the best way to achieve the objectives of the proposal). The Council's s 32 report is materially deficient in this respect. That is, with respect, not the required analysis under s 32(1)(b) and (3).
38. In the absence of such an analysis, it is impossible to say whether or not the objectives of the Unitary Plan would be achieved better through Proposed Plan Change 68 or the status quo.

#### **Risk of acting or not acting – insufficient information under s 32(2)(c)**

39. In light of the deficiencies identified above in the Council's section 32 analysis, and contrary to the Council's position, there is insufficient information about the subject matter of Proposed Plan Change 68. In those circumstances, a risk assessment is required, balancing the risk of acting on that insufficient information with the risk of not acting. No such assessment has been undertaken. Again, the Council's section 32 report is deficient in that respect. In those circumstances, the balance of convenience favours the status quo.

#### **National Policy Statement on Urban Development 2020**

40. The Council's section 32 report refers to the decision in *Eden-Epsom Residential Society*,<sup>3</sup> which limits the application of the National Policy Statement on Urban Development (“NPSUD”) in

---

<sup>3</sup> [2021] NZEnvC 082.

respect of *private* plan changes.<sup>4</sup> That judgment has no application to a Council-initiated (ie public) plan change.

41. The section 32 report treats as irrelevant the bulk of the objectives and policies of the NPSUD, including those directed at “planning decisions” such as that required in respect of this plan change. That is a clear error of law. It is not for the Council to say which objectives and policies are relevant by artificially construing the purpose of Proposed Change 68 to relate only to natural heritage values. Rather, it must give effect to the NPSUD as a whole, and in doing so, make a thorough-going attempt to reconcile any policies that appear (at first blush) to conflict.<sup>5</sup>
42. The Council acknowledges that the NPSUD requires district plans to enable intensification of urban environments; and requires integrated, strategic and responsive decision-making on urban environments that is informed by robust and updated information (at p 19). Contrary to the Council’s position, and in addition to the objectives and policies it has identified, the following objectives and policies *are* relevant to Proposed Plan Change 68 and the limitations it would impose upon my land:
  - a. Objective 1: that New Zealand has well-functioning urban environments that enable all people and communities to provide for their social, economic, and cultural wellbeing, and for their health and safety, now and into the future.
  - b. Objective 2: that planning decisions improve housing affordability by supporting competitive land and development markets.
  - c. Objective 4: that New Zealand’s urban environments, including their amenity values, develop and change over time in response to the diverse and changing needs of people, communities and future generations.
  - d. Policy 1: that planning decisions contribute to well-functioning urban environments, which (at a minimum) have or enable a variety of homes that meet the needs, in terms of type, price, and location of different households (amongst other criteria).
  - e. Policy 6, and in particular, and the need to have regard to the fact that planned urban built form (consistent with the NPSUD) may involve significant changes to an area that may detract from amenity values appreciated by some people.
43. The NPSUD does not identify tree protection as a matter for which particular attention should be given in any planning decisions. Tree protection in-and-of-itself is not a qualifying matter under section 3.32 of the NPSUD in relation to building height and density. The objectives and policies identified by the Council (a) are not particularly directive; and (b) do not appear to conflict in any material way with the general policy direction towards intensification under the NPSUD.
44. It cannot, therefore, be said (especially in the absence of a proper assessment) that Proposed Plan Change 68 gives effect to the NPSUD as required under s 75(3) of the RMA.

---

<sup>4</sup> The principal issue before the Court was the definition of “proposed plan” under s 43AAC and the fact that it excluded private plan changes that are accepted, rather than adopted by a local authority. That issue does not arise in this case.

<sup>5</sup> *Environmental Defence Society Inc v New Zealand King Salmon Company Ltd* [2014] NZSC 36, [2014] 1 NZLR 593 at [131].

### Regional Policy Statement

45. The Council's assessment of the RPS (as incorporated into the Unitary Plan) is also highly selective and refers only to objectives and policies which can be said to support the Council's position. A holistic assessment of relevant objectives and policies is required in order to ensure that Proposed Plan Change 68 gives effect to the RPS.
46. In particular, the Council fails to assess the proposal against the issue of urban growth and form under B1.4 and B2.1 and its associated objectives and policies under B2.1 – 2.4 of the RPS. The section 32 report fails to consider whether or not the scheduling of the pōhutukawa tree is consistent with these objectives and policies; and/or is the most appropriate way of achieving those objectives. In particular, the Council has failed to acknowledge that the proposal is arguably inconsistent with:
- a. Objective B2.2.1 and the requirement for a quality compact urban form that enables (amongst other things) greater productivity and economic growth.
  - b. Policy B2.2.2(4) which calls for the promotion and enabling of urban growth and intensification within the existing urban area in Auckland.
  - c. Objective B2.3.1 and the need to contribute to a diverse mix of choice and opportunity for people and communities, and maximising resource efficiency (including land as a physical resource).
  - d. Policy B2.3.2 and the need to enable a range of built forms to support choice and meet the needs of Auckland's diverse population.
  - e. Objective B2.4.1 and the need for an a quality compact urban form, an increase in housing capacity and the range of housing choice which meets the varied needs and lifestyles of Auckland's diverse and growing population; and its associated policies.
47. In keeping with the Council's *'fait accompli'* approach to the assessment of the pōhutukawa tree, it has also failed to provide a proper assessment against the objectives and policies in B4.5. Indeed, the only policy referred to (B4.5(2)(4)) presuppose that a tree has been scheduled, and is therefore directed at planning rules associated with scheduled trees. The Council's assessment fails to refer to Policy B4.5.2(1) – which is the key policy on any assessment of a tree that is proposed to be scheduled – and the need to consider effects on property as part of any such assessment.
48. It follows that the Council has taken an extremely narrow approach to the interpretation of the relevant objectives and policies, and has excluded from its consideration several key factors which weigh heavily in favour of the status quo. No thorough-going attempt has been made to reconcile these objectives and policies either. Based on the level of assessment to date, the Council can have no confidence that scheduling the tree would give effect to the RPS as required under s 75(4) of the RMA.

### Unitary Plan - District

49. A similar, narrow approach has been taken to the objectives and policies of the Unitary Plan (at the district plan level). The Council's assessment identifies only one objective and one policy out of all district-level provisions, and has not referred to any of the Mixed Housing Suburban zone rules which also apply to the land.

50. The assessment against Policy D13.3(2) fails to include the following words shown in underline below:

- (2) Require notable trees and notable groups of trees to be retained and protected from inappropriate subdivision, use and development, by considering:
- (a) the specific attributes of the tree or trees including the values for which the tree or trees have been identified as notable;
  - (b) the likelihood of significant adverse effects to people and property from the tree or trees;
  - (c) the degree to which the subdivision, use or development can accommodate the protection of the tree or groups of trees;
  - (d) the extent to which any trimming, alteration or removal of a tree is necessary to accommodate efficient operation of the road network, network utilities or permitted development on the site;
  - (e) alternative methods that could result in retaining the tree or trees on the site, road or reserve;
  - (f) whether minor infringements of the standards that apply to the underlying zone would encourage the retention and enhancement of the tree or trees on the site;
  - (g) whether the values that would be lost if the tree or trees are removed can be adequately mitigated;
  - (h) whether the proposal is consistent with best arboricultural practice;
  - (i) methods to contain and control plant pathogens and diseases including measures for preventing the spread of soil and the safe disposal of plant material; and
  - (j) the provision of a tree management or landscape plan.

51. By excluding the words in underline above, the Council has presented tree protection as akin to an environmental bottom line which cannot be crossed, when in reality, and read in full, the policy is much more enabling. In any event, and as can be seen from the above, this policy is directed at consenting processes for dealing with scheduled trees, *not* whether or not a tree should be scheduled in the first place (which is provided for under the RPS).

52. The Council's assessment against the district plan level provisions of the Unitary Plan is therefore deficient and arguably misleading. It cannot be said that Proposed Plan Change 68 is either necessary or the most appropriate way to achieve the objectives of the Unitary Plan.

### **Unitary Plan - Regional**

53. It is also worth noting that, contrary to s 75(4) of the RMA, no consideration has been given to the consistency or otherwise between Proposed Plan Change 68 and the regional plan level provisions of the Unitary Plan. There is therefore no evidence to suggest that Proposed Plan Change 68 is consistent with those provisions.

### Functions of Auckland Council under s 31 of the RMA

54. The section 32 report says that it considers Proposed Plan Change 68 will assist the Council to carry out its functions as set out in s 31 of the RMA, but does not provide any detail as to why beyond a bare assertion.
55. The section 32 report does not address how Proposed Plan Change 68 will assist Auckland Council in achieving integrated management of the effects of the use, development, or protection of land and associated natural and physical resources of the district. Indeed, by focussing myopically on the purported need to correct an error in the Unitary Plan, the Council has not assessed the impact that Proposed Plan Change 68 will have on the use and development of 8 Eglinton Ave. It also does not assess how the Council will ensure that there is sufficient development capacity for housing land to meet the expected demands of the district, and the impact (albeit small) that the proposed scheduling of the pōhutukawa tree will have on the Council's ability to meet its requirements under s 31(1)(aa).

### Part 2

56. Finally, it is generally accepted that, while a plan change must be prepared in accordance with the principles of Part 2, the importance of Part 2 in decision-making processes under Schedule 1 to the RMA has diminished, following the Supreme Court's decision in *New Zealand King Salmon*.
57. Generally speaking, recourse to Part 2 in respect of a Schedule 1 process is appropriate only whether there is some uncertainty, illegality or incompleteness in the higher-order planning documents which have already been prepared in accordance with Part 2. In particular, a lower-order planning document may be considered to be incomplete where it has not yet been amended so as to give effect to a higher-order planning document.
58. The NPUSD was promulgated in July 2020, after the Unitary Plan became operative in part. As the Council's section 32 report acknowledges, plan changes to implement the NPSUD are not scheduled until 2022 at the earliest. It can be assumed, therefore, that at least in respect of urban development issues, the Unitary Plan is incomplete.
59. In those circumstances, it may be relevant to refer to Part 2, especially where the higher-order planning documents do not "cover the field". Unlike the New Zealand Coastal Policy Statement 2010, which was held in *King Salmon* to be a complete expression of Part 2 of the RMA, the NPSUD (which has not yet been given effect to under the Unitary Plan) cannot be said to cover the field. It is directed only at issues of urban development, and does not take into consideration all aspects of decision-making relevant to Schedule 1 processes in urban environments.<sup>6</sup>
60. To the extent that the Council's assessment against Part 2 principles relies on s 6(f) matters, the comments above in paragraph [20] to [24] have equal relevance here.
61. The comments in relation to s 7(i) in paragraph [28] above are also relevant to consideration of Proposed Plan Change 68 against Part 2.

---

<sup>6</sup> Cf the distinction between the NZCPS and the National Policy Statement on Electricity Transmission ("NPSET"), which was held not to "cover the field" so as to provide a complete expression of Part 2 of the RMA by the High Court in *Transpower Ltd v Auckland Council* [2017] NZHC 281 at [84].

62. Fundamentally, however, the Council's approach to frame this proposal as 'error correction' has blighted its consideration against the sustainable management purpose in s 5 of the RMA. By presenting the tree's scheduling as a *fait accompli*, it has failed to assess the impact of the proposed scheduling on my ability to use and develop 8 Eglinton Ave in a way, or at a rate, which enables people and communities to provide for their social, economic and cultural well-being, as well as their health and safety. It makes no attempt to assess the impact of effectively sterilising 25% of the site area from further development. Whilst that may appear trivial on a region or district-wide scale, there is an associated human impact at a local level that cannot be ignored. It means the land will not be able to provide further dwellings for families in need, in the context of a housing crisis that is stretching into its second decade.
63. Maintaining the status quo does not infringe against any of the identified environmental bottom lines in s 5(2)(a)-(c) and s 6 of the Act. The Council has not demonstrated sufficiently how its proposal would better achieve the purpose of the RMA than the status quo. In those circumstances, and in light of the risk of acting in the face of insufficient information, the only rational conclusion is to decline Proposed Plan Change 68.

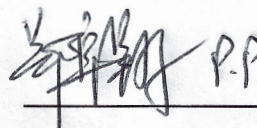

#### **Other effects of Proposed Plan Change 68**

64. It is likely that, as Proposed Plan Change 68 is analysed further, other adverse effects of Proposed Plan Change 68 will be identified. The above represents a snapshot of issues at this current point in time and is not intended to be exhaustive. We seek the right to provide evidence of other adverse effects in support of our submission as the process develops.

#### **Decision sought**

65. The decision I seek from the Council is that Proposed Plan Change 68 be declined.

Do you wish to have the provisions you have identified above amended? Yes

The reason for my or our views are:

It is important to retain and protect this large pohutakawa tree. It is over a hundred years old, and home to one hundred or more species. The tree itself is majestic and much loved by Mt Eden residents. It is worthy of protection and in this time of great concern about global warming it is alarming that trees in our city are at risk of removal.

Map or maps:

Other provisions:

Do you support or oppose the provisions you have specified? I or we support the specific provisions identified

Do you wish to have the provisions you have identified above amended? No

The reason for my or our views are:

I strongly support adding the pohutukawa at 8 Eglinton Ave, Mt Eden to Schedule 10.

It was left off the Schedule previously by accident and this is merely reinstating what the community and the property owner thought was already in place to protect it.

I note that Auckland needs to significantly improve our tree canopy cover, for biodiversity and climate change advantages, and adding this tree to the Schedule will assist with that. There have been a lot of trees lost recently, and more are under threat, since the central government rules were changed to reduce protection. While planting programmes are really encouraging, and will provide the mature trees of the future, we do need to retain these beauties too, especially when they are native and thus provide appropriate habitats for unique fauna as well as important cultural linkages.

Thank you for the opportunity to submit on this Plan Change.

The reason for my or our views are:

Our city is losing so many mature trees with developments. It's really important we schedule and protect Native Mature Trees. Our city is getting hotter we are getting more droughts. Trees are essential for our wellbeing, they offer shade, they are a crucial habitat for our bird and insect life. We must protect them at all costs.

Rule or rules:

Plan Change 68:

I support the addition of the mature Pohutukawa tree at 8 Eglinton Avenue, Mt Eden onto the schedule.

I support amending the mapped overlay to reflect this addition by identifying the verified location of the mature Pohutukawa tree at 8 Eglinton Avenue, Mt Eden.

Property address: 8 Eglinton Avenue, Mt Eden

Do you support or oppose the provisions you have specified? I or we support the specific provisions identified

Do you wish to have the provisions you have identified above amended? No

The reason for my or our views are:

Mature trees such as this are becoming far less common in our rapidly intensifying city. We urgently need to protect the significant mature trees that we have before they are lost forever.
