

## **Auckland Unitary Plan**

### **Notice of Requirement lodged by Auckland Transport for a new designation to upgrade Jesmond Road to Waihoehoe Road west in Drury. Part of the Drury Arterial Network package**

#### **Notice of Requirement**

Auckland Council has received a notice of a requirement for a new designation from Auckland Transport as the Requiring Authority for public works.

The requirement is for the construction, operation and maintenance of an upgrade to Jesmond Road to Waihoehoe Road west in Drury to a four lane Frequent Transit Network arterial with active transport facilities.

Key features of the Project include:

- A typically 28m or 30m wide road with four lanes including public transport and active transport facilities
- Localised widening around the existing intersections to accommodate for vehicle queuing and tie-ins and active transport facilities/crossings
- Batter slopes and retaining to enable widening of the corridor and/or stormwater wetland construction, and associated cut and fill activities (noting the indicative design is based on the existing landform and urban development adjoining these areas may change the work requirements).
- Areas for construction related activities including site compounds, construction laydown, bridge works area, the re-grade of driveways and construction traffic manoeuvring

The works described for the Project could be carried out in stages as urban development occurs surrounding the Project area.

Please refer to Volume 2 (NoR D2) for the Assessment of Effects on the Environment for the Project.
