

Auckland Unitary Plan

Notice of Requirement lodged by Waka Kotahi NZ Transport Agency for an alteration to Designation 6707 State Highway 22 to upgrade State Highway 22 between State Highway 1 Drury Interchange and Oira Creek, in Drury. Part of the Drury Arterial Network package.

Notice of Requirement

Auckland Council has received a notice of a requirement for an alteration of a designation from Waka Kotahi NZ Transport Agency as the Requiring Authority for public works.

The requirement is for the construction, operation and maintenance of an upgrade to the existing State Highway 22 between State Highway 1 Drury Interchange and Oira Creek for a four lane arterial with active transport facilities.

The key features of the Project include:

- Widening of SH22 road corridor from its current general width of 20m to enable a 30m wide four-lane road with active transport facilities
- Localised widening around the existing intersections to accommodate for vehicle queuing and tie-ins and active transport facilities/crossings
- Demolition and reconstruction of the existing Ngakoroa Stream Bridge
- New and extended culverts
- Three stormwater wetlands
- Batter slopes and retaining to enable widening of the corridor, and associated cut and fill activities (noting the indicative design is based on the existing land form and urban development adjoining these areas may change the work requirements).
- Areas for construction related activities including site compounds, construction laydown, bridge works area, the re-grade of driveways and construction traffic manoeuvring.

The works described for the Project could be carried out in stages as urban development occurs surrounding the Project area.

Please refer to Volume 2 (NoR D1) of the Assessment of Effects on the Environment for the Project.
