
Joint Engagement Plan 2021-2022 between the

**Devonport-Takapuna Local Board
and**

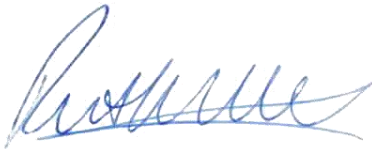

**Auckland Council's substantive Council-Controlled Organisations:
Auckland Transport, Auckland Unlimited, Eke Panuku Development Auckland,
and Watercare**

This Engagement Plan records the commitment to work together to ensure the best outcomes for Auckland and the communities of Devonport-Takapuna Local Board.

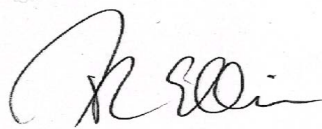

This document sits alongside the local board work programme and may include some items that also sit within the local board's decision-making and work programme.

This document may be subject to change during the year. Changes should be discussed with Local Board Services staff in the first instance and will be formalised in a business report each quarter.

Signed by:

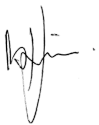

Ruth Jackson
Chair, Devonport-Takapuna Local Board

Shane Ellison
Chief Executive, Auckland Transport

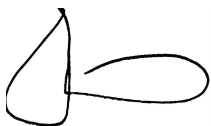

On behalf of Devonport-Takapuna Local Board as authorised by resolution
DT/2021/109

Nick Hill
Chief Executive, Auckland Unlimited

David Rankin
Chief Executive, Eke Panuku Development
Auckland

Jon Lamonte
Chief Executive, Watercare

Understanding and giving effect to Tāmaki Makaurau’s shared governance

The governing body and local boards share the decision-making responsibilities for Auckland Council. The governing body focuses on the big picture and region-wide strategic decisions, while local boards represent their local communities, provide local leadership, and make decisions on local issues, activities and facilities.

CCO responsibilities

Council-controlled organisations (CCOs) derive their powers from Auckland Council or directly from legislation in the case of Auckland Transport and Watercare. They carry out operational activities in areas important to local communities and businesses and so must work effectively with local boards within their areas. CCOs will:

- proactively build and maintain good relationships with local boards
- work collaboratively with the Devonport-Takapuna Local Board, other CCOs and council departments to ensure opportunities for good community outcomes are identified and maximised within the local board area
- operate in a manner that acknowledges the statutory role that local boards have in identifying and communicating the interests and preferences of their communities, and the key decision-making roles for local boards that are defined in council’s allocation policy. In particular, local boards’ leadership role in place-making and place-shaping activities
- communicate regularly with the local board on major issues, projects and activities
- assess potential public interest and, where possible, ensure local board members are briefed before an issue is discussed in a public forum (see No Surprises Protocols¹)
- engage with the local board early and in a way that allows it to influence projects and decisions; particularly those that may impinge on the local board’s governance role, are likely to have a significant and/or visible local impact or require community consultation
- engage with the local board ahead of public consultation and ensure adequate timing for the local board to consider their communities’ views and preferences and provide overall feedback.
- when creating their work programmes, take account of the priorities identified in the local board plan, local board agreement, and any strategies, policies, plans or legislation specific to the local board area
- act early and collaboratively to resolve issues and queries raised by local board members
- be clear about when material is confidential and the reasons for the confidentiality
- identify a single point of contact for each local board, with sufficient authority within the CCO to be an effective liaison with the local board, who will receive and direct queries and provide the CCO’s response to the local board
- support induction activities that enable local board members to engage effectively with CCOs
- report against their local board engagement plans in their quarterly performance reports to the CCO Governance and Monitoring Committee
- commit adequate resources for local board engagement.

¹ [Governance Manual for substantive CCOs](#)

Local board commitments

The Devonport-Takapuna Local Board will:

- proactively build and maintain good relationships with CCO staff
- advise CCOs of issues or projects of significance to the local board in its area
- involve CCOs in the development of the local board plan, so that CCOs can provide relevant advice and assist in the identification of priorities and deliverability assessments
- direct questions about a CCO's activities to either the Local Area Manager or to the CCO's elected member liaison, so queries are tracked, and consistent responses can be given
- advise CCOs if they are planning to speak to the media on a CCO-related matter (see No Surprises Protocols)
- respect commercially sensitive and confidential information
- allow for flexibility in terms of engagement, recognising differing levels of interest and local relevance across the Auckland region with each of the CCOs
- Recognise that CCOs are accountable to the community through the Governing Body. CCOs will endeavour to collaborate with local boards within the mandate and direction given to them by the Governing Body.
- In the event that there is a dispute over the implementation of this plan which cannot be satisfactorily resolved between the local board and the CCO, the local board has the option to provide input at the CCO Oversight Committee, when the CCO's quarterly report is being reviewed.

Devonport-Takapuna Local Board Plan outcomes

Local board outcome	Local board objective
Community participation and wellbeing	Communities feel safe, connected, and have access to services, programmes and activities that create a sense of wellbeing and belonging
	Communities feel they can contribute to decisions that affect them
	Diversity and cultural heritage are celebrated
	Everyone has the opportunity to be active and remain fit and healthy whatever their age or ability
Environment and heritage	Communities live more sustainably and are prepared for the impacts of climate change
	Conserve and celebrate our heritage areas, features, and buildings
	Eliminate or control plant and animal pests to allow native trees and birds to thrive
	Improve biodiversity outcomes and mitigate effects of carbon emissions
	Improve water quality in our marine environment, the Wairau Catchment and Lake Pupuke
	Significant environmental challenges are identified and responded to
Māori Values	Celebrate Māori culture and support te reo Māori to flourish
	Develop a relationship with Iwi

Local board outcome	Local board objective
	Māori communities are actively engaged to build a sense of belonging
	Māori narratives and history are reflected in our built and natural environment
Opportunity, prosperity, and growth	Our town centres and villages are attractive tourist destinations
	Our town centres are safe and attractive for residents, business, and visitors
	Our town centres are vibrant, offering events and activities that attract visitors and support local businesses
	Training and employment opportunities allow people to stay in their own areas and reduce travel
Parks, facilities, and open spaces	Community facilities are fit for purpose
	Our parks and open spaces feel safe and welcoming
	Parks and facilities are designed and maintained to meet the needs of our growing and diverse communities
	Provide a network of safe, high-quality parks and open space to meet community needs now and in the future
Transport and access	A network of well placed, accessible, and attractive walking and cycleways encourage use of active transport modes and get people where they need to be
	Our roads, footpaths, walkways, and cycleways are well designed and maintained and allow our residents to move around the area safely
	Public transport infrastructure is fit for purpose, safe and accommodates new travel modes favoured by our growing populations
	Reduce congestion on roads and carbon emissions by providing public transport options that are integrated, reliable, affordable, and convenient

Engagement approach with local board

	Commitment
1. Inform	We will keep you informed.
2. Consult	We will keep you informed, listen to and acknowledge concerns and aspirations, and provide feedback on how your input influenced the decision. We will seek your feedback on drafts and proposals.
3. Involve	We will work with you to ensure that your concerns and aspirations are directly reflected in the alternatives developed and provide feedback on how your input influenced the decision.
4. Collaborate	We will work together with you to formulate solutions and incorporate your advice and recommendations into the decisions to the maximum extent possible.
5. Empower	We will implement what you decide.

Extent of community engagement

	Description
A. Refer to local board plan outcomes and objectives	The local board represents the views of the community, with reference to the local board plan and its outcomes and objectives.
B. Impacted stakeholder consultation	In addition to local board views, the views of impacted stakeholders are sought.
C. Community engagement	The views of the community are sought and brought to the local board ahead of the local board providing its view.

Auckland Transport work programme

Please note that these projects may not all occur within the next financial year

Project/event/business area	Local Board decision?	Engagement approach with local board	Extent of community engagement	Interdependencies with other CCO, council or central government projects	Notes
Francis Street to Esmonde Road shared path	Yes	4. Collaborate	B. Impacted stakeholder consultation	None	Community engagement undertaken in 2016 as part of 10-year Budget. Further engagement with the Kingstone Group, who are developing the former Harbourside Church site.
Lake Road Improvements project	No	3. Involve	B. Impacted stakeholder consultation	Included in Auckland Transport Alignment Project Waka Kotahi	<ul style="list-style-type: none"> • Consultation on Indicative Business Case and preferred routes undertaken in 2016 and 2020 respectively. • AT Board approved Detailed Business Case in 2020. • Funding approved in AT Regional Land Transport Plan

Major and Business Event Pipeline	No	1. Inform *the level of engagement may change as event details become clearer and implications for the local area are understood	B. Impacted stakeholder consultation (including BIDS)	Varied (pendant on event) - New Zealand Major Events, Tourism New Zealand, Eke Panuku, Auckland Transport, Auckland Council	Major and Business events continue to work through the 2021/2022 programme of events with event organisers via Major and National programme, Elemental festival, Regional event fund and Business events fund. Events to note in coming year: Elemental AKL festival July-Aug, Women's Rugby and Cricket World Cup 2022, Men's Softball World Championships. Future major events secured beyond 2022 include The Ocean Race 2023, FIFA Women's World Cup 2023 and World Choir Games 2024. Over 25 Business events and conferences secured for Auckland 2021/2022.
Diwali Festival	No	1. Inform	B. Impacted stakeholder consultation*		
Lantern Festival	No	1. Inform	B. Impacted stakeholder consultation*		
Pasifika Festival	No	1. Inform	B. Impacted stakeholder consultation*		
Tamaki Herenga Waka Festival	No	1. Inform	B. Impacted stakeholder consultation*		
Elemental AKL Festival	No	1. Inform	B. Impacted stakeholder consultation	None	2021 Elemental AKL programme has 16 confirmed invested and 18 marketing only region-wide events, held between 14 July and 1 August 2021.
Host City/Partner 2023 FIFA Women's World Cup	No	1. Inform	B. Impacted stakeholder consultation	New Zealand Major Events (MBIE), Auckland Council, Eke Panuku, Auckland Transport	To be held in March 2023
Host City/Partner 2023 The Ocean Race	No	1. Inform	B. Impacted stakeholder consultation	None	To be held in February 2023
Bruce Mason Centre	No	1. Inform	B. Impacted stakeholder consultation	None	We will regularly keep the board informed of the opportunities and activities of interest in relation to the Bruce Mason Centre.
Auckland Unlimited Venues (Auckland Live, Zoo, Art Gallery, NZ Maritime Museum, Stadiums)	No	1. Inform	B. Impacted stakeholder consultation	None	We will keep the board informed of events, opportunities and changes relevant to your residents.

Project/event/business area	Local Board decision? Yes/No	Engagement approach with local board (1-5)	Extent of community engagement (A-C)	Interdependencies with other CCO, council or central government projects	Notes
Auckland Stadium Venue Development Strategy	No	1. Inform	B. Impacted stakeholder consultation	Auckland Council	We will ensure Local Boards are kept informed of the process and the outcome.

* Auckland Unlimited are committed to the implementation of this CCO engagement process to ensure Local Boards are communicated to and involved in a timely manner with these programmes of work. Where events are not solely owned and delivered by Auckland Unlimited, but instead managed by an event organiser or local operating model, as a Host City/Partner/supporter of these events, Auckland Unlimited will act as a conduit and facilitator of conversations to enable the local boards to engage directly with the event organisers where opportunity exists. If opportunity for increased engagement does occur – such as leverage opportunities in support of Local Board community outcomes—we will increase the engagement approach in line with the IAP2 spectrum to reflect it at the time.

Eke Panuku Development Auckland work programme and property portfolio

Please note that these projects may not all occur within the next financial year

Project/event/business area	Local Board decision?	Engagement approach with local board	Extent of community engagement (A-C)	Interdependencies with other CCO, council or central government projects	Notes
Takapuna town square – market lease	Yes	4. Collaborate	B. Impacted stakeholder consultation	None	None
Takapuna town square – potential relocation of war memorial	Yes	5. Empower	B. Impacted stakeholder consultation	Auckland Council's Parks Sport and Recreation and Events departments	None
Takapuna town square – naming	Yes	5. Empower	A. Refer to local board plan outcomes and objectives	None	None
Takapuna Campground	Yes	1. Inform	B. Impacted stakeholder consultation	Auckland Council's Community Facilities department	All necessary approvals have been provided by the local board (i.e. granting of lease and land owner approvals). Progress will be outlined in the six-monthly Panuku update report.
Anzac and Hurstmere Road – development site: toilet facilities	TBC	3. Involve	A. Refer to local board plan outcomes and objectives	Auckland Council's Community Facilities department	None
Innovating Streets for People programme (Huron and Northcroft streets)	No	3. Involve	C. Community engagement	Auckland Transport Town Centre speed management project	None
Streetscape upgrade (Huron and Northcroft long-term design solution)	No	3. Involve	B. Impacted stakeholder consultation	Auckland Transport approval of design	None
Portfolio Review	No	2. Consult	B. Impacted stakeholder consultation	The property review process involves consultation with all council departments and CCOs. Eke Panuku also has ongoing relationships with key Crown agencies regarding development opportunities and future land requirements.	On behalf of Auckland Council, Eke Panuku undertakes the property review process for properties that have been identified as potentially no longer required for a council service use. Consultation with all council departments and CCOs is undertaken as part of this review process. Public consultation is only required if the proposed disposal of a property meets the thresholds outlined in council's Significance and Engagement Policy or if there is a statutory requirement to consult.

Narrowneck/Handley (Haumaru)	No	1. Inform	B. Impacted stakeholder consultation	None	None

Watercare work programme

The following information was shared with Devonport Takapuna local board members in early 2021 to assist members with constituent discussions on the 10-Year Budget. The information provides a wider perspective of water and wastewater investment made on the North Shore to service growth and improve the quality of the environment across the Devonport Takapuna, Hibiscus and Bays, Kaipatiki and Upper Harbour Local Board areas. While not all projects or investment is in the Takapuna Devonport Local Board area, the interconnectedness of many of the networks and assets remains relevant to servicing local communities.

Wastewater

- In 2018 the \$30M Fred Thomas pump station and storage was commissioned to cater for growth in Devonport and Takapuna, helping significantly reduce wet weather wastewater overflows for a large part of the catchment. At the same time wastewater upgrades were undertaken in the Wairau Road area (\$14m). These works followed a major upgrade to the wastewater main from Mairangi Bay to East Coast Road (Windsor Park) (\$13m). Construction is about to begin on a new wastewater pump station with storage at Mairangi Bay (\$15M) which will transfer flows from the East Coast Bays area, pumping over the ridge and onto the Rosedale Plant for treatment. This project is important for transporting wet weather flows along the bays towards the plant, helping accommodate growth while also reducing overflows to local beaches when it rains.
- In 2015 a local \$3M wastewater upgrade was completed in Sunnynook to accommodate growth and reduce overflows. In 2017 a new wastewater pipeline (trunk sewer 8, \$9M) was installed in Northcote to service new growth.
- Future upgrades, post 2025, are also planned for the Chelsea wastewater network (\$15M). In 2025 a new pump station is also proposed for Seine Road in Milford. This will receive wastewater flows from the Castor Bay and Forrest Hill catchments diverted from the Alma Street Pump station helping to service intensification across the Milford and Takapuna catchments while reducing overflows to local waterways.
- Planning is underway in the Kaipatiki Catchment for the construction of a new rising main and associated connections to the local network.
- Investigation and planning work is also underway to look at options (e.g. a pump station or tunnel) for transferring wastewater from the broader Wairau catchment including the Smales Farm area through to the Rosedale Plant helping to provide a more resilient long-term solution to manage projected growth.
- Work continues (\$83m) on the expansion of the important strategic asset the Rosedale Wastewater Treatment Plant to accommodate new growth and flows including those redirected from the North West via the Northern Interceptor Project (currently under construction) and the extension of a new wastewater pipeline (East Coast Bays link sewer) from Windsor Park Mairangi Bay to the Rosedale wastewater Treatment Plant (\$32M, proposed for 2022).

Water

- The North Shore receives water produced from multiple dam, river and ground sources in the south and west of Auckland. Investment in plant upgrades such as the Waikato (\$145m) and the replacement Huia Water Treatment Plant (\$436M, starting 2025) help secure the future water supply to the North Shore. Similarly, investment in large water mains such as the Hunua 4 (\$400M – nearing completion) bringing water from the south helps secure the water supply into the city where it is then conveyed over the Auckland Harbour Bridge and onto the North Shore. Eventually the North Harbour No. 2 watermain (\$261M) will help secure water supply from the replacement Huia water treatment plant transporting it to the North Shore via an alternative route from the west.
- A new water booster pump station is planned for Westhaven beginning in 2022 (\$7.5M), which will help ensure sufficient water is moved across the harbour bridge to service growth on the north shore.
- Watercare will also continue to liaise with the relevant agencies regarding the potential for second harbour crossings as these are developed.
- Major investment in the local water storage and distribution network on the North Shore includes the expansion of the Triangle Road Pump Station (\$36M, completed 2017) which helps provide security of water flows from the west; the Albany Reservoir (\$4.9M, completed 2016) as well as the new pipeline and boost pump station (\$21M, completed 2019) linking the Albany and Pinehill Reservoirs and crossing the Tirohanga Whānui Spencer Road to Albany walking and cycling bridge – this project was developed in collaboration with Waka Kotahi and Auckland Transport

Active projects over the coming 12 months include:

Project/event/business area	Local Board decision? Yes/No	Engagement approach with local board (1-5)	Extent of community engagement (A-C)	Interdependencies with other CCO, council or central government projects	Notes
Castor Bay wastewater pipeline replacement and PS refurbishment	No	1. Inform	B. Impacted stakeholder consultation	Auckland Transport	Pipeline along Beach Road is aging and urgent need of replacement. Pump station will also be refurbished. School and stakeholders in the area informed. Start date 24 May.
Alma Road wastewater pipeline replacement and Pump Station refurbishment	No	1. Inform	B. Impacted stakeholder consultation	Auckland Transport	Works aiming for Aug/Sept 2021
Wairau Catchment Working Group	No	1. Inform	B. Impacted stakeholder consultation	Auckland Council's Healthy Waters department	Watercare will present at the Wairau Catchment working group meeting on 25 June
Rosedale wastewater plant site visit spring / summer	No	1. Inform	B. Impacted stakeholder consultation	None	In addition to a plant visit (including presentations on future planning) also consider opportunities to share knowledge and information about planned investment in water and wastewater services including the AMP which is released 1 July. The local board has indicated a desire to share positive messages about the Council group activities and investment with their constituents.
