Loop Road Reserve 238

12 Ngā Papa Rēhia Tū Takitahi / Individual Parks

This section covers the 285 parks in Hibiscus and Bays which are presented in individual sheets in alphabetical order. Please note these need to be read in conjunction with the park management principles and policies in Volume I of this plan.

12.1 Me pēhea te pānui i ngā whārangi papa rēhia takitahi / How to read the individual park sheets

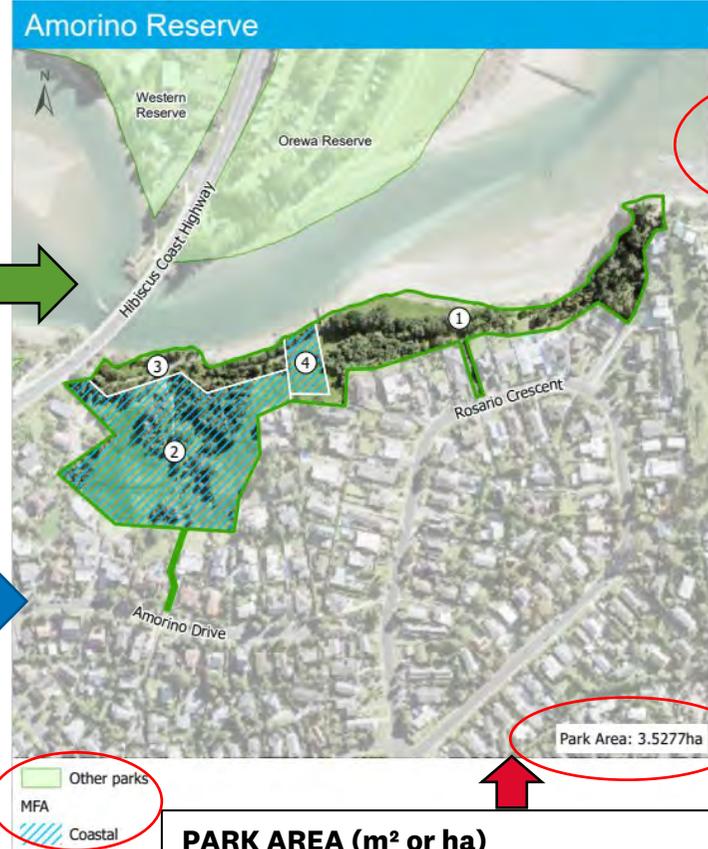

The following template explains how the content of the individual park sheets have been populated, including reference documents.

Amorino Reserve

Local parks that are adjacent, or in close proximity to a park will often be visible on the map.

In this example Orewa Reserve and Western Reserve sit on the north side of the estuary from Amorino Reserve.

The hatching shows management focus areas for land classified as recreation reserve or land held under the Local Government Act. In this example the recreation reserve has a Coastal management focus.

ADDRESS

- Physical street address derived from Auckland Council rate database.
- Some parks don't have a street number.

LAND STATUS

- The table shows the land status for each land parcel that makes up the park.
- Numbers on the map correspond to numbers in column 1 of the table.
- The land status includes the lot number (Appellation) and Reserves Act classification or identifies that the parcel is held under the Local Government Act 2002.
- Section 9 of this plan contains a description of each Reserves Act classification.
- The classification of a reserve can be changed as per section 24 of the Reserves Act

PARK AREA (m² or ha)

- This is the total area of all land parcels that make up the park. The area is in square metres (m²) if the park is under one ha in size.

The scale of the maps varies depending on the size and configuration of the park.

LEASES & LICENCES

Example: Current or contemplated leases and licences within existing footprints for:

Organised sport and facilities including lawn bowls and petanque (recreation reserve)

- This section identifies the types of leases and licence activities that are contemplated within existing lease area footprints. It will generally reflect the current lease/licence activities on the park and identify the land classification where these types of lease or licence activities can occur i.e., recreation reserve or local purpose (community use) reserve.
- Note: if new future leases types/activities are known/anticipated these will be identified/contemplated in the management intention section.

VALUES

KNOWN CULTURAL VALUES

- This section identifies areas of cultural significance to mana whenua. The examples below show the different levels of information how it will be displayed. All examples emphasise the need to discuss potential impacts on cultural values with mana whenua.
- **Example 1:** Area of cultural significance– refer to mana whenua.
This indicates areas that are likely to have significance for mana whenua. For example, many coastal or estuarine areas in Hibiscus and Bays may have been traditional food gathering or fishing areas, transportation routes or part of a wider cultural landscapes. This information is often not recorded or available to the public.
- **Example 2:** Recorded archeological site(s) of Māori origin – refer to mana whenua. This indicates a recorded Cultural Heritage Inventory (CHI) site of Māori origin. For

example, common CHI sites in Hibiscus and Bays are middens, pits and terraces.

- **Example 3** - Ringditch Pa site (CHI No. 11637) close to the Hillcrest Road boundary extending over lots 11 to 15 - refer to mana whenua.
This indicates in more detail a significant or unique recorded CHI site. This level of detail is only provided for larger or more prominent recorded sites.
- **Example 4** - Refer to mana whenua. ‘Refer to mana whenua’ will be displayed when an area or specific site has not been identified. Mana whenua may not always want to indicate or publicise areas or sites of cultural significance. Therefore, it is important to refer to mana whenua to ensure activities on parks can avoid impact on cultural values where no specific information is given in this section.

KEY RECREATIONAL VALUES

- This section outlines a list of key recreational activities currently associated with the park. The impact on these need to be considered alongside other park values when approving/determining what activities can take place on parks. Refer to the table in Appendix I later in Part D for descriptions of these values.
- This is not an exhaustive list or the only recreational values for a park but is intended to be a start point that indicates known prominent values associated with that park.
- **Example:** Beach access / Connection / Play space

SIGNIFICANT NATURAL VALUES

- **Example 1:** WF11 Kauri podocarp broadleaved forest.
- **Example 2:** High quality native vegetation including Kauri forest remnant at the east end, which includes mature Kauri – oldest estimated at 300 years.

- This section is predominantly populated from data contained in the *Indigenous terrestrial and wetland ecosystems of Auckland 2017*. The document describes 36 terrestrial and wetland ecosystems in the Auckland region and is based on the national ecosystem classification system. The description in example 1 above *WF11 Kauri podocarp broadleaved forest* relates to the relevant section in the document which provides details on ICUN threat status (e.g., least concern, vulnerable, endangered, critically endangered, collapse). as well as distribution, characteristics, threats etc.
 - Some parks may have additional information as described in example 2 where additional information on specific or unique known natural values may be useful.
 - **Note:** Most parks by virtue have a variety of natural values the intention of this section is to identify known significant or unique values that may not be covered by the Auckland Unitary Plan Significant Ecological Area overlays.

HERITAGE VALUES

- **Example:** Historic Structure – Military gun emplacement (CHI No. 3234)
This section identifies recorded Cultural Heritage Inventory sites other than sites listed in the Known Cultural Values Section above. Examples include military structures, monuments, historic trees and places.

OTHER INFORMATION

- This section covers miscellaneous information specific to the park that may impact use or development.
Example: Contaminated Land – Closed Landfill
- Environmental monitoring and asset management, monitoring and inspections to ensure safe use by public.
- Potential constraints on ground intrusive projects and activities and notification of potential hazards.

KEY MANAGEMENT ISSUES

- Example: Stream bank erosion within the park is increasing as intensification of the surrounding residential area grows and more stormwater is discharged into the catchment. This section outlines management issues specific to the particular park.
- **Note:** this is not intended to be an exhaustive list of general park issues. Not all parks have a specific management issues, often issues are common to parks in general or to parks with the same management focus. These issues are generally covered in Part C under the management focus overview in Section 10 or in general policies in Section 11.

MANAGEMENT FOCUS

Examples:

- Informal recreation, see 10.2
- Organised sport and recreation, see 10.5
Note: The management focus areas only apply to the land classified recreation reserve under the Reserves Act 1977 and the land subject to the Local Government Act 2002.
- Refer to Section 10 for a comprehensive explanation of how management focus areas apply to parks.
- **Example 1:** Maintain the informal recreation and coastal open space character of the park by balancing demands for increasing use of the park, particularly the beach frontage north of Laurence Street, for formal recreational activities and events (including those organised by lessees located on the park).
- **Example 2:** Consider implementing event free rest periods for parts of the park, or the whole park, to enable parkland to recover and protect causal use of the park during peak summer periods.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTION

- Management intentions describe the management approach and/or desired outcomes for specific activities, experiences or issues on individual parks.

- This section may also provide direction on how specific activities should be provided for (i.e., maintaining public access to the beach) or what park unique features are intended to be retained, maintained altered or protected. It also may signal development opportunities (if known) that may be considered in the future.

- Other parks
- MFA
- Informal recreation

36 Hibiscus Coast Highway Reserve

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

KEY RECREATIONAL VALUE

- Informal recreation – general

SIGNIFICANT NATURAL VALUES

- Native vegetation including kauri, totara, manuka and tanekaha.

OTHER INFORMATION

- The Weiti Stream surrounds the park on three sides.

- Industrial Court Esplanade Reserve is on the other side of Weiti River; Tavern Road Esplanade Reserve is on the other side of Hibiscus Coast Highway. Silverdale Hall, Silverdale Reserve and Wade Landing Reserve are also nearby.

KEY MANAGEMENT ISSUE

1. Pest plants threatening the ecological integrity of riparian areas.

MANAGEMENT FOCUS

- Informal recreation, see 10.2

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTION

1. To protect and enhance the natural values of the park including kauri, totara, manuka and tanekaha, native wildlife and associated ecosystems.
2. Consider improving recreational access, use and ecological enhancement including the proposals outlined in the [36 Hibiscus Coast Highway Concept Plan](#).
3. Consider formally naming the park.

Albatross Reserve

7 Albatross Road Red Beach

No	appellation	ReserveClass
1	Lot 21 DP 55108	Recreation Reserve
2	Part Lot 59 DP 43890	Local Purpose (Accessway) Reserve
3	Lot 45 DP 57023	Recreation Reserve

Other Land Status

Utility

MFA

Informal recreation

Albatross Reserve

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

KEY RECREATIONAL VALUES

- Connection
- Informal recreation - general

OTHER INFORMATION

- Access through this park and the adjacent stormwater pond links Albatross Road and Kukuwai Avenue.

- Nearby parks are Rosario Reserve to the north-east and Taikura Avenue Reserve to the south-west.
- Council's stormwater management team are responsible for managing the Kukuwai Avenue stormwater detention pond predominantly located on the adjoining Lot 500 DP 496280. This lot provides access to the park from Kukuwai Avenue but is outside the scope of this plan.

MANAGEMENT FOCUS

- Informal recreation, see 10.2
Note: The management focus only applies to the land classified recreation reserve under the Reserves Act 1977.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

Alice Eaves Scenic Reserve

2 Old North Road Orewa

No	appellation	ReserveClass
1	Lot 15 DP 47676	Scenic Reserve 19(1)(a)
2	Lot 1 DP 48277	Scenic Reserve 19(1)(a)
3	Lot 14 DP 47676	Scenic Reserve 19(1)(a)
4	Lot 11 DP 47676	Scenic Reserve 19(1)(a)
5	Lot 12 DP 47676	Scenic Reserve 19(1)(a)
6	Lot 10 DP 47676	Scenic Reserve 19(1)(a)
7	Lot 13 DP 47676	Scenic Reserve 19(1)(a)

Other parks

Alice Eaves Scenic Reserve

VALUES

KNOWN CULTURAL VALUES

- Ring ditch Pa site (CHI No. 11637) close to the Hillcrest Rd boundary extending over Lots 11 to 15 - refer to mana whenua.

KEY RECREATIONAL VALUES

- Connection
- Informal recreation - general
- Nature based activities
- Walking trails

SIGNIFICANT NATURAL VALUES

- WF11 Kauri podocarp broadleaved forest.
- High quality native vegetation including kauri forest remnant at the east end, which includes mature kauri – oldest estimated at

300 years, other mixed podocarps and a range of indigenous hardwoods, low growing mosses, ferns and orchids.

- Habitat for range of rare and threatened botanical species including: Angramma Leptophylla, Astellia Grandis and Pterostylis cardiostigma.
- Nukumea Stream runs along the parks southern boundary.
- Glow worm grotto.

HERITAGE VALUES

- For the park's historical background refer to the previous Alice Eaves Scenic Reserve Management Plan 1998 (amended 2008).

OTHER INFORMATION

- Named after Alice Caroline Eaves whose family bequeathed the land to the nation in 1960.
- The Eaves Bush Appreciation Group along with the Orewa Lions Club undertake pest control and track maintenance in this reserve.
- The Hibiscus and Bays Greenways / Local Paths Plan 2016 identifies a potential Greenway connection through the park between Hillcrest Road and Old North Road. The Alice Eaves Scenic Reserve to Hatfield's Path is one of seven high priority greenway connections for Hibiscus and Bays.
- Access through the park links Hillcrest Road, Old North Road, Hibiscus Coast Highway and Eaves Bush Parade.
- Nearby parks include Arundel Reserve (via a path under the highway bridge), the Forest Glen Esplanade Reserve (separated through Nukumea Stream) and Beachwood Drive Reserve.

KEY MANAGEMENT ISSUES

1. Risk of pathogen incursion, such as kauri dieback, infecting remnant kauri and other native vegetation due to the extensive track network through the park, proximity of kauri to existing formed walking tracks and lack of board-walking.
2. Lower tracks used to access bike park on adjoining private property require higher levels of maintenance particularly in damp and swampy areas.

3. Incursion of invasive weed and animal pests.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTIONS

1. Actively protect and enhance natural values within the park particularly native vegetation, wildlife and associated ecosystems.
2. Support opportunities to protect the park from pathogen incursion, such as kauri dieback, including opportunities to improve, realign or relocate paths through the park particularly those near kauri.
3. Protect the natural character of the reserve and consider opportunities to improve park users' experience and ability to connect with nature.
4. Protect cultural heritage associated with the park including the remnant ring ditch Pa site particularly when considering any future development or park enhancement.
5. Consider opportunities to improve connections through the park and deliver on the Hibiscus and Bays Greenways / Local Paths Plan 2016.
6. Consider rationalising underutilised and low-quality tracks, if required, to ensure limited maintenance resource can be focused on high use tracks and connections

Alverna Heights Reserve

Alverna Heights View Hobbs Bay

No	appellation	ReserveClass
1	Lot 102 DP 211914	Recreation Reserve

MFA

 Informal recreation

Alverna Heights Reserve

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

KEY RECREATIONAL VALUES

- Informal recreation – general

OTHER INFORMATION

- Buccaneer Court Recreation Reserve is to the south.

MANAGEMENT FOCUS

- Informal recreation, see 10.2

GENERAL POLICIES

- Refer to Section 11

No	appellation	ReserveClass
1	Lot 160 DP 57962	Local Purpose (Esplanade) Reserve
2	Lot 109 DP 70174	Recreation Reserve
3	Allot 630 PSH OF Waiwera	Local Purpose (Esplanade) Reserve
4	Lot 160 DP 56638	Recreation Reserve

- Other parks
- MFA
- Coastal

Amorino Reserve

VALUES

KNOWN CULTURAL VALUES

- Area of cultural significance - refer to mana whenua.

KEY RECREATIONAL VALUES

- Connection
- Cycling
- Informal recreation - general
- Shared paths

HERITAGE VALUES

- Historic Structure - Military Gun emplacement (CHI No.3033).

OTHER INFORMATION

- The southern bank of the Orewa river mouth/estuary entrance forms the northern boundary of the park and may be subject to coastal inundation during storm events.
- A public jetty located at the western end of Lot 160 DP 57962 provides recreational access from the park to the Orewa Estuary.
- Access through this park links Rosario Crescent, Amorino Drive and Hibiscus Coast Highway.
- Te Ara Tahuna cycleway route passes through the park.

- Nearby parks include the Orewa Estuary South Bridge Reserve, Orewa Reserve and Western Reserve.

KEY MANAGEMENT ISSUES

1. A combination of Onehari Chaos soil type and the impact of coastal hazards have resulted in poor drainage and erosion along the parks Orewa River / Estuary bank boundary.

MANAGEMENT FOCUS

- Coastal, see 10.1

Note: The management focus only applies to the land classified recreation reserve under the Reserves Act 1977.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

No	appellation	ReserveClass
1	Lot 281 DP 39432	Local Purpose (Esplanade) Reserve

Ardern Lookout Reserve

VALUES

KNOWN CULTURAL VALUES

- Area of cultural significance - refer to mana whenua.

KEY RECREATIONAL VALUE

- Informal recreation – general

SIGNIFICANT NATURAL VALUES

- CL1 Pohutukawa treeland flaxland rockland.

OTHER INFORMATION

- May be subject to coastal inundation during storm events.
- The park connects to Stanmore Bay Road Accessway in the southwest and Swann Beach Reserve in the southeast.

- Access through this park links Ardern Avenue and Swann Beach Road.
- Stanmore Bay Road – Ardern Avenue Accessway Reserve borders the park to the south-west; Swann Beach Reserve borders the park in the south-east.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

Arkles Bay Beachfront Reserve

2 Arkles Strand Arkles Bay

No	appellation	ReserveClass
1	Lot 198 DP 21728	Local Purpose (Esplanade) Reserve
2	Part Allot 28 PSH OF Waiwera	Local Purpose (Esplanade) Reserve
3	Lot 3 DP 38987	Local Purpose (Esplanade) Reserve
4	Part Lot 2 DP 31976	Local Purpose (Esplanade) Reserve
5	Lot 2 DP 38987	Local Purpose (Esplanade) Reserve
6	Lot 2 DP 55431	Local Purpose (Esplanade) Reserve

 Other parks

Arkles Bay Beachfront Reserve

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

KEY RECREATIONAL VALUES

- Beach access
- Boat launching
- Connection
- Informal recreation – general

SIGNIFICANT NATURAL VALUES

- WF4 Pohutukawa puriri broadleaved forest.

OTHER INFORMATION

- Coastal hazards have eroded the land parcels that make up Arkles Bay Beachfront Reserve.

As a result, large portions of these parcels may now be located in the common marine and coastal area (CMCA).

- The legal status of the open grassed area along the water frontage used for casual recreation is unformed legal road and is out of scope of this plan.
- While Auckland Council maintains this land, it is under the jurisdiction of Auckland Transport. The general policies and provisions of this plan will guide the local board’s position and any future input into management or development of this area where it is sought.
- Wade Heads Esplanade is to the south-west, McKenzie Avenue Reserve and Arkles Strand

Esplanade Reserve are to the northeast of the reserve.

KEY MANAGEMENT ISSUES

1. Coastal erosion has limited useable space to predominantly the narrow grass berm of the unformed legal road between Arkles Strand and the coastal edge.
2. The narrowness of Arkles Strand and the lack of formed carparking means the grass berm is used for parking causing damage to the berm and makes maintaining grass cover difficult.

3. Options to form or restrict carparking in most areas are limited due to space and potential impact on adjacent landowners.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

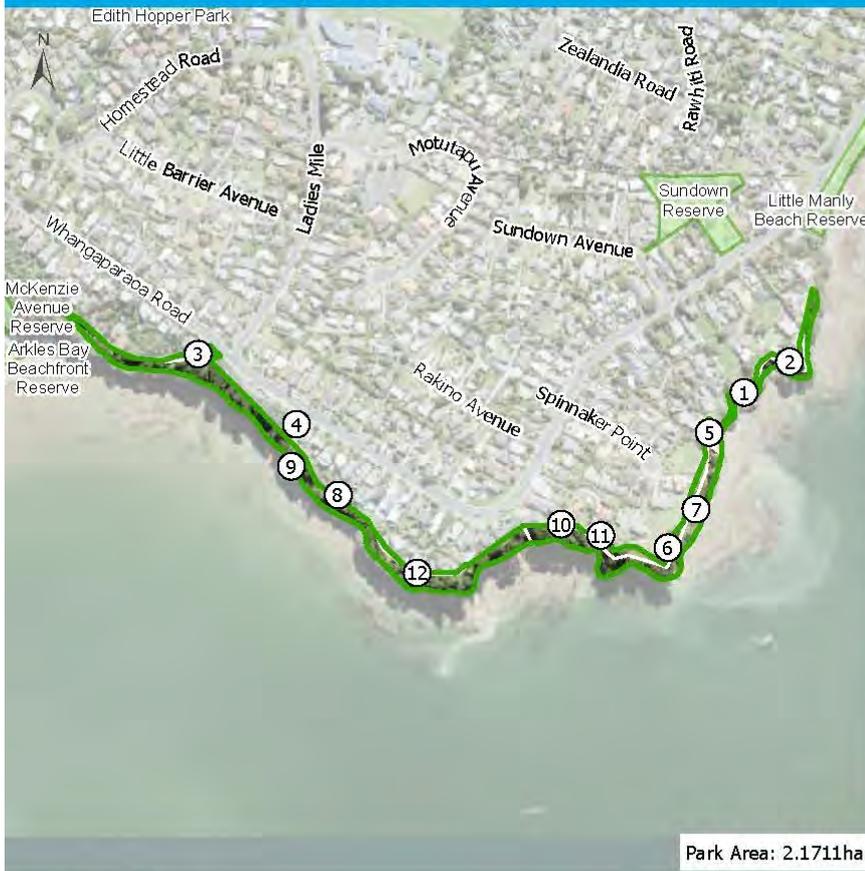

- Refer to Section 11

MANAGEMENT INTENTION

1. To work with Auckland Transport over the management of Arkles Bay Beachfront Reserve.

Arkles Strand Esplanade Reserve

Arkles Strand Esplanade Reserve

VALUES

KNOWN CULTURAL VALUES

- Area of cultural significance - refer to mana whenua.

SIGNIFICANT NATURAL VALUES

- WF4 Pohutukawa puriri broadleaved forest.

OTHER INFORMATION

- May be subject to coastal inundation during storm events.
- Access is limited to between Arkles Bay and Whangaparaoa Road as the majority of the park is located along steep exposed coastal cliffs that are prone to instability and slips.

- The park adjoins Arkles Bay Beachfront Reserve to the southeast.
- Access through this park links Whangaparaoa Road, Arkles Strand and Arkles Drive.
- Arkles Bay Beachfront Reserve and McKenzie Avenue Reserve are to the west.

MANAGEMENT FOCUS

- Recreation and ecological linkage, see 10.4
Note: The management focus only applies to the land classified recreation reserve under the Reserves Act 1977.

Arundel Reserve

LEASES & LICENCES

Current and contemplated leases and licences within existing footprints for:

- Organised marine recreation and education activities including Scouts (Allot 696 Psh of Waiwera SO 47562)

VALUES

KNOWN CULTURAL VALUES

- Area of cultural significance - refer to mana whenua.

KEY RECREATIONAL VALUES

- Beach access

- Community leisure and recreation
- Connection
- Informal recreation - general
- Water based activities

SIGNIFICANT NATURAL VALUES

- Sensitive coastal dune system.
- Multiple mature Pohutukawa throughout the park.

OTHER INFORMATION

- May be subject to coastal inundation during storm events
- Te Araroa (New Zealand's Trail) route passes through the park.

- Orewa Marine Parade Reserve is to the south, Forest Glen Esplanade Reserve and Alice Eaves Scenic Reserve are to the west of the park.
- The legal status of the open grassed area between Hibiscus Coast Highway and the reserve, used for casual recreation, is unformed legal road and is out of scope of this plan.
- While Auckland Council maintains this land, it is under the jurisdiction of Auckland Transport. The general policies and provisions of this plan will guide the local board's position and any future input into management or development of this area where it is sought.

KEY MANAGEMENT ISSUES

1. Popular unauthorised freedom camping location due to the proximity to the coast as well as parking and toilet facilities. Car park access, congestion, noise, litter, and antisocial behaviour have been issues on site.
2. Orewa Sea Scouts existing building is at capacity to accommodate rising membership and interest in the group.
3. Storm events and coastal hazards have caused erosion, loss of dune planting and exposure of the toe of the backstop sea wall during significant storm events.

MANAGEMENT FOCUS

- Coastal, see 10.1

MANAGEMENT INTENTIONS

1. If the Sea Scouts building is unable to accommodate increased capacity for their activities, encourage reconfiguration of the building, off park storage and other options that recognise the need to retain open space and the constraints of building in a dynamic coastal environment.
2. Consider location of a lifeguard tower at the park that supports the Orewa Beach Surf Lifesaving Service extending their formal service along the length of Orewa Beach.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MFA

 Coastal

Buster Elliot Memorial Landing Reserve

LEASES & LICENCES

Existing lease for:

- Marine related recreation and activities including boating club and boat maintenance including the Stillwater Boating Club Inc (Section 1 SO 65441)

VALUES

KNOWN CULTURAL VALUES

- Area of cultural significance - refer to mana whenua.

KEY RECREATIONAL VALUES

- Boat launching
- Informal recreation - general
- Water based activities

OTHER INFORMATION

- Named after Buster Elliot, a member of the Stillwater Boating Club, who was the driving force behind the reclamation of land to create this park.
- May be subject to coastal inundation during storm events.
- The park is predominantly reclaimed land projecting into the Weiti River.
- Buster Elliot was the driving force behind the Stillwater Boating Club's construction of the reclamation in the 1970s.
- The area to the south is stopped road outside of Section 1 SO 65441 and while maintained as

part of the park is outside the scope of the plan.

- Nearby parks include Duck Creek Reserve and Stillwater Reserve.

KEY MANAGEMENT ISSUES

1. Limited practical public access to the park and perception of exclusive use and access.
2. Limited trailer parking and space for boat rigging.
3. The size of the water bore and capacity and quality of the water supply system at the park is often insufficient to supply the public toilets and boating club activities simultaneously.
4. Risk of boat maintenance activities carried out on the park affecting the water quality of Weiti River.

MANAGEMENT FOCUS

- Coastal, see 10.1

MANAGEMENT INTENTIONS

1. To maintain and consider opportunities.

2. to enhance safe and obvious public access to the park's water frontage and public use of the boat launching facilities.
3. Consider options to separate and improve the public toilet and boat club's water supply.
4. Manage activities undertaken on the park, particularly boat maintenance and park development, to protect the water quality of the Weiti River.
5. to enhance safe and obvious public access to the park's water frontage and public use of the boat launching facilities.
6. Consider options to separate and improve the public toilet and boat club's water supply.
7. Manage activities undertaken on the park, particularly boat maintenance and park development, to protect the water quality of the Weiti River.

Centreway Reserve

LEASES & LICENCES

Current and contemplated leases and licences within existing footprints for:

- Activities, services and associated facilities relating to performing and visual arts (Lot 1 DP 112337).

VALUES

KNOWN CULTURAL VALUES

- Area of cultural significance – refer to mana whenua.

KEY RECREATIONAL VALUES

- Community leisure and recreation
- Cycling
- Informal recreation - general
- Shared paths

SIGNIFICANT NATURAL VALUES

- SA1 Mangrove forest scrub.

OTHER INFORMATION

- May be subject to coastal inundation during storm events.

- Riverside Marginal Strip held under the Conservation Act 1987, adjoins the park's western and southern boundaries. This links with Western Reserve to the south and provides for the Orewa Millennium Walkway and Te Ara Tahuna Cycleway. Auckland Council has a management agreement with the Department of Conservation to manage this crown-owned marginal strip.
- Access through this park also links Centreway Road, Riverside Road, and to Hibiscus Coast Highway (via the Riverside Marginal Strip and Western Reserve).
- Crampton Court Reserve, Grant Park, Loop Road Reserve, Maygrove Esplanade Reserve, Maygrove Reserve, Moenui Avenue Reserve, Nickell Place Reserve, Orewa Estuary South Bridge Esplanade Reserve, Orewa Reserve, Pohutukawa Reserve and Esplanade, Riverside Road Esplanade Reserve, Settlers Grove Reserve (Eastern) and Te Motu-o-Marae-Ariki (Crocodile Island) are all nearby.

KEY MANAGEMENT ISSUES

1. Susceptible to flooding and inundation particularly when severe storm events and king tide coincide.
2. Limited parking for the Centrestage Theatre may come under further pressure when the Auckland Council Orewa offices are divested and privately developed.

MANAGEMENT FOCUS

- Informal recreation, see 10.2

4	Part Lot 4 DP 95984	Local Purpose (Esplanade) Reserve

Other parks

Dacre Historic and Esplanade Reserve

VALUES

KNOWN CULTURAL VALUES

- Recorded archaeological site of Māori origin (Pa site). Refer to mana whenua.

KEY RECREATIONAL VALUES

- Beach access
- Camping (managed small groups)
- Connection
- Education
- Informal recreation - general
- Nature based activities
- Walking trails
- Water based activities

SIGNIFICANT NATURAL VALUES

- CL1 Pohutukawa treeland flaxland rockland
- DN2 Spinifex pīngao.
- EF Exotic forest.
- EG Exotic grassland.
- ES Exotic scrub.
- SA1 Mangrove forest scrub.
- VS5 Broadleaved scrub forest.
- WF4 Pohutukawa puriri broadleaved forest.
- WL10 Oioi restiad rushland reedland.
- Kauri.
- The park contains one of the best remaining examples of lowland coastal forest.

- Variety of rare and threatened shore waders and birds particularly New Zealand Dotterel, Variable Oystercatcher, Shore Plover, Godwit, Caspian Turn, White faced and Reef Herron.
- Intertidal shell spits (chenier spits) located at the north of the park have been identified as some of the best examples of actively forming intertidal shell spits in New Zealand and have been classified as being of international importance (Kenny and Hayward 1993).

HERITAGE VALUES

- Historic Dacre Cottage.

OTHER INFORMATION

- Named after early settler Randolph Dacre, who owned the land in the 1840's.
- Dacre Cottage is cared for by the Dacre Cottage Management Committee and is available for small groups to book.
- For a brief history of the park including background on the Okura walkway that passes through the park refer to the previous Dacre Historic and Esplanade Reserve Management Plan 2000.
- Te Araroa (New Zealand's Trail) route passes through the park.
- An easement over adjacent Lot 170 DP 513840 provides access from the carpark on Ara Weiti Road down to the park.
- Access through the park links to the Department of Conservation's Okura Bush Walkway and the Okura Estuary Scenic Reserve (Currently closed due to kauri die back).
- May be subject to coastal inundation during storm events.

KEY MANAGEMENT ISSUES

1. Accelerated erosion of the Karepiro Stream bank and beach dune system due to the increased stormwater discharged from adjoining residential land development.

2. Decline of rare and threatened wildlife and their habitat, particularly foreshore wading birds, is anticipated to increase as access to the park is made available from the residential development adjoining the park; any future reopening of the Okura Bush walkway on adjacent Department of Conservation land; and stormwater runoff and sediment pollution outlined in management issue 1 above.
3. Risk of pathogen incursion, such as kauri dieback, infecting remnant kauri forest and other native vegetation, particularly on the northern side of Karepiro Stream, due to the proximity of kauri to existing formed walking tracks.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

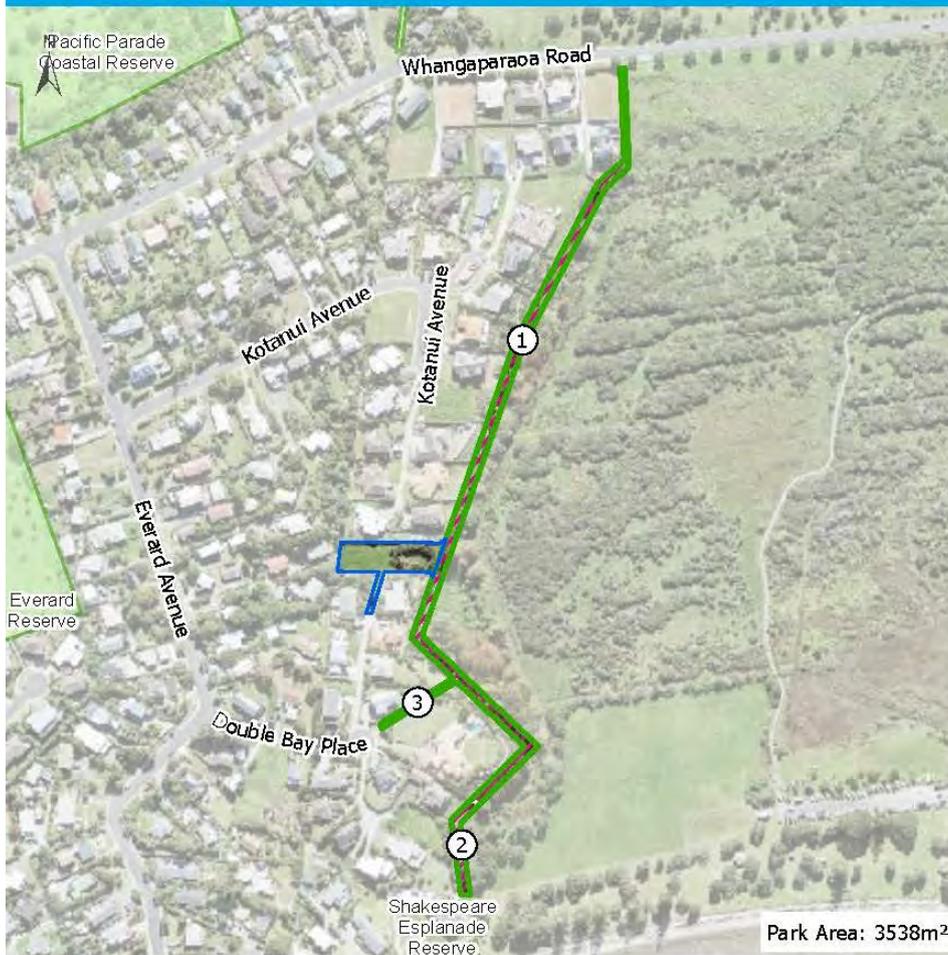

- Refer to Section 11

MANAGEMENT INTENTIONS

1. Protect the natural character of the park and support opportunities to protect and improve ecology and wildlife habitat, particularly for rare and threatened coastal bird species that inhabit the park and adjacent coastal environment.
2. Consider opportunities to develop and enhance access through the park to help manage the impact of increased park use, particularly where it impacts wildlife and their habitat, natural features such as dunes and spits, native vegetation and/or cultural and historic sites.
3. Consider opportunities to improve park users' experience, including the ability to connect with and learn about the nature, wildlife and history of the park.
4. Work together with the Department of Conservation to manage the pedestrian connection between the Okura Bush Reserve and Dacre Historic and Esplanade Reserve.

Double Bay Place Reserve

Edith Hopper Park

LEASES & LICENCES

Current and contemplated leases and licences within existing footprints for:

- Organised sport and facilities including netball and tennis (Lot 1 DP 105837 and Lot 1 DP 163402).
- Organised recreation and education activities and facilities including bridge club (Lot 1 DP 145464).

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

KEY RECREATIONAL VALUES

- Connection
- Informal recreation - general
- Organised sport
- Play space
- Shared paths

OTHER INFORMATION

- Named in memory of local postmistress Edith Hopper, whose family farmed the area since 1924.
- The park's entrance is marked by memorial gates to Edith Hopper. A memorial Oak tree planted between the bridge club and the tennis courts is also in her memory.

- Large open stormwater drains run around the southern and western sides and east-west through the middle of the park.
- Walkways through the park connect Ladies Mile, Kenneth Hopper Place, Onepu Lane and Homestead Place.
- Arkles Bay Beachfront Reserve, Arkles Strand Esplanade Reserve, Manly Park, McKenzie Avenue Reserve, Polkinghorne Reserve, Shuttleworth Reserve and Whangaparaoa Community Centre are all nearby.

MANAGEMENT FOCUS

- Organised sport and recreation, see 10.5

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTIONS

1. Consider improving play opportunities for older children and encouraging family use by providing opportunities for junior play.
2. Investigate improvements for netball and additional provision for tennis, including an option for a multi-use feasibility as identified in the ‘Edith Hopper Court Development Feasibility Study 2020’.
3. Consider improving amenity of the park and health of waterways through riparian planting considering the function of the waterway and the impact of planting on maintenance operations and adjacent recreation facilities.
4. Consider expanding street to street connections through the park and providing for fitness-based recreation.

Gulf Harbour Drive Plantation Reserve

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

KEY RECREATIONAL VALUES

- Connection
- Informal recreation - general

OTHER INFORMATION

- Burwood Reserve, Castaway Place - Admiralty Rise Accessway, Gulf Harbour Recreation Reserve, Kensington Terrace Reserve, Laurie Southwick Parade, Regency Park Drive

Plantation Reserve and Tindalls Bay Road to Coal Mine Bay Esplanade.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTION

- Consider opportunities to improve connections through the park and deliver on the Hibiscus and Bays Greenways / Local Paths Plan 2016.

No	appellation	ReserveClass
1	Lot 10 DP 127000	Recreation Reserve

- Other parks
- MFA
- Informal recreation

Gulf Harbour Marina Hammerhead Reserve

VALUES

KNOWN CULTURAL VALUES

- Area of cultural significance – refer to mana whenua.

KEY RECREATIONAL VALUES

- Beach access
- Connection
- Informal recreation – general
- Water based activities

OTHER INFORMATION

- May be subject to coastal inundation during storm events.

- The Gulf Harbour Marina public toilets and boat ramp at the end of Laurie Southwick Parade are not located within the park.
- To the west is the Gulf Harbour to Matakata Esplanade. Balboa Reserve, Beauvoir Avenue Reserve, Laurie Southwick Parade, Matakata Scenic Reserve and Rakauananga Point Esplanade Reserve are also nearby.

MANAGEMENT FOCUS

- Informal recreation, see 10.2

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTION

1. Consider opportunities to extend / connect with future fitness network provided at Gulf Harbour Recreation Reserve and along Laurie Southwick Parade.

Gulf Harbour Recreation Reserve

Laurie Southwick Parade Hobbs Bay

No	appellation	ReserveClass
1	Lot 1 DP 194956	Recreation Reserve
2	Lot 2 DP 194956	Recreation Reserve

- Organised sport and recreation

Gulf Harbour Marina Recreation Reserve

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

KEY RECREATIONAL VALUES

- Informal recreation - general
- Organised sport
- Play space

OTHER INFORMATION

- May be subject to coastal inundation during storm events.

- Buccaneer Court Recreation Reserve, Castaway Place - Admiralty Rise Accessway, Gulf Harbour Drive Plantation Reserve, Gulf Harbour Village Reserve, Kensington Terrace Reserve, Laurie Southwick Parade and Regency Park Drive Plantation Reserve are nearby.
- Council owned Lot 7 DP 194956, which runs along the western southern boundaries has a primary stormwater management function which is the responsibility of council's

stormwater management team. This parcel is out of scope of this plan.

KEY MANAGEMENT ISSUE

1. Due to lack of mature vegetation and general park development the park is very exposed the wind and lacks shade.

MANAGEMENT FOCUS

- Organised sport and recreation, see 10.5

MANAGEMENT PRINCIPLES

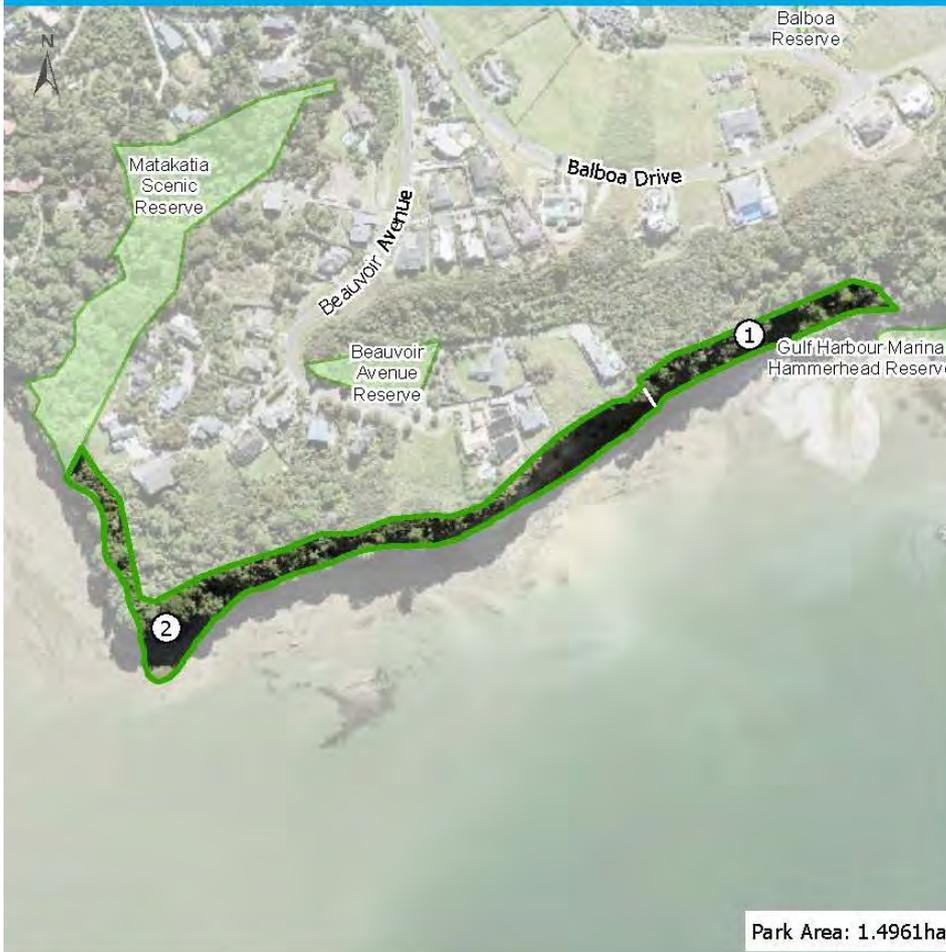

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTION

1. Consider opportunities for individual, family and group fitness suitable for a wide age-range of users; particularly opportunities that compliment and link with any future fitness offer between Gulf Harbour and Army Bay.

2	Lot 49 DP 197626	Local Purpose (Esplanade) Reserve

Other parks

Gulf Harbour to Matakatia Esplanade

VALUES

KNOWN CULTURAL VALUES

- Refer to mana whenua.

SIGNIFICANT NATURAL VALUES

- WF4 Pohutukawa puriri broadleaved forest.

OTHER INFORMATION

- The park extends along the coast from Matakatia Scenic Reserve in the west to Gulf Harbour Hammerhead Reserve to the east. However, coastal hazards have eroded parts

of the park and as a result a large portion of the park's land parcel is either steep coastal cliff or may now be located in the common marine and coastal area (CMCA).

- Other nearby parks include Balboa Reserve, Beauvoir Avenue Reserve and Zita Reserve.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

8	Lot 10 DP 51417	Local Purpose (Esplanade) Reserve
9	Lot 3 DP 87622	Local Purpose (Esplanade) Reserve
10	Lot 8 DP 39654	Local Purpose (Esplanade) Reserve

Hatfields Beach Reserve

VALUES

KNOWN CULTURAL VALUES

- Area of cultural significance - refer to mana whenua.

KEY RECREATIONAL VALUES

- Beach access
- Boat launching
- Connection
- Informal recreation - general
- Water based activities

SIGNIFICANT NATURAL VALUES

- CL1 Pohutukawa treeland flaxland rockland.

- PL Planted vegetation.
- Otanerua Stream and riparian edge interface with the park along the northwestern boundary.

OTHER INFORMATION

- Coastal processes have eroded the park and as a result a portion of the park may now be located in the common marine and coastal area (CMCA).
- Contaminated land – closed landfill. Ongoing monitoring and inspections of closed landfill to ensure safe use by public.

- Under the current Freedom Camping Bylaw 2015 (under review) there is a freedom camping designated site on the west side of the Hibiscus Coast Highway adjacent to the toilet block.
- Campervan dump station site.
- Otanerua Stream runs along the western boundary of the park.
- Access through the park links Hibiscus Coast Highway and Ocean View Road.
- Alice Eaves Scenic Reserve, Arundel Reserve, Forest Glen Esplanade, Orewa Marine Parade Reserve, Orewa North Lookout and Otanerua Reserve are nearby.

KEY MANAGEMENT ISSUES

1. Unauthorised freedom camping particularly on the waterfront side of Hibiscus Coast Highway adds to congestion and displacement of beach, park and boat ramp users as this heavily used area that has limited space for car and trailer parking. Unauthorised freedom camping also occurs on the grass area to the landward side of Hibiscus Coast Highway, a known contaminated site. Soil disturbance from these unauthorised vehicles may be an issue on the capped contaminated land.
2. The Hibiscus Coast Highway bisects the park and constrains use of the popular waterfront area. Park users are required to cross the busy road to access the toilet facilities located on the landward side of the highway.
3. Potential constraints for ground intrusive projects and activities in area of closed

landfill. Notification of potential hazards may be required for some activities.

4. A large Future Urban Zone to the north of the park is anticipated to double the size of the existing residential areas nearby. This is likely to result in significant increase in the intensity of use and pressure on the park facilities.

MANAGEMENT FOCUS

- Coastal, see 10.1
Note: The management focus only applies to the land classified recreation reserve under the Reserves Act 1977.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTIONS

1. Consider options for better connectivity to the waterfront part of the park including reconfiguring the car parking and working with Auckland Transport on the roading layout.
2. Consider opportunities to improve utilisation of the park on the western side of Hibiscus Coast Highway including expansion of public convenience facilities and requests to establish facilities for coastal, beach or marine related activities.
3. Manage the riparian edge of Otanerua Stream to protect ecological health and enhance visual amenity.

Jelas/Moffat Esplanade Reserve

VALUES

KNOWN CULTURAL VALUES

- Recorded archaeological sites of Māori origin - refer to mana whenua.

KEY RECREATIONAL VALUES

- Connection
- Informal recreation - general
- Shared path

OTHER INFORMATION

- Te Ara Tahuna Cycleway passes through the park along the edge of the Orewa River / Estuary.
- The park adjoins unformed legal road at the end of Moffat Road and Jelas Road. The unformed legal road is out of scope of this plan.
- While Auckland Council maintains this land, it is under the jurisdiction of Auckland Transport. The general policies and provisions of this plan will guide the local board's position and any future input into

management or development of this area where it is sought.

- The park connects to Longmore Lane and Metro Park via a footbridge over a tributary of the Orewa River to the west. It connects to Pohutukawa Esplanade Reserve to the east.
- Fennell Crescent to Millwater Parkway Accessway, Galbraith Greens Reserve, Stoney Homestead and Totara Views Reserve are also nearby.
- Access through this park links Jelas Road and Moffatt Road.

MANAGEMENT FOCUS

- Recreation and ecological linkage, see 10.4

Note: The management focus only applies to the land classified recreation reserve under the Reserves Act 1977.

MANAGEMENT PRINCIPLES

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTION

1. Encourage initiatives and consider opportunities that deliver on (implement) the [Orewa Estuary Te Ara Tahuna Community Restoration Plan 2017](#)
2. Consider opportunities to provide formed pedestrian access to Odlin Lane.
3. To work with Auckland Transport to seal the accessway that connect the unformed part of Jelas Road with the adjacent Jelas – Moffat Esplanade Reserve.

Karaka Cove

VALUES

KNOWN CULTURAL VALUES

- Recorded archaeological sites of Māori origin - refer to mana whenua.

KEY RECREATIONAL VALUES

- Connection
- Informal recreation – general
- Walking trails

SIGNIFICANT NATURAL VALUES

- SA1 Mangrove forest scrub.
- VS2 Kanuka scrub forest.
- WF4 Pohutukawa puriri broadleaved forest.
- Kauri.

OTHER INFORMATION

- May be subject to coastal inundation during storm events.
- Walking trails through the park link Whangaparaoa Road and Matheson Road.

- Lot 29 DP 342131 and Lot 39 DP 362250 off the end of Matheson Road provide for utility purposes and are outside the scope of this plan.
- The Hibiscus and Bays Greenways / Local Paths Plan 2016 identifies a Greenway connection through the park.
- Chelverton Reserve, Duncansby Lookout and Esplanade Reserve, Glenelg Reserve, Higham Ferrers Reserve, Poplar Road Esplanade Reserve, Red Beach Lookout Reserve, Shadon-Springtime Reserve and Whale Cove Reserve are nearby.

KEY MANAGEMENT ISSUES

1. Threat of kauri dieback.
2. Control of invasive weed species throughout the park.

MANAGEMENT FOCUS

- Protection of the natural environment, see 10.3
- Note: The management focus areas only apply to the land classified recreation reserve under the Reserves Act 1977 and the land subject to the Local Government Act 2002.

MANAGEMENT PRINCIPLES

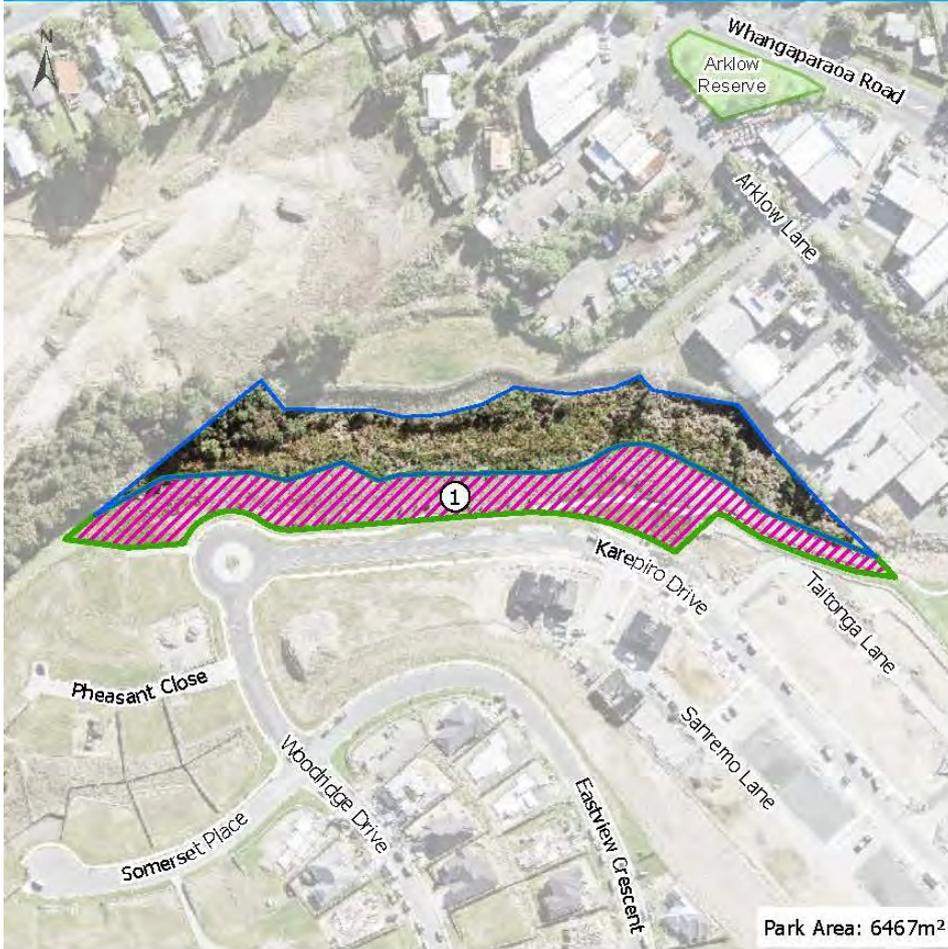

- Refer to Section 8

GENERAL POLICIES

- Refer to Section 11

MANAGEMENT INTENTION

1. Actively protect and enhance natural values within the park particularly native vegetation including Pohutukawa Puriri broadleaved forest, mangrove scrub forest and kanuka scrub forest, wildlife and associated ecosystems.
2. Support opportunities to protect the park from pathogen incursion, such as kauri dieback, including opportunities to improve, realign or relocate paths through the park particularly those near kauri.
3. Protect the natural character of the park and improve park users' experience and ability to connect with nature.
4. Consider opportunities to enhance the recreational use of the park through improvements to existing trails, carefully planned new trails, connection to the Weiti River and provision of seating where compatible with management intentions 1, 2 and 3.
5. Work with volunteers on the ongoing restoration of the park including progressive removal of exotic vegetation and replacement with native species.
