
Joint Engagement Plan 2021-2022 between

Ōrākei Local Board

and

Auckland Council's substantive Council-Controlled Organisations:

Auckland Transport, Auckland Unlimited, Eke Panuku Development and Watercare

This Engagement Plan records the commitment to work together to ensure the best outcomes for Auckland and the communities of Ōrākei Local Board.

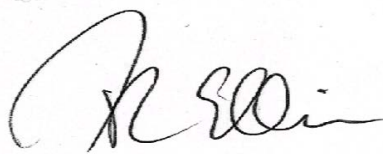

This document sits alongside the local board work programme and may include some items that also sit within the local board's decision-making and work programme.

This document may be subject to change during the year. Changes should be discussed with Local Board Services staff in the first instance and will be formalised in a business report each quarter.

Signed by:

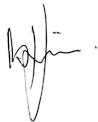

Scott Milne
Chair, Ōrākei Local Board

Shane Ellison
Chief Executive, Auckland Transport

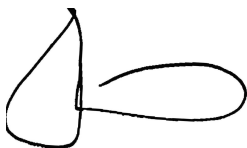

On behalf of Ōrākei Local Board as
authorized by resolution OR/2021/114

Nick Hill
Chief Executive, Auckland Unlimited

David Rankin
Chief Executive, Eke Panuku Development
Auckland

Jon Lamonte
Chief Executive, Watercare

Understanding and giving effect to Tāmaki Makaurau Auckland’s shared governance

The governing body and local boards share the decision-making responsibilities for Auckland Council. The governing body focuses on the big picture and region-wide strategic decisions, while local boards represent their local communities, provide local leadership, and make decisions on local issues, activities and facilities.

CCO Responsibilities

Council-controlled organisations (CCOs) derive their powers from Auckland Council or directly from legislation in the case of Auckland Transport and Watercare. They carry out operational activities in areas important to local communities and businesses and so must work effectively with local boards within their areas.

CCOs will:

- proactively build and maintain good relationships with local boards
- work collaboratively with the Ōrākei Local Board, other CCOs and council departments to ensure opportunities for good community outcomes are identified and maximised within the local board area
- operate in a manner that acknowledges the statutory role that local boards have in identifying and communicating the interests and preferences of their communities, and the key decision-making roles for local boards that are defined in council’s allocation policy. In particular, local boards’ leadership role in place-making and place-shaping activities
- communicate regularly with the local board on major issues, projects and activities
- assess potential public interest and, where possible, ensure local board members are briefed before an issue is discussed in a public forum (see No Surprises Protocols¹)
- engage with the local board early and in a way that allows it to influence projects and decisions; particularly those that may impinge on the local board’s governance role, are likely to have a significant and/or visible local impact or require community consultation
- engage with the local board ahead of public consultation and ensure adequate timing for the local board to consider its communities’ views and preferences and provide overall feedback.
- when creating their work programmes, take account of the priorities identified in the local board plan, local board agreement, and any strategies, policies, plans or legislation specific to the local board area.
- act early and collaboratively to resolve issues and queries raised by local board members
- be clear about when material is confidential and the reasons for the confidentiality
- identify a single point of contact for each local board, with sufficient authority within the CCO to be an effective liaison with the local board, who will receive and direct queries and provide the CCO’s response to the local board
- support induction activities that enable local board members to engage effectively with CCOs
- report against the CCO local board engagement plans in their quarterly performance reports to the CCO Governance and Monitoring Committee
- commit adequate resources for local board engagement.

¹ [Governance Manual for substantive CCOs](#)

Local board commitments

The Ōrākei Local Board will:

- proactively build and maintain good relationships with CCO staff
- advise CCOs of issues or projects of significance to the local board in its area
- involve CCOs in the development of the local board plan, so that CCOs can provide relevant advice and assist in the identification of priorities and deliverability assessments
- direct questions about a CCO's activities to either the Local Area Manager or to the CCO's elected member liaison, so queries are tracked, and consistent responses can be given
- advise CCOs if they are planning to speak to the media on a CCO-related matter (see No Surprises Protocols)
- respect commercially sensitive and confidential information
- allow for flexibility in terms of engagement, recognising differing levels of interest and local relevance across the Auckland region with each of the CCOs
- Recognise that CCOs are accountable to the community through the Governing Body. CCOs will endeavour to collaborate with local boards within the mandate and direction given to them by the Governing Body.
- In the event that there is a dispute over the implementation of this plan which cannot be satisfactorily resolved between the local board and the CCO, the local board has the option to provide input at the CCO Oversight Committee, when the CCO's quarterly report is being reviewed.

Ōrākei Local Board Plan outcomes

Local board outcome	Local board objective
All parks and open space areas are attractive and well-used places for both active and passive recreation	Marine and coastal activities are a strong part of the recreational opportunities our area has to offer
	Sports parks are upgraded to provide for more use as the local population changes and residential areas intensify
	The network of open spaces meets the needs of the growing population
	The value of passive and indoor recreation spaces and cultural heritage sites is recognised and provided for
Our communities are connected, engaged and resilient	All groups in the community feel informed and included
	Arts, local heritage and culture are reflected in our public facilities and places
	Neighbourhoods and public places are safe, sustainable and attractive
Our land, forests, waterways and marine environment are protected, restored and enhanced	Council-community partnerships are strengthened for the betterment of the environment
	More sustainable waste management options and support for community climate action, including community education programmes
	Our forest and bush habitats continue to be enhanced for future generations
	Pourewa Valley is the focus for environmental projects and becomes the new jewel in Tāmaki Makaurau's crown

Local board outcome	Local board objective
Our town centres and local businesses are increasingly vibrant and prosperous	All our town centres are attractive and bustling
	Local and overseas visitors are attracted to our area
	Local businesses are thriving and business excellence is recognised
Our transport infrastructure is efficient and connected, enabling people to move around safely and effectively using a range of options	Alternative modes of transport are enabled and encouraged to ease congestion across our area and to reduce our carbon footprint
	Continued improvements to roads and shared paths contribute to a safer and free-flowing transport network of roads, connections and pathways, and reduce congestion
	Safety initiatives, upgrades and improvements around our schools and town centres continue to be a priority
	The One Local Initiative and Glen Innes to Tāmaki Drive Shared Path remain a focus for advocacy and work
	Transport infrastructure is resilient and free from flooding and other natural hazards

Strategies, policies, plans or legislation specific to Ōrākei Local Board area

Strategy, policy, plan or legislation	Notes
Ōrākei Local Board Plan 2020	Statutory plan for entire local board area
Tāmaki Drive Precinct Event Guidelines 2017	To be applied to all events within the Precinct
Ōrākei Local Board Greenways Programme Plan 2016	To be implemented by both Community Facilities department and Auckland Transport
Tāmaki Drive Masterplan 2013	Relevant to Auckland Transport
Hobson Bay Action Plan 2013	Relevant to Healthy Waters department and Watercare
Auckland City Council (St Heliers Bay Reserve) Act 1995	Relevant to event applications and any park proposals (St Heliers Bay Reserve and Vellenoweth Green).

Engagement approach with local board

Commitment	
1. Inform	We will keep you informed.
2. Consult	We will keep you informed, listen to and acknowledge concerns and aspirations, and provide feedback on how your input influenced the decision. We will seek your feedback on drafts and proposals.
3. Involve	We will work with you to ensure that your concerns and aspirations are directly reflected in the alternatives developed and provide feedback on how your input influenced the decision.
4. Collaborate	We will work together with you to formulate solutions and incorporate your advice and recommendations into the decisions to the maximum extent possible.
5. Empower	We will implement what you decide.

Extent of community engagement

	Description
A. Refer to local board plan outcomes and objectives	The local board represents the views of the community, with reference to the local board plan and its outcomes and objectives.
B. Impacted stakeholder consultation	In addition to local board views, the views of impacted stakeholders are sought.
C. Community engagement	The views of the community are sought and brought to the local board ahead of the local board providing its view.

Auckland Transport Work Programme

Please note that these projects may not all occur within the next financial year. The level of engagement with the Local Board will also change depending on the stage at which the project is at

Major and Business Event pipeline	No	1. Inform	B. Impacted stakeholder consultation (via event organiser)	Varied (pendant on event) - New Zealand Major Events, Tourism New Zealand, Eke Panuku, Auckland Transport, Auckland Council	Major and Business events continue to work through the 2021/2022 programme of events with event organisers via Major and National programme, Elemental festival, Regional event fund and Business events fund. Events to note in coming year: Elemental AKL festival July-Aug, Women's Rugby and Cricket World Cup 2022, Men's Softball World Championships. Future major events secured beyond 2022 include The Ocean Race 2023, FIFA Womens World Cup 2023 and World Choir Games 2024. Over 25 Business events and conferences secured for Auckland 2021/2022.
Auckland Unlimited venues (Auckland Live, Zoo, Maritime Museum, Stadiums, Auckland Art Gallery)	No	1. Inform	B. Impacted stakeholder consultation		We will keep the board informed, of events, opportunities and changes relevant to your residents.
Auckland Stadium Venue Development Strategy	No	1. Inform	B. Impacted stakeholder consultation	Auckland Council	We will ensure Local Boards are kept informed of the process and the outcome.

* Auckland Unlimited are committed to the implementation of this CCO engagement process to ensure Local Boards are communicated to and involved in a timely manner with these programmes of work. Where events are not solely owned and delivered by Auckland Unlimited, but instead managed by an event organiser or local operating model, as a Host City/Partner/supporter of these events, Auckland Unlimited will act as a conduit and facilitator of conversations to enable the local boards to engage directly with the event organisers where opportunity exists. The level of engagement may change as event details become clearer and implications for the local area are understood. If opportunity for increased engagement does occur – such as leverage opportunities in support of Local Board community outcomes—we will increase the engagement approach in line with the IAP2 spectrum to reflect it at the time.

Eke Panuku Work Programme / Property portfolio

Watercare Work Programme

Since 2010 Watercare has undertaken a range of significant projects in the Ōrākei Local Board area including development of the four-meter diameter, 3-kilometre-long Hobson Bay Tunnel in 2012 and associated Pump Station 64 (\$138 million) to which members of the local board recently visited. In 2015 the \$14 million Kohimarama Wastewater storage tank in Madill's Farm Reserve was completed helping to accommodate growth while reduce wet weather overflows to the local beaches. The local board and Watercare also worked together to improve aesthetics of the Purewa Pump Station helping enhance the amenity of the area. Watermain upgrades have taken place on Mt Hobson and in St Heliers Bay Road in addition to local network maintenance involving pipe relining and repairs.

A significant enabling project for the Ōrākei Local Board area is the \$1.2 billion Central Interceptor (CI). When completed in 2025 the CI will divert wastewater from the top of the Ōrākei main down the tunnel to Mangere Wastewater Treatment Plant. This will help free up capacity in the network for additional growth across the area. Similarly, the 2-meter diameter, Hunua 4 watermain project (\$400 million) which is nearing completion in Epsom and Eden Terrace after many years of work will help secure a more resilient water supply to the central areas from the water sources and reservoirs in the south.

Watercare and Healthy Waters have worked with the Local Board through the LTP process to bring attention to the potential for an Eastern Isthmus Water Quality Improvement Programme. This programme attempts to plan and coordinate some of the major works across the Ōrākei Local Board area that can be initiated following the completion of the Central Interceptor. An initial focus for Healthy Waters will be the separation of the Newmarket stormwater and wastewater that will then allow Watercare to commit to the development of the Newmarket Gully wastewater project, a tunnel from Newmarket gully through to the Hobson tunnel helping to significantly reduce wet weather wastewater overflows. The Eastern Isthmus programme will also provide active community interest groups in the area with more clarity of the timing of planned major works and investment to achieve longer term environmental outcomes. At this time Auckland Council's funding is focused on the Western Isthmus water quality programme with the Eastern Isthmus due to get underway from 2025 through to 2040. Investment required to achieve long term improvements in water quality will be in the order of \$800 million. A communication and engagement plan will be developed by Watercare with input by the Ōrākei Local Board as the project is planned.

In the intervening period, Watercare will continue to work closely with Healthy Waters to respond to and manage more localised issues across the catchment. This work will be undertaken via Council's 'safe networks' programme which will be supported by localised inflow and infiltration works to identify illegal connections. In recent years a number of illegal wastewater connections have been located discharging wastewater into stormwater networks. Such illegal connections can significantly degrade the health of the environment if they go unchecked.

Project/event/business area	Local Board decision? Yes/No	Engagement approach with local board (1-5)	Extent of community engagement (A-C)	Interdependencies with other CCO, council or central government projects	Notes
Ōkahu Bay wastewater and stormwater separation project.	No	1. Inform	C. Community engagement	This is a Healthy Waters led project undertaken with the support of Watercare and Ngāti Whātua Ōrākei	Healthy Waters and Watercare work closely on a range of projects. The Okahu Bay wastewater separation project is led by Healthy Waters who also undertake community engagement and liaison with the local board and others.
Healthy Waters Safe Networks and Watercare Inflow and Infiltration programme.	No	1. Inform	C. Community engagement	Watercare and Healthy Waters	Healthy waters and Watercare will continue to focus on problem areas for localised faecal contamination. Opportunities to promote issues or engage the Local Board in media about contamination issues will be considered.
Central Interceptor Tunnel Boring Machine Launch – milestone event	No	1. Inform	C. Community engagement		The tunnel boring machine Hiwa-i-te-rangi will soon launch on its 14.7km journey from Mangere Wastewater Treatment Plant to Grey Lynn building the Central Interceptor as it goes. The Chair or a representative of the local board will be invited to join us for the launch.
Community updates on water quality in the Ōrākei Local Board area.	No	1. Inform		Local Board	The Watercare's Asset Management Plan will be released on 1 July 2021. At this time there may be opportunities to work with the local board and Healthy Waters to share some of the messages regarding Hobson Bay and the local beaches as well as future timing and funding for infrastructure upgrades.
Relining of Remuera Branch Sewer	No	1. Inform			A section of the wastewater main will be rehabilitated by relining work programmed for later this year. No local board engagement is expected unless there is traffic management and disruption.
Renewal of odour treatment bed at PS 64	No	1. Inform			Management of odours at PS64 is important – the odour bed is to be replaced and renewed. Timing yet to be determined.
