
Joint Engagement Plan 2021-2022 between

Rodney Local Board

and

Auckland Council's substantive Council-Controlled Organisations:

**Auckland Transport, Auckland Unlimited, Eke Panuku Development, and
Watercare**

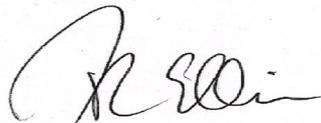

This Engagement Plan records the commitment to work together to ensure the best outcomes for Auckland and the communities of Rodney Local Board.

This document sits alongside the local board work programme and may include some items that also sit within the local board's decision-making and work programme.

This document may be subject to change during the year. Changes should be discussed with Local Board Services staff in the first instance and will be formalised in a business report each quarter.

Phelan Pirrie
Chair, Rodney Local Board

Shane Ellison
Chief Executive, Auckland Transport

On behalf of Rodney Local Board as
authorised by resolution RD/2021/291

Nick Hill
Chief Executive, Auckland Unlimited

David Rankin
Chief Executive, Eke Panuku Development
Auckland

Jon Lamonte
Chief Executive, Watercare

Understanding and giving effect to Tāmaki Makaurau’s shared governance

The Governing Body and local boards share the decision-making responsibilities for Auckland Council. The Governing Body focuses on the big picture and region-wide strategic decisions, while local boards represent their local communities, provide local leadership, and make decisions on local issues, activities and facilities.

CCO Responsibilities

Council-controlled organisations (CCOs) derive their powers from Auckland Council or directly from legislation in the case of Auckland Transport and Watercare. They carry out operational activities in areas important to local communities and businesses and so must work effectively with local boards within their areas.

CCOs will:

- proactively build and maintain good relationships with local boards
- work collaboratively with the Rodney Local Board, other CCOs and council departments to ensure opportunities for good community outcomes are identified and maximised within the local board area
- operate in a manner that acknowledges the statutory role that local boards have in identifying and communicating the interests and preferences of their communities, and the key decision-making roles for local boards that are defined in council’s allocation policy. In particular, local boards’ leadership role in place-making and place-shaping activities
- communicate regularly with the local board on major issues, projects and activities
- assess potential public interest and, where possible, ensure local board members are briefed before an issue is discussed in a public forum (see No Surprises Protocols¹)
- engage with the local board early and in a way that allows it to influence projects and decisions; particularly those that may impinge on the local board’s governance role, are likely to have a significant and/or visible local impact or require community consultation
- engage with the local board ahead of public consultation and ensure adequate timing for the local board to consider their communities’ views and preferences and provide overall feedback.
- when creating their work programmes, take account of the priorities identified in the local board plan, as well as the key objectives and activities in the local board agreement
- act early and collaboratively to resolve issues and queries raised by local board members
- be clear about when material is confidential and the reasons for the confidentiality
- identify a single point of contact for each local board, with sufficient authority within the CCO to be an effective liaison with the local board, who will receive and direct queries and provide the CCO’s response to the local board
- support induction activities that enable local board members to engage effectively with CCOs
- report against their local board engagement plans in their quarterly performance reports to the CCO Governance and Monitoring Committee
- commit adequate resources for local board engagement.

¹ [Governance Manual for substantive CCOs](#)

Local board commitments

The Rodney Local Board will:

- proactively build and maintain good relationships with CCO staff
- advise CCOs of issues or projects of significance to the local board in its area
- involve CCOs in the development of the local board plan, so that CCOs can provide relevant advice and assist in the identification of priorities and deliverability assessments
- direct questions about a CCO's activities to either the Local Area Manager, local board advisers or to the CCOs' elected member liaison, so queries are tracked, and consistent responses can be given
- advise CCOs if they are planning to speak to the media on a CCO-related matter (see No Surprises Protocols)
- respect commercially sensitive and confidential information
- allow for flexibility in terms of engagement, recognising differing levels of interest and local relevance across the Auckland region with each of the CCOs
- Recognise that CCOs are accountable to the community through the Governing Body. CCOs will endeavour to collaborate with local boards within the mandate and direction given to them by the Governing Body.
- In the event that there is a dispute over the implementation of this plan which cannot be satisfactorily resolved between the local board and the CCO, the local board has the option to provide input at the CCO Oversight Committee, when the CCO's quarterly report is being reviewed.

Rodney Local Board Plan outcomes

Local board outcome	Local board objective
Infrastructure and development meets the needs of our growing communities	Our business communities are resilient, and have a positive outlook, having withstood the economic impact of COVID-19
	Our facilities and infrastructure meet the needs of our growing communities
	Our villages and towns retain their individual character and heritage aspects, and development is sympathetic to the natural and existing built environment
Our communities are resilient and have access to what they need	Council facilities cater to local needs and are well used by their communities
	Our communities are strong and resilient
Our local parks and recreation facilities meet the needs of our growing community	Our communities have great local options for indoor and outdoor sport and recreation that provide opportunities for all ages and abilities
	Our regional parks provide great recreation opportunities and meet the needs of our communities and visitors
	The environment and ecology of our parks are well cared for
Our natural environment is healthy and protected	Our natural environment is clean and healthy with thriving ecosystems
	We have good water quality in our streams, rivers and harbours
Safe, improved transport options	Our communities are well connected by safe and accessible footpaths, cycleways, trails and bridleways

Local board outcome	Local board objective
connect our communities	Our roads are safe and well-maintained and have the capacity to meet the demand of users
	Public transport is a viable option for getting around

Strategies, policies, plans or legislation specific to Rodney Local Board area

Strategy, policy, plan or legislation	Notes
<u>Rodney Local Board Plan 2020</u>	The Rodney Local Board Plan is the guiding document for the local board and is its strategic three-year plan to outline community priorities and preferences. Local board plans guide local board activity, funding and investment decisions. They also influence local board input into regional strategies and plans, including the Auckland Plan (the 30-year vision for Auckland), the council's 10-year Budget (Long-term Plan) and council's annual budgets.
<u>Northwest Spatial Land Use Strategy</u> (May 2021)	The Supporting Growth Programme is planning the transport investment in Auckland's Future Urban zoned areas over the next 10 to 30 years. To inform the future transport network, a Spatial Land Use Strategy is required for the Kumeū-Huapai, Riverhead, and Redhills North Future Urban zoned areas.
<u>Kumeū-Huapai Centre Plan</u> (Sept 2017)	A centre plan to guide the growth of the town centre over the next 30 years. The vision is to have an attractive town centre that focuses on the river, has improved connections, and celebrates its heritage and rural areas.
<u>Warkworth Structure Plan</u> (June 2019)	The Warkworth Structure Plan sets out a pattern of land uses and the supporting infrastructure network for the future urban growth of Warkworth.
<u>Auckland Future Urban Land Supply Strategy</u> (2017)	The Future Urban Land Supply Strategy identifies the sequencing and timing of future urban land for development readiness over 30 years, which includes areas in North and North-West Auckland.
<u>Rodney Transport Projects Advocacy Plan</u> (2016)	The Rodney Local Board has set out priority transport projects to be implemented over the next 10 years in Rodney. The local board will seek funding and work with key agencies to deliver these projects.
<u>Green Road Park masterplan</u> (October 2020)	The Green Road Park masterplan sets the vision and guides the development and the nature of activities for the park. In the short term, the plan supports establishing basic infrastructure to allow the public to access the park with a focus on weed removal, ecological restoration and specimen tree planting.

Strategy, policy, plan or legislation	Notes
<p><u>Rodney Local Paths (Greenways) Plans:</u></p> <ul style="list-style-type: none"> - Rodney West Local Paths (Greenways) Plan - Kumeu, Huapai, Waimauku and Riverhead Local Paths (Greenways) Plan - Puhoi to Pakiri Local Paths (Greenways) Plan - Wellsford Local Paths (Greenways) Plan 	<p>Auckland's greenways plans are a series of path networks being worked on by local boards.</p> <p>Their long-term aim is to greatly improve, walking, cycling, recreational and ecological connections across the region.</p>
<p><i>In development:</i> Warkworth town enhancement plan</p>	<p>Development of a town enhancement plan for the Warkworth town centre area and adjacent riverbank. This includes developing agreed design principles, guidelines and plans for the town centre that will inform and influence the future redevelopment of spaces used by the local community and visitors. This is being funded by the Rodney Local Board across FY22 and FY23.</p>

Engagement approach with local board

Commitment	
1. Inform	We will keep you informed.
2. Consult	We will keep you informed, listen to and acknowledge concerns and aspirations, and provide feedback on how your input influenced the decision. We will seek your feedback on drafts and proposals.
3. Involve	We will work with you to ensure that your concerns and aspirations are directly reflected in the alternatives developed and provide feedback on how your input influenced the decision.
4. Collaborate	We will work together with you to formulate solutions and incorporate your advice and recommendations into the decisions to the maximum extent possible.
5. Empower	We will implement what you decide.

Extent of community engagement

Description	
A. Refer to local board plan outcomes and objectives	The local board represents the views of the community, with reference to the local board plan and its outcomes and objectives.
B. Impacted stakeholder consultation	In addition to local board views, the views of impacted stakeholders are sought.
C. Community engagement	The views of the community are sought and brought to the local board ahead of the local board providing its view.

Auckland Transport Work Programme

Please note that these projects may not all occur within the next financial year

Note: the Rodney Local Board Transport Targeted Rate (RLBTTR) is in place in the local board area. In May 2018, the local board recommended that the Governing Body approve a targeted rate to accelerate investment in transport in the local board area. The recommendation was accepted, and the RLBTTR is currently scheduled to run for 10 years (2018 – 2028). A rate of \$150 per year is charged to each separately used or inhabited property (SUIP) in the local board area. More than \$40 million is expected to be collected over the term of the targeted rate. The local board are the decision makers for funds raised through the rate, Auckland Council receives the rates payments, and Auckland Transport (AT) provides technical advice and administers the funds on behalf of the local board. The RLBTTR is ring-fenced for transport projects in the Rodney Local Board area that are not included in the Regional Land Transport Plan. It was established on the basis that the fund is to support new bus stops and bus services, new park and ride community hub facilities and new footpaths. The targeted rate was established on the principle that each subdivision within the Rodney Local Board area receives a proportion of the benefits of the targeted rate that equate to the proportion of the revenue collected from that subdivision. As projects develop and firmer cost estimates are prepared, changes will be required to the projects proposed within each subdivision to ensure proportionality is maintained. The Rodney Local Board monitors the performance of the projects and determines whether to re-prioritise its expenditure based on the stated purposes of the funds raised.

Project/event/business area	Local Board decision? Yes/No	Engagement approach with local board (1-5)	Extent of community engagement (A-C)	Interdependencies with other CCO, council or central government projects	Notes

Auckland Stadium Venue Development Strategy	No	1. Inform	B. Impacted stakeholder consultation	Auckland Council	We will ensure local boards are kept informed of the process and the outcome.
LOA improvement project	No	4. Collaborate	C. Community Engagement		Screen Auckland is looking to run a pilot programme in conjunction with local boards that introduces a Minor Category delegation for filming which would allow the routine delegation of approvals for low and medium impact activities to staff. The Rodney Local Board has expressed an interest in participating.

* Auckland Unlimited are committed to the implementation of this CCO engagement process to ensure Local Boards are communicated to and involved in a timely manner with these programmes of work. Where events are not solely owned and delivered by Auckland Unlimited, but instead managed by an event organiser or local operating model, as a Host City/Partner/supporter of these events, Auckland Unlimited will act as a conduit and facilitator of conversations to enable the local boards to engage directly with the event organisers where opportunity exists. If opportunity for increased engagement does occur – such as leverage opportunities in support of Local Board community outcomes—we will increase the engagement approach in line with the IAP2 spectrum to reflect it at the time.

Eke Panuku Work Programme / Property portfolio

Please note that these projects may not all occur within the next financial year

Project/event/business area	Local Board decision? Yes/No	Engagement approach with local board (1-5)	Extent of community engagement (A-C)	Interdependencies with other CCO, council or central government projects	Notes
Portfolio Review	No	2. Consult	On behalf of Auckland Council, Eke Panuku undertakes the property review process for properties that have been identified as potentially no longer required for a council service use. Consultation with all council departments and CCOs is undertaken as part of this review process. Public consultation is only required if the proposed disposal of a property meets the thresholds outlined in council's Significance and Engagement Policy or if there is a statutory requirement to consult.	The property review process involves consultation with all council departments and CCOs. Eke Panuku also has ongoing relationships with key Crown agencies regarding development opportunities and future land requirements.	
Ti Point Forest	No	1. Inform	A. Refer to local board plan outcomes and objectives	Council	Eke Panuku is managing the forest harvesting contract on behalf of council. The entire site is considered closed landfill. There is currently no harvesting contract in place. Phase 1 of the harvesting has been completed but phase 2 is now on hold while further discussions take place with council as to the future use of the site.

Watercare Work Programme

Watercare operates water and wastewater for many of the smaller communities in the Rodney Local Board area. Since amalgamation in 2010, the Rodney Local Board area has been a significant benefactor of Watercare's scale, knowledge and experience. Significant investment in water and wastewater services across the area has improved the quality, safety and compliance of these services. Watercare has also undertaken investment in the Rodney Local Board area in response to significant growth aspirations under the Auckland Unitary Plan. The townships of Kumeu, Huapai and Riverhead received \$30 million of new water and wastewater networks, the old Matakana treatment plant was closed and integrated with Omaha which was upgraded with the consents being renewed (\$3 million). Helensville wastewater treatment plant was upgraded to improve the quality of the discharge (\$8 million). To service planned growth in the Warkworth area (including Snells Beach and Algies Bay), 260 million of investment in new and upgraded infrastructure is planned or underway. A new water treatment plant costing \$16 million was recently opened at Warkworth to supply the growing area with high quality and more reliable drinking water. A new marine wastewater outfall has been built off the Mahurangi Peninsula and a new wastewater treatment plant will be constructed at Snells Beach using advanced technology to produce high-quality treated wastewater. New pipelines and pump stations will take wastewater from a growing Warkworth to the new Snells Beach wastewater treatment plant, removing the existing discharge to the Mahurangi Harbour. Work has been undertaken in the Wellsford network to check and improve reliability as well as reducing overflows. Future investment will also be made to improve Wellsford and Helensville water and wastewater services. However, funding challenges exist for servicing such small communities where economies of scale cannot be realised and further strategic discussions may be required with the Rodney Local Board to align other utility providers such as Auckland Transport.

In addition to the increase in investment across the Rodney Local Board area, the price of water has also dropped and today remains lower than at the time of amalgamation in 2010. (In 2010 water was priced at \$1.96 urban and \$3.50 rural, per 1000 litres. Today the price of water is \$1.71 per 1000 litres for all customers.)

The following engagements are expected with the Rodney Local Board in the next six to 12 months.

Project/event/business area	Local Board decision? Yes/No	Engagement approach with local board (1-5)	Extent of community engagement (A-C)	Interdependencies with other CCO, council or central government projects	Notes
Warkworth wastewater growth servicing – Landowner approvals	Yes	3. Involve	C.
