Understanding and giving effect to Tāmaki Makaurau’s shared governance

The governing body and local boards share the decision-making responsibilities for Auckland Council. The governing body focuses on the big picture and region-wide strategic decisions, while local boards represent their local communities, provide local leadership, and make decisions on local issues, activities and facilities.

CCO Responsibilities

Council-controlled organisations (CCOs) derive their powers from Auckland Council or directly from legislation in the case of Auckland Transport and Watercare. They carry out operational activities in areas important to local communities and businesses and so must work effectively with local boards within their areas.

CCOs will:

- proactively build and maintain good relationships with local boards
- work collaboratively with the Waiheke Local Board, other CCOs and council departments to ensure opportunities for good community outcomes are identified and maximised within the local board area
- operate in a manner that acknowledges the statutory role that local boards have in identifying and communicating the interests and preferences of their communities, and the key decision-making roles for local boards that are defined in council’s allocation policy. In particular, local boards’ leadership role in place-making and place-shaping activities
- communicate regularly with the local board on major issues, projects and activities
- assess potential public interest and, where possible, ensure local board members are briefed before an issue is discussed in a public forum (see No Surprises Protocols¹)
- engage with the local board early and in a way that allows it to influence projects and decisions; particularly those that may impinge on the local board’s governance role, are likely to have a significant and/or visible local impact or require community consultation
- engage with the local board ahead of public consultation and ensure adequate timing for the local board to consider their communities’ views and preferences and provide overall feedback.
- when creating their work programmes, take account of the priorities identified in the local board plan, local board agreement, and any strategies, policies, plans or legislation specific to the local board area
- act early and collaboratively to resolve issues and queries raised by local board members
- be clear about when material is confidential and the reasons for the confidentiality
- identify a single point of contact for each local board, with sufficient authority within the CCO to be an effective liaison with the local board, who will receive and direct queries and provide the CCO’s response to the local board
- support induction activities that enable local board members to engage effectively with CCOs
- report against their local board engagement plans in their quarterly performance reports to the CCO Governance and Monitoring Committee
- commit adequate resources for local board engagement.

¹ [Governance Manual for substantive CCOs](#)

Local board commitments

The Waiheke Local Board will:

- proactively build and maintain good relationships with CCO staff
- advise CCOs of issues or projects of significance to the local board in its area
- involve CCOs in the development of the local board plan, so that CCOs can provide relevant advice and assist in the identification of priorities and deliverability assessments
- direct questions about a CCO's activities to either the Local Area Manager or to the CCO's elected member liaison, so queries are tracked, and consistent responses can be given
- advise CCOs if they are planning to speak to the media on a CCO-related matter (see No Surprises Protocols)
- respect commercially sensitive and confidential information
- allow for flexibility in terms of engagement, recognising differing levels of interest and local relevance across the Auckland region with each of the CCOs
- Recognise that CCOs are accountable to the community through the Governing Body. CCOs will endeavour to collaborate with local boards within the mandate and direction given to them by the Governing Body.
- In the event that there is a dispute over the implementation of this plan which cannot be satisfactorily resolved between the local board and the CCO, the local board has the option to provide input at the CCO Oversight Committee, when the CCO's quarterly report is being reviewed.

Watercare Work Programme

Watercare has a wastewater treatment plant at Owhanake that services part of the township of Oneroa. High quality treated wastewater is discharged into an adjacent wetland and then onto Matiatia Bay

The treatment plant was last upgraded in 2018. The resource consent allows for a further staged upgrade of the treatment plant. The service area remains limited to the Oneroa area.

Watercare does not provide any water services for Waiheke Island. There are no plans to provide water or wastewater services to the island beyond those for which there is already resource consent (Oneroa service area).

Watercare is aware of the Local Boards interest in development on the island and the Local Boards request to be kept up to date with regards demand for new connections.
