Explanatory notes

The information contained in this report is based on data drawn from Auckland Council's accounting software systems. Auckland Council has undertaken quality assurance reviews of the reports, but has not verified all individual datasets prior to disclosure. Accuracy and completeness is therefore qualified.

This information reflects both contractual commitments and (in some instances) budgeted provisional values where the council expects to have continuing engagement with a supplier that will be valued at NZ\$100,000 or greater for the period of the contract or engagement. Inclusion in this table does not guarantee that a particular supplier will be paid any or all of the contract value, as contracts may be conditional or performance based. Contracts relating to external legal services are excluded from this report, as these suppliers are engaged on an "as-required" basis. Information about council spend with external legal services suppliers is available in the published reports of total spend per vendor.
