

*Sister City
Agreement*

Having established friendly relations through exchange of views based on the many points they have in common, the City of Utsunomiya and the City of Manukau wish now to develop a wide range of cultural, educational, recreational, industrial, personal and community relationships in the promotion of mutual understanding and goodwill between our two Cities.

We the signatories believe that such exchanges will contribute to real international friendship and world peace based on an understanding of each other despite differences of language, history, religion, customs and social outlooks, especially since our two cities are emerging as new and dynamic leaders in our respective countries. For all these reasons both cities hereby proclaim the establishment of sister city relations.

Sir Lloyd Elsmore O.B.E., J.P.
