26/6/16 AG 12:20: Received a call from [redacted] who claims saw pup on Rodney Facebook page. Seems to think the dog was found in Henderson (?)- Did not tell her it was actually from Grey Lynn - and that she knows who the owner of it is. She also claimed that she knows the pup as she looked after it for 3 days while the owner was moving house out to the Rodney area (owner has since moved to Rotorua) so she knows the pup very well and was shocked to see it on FB. She gave me owners name of [redacted] however she also provided number of a [redacted] who knows [redacted] as [redacted] was concerned how [redacted] would take to his dog being at the shelter so felt that [redacted] could relay the message better. Called [redacted] and left message on her cell asking her to call us back as soon possible. [redacted]
