detail/information:

4.0 PURPOSE OF THE HOLE OR BORE

Please tick the purpose of the hole or bore:

<input type="checkbox"/> Groundwater Investigation (aquifer test)	<input type="checkbox"/> Geological Investigation
<input type="checkbox"/> Groundwater investigation (observation/piezo bore)	<input type="checkbox"/> Geotechnical investigation
<input type="checkbox"/> Contaminated site investigation (water quality)	
<input type="checkbox"/> Other	

5.0 COMPLIANCE WITH PERMITTED ACTIVITY STANDARDS

Standard E7.6.1.16: Drilling and use of holes and bores (applies to all types listed on this notice)

The drilled hole or bore is not in a Wetland Management Areas Overlay.

Complies

NA

The drilled hole or bore is not for the purposes of taking of groundwater except for the removal of a sample(s) for groundwater quality analysis.

Complies

NA

The drilling of the hole or bore will not destroy, damage or modify any places scheduled in a Historic Heritage Overlay.

Complies

NA

Standard E7.6.1.18: Drilling and use of bores for groundwater level or quality monitoring

The drilling and construction will comply with sections 1, 2, 3 and 4 of New Zealand Standard on the Environmental Standard for Drilling of Soil and Rock (NZS 4411:2001).

Complies

NA

Where more than one aquifer is penetrated, construction of the bore will not enable a hydraulic connection between the aquifers.

Complies

NA

Standard E7.6.1.19: Restoration, alteration or replacement of lawfully established bores

The restored, altered or replacement bore will penetrate the same aquifer as the existing bore.

Complies

NA

The replacement bore will be installed within 10m of the existing bore.

Complies

NA

The drilling, construction and maintenance will comply with sections 1, 2, 3 and 4 of New Zealand Standard on the Environmental Standard for Drilling of Soil and Rock (NZS 4411:2001).

Complies

NA

The records required under section 4 of "New Zealand Standards - NZS 4411:2001 Environmental Standard for Drilling of Soil and Rock" will be kept and forwarded to the Council within one month of the bore being drilled.

Complies

NA

Standard E7.6.1.20: Decommissioning (abandonment) of a hole or bore

The decommissioning of the drilled hole or bore will comply with sections 2 and 4 of "New Zealand Standards - NZS 4411:2001 Environmental Standard for Drilling of Soil and Rock".

Complies

NA

The records required under section 4 of "New Zealand Standards - NZS 4411:2001 Environmental Standard for Drilling of Soil and Rock" will be kept and forwarded to the Council no later than one month after the bore is decommissioned.

Complies

NA
