

Lodgement checklist: residential

Please attach this checklist with your application

GUIDANCE INFORMATION

Documentation must cover all items identified in bold text in this lodgement checklist. If any of this information is not provided, the building consent application will be rejected. To facilitate faster processing of the building consent application it is also strongly recommended to provide the items in *italic text* as identified in this lodgement checklist.

All applications submitted in hard copy only must be accompanied by 2 x comprehensive sets of documentation.

Standard of documentation

Section 7 of the Building Act defines 'plans and specifications' as the drawings, specifications and other documents according to which a building is to be constructed, altered, demolished or removed. Documentation is required to be of a high, professional standard. Refer to the Ministry of Business, Innovation & Employment publication "Guide to applying for a building consent" for a copy visit www.building.govt.nz

Drawings must be:-

- Produced to scale on white A3, A2 or A1 paper. Minimum font size of 10 or if CAD 2.5
- Produced in black ink or colour (no freehand drawings)
- each drawing must contain:-
 - a drawing number and title
 - designer's name
 - address of property
 - be dated for version control
- specifications must be project specific and include relevant supporting documentation (installation details)

Restricted building work (RBW): From March 1st 2012 the introduction of 'RBW' took effect and relates to residential construction and design, for certain houses and small to medium apartment buildings. It can be new construction, or alterations to an existing building. It is defined as building or design work that is critical to the integrity of a building. In particular, it ensures the building is structurally sound and weathertight.

RBW includes:

- **the primary structure** (construction or alteration) – all the structural elements of the building that contribute to resisting vertical and horizontal loads
- **external moisture management systems** (construction or alteration) – the building elements and systems which prevent the ingress of external moisture and help control moisture within the building fabric
- **fire safety systems**(design) – the building elements intended to protect people and property from fire.

The definition of a house is:

- A free-standing, fully detached building consisting of a single residential unit (and can also have 1 or more residential facilities such as a foyer, laundry, garage, etc)

The definition of a small to medium apartment building:

- contains 2 or more residential units (apartments) or residential facilities (foyer, laundry, garage, etc)
- does not contain commercial units or facilities (it has no shops)
- has a maximum height of less than 10m (the vertical distance between the highest point of its roof – excluding aerials, chimneys, flagpoles and vents – and the lowest point of the ground).

Licensed building practitioners (LBPs) are the only people allowed to supervise or carry out RBW. For further information about licensing or restricted building work refer to the Ministry of Building Innovation and Employment website www.building.govt.nz

Applications supported by a producer statement (PS): If an application is supported by a producer statement, the architectural plans must be signed and dated by the engineer or structural drawings must be provided or a schedule listing the work covered in the producer statement must be provided.

Note: producer statements must be dated no older than 90 days and the author must be listed on Councils Approved Author Register and must only be for work within their approved scope. For a list of approved authors and their approved scope please visit www.aucklandcouncil.govt.nz

Deposit: all applications must be supported by a deposit payable at the time of lodgement. A final invoice will be sent when your building consent has been approved; the final invoice covers the full cost of processing the application as well as fees for inspections and the code compliance certificate less the deposit already paid.

Water meter applications: for new water meter connections download an application form and apply direct to WaterCare (note independent charges will occur) please refer to www.watercare.co.nz or contact Veolia Water Limited (09) 295 0515 (for Papakura sites only)

Vehicle crossing applications: all building consent applicants should advise whether the property has an existing vehicle crossing that will be used to serve the new building or development. If you do not have an existing crossing **OR** are building within 1.0m of the road corridor **OR** a new building on a vacant lot, then a new vehicle crossing application must be submitted to Auckland Council, who act as the receiving agent for Auckland Transport. A "Vehicle Crossing Application Form", and description of the approval process, can be viewed and downloaded from the website www.at.govt.nz by typing in the keywords "Vehicle Crossing" in the search bar and selecting the "Vehicle Crossing link". The completed application form together with the application fee must be submitted in person to your nearest Auckland Council Service Centre.

Note: This application is currently not available online and we apologise for any inconvenience caused as we work through making this a possibility.

Financial assistance package (FAP): if this application is for a property claiming under the FAP scheme; you must lodge this application in person at the Graham Street Service Centre, 35 Graham Street, Auckland City.

VEHICLE CROSSING

All building consent applicants should advise whether the property has an existing vehicle crossing that will be used to serve the new building or development. If you do not have an existing crossing **OR** are building within 1.0m of the road corridor **OR** a new building on a vacant lot, then a new vehicle crossing application must be submitted to Auckland Council, who act as the receiving agent for Auckland Transport. A "Vehicle Crossing Application Form" and description of the approval process, can be viewed and downloaded from the website www.at.govt.nz by typing "Vehicle Crossing" in the search bar and selecting the "Vehicle Crossing link". The completed application form together with fee must be submitted in person to your nearest Auckland Council Service Centre.
