Good morning Jeff

RE: 22 & 22A Summit Drive, Ōwairaka

Hope all is well with you.

I haven't heard back from you since my email below in October – please get in touch if you would like to discuss the proposal.

On behalf of the Applicant, we are going to finalise our Section 92 response to Council next week – which I will distribute to you directly as well.

There are also some existing loose basalt rocks onsite which you and I viewed when we were on site. Do Te Aakitai Waiohua have any preference for what happens to these rocks or have a specific use for these rocks (?) Otherwise should any consent and corresponding works progress, the intention would be for these to be re used and retained onsite as part of landscaping for the development.

Regards,

Good to meet you onsite yesterday Jeff.

The full RC lodgement pack is at the link below.

I have also attached the geological memo and the archaeological report for your convenience to this email.

Are you free for a phone call next week? Let me know – and we can run through the key items we discussed on site.
