### Proposed Plan Change 113: Additions to Schedule 10 Notable Trees Schedule in the Auckland Unitary Plan (Operative in part)

Auckland Council has prepared the following proposed plan change to the Auckland Unitary Plan (Operative in Part) under Schedule 1 to the Resource Management Act 1991 (RMA).

The proposal seeks to ensure the continued identification and protection of notable trees across the region and recognition of their values by adding 161 entries (which include 174 individual trees and 29 groups of trees) to Schedule 10 and maps, thereby making them subject to the provisions of the Notable Trees Overlay.

The scope of the proposed changes is limited to the following:

- Scheduling 161 new or amended entries, comprising 174 new individual and 29 new groups of those nominated trees which have been found to meet the Notable Trees criteria, and adding them to the Notable Trees Overlay<sup>1</sup>. These additions ensure the provisions of the AUP apply, including the Notable Trees Overlay provisions.

The following are not included in Proposed Plan Change 113:

- the addition of further notable trees or notable groups of trees other than those specifically addressed in this report. The scope of nominations which were considered for additions as part of this plan change are limited to all those existing nominations which have been recorded in council's database up to and including June 2024.
- the removal of existing notable trees or notable groups of trees on the schedule
- amendments to the objectives or policy framework or to the rules relating to notable trees
