Dear Jo

Notice of Requirement for a designation under Section 168(2) of the Resource Management Act 1991 for the four wastewater pump stations – Alma Pump Station, Bremner Wastewater Pump Station (PS90), PS68 Whenuapai Pump Station, and Long Bay Pump Station.

This letter is to formally advise that pursuant to section 172 of the Resource Management Act 1991, Watercare accepts in whole the Auckland Council Recommendation dated 25 July 2025 (the **Recommendation** which was received by Watercare on 31 July 2025) to confirm the Notices of Requirement for three of the wastewater pump stations. These include:

1. Alma Pump Station,
2. Bremner Wastewater Pump Station (PS90) and
3. PS68 Whenuapai Pump Station

subject to the conditions as shown in Attachment B of the Recommendation.

Watercare also accepts in part the Recommendation to confirm the Notice of Requirement for Long Bay Wastewater Pump Station, but rejects the inclusion of the following condition:

Flood hazard risks

1. *Any works proposed within, or changes to, an overland flow path or a flood plain requires an assessment of the potential flood risks and the implementation of appropriate mitigation measures which:*
 - *maintains the functions of the overland flow path or flood plain*
 - *minimises obstruction to flood flows*
 - *responds to warnings of heavy rain.*

The assessment and mitigation measures must be submitted as part of the Outline Plan of Works.

Watercare rejects this condition on the basis that it is not warranted as the Long Bay Wastewater Pump Station site is not subject to any overland flow path or flood plain under the Auckland Unitary Plan (Operative in part).

Following the receipt of the Recommendation, this matter was immediately brought to the attention of Auckland Council on 1st August 2025. Council's Senior Policy Planner confirmed that the flood plain does not affect the Long Bay Wastewater Pump Station site (See Attachment A to this letter).

As such, Watercare confirms its decision to remove this condition from the designation for Long Bay Wastewater Pump Station.

Please advise Watercare when the designations have been included in the district plan.

Please invoice for any outstanding cost to date to allow receipting this financial year.

Yours faithfully,

Conditions

Flood hazard risks

1. Any works proposed within, or changes to, an overland flow path or a flood plain requires an assessment of the potential flood risks and the implementation of appropriate mitigation measures which:
 - maintains the functions of the overland flow path or flood plain
 - minimises obstruction to flood flows
 - responds to warnings of heavy rain.

The assessment and mitigation measures must be submitted as part of the Outline Plan of Works.

Advice notes:

1. The requiring authority is obliged to obtain all necessary regional resource consents, and any other approvals, that may be required to undertake any proposed works provided for by the designation.
2. The submission of an outline plan of works (OPW) to Auckland Council is a requirement of s176A of the Resource Management Act 1991 unless the requiring authority requests an OPW waiver, and Auckland Council agrees to the waiver.
