#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** The planned cuts are all of important services. In particular (a) public transport is struggling, please allow budget to bring service frequencies back up (b) it's important to continue to fund community services and venues used by community organisations.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** (a) it is important to maintain some strategic influence over management of the airport, e.g. around integration of public transport improvements in a way that provides value for money to ratepayers rather than being forced by the airport to adopt expensive

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Parks maintenance (including mowing), Temporarily or permanently close council venues, Community leasing charges

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Submitter details

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** All of the above seem like fair and reasonable public services to be funded by funds gathered from rates.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** A partial sale of shares to ease the rates increase.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Sell some Airport shares and a increase in rates.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41). ## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** The services targeted help out lots of different people, including homeless, children / youths, and people unable to drive (elderly, children, poor). Better to increase rates to help these people out. Also Local Board, Zoo spending can help families and children.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Don't sell the shares, they are an important investment. Increase rates instead.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** It's better to increase rates to cover the increased spending needed. A 4.66% rates increase is less than inflation, so Council would have less money to spend because of inflation. The rates increase should be more than inflation, because Council needs to

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Other

**Tell us why:** \$20 million is not enough for all of Auckland, it needs to be more. Flooding and cyclones can get worse in the future.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Parks planning, Environmental restoration, volunteers and pest control

**Tell us why these are most important to you:** They are all important, why does Council want to reduce funding - to save rich people paying more in tax?

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with any of them. Reducing public transport services is like going backwards in time and will increase pollution and congestion. Not having public art events is stripping the city of culture and not great for tourism.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** I don't know

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Enforce highest rates to those that own multiple properties as they are the ones who can afford it. We need to increase rates to keep arts and culture alive.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Only if you don't cut costs anywhere else. Find this by increasing rates only.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** Keep the library open or find new site. I like the proposed development at carrington rd.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Local community events, Protection and restoration of local waterways

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please consider not cutting funding to the arts. Cutting funds will have a catastrophic and lasting effect on the arts, will put people out of jobs, strip our city of its culture.

## Important privacy information

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** There is capacity to increase both rates and debt. Reductions in services will impact communities and individuals.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:** Air travel will have to reduce in the future. Dividends will decrease

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Increasing debt puts these issues into the future and potentially to next generation.

Cutting the water quality targeted rate makes no sense when we need to improve water quality

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Infrastructure has been under funded or badly prioritised and a targeted fund for stormwater flooding will be useful for future.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Community climate action and sustainability, Library hours

**Tell us why these are most important to you:** Climate action is required across the board.

Library hours are already short in the weekend.

Community events provide a sense of belonging

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?** Charge more for waste

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** The arts are a fundamental part of the “heart” of the city, it employs many thousands of people and give Aucklanders and New Zealanders a place to be entertained, to heal and learn about different cultures and ideas. Without the arts, Auckland would lose tourists from across the country and overseas, it would lose international students and the many cafes and restaurants that are already having a hard time would lose more patrons at the very time they are needed.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:** The last rates rise was already very high, another rise in rates would make it very difficult for rate payers to be able to keep up with mortgage and bill payments.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:**

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local arts programmes, Local community events, Protection and restoration of local waterways

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I would not proceed with the reduction in Social Services and Homlessness funding. I believe the services provided currently are bare minimum and any further reductions risk harm to lives as well as increased suffering leading to increased crime.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:** Ambivalent

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** It's reasonable to expect rates to increase in line with inflation

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** This work can be conducted incrementally over time. While weather related events are predicted to become more frequent, the Anniversary Day floods were considered a 1 in 200 year occurrence

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** At a local level some of these priorities fall more in the category of recreation and could be sacrificed or self-funded

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Community climate action and sustainability, Parks maintenance (including mowing)

**Tell us why these are most important to you:** The most essential

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I would like to see the Our Auckland newsletter stopped - it is not of value.

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tātaki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** If Auckland doesn't nurture the arts and cultural activities, I'll happily move back to Northland or Australia (what would be the point in living in a concrete jungle?)

I do not support the following cuts:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and

welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:** We shouldn't run a city like a private household; it is bad economic management! We are in a post-cyclone and post-pandemic moment. Now is the time to invest in our future. A city going backwards will never be able to get back on track; invest now and pay

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local arts programmes, Library hours

**Tell us why these are most important to you:** Libraries are the life-blood of our communities, especially those that lack access to reliable internet and knowledge (books, newspapers etc). Going ahead with these reductions will only hurt our most vulnerable communities.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Do not proceed with:

Reducing regional contestable grants.

Reducing regional services,

Reducing local board funded activities

Reducing funding to Tātaki Auckland Unlimited

These proposed cuts, which while small in terms of the Council's overall budget, wi

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I do not support these cost reductions. The overall effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

To reduce the budget for the things that deliver vibrancy and colour and life to our city, is short-sighted and the polar opposite of the leadership and vision Tāmaki Makaurau deserves. I am strongly opposed to cutting funding for things such as CAB's and libraries, which allow people to access information, and get help with their legal rights. Reducing community services will have a hugely negative impact on our communities for years to come - in particular for the low income and disadvantaged.

Do not cut funding from the arts sector. Cultural events, arts, community gardens are what bring people together and be a community. When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These have value, and cutting these will affect a lot of creatives, who have already been affected by the COVID lockdowns. The arts sector supports wellbeing in our communities, which is important for social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Putting up prices for venues will mean many groups and organisations will not be able to afford to carry on. Social services activities such as homelessness funding, community empowerment and funding for youth centres are an investment in the future. We cannot let these slide or we will have to deal with more problems in the future. We want a thriving cultural, vibrant and liveable city. One that is a destination for visitors to experience the arts and culture we have to offer here. Now is the time to invest in Auckland's future. When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Selling the airport shares is short-sighted. The loss of the 18% shareholding in Auckland International Airport would make the city permanently poorer and would remove people's level of control over a strategic asset. Why sell something that will generate

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:** Increase borrowing for now since large companies and organisations such as councils can negotiate better borrowing rates at fixed terms than the everyday person. Unfreeze targeted rates. Now is also not the time to freeze funding for water quality or the

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** It is very important for us to invest in stormwater infrastructure, especially in light of recent extreme weather events and the impact it has had on communities. With the amount of infill housing going up around Auckland comes the additional run-off from

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:** Local boards have a greater connection to their communities. They are more in touch with their needs, and have a better idea of the best places to allocate money. We need to invest in our communities and if local boards have better funding they can take c

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Protection and restoration of local waterways, Library hours

**Tell us why these are most important to you:** Maintain library hours as these spaces are such valuable hubs of knowledge that enable those with poor resources to access information that should be available to all. Protect and restore local waterways - after the recent floods, looking after our waterw

### Whau Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:** Local boards have a greater connection to their communities. They are more in touch with their needs, and have a better idea of the best places to allocate money. We need to invest in our communities and if local boards have better funding they can take c

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Library opening hours, Local community events

**Tell us why these are most important to you:** Maintain library hours as these spaces are such valuable hubs of knowledge that enable those with poor resources to access information that should be available to all. Protect and restore local waterways - after the recent floods, looking after our waterw

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	

Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** All these community, education and regional grants so valuable. Also, these are available to everyone, the equitability of them is important.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Shares valuable, likely to give more return in future as travel responds post-covid. Keeping shares valuable for long term protection of services in our main international airport.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Set a higher general rates increase and make greater use of debt. Better vary the way rates calculated so that wealth and land value delivers more rates rather than the current approach using more fixed fees that disproportionately disadvantage poor people

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental restoration, volunteers and pest control, Community climate action and sustainability, Protection and restoration of local waterways

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?** Increase the fee for compliance testing for swimming pools/spas so that the costs are covered by users.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Continue with delivery of AT original proposed cycle lanes and street upgrades to enable people to switch safely from car journeys to bike journeys, will benefit emissions, health, and ease congestion.

Maintain the NETR for pest control, biodiversity pr

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I would not proceed with reduced funding to Tātaki Auckland Unlimited, regional services, local board funded activities or regional contestable grants. The reason I live in Auckland and not a smaller and cheaper rural town is because I enjoy the arts and culture that comes with being in the biggest city in Aotearoa. I regularly attend live music, be it small artists at The Powerstation, The Wine Cellar or large ones at Spark Arena. I'm also a regular attendee of the Auckland Philharmonic Orchestra, which I have gone to for years now since my grandfather gave me his ticket to Ravel's Pavane as he was too sickly to go himself. The arts and cultural scenes of Auckland are what makes this city, without them I have no good reason to remain here. My life is not about work or how much money I can make depending on where I live, it is about where I enjoy living. I pay higher rates and rent in Auckland because I believe it is worth it currently. I will happily pay a little more to protect what we have here. If these cuts go through then it is likely even more venues and artists will be forced to close up shop, and these people will not bounce back. They will be gone for good.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental restoration, volunteers and pest control, Community climate action and sustainability, Protection and restoration of local waterways

**Tell us why these are most important to you:** Tough choices to make, but I believe strongly in healthy waterways, having lived near Western Springs in the past and seen the terrible state of the creek there.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I am not in support of maintaining a reduced public transport services. Public Transport is a reflection on the quality of a city and signals that it is possible to live in Auckland without a car. All great cities have well-functioning PT services. The current Public Transport network needs improvement to increase its connectivity and reliability. Maintaining the reduced level of funding will only continue to worsen public transport's poor reputation in Auckland and make it more expensive to revive in the future. The only reduction in funding should be due to obvious inefficiencies within council funded services, and it would be wise to consolidate common functions.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** Don’t change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Auckland Airport is the gateway to the country and a critical piece of infrastructure for the City and New Zealand. Maintaining ownership keeps a large share of it in Aucklanders hands. With over half of Aucklanders being from abroad, the airport plays a

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Most people choose to live here, so should pay what it takes to keep the city thriving. Most people want to see the city improve. Failure to invest in Asset upgrades will only cost more in the future. So best to fund them now. If there is noticeable impro

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** We want to live in a resilient city. It would be unwise to not fund us preparing for the future.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** There still needs to be funding for community groups. many people who benefit from the various community events and programs heavily rely on them to maintain a sense of community and support their mental health. Cuts will further isolate people from socie

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Sports and activities in parks, Protection and restoration of local waterways

**Tell us why these are most important to you:** I support the continue restoration of local waterways as they improve the look and feel of the area, as well as provide nice places for people to use, such as the Oakley Creek restoration. In light of recent floods, it is also important to have waterways

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

It is important that Auckland continues to support growth, rather than saving money at the expense of not maintaining or improving our assets, which includes our physical infrastructure and our people. This city still lags behind many cities abroad, and i

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Increase rates and increase debts

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Environmental restoration, volunteers and pest control, Library hours

**Tell us why these are most important to you:** Creating and maintaining a sustainable and creative community is important to me.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** Support more investment into public transport and public cycleways, paths.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Free up and sell some of the golf courses of Auckland to reduce debt instead of the Auckland Airport shares and create more housing and community food gardens in golf course real estate.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I would rather pay additional rates to have these services remain.

The only one I would find acceptable would be reducing ece services but only if there was a commitment to continue to support community providers eg AKA, Playcentre, community crèches and playgroups. This could be through buildings, leases, grants etc

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** I think if the market doesn't support the airport council will be called on to bail it out so we should keep a stake in it so that when dividends are coming we receive the benefit

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** I think we need to pay for our services. I don't think the policy change to make business rates firer should be paused.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** I think some of this should be part of the targeted rate eg don't change that rate and use it for storm/ natural disaster response. We need to pay for improved infrastructure.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** These are priorities that make the area a great place to live and be part of a community. Planning and preparing for intensification and climate action should be at the top of the list for the entire council

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Community climate action and sustainability, Community leasing charges

**Tell us why these are most important to you:** Community leases allow charities/NFPs to operate and spend their money on their area of expertise rather than rent.

Community events help to bring people together and make it a great place to live.

Climate action is something we can no longer ignore- h

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** We need the cash

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

**Tell us why:** We need our libraries, Citizens Advice Bureau pools, parks and other services

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Local community events, Library hours

**Tell us why these are most important to you:** I use them regularly as I am poor.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with reducing regional services or local board funded activities. Arts and culture is always the first thing to go in moments of economic pressure but is the stuff that keeps people engaged in their communities, respecting one another, removing prejudice and fear and continuing to make Auckland a vibrant and exciting place to live that will attract more talent to the city. It takes years to rebuild an arts and cultural scene, just as it takes years to rebuild after a climate change disaster, but don't make the mistake of thinking the arts are a 'nice to have'. Having things to look forward to, having things of beauty, and having opportunities to connect with others is what gets people through hard times as much as food, homes and new infrastructure.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community development and support, Local community events, Library hours

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not reduce community services, arts and culture, education etc as these investments in social act as ambulances at the top of the cliff. Any reduction will be more expensive overall as community dysfunction increases.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Targeted environmental and water rating are crucial tools to ringfence this spending on actions necessary to work on our two biggest problems: biodiversity loss and anthropogenic climate change.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Remedial action required to mitigate planning failures and greed of past development decisions.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** % of green space already inadequate in Albert Eden and this will be exacerbated by the Unitec development. The area has huge cultural and economic diversity and community support is essential.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Protection and restoration of local waterways, Library hours

**Tell us why these are most important to you:** As above

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	0

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Would not proceed with:

Public transport services cuts

Tātaki Auckland Unlimited cuts - especially zoo, art gallery, Aotea Centre etc

Regional services cuts

local board funded activities cuts

Regional contestable grants cuts

These are all core Council activities and are vital in maintaining Auckland as a functioning city for people to live in.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Other

**Tell us why:** I would support selling the minimum amount of shares required to get the city out of a specific financial hole - in this case possibly \$295 Million, although with rate increase closer to the rate of inflation, say 8%, less than \$295 Million would be req

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** The above choices do not reflect the available options.

I would like to see a higher overall rates increase of around 8% - more closely aligned to the rate of inflation.

We should have a higher overall rates increase and make greater use of debt.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** There is really no choice here - we have to spend whatever is required in this area.

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** The Local Board grants/budgets are already pathetic and should not be reduced at all.

Local Board are the last tiny gesture toward democracy and local representation - any prioritisation should be up to the Local Boards, not imposed unilaterally by a slas

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

### Aotea/Great Barrier Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** The Local Board grants/budgets are already pathetic and should not be reduced at all.

Local Board are the last tiny gesture toward democracy and local representation - any prioritisation should be up to the Local Boards, not imposed unilaterally by a slas

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

### Devonport-Takapuna Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** The Local Board grants/budgets are already pathetic and should not be reduced at all.

Local Board are the last tiny gesture toward democracy and local representation - any prioritisation should be up to the Local Boards, not imposed unilaterally by a slas

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

**If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?)**

### Franklin Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** The Local Board grants/budgets are already pathetic and should not be reduced at all.

Local Board are the last tiny gesture toward democracy and local representation - any prioritisation should be up to the Local Boards, not imposed unilaterally by a slas

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

Our communities have told us that providing a network of pathways (walkways and cycleways) between and within our local villages and town centres will help locals access services and facilities, and live healthy active lifestyles.

Our budgets cannot deliver a network of this scale without additional funding such as via a targeted rate. To implement a new rate, we would have to investigate further and consult with you again in a future Annual Budget process.

**Do you think we should investigate a local targeted rate to fund a network of pathways across the Franklin Local Board area?** No

#### Henderson-Massey Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** The Local Board grants/budgets are already pathetic and should not be reduced at all.

Local Board are the last tiny gesture toward democracy and local representation - any prioritisation should be up to the Local Boards, not imposed unilaterally by a slas

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

#### Hibiscus and Bays Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:**Invalid to only choose 3 - I consider all of the above are important

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** The Local Board grants/budgets are already pathetic and should not be reduced at all.

Local Board are the last tiny gesture toward democracy and local representation - any prioritisation should be up to the Local Boards, not imposed unilaterally by a slas

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

#### Kaipātiki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** The Local Board grants/budgets are already pathetic and should not be reduced at all.

Local Board are the last tiny gesture toward democracy and local representation - any prioritisation should be up to the Local Boards, not imposed unilaterally by a slas

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

**If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?):**

### Māngere-Ōtāhuhu Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** The Local Board grants/budgets are already pathetic and should not be reduced at all.

Local Board are the last tiny gesture toward democracy and local representation - any prioritisation should be up to the Local Boards, not imposed unilaterally by a slas

Please rank our proposed local board priorities from most to least important to you:

Rank	Proposed Priorities
0	Investing in initiatives to reduce the impact of climate change, including tree planting, education programmes and environmental volunteers
0	Continue to provide residents with better quality facilities, parks and open spaces
0	Promoting activities to showcase our local arts and culture talent into career pathways
0	Continue to identify procurement, quality employment and social enterprise opportunities for our residents
0	Improving the well-being of our locals by supporting our local economy to become more efficient, resilient, and sustainable through our reduced budget

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

**How do you think we could support our communities to be better prepared and resilient to extreme weather events like the recent Auckland storm?** Auckland Council responsibility, not local community

### Manurewa Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** The Local Board grants/budgets are already pathetic and should not be reduced at all.

Local Board are the last tiny gesture toward democracy and local representation - any prioritisation should be up to the Local Boards, not imposed unilaterally by a slas

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

### Maungakiekie-Tāmaki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** Invalid to only choose 3 - I consider all of the above are important

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

**If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?)**

**Do you think there are other areas where we could make savings to our local budgets?** No

### Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** Invalid to only choose 3 - I consider all of the above are important

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

**.What do you think of the savings we've proposed across our activities and services?** Do not support

**Tell us why:** This level of cut is totally short-sighted and absurd.

### Ōtara-Papatoetoe Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** The Local Board grants/budgets are already pathetic and should not be reduced at all.

Local Board are the last tiny gesture toward democracy and local representation - any prioritisation should be up to the Local Boards, not imposed unilaterally by a slas

Please rank our proposed local board priorities from most to least important to you  
1 = most important, 5 = least important)

Rank	Proposed Priorities
0	Explore initiatives and actions raised through the safety networks to improve safety in our town centres and neighbourhoods
0	Invest in closing the digital divide by supporting community groups to upskill all residents with technology to enable work, schooling, and connection
0	Fund programmes aimed at upskilling our residents, particularly youth, for emerging sectors
0	Continue to improve our sports fields and facilities to encourage active participation and access to sports and athletic activities for organised and informal use
0	Continue to support environmental activities and initiatives, including community-led activities, to respond to climate change, reducing waste and protecting our environment

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

#### Papakura Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** Invalid to only choose 3 - I consider all of the above are important

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

#### Puketāpapa Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** Invalid to only choose 3 - I consider all of the above are important

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

#### Rodney Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** Invalid to only choose 3 - I consider all of the above are important

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

#### Upper Harbour Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** The Local Board grants/budgets are already pathetic and should not be reduced at all.

Local Board are the last tiny gesture toward democracy and local representation - any prioritisation should be up to the Local Boards, not imposed unilaterally by a slas

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

#### Waiheke Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** The Local Board grants/budgets are already pathetic and should not be reduced at all.

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

#### Waitākere Ranges Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, what do you think of our proposed priorities for services and activities in this local board in 2023/2024? Other

**Tell us why:** The Local Board grants/budgets are already pathetic and should not be reduced at all.

Local Board are the last tiny gesture toward democracy and local representation - any prioritisation should be up to the Local Boards, not imposed unilaterally by a slas

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

#### Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** The Local Board grants/budgets are already pathetic and should not be reduced at all.

Local Board are the last tiny gesture toward democracy and local representation - any prioritisation should be up to the Local Boards, not imposed unilaterally by a slas

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

**Do you think there are other areas where we could make savings to our local budgets?** Probably not

#### Whau Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** The Local Board grants/budgets are already pathetic and should not be reduced at all.

Local Board are the last tiny gesture toward democracy and local representation - any prioritisation should be up to the Local Boards, not imposed unilaterally by a slas

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** Invalid to only choose 3 - I consider all of the above are important

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

<b>Waste management rates changes</b>	
---------------------------------------	--

Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?** Overall increase in rates is too low - should be closer to the inflation rate.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not underestimate the value of community - more than ever we need the Arts and Community initiatives to pull our community together, to strengthen the very fabric of our city. CAB, Auckland libraries, funding of festivals and community events - they should be getting MORE funding rather than less.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Auckland is a growing city - our population is increasing and so our ratings base will also increase. Auckland airport will continue to provide income for our city

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** see above (Q2: Auckland is a growing city - our population is increasing and so our ratings base will also increase. Auckland airport will continue to provide income for our city)

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** The community boards need to be pushing back at Council regarding the reduced funding. For quibbling over a relatively small sum of money, the Council are willing to put all these crucial local board initiatives at risk. We need to stand up and raise our

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Environmental restoration, volunteers and pest control, Library hours

**Tell us why these are most important to you:** This is a ridiculous question - all of those things are important.....

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** 'I do not agree with the following:

- Reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$20 million

The arts and cultural programmes are so important for those individuals and communities who operate within them and also the joy they bring to the wider public. I have had extremely positive and enjoyable experiences watching theatre shows in Auckland recently and I know these experiences would not have been possible without funding.

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million.

Auckland public transport system is an absolute joke at present. It is horrendous trying to catch any public transport to work at the moment. The current system is so dreadful it encourages people and in fact forces people to drive as there is no other option. Something needs to be done to improve this!

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** I don't know

**Tell us why:** I don't know enough about this to understand whether it is a financially viable option.

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** These events will keep happening and we need to be better prepared

## 5. Local Boards

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

## Submitter details

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Social and arts services benefit communities, wellbeing, access for all

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local community events, Protection and restoration of local waterways

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. ## Submitter details

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** Keep the libraries open!

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Local community events, Library hours

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** It's already such a pain to travel to work daily with the current public transport frequency, and you want to maintain this? It's not a logical answer. I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** I don't know

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community climate action and sustainability, Protection and restoration of local waterways, Library hours

**Tell us why these are most important to you:** We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any

interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

**Do not proceed with:**

- Reducing regional contestable grants.
- Reducing regional services,
- Reducing local board funded activities
- Reducing funding to Tātaki Auckland Unlimited

These proposed cuts, which while small in terms of the Council's overall budget, will have an outsize impact on our arts, culture and creative sector, and youth and community programmes and services.

Our social infrastructure – including our arts, culture and creative sector – is needed more than ever as our communities try to move on from three years of COVID-19 disruption.

This is a time to invest, not a time to cut.

Our arts events, cultural festivals, theatre, dance, music, comedy and other creative activities bring life to our city, bring Auckland communities together, and attract domestic and international tourists. This has a positive knock-on effect to our restaurants, hotels, transport and other sectors.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services improve social cohesion, make our city more inclusive and welcoming, help us to attract and retain new residents and industry, boost the local economy, create jobs and make the city more prosperous.

Our arts, culture and creative sector jobs, organisations and facilities are not nice-to-haves that can be turned on or off at will. Jobs will be lost, some of the organisations responsible for delivering these services will shutter, and some facilities will struggle to survive.

**Do not proceed with:**

- Reducing regional contestable grants.
- Reducing regional services,
- Reducing local board funded activities
- Reducing funding to Tātaki Auckland Unlimited

These proposed cuts, which while small in terms of the Council's overall budget, will have an outsize impact on our arts, culture and creative sector, and youth and community programmes and services.

Our social infrastructure – including our arts, culture and creative sector – is needed more than ever as our communities try to move on from three years of COVID-19 disruption.

This is a time to invest, not a time to cut.

Our arts events, cultural festivals, theatre, dance, music, comedy and other creative activities bring life to our city, bring Auckland communities together, and attract domestic and international tourists. ## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not reduce funding to Tātaki Auckland Unlimited and Regional Services, Local Boards, Contestable Grants and early Childhood Education. The proposed budget cuts are enormous and they will negatively effect many people from different sectors. These are essential to the fabric of our society. We as a society need to lift people up and Auckland council has a responsibility to care for people not just infrastructure. These cuts will also harm the local economy, negatively impact people's well being, and cost more in the long run. Only make cuts to council where there are duplicated jobs or efficiencies can be made.

I would expect our new mayor to care for all Aucklanders. roads and infrastructure is not more important than people.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** I don't know

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Increase rates and debt to cover our shortfall.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** - Support local initiatives which reflect community interests as investing in local projects engages people to become involved locally and this builds community connections which leads to increased well being and resilience.

- increase funding to communi

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community development and support, Community climate action and sustainability, Community leasing charges

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I would like greater transparency on how council spends money. I would like to see a visionary budget which supports and engages our people to work and create a better Auckland. Support community leaders as these people use so many volunteers. These v

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Because the shares are an investment that will most likely increase over the long term

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:** It is a reality. I am a home owner and a rental owner and have enjoyed increases in value over the years, it is only fair that those who had the luxury of owning and getting increase, pays more - its still pales in comparison to what people have made off

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** I think it is obvious that climate change will cause more and more events

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Local community events, Community climate action and sustainability

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with cutting arts funding.

Many arts organisations would be forced to close, Auckland city would lose a vital part of our community and associated services and tourism.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Allow Auckland to continue to have a stakeholder's say in decisions impacting our city and residents.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:** Option one seems the most fiscally responsible

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** It is vital that Auckland future-proofs for storms

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** Libraries, CAB, parks, pools and are vital community resources that need to stay open and maintained.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Local community events, Library hours

**Tell us why these are most important to you:** Free and accessible community events should be available to all sectors of our community.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?** Q1: continued funding support is vital to keep this industry and its associated sectors alive. Without funding, many organisations will close, Auckland will lose community enrichment and tourism.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** These are all vital parts of the city

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Just in case stock prices rise

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** More focus needs to be on supporting our arts and creative industries

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Environmental restoration, volunteers and pest control, Community climate action and sustainability

**Tell us why these are most important to you:** It's hard to pick three but it's a fools game to reduce climate spend during the worst of a climate disaster

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Submitter details

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** All the proposed reductions will negatively impact a huge amount of people, community groups, and positive programs and services. This would be knowingly causing harm to those in society already struggling financially. Auckland Council is in a great position to increase its debt safely and this is the most sensible thing to do.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Selling Auckland Council's shareholding in an important asset such as Auckland Airport is incredibly foolish. Holding onto our shares in this asset is sensible and incredibly important.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** Auckland Council is in a good position to make a greater use of debt. Reducing the NETR and WQTR is an appalling suggestion - these are incredibly important and significant programs and should not be reduced.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Increasing Auckland Council's ability to effectively respond to natural disasters and their management is very important.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** The key priorities proposed are great and positively impact our community. The proposed reduced funding will devastate the local board priorities and the proposed reduction in funding should not go ahead.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Community climate action and sustainability, Protection and restoration of local waterways

**Tell us why these are most important to you:** These reflect the biggest challenges we currently face as a community and wider society. All of the local board services are incredibly important though and to chose only three is difficult.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Reducing our funding to Tātaki Auckland Unlimited to save a further \$27.5 million, with effects on service delivery (including economic development and tourism promotion) and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland. - does this money made go to support other items mentioned in the list?

Reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$20 million

No longer directly providing early childhood education services to save \$1 million. Provide early childhood to support people to earn more money for family in harder times. This also increases tax made.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** increase rates on businesses of large employ numbers.

Increase. increase rates for property owners of more than one property within Auckland.

increase the rates on private companies holding large amounts of land such as inner-city fringe golf clubs and r

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

Now is the time to invest in Auckland's future, not to cut back.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** We need to invest in our communities if they're going to grow. Increasing community resilience and connection is very important.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local arts programmes, Local community events

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Other

**Tell us why, and which reductions you would not proceed with if any:** Raising prices of the zoo, gallery etc will limit people's opportunities of experience it. Kids are lacking now, these changes will limit more.

Cutting the arts in Auckland. I look forward to Pasifika. The opportunity to experience the cultural melting pot of Auckland. Polyfest, watching my family learn more about their culture. Cultural proud.

I attend programmes offered by my local community that I wouldn't normally because of financial restraints. I enjoy learning and meeting others in my community

You're really taking away from the community

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?**

**Tell us why:** Someone said you are able to borrow more at a lower rate, and pay it off in a longer time period, is that correct?

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?**

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Parks maintenance (including mowing), Activities provided by Sandringham and/or Pt Chevalier community centres

**Tell us why these are most important to you:** They are ones that I use

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	0
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	0
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	0

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

The culture and art of Auckland is what makes living in this city great for many of us locals. I love living in a vibrant, creative and diverse city. This cuts only save a dollar in the short term but we will end up spending more in the long run. Our cultural activities generate revenue. People come to the city, they stay in our hotels, eat at our local cafes and shop at our local retail businesses. Without these events our city will suffer. Many people will lose their livelihoods if these cuts go ahead and may need to move away from Auckland

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** It doesn't make sense to sell shares in the Airport when it's a low point in the market. Ideally I don't believe the shares should be sold at all since it raises revenue for the council but right now is the worst possible time.

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** I would like to see rates increase of rates to 7% which is still affordable and make greater use of debt. We are still recovering from major climate events in Auckland cuts to both NETR and WQTR are highly irresponsible.

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** If the recent weather events have shown us anything we need a robust storm water infrastructure.

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** I love living in Mount Eden. I love living close to parks where I can enjoy nature with my community. I love the community groups. I love the bustling shopping centres that are diverse and welcoming. I want Mt Eden to continue to be a beautiful thriving p

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Community climate action and sustainability, Library hours

**Tell us why these are most important to you:** Local arts programmes create connection and giving people a space to explore and play at a low cost is vital to people's well-being.

Climate action and sustainability should be a top priority for all levels of government. We are living in the middle of a

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** First off, ALL areas of Auckland should have food waste collection available.

the CATR was introduced last year with overwhelming public support, it seems counter intuitive to now cut it. I strongly oppose any cuts to public transport. We are currently ha

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please, please, please do not go ahead with these cuts. I need busses to get to work. My community needs libraries to learn and grow. We need CAB's to help when we are stuck, I've received excellent free legal advice from CABs. We need a thriving cultura

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Environmental restoration, volunteers and pest control, Library hours

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I do not support these cost reductions. The net effect of such a sizeable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future. Our arts events, music, cultural festivals, theatre, dance, comedy and other creative activities bring life to our city, bring Auckland communities together, and attract domestic and international tourists. This also has a positive knock-on effect to our restaurants, hotels, transport and other sectors.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not “nice-to-haves” that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will close. Once there is no opportunity for work and artistic expression, artists and arts practitioners have no reason to remain in Auckland. We will become a cultural wasteland!

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** I don't know

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** The accessibility and reliability of the public transport needs to be improved hugely to contribute to the climate objectives.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Community climate action and sustainability, Protection and restoration of local waterways

**Tell us why these are most important to you:** We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities are feeling.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Reduction in Cultural Events

Without funding, most of Auckland's cultural events and festivals will be cancelled or scaled back, leading to a reduction in the diversity and vibrancy of the city's cultural scene.

Job Losses

Many artists, performers, and c

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Other

**Tell us why, and which reductions you would not proceed with if any:** OTHER - Do not proceed with ANY of the reductions. The proposed reductions would result in major social, cultural and economic losses for our city. It is a depressing thought that, our cultural institutions e.g. libraries, museums, galleries; our cultural festivals; parks and recreational facilities etc., would be reduced. They are vital to the vibrancy and community of our city. They provide so much for every citizen. I was taken to these places as a child. We did the same with our own children. They are doing the same with their children. I feel very strongly that these are the places and events that unite our communities across every type of difference. The reduction in public transport services has been terrible. It seriously should not be so hard to get from one place to another in our city using reliable, regular and affordable buses, trains and ferries. People are desperate for these services to be increased, not reduced. I have used buses to travel from Mt Eden to Epsom, Newmarket and the city. In the last year, the bus timetable reductions has made it less reliable. I find myself waiting for a Dominion Rd bus from Newmarket for up to 40 mins. It used to be 15. I am less attracted to using them now. This is bad for business and the environment. The CAB must not be reduced or lost. I have used Mt Roskill CAB for advice and JP signatures for official documents. There has been no where else to go. I will join others in protesting if the proposed reductions go ahead. I have never protested against the Auckland City Council but this draft makes me feel very upset, angry and devastated for our city.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Other

**Tell us why:** OTHER - I believe that the council should sell some of its land assets, namely some of the 13 golf courses and/or some of the Auckland Airport shares. It should pay down debt and also invest. Invest in improving public transport, improving facilities, suc

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** I do not support the reduction in funding. Sell assets to raise capital.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Sports and activities in parks, Parks maintenance (including mowing), Library hours

**Tell us why these are most important to you:** Every person, regardless of socio-economic and cultural differences are able to access these activities and services. It is ESSENTIAL for the cohesiveness of our communities. I am also firmly opposed to a reduction in funding for all of the other services

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions at all. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Community climate action and sustainability, Library hours

**Tell us why these are most important to you:** We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the

Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

**Do not proceed with:**

Reducing regional contestable grants.  
Reducing regional services,  
Reducing local board-funded activities  
Reducing funding to Tātaki Auckland Unlimited

These proposed cuts, which while small in terms of the Council's overall budget, will have an unforetold impact on our arts, culture and creative sector, youth and community programmes and services.

Our social infrastructure – including our arts, culture and creative sector – is needed more than ever as our communities try to move on from three years of COVID-19 disruption.

This is a time to invest, not a time to cut.

Our arts events, cultural festivals, theatre, dance, music, comedy and other creative activities bring life to our city, bring Auckland communities together, and attract domestic and international tourists. This has a positive knock-on effect on our restaurants, hotels, transport and other sectors.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services improve social cohesion, make our city more inclusive and welcoming, help us to attract and retain new residents and industry, boost the local economy, create jobs and make the city more prosperous.

Our arts, culture and creative sector jobs, organisations and facilities are not nice-to-haves that can be turned on or off at will. Jobs will be lost, some of the organisations responsible for delivering these services will shutter, and some facilities will struggle to survive.

**Do not proceed with:**

Reducing regional contestable grants.  
Reducing regional services,  
Reducing local board funded activities  
Reducing funding to Tātaki Auckland Unlimited

These proposed cuts, which while small in terms of the Council's overall budget, will have an outsize impact on our arts, culture and creative sector, and youth and community programmes and services.

Our social infrastructure – including our arts, culture and creative sector – is needed more than ever as our communities try to move on from three years of COVID-19 disruption.

This is a time to invest, not a time to cut.

Our arts events, cultural festivals, theatre, dance, music, comedy and other creative activities bring life to our city, bring Auckland communities together, and attract domestic and international tourists. This has a positive knock-on effect to our restaurants, hotels, transport and other sectors.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Waitākere Ranges Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, what do you think of our proposed priorities for services and activities in this local board in 2023/2024? Other

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local arts programmes, Local community events

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Submitter details

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I think the funding to public transport , contestable regional grants and tataki Auckland should be maintained. Any reduction would deprive the city and communities of services that are key to our community wellbeing.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** I don't know

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Community climate action and sustainability, Library hours

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** When I came back to Auckland from overseas I was excited to find a city that was finding its feet and becoming a real "city" with arts, culture and active expressive people creating a vibe. A vibe which flowed into the presentation of a much more worldly and internationally "cool" (see recent awards for Kingsland and Krd) vibe. A city that was more comfortable with itself. Where we need more investment not less to make our city great is in public transport. We lack in comparison to other cities on this front. Reducing public transport, youth clubs and help for the homeless would increase the ghettoisation and social issues and crime we are already facing. Tourism could potentially have a short term cut if the world isn't moving to the same degree as it was but would require additional funding to make sure we don't miss out when people are moving again. I have no idea if my assumption that global travel is reduced atm is true or not, and a short term reduction in tourism support is probably false economies anyway.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Auckland Airport is a key strategic asset that is a link for our biggest city to the world. As an effectively monopoly we should retain this and be pocketing the super profits and dividends for years to come - not making a short term sale to avoid increases

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:** Debt makes sense for investment, for building up assets when they have a good business case behind them and will deliver future benefits (upgrading rail etc). Our rates should be enough to cover our regular operating expenses and regular fixing of roads, p

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** This is intelligent PROVIDED the extra 20million a year is specifically earmarked for storm prevention measures (ie can't be absorbed into the general pool

Of cash)

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Parks planning, Environmental restoration, volunteers and pest control, Protection and restoration of local waterways

**Tell us why these are most important to you:** Maintaining a liveable breathable city. With abundant parks, trees and areas for people to have some space within a busy city are key to health, wellbeing and peace and calmness of mind.

### Waitākere Ranges Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, what do you think of our proposed priorities for services and activities in this local board in 2023/2024? I support most priorities

**Tell us why:** The coalface initiatives (parks recreation and resilience to erosion and flooding) are all self evident and obvious to follow up on. Board planning, doesn't seem a key focus when the issues are already so clear to see.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental activities e.g. pest control and wildlife protection on west coast beaches, Climate action and sustainability initiatives, Parks volunteers and restoration of local waterways

**Tell us why these are most important to you:** Recent high level vulnerability to weather events and the intrinsic beauty of west Auckland nature need respectively addressing and protecting.

### Whau Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:** Supporting the BIDs in this and working together to create a safe, clean positive physical environment in this area should be the number 1 priority. Somewhere business want to be to create job opportunities and and reinvestment in the area.

The developm

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local parks, community facilities, and sports and recreation programmes, Protection and restoration of local waterways, Library opening hours

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	

Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

### What do you think of these proposals?

## 7. What else is important to you?

### Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

TMA targets to date have not made sense to me - and there is clearly a large section of society that does not agree with the PACE at which they want change.

I am totally onboard with the planting and takeover of our maunga with native species. What I do

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Other

**Tell us why, and which reductions you would not proceed with if any:** None of them. People shouldn't lose their jobs. Stop increasing everything in hard times.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Other

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:** I am sick of rates increased. Worked hard for our property and yet we are constantly smashed with rate increases.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

**Tell us why:** Stop Planting trees. We have enough already. Look at what you're doing to the local Akarana Dog club. No help, just about ruined its chances of survival and still may ruin it entirely. This board is useless and has done nothing to help this club and yet t

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental restoration, volunteers and pest control, Activities provided by Sandringham and/or Pt Chevalier community centres, Community leasing charges

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Support for the only central Auckland dog training club in would a good start considering the council have done nothing for Akarana etc. So far no help in any way or to relocate the club when the club lost 11 meters if their ground to an up grade of

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I do not support the proposed spending reductions, as these reductions will have a long-term negative impact on community well-being, safety and resilience (including responding to the climate emergency).

I support unfreezing the Water Quality and Natural Environment Targeted rates, increasing borrowing, and increasing general rates at least to the rate of inflation rather than the proposed 4.66% increase.

I request that Council maximise alternative sources of funding such as increasing on street parking charges and the introduction of charges at Park and Rides.

I do not support cuts to Tataki Auckland Unlimited's facilities and services, nor do I support cuts to community, culture, regional events, economic development and social services (such as the cuts to CABs, the proposal to halve local board discretionary spending, or community events).

I do not support the proposal to cancel many hundreds of buses a week, nor the proposal to increase the cost of public transport fees. Increasing public transport ridership is key to reducing carbon emissions in Auckland and cancelling buses/increasing fares will only discourage people from utilising public transport and increase emissions, increasing emissions and ultimately exacerbating climate emergencies.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** The market is low and it does not make sense to sell it at this time. Once this asset is gone it can no longer be leveraged or support future revenue raising for Council. I would support increasing rates and debt rather than completely selling shares, alt

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** I support council setting a higher general rates increase and making greater use of debt. Council should set rates at least at the rate of inflation (8-9% rather than the proposed 4.66%).

I support the prudent use of debt under Council's own policy up

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Extreme weather events will occur at a higher frequency. We urgent need to improve stormwater infrastructure. The flooding has exposed weaknesses in Auckland's stormwater infrastructure; with this increase in the operating budget, we will be able to take

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** I support all board priorities, but particularly support those which improve environmental outcomes and the quality of our green spaces (such as parks and our urban ngahere).

As a resource consent planner, I understand the limitations of the Auckland Un

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental restoration, volunteers and pest control, Community climate action and sustainability, Protection and restoration of local waterways

**Tell us why these are most important to you:** We are facing a climate emergency and these are the most vital items. By promoting good local environmental outcomes, there will be positive flow on effects to the community - from enhanced resilience to climate events, to providing clean shared open spac

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** I support changes to waste charging and all areas having a food waste collection available. I support the swimming pool compliance targeted rate change.

I oppose the climate action targeted rate change as it should only be used to improve and increase s

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I support Council adopting an alternative budget that invests in Auckland's recovery, community well-being and climate action, rather than one that makes short-sighted cuts.

I support the Tupuna Maunga Authority Operational Plan 2023-2024.

I strongly

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Arts and community activities. Assistance for the homeless community

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local community events, Environmental restoration, volunteers and pest control

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Other

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with any reductions and instead unfreeze the

Water Quality and Natural Environment Targeted Rates, increase borrowing and maintain the general rates package.

I also suggest: an increase in general rates, a request for central government support, new targeted rates, and a lift in parking charges as alternative funding mechanisms.

The proposed funding cuts are damaging to our communities and I have personally seen the need for the services provided.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Other

**Tell us why:** Don't change the policy, keep all our shares and further increase rates and/or debt.

The sale of shares like this ensures a one-off return only - with all future possible opportunities for income from this large shareholding lost.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** This is precisely the time to take advantage of Auckland Council's excellent credit rating. Auckland Council is not facing a debt crisis (Auckland's debt is at 250% of its revenue, well

below the 290% debt ceiling)

Debt-to-revenue ratios measured by the

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** I have extreme concerns about the impact continued underinvestment in infrastructure will have in light of predicted increases in the frequency of extreme weather events.

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** The cutting of these important parts of our community cohesion and safety is unjustified and we should be increasing debt to continue funding all services

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Community climate action and sustainability, Protection and restoration of local waterways

**Tell us why these are most important to you:** The above are fundamental to our community for building resilience.

Increase debt to fund these and the other funded initiatives.

As for council parks turn them all into local community gardens to increase our ability to provide basic foods to our communi

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** The cutting of planned increases in bus frequency funded by the Climate Action Targeted Rate is insane. How do we reduce carbon without a free and frequent bus service. take on more debt to fund this.

The Council should continue to investigate small addit

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Auckland Council should be investing now – in tourism, public transport, the arts, and other social services. Investing in the city will bring revenue back.

These investments can be funded through a  
mix of borrowing and leveraging of rates set out above a

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Sports and activities in parks, Community climate action and sustainability

**Tell us why these are most important to you:** arts promotes cultural health, sports promote physical health and climate change action supports global health.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Public transport funding needs to be restored. Public transport is at a very unfunfunctional level and needs to be boosted or more people will use their cars, increasing pressure in other areas.

Do not reduce so much funding from Tātaki Auckland Unlimited. Keep funding for Art Gallery, Arts and culture programmes and funding for youth centres. Others will not pick these up but private sector should be encouraged to pick up promotion activities etc. Prices for events, zoo, venues and stadiums can go up and people will probably still use them. Central government should be picking up social services such as homelessness.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:** Shares in the airport are not core business and in times of need, needs must

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Set rates a bit higher while still borrowing \$75M so as to not have to cut so many Tātaki Auckland services

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** This is not the time to add extra costs. Some of the proposed changes are not urgent.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** funding community action with our new Climate Activator not essential

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Local community events, Parks maintenance (including mowing)

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

be careful not to cut services such as arts that improve general well being and community spirit.

- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Importance of maintaining a 10 per cent holding rather than let the airport fall totally in to overseas hands.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** As a home owner on National Super \$20,000 approx only, my concern is how am I going to be able to afford to pay the rates? If there is provision for us seniors in that regard, then I would agree to the rates increase.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** As a home owner whose property has been effected by a landslip in a council bush reserve blocking a stream, provision has to be made to do remedial works urgently before winter.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** Libraries could be reduced to being open 6 days a week.

Importance of family events, activities for the young and youth should be maintained.

However, there are questionable items under "Events" that definitely should be cut.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Sports and activities in parks, Environmental restoration, volunteers and pest control, Protection and restoration of local waterways

**Tell us why these are most important to you:** Importance of clearing landslip debris from landslips in the streams, as any further cyclones or storms may cause further loss or damage to those of us effected by recent events.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?** What provision is being made for seniors whose only income is the National Super in regard to paying a lower rates bill?

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Importance of maintaining culture and the arts and crafts for all ages.

Keeping the libraries free.

Making sure that the council owned bush reserves and streams are cleared from debris.

- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Community & Education programmes are vital to future-proof for generations to live in Auckland and NZ. it is short-sighted to reduce these vital services

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** What about the profits?

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local community events, Library hours

**Tell us why these are most important to you:** Most of these services should be maintained as part of making Auckland worth living.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** Swimming pools need to be affordable for family to teach their children how to swim to avoid drowning accidents.

Bus services needs to funded all over Auckland to get more cars off the roads.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

AT Transport needs to provide reliable services on all routes at affordable prices.

## Submitter details

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I do not support any reductions in Auckland City operations as listed.

Auckland city people also need services that provide unity and purpose. That's the councils purpose.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Auckland city should retain ownership of shares rather than relinquish them to other/ offshore interests. Rates rise/debt.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Rates and debt . Infrastructure needs boost.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** The funding is pretty tight already = cuts would not amount to much in way of savings, anyhow.

Community matters.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Sports and activities in parks, Library hours

**Tell us why these are most important to you:** Libraries and citizen advice essential services in way that health and school services are.

A place to stand, that provides tools to inform oneself with for all equally is cornerstone of citizenship .

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** You are selling airport shares to reduce interest on debt, why increase debt?

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** Maintain assets and plan for future storms by getting value for money from contractors.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** Keep local services and levy development for the additional funding necessary.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Protection and restoration of local waterways, Parks maintenance (including mowing)

**Tell us why these are most important to you:** These activities support health and well-being.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?** We should be encouraging people to reduce waste, recycle intelligently and manage their own food and green waste.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Ask that you monitor contracted works so that we receive value for money.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Community services are vital to community health and cutting these services before pulling on funding levers that are available like higher rates increases and borrowing is wrong. This impacts of these cuts would be immediate and take generations to reverse, and we know it's likely they would remain. This is the time to invest in our city, our communities. How can we expect to attract people if we have less money to advertise our city. How can you expect to retain people if you're killing off our creative and entertainment economies. Our city is something special. Let's not cut the things that are holding it together. Please invest in and support our communities. Do the seemingly hard thing and increase rates and borrow more to get us through.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** Don’t change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** It’s a silly time to be selling assets. This is a short term hit perhaps but we need long term strategic thinking.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Council should make greater use of debt and set a higher general rates increase to manage the financial position and avoid making cuts to vital services that keep our communities alive. It makes more sense to ask that our communities cover the costs of in

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** It’s crucial that we invest in our infrastructure as catastrophic climate events are predicted to become more frequent. It’s about time we were prepared and started the work to stop shit flowing into our oceans and waterways every time it rains.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** Local boards enable communities to thrive. I do not support any reduction in their funding. We desperately need investment across the city in our parks, green spaces, infrastructure, cultural events, libraries and services. It's all necessary.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Sports and activities in parks, Library hours

**Tell us why these are most important to you:** I don't support reducing funding for any of these

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Protection and restoration of local waterways, Parks maintenance (including mowing)

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** How can you cut CABs? These are VITAL to give people knowledge and support, particularly for those with little money! And buses!!! Do you want this city in more of a gridlock than it already currently is?!?!?!!!!!!!!!!!!!!!

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** once you sell those shares, they're gone! Market is currently low - not a great time to sell.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** we need to set a higher general rates increase AND make greater use of debt.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** the flooding affected my community badly - there are local shops that are shut for months. Friends are out of their houses for months due to flooding. Families have been torn apart; friends' kids have had to move schools due to being unable to live in the

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** Horrified that reducing community funding could hit so many of the things that makes community. We'd be living in a dead city/local board area. In particular, without funding to support my year 1/2 students in swimming, few would learn to swim. This would

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Sports and activities in parks, Community climate action and sustainability

**Tell us why these are most important to you:** without community events, we'll be a dead city. Families will have less exposure to cultural knowledge or cultural recognition. Climate action is for the future! Kids need to be taught to swim free of charge via schools/transport provided!

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Public transport services are already shabby and underfunded. Reducing them, even more, will mean people revert back to cars and send our city backward.

Cutting Auckland Unlimited funding will cut the soul out of the city. Buildings are more than just ways to make money.

Auckland relies on these services you are planning to cut and if you cut them, Aucklanders will suffer.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Selling airport shares is a short-term solution. Selling major assets means the council will lose out on any further revenue streams. Tourists are starting to return and the airport will start to become more profitable.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local arts programmes, Library hours

**Tell us why these are most important to you:**

### Devonport-Takapuna Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Library opening hours and services, Arts / community programmes and services

**Tell us why these are most important to you:**

**If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?)** Contestable and non-contestable grants, Open space low mow / no mow areas, Charges relating to community leases and licences

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Other
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

## Submitter details

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Other

**Tell us why:** Council should increase rates and make greater use of debt as appropriate in order to reject the proposed cuts to arts & culture funding and protect the cultural wellbeing of Tāmaki Makaurau Auckland.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Council should increase rates and make greater use of debt as appropriate in order to reject the proposed cuts to arts & culture funding and protect the cultural wellbeing of Tāmaki Makaurau Auckland.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** Council should increase rates and make greater use of debt as appropriate in order to reject the proposed cuts to arts & culture funding and protect the cultural wellbeing of Tāmaki Makaurau Auckland.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Environmental restoration, volunteers and pest control, Protection and restoration of local waterways

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The proposed Budget, which would reduce both investment and community participation in creative and cultural activities including music, does not achieve the fundamental purpose of Local Government. It poses an immense and imminent risk to our cultural

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I would not proceed with reducing regional services. Auckland needs community and education programmes, art, culture and all the social services and community empowerment programmes. Reducing regional services will rip at the very heart of our communities, removing hope and engagement opportunities from Aucklanders trying to move on from covid lock downs and recover from flood events. We need to strengthen communities not remove opportunities to come together and grow. Also, don't dumb down generations of Aucklanders and make art and culture inaccessible. That's appalling and short sighted.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** I don't know

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local community events, Protection and restoration of local waterways

**Tell us why these are most important to you:** We cannot afford to lose our environment or our communities. we need to maintain the gains we have, not throw them away, and we need to give people hope with support, projects, connection and a feeling that Albert Eden is a place worth staying in.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Auckland Council must fully support the Tūpuna Maunga Authority in every way it can in order to honour tanagata whenua and the Treaty of Waitangi.

## Important privacy information

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** You should NOT proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. They would negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** The council needs to play a long game, not make rash and foolish short term decisions when rates and debt can see us through right now, and help the city grow back stronger with its assets intact.

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** Rate increase would be reasonable in combination with greater use of debt to assuage effects on poorer communities.

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** This is of great importance and shouldn't be up for debate.

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing any of these initiatives will further compound the hurt our communities feeling. Crucial community resources shouldn't be pitted

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Community climate action and sustainability, Library hours

**Tell us why these are most important to you:** These are all important and have been divided up in a seemingly arbitrary manner that doesn't serve us as a diverse wider community.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:** Reducing debt must be top priority right now - this is urgent

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:** Not very happy as have had a large increase already but we need to take the medicine now and reduce debt as a priority

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** Do not increase the budget - you must reduce spending and debt as top priority

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** It reduces spending and that must be done - the country is trashed and we need to start fixing it at a local level by stopping spending

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental restoration, volunteers and pest control, Protection and restoration of local waterways, Parks maintenance (including mowing)

**Tell us why these are most important to you:** Stop using round up - it is poison. Clean up our waterways - I want to swim safely as do many others. Please for goodness sake can we have some common sense back - thanks for clearing the drains in our street for the first time in over 5 years - pity it w

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** Ridiculous - how do you actually think that most people can continue to pay for all of your increases of these targeted rates? We have a cost of living crisis and you cannot keep finding ways to charge ratepayers more - you need to cut your costs

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I want the council to stop wasting money and reduce services back to basic, reduce debt and to not increase rates

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** As a florist, musician and Auckland resident who values the arts, culture and community, I would not proceed with cuts affecting the arts sector - contestable grants, the Regional Services budget, local board funding, and to Tataki Auckland Unlimited. The arts enrich people's lives, Auckland is the cultural centre of our Nation and to make these reductions would be a tragedy for our city & our country.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** This is would be a very short term fix.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Do not support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** high rates, high living cost, more people moving out of Auckland.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** ordinary people would much care about what they can see has been done, rather than the debt they can not see.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:** There are enough trees, but no leisure centre with swimming pool in this local board.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Environmental restoration, volunteers and pest control, Protection and restoration of local waterways

**Tell us why these are most important to you:** these are basics and relevant to common people.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?**

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Community climate action and sustainability, Protection and restoration of local waterways

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I would not proceed with the cuts to contestable grants, the Regional Services budget, local board funding, and to Tātaki Auckland Unlimited. These impact incredibly important sectors, especially social services, arts and education. Social services being cut now after the devastation we saw because of the floodings and cyclone Gabrielle would be horrific for our youth, elderly and homeless communities. Education sectors being cut would impact students after already having to deal with the aftermath of learning during COVID19 and would cause an immense drop in secondary and tertiary dropouts with the teachers already striking and thus teaching quality dropping immensely. Finally, the Arts sector (in which I work and study) being cut would massively impact the livelihoods of so many auckland residents, and would send Auckland backwards both socially and economically for people in creative careers, most of which have had to move into these careers after covid and many still recovering what they lost during the cyclone and flooding only recently. These cuts being proposed after recent events is laughable when we should be investing in the public and community sector rather than stripping it down.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:** Putting this towards debts would be a better use of shares.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** The impacts of the recent flooding and cyclone were not prepared for and cost Auckland too much in infrastructure, livelihood, lives and farmland. We need to be better prepared for this in light of the current and ongoing climate crisis.

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** My values align with the given priorities

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local arts programmes, Community climate action and sustainability

**Tell us why these are most important to you:** Climate action is and will always stay relevant and will impact the other sectors largely, arts programmes keeps the creative sector alive and thriving and thus grows the economic sector, and community development and support uplifts the community, impact

### Waiheke Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** My values align with the given priorities

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Environmental programmes and volunteers, Community climate action and sustainability programmes

**Tell us why these are most important to you:** Like previously stated, environmental programmes and climate/sustainability focused action in light of our climate crisis sustains Waiheke's natural environment and keeps our island beautiful, green and safe. Community projects enrich the lives of all liv

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Making sure if some public transport is unavailable (ie train services) that the bus services are running at higher rates and efficiently (not running late, leaving early) and keeping them as accessible to areas that are usually aided by use of trains, an

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres. Need to keep supporting social services etc as there are many groups needing support after covid 19, floods and cyclone Gabrielle and many communities in poverty exacerbated by increased cost of living.

No longer directly providing early childhood education services =this will impact poorer families and the savings are not that great.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community development and support, Local arts programmes, Environmental restoration, volunteers and pest control

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Other
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Auckland Council must continue to support the Tupuna Maunga Authority Operational Plan to maintain obligations to Te Tiriti o Waitangi.

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. - Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** All of them, you will gut the city of everything that makes it unique and worthy to live in if you proceed

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** There's so many alternatives here - sell the golf courses, stop subsidising them. Wasted land, wasted resource

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Please invest further in infrastructure like this, and use land accordingly / eg a sponge city model (GET RID OF THE RIDICULOUS AMOUNTS OF GOLF COURSES)

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Environmental restoration, volunteers and pest control, Community climate action and sustainability

**Tell us why these are most important to you:** We're in a climate crisis, and arts are the heart of this city that facilitate further community bonding

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Don't cut regional and community education/art/culture program funding. This will have long-term negative impacts on Auckland's arts and creative sector, sending our city backwards socially and economically.

Many councillors have expressed a deep discomfort with the proposed cuts.

Auckland's arts, culture and creative sector generates billions in GDP and employs nearly 50,000 Aucklanders. But much of this activity is dependent on a delicate ecosystem of funders.

The Council's funding for arts and culture is just a tiny proportion of the total council budget, but delivers a big impact for Aucklanders by supporting theatre, comedy, music, dance, and events like: Polyfest, Matariki Festival, Big Gay Out, Diwali, The Lantern Festival, Music in Parks, UpTempo, the Arts Festival, the Art Fair, the Writers Festival and CultureFest.

These events bring communities together, attract tourism and make Aucklanders feel proud.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Local community events, Protection and restoration of local waterways

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not cut funding to the APO, retain spending on the special collections team in the Central City library (although ok to cut library hours on Sundays), and reduce cuts for the CAB (keep up to 1/2 funding)..

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Maintain some public control of the transport infrastructure.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Necessary to delay new investments, except for water and sewage.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Sports and activities in parks, Parks maintenance (including mowing)

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Maintaining reduced public transport levels

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities

Reducing regional contestable grants

Reducing funding to organisations such as Citizens Advice Bureau

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors. This is not the time to be cutting back. Now is the time to invest in Auckland's future.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Rates could be increased to maintain community services and assets. We should also consider increased use of debt.

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Parks maintenance (including mowing), Library hours

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Public transport is absolutely necessary in our city and is already terrible. Sharing management structure and maintaining reduced services will make it much worse. We are already far behind other large cities and more work needs to be done to make public transport more appealing to the public.

Reduction in Tataki Auckland Unlimited funding should be reduced to not heavily effect ticket pricing of places where people are exposed to and can learn about new things for example the zoo, art gallery and museum. All these places expose people to science, culture and history and many more things.

Regional services funding should not be decreased at all. These are vital to our city and decreasing funding will only make decrease culture and community and make crime worse.

Early childhood education is already strained. Decreasing funding will only make it worse.

In many of these cases perhaps reconsidering how the funding is spent would be a better idea.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:** Everyone is struggling, as smaller increase in rates may be more palatable.

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Climate change will mean more unpredictable weather. Increasing spending to prepare so that the same or worse damage does not happen again is a good idea.

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:** Library hours should not be reduced.

Swimming lessons for year 1-2 in low decile schools should not be cancelled. Why not cancel funding for high decile schools?

"Temporarily or permanently close council venues, such as libraries, community centres, venu

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Library hours, Temporarily or permanently close council venues

**Tell us why these are most important to you:** Library and council venues are vital. They are used very often and are a great space for the public when money is a problem, which it is.

I enjoy community events and many others do as well. They make the city feel lively.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

## Submitter details

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** You shouldn't proceed with any reductions, simply increasing rates by 5% will help council generate additional revenues and keep employment for a lot of employees across a lot of organisations and have proper public transport available for families and younger generations also being helpful to our environment. Simple words stop the cuts.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Losing investment of this extent is bad financial management, council must look at increasing revenues instead of using reserves.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** Council has a strong credit rating and this means ability to borrow more, be wiser and utilise this.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** If it helps build a better infrastructure that's for the good of the community we must invest in future safety of our city

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** All of this are important for a safe community growth

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community climate action and sustainability, Protection and restoration of local waterways, Library hours

**Tell us why these are most important to you:** Our climate is the most important for us to have safer residential communities

### Maungakiekie-Tāmaki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** They are all equally important initiatives

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Library opening hours, Local community grants fund, Protection and restoration of local waterways

**Tell us why these are most important to you:** Because these initiatives will help us sustain our community better and stay connected and safe

**If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?)** Programming at Te Oro, Oranga and Onehunga Community and Arts Centres, Council-led community programming e.g. Out and About activations in parks, Support and capacity building for community-led activities (Strategic Partnerships Programme)

**Do you think there are other areas where we could make savings to our local budgets?**

### Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** They are all important in building sustainable communities

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Local grants e.g. community and accommodation grants

**Tell us why these are most important to you:** These are extremely important for our local communities

**Do you think there are other areas where we could make savings to our local budgets?** Yes reduce the mayoral office spending same as previous mayor did ! You will have at least 3 millions as savings

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?** Keep the bus services levels same, please understand that students live a frugal life not everyone can afford to have a carpark in the city.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Keeping all the funding intact is important me because I can not think of level of unemployment these reductions will cause and that's not healthy mana

## Important privacy information

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** The proposed cost savings will lead to long term increased costs and are incredibly short sighted. For example libraries provide essential community services particularly in providing people with internet, and supporting reading in at risk groups. Public transport is already extremely difficult in Auckland and reducing services will lead to additional costs in traffic and congestion issues. Reducing access to early childhood education is the easiest way to increase learning and health disparities between children of high and low SES backgrounds. Selling shares in the Airport similarly reduces a steady assets for short term profit.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** Don’t change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** See above

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** People paying rates are higher SES and therefore this is one of the few proposals that increases equity for our city.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?**

**Tell us why:**

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Sports and activities in parks, Community climate action and sustainability, Library hours

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

## Submitter details

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Council should both set a higher general rates increase and make greater use of debt.

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Stormwater infrastructure is essential to mitigating impacts of future weather events.

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** I agree with the key priorities of the board area. I strongly disagree with the proposed cuts to funding of the many essential services across Albert-Eden.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Environmental restoration, volunteers and pest control, Community climate action and sustainability

**Tell us why these are most important to you:** Requiring the community to select only 3 answers is not right, given the analysis that led to these options being put forward in the first place is fundamentally flawed.

I disagree especially strongly that funding of the Arts and Events should be reduced

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

These proposed cuts will have an outsize impact on our arts, culture and creative sector, and youth and community programmes and services.

Our social infrastructure – including our arts, culture and creative sector – is needed more than ever as our community

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Other

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Public libraries, community centres, helping the homeless, and supporting early childcare must stay funded

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Other

**Tell us why, and which reductions you would not proceed with if any:** To not proceed with any reductions. The funding that would cover this shortfall in the current budget which is \$295 million would come from selling one golf course. Estimated running costs of the entire 13 golf courses is 160 million so call it 10 million per year saved in running costs and 2.9 billion in total sales from the 13. Round 2.9 billion to 2.6 and sell one course.

$2.6 / 13 = 200$  million for one course.

This fills the hole.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** Other

**Tell us why:** You might refer to some of the above issues highlighted or simply how the sale of shares like this ensures a one-off return only - with all future possible opportunities for income from this large shareholding or a stake in what is carried out at the airp

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** We have a fantastic team at RBNZ who is working hard to control inflation

This is precisely the time to take advantage of Auckland Council’s excellent credit rating that Auckland Council is not facing a debt crisis (Auckland’s debt is at 250% of its reve

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Auckland is not setup to deal with extreme weather events and needs to be safe guarded for the future

## 5. Local Boards

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Taking away support in the budget for the arts industry will decrease foreign investment in New Zealand and have it become a less desirable place for tourists to visit. This is not what we want our city to become.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Other

**Tell us why:** Keep the airport public, it is a public service and does not belong to anyone in particular. The airport is to function for the public as well.

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Other

**Tell us why:** Only increase the budget for the storms so long as the other sectors do not get a cut in their budget. Other sectors such as the arts and culture and bus systems deserve to keep on running as they provide essential services to the public as well.

## 5. Local Boards

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

**What do you think of these proposals?** Keep the buses funded, and keep them running as they are. They are an essential service to many Aucklanders and it would negatively impact the community if the services were cut.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Art galleries and the zoo provide important cultural and educational opportunities for all. Access to sports is important for personal health, community enjoyment and simply having fun. Regional services including Citizens advice bureau support the vulnerable people in the community who need additional assistance in managing their lives. Good advice and support makes them less susceptible to exploitation.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Keeping a stake in key infrastructure is important so that the needs of the city and region are represented

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:** Infrastructure funding is crucial for the long term maintenance of services. There are many examples of where reducing maintenance leads to failures and costly repairs

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Well designed solutions such as Owairaka show the merit of passive measures of flood management that are also a community amenity

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** Pt Chev library should be reopened to benefit readers of all ages. Stop the destruction of mature trees for development eg Unitec site.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental restoration, volunteers and pest control, Protection and restoration of local waterways, Parks maintenance (including mowing)

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** The proposed cuts, specifically those which reduce funding to CAB, Arts and Culture, Museums, and the library services are shameful. It is hard to comprehend that a council would ever humor the notion of reducing funding to essential services which aid Auckland's most vulnerable. For starters, The Citizens Advice Bureau is an essential apparatus for providing free and confidential legal and bureaucratic advice for residents. Its defunding represents a failure to understand and comprehend the needs of Auckland's most vulnerable, and is a blow for democracy. Suggested defunding of Libraries across Auckland follows a similar vein, it is angering to think that councilpersons think of libraries as underutilized resources. Libraries represent the archiving of knowledge and the freedom to access it, they represent multi-fuctional community spaces which are loved by those of all ages. They are shelter to the most vulnerable. They are peaceful spaces where we can all congregate. If people aren't utilising your libraries, work on their longevity as institutions. It's part of your job to uphold public spaces. The suggestion of increasing online libraries services as a peacemeal is out of touch with the reality of the consumer base, also. People like libraries because they are nice spaces, not just because we like reading. The suggested cuts to arts and culture are heartbreaking and show a lack of care or understanding about what makes life worth living. As people, we all love and take joy in theatre, music, film and literature. Sell one singular golf course if you're so desperate. It's time to think about the majority, not just your rich friends, Mr. Brown.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Learn from Britain. Private ownership loses councils money over time. Think about the longevity of assets. People have to live here after you've finished your term.

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** My landlord can pay more rates, I can't afford to lose arts, culture, heritage, and advocacy institutions. As a future ratepayer, I would love to think that my money was going to create a better Auckland for all.

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Climate Change is real and this response to it is small. As a nation we must think very seriously about preventative climate action for the years to come.

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** Don't decrease funding.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local arts programmes, Library hours

**Tell us why these are most important to you:** I want to click many more. I think these three represent the soul of our community.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?** As long as it supports a developing Auckland, I support rates changes. I am happy to be taxed more to get a better world.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. ## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Other

**Tell us why, and which reductions you would not proceed with if any:** I wouldn't proceed with any reduction in services. All of these are important and Auckland needs to be moving forward. It seems particularly problematic to consider reducing buses at a time where transport is the highest cause of climate change inducing emissions for the city. We should be heavily investing in transport diversification. Increasing parking charges and other forms of rates and/or borrowing are better options.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Selling our airport shares is very shortsighted and there are better ways of managing finances than selling our assets. This would reduce our income from dividends ongoing as well as removing some control of public land and an important transport infrastr

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** I think that we should consider unfreezing the targetted rates for water quality and the natural environment at this time. We should also consider raising revenue via other methods ie car parking, waste management, water use and perhaps borrowing more.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** We have underinvested in infrastructure and climate change resilience and this is an important measure. We may need much more than this moving forward. Recent storm events have highlighted that deficits exist and we need to invest in solutions as soon as

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Community climate action and sustainability, Protection and restoration of local waterways

**Tell us why these are most important to you:** Climate change has become an urgent priority and has been underprioritised for many years. We need to ensure it is at the top of the priority list moving forward. Community building is an important part of resilience moving forward

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** We should not be reducing funding for climate change related activities/priorities. We cannot redirect climate funding to pay for transport costs. That is what a transport budget is for. We should redirect away from car infrastructure towards multimodal t

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

We should not be cutting services for this city. That will not “fix” anything. We should instead invest in the city and particularly build infrastructure for climate resilience and to enable emissions reductions. There are other options for increasing rev

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

As someone who relies heavily on creative, cultural, and community impact work - these cuts will not only effect my line of mahi but it will also effect my very essence and identity. These services are a way to future education that benefits so many. I sit at the intersection of Queer Youth work (Community engagement Liaison at RainbowYOUTH) and indigenous education and wellbeing (Creative Director of MAUWAI, Tautai Artist, Performance Artist and Contractor to Collenso) Throughout my various mahi I have first hand experience to the multifaceted benefits our sector has on peoples very identity.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Other

**Tell us why:** '-

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:** '-

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms? Other**

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:** Our very own communities have the answers to so many of our issues. Our investment needs to grow - mana whenua and tangata whenua need to be able to stand in their mana motuhake and self determination. How can we continue to progress when you are cutting

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Local community events, Protection and restoration of local waterways

**Tell us why these are most important to you:** Our natural environment is so extremely important to many of us - spiritually, physically, emotionally... Water has an innate connection to so many indigenous cultures - and while we are on stolen land - you must honour where you are situated. Tangata Whe

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).

- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

### Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

**Do not proceed with:**

- Reducing regional contestable grants.
- Reducing regional services,
- Reducing local board funded activities
- Reducing funding to Tātaki Auckland Unlimited

These proposed cuts, which while small in terms of the Council's overall budget, will have an outsize impact on our arts, culture and creative sector, and youth and community programmes and services.

Our social infrastructure – including our arts, culture and creative sector – is needed more than ever as our communities try to move on from three years of COVID-19 disruption.

This is a time to invest, not a time to cut.

Our arts events, cultural festivals, theatre, dance, music, comedy and other creative activities bring life to our city, bring Auckland communities together, and attract domestic and international tourists. This has a positive knock-on effect to our restaurants, hotels, transport and other sectors.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services improve social cohesion, make our city more inclusive and welcoming, help us to attract and retain new residents and industry, boost the local economy, create jobs and make the city more prosperous.

Our arts, culture and creative sector jobs, organisations and facilities are not nice-to-haves that can be turned on or off at will. Jobs will be lost, some of the organisations responsible for delivering these services will shutter, and some facilities will struggle to survive.

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** Don’t change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Council should both set a higher general rates increase and make greater use of debt.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** It is hugely important for us to invest in stormwater infrastructure, especially in light of recent extreme weather events. We can't sit by and watch our communities be devastated again, the loss physically, emotionally and financially, is too great.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** I oppose the idea of cuts to these crucial public and community services. We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our co

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Environmental restoration, volunteers and pest control, Protection and restoration of local waterways

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** Re Waste Management: All areas should have food waste collection available.

Re CATR. I have concerns with Council reprioritising the Climate Action Targeted Rate which was established just last year with overwhelming public support. I support more invest

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I support the Tūpuna Maunga Authority to protect and manage our Tūpuna Maunga and support all and any investment needed to ensure this happens.

I support more investment in public transport, buses, trains, and walking and cycleways.

I support protection

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** 'I am comfortable with the council making efficiency cuts in council as proposed. this is no more than 30 million.

Do not reduce funding to Tātaki Auckland Unlimited and Regional Services, Local Boards, Contestable Grants and Early Childhood Education. The proposed budget cuts are massive and many people from many sectors of society would be negatively impacted. They would harm the local economy, negatively impact people's well being, and cost more in the long run. Austerity is not how its done anymore as international experience tells us.

Funding for sustainability and environmental projects needs to be increased as this will help mitigate against climate change and flooding of the future. So these types of projects are critical for our resilience and the future protection against weather events associated with the climate emergency that the council recognises. They also engage lots of volunteers so are an efficient use of council money.

- Do not reduce regional contestable grants - these grants support important community empowerment and environmental projects, as well as projects supporting Māori and Pasifika communities. These grants also foster good ideas and support people creating better systems which benefit everyone.

- Do not cut funding to communities as connected communities are critical as it builds resilience. Once communities become disconnected it is difficult to bring people back together. Community is important for our well being, and makes the city attractive to future residents.

some very creative initiatives come out though contestable grants.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** I don't know

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** increase debt and rates to protect the listed things in Q1

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** Invest more in local boards. Local boards are in a good position to engage the best ideas in the community. this builds networks and engages volunteers which is an efficient way for council to spend money. big bang for your buck

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Community climate action and sustainability, Community leasing charges

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I have had funding for a project timebank Auckland. [www.timebankauckland.nz](http://www.timebankauckland.nz) this project is in a growth phase and to pull funding now will lose so much potential. We are engaging with different groups across Auckland and this project is set to build a

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Reducing funding for Tātaki Auckland Unlimited would lose why people come to Auckland from other regions and will definitely make it hard for tourists to do anything here. Reducing regional services would be a shame. We need to make Auckland safer so not providing homelessness funding, community empowerment and funding for youth centres would make Auckland worse.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Auckland public will be the losers here. The value of the Auckland Airport company, with its very large commercial and retail interests, will continue to grow. Being the largest shareholder is strategic.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local arts programmes, Local community events

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

Tell us why:

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

Tell us why:

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** These all seem important to the city's wellbeing.

Notably:

Public Early Childhood Care services have a massive positive impact on those that utilise those services. The overall savings are not significant enough that the harm done to those that rely on these services. Not only does the overall cost/benefit matter, but it must be closely examined on WHO is paying the cost for what benefit. Council should focus on helping those struggling in our community and providing opportunities through the local boards and community funds to develop our people.

services such as libraries, CAB, and public transport does significant and personal good to those that utilize those services.

The affordability, reliability, and frequency of public transport services make major impacts on my personal choice on whether to use them or drive before I was impacted by long covid. Now that I suffer from long covid I cannot drive safely and having better public transport services that are affordable and accessible would enable me to have more mobility and to engage in the world outside my home.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Isn't now a bad time to sell on the share market?

Also Auckland Airport has a huge impact on the city and the country as a whole and maintaining a controlling share seems important for the future.

If you want something to sell off consider council owned

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Increasing overall rates impact wealthier people more proportionally, giving the council more funds to help support lower earners and communities.

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

These storms are a direct result of climate change and has been known about for many years that these levels of events were on the horizon. Lack of investment in the past for our flood protections has been well known and Local Government has been advocat

## 5. Local Boards

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** Having the two different bins sizes at different cost points encourages people to make less waste and also to enable cost savings to those that are already struggling.

If you can afford a pool then you can pay to ensure it is a safe pool. Extra money cou

## 7. What else is important to you?

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** The areas targeted for reduced spending seem to be a reflection of a narrow-minded and privileged council faculty. Auckland is the cultural center of this nation; the artistic, cultural and sporting communities of our city are what enrich all of our lives, and the access to them is fundamental in combating what I'm sure most will agree to be some fairly difficult times of late. It seems bizarre to me that this council would specifically target community-minded institutions, that provide to many irreplaceable quality of life improvements, in favour of painfully inefficient infrastructural improvements and a vague 'management simplification' process that to me would represent a further 'one-size-fits-all' approach to governing politics. I cannot express enough how resistant I am to these changes, and in conversation with my peers, I am yet to find a single resident of Tamaki Makaurau who doesn't share my feelings.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Continued short-sighted policy. I am not privy to the value of these shares, their movement in the market, or the value of dividend payouts, but I imagine the income for our city as a result of their continued investment has been significant. Since I have

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:** Rate increases, coupled with increases in interest rates are likely to put even more strain on working Aucklanders who are already experiencing unprecedented increases in the cost of living. This is a complex issue however, and rates increases are to be e

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Common-sense legislation.

## 5. Local Boards

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Support sharing resources and efficiencies across council group. Completely against cuts to public transport. Do not support cuts to homelessness initiatives and other social services.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Now is not a good time to sell shares

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Set a higher rates increase and make better use of debt

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Recent events show us we need to invest in making the city more resilient including upping maintenance budgets for stormwater etc as well as investing in upgraded infrastructure with a preference for nature based solutions

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	Support

c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** Concerned that Council is looking to reprioritise the Climate Action Targeted Rate which was established just last year with overwhelming public support. Do not support use of the Climate Action Targeted Rate fund to reduce costs to Auckland Transport—who

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Support climate action initiatives in response to the climate emergency. Council fleet vehicles should all be upgraded to EV. More investment in public transport and cycleways and introduction of road pricing - this would generate revenue and help encourage

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Reducing funding to Tātaki Auckland Unlimited;

Reducing regional services;

Reducing local board funded activities;

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizeable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

Once there is no opportunity for work and artistic expression, artists and arts practitioners have no reason to remain in Auckland. This will decimate the sector's ability to produce excellent creative projects and will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Local community events, Environmental restoration, volunteers and pest control

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41). ## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** I don't know

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	0
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	0
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	0

**What do you think of these proposals?** We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I don't think the reductions are wise for our long term prosperity and wellbeing.

I request that Auckland Council unfreeze the targeted rates for Water Quality and the Natural Environment. The Water Quality targeted is particularly important to me as someone who loves our harbours and hope for clean waterways for myself and my future children.

Local Board discretionary funds, support so many great community projects and minor transport projects which improve safety and local travel options for active modes. I live car free and rely on buses and safe cycleways to get around. I believe it is important we INCREASE investment in this area too.

Of course, more spending means we need to find more funds. I am about to become a direct ratepayer for the first time and I support increasing the general rates and borrowing, to ensure all the proposed cuts are avoided and we increase the amount of services and projects that we are delivering.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** We should be increasing shares of strategic assets to provide leverage for climate change and economic growth, not selling it off. Please maintain the existing 18% shareholding.

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** We should set HIGHER general rates and make GREATER use of debt. As mentioned in Question 1 response, I believe we should not be making cuts but doing more for climate action and ensuring a just transition to a low carbon economy. This means spending more

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Storms are only going to become more frequent and more intense with climate change, its a good idea to be preparing for this and increasing funding. Ka pai

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Community climate action and sustainability, Protection and restoration of local waterways

**Tell us why these are most important to you:** I oppose the proposed Local Board cuts in full. The Local Board should be submitting in oppose these cuts. In short I believe these are all important

I believe community climate action, restoring local waterways and community development are the most im

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Council shukd both set a higher general rate increase AND make greater use of debt

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** I do not support the idea of cuts to these crucial public and community services

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Environmental restoration, volunteers and pest control, Community climate action and sustainability

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Citizens Advice Bureau plays an indispensable role in our community. People who need help have somewhere to turn to regardless of their financial situation.

These services proposed to be cut are the lifeline for many in the community, choosing to prioritise a 'budget' hole over peoples lives and well being particularly within already vulnerable communities is unacceptable.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

<b>Waste management rates changes</b>	
---------------------------------------	--

Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** These are all vital parts of the culture of the city.

I don't want to see a reduction in anything that provides a place for people to come together. These are some of the few sites of interaction for people to share experiences, knowledge and joy in our city.

The council changes composition all the time but the people are always present in the city. We want to LIVE in this city.

I don't want to see the CAB have its funding cut. This service is incredibly important for so many people across the nation. Legal services, even just legal awareness, are out of reach for many people. If this service goes there is no other service available to fill the gap.

I want to see more funding towards environmental and conservation initiatives. Climate change should be the council's priority, not debt.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Good to hold some shares good to sell some, yeah

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:** We need climate action now, lets diversify our risk though!

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Increase it further, we have serious infrastructure issues that simply need to be addressed. The wastewater overflows are unacceptable for a place like Tāmaki Makaurau.

## 5. Local Boards

### Upper Harbour Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** Upper Harbour is a multicultural, diverse and vibrant area, continuing to be one of the fastest growing areas in the country in both absolute and percentage population terms, a trend that is expected to continue for the foreseeable future. The Upper Harbo

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental restoration and pest control e.g. ecology initiatives assistance programme, Community programme delivery, e.g. connected community programmes, Environmental programme volunteers

**Tell us why these are most important to you:** Vital services for the wairua of this city rely on volunteer labour. Investing in these programs is a great way to bring people together as well as an obvious way to save money.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I think it would be neat if there was some kind of voluntary public funds. Have a base rate for infrastructure and climate action then separate funds for social/charitable/ethical goals that people can pay into to go towards the development of the city th

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I don't want the cutting of funding for regional community services, education and youth services, events, public transport, community grants, local board funding, climate action, resilience etc.

The services proposed to be cut particularly provide significant quantifiable benefits to disabled, low income and marginalised communities. These cuts will negatively impact the local economy, Auckland's culture and art and community sectors. Low rates come at a cost to the public services that we rely on and cutting these services negatively impact communities, adding extra financial burden particularly in the long term. Cutting services seems like a very short term approach to supporting the development of Auckland. Particularly when we consider the climate actions we need to take before 2030 to be on track for a 1.5 degree future, we need to be increasing rates and investing into Auckland's future in a way that supports Te Tāruke-ā-Tāwhiri (Auckland's Climate Plan) and the Transport Emissions Reduction Pathway.

I'd also add that growing up in Christchurch the citizens advice bureau were invaluable in helping my family with earthquake insurance conversations and I know of many others who have also been supported by their services particularly with regards to natural hazards, of which we can expect more of with climate change. They're an essential community service.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Infrastructure should remain as a public asset. As a large shareholder, Auckland Council should be using their position to influence the direction of AIAL to support emissions reductions. Once sold this asset could no longer be leveraged or support future

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Council should set a higher general rates increase and make greater use of debt. Now is not the time to be reducing rates - we need to be investing in Auckland's future and providing services that support disadvantaged communities. Require Auckland Trans

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** I think it's really important to be prepared for natural hazards by investing in long-term climate resilience rather than short-term band-aid fixes. I think this should be focused on nature-based solutions.

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** While the key priorities initially sound acceptable, the proposed cuts completely contradict these values - decreasing access to crucial public and community services. This is very short term thinking and over the longer term will increase the cost to Auc

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Environmental restoration, volunteers and pest control, Community climate action and sustainability

**Tell us why these are most important to you:** I oppose cuts to any of these areas - they are all important.

For the sake of picking three have chosen those above.

We are in a climate emergency and with significant action needed by 2030 in line with Te Tāruke ā Tāwhiri, there needs to be significant

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** The CATR question is vague and difficult to understand the implications of. Please consider this in the analysis of responses to this question. The people of Auckland showed strong support for the Climate Action Targeted Rate which was only introduced last

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

As a c40 city we need to be leading climate action. We have less than seven years to halve our emissions to remain in a 1.5 degree future and under Te Tāruke ā Tāwhiri this requires a 64% reduction in transport emissions. In the midst of this climate emer

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I would not proceed with the reduction in funding to Tātaki Auckland Unlimited, early childhood education, community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities. We need our public places more than ever. With the cost of living people have limited options for entertainment and finding places they are safe, warm and connected. We need to protect those spaces, like libraries. As a new parent I am on a greatly reduced income and making use of these facilities very often. Same with Auckland Zoo. It is an investment in my mental health and my child's enrichment. Children are the future and we should invest now in them.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** Don’t change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** We should be thinking long term and strategically about this investment, not selling it.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** These events are going to keep happening and we need to be prepared, otherwise it will cost us all in the long run.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local community events, Community climate action and sustainability

**Tell us why these are most important to you:** Times are tough with the cost of living and people need support. They also need things to enjoy to look forward to, events bring people together and create connection and community. And we need to be more active in stopping climate change and preparing for

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Don't shut down the arts within this city. It's a huge motivator for many my age and encouraging to see so many young artists bloom from within the walls of Auckland. This city is a fantastic starting point for many trying to get their name out there, don't shut down our future chances.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Community climate action and sustainability, Protection and restoration of local waterways

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41). ## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do NOT proceed with maintaining low level of public transport service. It is woefully inadequate at peak times now that more workers and students are working/studying in person.

Do NOT proceed with cutting regional services. These are critical to the wellbeing of our communities and their loss would likely have deleterious and costly flow-on impacts to other parts of locally or nationally funded public services. These cuts are also likely to disproportionately impact those Aucklanders who are already struggling and vulnerable (e.g., youth, homeless populations, marginalised communities). The proposed cuts to arts and culture risk permanently destroying Auckland's amateur and professional arts scene, which adds so much and boosts the mental health of Aucklanders of all ages.

The amount of money saved with these cuts (e.g., \$3m for grants) is negligible in the scheme of the super city's budget but the impact will be felt keenly by all Aucklanders.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:** Rates increased hugely for many Aucklanders last year and the cost of living crisis is biting. A better balance can be found between increasing rates by a smaller amount and increasing debt slightly more than proposed.

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** I greatly value having local arts programmes and community events and see these as core responsibilities of the Local Board. Water is a top sustainability priority for NZers and local solutions are often effective; in contrast while I am fully supportive

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Local community events, Protection and restoration of local waterways

**Tell us why these are most important to you:** I greatly value having local arts programmes and community events and see these as core responsibilities of the Local Board. Water is a top sustainability priority for NZers and local solutions are often effective; in contrast while I am fully supportive

### Puketāpapa Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Arts e.g. Pah Homestead art gallery, Community lease charges

**Tell us why these are most important to you:** As the Secretary and a playing member of Auckland City Brass Inc., a brass band charity based in Puketapapa, I see first hand the positive impact of Local Board funding and support for brass music and other arts activities. We have been the tenants of the

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?** Potential to reduce bureaucracy associated with swimming pool fencing compliance and keep fee flat (e.g., by reducing frequency of inspections).

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The value of social services, the arts, and sports to our local communities is difficult to quantify financially. However, I would urge the Council to take a "multiple capitals" approach to this Budget. As a ratepayer, I believe firmly that Council should

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** 'Do not proceed with:

- Reducing funding to Tātaki Auckland Unlimited,
- Reducing regional services,
- Reducing local board funded activities, and
- Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** The sale of shares like this ensures a one-off return only - with all future possible opportunities for income from this large shareholding or a stake in what is carried out at the airport lost to the multinational corporations who are likely to buy these

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Rate changes, including unfreezing the Water Quality Targeted Rate and the Natural Environment Targeted Rate, will generate much needed revenue that can help avoid

the proposed cuts. Unfreezing these rates for the coming year is estimated to raise over \$5

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Local community events, Environmental restoration, volunteers and pest control

**Tell us why these are most important to you:** When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. Local board funding for arts, culture and community events directly improve social cohesion, wellbeing and our quality of life. They make ou

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Auckland Council has a responsibility to all Aucklanders to create a liveable city. Now is not the time to be slashing and burning, now is the time to invest in our city, our people and our communities – in tourism, public transport, the arts, and other s

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. The Auckland CBD is most busy when something is happening at one of our world-class venues, be it the Town Hall, Aotea Centre, ASB Theatre. These venues are most often used by organisations that are reliant on local grants and other such support for stability.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run. People WILL leave our city for greener pastures if we go ahead with these cuts and effectively kill our arts scene.

These budget cuts will greatly and negatively affect small community organisations - arts, sports, and otherwise - that punch well above their weight. ROI may be difficult to measure, but the richness they afford our city is immense.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** When has selling assets at a loss ever been the right thing to do?

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** I support these priorities. But they should not be your only priorities. Stop the proposed reduction in funding. Find your money elsewhere. You will kill what makes Auckland a city worth living in. The arts matter, and they need support.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Library hours, Community leasing charges

**Tell us why these are most important to you:** Because art matters. Because community leasing needs to be feasible for local groups. And libraries are more than just holes in the wall with books on the other side.

### Puketāpapa Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** I support these priorities. But they should not be your only priorities. Stop the proposed reduction in funding. Find your money elsewhere. You will kill what makes Auckland a city worth living in. The arts matter, and they need support.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Arts e.g. Pah Homestead art gallery, Community lease charges

**Tell us why these are most important to you:** Stop trying to defund the arts. You risk destroying communities, organisations, that have been around for decades, and provide value beyond measure to the community. Once it's gone, it's almost impossible to get this back. We punch above our weight at pre

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	

Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I don't know

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local arts programmes, Community climate action and sustainability

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

It is imperative that the local arts sector is not impacted by budget cuts. The arts are not only great business for Tamaki Makaurau and are part of what makes this city vibrant and attractive. The screen industry in particular relies on support from Io

## **TĀMAKI MAKĀURAU SCREEN SECTOR RESPONSE TO AUCKLAND COUNCIL'S PROPOSED BUDGET 2023-24**

Screen Production is good business for Auckland.

Screen Auckland's 2022 Data Overview shows that:

- Screen (including production, post-production, and visual effects) is worth \$1.523 billion to the Auckland economy.
- The sector directly employs 8405 people in Auckland, up from 7500 in 2021.
- There are 2322 screen business units located here, 48% of the national screen sector.

Of the \$800+ million spend on production in the Auckland region 60% of that, almost half a billion dollars, was spent with Auckland businesses – hotels and restaurants, vehicle and equipment hire businesses, all of which did it tough during the Covid-19 restrictions.

In a recent economic impact report of screen production activity in New Zealand<sup>1</sup> less than 40% of spend on a film or TV show is screen-industry. Attracting and servicing screen production in Auckland makes very good financial sense, for those who work on productions, but even more so for the city as a whole.

We support the Auckland Plan 2050's aim that 'Auckland is prosperous with many opportunities and delivers a better standard of living for everyone'. Auckland Council has an economic development plan for the region – the most recent of these for 2021-2024 has the objectives of:

- Attracting people and investment
- Enabling thriving local economies
- Supporting quality jobs and skill development
- Preparing businesses for Auckland's future
- Infrastructure that enables economic development
- Regulations that enable economic development

Now is the time to invest in Auckland's future. Continuing to support screen directly through Tātakei Auckland Unlimited in turn supports the local economy, the hospitality sector, tourism, and retail to generate much needed revenue. A thriving city improves social cohesion, wellbeing, and our quality of life. It makes a city more inclusive and welcoming. Helps to attract and retain new residents and industry. A thriving city also boosts the local economy, creates jobs, and makes for a more prosperous city.

## **QUESTIONS**

1. What economic analysis has been done by Council on the impacts these cuts will have on Auckland's economy and employment, over the short, medium, and long term?
2. How many Aucklanders' jobs (outside those at Council and within CCOs) will be at risk, both via direct and indirect employment?
3. What are the long-term effects of the proposed cuts to Tātakei Auckland Unlimited. On last year's figures, the proposed \$2 million saving will cost the city \$800 million of lost activity. Is that the intended outcome?

Screen production is a dynamic and complex ecosystem, and a change of this magnitude will have long term impacts. We are very concerned that the Budget proposals have been prepared without due diligence, and the potential negative impact on the future of the screen sector in Auckland has not been properly considered and understood.

<sup>1</sup> Olsberg Report: <https://www.nzfilm.co.nz/resources/olsberg-spi-report-economic-impact-new-zealand-screen-production-sector>

## ALTERNATIVE

We recommend the Auckland City Council continue to invest in its economic development programmes, and to increase borrowing and/or raise rates for residential and business ratepayers to cover that cost.

Other Councils, such as in Wellington, have decided to confront reality with a proposed 13% rates rise to fill the shortfall and make the necessary investment in a thriving and resilient city.

## CONCLUSION

The interconnectedness of the screen sector ecosystem is equivalent to the Auckland City Council's ecosystem. What may look like a small change in one area can have unexpected consequences or impact. The screen sector also knows how hard it is to make budgets go the distance. Budgets are always tight and are getting tighter by the day. We believe that continuing to invest in story, in people, in culture, in what connects with people's hearts and minds, is the key to success both now and in the future. We believe it will also be the key to the Auckland City Council's continued success – invest, grow, and prosper.

The signatories of this letter, the representative bodies of the individual screen practitioners and businesses, call on you to consider the economic, social and wellbeing impacts of these budget cuts, specifically to Tātaki Auckland Unlimited.

Yours Sincerely,

Co-Authors

# Annual Budget 2023/2024

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

## Submitter details

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Sports and activities in parks, Parks maintenance (including mowing)

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Arts and culture are important

Public transport is important

Initiatives for the homeless are important

Community arts cultural events are important and enrich lives

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Maybe increase rates to 5 or 5.5%

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community climate action and sustainability, Parks maintenance (including mowing), Library hours

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** WHY THE \*\*\*\* ARE WE CUTTING PUBLIC TRANSPORT

The current level of service is completely unworkable and an absolute disgrace to Auckland. It's been shown time and time again that aucklanders will use good public transport.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Community climate action and sustainability, Library hours

Tell us why these are most important to you: \*\*\*\* having to choose 3 this budget sucks

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Other

**Tell us why, and which reductions you would not proceed with if any:** To not proceed with any reductions and instead unfreeze the Water Quality and Natural Environment Targeted Rates, increase borrowing, and maintain the general rates package.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** This is a ridiculously shortsighted proposal that favours short term cash over long term dividends.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:** Higher rates are my preferred method of raising revenue to invest into the

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** We cannot afford to under invest in infrastructure to avoid future disasters. We cannot force our least well off to bear the brunt of disasters again.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** I support investment in the community and not spending cuts.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community climate action and sustainability, Protection and restoration of local waterways, Library hours

**Tell us why these are most important to you:** Climate and environmental restoration cannot be sacrifices for short term fiscal gain.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please do not cut spending and investment into the community in the name of short term gains for those who don't need them

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** We need more public transport services, not less, if we're going to encourage more people to use public transport more. At the moment, to get to the local mall, I either have a choice of a 45 minute walk, a short walk and two buses, or a 5 minute Uber. I want to choose the bus without hesitation, but two buses with a half an hour wait in between with no adequate bus shelter to wait at makes me second guess my choice on days where the weather is bad, or when I'm in a rush to get errands done. We also need regional events to continue running in order to thrive as a city. Without these events, there will be a lessened sense of community and people will become isolated. We already had that feeling during the pandemic. We cannot go back.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** Don’t change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Council should both set a higher general rates increase and make greater use of debt.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** We need to invest in stormwater infrastructure, especially in light of the recent flooding. We should have done this ages ago, especially as we already knew areas around Auckland which are prone to flooding whenever there is heavy rain, but it is not too

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local arts programmes, Local community events, Environmental restoration, volunteers and pest control

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** 'Do not proceed with:

- Reducing funding to Tātaki Auckland Unlimited,
- Reducing regional services,
- Reducing local board funded activities, and
- Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Why sell now? Now is not a particularly good time to sell these shares as the market is low. Once these have been sold this asset cannot be leveraged in the future.

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** The Council should both set a higher general rates increase and make greater use of debt.

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** It is super important to invest in stormwater infrastructure - the affects from the recent flooding makes this all the more obvious.

## 5. Local Boards

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** I support more investment in buses, walking and cycleways. I have concerns you have with Council reprioritising the Climate Action Targeted Rate which was established just last year with overwhelming public support. Auckland Transport have made it clear t

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Art and culture is very important to the wellbeing of Auckland City. Cutting funding to these areas will negatively impact both its people and the local economy. The cuts mentioned throughout this proposal will send the development of this city in the wro

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Protection and restoration of local waterways, Library hours

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I work as an organiser for a local poetry organisation in Auckland. We are now funded by CNZ, but starting out, council funding was the only thing keeping us afloat. We provide a huge service to the creatives of Auckland, who go on to provide services to their communities, fostering the kind of thriving centres this city needs.

Auckland is nothing without its creatives: its artists, its galleries, its cultural programmes, its libraries, its public spaces. Cutting all those things to save \$20 million - a paltry amount in the scheme of things - is not only shortsighted, but will be actively detrimental to the survival of our city.

I love Auckland so much, and I support it as both a working criminal lawyer and a poet. Rates increases is the only way to make up this shortfall without kneecapping the future of our city. I am asking the council to look to the future, and to the things that make Auckland such a wonderful place to live in. Community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres, are all critical parts of our cities. Please don't take them away to avoid an \$8 a week rates increase.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Selling assets is a short-term solution to a long-term problem. In a generation's time, we will have further debt issues, but nothing to sell. Raising rates is a more sustainable method of dealing with this issue.

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Local community events, Protection and restoration of local waterways

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** This city will not see improvement in crime and poverty unless we see the value of services designed to support and help people in need. People and consequently, children, will continue to fall through the widening gaps caused by cuts to ECE and community health and wellbeing centres

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Once it's out of Auckland's hands, that's it. We don't know what private investors will do to something that is an integral part of our tourism and travel capabilities

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Now is not the time to lower any quality threshold on our water infrastructure. A rates rise is correct, we have to be prepared to pay for the services we need and desire

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** People in Auckland have lost their homes, material possessions or lives after the floods and cyclone. These disasters are at our doorstep whether we like it or not.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** We need funding for libraries, to help them to grow and develop with our changing needs.

The priority "Increasing community resilience and connection, helping people feel welcome, safe and supported" needs to be elaborated upon more with clear initiative

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local community events, Community climate action and sustainability

**Tell us why these are most important to you:** Children and teenagers need to have a sense of community and belonging. They need to see they add value to this city and the world around them. If they can see that the city cares about them and their wellbeing, they will feel a sense of pride and want to

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?** Higher fees and rates for golf courses

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I'm happy with everything I've said and suggested. This city needs to have foundations for success long after Mayor Brown or myself have been buried. We have to recognize our joint responsibility

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. ## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Public transport is an important part of the functioning of our city. The current services levels are not high enough to ensure that the transport network works appropriately.

Funding for Auckland council services, public programs, venues and events should not be cut. We need our city to be a place worth living in and cutting funding for our cultural life would be massively damaging to this. I do not support cutting funding for the Citizens Advice Bureau as it is a vital service for Auckland ratepayers who need access to legal advice and the other services that the CAB offers and as a community we should value and fund this service. I do not support cutting funding for Early Childhood Education services as it is a vital non-profit service and should be expanded because ECE is too expensive and it is a great help to Auckland ratepayers. I do not support reducing funding for local boards. They support vital local community services and need to continue. The council should continue to fund these important services and wider community cultural and community events and venues so we continue to be a place that is worth living in.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** It is a false economy to sell Auckland Airport shares. We should not allow important public assets to be sold to private investors who do not have the city's interests in their view. The Council has a vital position in ensuring the Airport works for Auckland

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Council should both set a higher general rates increase and make greater use of debt.

There has been decades of historic underinvestment in Auckland. The council should be making every effort to correct this and ensuring that underinvestment is not continued

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** I agree it is vitally important to ensure that we invest in making the city more resilient to future flood events and we need to invest in better stormwater infrastructure.

## 5. Local Boards

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	0
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	0
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	0

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tātaki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** We cannot reduce our public transport services any further. I live in Mt Albert, one of the best connected suburbs in the city - it is becoming untenable to catch the bus or train, with services struggling. We should be adding more services, not less, especially in a climate crisis.

We cannot cut funding to Tātaki Auckland Unlimited - services like the Zoo are already expensive for whānau, and funding cuts will lead to increases in price and reduced access. Our stadia are lack lustre and do not support the sporting excellence of Tāmaki Makaurau. We must continue with plans to invest in our stadia and get the right games at the right venues. Western Springs Stadium was flood damaged and our club, Ponsonby Rugby, is currently without a home -- any cuts to Tātaki Auckland Unlimited budget will mean that they have less resource to remedy the stadium and find alternative homes for clubs like ours in the interim.

We absolutely cannot decrease funding to community services, especially those such as Citizen Advice Bureaus, Libraries, youth and homelessness services. Any cuts to these budgets will widen the social divide even further.

Local board funding is the lifeblood of community organisations. Any cuts here will mean that essential community orgs and events will go unfunded. Contestable grants were essential to our funding at Playcentre, and I know they support many community events we enjoy, enabling us to create connections with neighbours.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** This is just commonsense. Why sell at a market low point? Auckland needs to keep these shares and our stake in our own airport.

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** I believe that the Council should set a higher general rates increase and also make greater use of debt. We cannot afford any cuts to services and must push ahead to do what we know is right for our city, including public transport improvements, excellent

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** It is absolutely essential that we proceed to invest in stormwater infrastructure, especially following the string of recent extreme weather events.

Our home in Morningside was repeatedly flooded. Over the past several months, the road and garden flooded

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** 'The priorities as noted by the Board Chair are fine, although I do not agree with the funding cuts. Reducing spend in Albert-Eden by \$766k is mind-boggling. We are a growth area supporting a large amount of residents and community connection is key.

Re

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Sports and activities in parks, Environmental restoration, volunteers and pest control

**Tell us why these are most important to you:** We are in a climate crisis.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** I support the Climate Action Targeted Rate fund being used to support more investment in buses, walking and cycleways. We are in a climate crisis and must support Aucklanders to make the mode-shift away from cars for some trips each week.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I support the Tūpuna Maunga Authority and their plans.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with any of these reductions. The choices of

[Public Transport] For years Aucklanders have been encouraged to stop driving to work and to use public transport instead. Due to the state of our public transport this has never really been a viable option for people in many parts of the super city - personally there has never been an incentive for me as an individual to do so. Since the bus fare were halved I've been taking the bus much more frequently, and I was finally starting to feel like taking public transport to work is actually an option. About a month ago I showed up to my bus stop in the morning to learn that half of the buses that go past my stop have been cancelled indefinitely, added was some advice by AT suggesting that I "don't travel at peak times". Is this a joke? I work from 9 till 5, I can't just NOT travel during peak times. My only other option is to start driving to work again. Our public transport is already awful, and Mayor Brown is proposing that we make it worse? He obviously has never had to regularly commute by bus. We should be putting MORE funding into public transport!

[Auckland Unlimited funding] The statistics that were provided in support of these cuts were extremely misleading. All of these services are important.

[Reducing regional services] Suggesting to reduce funding to help with homelessness is disgusting.

It seems to me that the areas that are being targeted for budget cut are the area that need this funding the most.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Council should both set a higher general rates increase and make greater use of debt.

Setting higher rates >13% spreads the load and will benefit everyone in the long run. It would average out to be about the cost of 1 cup of coffee more per week per h

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local community events, Environmental restoration, volunteers and pest control

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** The bus services funding question is extremely misleading.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Reduction in funding leading to the ending of Music in Parks will collapse these events which serve to bind the community together.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** This will allow Auckland Council to benefit from payment of dividends in the future. COVID-19 was the unexpected factor that led to the cessation of dividend payments.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Library hours

**Tell us why these are most important to you:** Libraries act as learning centres providing access to literature and factual books, community hubs, support and offer activities for local citizenry and offer a warm safe environment with internet access to those who lack these. Reducing library hours will

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

I don't know

**Tell us why, and which reductions you would not proceed with if any:** Increased taxes

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:** The need to reduce debt and refocus funds elsewhere

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** We need more better equipt infrastructure and strategies in place to address any impending disasters

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

**Tell us why:** These services and priorities are just now benign fully noticed and utilised by desired people

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local community events, Protection and restoration of local waterways

**Tell us why these are most important to you:** Upkeep and social interaction is unique to auckland

### Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:** I feel these are need in order for local residents to maintain their connection. To each other and the larger are in a whole

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts, Local grants e.g. community and accommodation grants

**Tell us why these are most important to you:**

**Do you think there are other areas where we could make savings to our local budgets?**

### Whau Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I don't know

**Tell us why:** I think we need to consider other avenues which do not hinder on the maintenance and nurturing of cultural diversity

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local parks, community facilities, and sports and recreation programmes, Local arts and culture activities and programmes, Local community events

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?** User pays

## 7. What else is important to you?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	I don't know

c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

#### What do you think of these proposals?

### 7. What else is important to you?

#### Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

### Important privacy information

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** It's so important for our city; economically and environmentally to have affordable and easy public transport, as well as Social services, as these root issues cause many larger issues and have wide implications, that end up costing more money in the long run. We can't reduce the accessibility and affordability of these services.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** This is not the best time to sell these shares - at a low point in the market. Once they are gone, this asset can no longer be leveraged or support future revenue raising for Council.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Council should both set a higher general rates increase and make greater use of debt.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** It's important for us to invest in stormwater infrastructure, especially in light of recent extreme weather events. I grew up in Auckland and never in my life have I experienced weather like we have this year, or received a heavy rain warning alert on my

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local arts programmes, Community climate action and sustainability

**Tell us why these are most important to you:** I think it's important we prioritise our community and it's people, and the environment around us

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** waste management rate changes - All areas should have food waste collection available

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I would not proceed with any of these reductions, as I view them all as already operating at a restricted capacity. To further reduce funding to these programs will see all of the social challenges that we're currently facing as a city worsened, and communities will suffer. Knowing people with first-hand experience working across these community support services, particularly Citizen's Advice Bureau's, I am in disbelief that the Council would seriously be considering reducing these services rather than amplifying them. Dozens of people show up to these support services each day, and the limited capacity of staff already sees many turned away. Often already our most vulnerable, to be in the position of needing to seek out this aid, where else are these people meant to turn?

Furthermore, the community initiatives which would be affected are fundamental to our city's social health as these grassroots initiatives can more effectively identify and address problems in our Auckland suburbs. The events which are put on create our sense of identity, making a place that is wanted to be lived in - a place that you don't resent paying rates in.

Whatever short-term savings the Council thinks its achieving with these cuts will be far outweighed into the future as in the short-term, those who benefited from these services suffer, and in the long-term, once the Council recognises that these services are fundamental to a functioning city, they will have to struggle through a reestablishment phase.

Also, many of these services that you propose cutting funding to in order to 'help Aucklanders' by not raising rents, will in effect further harm Aucklanders' wallets. Without the public services our collective funding enables, individuals suffer. Will parents really be more financially stable when they have to spend more to find replacements for these services? When they have to take unpaid time off work to look after their children? I think not.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** I couldn't think of a worse time to sell Auckland Council's shares in our airport, the shares are worth hardly anything in market terms and is much more valuable as leverage or future sellable assets.

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Set a higher general rates increase and make greater use of debt. An increase of \$3 a week being considered an unacceptable exchange for all the services - not to mention \*essential\* climate targets - is laughable and the Council shouldn't clam up in the

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Our stormwater management system is historically underfunded and poorly planned. As weather events are expected to only get worse, it's high time our city adapted to stand up to bad weather rather than take a battering. Friends in Auckland have lost their

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local community events, Environmental restoration, volunteers and pest control

**Tell us why these are most important to you:**

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental education, Local waste minimisation initiatives, Arts and culture initiatives

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** More investment in alternative modes of transport than cars please and thank you - ie public transport, walkways, cycleways. It may not seem like it's paying off now, but it won't until the actual network is complete, and not just patches of it. Pulling o

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Really I just can't emphasise enough how important our community and environmental initiatives are, and how negligible the changes to our rates would be to maintain the services currently in operation. You've got to be smoking something if you think these

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Some of the proposed cuts are in areas that really must be seen as not negotiable. Regional Services are the 'stuff' of Auckland, supporting a vibrant community. To cut youth programs in our current teenage mental health crisis, support of homeless in a housing crisis, maintain reduced public transport services in a climate crisis - nonsensical. Cost vs real value.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Need to develop ability to respond and also be proactive in mitigation.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Local community events, Protection and restoration of local waterways

**Tell us why these are most important to you:** Support community, protect the wai.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	0
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Maintain community haulout facility at the Landing, Orakei. A lot of infrastructure has been created here to enable cleaning of hulls, as mandated by Council, but Council then takes away the means to do so. This survey certainly indicates there is not the fu

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with any reductions.

Contraction in spending will lead to a general contraction of the Auckland economy. This will have a multiplier effect, likely leading to contraction in GDP across the region. Considering we will likely be entering a recession in the next year, cutting public spending goes against all economic understanding we possess. If anything spending should increase.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Selling shares in a valuable asset like AIAL is a temporary way to increase funds, however it is a ONE TIME way to raise revenue. In the long run it would be more fiscally prudent to hold onto the stock and yield the benefits it provides. It is also very

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** Do not reduce funding for Albert-Eden.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Environmental restoration, volunteers and pest control, Parks maintenance (including mowing)

**Tell us why these are most important to you:** I think parks are very important, and keeping rubbish bins means that parks will be more pleasant to be in, as people will be less likely to litter. I think people would even appreciate more bins. I am however ok with letting the parks get a little more o

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I do not support the reduced public transport services. We need public transport to be adequately funded to help reduce private car emissions and road congestion. Buses are full in peak times and people are being left waiting on the side of the road, unable to get to work via public transport. This is not okay. It is a step backwards after years of encouraging the use of public transport. Please fund our buses. I support more investment in buses, walking and cycleways. Public transport and alternative means of transport like cycling and walking need to be well funded. Our roads are congested and the recent extreme weather clearly shows we need to reduce emissions look after our environment now.

I do not support the reduction of funding of Tātaki Auckland Unlimited. Our Arts and culture funding is more important for the community now than it has ever been before.

I do not support reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres. These services are so important to our communities, especially in the current climate. With the cost of living increasing, post-pandemic, possible recession looming - people need support and financial assistance.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Council should both set a higher general rates increase and make greater use of debt.

Setting higher rates >13% spreads the load and will benefit everyone in the long run. It would average out to be about the cost of 1 cup of coffee more per week per h

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** After the recent flooding it has become clear that our stormwater infrastructure is in need of improvement and investment. As extreme weather events become more frequent it is important to invest in our stormwater infrastructure.

In the recent flooding

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I don't know

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Community climate action and sustainability, Protection and restoration of local waterways

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** I also support the food scraps plan and believe it should be extended to all areas to reduce food in the landfill.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Council should both set a higher general rates increase and make greater use of debt

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** I oppose the idea of cuts to these crucial public and community services

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local arts programmes, Community climate action and sustainability

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I think these facilities are for the people and increasing the costs of these further segregates between those of different salaries and they are essentials for the enjoyment and prosperity of Auckland and should be as accessible as possible.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community climate action and sustainability, Protection and restoration of local waterways, Library hours

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** We need good art and culture to be an intelligent open-minded society.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** I don't know

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:** Or set it higher to enable funding to both prevent climate change and help restore and improve flood protection.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Because of recent flooding

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Environmental restoration, volunteers and pest control, Community climate action and sustainability

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The twomost important areas for me is Climate change sustainability as climate is here! This includes prevention andand flood prevention schemes assistance to relocate flooded out people

Make public transportation free.

The second do not reduce funding

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Citizens Advice Bureaus (CABs)

Funding to the community, culture, regional events, economic development and social services

Halve Local Board discretionary spending

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Now is not a particularly astute time to sell these shares - at a low point in the market - and once they are gone, this asset can no longer be leveraged or support future revenue raising for Council.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Council should both set higher general rates as an increase and use of debt.

Based on Auckland Council's assumptions and modelling, the highest possible rates increase that they investigated (>13%) would fall well within the boundaries of what they co

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** With the climate crisis landing on our doorstep, we've seen the results of decades of underinvestment in our critical infrastructure. It's high time we start investing in making Auckland more resilient to climate change and extreme weather events.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community development and support, Community climate action and sustainability, Protection and restoration of local waterways

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? <https://betterbudgetauckland.co.nz/>

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

## A Better Budget for Tāmaki Makaurau Auckland

The Council – led by Mayor Wayne Brown – has put forward a 2023-2024 draft budget for public consultation. The Council says a \$295m financial hole needs to be filled. It proposes: general spending cuts, selling the Council's shares in Auckland International Airport, an average 4.66% rates increase, up to \$75 million in borrowing.

### How did we get here?

The Council proposal says the financial pressures come from an expansion in services and assets that has brought higher maintenance costs, worsened by high interest rates and inflation. Cyclone Gabrielle and recent flooding events have added further financial strain.

Recent years have seen increased inflation and interest rates. **But some of the pressures on Council are temporary and others have been overstated.** A major reason for revenue being lower than it otherwise would be is COVID-19, a pandemic experienced by thousands of councils and governments worldwide. Non-rates revenue has remained steady, as the table on the left shows. Revenue from Council venues, services, and public transport is likely to grow over time as Auckland recovers from COVID-19.

2018	\$2,836
2019	\$3,089
2020	\$3,291
2021	\$3,339
2022	\$3,554

Non-Rates Revenue (\$m)  
Source: Auckland Council Financial statements  
2021/2022, 2020/2021, 2018/2019

Interest rates are projected to fall over time,<sup>1</sup> and Council acknowledges that 80-100% of its borrowing is at fixed rates – which means only a small part of its borrowing is affected by short-term increases in interest rates.<sup>2</sup> The budget was prepared before floods and Cyclone Gabrielle; these events will require reconstruction, but central government has partnered for that.

**“Signs that inflation will ease meaningfully over 2023 are becoming increasing clear.”<sup>3</sup>**

Auckland Council is not facing a debt crisis: Auckland's debt is at 250% of its revenue, well below the 290% debt ceiling. Total debt as a ratio to revenue has been relatively stable (see graph on the right). The cost of servicing interest increased in 2022 as a proportion of total revenues, but the overall trend is declining.

### Why can we do better?

**The proposed cuts will have irreversible long-term impacts.**

The axing of operational spending could mean a permanent end to the services and institutions that help to make Auckland a community.

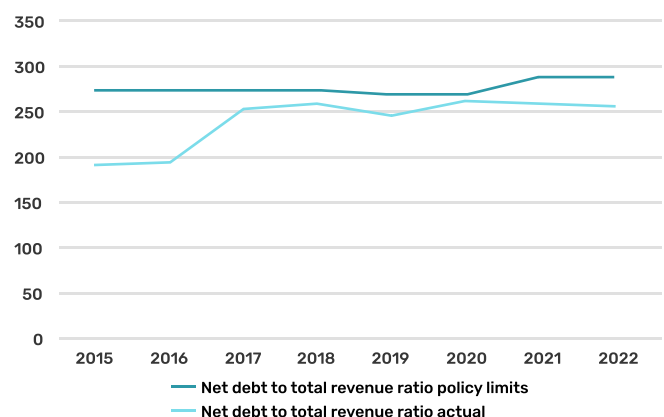

The cuts could affect – among other things – cultural events, library services (including services that support community safety), Māori and Pasifika employment (through reduced support of The Southern Initiative and The Western Initiative), Early Childhood Education services, and organisations like the Citizens Advice Bureau that allow people to access their minimum legal rights. Events and organisations may disappear due to the cuts.

**Selling the airport shares does not add up.** The loss of the 18% shareholding in Auckland International Airport would make the city permanently poorer and would remove people's level of control over a strategic asset. The Council proposal does not consider the loss of a stake in the airport's extensive landholding. It will be very difficult to return the land and future value of the shares to the public once these shares are sold. This has implications for:

1. **Māori land interests: the Waitangi Tribunal cannot recommend return of private land, so airport land will be permanently alienated from Māori.**
2. **Future climate and other emergencies: we need coordinated transport hubs, which is harder when airports are privatised.**

**Our communities are more important than ever.** Cyclone Gabrielle and the recent floods show that community organisations (such as Visionwest Community Trust, which will be affected by the cuts) are essential as a source of food, shelter, and social support in times of emergency. These organisations make a community resilient. Eliminating these organisations makes individuals and communities more vulnerable and precarious.

### Net debt to total revenue

Source: Auckland Council annual reports for 2018/19 and 2020/21

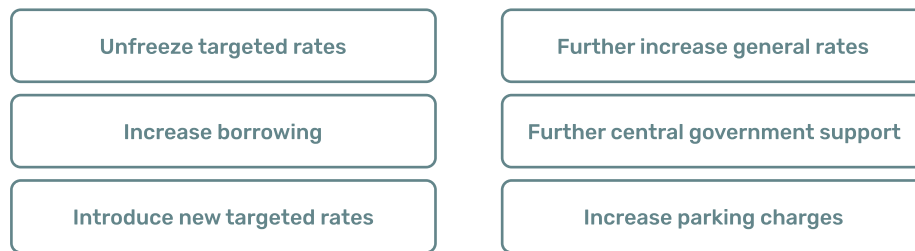

[1] See eg <https://www.opespartners.co.nz/mortgage/interest-rates/interest-rate-predictions>.

[2] Council Budget consultation document, online at <https://www.aucklandcouncil.govt.nz/externalcontentdelivery/consultations/budgets/annual-budget-2023-2024/annual-budget-2023-2024-consultation-document.pdf>, at page 47.

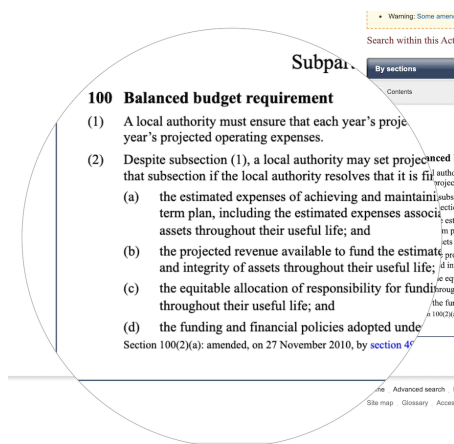

[3] ANZ research note, reported in January 2023: <https://www.stuff.co.nz/business/131057053/anz-trims-interest-rate-forecast-after-inflation-comes-in-unchanged>.

Citizens Advice Bureaus face closure as a result of proposed cuts. Going by 2022 figures, this is estimated to impact 163,000 people seeking access to assistance concerning their legal rights, including in relation to immigration, MSD, and KiwiSaver.

There are many more options available than what the Budget Proposal suggests. The proposal suggests the public will have to accept the budget, or face a 13.5% increase in rates, or increased borrowing. But many other combinations of rates, borrowing, charges, and central government support are possible, such as:

## How can we do better?

Local Government Act 2002

When considering alternative options, a starting point is that the Council does not have to run a 'balanced budget'. The law says councils have a Balanced budget requirement but that they only have to 'balance the books' if it would not be "financially prudent" to do so (for example, if cutting services creates its own financial costs), factoring in the need to maintain services set out in a long-term plan. **But if the Council is intent on 'balancing the books', another budget is possible.** The Council has not made it easy to construct another budget by imposing a very short (one month) timeframe on the consultation process, but a budget does not need to be finalised until June and it is still feasible to develop alternative proposals.

**Council is opting to pause two important targeted rates and they don't have to do that.** The Council says its reserves from the Water Quality Targeted Rate and the Natural Environment Targeted Rate are not spent, and that these rates can be suspended for a year. Now is not the time to freeze funding for water quality or the natural environment.

**\$50.9m**

Annual revenues from unfreezing the Water Quality Targeted Rate and the Natural Environment Targeted Rate

**\$150.9m**

Increasing borrowing avoids the need for community cuts and sale of airport shares

**Council can borrow more.** The Council is proposing to borrow \$75 million. Council says that it cannot borrow more than \$140m without breaching internal policy, but as the Council these policies can be adjusted (as the Council has recognised by acknowledging it would need to amend its airport shareholding policy to sell off its shares). Combining borrowing with a strong revenue plan, ensures Auckland's strong credit rating is not impacted.

**The existing rates proposal will provide necessary revenue.** This general rates increase, along with increased borrowing and unfreezing targeted rates, can provide \$295m in revenue.<sup>4</sup> This alternative budget plan will address the shortfall and provide the foundation for a budget that is more flexible, fairer, and better for Tāmaki Makaurau Auckland over the long-term. Building on this foundation, **Auckland Council should be investing now** – in tourism, public transport, the arts, and other social services. Investing in the city will bring revenue back. That investment can be funded through the same mix of borrowing and rates set out here. This plan demonstrates that the budget shortfall can be addressed, if necessary. Cutting and selling are no way to bring Auckland back on its feet – and back to its best.

Unfreeze targeted rates <sup>5</sup>	\$50.9
Existing Council rates package <sup>6</sup>	\$93.2
Extend borrowing	\$150.9
Alternative Budget Revenues	\$295.0

[4] The figures used in the table are rounded to one decimal place. Unrounded calculations add up to \$295m.

[5] To reach this figure, we take the 2018–2028 10-year Budget's projections for the Water Quality Targeted Rate (\$452 million over 10 years) and Natural Environment Targeted Rate (\$311 million over 10 years), take an annual figure for each targeted rate from this ten year projection ( $452/10=45.2$  for the WQTR and  $311/10=31.1$  for the NETR), and then calculate what an annual two-thirds reduction would be in light of what is said in the Budget consultation document at page 52, rounding to one decimal place ( $76.3 \times (2/3) = 50.87$ ).

[6] We adopt the Council's own assumption that "a 1 per cent change in general rates is equivalent to around \$20 million of revenue for the council" ( $20 \times 4.66 = 93.2$ ): <https://www.aucklandcouncil.govt.nz/budget-reductions-operational-spending>

We have assumed that the proposed Council rates package can be directed to addressing the Budget shortfall. Nowhere in the Budget consultation document does it say that any of the rates package has already been accounted for. If some of the rates package has already been 'banked' (for example, 3.5% under the LTP) then some further revenues may have to be secured from additional increases in general rates, additional borrowing, or any other options listed on the previous page.

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Auckland needs to invest in good social infrastructure if it is to be a successful, thriving city. Reducing our spending will lead to more problems down the line.

For example, we are already seeing the impact of reduced public transport as people return to work from their offices. Congestion and gridlock are signs that there are no viable alternatives to travel. To function smoothly, Auckland needs to invest in frequent, reliable, and fast public transport and connected, safe, separated cycle routes to give Aucklanders viable alternatives to driving.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** Don’t change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Auckland Airport is a valuable asset, and the land around the airport has huge potential.

Auckland Council should take a leaf out of other cities' playbooks and instead invest in developing sustainable infrastructure, housing, and business spaces in the

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:** Auckland should increase rates, but join it with alternative revenue streams such as and increase in the amount and cost of paid parking, or congestion charging. Auckland provides free use for most of its public roading assets, which it then has to pay to

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Auckland should invest in green infrastructure, such as green corridors, permeable surfaces and trees on roads, and parks which can all act as water pathways during flood events.

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community climate action and sustainability, Protection and restoration of local waterways, Library hours

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tātaki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** The public transport cuts are contradictory to the necessity of mitigating climate change since Aucklanders' transportation needs have such a large carbon footprint which urgently needs to be reduced - the significant weather events of 2023 Quarter One should emphasise the need for a climate strategy. Which is not to say there isn't scope for reviewing and improving the efficacy of current public transport services.

Plus, the "currently reduced services", to use the technical term: suck.

The reduction in funding for Tātaki Auckland Unlimited will directly impact the status of Auckland as a world-class city, just as domestic and international tourism is recovering. Auckland is the gateway to NZ for most tourists and it should offer valuable experiences. If desired, a move away from international (carbon-intensive) tourism should be considered and implemented holistically, not as part of cost-cutting.

Plus Art Gallery, stadia events (sports and shows) and the zoo are valuable alternatives to sitting on the couch consuming digital content. The Art Gallery provided a fallback option for a recent birthday trip in March, after our zoo visit fell through due to injury.

Additionally, events like the Fifa Women's World Cup and the many shows by renowned musical artists this summer highlight the value of having these facilities.

Community programmes, especially services like the CABs, are most beneficial to those in need - those same people who are the likeliest to struggle and suffer during difficult economic circumstances. Given that crime, homelessness, enfranchisement and engagement are all major contemporary issues, funding reductions appear to be shortsighted. At the very least, the likely negative outcomes of discontinuing these schemes should be costed and considered against the opportunity cost.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Recommend to reduce but not completely exit the position. Noting that the timing of the sale of AIA shares seems poor as the price is below pre-covid peaks and is also on a strong upward trend as tourism picks up again.

Additionally, keeping the shares in

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Consider setting both a higher general rates increase and making greater use of debt.

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** All indicators are that severe weather events will increase in potency and frequency in the future.

## 5. Local Boards

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Thank you for considering our feedback.

It is important to us that the council and its budget should emphasise the current and future wellbeing of both the city and its inhabitants. While the council is facing many of the same challenges as the various i

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Other

**Tell us why, and which reductions you would not proceed with if any:** 'I would not proceed with any reductions. You can instead increase borrowing.

I would rather you increased general rates or increase parking charges as a funding mechanism.

The cuts would be extremely damaging to already affected communities, particularly for minorities and the migrant community in general, of which I am a part.

The funding you would be cutting would severely impact the community's ability to connect, not only through cultural events and other festivals, but through everyday gatherings, activities and events at community hubs and community centres. For migrants, this means fewer opportunities to develop a sense of belonging, as well as fewer (or more complicated pathways to access) support options, which are already slim and inaccessible as a consequence of language and cultural barriers. For culturally and linguistically diverse populations, grassroots and self-affirming groups, projects and solutions are more conducive to positive outcomes. It is these grassroots groups which would be most severely affected by the reductions in funding for economic development and to local boards. Community centres and community hubs are a source of knowledge, resources and support for so many who struggle with food security, social isolation, lack of knowledge about public services and how to navigate them, mental illness, language barriers, etc. The

Gribblehurst Community Hub is an incredible example. I personally go to them regularly, and their lease will go from \$1 per year to \$10000, severely affecting their services and operations. The Citizens Advice Bureaus are often the first point of contact for those who are unaware or unfamiliar with the options available to them in times of need.

Council is using the recent climate disasters to justify these cuts, but during those emergencies, it was local and community groups who acted as first points of contact and support when the mayor had not even declared the state of emergency. In relation to the climate crisis itself, a reduction in the number of public transport services is the most short-sighted solution possible. The car problem in Auckland is bad enough that it affects people's quality of life, but beyond that, it is absolutely crucial to unfreeze the Water Quality and Natural Environment Targeted Rates. Once again, this measure will affect mostly those from middle and lower socioeconomic groups, much like basing funding on the local board's asset value. This way, Council would be favouring already wealthy areas, disregarding basic concepts of equity. This would obviously impact the Māori and Pacific communities disproportionately, which means a complete disregard for co-governance and the principles of Te Tiriti o Waitangi.

I am concerned about the impact on

- Community Waitākere
- Sport Waitākere
- the Kaiwhakaawe - Māori broker and Māori-led engagement person
- support to community houses and hubs
- toy libraries
- tool libraries
- The Citizens Advice Bureau
- Gribblehurst Community Centre
- Owairaka Community Hub
- Youthline
- WEST
- Te Pou Theatre
- VisionWest
- youth development programmes at YMCA
- I love Avondale
- Fair Foods
- Auckland Art Gallery
- Point Chevalier Community Center

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** The sale of shares would mean a one-off return only, which is again a short-sighted move.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Unfreezing the Water Quality Targeted Rate and the Natural Environment Targeted Rate would help. Even a further increase in the general rates should be considered instead of cutting funding that make so many vital services possible. Again, it has to do wi

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** We have seen the catastrophic consequences of underinvestment in infrastructure. The climate crisis seems to be getting worse and worse. Infrastructure is more crucial than ever.

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	

Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** 'Do not proceed with:

- Reducing funding to Tātaki Auckland Unlimited,
- Reducing regional services,
- Reducing local board funded activities, and
- Reducing regional contestable grants.

I do not support these reductions. The effect of these reductions would adversely impact local economy and Auckland's culture, art and community sectors. Reduction in these areas, would create more isolation, and affect many communities and groups hauora. Which overall would devastate many peoples and communities in this city.

Especially after recent events which have negatively impacted Aucklands communities, it is important now more than ever to invest in these areas not to take support away.

Overall when the positivity which comes out of the proposed reductions, outweighs any financial burden. This is a city full of life and community and art, taking away financial support from these areas will increase isolation, and other negativity

that comes with that eg crime, mental health illnesses, antisocial behaviour. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

My work will directly be impacted, I am a freelance dancer and work with a lot of arts and community groups who, if these reductions proceed, will be directly impacted. This means my work and livelihood would be directly impacted by these reductions.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** This is not a good time to sell these shares, when the market is in a better position, this would be a better time to sell shares.

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Council should both set a higher general rates increase and make greater use of debt.

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** It is so important to invest in this area to help prevent more devastation from these events, then respond to them after they have occurred.

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** I think that these priorities invest in our communities, and will increase improve social cohesion, wellbeing and our quality of life in my local board.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local arts programmes, Local community events

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

### Important privacy information

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Public transport services must be increased, peak hour busses are overflowing due to the reduction in services. To support climate action we must be encouraging further uptake, this is not viable if the services do not have any capacity for growth.

Auckland Council has declared a climate emergency - act like it.

Social infrastructure is crucial to maintaining resilient and connected communities. The community entities that depend on the Council funding support for their existence have far fewer possibilities for raising funds compared to council, the removal of support will destroy the social infrastructure. This is not something that can be turned off and on at will, the proposed changes will cost the city more in the long run.

Now is the time to be investing in Aucklands future.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Now is not an astute time to be selling shares in the market, they can only be sold once. When it is a more suitable time to sell, shareholding could be reduced to 10% but no further.

The council should be using its shareholding to influence AIAL to plan

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Set a higher general rates increase, and make greater use of debt. Other councils have proposed 13% rates increases, recognising that spending is required to sustain communities and create a resilient city.

Over recent years Auckland has increased rates

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** We should push back on council, the scale of the reduction in funding is unacceptable.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental restoration, volunteers and pest control, Community climate action and sustainability, Protection and restoration of local waterways

**Tell us why these are most important to you:**

### Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?**

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local grants e.g. community and accommodation grants, Environmental restoration and pest control e.g. Waipapa Stream, Community climate action and sustainability e.g. Low Carbon Lifestyles

**Tell us why these are most important to you:**

**Do you think there are other areas where we could make savings to our local budgets?**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** I support more funding to bus/public transport services and walking/cycling infrastructure.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Tūpuna Maunga Authority funding for vegetation removal should be separated from the funding for planting, and funding for removal should be reduced significantly.

### Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. ## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** 'Do not proceed with:

- Reducing funding to Tātaki Auckland Unlimited
- Reducing regional services
- Reducing local board funded activities
- Reducing regional contestable grants

I do not support these cost reductions. The net effect of such a sizeable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

I oppose cuts to bus numbers when we are in a climate emergency - buses are more efficient to move people than cars, so are better for the environment and for traffic management.

I oppose cuts to Citizens Advice Bureaus - this is frankly ridiculous as these are often a last resort for people unable to afford other forms of more expensive advice.

Just as ridiculous are the proposed cuts to Library facilities, youth support, arts initiatives - all of these are vital to a multifaceted functioning society.

These cuts seem to be targeting less wealthy demographics (arts practitioners, people who rely on community services to help them learn, people who cannot afford lawyers etc) and will further increase wealth inequality and cut opportunities for communities to come together.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** This might not be the best time to sell these shares - if Council wants to do this it should be on a high in the market

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Council should both set a higher general rates increase and make greater use of debt.

Cuts to services are far from an inevitability; they're irresponsible in the midst of a climate and inequality crisis. Reducing the Water Quality and Natural Environment

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** In 2023, with the climate crisis landing on our doorstep, we've seen the results of decades of underinvestment in our critical infrastructure. It's high time we start investing in making Auckland more resilient in the face of climate change and extreme we

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** All are important. But the proposed cuts will cut into the effectiveness of being able to do these things.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Environmental restoration, volunteers and pest control, Protection and restoration of local waterways

**Tell us why these are most important to you:** I don't want to only select three options. That is why I'm opposing this budget - these other aspects should not be jeopardised.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** I support more investment in buses, walking and cycleways.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Other

**Tell us why, and which reductions you would not proceed with if any:** I oppose maintaining the currently reduced number of public transport services.

Public transport services must be increased to better serve community needs. We need to enable more people to use public transport in order to transition to a low-carbon transport system, reduce emissions and unclog our motorways.

I oppose reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities. This would include reducing investment in climate education programmes essential to our city's future resilience, and environmental work crucial to protecting everyone from severe weather impacts – like restoring wetlands, improving stormwater management, and maintaining urban tree cover.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Other

**Tell us why:** I oppose selling the airport shares. These will start paying dividends again later this year and are appreciating in value. In fact they have tripled in value in the last 10 years.

Selling them now will cost us in the long term and is ignoring the value

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?**

**Tell us why:** Rates should increase to the current rate of inflation (7.2%). Anything less than this is a net cut at a time when the repair job for Auckland is of utmost importance.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Other

**Tell us why:** I support an increase of the operating budgets, or 'storm response investment',

by around \$20 million each year to improve our ability to prepare for and respond to future storms.

This investment must prioritise nature-based solutions, such as the prote

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** I oppose reducing or discontinuing the budget for: Community development and support as everything within it is future proofing the next generation.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local arts programmes, Protection and restoration of local waterways

**Tell us why these are most important to you:** Community development and support as community groups will have less support and resources to

leverage, groups may be less active, groups may need to seek funding from other sources.

Fewer new ideas will be able to be turned into action by

community gr

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	0
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	0
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	0

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I don't agree with cutting community programmes funding, homelessness funding, youth centres fundings. This will disproportionately impact the people that need it the most and will have a negative effect on the communities that will take a long time to recover.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

I don't know

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?**

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Local community events, Community climate action and sustainability

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	0
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	0

### What do you think of these proposals? Reduction in Cultural Events

Without funding, most of Auckland's cultural events and festivals will be cancelled or scaled back, leading to a reduction in the diversity and vibrancy of the city's cultural scene.

Job Losses

Many artists, performers, and

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Don't cut arts funding. Without funding the arts cannot survive and it is what makes life worth living and must be supported

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Our public transport is already abysmal, cutting bus routes will make life worse for so many Aucklanders, as well as creating more traffic when people are forced to drive. The arts and recreation services are so important to the city and accessibility to these for all people regardless of income should be prioritised. People matter! Arts matter! Kids matter!

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Council should both set a higher general rates increase and make greater use of debt.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** We need to invest in stormwater infrastructure and do everything we can to mitigate climate change

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** I think the climate action should be the top priority.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental restoration, volunteers and pest control, Community climate action and sustainability, Protection and restoration of local waterways

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** We need a functioning public transport system to reduce emissions

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The arts, the environment and our community are worth spending money on. Don't make these cuts that will hurt our people.

## Submitter details

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants:

The community flourishes when there are opportunities for creative enterprises. This is how Wellington got its name.

Community gardens, and organisations such as 'everybody eats' (who feed homeless and less privileged people) benefit greatly from these services.

I myself have attended many workshops at my local community garden. As well as potato growing sessions etc.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** It will be very difficult to return the land and future value of the shares to the public once these shares are sold, which has major implications for mana whenua and Māori land interests (the Waitangi Tribunal cannot recommend the return of private land)

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** rate changes, including unfreezing the Water Quality Targeted Rate and the Natural Environment Targeted Rate, will generate much needed revenue that can help avoid the proposed cuts. Unfreezing these rates for the coming year is estimated to raise over \$5

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** I'm concerned that the impact continued underinvestment in infrastructure could have extremely negative effects in light of predicted increases in the frequency of extreme weather events.

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Protection and restoration of local waterways, Library hours

**Tell us why these are most important to you:** LIBRARIES ARE EXTREMELY IMPORTANT Third spaces for all people in the community. They are one of the only council services that provide a safe quiet environment

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Auckland Council should be investing now – in tourism, public transport, the arts, and other social services. Investing in the city will bring revenue back

Do not cut funding from citizens advice bureaus ! that is a crime!

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** - No reductions for Tātaki Auckland and regional services: Especially as it is after our city has recovered from covid, it is important that we invest into economic development, tourism, and the arts and cultures. These services, initiatives, and events are vital for the city to revive and connect. It is certainly not worth reducing these services which are fundamentally important for creating a resilient city with a resilient community.

- No reduction to local board funded activities: Local board funded activities also add to the building of resilient communities as these activities are community-specific. Having the sense of community and encouraging stronger connections can help also in the event of emergencies. This has been particularly crucial as more extreme weather events are anticipated from climate change impacts and communities must help each other.

- Continuation of provision of early childhood education services: This is an important investment that impacts children's future. Saving \$1 million, which is relatively small, is not worth the cumulative and long-term effects of not providing the services.

Therefore, I recommend an increase in debt instead of the proposed reductions as it is a crucial time to invest into our community. Money can be replaced but the outcomes we get from these services are irreplaceable and the proposed

reductions will impact the vulnerable communities most. For example, the reduction in Citizens Advice Bureaus and library services means that those that cannot afford a paid lawyer, those that do not know where to go to for certain services/questions, those that do not have a suitable space to study/work at home, will not have sufficient places to go. This means that inequity of access to opportunity and life needs is going to increase and encourages more division within our communities. That is the opposite of building a sustainable resilient city.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** The Airport as an important for our transport network, and hence important for emergencies and building our community and national resilience. Especially as we don't have many airports in Aotearoa New Zealand, the Auckland Airport is a vital hub. Letting

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?**

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** I recommend following should be added to the priorities:

- Eco-Neighbourhoods
- Climate Action programme
- Bike Hub

Prioritising climate action programme and eco-neighbourhoods will ensure better coordination with climate actions in the wider community/

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local community events, Community climate action and sustainability

**Tell us why these are most important to you:** These are services that are specific to the local area and community. Further, they are important for our continuing recovery from the Covid pandemic and recent flooding/rain events.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	0
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	0
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	0

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Amenities in all these areas are very important in building the vitality and strength of any community, especially the biggest city in the country, and the biggest South Pacific city in the world. The arts and libraries, CABs and community events, art galleries and museums, community centres, community gardens bring communities to life. When communities can come together for shared events, especially in the arts and music, those communities and their individual members are strengthened. Studies have shown that the artistic and creative strength of communities leads to greater cohesion, and ultimately greater actual financial health.

Balancing the financial books should never cut out these areas of life.

I totally disagree with suggestions to cut funding to the following areas, where funding and services are already woefully inadequate and therefore insufficiently effective:

social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$20 million

Reducing local board funded activities across all boards to save \$16 million

Reducing regional contestable grants to save \$3 million

No longer directly providing early childhood education services to save \$1 million.

I was involved in education for over 40 years, first as a secondary school teacher of English, French and German, then as a parent at Eden-Epsom Playcentre, and finally for 26 years as the Head Teacher of the Epsom Community Creche, which I built up over those years from a small playgroup to a well-regarded ERO- accredited early learning centre.

I saw the damage that the Auckland Supercity did to once well-functioning council early learning centres over the whole Supercity area, and was saddened to compare what Wellington and Sydney Councils did to support young children and their families. Also I saw at the Community Centre level how Council wasted massive amounts of time, man hours and huge amounts of funding with endless private contractors and demands for complicated, wordy business and management plans that did nothing at all to enhance the delivery of services, or the satisfaction of the local users of the community centres. Often the council representatives refused to listen to local community group members and tried to destroy what existed and had been working, just so that we could fall in with their plans and paperwork.

Council needs to look at the huge wastage of precious ratepayers funds going to expensive, not necessarily effective private contractors.

Wayne Brown knows about drainage. Let's get the block drains unblocked. During the last weather events, homes all around us flooded and we the residents had to battle in the pelting rain and dark to try to clear the drains and scoop out masses of the wretched stone chips that had filled the drains, cubic metres of the stuff, stone chips that have been flying off the badly chosen water-based tarseal jobs that were laid over five years ago. We seldom see the old suction trucks cleaning out the drains, nor the old street sweepers that used to clear the gutters on a regular basis.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?**

**Tell us why:** Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) This is vital. Successive councils, all over the world have cut back on essential infrastructure. This is now countdown to a climate breakdown. The only soluti

**4. Storm Response**

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

**5. Local Boards****6. Changes to other rates and fees and charges**

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	0
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	0
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	0

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** 'Since the birth of local government in Auckland, the "cordiality of life... for the public generally and not for the exclusive

benefit of a few capitalists" (Bush, G. (1971) Decently and in Order: The Government of the City of Auckland

1840-1971: The Centennial History of the Auckland City Council. 142-3) was recognised -alongside public health and utilities: the traditional rats, rates, and rubbish service orientation of local government. Libraries, a town hall, an art gallery and parks were developed in the decades thereafter, along with the museum, zoo and public events. Auckland now has regional governance embracing legacy councils that mostly recognised the importance of social/civic infrastructure in their time and added to this infrastructure.

More recently, the 'cordiality of life' functions of local government are appreciated for social well-being, education, civility, and the support they provide to city distinctiveness, economic development and environmental sustainability. Auckland is a city recovering from Covid, with climate and equity challenges. Short-term reductions in the operating costs proposed in the draft budget are small vis-vis the long-term implications of destroying investments by Auckland governance and citizens over time and not providing for and investing in Auckland's future.

Addressing the bullet points provided:

- 'Public transport' and other active alternatives to the car must be given priority in Council policy and plans - "the transport sector is the largest source of Auckland's emissions, emitting over 40% of the total. The bulk of these emissions come from road transport (86%) <https://www.aucklandcouncil.govt.nz/plans-projects-policies-reports-bylaws/our-plans-strategies/Documents/transport-emissions-reduction-pathway.pdf>
- 'Reducing funding to Tātaki Auckland Unlimited' - as recognised in the draft budget, these services are important in regenerating Auckland socially and economically ongoing.
- 'Reducing regional services to community and education' - this is absurd - the Council must invest if it is to reduce inequity and invest in the city's social, economic, and environmental development ongoing - to the benefit of everyone.
- 'Reducing local board-funded activities' - the local boards were set up to provide for local democracy and intuitiveness when the Auckland Council was established. This cuts across local governance - though there might be a few tweaks here and there. There should also be regional principles, e.g. around community leasing etc. This is an Auckland Council matter and should not be left to the whim of a local board.
- 'Reducing contestable regional grants' - these are probably small in the scheme of things, but speaking to heritage. The Unitary Plan schedules many privately owned places. Relative to smaller councils in New Zealand, the Auckland Council provides little to assist owners in maintaining places considered of sufficient values to be scheduled for present and future generations. And through the Council's research <https://www.aucklandcouncil.govt.nz/arts-culture-heritage/heritage/Pages/aucklands-heritage-counts-programme.aspx>, it was established that heritage adds to the city, but often at a cost to the owner. There will be other grants - probably small - but invaluable to the wider Auckland Council ecosystem.
- 'Early childhood education' - again, this is a short-term reduction that will destroy the little the Auckland Council currently provides for this service and its contribution to equity.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** AIAL belongs to Auckland's citizens, and with careful Council management, it will return long-term dividends.

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

## Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:** Auckland Council has benefited from accelerating land/capital values in calculating rates. These are dropping - but these won't be reflected in rates bills for some time - so there is a windfall for the Council for a while. Much investment needs to be made

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local arts programmes, Parks maintenance (including mowing)

**Tell us why these are most important to you:** These are the most elemental - and most should be provided across the city as priorities

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	0
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Community leases.

I represent a Trust that has held variations of a community lease for 43 years. The site, over this time, has supported local and national literature, emerging artists and the Art Gallery. The Trust is strictly non-profit (unlike crick

Auckland Council draft budget 2023/2024

28 March 2023

**Submission: Do not proceed with reducing funding to Tātaki Auckland Unlimited, (TAU) as it affects the operating budget of the Auckland Art Gallery Toi o Tāmaki. Do not proceed with reduced opening hours or introduction of entry charges at the Auckland Art Gallery Toi o Tāmaki.**

A public art gallery is an institution for human flourishing, guiding us all to new possibilities as we imagine and create more fulfilling lives and thriving communities. Art changes lives and the Auckland Art Gallery Toi o Tāmaki provides transformational experiences to a diverse audience.

Cuts already proposed to the Gallery's operating budget leaves it with a bare bones operating budget of \$9.5m pa, after shared TAU services fees are deducted. This is compared to \$32.2m and \$18.6m that Auckland Museum and MOTAT received in full respectively in 2022-2023. This imbalance between the city's major cultural institutions leads to a great loss for the city – of tangata/people, of access to and care of the art taonga/treasures and of the future creation of culture in Aotearoa. And, unbelievably, TAU is expected to propose even more cuts.

The tangata/people at the Auckland Art Gallery Toi o Tāmaki believe deeply in the significance of art to impact our everyday lives. Their knowledge and experience cannot easily be replaced. Highly skilled in developing outstanding visual art exhibitions, public programmes and valuable archives, they provide stimulation, education and well-being for all who visit the gallery. Close to 500,000 will visit in 2023. (MOTAT, 2022: 100,554 visits, Museum, 2022: 488,553 visits)

As kaitiaki/guardians, skilled visual art specialists care for the Gallery's irreplaceable collection. The 17,000 artworks are our national treasure, owned by the citizens of Auckland, with national and international importance. As a leader, the Gallery then attracts bequests, gifts and long term loans.

Entry charges do not work. There is plenty of data from independent researchers to demonstrate that the introduction of entry charges to the Gallery in 2018/19 caused significant harm for the gallery – around 30% less visitors, 60% less people joining guided tours and significant losses for the Gallery's other income revenue offerings, such as the shop and the café.

We strongly advocate for Council to recognise how vital it is to support the very core of the human creative spirit in the city through the work of the Auckland Art Gallery Toi o Tāmaki. The Gallery provides opportunities for people to understand and celebrate who they are, were, and might be. A well-resourced public gallery is at the heart of a city's creative economy and can lead change for our future. We need to be able to re-imagine that new future, for our communities and cities as creativity is fast becoming one of the most influential forces driving today's global environment. The Gallery plays a vital role in enabling Auckland Council to achieve its goals for the four well-beings, social, cultural, environmental and economic, to support a creative, flourishing city.

**The Auckland Art Gallery Toi o Tāmaki is a world class public art gallery where creative talents can shine** –let it grow and flourish through an equitable and sustainable funding partnership between Tātaki Auckland Unlimited and Auckland Council.

*"We need to build a city where the creative talents of all people are used to foster personal, social and economic fulfilment. Culture delivers identity, provides inspiration and delivers creative opportunities for everyone. Isn't this a major aspiration for local and central government?"* Robert Gardiner ONZM, CNZM, founder of the Chartwell Trust.

Yours sincerely,

---

## Submitter details

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** These services are vital to the cultural life and wellbeing of Aucklanders. It'll make Auckland boring. Increase targeted rates instead. Bring in a congestion charge. Do better.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Selling the shares in Auckland Airport would be very shortsighted.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Auckland rates are low compared to other cities like Wellington.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Climate change is here. Need to adapt.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** This proposed reduction is ludicrous. It will make Auckland communities sad boring places.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local community events, Library hours

**Tell us why these are most important to you:** This is like having to choose a favourite child. It is an absolutely stupid argument. Please, do better.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I love Auckland. These proposed cuts are heartbreaking. Increase rates instead, especially with targeted rates - consider new tools like congestion charges, have higher rates on empty lots that are undervalued etc - do better than cutting essential commun

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** It's more important to provide for Auckland, I'm happy for an increase in rates to pay for that.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** It's important not to sell assets, then have to pay more later to use them.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:** Better for those who can afford it to pay for those who can't

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** All arts and community services. Vital for the health of the city and it's people

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:** Not enough research and information

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local arts programmes, Community climate action and sustainability

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The proposed cuts are aimed at under funded organisations in the community. Library and arts sectors which take years and decades to build. They simply can. Not be rebuilt easily. There is always so much labe and labour put into these sectors that are unp

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Other

**Tell us why, and which reductions you would not proceed with if any:** To not proceed with any reductions and instead unfreeze the Water Quality and Natural Environment Targeted Rates, increase borrowing, and maintain the general rates package.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** As stated above there are other mechanisms that can be used rather making these cuts.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** The prospects of not being impacted by these events is not improving. The council needs to invest in the appropriate infrastructure now to allow communities to have a chance. Auckland Council was not prepared for the severe weather events that occurred i

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** While I support the priorities outlined above, I do not support the cutting of other services. I'm especially concerned about the removal of funding from the CAB, which is fuelled for a lot of it by volunteer workforce. I am deeply unimpressed by the idea

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Community climate action and sustainability, Protection and restoration of local waterways

**Tell us why these are most important to you:** These are fundamentals of our lives and help provide for the future. As stated above, I don't think that any of these areas should be cut.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any: Keep funding arts

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Programmes and activations in Epsom Community Centre

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Funding cuts to core public services and infrastructure and future planning to increase capacity of services and mitigate effects of climate change. We need enough capacity for public transport, arts and leisure, cultural vibrancy and advocacy services provided by CAB.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Other

**Tell us why:** Increase this funding as infrastructure has been underfunded for years.

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Other
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	

Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Do not cut funding to CAB vital service, libraries or cultural festivals and events. A rates increase is minimal when spread across households and the proposed cuts will negatively impact Auckland for generations to come::

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Library hours

**Tell us why these are most important to you:**

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Stop permitting new apartment buildings to be built on the edge of sidewalks. Require all new builds to be 2 meters back from the sidewalk to make a livable city.

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. ## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous. Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter. A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** I think it's a bad idea to entirely sell assets in anything public-serving.

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** If rates are increased, I want to see some kind of way to have landlords absorb this cost and be unable or highly discouraged to pass this onto their tenants. This is already an extremely inequitable city and we all know rates increases will also increase

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Auckland did not survive the floods/Cyclone. We are woefully unprepared and need to be for next time, because these incidents are only going to increase with climate change.

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Protection and restoration of local waterways, Library hours

**Tell us why these are most important to you:** These are vital to community functioning as community should - bringing people together. We also cannot reduce access to libraries, and we cannot compromise on environmental health - we have too many vulnerable people in our community and we have a unique

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local arts programmes, Protection and restoration of local waterways

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** All areas should have food waste collection available

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I do not support reduce PT. This would lead to more congestion of cars, less efficiency of people getting from A to B which would in turn impact economic productivity and further increase our carbon emissions which is not supportive to a healthy environment and atmosphere.

I do not support reduction of funding to Tātaki Auckland Unlimited services. These services cultivate mental wellbeing, social cohesion, attracts tourism and investment to the city and maintains employment in the workforce.

I do not support reduced funding as per point three, community and education programmes... etc because the same said reasons above and will include further elaboration on the point of mental wellbeing and increased economic health. If we are supporting peoples mental health by providing them spaces to socialize, learn and leisure this would provide a good outlet for time outside of work and the benefits accrued from enjoying said programs would have a marginal, arguably massively impacting benefit on maintaining attrition within employment - people would be returning to work schedules rested and satiated from enjoying life outside of work and thus be good candidates for employment. These events also attract tourism investment and this is the economic space to tap into to restore profits lost over the pandemic.

last few points, do not support cost reduction for similar reasons stated.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** The short term debt Auckland is facing as a result of the global economic- pandemic slump is far outweighed by projected future profits to be restored as confidence in travel picks up. Paying off debt is a poor short sighted option and therefore I do not

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:**

Support council setting a higher general rates increase AND making greater use of debt.

Council should set rates at least at the rate of inflation (8 -9 % rather than the proposed 4.66%) Auckland rates are low compared with other metropolitan centres.

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Support the importance of investing in stormwater infrastructure, especially in light of recent extreme weather events.

In addition, Council's ability to prepare and respond to future storms and climate impacts will be greatly enhanced by ensuring all

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** Local boards at the bare minimum should be supporting everyone in their locality to reach towards good development in their life. Keeping libraries open is crucial as this is a learning and ups killing hub for all and if we care for economic health of thi

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Community climate action and sustainability, Library hours

**Tell us why these are most important to you:** I am horrified that I am being asked to prioritize only three of these services. Every cost beneficial to supporting and alleviating costs that otherwise citizens are burdened by makes up the delicate social-economic infrastructure that keeps our city hea

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** Do not support Council reprioritising the Climate Action Targeted Rate which was established only last year with overwhelming public support. It should be used to improve and increase services rather than diverted to reduce costs to Auckland Transport.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).

- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Grim to see these projected cuts to a main city in a developed OECD country, meaning this is not necessary and we can finance projected and current debt and restore economic development and activity post pandemic. Apocalyptic economics in Auckland is irra

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** I don't know

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### **Rates**

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### **Debt**

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Environmental restoration, volunteers and pest control, Protection and restoration of local waterways

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Do not cut the arts and invest in public transport

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** No, do not cut anything.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I am 69 in a new Kainga Ora house. I do not drive and catch the bus everywhere. I need more buses so I can travel.

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not sell off our assets - do not reduce funding. The focus should be on the people of Auckland - and now is not the time to reduce things like public transport, and social and cultural services. Where is the climate reduction vision? Borrowing now to invest and build a more attractive and sustainable city is what is needed

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Selling off our assets is not something that should be done to relieve short term debt - assets represent capital and if they were sold should be reinvested in capital. The Mayor does not have a mandate to sell our assets - with less than 30% of the vote

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** Too many people are struggling right now - floods, cyclone, cost of living.... increasing rates will cripple too many. Instead look at smart borrowing options - and make sound investments so that debt repayment will be seen in years to come to have been

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** unless there is a very clear plan that is not just a quick fix but rather a smart response to future climate events that is sustainable and sound. The risk here is that this money gets spent on short term fixes when it should be spent on long term fixes

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** Is the council still planning the Carrington site? how long does this take? And building community resilience should not take millions - it will come from meaningful community engagement in projects that benefit the community

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** This is a Clayton's choice - and a lazy way for you to say 'we have the public support to cut XYZ'

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	0
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	0
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	0

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Will bring in revenue from another stream

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

**Tell us why:** We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local arts programmes, Local community events

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Other

**Tell us why, and which reductions you would not proceed with if any:** Don't proceed with any reductions. Instead unfreeze the Water Quality and Natural Environment Targeted Rates, increase borrowing and maintain or increase the general rates package. You could also request central government support, increase parking charges or initiate a congestion charge

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** This is very short term thinking, would provide a one off return and cut off any future investment opportunities

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Unfreezing the Water Quality Targeted Rate and Natural Environment Targeted Rate will generate significant revenue in order to avoid the proposed cuts.

Increased debt should be seriously considered at such a time of need following climate events and chall

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** The community around me has been very affected by the recent flooding and storms. It is essential that we support communities by helping to provide safe and climate resilient housing and community spaces. In addition investment in crucial infrastructure t

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** Don't reduce the funding

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Parks maintenance (including mowing)

Tell us why these are most important to you: Rewild the parks instead

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Library cuts are not the answer for a better informed & educated city.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Its not a good time to sell.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** As a property owner im happy for you to increase rates but make greater use of debt.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Our basement bedroom was flooded & its been very stressful so sorting out updating the old stormwater pipes would be a start.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Sports and activities in parks, Environmental restoration, volunteers and pest control

**Tell us why these are most important to you:** Because we have to think about the future when it comes to the Environment.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** Focus on public transport like every other major city in the world. Too many cars in this small city, More buses & trains

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Library cuts appall me. Libraries are vital to our communities, and vital to our children's literacy levels. They ensure all members of our community have access to free books and internet access. They help enable all to meet their potential. Cuts in this area would affect already disadvantaged people the most. I have always found our local library's computers to be well used and I often see refugee children whom I know using them after school. Libraries are a safe haven for many, provide a gathering place for community and therefore are important to our mental health and wellbeing too. As a mother of young children fifteen years ago, I valued the activities our professional and caring library staff put on for toddlers. We forged relationships with our library staff then that are still strong today.

Cutting bus numbers and increasing fares just flies in the face of climate change. It is counter intuitive in 2023 and just ridiculous. Auckland's already clogged roads will just be worse.

There is more to a city than bricks and mortar. Cities need to have heart and soul to make them attractive and to make the people living in them feel connected and happy. Events such as Diwali, Pasifika, the Lantern Festival and the Big Gay Out, to name but a few, are vital in celebrating the many different groups and cultures within our community. People's wellbeing is enhanced by such events and to cut their budgets would have tragic consequences. We only have to think about the impact of not having such events during lockdown to reinforce the significance of such activities.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** This is not a particularly astute time to sell these shares - at a low point in the market - and that once they are gone, this asset can no longer be leveraged or support future revenue raising for Council.

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** I believe Council should both set a higher general rates increase and make greater use of debt.

Our city, communities and neighbourhoods are built with collective, public investment that is funded by rates, taxes, and fees. Debt can also be used to spread

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** In 2023, with the climate crisis landing on our doorstep, we've seen the results of decades of underinvestment in our critical infrastructure. It's high time we start investing in making Auckland more resilient in the face of climate change and extreme we

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** I oppose the idea of cuts to crucial public and community services. For example, we have such high drowning rates yet you want to cut the Learn to swim programme for Year 1 and 2 students in low decile

schools.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	0
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	0

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Each of these services are integral to a thriving city that is comprised of diversity and allows communities to support those who rely on them. The arts and culture sectors are of the utmost importance and make Tāmaki Makaurau unique

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Auckland airport is a gateway to our city and to our country, the current shares should be maintained to ensure that aucklanders are not isolated from decisions regarding one of their biggest transport hubs

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Our city is not equipped to deal with storms and flooding and measures should be put in place to minimise the risk should these natural events become more frequent with the effects of climate change

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Local community events

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** We do not see enough benefits from our rates currently and we think we pay too much already. Fix the potholed roads and failing infrastructure BEFORE encouraging more high density housing and new housing that puts the failing system under more pressure??

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Other

**Tell us why:** Stop spending money on events and other things that are not as important as addressing failing Infrastructure etc. This has been underinvested for years.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

**Tell us why:** Stop increasing high density housing in this neighbour.

The existing large, overgrown trees in the area are already problematic and have been falling and the big roots are damaging the roads. Council need to review suitable trees that will not be a nuisance

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community climate action and sustainability, Protection and restoration of local waterways, Parks maintenance (including mowing)

Tell us why these are most important to you: Most of the item above are not important compared to other issues.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Stop reducing speed limits to 30km at all times! This is ridiculous. It would have been better to have a targeted timeframe around school times as the majority of drivers continue to drive faster than 30km an hour. Even Westmere has a limited 40km speed

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** All reductions proposed have been predicted to cause irreversible long-term damage to services, activations, and events that make Tāmaki Makaurau the wonderful place it is to live.

To cut off council funding to supply regional services, contestable grants, and local boards money to direct and inspire community programmes, many of which use the money to cover basic operational costs, would shutter community groups and institutions that regularly cater to the full socio-economic breadth of Aucklanders.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** Don’t change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Tāngata whenua of land around the airport would be permanently alienated from Māori, as the Waitangi Tribunal cannot recommend return of private land.

Public infrastructure, such as transport hubs, should not be privatised and the loss of the 18% shareho

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** Auckland Council should be investing now, we have literally had a rainy day, we are in a permanent-crisis. Rate-payers rely on councils, with their ability to borrow and take on debt in ways which are impossible for private persons, to invest in public tr

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Other

**Tell us why:** \$20 million will not cover recovery.

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Other
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

### What do you think of these proposals?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Council should increase rates and make greater use of debt as appropriate in order to reject the proposed cuts to arts & culture funding and protect the cultural wellbeing of Tāmaki Makaurau Auckland.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Have to keep the transport and the arts, As we have had half price transport for several months now, I would support dropping the other half of the fares. Then the buses can travel without the drivers needing to slow down to collect fares. Arts funding should be more directed to encouraging participation by young people in deprived groups: so many of whom have an artistic dreams: encouraging their engagement would be positive for them and all our communities. If that needs to be paid for with more rates, then so be it. We have to make room for more people-friendly city and more nature-first policies: the alternative is what has got us here.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** I agree with the commentators who say AIAL is a strategic asset and likely to have more long-term value than the short-term cash it can realise. In spite of our green principles, it is unlikely that Aucklanders will stop flying and the airport is the on

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:** What are we saying here: that there have been ‘years of underinvestment’ and that is why we need to spend up large to fix problems which have been foreshadowed for years? I guess if that’s what it takes, we have to spend it. But we suspect that much of

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** More parks/gardens/sport grounds must be funded out of the extra rates available from the huge increase in the newly-densified residential areas,

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local arts programmes, Sports and activities in parks

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The TMA appears to be a law unto itself. It is simply unconscionable that they can be in favour of wholesale tree loss with apparently no oversight or community consultation. Their budget for cutting down trees (helicopters!) is way too high.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### **Rates**

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### **Debt**

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Please do not cut funding to critical resources such as Citizens Advice Bureau. Community aid like this is a lifeline for many in our community. We grow up hearing our parents and family mention such organisations. We know who to turn to for advice and assistance. There are very few alternatives that support and advocate for our community in this critical way.

We should not place further burden on future generations by removing community services. Re-establishing or starting these initiatives is more difficult than maintaining them. If we can't find ways to fund key issues such as homelessness, then what are we doing? The increased rates and costs can be absorbed by the community who already have homes, a mobile device, internet connection, capacity to earn money. Don't take from our community who already fights so hard to be heard.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Auckland rates do not reflect the level of infrastructure and services that this city needs. I paid nearly as much in rates when I lived in Nelson (~\$3000/year) and barely saw anything for that. Minimal public transport, community services. I was shocked

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** People lost their lives in the flooding. We cannot risk lives of those in our community - for the sake of cutting costs, especially when those costs can be met or altered in other ways. People lost houses, belongings, livelihoods. It put pressure on those

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** Those are great priorities but what is the point in mentioning the closed Point Chevalier Library, meanwhile suggesting if funding is cut that Mt Albert Library will go from 7 to 6 days.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental restoration, volunteers and pest control, Protection and restoration of local waterways, Parks maintenance (including mowing)

**Tell us why these are most important to you:** Encouraging safe space for community means people being able to safely use the outdoor spaces. Failing to maintain pest and weed control has a significant impact on wildlife. Auckland already has high allergens which affects the health of many people. Fai

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Maintaining the environment we are in through local parks and facilities is important, as well as the health, safety and well-being of our community members using it. In a few years - no one will remember the increase in rates or other financial pressures

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** The proposed reductions would have severe impacts to the lives and livelihoods of many Auckland residents, as well as to the offerings that entice visitors. Cuts to arts and culture funding will have massive economic impacts - resulting in organisations and businesses folding, and potential job losses. Arts & culture funding from Auckland Council and via Local Boards is a significant part of the income for many organisations, small businesses and sole traders. There is no readily available alternative to this funding - the economic impacts across the sector will be severe. This is on top of impacting services, cultural offerings and events that add significantly to quality of life, attracting visitors and adding to other businesses (eg. taxis, food suppliers, etc.). I work in the arts and am intimately aware of the catastrophic effect these cuts would have on our entire sector.

Reductions in bus services are already having a huge impact on the ability of people to get to and from work, school, etc. The current situation is far from ideal. My daughter has stopped trying to catch the bus to school as most buses in the morning are either already full, or running very late, meaning getting to school on time is unreliable. This increases the need for use of private transport - impacting us both economically and adding to carbon emissions at a time that reducing emissions is absolutely critical.

Any budget cuts that reduce our ability to meet climate targets should absolutely be rejected. Climate change is of utmost urgency.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Community climate action and sustainability, Library hours

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** The cuts to library staff and installation of voluntary workers does not provide Aucklanders with the currently excellent library service.

Cuts to Arts would be a backward step in terms of making Auckland a less vibrant attractive city to live in.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Auckland Airports should belong to the city of Auckland We need to have veto power in what happens next in the organisation and management of future projects at Auckland Airport. Selling shares which is an important asset doesn't make sense

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Community climate action and sustainability, Protection and restoration of local waterways

**Tell us why these are most important to you:** environment and sustainability is an urgent topic we must act upon reforms now as well as for water.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	0

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

I don't know

**Tell us why, and which reductions you would not proceed with if any:** Increase debt as opposed to rates. Decrease funding proportionately over all categories, not totally removing any functions. Are educational programmes core council business ? Probably not and could be reduced further

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Increase debt as opposed to rates

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** Changes to the split between residential vs business rates should be ceased. Businesses have the advantage over households that rates are generally tax deductible, and may well have greater options to increase their incomes than households do.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** More attention should be paid to fixing problem street cambers etc reported by residents

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local arts programmes, Parks maintenance (including mowing), Temporarily or permanently close council venues

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Reducing higher level management salary costs including the use of consultants. Too many managers earning 200k plus

## Important privacy information

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:** As a home owner, I already think our rates are hugely expensive and cannot afford extra increases on top of the interest rates we are paying to the banks in this country at the moment.

Early childhood education for low-income families is essential to keep people working, I would not stop this service.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:** I'm really not informed enough to answer this one, but I think increasing rates once again will be detrimental to a lot of families who are already struggling with high living costs.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Parks maintenance (including mowing), Community leasing charges

**Tell us why these are most important to you:** The community centres and parks are very important for social events, exercise, learning etc

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local arts programmes, Community climate action and sustainability

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

## Submitter details

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I do not support these cost reductions. The net effect of such a sizeable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future. Our arts events, music, cultural festivals, theatre, dance, comedy and other creative activities bring life to our city, bring Auckland communities together, and attract domestic and international tourists. This also has a positive knock-on effect to our restaurants, hotels, transport and other sectors.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not “nice-to-haves” that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will close. Once there is no opportunity for work and artistic expression, artists and arts practitioners have no reason to remain in Auckland. We will become a cultural wasteland!

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?**

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities are feeling.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local arts programmes, Local community events

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	0
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	0
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	0

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Reduction in Cultural Events

Without funding, most of Auckland's cultural events and festivals will be cancelled or scaled back, leading to a reduction in the diversity and vibrancy of the city's cultural scene.

Job Losses

Many artists, performers, and

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?**

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms? Other**

Tell us why:

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Library hours, Temporarily or permanently close council venues, Community leasing charges

**Tell us why these are most important to you:**

### Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Identify additional no / low mow areas in parks and reserves

**Tell us why these are most important to you:**

**Do you think there are other areas where we could make savings to our local budgets?**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. ## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Upgrade the current drainage system, We can clearly see the existing main holes could not cope with the storm, thus We urge the Auckland city council to do something about this maintenance immediately.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Upgrade the greenlane (Mormons road + tawera road) current drainage system, We can clearly see the existing main holes could not cope with the storm, thus We urge the Auckland city council to do something about this maintenance immediately.

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Upgrade the current drainage system, We can clearly see the existing main holes could not cope with the storm, thus We urge the Auckland city council to do something about this maintenance immediately.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Upgrade the current drainage system on Momona and Tawera road. We can clearly see the existing main holes could not cope with the storm, thus We urge the Auckland city council to do something about this maintenance immediately.

This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** why do we need to increase the rate of property for reduce the bad debt? Why can't we improve our products to make money?

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** no meaning at all.

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

**Tell us why:** local communities have done nothing, they should be dismissed.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** there is no important services at all in local communities.

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?** don't always think about how to get more taxes! must improve our productivity!

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

It is A very stupid method that we only think how to increase different tax or rates.....

- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** It is suggested that the rates can be increased a little bit for people who have the second house and above

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** If this proposal is to add 1% on the basis of 4.66%, then it is not necessary. For low-income families, 4.66% is snow and 1% is frost

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Subsidies for public transport

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Other

**Tell us why, and which reductions you would not proceed with if any:** Reduce salary for higher, slimming bureaucracy government

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Other

**Tell us why:** Keep the shares, reduce the officers of bureaucracy

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Reduce government's scale

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Pls reduce those high pay officer, I can do two of them job for just one pay, pls try me if failure, I will pay back to council!!

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Additional tolls

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Other

**Tell us why:** Free use of the pool can be withdrawn and \$2 per person charged

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Submitter details

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support

This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	I don't know

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt? Make greater use of debt**

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt? Make greater use of debt**

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt? Make greater use of debt**

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt? Make greater use of debt**

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:** Please do not cut spending to South Auckland. Equity is not about 5% cut across the Board, but should consider to continue with original Budgets for Manukau Ward, Manurewa Budgets without cuts as these are vulnerable communities. We need to support these

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	

Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

## Submitter details

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** The airport asset will continue to increase in value selling all now will reduce anything available in future.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:** Debt will push up rates farther in the long run, reducing it now is the better option.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Will \$20 m cover the costs of new sea walls and slip mitigation?

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Facility maintenance

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** please do not reduce parks planing; water quality initiations

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** I don't know

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** I don't know

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I don't know

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** I don't know

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

Tell us why:

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

Tell us why:

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I don't know

Tell us why:

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Does not support the rates increase

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Social security is chaotic, and laws are not strict enough to prevent and punish crimes.

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I don't know

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

### What do you think of these proposals?

## 7. What else is important to you?

### Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Submitter details

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

Organisation (if applicable):

Your local board: Albert-Eden

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:** Some services can be stopped directly such as (regional activities)

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** The rates is rising every year, and the money is not used for other places

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:**

### 5. Local Boards

#### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

I don't know

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** I don't know

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.
