# Annual Budget 2023/2024

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

## Submitter details

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Auckland is already facing a shameful public transport and increase of social issues such as homelessness. By cutting funding, you are making the issues worse by having more unreliable public transport and making Auckland a ghetto of homelessness instead of the beautiful city of sail.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Aucklanders cannot loose the ownership of the airport as it is our pride of international recognition when tourist enter the country.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:** Agree with some increase but we cannot drop the natural environment target rate. It is important to ensure Auckland has a world standard green and clean environment that will attract visitors and immigrants to live in a city where they can set up families

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Given the recent cyclone and flood event, our infrastructure desperately needs an upgrade to avoid future devastation

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Environmental restoration and pest control, Arts and culture initiatives

**Tell us why these are most important to you:**

#### Manurewa Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Youth programmes, Protection and restoration of local waterways, environmental education, community climate action and sustainability, Local economic initiatives

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any

interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any: Transport and regional services

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	Do not support

c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

### What do you think of these proposals?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:** I would be against cutting any funding to libraries

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Council should maintain some stake in a strategic asset

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** Could cut community empowerment and partnerships

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Community facilities and services, Library opening hours

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?** could cut back on council spending on large scale community festivals and spending by coucillors eg lunches

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Other

**Tell us why, and which reductions you would not proceed with if any:** Do not reduce public transportation. Many Aucklanders rely on PT every day and reducing it will negatively affect people's lives. In addition, there is a climate crisis at the moment so reducing PT is bad and we should encourage more people to use it. The reduced number of busses has also caused traffic on the motorways to be extremely slow and has made traveling much worse. The busses are also cramped during rush hour and people have to wait up to 30 mins for the next bus (in CBD).

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?**

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	

c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:** I NEED public transport services. I am currently a domestic AUCKLAND tertiary student studying at a City Campus.

Student dorms are NOT an option for me, because it is TOO expensive. My main Auckland Transport train line (Eastern Line) is shut down for an entire year, exception some rush hour services, which I am unable to ride on anyway.

Reducing transport options is UNACCEPTABLE - AUCKLAND TRAFFIC IS BAD ENOUGH AS IT IS! We spend an average of 80 hours stuck in traffic!

The arts are an integral part of our identity as New Zealanders. Cutting education would be dooming the future of children in New Zealand. My generation is already suffering the consequences of the housing crisis. Now the children are unable to receive early childhood education. Education programmes, community empowerment, youth centres and homelessness funding will be getting a cut???

GIVE ME A BREAK. The people suffering will be the ones at the bottom who need help the most! This is not helping them!

Education is needed. There are NO downsides to education!! In fact the quality of education is not adequate enough for the children! I have spoken to a primary school teacher who has been in public for many years, and teaching is NOT easy. There are NOT ENOUGH TEACHERS, and you want to cut funding for education????????? Make it make sense.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:** Please do this instead of making the average person suffer by cutting the costs in vital areas for the Auckland community.

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Prevention is better than dealing with unprecedented consequences.

Would you rather pay 20 million every year, or sit around and wait for the next storm to cost even more?

Imagine if public transport in Auckland had more investment -- then we wouldn't

## 5. Local Boards

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I would not proceed with reductions to Arts funding, Tātaki Auckland Unlimited, regional services such as community and education programmes, arts and culture programmes, regional events, and social services activities, as well as local board funded activities across all boards and regional contestable grants. These directly affect the well-being of this city's inhabitants not to mention how disastrous this would be for the tourism for what is supposed to be New Zealand's largest and best city. The effects of arts funding reduction would be felt for many, many years and will do irreparable damage for those working in the industry, those who benefit from the arts (which is everyone) and a flow on effect to tourism and many other industries and Auckland's diverse communities and cultures.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. **What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental education, Community climate action and sustainability, Arts and culture initiatives

**Tell us why these are most important to you:**

#### Maungakiekie-Tāmaki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Programming at Te Oro, Oranga and Onehunga Community and Arts Centres, Council-led community programming e.g. Out and About activations in parks, Community climate action and sustainability activities

**Tell us why these are most important to you:**

**If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?)** Mowing service levels on reserves, Library opening hours, Environmental education activities

**Do you think there are other areas where we could make savings to our local budgets?**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Again to reiterate the devastating effects the reduction of arts funding will have on New Zealand if they were to be made. Please do not do this to our fantastic city and communities. Helping the arts thrive will make a huge difference in the everyday liv

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** The first reduction would be Auckland Transport! I am currently an UOA student who travel from East Auckland to Central AKL. The current reduced service has made life harder often with buses not showing up and causing delays in my life especially impacting my studies. Secondly, as someone who volunteers and is an Office Holder in UN Youth grants are crucial to deliver our event. The impact of our event has empowered over 1000's of rangatahi in the last 5 years. Community grants are crucial to deliver the success of our events. Our events have actively changed the lives of young people who impact the Tamaki Makaurau. The current reduction does not take into consideration the future on young people and leaves them suffering

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** I don't know

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:** Firstly we just went through floods and have we not seen the impacts of our Water quality and Natural environment. This has budget is inhumane

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Local waste minimisation initiatives, Community climate action and sustainability

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Other
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** While not ideal, I agree with the reductions with cultural and arts events as there are more important things to consider to make up the shortfall. However, these changes to the above, as mentioned, are not as impactful as the reduction in areas such as education, community empowerment, and homelessness. These areas, as an example, help develop people to be better themselves and set themselves up to be contributors to society. These services also lend a helping hand to those that need it the most, particularly the poor. Especially in these times, such reductions would be more harmful in the long term and would punish our most vulnerable in the community. The opposite should be happening. More investment are needed in these areas.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** Don’t change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Mayor Brown's statement regarding this issue is ridiculous and, again, shortsighted. Who knows what position Auckland Airport be in the next few years? Auckland Airport is a valuable asset to have and since the pandemic, the tourism industry is recoverin

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Community facilities and services, Library opening hours

**Tell us why these are most important to you:** Protection of or waterways protect the life that live downstream from the facilities that process them which in turn also keeps Auckland's water clean and not unsafe which is already an existing problem in many of NZ's waterways. Community services such a

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** Overall, I'm disappointed in what I've read. I'm not confident that the council will make efficient use of the money gained from these cuts and these changes will harm the long-term outcomes for Auckland as a whole.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** No longer providing direct childcare services.

It's such a small part of the reduction but makes such a huge difference to people being able to go back to work after kids.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?**

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Protection and restoration of local waterways, Arts and culture initiatives

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** 'Do not proceed with:

- Reducing regional contestable grants
- Reducing local board funded activities
- Reducing regional services
- Reducing funding to Tātaki Auckland Unlimited

I am against reducing funding in the above key areas which will have a serious negative impact on Auckland's arts, culture and community.

In a post-covid environment, it is more important than ever to invest a key contributor to Auckland's future. Thriving communities and a prospering arts and cultural sector directly benefit the entire city, improving social cohesion, wellbeing, and quality of life, making it more inclusive and welcoming for existing and new residents/industries. Arts & culture also boost the local economy, create jobs, and contribute to the Auckland's overall prosperity.

These grants and services are not just 'nice-to-haves'; these cuts presents devastating ramifications on Auckland's Arts and Creative sector, sending our city backwards socially and economically. It strays further away from Auckland's 10-year plan - the "livable city vision" and guiding principle: "integrating arts and culture into the everyday lives of Aucklanders". Cutting this funding will have a ripple effect on the local economy, negatively impacting the hospitality, retail and tourism. Moreover, it will negatively impact the quality and diversity of education in our schools and communities, leading to long-term regression in all the progress we've made to become a more livable city.

Auckland's arts, culture and creative sector generates billions in GDP and employs nearly 50,000 Aucklanders. The Council's funding for arts and culture is just a tiny proportion of the total council budget but delivers immense impact for Aucklanders. As founder and director of Chromacon ([www.chromacon.nz](http://www.chromacon.nz)) - a FREE public arts festival running for 10 years, we rely on funding and support to bring communities together, attract tourism and make Aucklanders feel proud.

Since 2013, Chromacon has:

- Grown from 50 creatives/1500 attendees (2013) to 200 creatives/12,000 attendees (2019)
- Built a meaningful bridge between Aucklanders of all backgrounds with the arts.
- Created a cultural shift towards homegrown creative IP (Intellectual Property) and long-lasting social capital and cohesion
- Established pathways for young people to enter a creative career

Each festival, we work with Regional Council Facilities/Tātaki Auckland Unlimited to activate the Aotea Centre and libraries around Auckland for all members of the public.

These cuts will lead to:

- Lack of free and fair access to the arts
- Less support for young people, emerging media, technologies, and practices in the creative sector
- Talent drain, less pathways for employment & contribution to the creative economy
- Less interest from international tourists, industries and cultural exchange opportunities
- Value generated from long-lasting creative practitioners/businesses developing original Intellectual Property belonging to Auckland

In conclusion, a reduction of this size in funding will have a long-lasting negative impact on the creative intellectual property industry and the economy, costing us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** I support selling a partial amount of airport shares, but if asset sales are on the table, why not consider one of council's 13 golf courses which incurs \$160 million in losses to run? Or increasing lease costs on those golf courses which are undervalued

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

## **Debt**

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

## **4. Storm Response**

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## **5. Local Boards**

### **Howick Local Board**

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:** If we want our communities to grow and thrive, we must invest more not cut back support. With the ongoing ramifications from COVID, floods, and cyclones, our communities need solidarity and cohesion to remain strong as a collective. Cutting funding for ar

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Local community events, Arts and culture initiatives

**Tell us why these are most important to you:** We cannot afford to ignore the critical role that arts and cultural events play in our communities, especially during challenging times. Instead, we should prioritize supporting and investing in these initiatives to help our communities recover and thrive

## **6. Changes to other rates and fees and charges**

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

# Stop the Cuts: For the future of Tāmaki Makaurau's Arts and Culture.

Presented by Chromacon Indie Arts Festival

CHROMACON (chromacon nz) a **FREE** biennial indie arts festival in Auckland that celebrates the coming together of creativity, artistic excellence and community

Founded in 2013, we champion independent arts in Aotearoa and provided platforms for both emerging and established practitioners to grow the social, economic and artistic value of their work

Our kaupapa: breaking down all barriers – making the arts accessible to all Aucklanders.

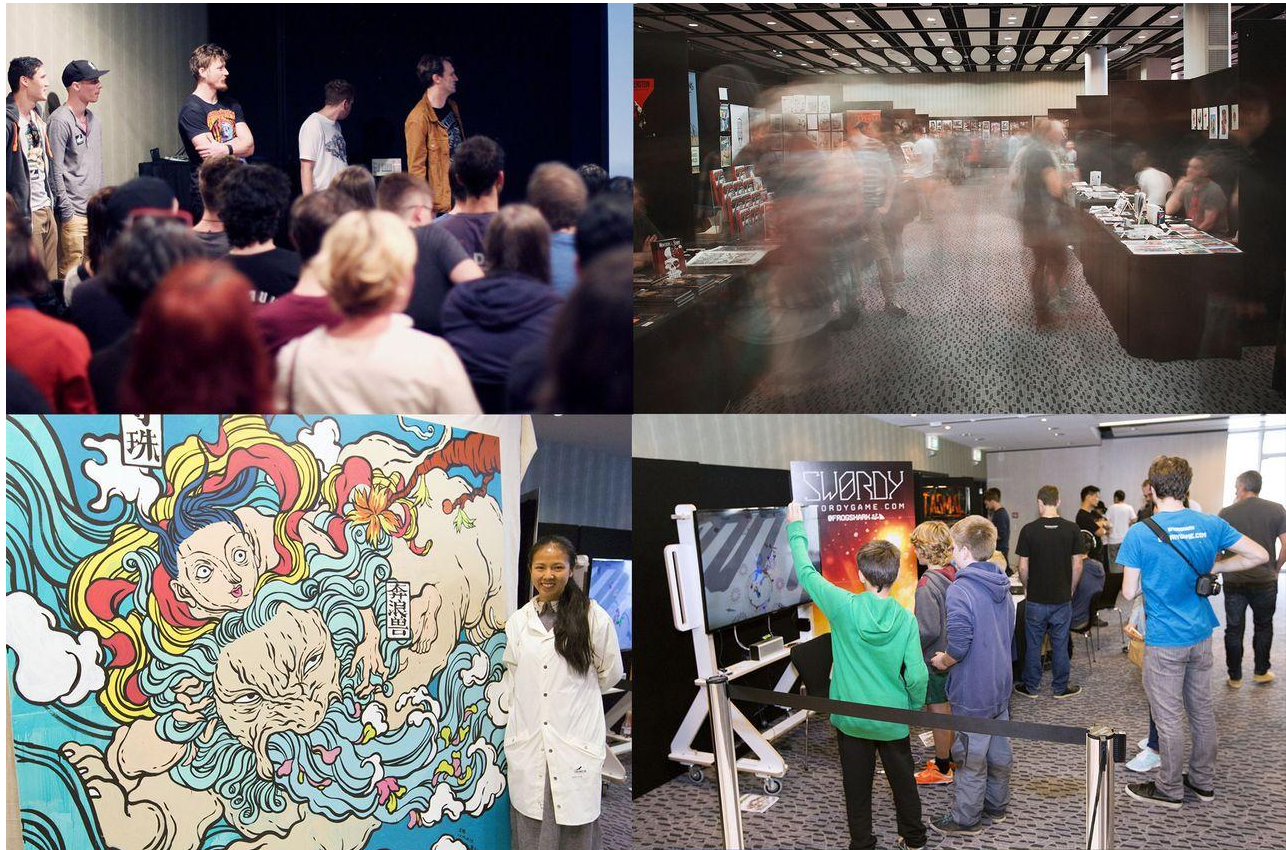

Now in our 10th year, Chromacon has:

- Grown from 50 creatives/1500 attendees (2013) to 200 creatives/12,000 attendees (2019)
- Built a meaningful bridge between Aucklanders of all backgrounds with the arts.
- Created a cultural shift towards homegrown creative IP (Intellectual Property) and long-lasting social capital and cohesion
- Established pathways for young people to enter a creative career

Each festival, we work with Regional Council Facilities/Tātaki Auckland Unlimited to activate the Aotea Centre and libraries around Auckland to provide free access to:

Educational talks, workshops, activities, screenings, live art, awards and importantly: An exhibition of world-class independent works from a diverse group of creatives across Aotearoa and abroad.

## ***“How do you run a massive event like this for free?”***

- A question we often receive from industry leaders/international guests and festival organizers

Chromacon is funded through a combination of:

- In-kind support from Regional Facilities - activating the Aotea Centre as a public space
- Grants from Auckland Council and other contestable funding
- Kickstarter crowdfunding campaigns
- Partnerships with leading educational providers and industry organizations around Aotearoa

## AUCKLAND - "A CITY WITH CULTURE"

*"Auckland is a city with culture" Wayne Brown, 21/12/2022*

*"Arts and culture are an integral part of our community" Wayne Brown, 02/03/2023*

Auckland 2023/2024 budget proposes to cut **\$36.5M** from regional arts, events, and community initiatives

These cuts presents *devastating ramifications* on Auckland's Arts and Creative sector, sending our city backwards socially and economically.

It strays further away from Auckland's 10-year plan - the "livable city vision" and guiding principle: "integrating arts and culture into the everyday lives of Aucklanders"

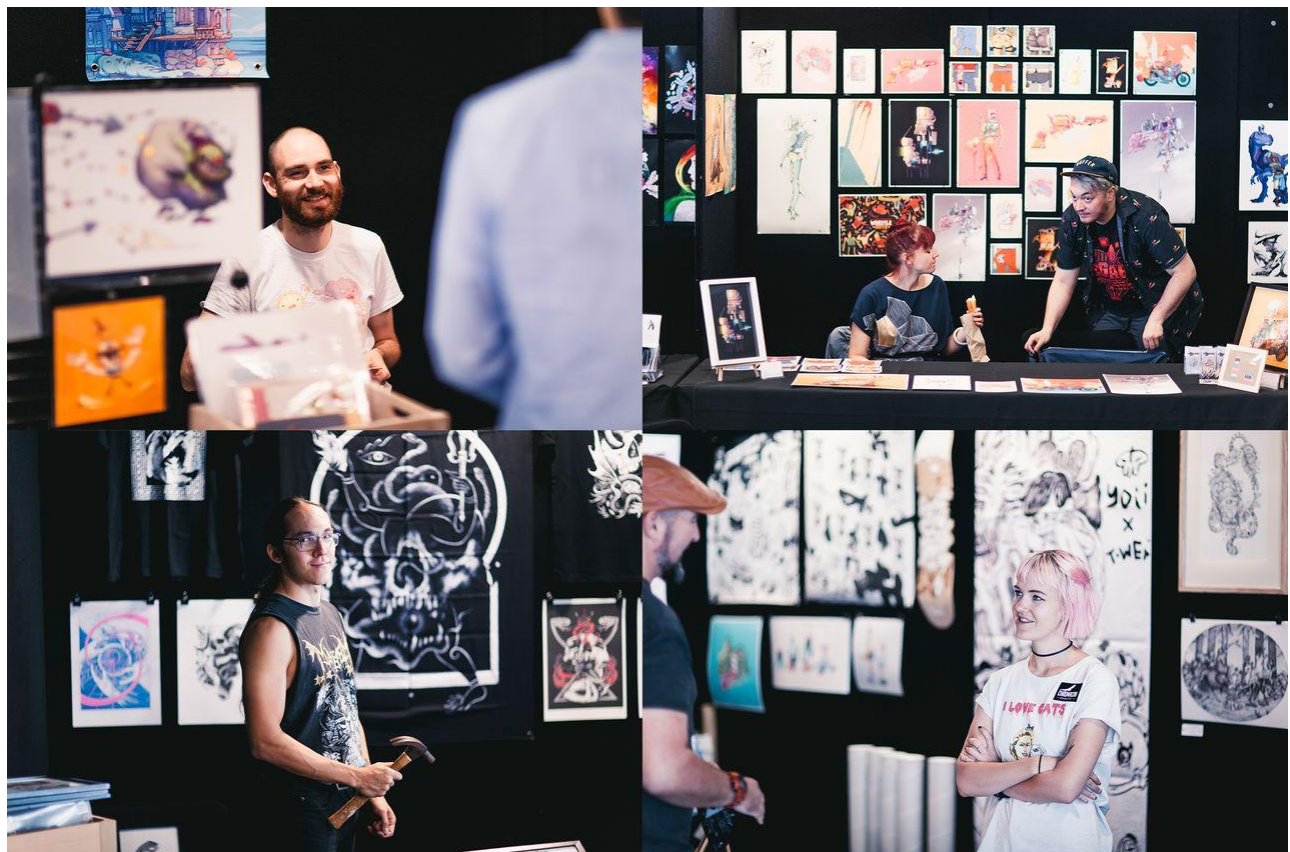

Auckland's arts, culture and creative sector generates **billions in GDP** and employs nearly **50,000 Aucklanders**. The Council's funding for arts and culture is just a tiny proportion of the total council budget but delivers immense impact for Aucklanders.

Events like Chromacon and other festivals bring communities together, attract tourism and make Aucklanders feel proud.

Potential intangible losses:

- Lack of free and fair access to the arts
- Less support for young people, emerging media, technologies, and practices in the creative sector
- Talent drain, less support and pathways for original Intellectual Property
- Less interest from international tourists, industry and cultural exchange opportunities
- Value generated from long-lasting creative practitioners/businesses/original IPs belonging to Auckland

**Culture is ever evolving - it belongs to all Aucklanders - and we all deserve fair access and participation.**

Culture = valued heritage + creativity & innovation

## **What makes Auckland a “City with Culture”?**

Aucklanders should be able to access and celebrate the diversity of our community and homegrown creativity.

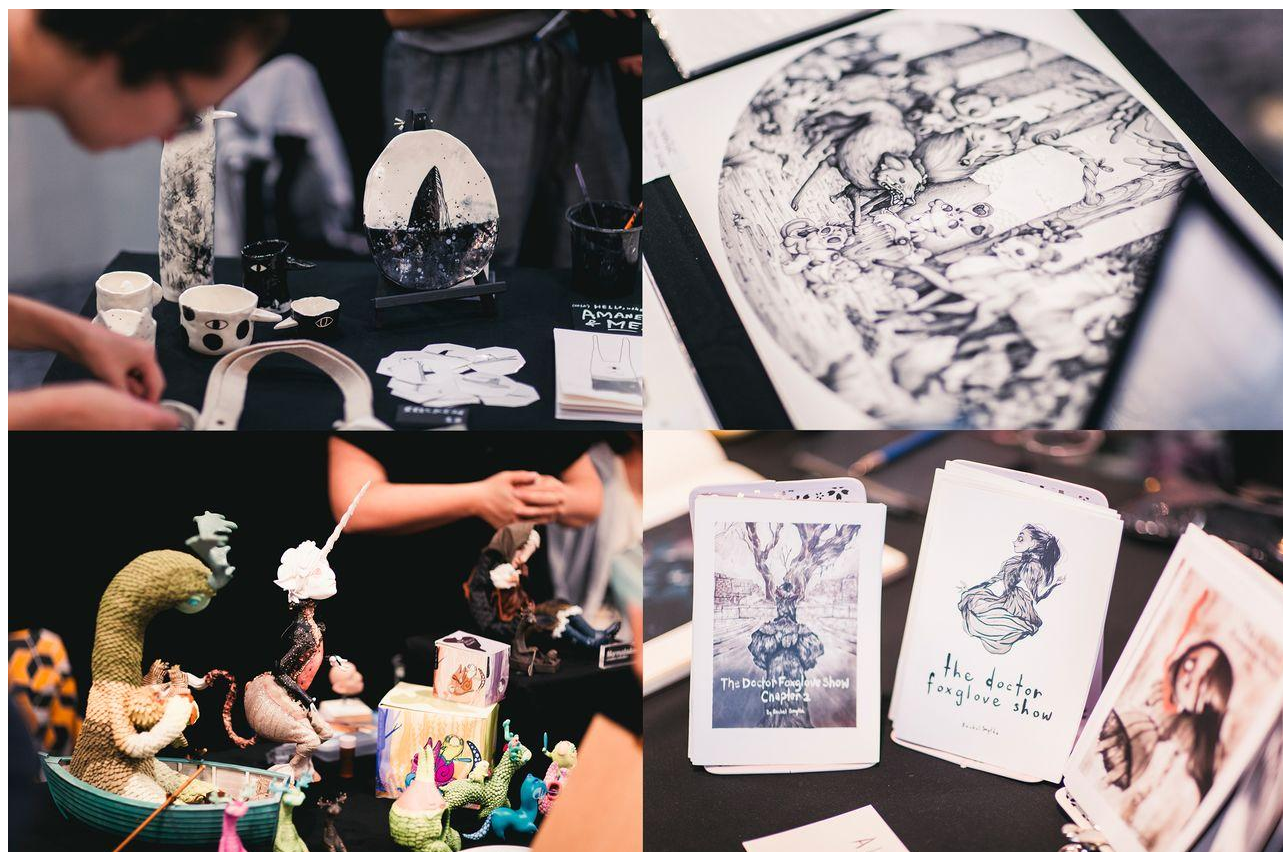

Tall Poppy Syndrome - recognizing achievements only when we are “World-famous in New Zealand”

How do Aucklanders present ourselves and culture to the world?

No matter the age, ethnicity, gender, social and economic background - Aucklanders should ALL be able to articulate in our own way what makes Auckland unique as a “City of Culture”.

This means fair access and to local creative practitioners, diverse cultures and homegrown work across all media - both digitally and in person.

## Please consider:

Every 1% rise in rates brings in \$20 Million of revenue, and would cost the owner of an average value Auckland home an extra 60 cents a week – a bit over \$30 a year. Is saving \$60/year worth the long term damage to Auckland's arts and culture?

Could we consider a small increase in borrowing or asset sale of council's 13 golf courses which incurs \$160 million in losses to run?

***Is it not worth preserving culture of Aotearoa's most diverse city both for the present and the future?***

Thank you for your consideration.

Allan Xia

on half of Chromacon's community of 10,000+ artists and art lovers.

# 22209

# Annual Budget 2023/2024

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

## Submitter details

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any: Last 3 options

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** You are only going to find a buyer overseas. 18% is a good chunk of influence shifted to a private organisation/overseas party. Sell half or less

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:** Your spending on roads and infrastructure is poor. Raising business rates and home rates will just increase costs of business and people already struggling while having no change to our road conditions which require a lot more than \$75m repair work. Stop

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Increase rates by 1% do not by 4.66%.

Fix existing drainage

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community grants, Local community events, Protection and restoration of local waterways

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?**

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Other

**Tell us why, and which reductions you would not proceed with if any:** Auckland Council has a dual role:

1. To provide services to the community whether this be rubbish collection, infrastructure, parks, sporting and community facilities (recreation and leisure centres), swimming pools, libraries, early child hood centres, etc..

2. A Civil Defence Role for the region, and if required support to the other regions in NZ .

For the 2023-2024 Financial Year, my preferred option would be for Auckland City to borrow (as need be) the full \$125 million against Assets.

I would hope that the NZ Government would be in a position to loan the Money, as this would be best solution for the whole of NZ. This would give Auckland City sufficient time to consider the best short (1 to 2 years), medium (1 to 10 years) , long term (10+ years out) strategies in light of recent major major events. This would allow Auckland Council to reflect and make the "right decisions and plans" for the future with a clear "Vision, Objectives and Values" for the people who choose to work and live in this Multi Cultural and Ethnically Diverse Community of citizens.

Auckland City is made up of 13 wards, see map (<https://www.aucklandcouncil.govt.nz/about-auckland-council/how-auckland-council-works/governing-body-wards-committees/wards/Pages/find-your-ward.aspx>). Some wards are very large in area with low population density. While others are small with very high population densities.

Intensification of housing in some areas of the Auckland City needs to be reviewed and maybe stopped.

Auckland City may have to do a "managed withdrawal of houses

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Enable a partial sale of shares, maintaining a minimum 10 per cent shareholding in AIAL (currently reducing our initial interest costs by around \$40 million per year). AIAL should have the option to buy back shares under certain market conditions.

The Au

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** No Rate Increase for the next Financial Year, see Question 1.

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms? Other**

**Tell us why:** See answer to Question 1, that is borrow money against assets for 2023-24.

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

### Franklin Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

Our communities have told us that providing a network of pathways (walkways and cycleways) between and within our local villages and town centres will help locals access services and facilities, and live healthy active lifestyles.

Our budgets cannot deliver a network of this scale without additional funding such as via a targeted rate. To implement a new rate, we would have to investigate further and consult with you again in a future Annual Budget process.

**Do you think we should investigate a local targeted rate to fund a network of pathways across the Franklin Local Board area?**

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

### Ōtara-Papatoetoe Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

Please rank our proposed local board priorities from most to least important to you  
1 = most important, 5 = least important)

Rank	Proposed Priorities
0	Explore initiatives and actions raised through the safety networks to improve safety in our town centres and neighbourhoods
0	Invest in closing the digital divide by supporting community groups to upskill all residents with technology to enable work, schooling, and connection
0	Fund programmes aimed at upskilling our residents, particularly youth, for emerging sectors
0	Continue to improve our sports fields and facilities to encourage active participation and access to sports and athletic activities for organised and informal use
0	Continue to support environmental activities and initiatives, including community-led activities, to respond to climate change, reducing waste and protecting our environment

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

### Papakura Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Want to sustain community activities, funding to zoo, museum etc + community ece. I believe cutting these projects impact people on a lower income and breaks down community.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** The implications of some of the proposals especially environmental cuts will cause longer term problems

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Sports and recreation grants

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

## Submitter details

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Other

**Tell us why, and which reductions you would not proceed with if any:** Proceed with above but ....Keep early childhood funding.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** This is a money pot not to be sold as we ratepayers bought it. !!!!

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** Do not allow houses to be built on cliffs nor in flood valleys or flood plains.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Community facilities and services, Sports and recreation grants

**Tell us why these are most important to you:** It is a local community therefore it is important that these services are provided to keep us mentally and physically fit.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please do not change our labelling or labelling of council departments to Māori. Nor inserting Māori words into any correspondence.

This is a predominantly an English speaking country and Maori labels etc are confusing for the majority of us.

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Art, cultural and historical reductions. We need this to get a sense of belonging, contentment and understanding within our community

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** To be honest I don't really care as this does not affect me or my family or my immediate community

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** Try employing people who know how to handle and manage debt instead of gouging homeowners/ratepayers year after year. Business are more able to sustain increases as they can charge more for their services whereas homeowners, especially those on a fixed in

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** Employ people with skills that can help and benefit the community when disaster strikes. Stop throwing money at the problem, without care, consideration or a definite, sustainable plan

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:** Art, cultural and historical involvement is essential within communities. A sense of belonging to a community and understanding its history and foundations is essential and part of who we are

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Community facilities and services, Arts and culture initiatives

**Tell us why these are most important to you:** They enable us to have a sense of belonging and to feel a genuine connection with our community

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** Introduce user pays and stop charging all for services used by few

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I feel art culture and especially history are very important in our communities. It is interesting and necessary to give residents of communities and visitors knowledge about our communities and how they were formed and how they shaped our lives today.

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:** I don't use any of these things but plse use my rates to fund the zoo

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Need to maintain an interest

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:** Cut spending don't want to pay for ceo wages to high plus others whom take big salary and waste of my rate payers money plus make all pay for rates including state housing charge the government rates on their properties their tenants use council services

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Open space low / no mow areas

**Tell us why these are most important to you:** Maintain parks and council local gardens important plus street lighting fix pot holes don't waste money on stupid stuff like the hump and lights in chapel road and wasteful spending at Kilkenny chapel intersection don't plus studied speed reductions in te

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support

- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Don't reduce the regional funding.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** It's a move from Margaret Thatcher's playbook. Retain the shares and hold them for the future.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Protection and restoration of local waterways, Arts and culture initiatives

**Tell us why these are most important to you:** There's a void of local arts and culture in this ward and what is there needs supporting

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Library opening hours

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Cutting public transport in time of record high fuel prices and congestion is stupid. are you stupid? however you can reduce lines in less frequented destinations and utilise multi modal last kilometres transportation

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** preserve stake in a vital infrastructure asset. you are proposing sacrificing strategic control to cover a shortfall, this is not a jewelry, this is an earning asset

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:** i want a functioning government and im willing to pay for it now, not go in debt for it for future generations to shoulder

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** this should be more money, approx

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

**Tell us why:** cut funding here

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Community facilities and services

**Tell us why these are most important to you:** affects everyone, not a select few

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** increase rate MORE than inflation. council's revenue will not keep up with its costs and that the city's residents will effectively pay less for the services they receive. Increasing rates by more than inflation, which would generate more revenue and refl

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

crime, crack down on crime, we know where they live, so set up camp there. make crime misery

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Less spend on Arts & Culture which offer education and pleasure to many on a budget but still own golf courses that benefit few seems unfair.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Keeping a hand in such an essential service seems wise as well as having investments makes the financial situation more robust long term.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:** There have already been hikes to rates so a middle go\round may save some ratepayers struggling to keep up as income is still not keeping up.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

<b>Waste management rates changes</b>	
---------------------------------------	--

Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?** Better handling of waste - put a division in the bin to handle compostable waste maybe - there is already too much rubbish that could be handled better.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

It seems that the contracting out of services needs to be more closely monitored as services that I have personally observed like a rubbish van that parked outside my business every day, door opened and contractor NEVER actually exited the vehicle or a sp

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Increase cost of living = people cannot afford ECC = less educated people = more crime and even more people who can't afford The cost of living. I didn't think I needed to explain why, but if I have to so the dippy mayor can understand. I tried putting it into plain easy language for him to understand

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** I don't support the budget cut.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Community facilities and services, Arts and culture initiatives

**Tell us why these are most important to you:** These types of priorities bring the community together and really show what a great city we are. If we were to compare ourselves with other big cities of other countries, there is a lack of festivals, markets (and night markets) and cultural sights to do.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Libraries are education like schools and should be open some of the evenings too. No reduction there please

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Council needs the money

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:** Money has to come from somewhere, and inflation is 7%, everyone must pitch in

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** Howick is an old historic village, and I am proud to live here

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental education, Protection and restoration of local waterways, Library opening hours

**Tell us why these are most important to you:** Not enough time now

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

### What is your preference on the proposed operating cost reductions?

**Tell us why, and which reductions you would not proceed with if any:** As a council, you have the role of not only managing the public services and utilities for the city, but also providing the next generation with the best opportunities possible.

I am a current classical voice student at the University of Auckland like my predecessors I have benefited from the previous programs that the Auckland Council has funded and has enabled me to succeed in my career. Now my predecessors have gone on to have worldwide careers and represent New Zealand on the international stage.

Cutting funding to the creative arts as a horrible idea. And in an industry that is inherently less wealthy, Dan, its counterpart of sports high schools, depend on local and national funding to run the creative arts programs. Without this funding. The future generations are locked out of the same opportunities that we have received and the ability to explore all their passions to the fullest extent, New Zealand, as a whole will be missing out on entire generations of future performers, who can showcase our creativity, and experience whanaungatanga on an international platform.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?**

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

## 5. Local Boards

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any: Public transport

We need to get cars off roads

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** We need to not lose all our assets

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:** We need to get our city right there is no decent infrastructure in place our rubbish bins are always spilling out in parks the footpaths are dangerous berms and parks not maintained we need to make our city beautiful again and happy to pay extra to achieve

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** these storms have costs lives people's lives local businesses money and people displaced which will be in millions who care if everyone pays extra 1% in order to keep our drains maintained and unblocked and again maintenance upgrades required .. this lack

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental education, Protection and restoration of local waterways, Local waste minimisation initiatives

Tell us why these are most important to you: I am tired of lack of maintenance and care of our green spaces

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals? No

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Just get our very beautiful again and clean up drains and Bens and parks I have lived in Auckland 63 years and not a city I'm proud of anymore!

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** General rate was increased while property price was high, it should be dropped when property price is lowered.

When will the general rate drop otherwise???

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

<b>Waste management rates changes</b>	
---------------------------------------	--

Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

### What do you think of these proposals?

## 7. What else is important to you?

### Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

## Submitter details

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** The transport - not all people have the ability to get around auckland. The transport is already unreliable as it is, with no other means to

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** Libraries' importance and usefulness is being undermined in the proposal. I believe that knowledge should be easily accessible and by impacting the library, it will affect those that require the services as they do not have it readily available at home.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Library opening hours

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The CAB - please continue this service. A lot of the proposals presented will actually affect lower income Aucklanders and I don't think this was thought of at all.

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. ## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Proceeding with any reductions, to childcare and transport in particular, is a disgustingly short-sighted view. The motorways are choking with 1-person cars as is due to the dismal quality of Auckland's public transport system. With the Eastern line closed until January 2024 (although we can all assume it's going to be longer) I am having to leave my home in Pakuranga and move closer to my workplace in the CBD - a 35 minute commute via the train is now 1 hour 30 if I'm lucky in its absence. A dismal \$1 million in savings by cutting out childcare is again, disgusting. A child's quality of life has been greatly impacted the past 3 years due to limited social contact and time spent with teachers and educators, reducing accessibility to affordable childcare for parents that rely on it will only deepen these impacts.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** Don’t change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Again, selling shares to the Auckland Airport is yet another sign of sheer incompetence and short-sightedness. The main thoroughfare into the country, after 3 years of reduced travel - WHY would you be selling this just as air travel becomes viable again?

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Because our self-designated "expert engineer" buffoon/old coot of a Mayor reckoned that Auckland could withstand that rain in January. Climate change will only exacerbate.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** Why not.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Environmental restoration and pest control, Library opening hours

**Tell us why these are most important to you:** My attempt in trying to cover my bases with just 3 options - reducing library times is ridiculous as they provide "third spaces" which often aren't available to suburban populations. Environmental concerns are a large priority for me. Finally, the suggest

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?** N/A

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The next few years are going to be very bleak if Brown's current tantrum-style, ripshit behaviour is anything to go by.

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Prior to the Auckland Super City, the then Auckland Council sold their Airport shares to pay off debt and keep rates low. That was a failure. Once the assets are gone, there will be no income, and we will be no further ahead.

No asset/shares sales!

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:** The council is not paying off debt. We do not want any more debt.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Reduce spending. Social events such as the queer parade should not receive any funding. If it is that popular, then they will be able to self fund, and no public/council money should be used for this and similar social events. The law requires councils

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** No reduction to public transport at this critical climate moment when we know transport is the number one contributor to carbon emissions. No reduction to community and social services which are already underfunded. Particularly at this critical time where Aucklanders are concerned about impacts of crime and social cohesion work is crucial to wellbeing, belonging and participation - achieving the outcomes stated in the Auckland Plan. Community services have been restructured 4 times in as many years, costing a fortune, including loss of talented, skilled and experienced people and institutional knowledge. These are the teams who have directly enabled community response to COVID lockdowns (for which AC won the best practice award) as well as reach into communities to support flood response. Reduction in funding to Tataki Auckland Unlimited also seems shortsighted as they directly create revenue for Auckland reducing rates by attracting much needed tourism and corporate travel, also helping our workforce shortages. I'd be open to a small reduction for one year, however this would likely mean losing the people who do this work, and as we've seen in other industries following COVID, it's very hard to get them back, and they can't just be brought in from the Phillipines or similar like bus drivers. Same comment for our Community Empowerment specialists who do highly specialised work. I am open to reducing early childcare services as these are well provided for elsewhere, unlike the other services. These specialists are skilled at working across sectors, govt agencies, NGOs, philanthropists and funders to access funds to deliver many initiatives and services. Community education and youth services help reduce costs to council driven by anti-social behaviours such as property damage and

graffiti, education helps with waste management and environmental practice, and climate change education and participation. You can't just Comms your way out of community education and behaviour change.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Strongly disagree with short term view to sell shares in a revenue creating asset which has enabled lower rates for Aucklanders compared to the rest of NZ and will continue to enable this into the future.

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Set a higher rates increase AND make more use of debt. Aucklanders have benefited enormously from rapid growth in house prices and untaxed capital gains which have put billions into the pockets of Aucklanders and the economy. There is plenty of room to

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Albert-Eden Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local community events, Community climate action and sustainability

**Tell us why these are most important to you:** All are critically important, those I would drop (temporarily) parks maintenance, Epsom community centre activities, and raising community leasing charges. consider temporary closure of under-utilised venues. Is there a way to combine volunteering, envi

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** I support all priorities, however if I had to pick one for reduction it would be a deferral on maintenance for one year over cuts to community empowerment, environmental and ecological initiatives and climate action.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Community climate action and sustainability, Community programme delivery

**Tell us why these are most important to you:** Difficult choice as all are incredibly important to a well functioning, inclusive society, community, neighbourhoods etc.

If I had to choose one to drop it would be open space low / no mow areas.

Is there a way to combine volunteering, environmental r

### Maungakiekie-Tāmaki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** Difficult choice as all are incredibly important to a well functioning, inclusive society, community, neighbourhoods etc.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Programming at Te Oro, Oranga and Onehunga Community and Arts Centres, Support and capacity building for community-led activities (Strategic Partnerships Programme), Community climate action and sustainability activities

**Tell us why these are most important to you:** Difficult choice as all are incredibly important to a well functioning, inclusive society, community, neighbourhoods etc.

If I had to choose one to drop it would be mowing service levels.

Is there a way to combine volunteering, environmental restoration

**If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?)** Mowing service levels on reserves, Council-led community programming e.g. Out and About activations in parks, Community leasing charges

**Do you think there are other areas where we could make savings to our local budgets?** Strategic partnerships with other agencies, NGOs, businesses and funders. Could a local business/es support out and about in parks for example?

### Ōrākei Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** All incredibly important initiatives.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community programme delivery, Environmental restoration and pest control, Protection and restoration of local waterways

**Tell us why these are most important to you:** Difficult choice as all are incredibly important to a well functioning, inclusive society, community, neighbourhoods etc.

If I had to choose one to drop it would be mowing service levels.

Is there a way to combine volunteering, environmental restoration

In the Mayoral Proposal, agreed by the Governing Body, the proposed reduction in operating costs would require the Ōrākei Local Board to find \$650,000 in savings in 2023/2024 from a discretionary budget of \$1.4 million. In the time frame available to us this discretionary budget is the only one we can access to make these savings. We have proposed where these savings might come from and how they would effect the activities and services we provide in our supporting information (pages 158-161)

**.What do you think of the savings we've proposed across our activities and services?** Do not support

**Tell us why:** Difficult choice as all are incredibly important to a well functioning, inclusive society, community, neighbourhoods etc.

If I had to choose one to drop it would be mowing service levels.

Is there a way to combine volunteering, environmental restoration

### Puketāpapa Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community development and support, Local community centres, Community climate action and sustainability

**Tell us why these are most important to you:** all are incredibly important to a well functioning, inclusive society, community, neighbourhoods etc.

### Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Community programme delivery e.g. community networks, youth and arts, Community climate action and sustainability e.g. Low Carbon Lifestyles

**Tell us why these are most important to you:** All important but I believe these would have the greatest impact.

**Do you think there are other areas where we could make savings to our local budgets?** Difficult choice as all are incredibly important to a well functioning, inclusive society, community, neighbourhoods etc.

If I had to choose one to drop it would be mowing service levels.

Is there a way to combine volunteering, environmental restoration

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Oppose cuts to community empowerment, innovation and connected communities staff and services.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** you can't be cutting essential public services in a climate emergency

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** I don't know

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?**

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know

Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Reducing regional services.

These are essentials that can't be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will close. Once there is no opportunity for work and artistic expression, artists and arts practitioners have no reason to remain in Auckland. We will become a cultural wasteland!

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Arts and culture initiatives

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Devonport-Takapuna Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental restoration and pest control, Protection and restoration of local waterways, Charges relating to community leases and licences

**Tell us why these are most important to you:**

**If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?)** Local community events, Library opening hours and services, Arts / community programmes and services

#### Henderson-Massey Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Discretionary community grants, Community-led environmental and water quality initiatives, and volunteer activities , Protection and restoration of local waterways, and ecological volunteers in parts

**Tell us why these are most important to you:**

#### Ōtara-Papatoetoe Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

Please rank our proposed local board priorities from most to least important to you  
1 = most important, 5 = least important)

Rank	Proposed Priorities
1	Explore initiatives and actions raised through the safety networks to improve safety in our town centres and neighbourhoods
2	Invest in closing the digital divide by supporting community groups to upskill all residents with technology to enable work, schooling, and connection
4	Fund programmes aimed at upskilling our residents, particularly youth, for emerging sectors
5	Continue to improve our sports fields and facilities to encourage active participation and access to sports and athletic activities for organised and informal use
3	Continue to support environmental activities and initiatives, including community-led activities, to respond to climate change, reducing waste and protecting our environment

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Library opening hours and services, Community lease charges , Protection and restoration of local waterways

**Tell us why these are most important to you:**

#### Papakura Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local economic development initiatives, Environmental restoration, pest control, community climate action and sustainability, Local community grants

**Tell us why these are most important to you:**

### Waitākere Ranges Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, what do you think of our proposed priorities for services and activities in this local board in 2023/2024? I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Climate action and sustainability initiatives, Parks volunteers and restoration of local waterways, Community lease charges

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

I don't know

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** High interest rates are temporary. The airport holds more long term value

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Don't reduce the targeted rates or business rates

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Local waste minimisation initiatives

**Tell us why these are most important to you:** Keeping us safe from environmental impact

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** Stop charging money for poor service. Remove the ridiculous regulations on swimming pool fences.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Build more in central suburbs and provide functional public transport

## Important privacy information

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** If you remove the creative funding you now supply to some very in need communities you are removing hope and further perpetuating the inequities that they face.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental restoration and pest control, Library opening hours, Open space low / no mow areas

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Other

**Tell us why, and which reductions you would not proceed with if any:** I suggest that you look at where you have too many employees in various areas of the council. There are a lot of visionary-type roles that we can just not afford right now.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares? Other**

**Tell us why:** Why sell off all of the assets? Then there will be nothing left!

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt? Other**

**Tell us why:** Increasing rates is going to eventually cause a financial crisis in the city. Businesses will close and people will be forced to sell their houses! Rent and lease costs will increase even further.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms? Other**

**Tell us why:** Climate change is real! We need to be proactive around climate action.

### 5. Local Boards

#### Hibiscus and Bays Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024? Other**

**Tell us why:** Most of these priorities can wait!

Many library services could be automated, and could also be run by volunteers.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community climate action and sustainability, Environmental education, Protection and restoration of local waterways

**Tell us why these are most important to you:** It is important to give value to the natural environment, rather than always prioritising human needs.

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** I support most of these priorities, but I don't see business awards as needed in this financially challenging time.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental education, Protection and restoration of local waterways, Community climate action and sustainability

**Tell us why these are most important to you:** Environmental health and well-being need to have the same priority as human health.

### Rodney Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

**Tell us why:** Where is the environment being prioritised?

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental volunteers in local parks, Ecological restoration programmes, Construction and demolition waste minimisation programme

**Tell us why these are most important to you:** They prioritise health of the natural environment, which in turn will promote human health and well-being.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Other
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Other
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

**What do you think of these proposals?** The focus should be on waste minimisation. Manufacturers and retailers should be made accountable for the volume of non-reuseable and non-recyclable waste that they produce. Many properties don't even have their pools and spa pools legally fenced. Why not

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I recommend that the council consider the budget far more holistically.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Local waste minimisation initiatives, Community facilities and services

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

## Submitter details

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:** It's a tough economy. We have to make hard decisions. Getting out of debt is an absolute priority.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:** Let's get rid of the debt.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:** \$154 should be manageable.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** Additional increase should be limited to those in the flood stricken areas only and those who choose to live there. Why should those not living in such areas have to suffer rates increase?

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	Support

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with childhood reductions

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** We do not want international buyers to get hold of sharings = meaning we loose airport controls. The buisness sector will be booming for airports in the next 5 years due to reduction of covid ; we would not recieve the positives from this happening ; rathe

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** If we put money into better infrasture now it will benefit our future communities. With climate change (rise of water level) on the way , we need to be prepared for worse case scernarios

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental education, Protection and restoration of local waterways, Local waste minimisation initiatives

**Tell us why these are most important to you:** Our environment needs to be prioritized to avoid long term impacts

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Environmental restoration and pest control, Library opening hours

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I understand the need to cut back on spending but after COVID it is important to have connection to place. So much young talent is leaving Auckland already causing a HUGE brain drain. Taking away the GOOD parts of the city: such as community and education programmes, arts and culture programmes, regional events, economic development and community empowerment would be removing the incentives to stay. Auckland is a place for families and young people to thrive because of the Council's focus on youth empowerment. They provide events and skills training, youth councils, and opportunities for youth excellence. Arts and culture events like Pasifika and the Maritime museum/ Zoo are tourist attractions that bring money in and provide a sense of pride to this city. 2 lockdowns have left a large percentage of our community feeling disconnected - now is NOT the time to cut these powerful programmes.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** As an island we need to be better prepared for future events of this nature. More are coming.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** I think major parks and areas that are used often should be taken care of: IE our parks, pools and libraries. The programmes for children are widely used and reduction to the activities would hurt the community. Furthermore, places like Lloyds Elsmere and

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community facilities and services, Arts and culture initiatives, Community programme delivery

**Tell us why these are most important to you:** Community facilities and services are what make a community - they are hubs where people gather, connect and become a community.

Arts and culture initiatives bring people together to celebrate. With so many hard times, and weather disasters these are en

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I believe the Youth Empowerment and Innovation teams are integral to the beauty and draw of Auckland. Do NOT cut these!

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Don't reduce public transport and social services.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Partial sale to reduce debt but not entirely because there should still be a degree of government regulation over private business that is vitally important for Auckland.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?**

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local waste minimisation initiatives, Community facilities and services, Library opening hours

Tell us why these are most important to you:

### Manurewa Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

Tell us why:

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Reduction in service levels for community centres and arts centres (Nathan Homestead), Potential closure of local facilities, Local waste minimisation activities

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41). Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Set a higher general rates increase and make greater use of debt

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Other

**Tell us why:** Set a higher general rates increase and make greater use of debt.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community facilities and services, Library opening hours, Arts and culture initiatives

**Tell us why these are most important to you:** Howick Youth Council, library hours.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?** Continue to support additional public transport operational expenditure. Do not reduce and support quickly implementing CATR as planned with minor adjustments allowed for expected demand change.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I believe we should not proceed with the suggested cuts to contestable grants, the Regional Services budget, local board funding, and to Tātaki Auckland Unlimited.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** I don't know

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:**

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Community climate action and sustainability, Arts and culture initiatives

**Tell us why these are most important to you:** This was difficult to decide as all of these things are important. However, I feel that as a city, our arts events, cultural festivals, theatre, dance, music, comedy and other creative activities are what bring the most life to our city; bringing Auckland

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The arts sector is so often the first on the chopping block for things like this - but the huge proposed cuts in this sector would drastically affect society at large. The arts are what people turn to in their free time, whether they themselves are artist

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Other

**Tell us why, and which reductions you would not proceed with if any:** Auckland Zoo

Is an important place for me to enjoy the animals.

Changes have already been made with the introduction of paid car parking charges which will raise money for costs.

This change already puts pressure on my ability to access the zoo.

I am against reducing council funding and increasing zoo admission prices.

Citizens Advice Bureau

Is an important place to get advice.

They do great help for people who need advice without these services many will be affected.

I am against decreasing council funding or cutting Citizens advice services.

Environmental Education

I think environmental education is important and agree that the Enviro Schools programme should be funded and continued.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?**

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

## 5. Local Boards

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I dont think we have a infratruture and facilities of a world class city.

neither its safe and kids are dropping out of school on an alarming rate.

We definetly need Satdiums, recreational facilities, concert space to generate money, chanalize youth energy and manage Aucklanders wellbeing through events and sports - specially post covid.

Otherwise we will have lesser debt but bigger problems to deal with and people who actually pay taxes and work had might looking at migrating from Auckland to other cities and contries.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Government need to have say and should keep shares otherwise capitalist will control airport and economy.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** Go and IMF for help money if the situation is really bad.

And build economy not just spend money on unfinished project, there should be more accountability and equality when sharing funding and government resources.

It appears in Auckland one ethnic grou

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Local waste minimisation initiatives, Arts and culture initiatives

**Tell us why these are most important to you:** Sports and recreation

Community facilities and services

Environment restoration and pest control

### Maungakiekie-Tāmaki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

**If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?)**

**Do you think there are other areas where we could make savings to our local budgets?**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Safety is the most important question in Auckland at present.

Equality in terms budget allocation to differenet ethenic groups - should be transparent.

Accountability in Auckland Transport and infrastruture projects.

- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:** Stop raising rates - rates has been raising every year and is a compounding raise, it is exponential and is out of control, rates should not be your cash cow.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** No more rates increase, let insurance company deal with aftermath

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I don't know

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** stop raising rates. Charge more for entrance to swimming pools etc, if you want to swim that's on you, don't make others pay for your leisure.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Lower rates, drive out poorer communities out of Auckland.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Other

**Tell us why, and which reductions you would not proceed with if any:** I agree that some services could have funding reduced but as a home owner why are rate payers always in the firing line for increased rates, is that the only way you can raise funds apart from taking on new debt. How about cutting Council staff and wages, or how about senior staffers on over \$150K taking a pay cut?

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:** Ratepayers are constantly having their rates bill increased each year, why don't you cap rates increases (small percentage of actual people who own homes) to fund your debt levels and find new ways to reduce your debt. E.g. lay off staff, cut internal; w

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** Again you are using ratepayers to fund the 20million, what about using public-private partner ships to enable better infrastructure than relying on ratepayers ALL THE TIME

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Protection and restoration of local waterways, Sports and recreation grants

**Tell us why these are most important to you:** Sports and recreation grants - a classic example is Lloyd Elsmore skatepark. For several years East Side Skate have been trying to get funding to get the existing skatepark improved for all wheeled activities, skateboards, scooters, etc. It is currently

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** ECE is the most important area of education and to remove funding from ECE centres is a travesty. Dropping financial support to the arts and culture is to reduce the city to a shell and no culture.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. - Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Reduce debt by looking at improving efficiencies in operating costs at the Council (ie staff numbers have grown rather than declined when Auckland merged to be a super city) as well as overall debt management

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Auckland International Airport is a major entry into NZ and as such it should be an asset that we as NZers should have some control over

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** As so recommend that land subject to flooding have a zoning criteria with requirements on any building structures to be made to future proof from further floods

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** Suggest keep the use of green spaces especially where there is more proposed building of dwellings on land

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental initiative volunteers, Local waste minimisation initiatives, Open space low / no mow areas

**Tell us why these are most important to you:** Some of the above appear to be interchangeable to me, eg environmental education and initiative volunteers could come under the same umbrella, as well as grants for community and sports and recreation.

I took out the local waste minimisation initiatives a

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please look at staff numbers at Auckland Council - it seems that there could be huge savings if there was some sensible restructuring. This is future proofing for sustainability rather than trying to make minor cost savings on cutting community services,

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Keep funding core art as that is my "food for the soul" and/or DEMAND from Creative NZ a more proportionate funding of Auckland. They are just too Wellington centric.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Maintain at least some control otherwise it'll end up in overseas ownership

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:** i can manage that

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Deferred maintenance needs to be attended to now. Stop development in areas with old inadequate infrastructure.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:** Focus has to be on community supporting developments in Ormiston/Flat Bush which has grown massively and has no community facilities at all. The whole focus appears to be on the "old" Howick area and looking inwards only.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community facilities and services, Library opening hours, Arts and culture initiatives

**Tell us why these are most important to you:** They are important in my life now. Rest is just warm fuzzies pampered to.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

1. Develop the Ormiston community facilities promised in the past when the area started being developed.
2. Rename the new Flat Bush area developments as Ormiston which is now far more appropriate. Flat Bush was the older area.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Other

**Tell us why, and which reductions you would not proceed with if any:** Some assets are of prime importance to the City both for its community as well as for visitors, ie Zoo, Motat, Art Galleries. Tourism is a major contributor to the economy and should be fostered. We need to have good facilities to keep visitors coming to Auckland and keeping us comparable to other first world cities. However some areas that are heavily funded ie Tataki Auckland Unlimited could possibly be better spent with less staff but being more productive. Amazing programmes that are free to the community ie kids holiday activities, concerts, movies in parks, recent activities being held at public libraries etc under various names are provided free. More and more seem to be popping up which is fantastic but who is paying for them? Some of these should be user pays - even if it is a minor amount it will add up to help fund these activities. There seem to be a lot of different groups providing these activities - perhaps they could be streamlined. The reduction of regional services such as community and education programmes, arts and culture programmes, regional events, economic development, homelessness funding, community empowerment and funding for youth centres need to be carefully considered and streamlined to be more efficient with healthy outcomes.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** I don't know

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Protection and restoration of local waterways, Arts and culture initiatives

**Tell us why these are most important to you:** Community groups like CAB are essential for our community. Our waterways need to be looked after to protect wildlife and healthy urban aesthetics. Art and culture is important for mental health

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Other
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Re AT. Who is making decisions to spend money on unnecessary traffic measures. Who does due diligence on pricing - some costs seem to be outrageous - are there better, more effective ways to do things? Be more efficient - get the job done quickly while

## Submitter details

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** As a student studying in the city that lives at home in Howick, and stays at my boyfriend's in Mt Albert, I have seen a large extent of Auckland's Public Transport infrastructure. It is extremely lacking in its current state, especially due to the extremely necessary but extremely long closure of the rail network. At the moment buses and ferries are packed and people are left waiting on the side of the road or waiting for more than 30 mins for a bus to not arrive at all. This then affects the congestion throughout the city worsening the commute for everyone in Auckland. Throughout my life I have greatly benefited from the council's arts funding, having participated in countless choir and band events. These have shaped me as a person and I want these to be available for future generations.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** Don’t change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** its a bad time to sell shares as the market is not great, keep it as leverage.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Both raise rates and make greater use of debt. More debt means that we can invest in infrastructure projects that are desperately needed now and future-proof Auckland. An increase in rates has a minimal effect on households but provides a large amount of

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** With climate change already rearing its ugly head and Auckland’s badly aging infrastructure we need more funding allocated to making sure that this doesn’t have an impact on aucklanders as the investment now saves an investment ten times the size after an

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** I feel like the seeking partnerships with the community is a great idea but not necessarily a priority at the moment and could be integrated within some of the other priorities stated. I strongly support the focus on ecological and environmental initiatives

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Library opening hours

**Tell us why these are most important to you:** Climate change is a real threat, and protecting the waterways will minimise the impact of things like storms on Howick residents. I use the library quite a bit and if possible would like it to be open even longer as it is a really nice place to study and

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** Keep the CATR as it is only newly established and the overwhelming public support was not for buses to be reduced. I support more investment in buses, walking and cycleways.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please put more investment into buses, ferries, walking and cycleways as it is the best way to reduce congestion on the road and reduce Auckland's impact on climate change.

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. ## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Other

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Local community events, Community climate action and sustainability

**Tell us why these are most important to you:**

## Ōtara-Papatoetoe Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

### Tell us why:

Please rank our proposed local board priorities from most to least important to you  
1 = most important, 5 = least important)

Rank	Proposed Priorities
1	Explore initiatives and actions raised through the safety networks to improve safety in our town centres and neighbourhoods
3	Invest in closing the digital divide by supporting community groups to upskill all residents with technology to enable work, schooling, and connection
4	Fund programmes aimed at upskilling our residents, particularly youth, for emerging sectors
5	Continue to improve our sports fields and facilities to encourage active participation and access to sports and athletic activities for organised and informal use
2	Continue to support environmental activities and initiatives, including community-led activities, to respond to climate change, reducing waste and protecting our environment

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local grants e.g. Community Grants programme and contestable grants, Community programme delivery e.g. community activations and placemaking, Community climate action and sustainability

### Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

### What do you think of these proposals?

## 7. What else is important to you?

### Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).

- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

### Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. You should familiarise yourself with this policy before submitting this form.

**SUBMISSION TO  
AUCKLAND COUNCIL ANNUAL BUDGET 2023/2024**

**28 March 2023**

**Introduction**

Business East Tamaki Inc is a business improvement district (BID) within the Auckland Region and a manufacturing and distribution hub of some 2,000 businesses strategically located close to the motorway, airport and port, generating: \$3 billion for the New Zealand economy each year; \$19 million in rates, and 30,000 jobs with projected jobs of 45,000 on completion of Highbrook Business Park.

There are currently 50 BIDs in Auckland, with a combined capital value estimated at \$72.7 billion.

Our role in the Auckland economy is to improve the business environment of our areas, promote innovation, prosperity and employment as well as attract new businesses, customers and visitors.

We share this common goal with the Auckland Council group of promoting Auckland's economic prosperity. The Council group play a pivotal role in providing efficient and effective core services for the city. Auckland must continually strive to attract more visitors, and bid competitively to host major events, as well as support economic development activities.

The marketing of "Auckland Inc" firmly sits within the scope of council's core services - no other entity has the resources, nor the single minded focus, to position our brand internationally. Council must continue investing in this important service to support economic development.

Turning to the key themes identified in your Consultation Document, we want to speak about:

- (1) Managing ongoing budget pressures
- (2) Managing rates and debt
- (3) The Storm response
- (4) Changes to other rates and fees and charges,
- (5) Local Board feedback and
- (6) Other matters important to us

**(1) Managing ongoing budget pressures**

We acknowledge that Auckland Council is facing significant budget challenges with a forecast budget shortfall of \$295 million and now also a huge cost blow-out of \$1 billion for the City Rail Link.

- First, we absolutely support Auckland Council holding "tough" talks with the Government to push it to pay more for the City Rail Link. This is a fundamental piece of national infrastructure, a national asset and should always have been fully or mainly funded by Government. Hundreds of millions could be clawed back here by Council.
- In terms of the need for efficiencies and savings, we ask that the detailed review of services across the Auckland Council group be progressed more quickly. We believe there should be a sharp focus on finding savings from the management of contractors and consultants by the Auckland Council group, as we still experience evidence of wastage.
- We support a budget package that sharply reduces Auckland Council's group operating costs.

- We also support prudent borrowing even if it requires more than \$75 million of additional debt.
- As we expressed earlier, we do not support the \$27.5 million funding reductions proposed for Tātaki Auckland Unlimited. Instead, we ask that the budget for marketing Auckland internationally, attracting visitors, bidding for and hosting major events as well as supporting economic development activities be maintained. We also ask that the budget for local board funded events, local economic development and town centre re-generation be maintained. These activities are what makes Auckland a 'vibrant' place in which to live. A harsh austerity budget will be detrimental to the city's recovery from three years of COVID-19 disruptions.

## **(2) Managing rates and debt**

Turning to managing rates, we appreciate that this is important in terms of Council's budget challenge.

However, we do not support pausing the long-term differential strategy.

The intention of the long-term differential strategy is for the share of general rates paid by business properties to be made fairer. However, every time there is a budget challenge, Auckland Council pauses the long-term differential strategy. We are strongly of the view that this is unacceptable.

We do, however, support an increase in general rates no higher than inflation.

We do not support reducing the Natural Environment Targeted Rate and the Water Quality Targeted Rate by around two thirds, particularly so soon after the substantial damage to land and waterways caused by recent flooding.

## **(3) The Storm response**

We agree that the impacts of the recent storm events over Auckland Anniversary weekend and Cyclone Gabrielle have been substantial for Council.

They have also been very serious for many businesses, and many of our business associations have been witness to this devastation.

We have been concerned about the lack of ownership regarding the risks from flooding and all the silos that operate within the Council group, which certainly came to the fore during and following the flooding events.

We find it incredulous that core functions, such as keeping the drains free from blockages or maintaining storm water pipes, fall between several agencies, and sometimes into some kind of void between Auckland Council and Auckland Transport or Waka Kotahi. We understand that the maintenance schedule was reduced to only once annually during 2020, and we all now know that this is hopelessly inadequate, and short-sighted.

This needs your urgent attention. Keeping the drains free and regularly maintained is core business, and the schedule needs to at least double to twice annually.

We agree that the floods and slips mean that urgent repairs and replacements must be carried out ahead of less urgent work.

So, we absolutely agree with increasing operating budgets by around \$20 million to support the repairs and replacements as well as prepare for and respond to future storms and understand that this may raise rates by an additional 1%.

However, we think this funding should be 'ring fenced' for these purposes.

**(4) Changes to other rates and fees and charges**

The Climate Action Targeted Rate was established last year with overwhelming public support. We do not agree with using this fund to reduce costs to Auckland Transport, rather than using it to improve and increase public transport services. We support more investment in public transport, walking and cycling.

We support extension of the food waste collection service across Auckland.

**(5) Local Board Feedback – Howick and Otara-Papatoetoe**

Business East Tamaki strongly opposes the disproportionate allocation of cuts between Auckland Council and Local Boards that would translate to cuts to critical community services being stopped, reduced or required to find alternatives.

A 5 per cent cut to local board budgets translates to the vast majority of local board areas seeing cuts of around 50 per cent to all locally driven initiatives. For the Howick and Otara-Papatoetoe Local Boards this would translate to:

- Howick Local Board needing to reduce its Locally Driven Initiatives budget by approximately **44 per cent** and Otara-Papatoetoe by approximately **60 per cent**

This funding would include community projects that bind our communities together such arts and culture, environment and climate response, library services and opening hours, community programmes, events and youth.

As we saw in the recent flooding, it is many of these organisations attached to these projects and services that stepped in when council could not, providing food, shelter and support. We think that further work needs to be done in terms of cost/benefit before cutting budgets that result in such an extensive reduction in initiatives,

**(6) What else is important to us**

We are now in a climate emergency, evidenced by the damage to land, waterways, property, infrastructure and people across Tāmaki Makaurau this year.

There has never been a more important time to prioritise funding to future-proof our city and build resilience for our land and people. That means prioritising low carbon solutions that put people first. Many low carbon solutions bring economic benefits and help tackle inflation as well as addressing climate change.

We encourage Council to form stronger partnerships with the business community, who are essential investors in the city's infrastructure. Partnerships are essential for success, particularly in times of emergency.

**Conclusions**

As we enter another year where the resilience of small and medium sized businesses will be tested, we ask the Council to carefully consider their needs as it makes decisions about the priorities and proposed savings in the Annual Budget 2023/2024.

We ask that there be a focus on providing those services which grow the economy and support local businesses, especially in our town centres.

We fundamentally believe greater savings can be made with a culture of efficiency being instilled across the council group. Now is the time for the council, and its significant number of employees, to adopt a rate-payer mindset. But council must not lose sight of Auckland's ongoing economic prosperity.

# 23874

# Annual Budget 2023/2024

**Note:** *this version of the feedback form has been created for the purpose of publishing submissions. As such, contact and demographic information has been removed and handwritten submissions have been transcribed.*

## Submitter details

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I strongly disagree with these proposals-

Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million

Reducing our funding to Tātaki Auckland Unlimited to save a further \$27.5 million, with effects on service delivery (including economic development and tourism promotion) and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland

Reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$20 million

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Stop selling off our assets

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** We need this for better infrastructure

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?**

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I am upset about the amount of graffiti that is appearing around the city.

I suggest the council has a graffiti line where people could dob in a graffiti person for a reward of say \$500.00 dollars Then I would get the police to investigate and the culprits

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Keep the arts funding. Reduced arts also means less incentive for the population spending money on tourism and hospitality. The arts are an integral part of the New Zealand way and to lose that would be heartbreaking

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:** Keep funding the arts

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Community facilities and services, Arts and culture initiatives

**Tell us why these are most important to you:** Arts are so important to everyone's way of life whether they realise it or not

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** A city is more than its roads, rubbish and drains. It needs a heart and soul, and that comes from the arts in all its forms and providing opportunities to display the multi cultures that make up our city's population. Art is not a luxury, as many people think – it is a necessity. It documents history, it helps educate people and it stores knowledge for generations to come. Arts activities also bring visitors from out of town, who spend money with local businesses, thus contributing to the city's economy. Restaurants, accommodation, local attractions, transport operators such as ferries, taxis and Ubers, and shops as well as the arts organisations and artists/authors themselves all benefit. Who wants to live in a city devoid of arts and culture? We've been there before, back in the 80s and early 90s. Look how far we've come. Don't go backwards. Please continue to support our arts organisations.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:** I don't think the council needs to hold shares in the airport

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:** The high cost of living is hurting many people who are already unable to make their household budgets work. A higher rate increase will hurt them even more.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** The city isn't adequately prepared for such weather events. How much of the flooding was simply caused by blocked (and antique) drains? This is because there is a lack of proper maintenance. Out of sight, out of mind. And how much was caused by the short-

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** Do not overlook the importance of arts and culture in the Howick Local Board area. We have many different arts groups and ethnic groups in East Auckland. They enrich the community and encourage good cultural relations in a part of Auckland that has a large

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Local community events, Arts and culture initiatives

**Tell us why these are most important to you:** We are well served with community facilities and services, libraries and environmental groups, many run by volunteers. We also have plenty of good parks and open spaces.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?** Encourage people to put out bins only when full. Or have their bins collected only every few weeks. Emptying a bin with one small bag of rubbish in the bottom just adds to climate change.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental restoration and pest control, Open space low / no mow areas, Sports and recreation grants

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I understand the need to reduce unnecessary spending, but the proposal to reduce the budget of Tātaki Auckland Unlimited in my view is short sighted, particularly with respect to economic development. Economic development is critical to maintain Auckland's competitiveness and relevance as a place to do business. The effect of cutting the budget for economic development will be relatively short term, but the long term affects will be felt for a long time.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

<b>Waste management rates changes</b>	
---------------------------------------	--

Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** There are some services that we expect the council to continue providing as they are so important to the community. For example, the early childhood education services. They are really needed and lots of families depend on them. It would be very sad to see the centres where all works for the kids transformed in who knows what. The families trust the teachers, the kids have their friends and are used to the place. All the centres don't have the same philosophy and mission. This is tremendous service to community which cannot be discontinued. We would happily pay an increase on taxes for supporting this service.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Bad return on sales - wait for better valuations

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:** Happy to pay a little more for now to keep essential services running smoothly.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Aotea/Great Barrier Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental restoration and pest control, Protection and restoration of local waterways, Local waste minimisation programmes including construction waste coordination

**Tell us why these are most important to you:** Aotea is a jewel of Hauraki Gulf. The efforts that have already been put into keeping its environment pest free would be wasted with a hold on environmental focused projects.

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental education, Protection and restoration of local waterways, Environmental restoration and pest control

**Tell us why these are most important to you:** The state of our water systems is appalling. Now is not the time to cut funding towards restoration of waterways and pest control! Environmental education is key, I support the green school initiative because children will be left with enough of a mess cr

### Waitākere Ranges Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, what do you think of our proposed priorities for services and activities in this local board in 2023/2024? Other

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental activities e.g. pest control and wildlife protection on west coast beaches, Climate action and sustainability initiatives, Parks volunteers and restoration of local waterways

**Tell us why these are most important to you:** The Waitakere ranges are such an incredible green part of Auckland city. It needs to be protected and looked after.

### Waitematā Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Library opening hours and services, Arts and community centre programmes (at Ellen Melville Centre and Studio One Toi Tū), Local community events e.g. Parnell Festival of Roses

**Tell us why these are most important to you:** The heart of the city should be a center for education, art, festival. A place where communities can meet and

**Do you think there are other areas where we could make savings to our local budgets?** Public transport, there are enough empty buses on the roads.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** You should not reduce regional services. The Arts need to be funded , as this is the heart of the community

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** all for reducing debt

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** cut costs of staff and make people accountable

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Community facilities and services, Sports and recreation grants

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** too much money is currently being spent on proposed climate change action

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Use less Maori language so we all understand what is being said.

Disband TMAO.

Reduce spending on cycleways and speed-calming measures, and restore the speed limit on multilane roads. Traffic needs to keep moving to reduce emissions

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Struggling communities need these to thrive: Reducing regional services, Reducing local board funded activities across all boards to save \$16 million

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Reductions will have a hugely negative impact on already struggling communities

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:** Debt, though undesirable is a necessary loss for our community organisations (especially in vulnerable communities) to still thrive

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Improvements are needed to safeguard us against the threat of flooding in future

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Protection and restoration of local waterways, Environmental initiative volunteers

**Tell us why these are most important to you:** The vulnerable people in our community benefit greatly from these initiatives

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Rates increase of 4-5 % acceptable, but rather than continue borrowing take the knife to all uneconomical spending, (shows donation community services) If it does not cover its cost as a rate payer i do not want to fund it.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** So long as this is what the money is actually spent on (it should have to be ring fenced) so the next council does not blow it back on "nice to have " projects

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** I would not contribute to point three given a choice

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Protection and restoration of local waterways, Community facilities and services

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** I do not want to fund any bus or transport service - I do not see how this is a council issue.

Swimming pool inspections are a joke, the fencing we have has a minimum life installation requirement of 25 years but then you want us to pay to have it inspect

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Continue to cut all services that are not self-funding, or increase the entry / user prices to make them self funding. I will pay for what i want and if i miss out as not enough people in the community agree then that's life, its not for someone else to f

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** None of the areas for cost reduction will improve the city for those who live, work and are engaged in education. The cuts will also impact tourists and those who do business here. For example reducing funding for social services to assist with homelessness impact everybody.

The currently reduced public transport services have created enormous frustration for people and discourage the use of public transport. We need greater investment in public transport and greater reliability. More investment in public transport is crucial as the city starts to grow again post covid-lockdown. We cannot keep building bigger motorways.

Tataki Auckland Unlimited - The city does have an important role in economic development of the region. It doesn't make sense to de-invest in this area.

The investment in our communities through such things as the arts, regional events add vibrancy to our city. I want Auckland to be a live-able city for everyone. To do this we need greater public investment.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Selling the Airport shares is madness to do at this time. The value of the shares will rise post-covid. The airport is a strategic asset for the region. Even a partial sale needs to look at the risks over the long term of this asset being stripped of

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Increase rates above 4.66%, to a figure inline with inflation and borrow to address the covid-period of shortfall and build infrastructure to address climate change.

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** I am not sure whether \$20 million is enough but its a start.

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Library opening hours

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The draft budget is not credible. It is nonsense to talk about an affordable budget when by such severe reductions in expenditure the city will become less livable for many. Cutting back services now will end up turning into long term reduced services.

## Important privacy information

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Continue offering education programmes supported by Libraries, supported recreational opportunities

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Our shareholding is too low to have any impact in the management of the Airport. Clearing debt at this time will allow the Council to redirect future investment.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** Re prioritising spending and focussing on needed outcomes. At the moment there seems to be a lot of waste.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community facilities and services, Library opening hours, Community programme delivery

**Tell us why these are most important to you:** In times of economic downturn it is important to strengthen the community and support education and belonging .

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** The country and this council have been through a challenging 3 year period that has seen significantly reduced income. This is due to change with hall rentals dividends parking fees etc etc now improving. I think it is short sighted to cut the arts, education, regional events, social development and youth centres etc .

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** What an important investment for the city . The capital gain along( Herald March 6 2023) this high-performing asset has tripled in value in the last 10 years.

The council's stake in 2011 to 2018 went from \$632 M to \$1.8 b, a capital gain of

\$1.2 b. An

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:** Increase the debt and keep the dividend producing assets. The council's income is on the rise again and the things will improve. With so much lost income for the past 3 years the books don't look good. The council will be in a better position in a few y

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Would be money well spent

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental education, Environmental restoration and pest control, Arts and culture initiatives

**Tell us why these are most important to you:** I am not happy just to put down 3 when I can see the importance of so many of the others

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Cutting any spending on education is a big, big mistake from any government that aims to improve the way of life of rate payers. PLEASE DO NOT PROCEED WITH THIS PROPOSAL.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?**

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including:	
a) a 10.6 per cent base rate increase,	
b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	
c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	

Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### **Rates**

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### **Debt**

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### **Howick Local Board**

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community facilities and services, Library opening hours, Open space low / no mow areas

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** A council budget isn't the same as a household budget. The potential social harm caused by cutting services, especially over time, would exceed the short term benefit of not paying for those services.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** If the interest cost is serviceable, which it is, it makes financial sense to hold onto the shares for future earnings potential into the future. Interest rates are high now but are likely to drop if a recession hits this year, so the trade off is not ver

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** We need rates increases to pay for services and infrastructure. Rates relief exists for households who may not be able to pay more.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Climate change will only increase the need for functioning infrastructure. It's worth spending the money, to avoid the costs of the next big adverse event/s.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** New lighting is not that important. Cycle ways! Please we need them in Howick!

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterways, Environmental restoration and pest control, Community facilities and services

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with the reduction in regional services, primarily the community, education, arts and culture programmes. These enable the community and future generations to thrive and further raise our community as a whole.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Local community events, Community facilities and services

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** The proposed budget is not consistent with Te Tāruke-ā-Tāwhiri Auckland's Climate Plan nor with Auckland Council's responsibility to address climate change and urgently reduce emissions. Removing funding for the below will cause significant damage to Auckland's fight against climate change and the biodiversity crisis.

I oppose reducing regional services that would impact reducing investment in climate education programmes essential to our city's future resilience, and environmental work crucial to protecting everyone from severe weather impacts – like restoring wetlands, improving stormwater management, and maintaining urban tree cover.

I oppose reducing local board funded activities across all boards. Grants and investment into community services provide great value to Aucklanders. For every dollar that council invests we get back many more volunteer hours. Many boards – such as Hibiscus and Bays Local Board and Māngere-Ōtāhuhu – invest a significant amount into support for local community conservation to protect taonga species (kauri) or landscapes (e.g. Pest Free Hibiscus Coast). Community efforts like these are important for nature and communities.

I oppose reducing regional contestable grants. As above, these provide great value to Aucklanders. Community efforts in active transport, maintaining and enhancing the natural environment, and contributing to a low-carbon economy are highly dependent on the support these grants offer.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** I oppose selling the airport shares. These will start paying dividends again later this year and are appreciating in value. In fact they have tripled in value in the last 10 years. Selling them now will cost us in the long term and is ignoring the value

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** I support an increase of the operating budgets, or 'storm response investment', by around \$20 million each year to improve our ability to prepare for and respond to future storms. This investment must prioritise nature-based solutions, such as the protec

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** I support prioritising initiatives which impact the environment the most. In a time of crisis, like the human body prioritises essential areas in physical trauma, our environment is a fundamental we can't do without protecting.

I support low/no mow areas

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Community climate action and sustainability

**Tell us why these are most important to you:** These are likely to have the most impact on the most people going forward into the future, since without a healthy environment, all other aspects of life are negatively impacted.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Re the Tūpuna Maunga Authority Operational Plan and other Auckland wide plans impacting the environment, mature trees, native or exotic, should be conserved wherever possible, due to the special nature of trees in regulating and mitigating climate change

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, or

Reducing regional contestable grants.

You say you are looking at the services the council provides to the community, and how they are delivered.

Why don't you then prioritise services that provide the most benefit, to the largest number of people?!

I am talking about how much the arts & entertainment sector affect the wider community, versus services like golf courses that only benefit a very few.

The flow on effect from arts funding doesn't just stop with the artists- everyone who visits events also spends money with local businesses.

There are very few things that I think the Australians do better than us here in New Zealand, but this is one of them “the Australian government want to 'put the arts back to where they're meant to be: 'at the heart of our national life'... It really speaks to the idea that Australia values the arts and they see what it does for the economy, culture and social life.”

Why doesn't the Auckland council think the arts are more important to a vibrant economy, culture and social life, than a few golf courses!

I am a business owner & a musician.

I would prefer that the councils money is spent encouraging a lot more people to be engaged in their communities, their lives & the many diverse cultures in our city- rather than subsidising a minor number of peoples entertainment.

I am unable to utilise a golf course, so under user pays- I object to my rates being spent in what I see is a totally illogical, unfair & unbalanced manner.

Look at how many people could benefit from that money & space!

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Other

**Tell us why:** Don't change the policy, keep all our shares & sell a few golf courses instead of increasing rates and/or debt.

You need those shares to generate income!

I thought Wayne Brown was a business man. It does not make good business sense to sell off your

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle)

properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

## Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Increasing rates will negatively affect those people who are struggling financially.

Selling a few golf courses will only affect those people who ARE NOT struggling financially.

This is logical & makes sense.

Selling golf courses will also free up mu

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Other

**Tell us why:** I agree that changes to the infrastructure are required.

Near to me is a new housing development- they have provided sponge areas for water to overflow etc.

We need to do more of this- in existing areas as well.

Otherwise the housing intensification will

## 5. Local Boards

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41). **What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Do not raise the rates or tax or interest at all.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Waitākere Ranges Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, what do you think of our proposed priorities for services and activities in this local board in 2023/2024? I support most priorities

**Tell us why:** I do not agree on Developing a new local board plan in consultation with our communities.

More paperwork, more money spent. We dont need consultants after consultants reports. That is a waste. We need hard physical action!

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Environmental activities e.g. pest control and wildlife protection on west coast beaches, Parks volunteers and restoration of local waterways, Local parks and facilities maintenance

Tell us why these are most important to you: They effect the majority of people, therefore have the majority benefit

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals? If you make rubbish rates higher, more illegal dumping is going to happen

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Submitter details

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Reducing funding to arts and events impacts peoples livelihoods and removes important jobs needed for nurture of youth art and music

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Don't sell our assets

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Arts and culture initiatives, Community programme delivery

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** These services are far too valuable to be cut. Being cheap now only costs more in the long run. The council is not in any kind of crisis with debt. Rates should rise at a minimum in line with inflation to maintain the necessary services, and additional costs of preparing for the future.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Making decisions based on airport income during the pandemic is ignorant of the future earnings after the sector has fully recovered. Selling assets to pay for expenses is an extremely short-sighted viewpoint. Maintaining investment in critical infrastruc

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Just get on with increasing the rates! And use more debt as well if necessary. (Why is this combination not even offered as an option???) Reducing the targeted rates is just a thin veiled attempt to get out of some of the biggest priorities - the environm

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** It is absolutely vital to fix and upgrade our infrastructure appropriately for the climate change effects we are already seeing, and to get ahead of those coming rapidly.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:** The ENTIRE list of activities selected for potential decreases in spending, are the most important items for communities - grants, events, community programmes, arts, culture, parks, community climate action and 3 different environment categories. The onl

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental restoration and pest control, Community facilities and services, Community climate action and sustainability

**Tell us why these are most important to you:** Facilities are the most essential shared goods of society and should be the absolute last item to be reduced. We are long overdue for real climate action, and environmental care.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?** Fees for changing bin size should only be for INCREASING bin size, not for reductions.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I would not proceed by getting the prices up for public transport because everyone has to get to school/work and if you make it more expensive it will be harder for people to get to these places, and it should be affordable as it's a need to go to school and work. Also I think we need more public transport as traffic can be crazy sometimes, so having the likes of trains to get all around Auckland will be a big help to help with traffic. That also means more people will use Public Transport and you'll get money from that too.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?**

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	

c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

### What do you think of these proposals?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** Hopefully there will not be a similar event in the short term, so a sinking fund will not be necessary

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** More information is being provided to Local Board

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Community facilities and services

**Tell us why these are most important to you:** More than 3 of these are important. We will discuss with Local Board

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?** User pays is an important principle

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I would not proceed with a reduction on community services such as the public libraries and others such community and educations programmes, events, economic development and other social services activities.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** I think there should be a partial sale so that some of the shares and equity is kept so that a stake is still held in council hands and shares not being sold to overseas investors.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community facilities and services, Library opening hours, Community climate action and sustainability

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I would not proceed with reducing Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million because we want to encourage public transport and the people using it need to feel good and if it gets run down so will peoples demeanour.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:** The Airport requires massive costly upgrades raising the whole floor level. Some infrastructure should be state owned but airports ain't it. Government will still need to regulate minimal important safety and security operations of the new corporate owner

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:** Better wealth equality and public services balance

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** We are far behind in climate change mitigation especially in roading and coastal erosion and have to catch up.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental education, Protection and restoration of local waterways, Environmental restoration and pest control

**Tell us why these are most important to you:** Our environment is everything.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?** Remove the toll on the Auckland Northern Gateway to encourage Auckland growth northward. A little bit back for the amount you are taking away.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Tax the rich.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Our rates are considered low as compared to other OECD countries, also Auckland also pays lower rates than all other NZ cities. Low rates come at a cost to the public services that we receive and rely on.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Other

**Tell us why:** I suggest selling shares to central government instead of private investors and maintaining a 10% holding. The airport should remain as public asset.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:** I strongly recommend that a robust cost-benefit analysis is undertaken before any budget cuts or rate decreases are implemented. I also suggest unfreezing targeted rates, or reviewing the differential rates policies that were in place prior to 2001. Diffe

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** I support investing in long-term climate resilience rather than reactionary solutions.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I don't know

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with any of these reductions - they're all vital services

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** This is not a good time to sell our shares, the market is at a low point. Also, once gone, they're no longer available to leverage council revenue raising in the future

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Council should set both a higher general rates increase and make greater use of debt

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** It's so important that we invest wisely in storm water infrastructure. The street I live on was flooded for over 24 hours with no car access possible in the latest extreme weather event

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** Safety in my area is very important to me, especially for pedestrians and cyclists. I also want to see improvements to our public transport system, often the number 72X and 70 buses are cancelled or too full to stop for more passengers

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local waste minimisation initiatives, Library opening hours, Community climate action and sustainability

**Tell us why these are most important to you:** I believe that libraries are a particularly important community service and provide excellent educational opportunities

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

**What do you think of these proposals?** I support using the CATR funds to dramatically increase bus and train services as well as safe pedestrian and cyclist access, especially around public transport hubs

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

We need put funding into our general resilience to climate emergencies, this means community services such as libraries and CAB, as well as significantly reducing our emissions to help prevent future climate emergencies

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** The council has a very high credit rating and can afford to borrow any shortfall. Retain all existing services. The rates increase on personal property can be set at a higher rate. Auckland has very cheap rates compared to most other areas in NZ.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** AIAL has a valid reason for not paying dividends in the last three years. Airport closures and restrictions due to the international pandemic over which they had no control. The dividends are a very good return for ratepayers. Why sell the golden goose wh

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** Auckland Council has a very good rating and can afford to borrow the \$125 m shortfall. It can also increase the rates.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Needs to be done. The Council is responsible for managing high water flows as best as they can and simple things should be done quickly.

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

<b>Waste management rates changes</b>	
---------------------------------------	--

Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I am a physically disabled person who has fought for 6 long years against the system to get my bachelors in health science so I could work a job that doesn't further disable me. Now that I am finally here I still require access to public transport to get to and from work, but the closest bus stop has reduced available hours & frequency of busses to the point that it takes me 3+ hours to get to work now, including 30 minutes of walking on a crutch in the elements. Please, I am begging you, do not cut the transport, take the debt, I already leave home before 6 & get to work just shy of 9 when it would take 45 minutes if I had a car. I spend 1.5K a year on AT transport fees already just going to and from work and if you continue to defund ATHOP it would put personal physical, mental & financial strain on me and my career prospects.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** Don’t change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Henderson-Massey Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Discretionary community grants, Programmes and activations in community facilities, Protection and restoration of local waterways, and ecological volunteers in parts

**Tell us why these are most important to you:** If you don't protect the whenua you will kill us all.

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Community climate action and sustainability

**Tell us why these are most important to you:**

#### Māngere-Ōtāhuhu Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

Please rank our proposed local board priorities from most to least important to you:

Rank	Proposed Priorities
3	Investing in initiatives to reduce the impact of climate change, including tree planting, education programmes and environmental volunteers
2	Continue to provide residents with better quality facilities, parks and open spaces
1	Promoting activities to showcase our local arts and culture talent into career pathways
4	Continue to identify procurement, quality employment and social enterprise opportunities for our residents
5	Improving the well-being of our locals by supporting our local economy to become more efficient, resilient, and sustainable through our reduced budget

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Community programme delivery e.g. community activations and placemaking, Youth programmes

**Tell us why these are most important to you:**

**How do you think we could support our communities to be better prepared and resilient to extreme weather events like the recent Auckland storm?** Give the land back

#### Manurewa Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community programme delivery, Youth programmes, Protection and restoration of local waterways, environmental education, community climate action and sustainability

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

1) Reduced AT services

PT use has returned to pre-Covid levels and bus services need to be returned to previous levels - to encourage existing users to remain with Public Transport, and persuade new users.

Efficient, regular and reliable Public Transport is the only way Auckland can operate. Car use must reduce

2) Reduction to CAB funding.

This provides a critical service for Aucklanders.

3) Closing libraries on some days.

Libraries need to be accessible 7 days a week.

4) Reducing funding for environmental planting and pest control. Regeneration of native forest and pest control cannot be deferred.

## 5) Reducing some Arts funding

Arts funding should be funded on a participation/benefit scale. i.e. projects that deliver benefit to a wide or sizeable specific population should take priority over those projects that do not benefit as big a group

## 6) Reducing funding for initiatives for homeless, youth

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Rates provide excellent value for money and are not a significant household cost when compared to others

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Some of the flood control/infrastructure problems are the result of keeping rates to the minimum in the past.

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Library opening hours

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** I view Auckland Airport as an asset Auckland council should retain. I think it still holds beneficial value in the form of on-going dividends and strategic land value that would be lost with a sale.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?**

Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental education, Community facilities and services, Community climate action and sustainability

**Tell us why these are most important to you:** We should maintain sustainability

## Ōtara-Papatoetoe Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** Other options are not priorities.

Please rank our proposed local board priorities from most to least important to you  
1 = most important, 5 = least important)

Rank	Proposed Priorities
1	Explore initiatives and actions raised through the safety networks to improve safety in our town centres and neighbourhoods
5	Invest in closing the digital divide by supporting community groups to upskill all residents with technology to enable work, schooling, and connection
4	Fund programmes aimed at upskilling our residents, particularly youth, for emerging sectors
3	Continue to improve our sports fields and facilities to encourage active participation and access to sports and athletic activities for organised and informal use
2	Continue to support environmental activities and initiatives, including community-led activities, to respond to climate change, reducing waste and protecting our environment

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local events e.g. Movies in Parks, ANZAC and local civic events, Community programme delivery e.g. community activations and placemaking, Parks activations and programmes

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Reducing educational services such as Kauri Kids. This is such a valuable service to so many families and would have a huge detrimental impact on children who have been there for years and would otherwise stay there until starting school. We would be willing to pay increased fees if needed to help support the center staying open and manage budget pressures.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental education, Community facilities and services, Sports and recreation grants

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Reducing the number of public transport services is NOT okay. Traffic congestion into the Auckland CBD is terrible at best, and what is the pay off of spending billions of dollars into expanding public transport routes and maintaining rail lines if there will be no services running on them?

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local waste minimisation initiatives, Community facilities and services, Library opening hours

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tātaki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I do not agree with reducing our funding to Tātaki Auckland Unlimited since tourism is one of our key industries in NZ. I disagree with reducing regional services and local board funded activities since it builds social cohesion and learning within a community builds strength and resilience to its members. I also do not agree with maintaining the currently reduced number of public transport services as more and more people will begin to rely on this method of transport as we return to pre-covid ways of working/studying in person.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** I disagree with proceeding with the proposal to enable the sale of all our shares in AIAL since it creates private monopolies, and the profit motive shouldn't be the primary objective for an airport.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Extreme weather events are more likely to be occurring due to climate change, and it would be better to prepare for these ahead of time.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** I think all of these priorities are important for ensuring our local board area continues to flourish.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Community climate action and sustainability

**Tell us why these are most important to you:** These things improve our quality of life, protect our ecosystem and preserve natural resources for future generations.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing regional contestable grants.

Reducing regional services,

Reducing local board funded activities

Reducing funding to Tātaki Auckland Unlimited

I work in the arts and education sectors, both of which depend on council support. The cuts proposed will create a deadening effect on arts and culture in our city at a time when we need that vibrancy the most. Auckland needs more investment in becoming a bustling metropolitan city with large and small events happening all over the motu - it could be a key factor in fighting the possible cycle of economic depression that leaves restaurants, cbd areas, public spaces increasingly empty and bare.

Cut this funding at our peril - we need the arts and events sectors to be resilient to economic downturn or they will dwindle and we will all be poorer for it. Most people in these spaces are operating outside of a profit-making paradigm anyway - they are working to make an honest living while creating work for our whole city to enjoy. Because of this, the

work might seem inessential and first in line to be defunded, but in dark economic times we need spaces for expression and community cohesion more than ever.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Local waste minimisation initiatives, Arts and culture initiatives

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?**

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:** These savings will cut out waste

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Airport provides free cash flow--selling may mean purchase by unfriendly off shore owner.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Common sense

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental restoration and pest control, Library opening hours, Sports and recreation grants

**Tell us why these are most important to you:** Sports improve the health of the population.

The Library supports education

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please heavily reduce ATEED spending.--No more table top speed bumps, reduce bike lane spending cater for better roads for cars with roadside parking.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

As an upcoming performing artist, this news is heartbreaking to know that my chances of building a successful career in Auckland are becoming smaller.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?**

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

Tell us why:

## 5. Local Boards

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

What do you think of these proposals?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I don't understand sticking with reduced public transport when the messaging we are bombarded with is to get people using public transport. People are not going to use public transport if the service is rubbish and doesn't take them where they want to go when they want to. I'm also concerned about proposed cuts to funding arts, culture, community education and especially the Citizens Advice Bureau service which helps and advocates for so many people who either have nowhere else to go or cannot afford to pay for services.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Selling when shares are down and very likely to recover in the longer term seems very short sighted

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Evidence from January is that we need to be better prepared

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Protection and restoration of local waterways, Open space low / no mow areas

**Tell us why these are most important to you:** The events are fantastic for bringing our community together. Low mow initiatives are great for the environment and presumably reduce park maintenance costs. Water quality is very important to me and efforts to improve it should not be compromised.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Please do not defund arts and events. There are so many amazing talented artists in Auckland. It is recognised as a UNESCO city of music. I started my job as a full time music producer by attending a council funded workshop. It supported me to get to where I am today. Our city will be miserable if it loses or even decreases arts funding. If anything we need more

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** All of the services listed are absolutely essential to our community, and in many cases already suffering severely even under current conditions. Further cuts would be a big step toward making Auckland just about uninhabitable by reducing resources for vulnerable people, increasing social isolation and fostering an environment for even further discontent and anti-social behaviour.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** Our city is not a business and does not need to be run like one

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community facilities and services, Library opening hours, Arts and culture initiatives

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

Tell us why:

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

Tell us why:

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

Tell us why:

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

Tell us why:

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental education, Library opening hours, Arts and culture initiatives

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

I don't know

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** I don't know

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Please, do not increase the rates anymore. They are so high already. Thanks. They are quite unaffordable.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Please do not make cuts to funding libraries or CABs, as they provide necessary services to many, and particularly to our more vulnerable and underprivileged communities. Maybe sell some golf courses instead?

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Because fully privatising always comes with huge risk, and long term, we have lost quality of service when this has happened in the past

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** I would rather pay a bit more in rates than see reductions in services like libraries and CABs. Libraries CANNOT be run by volunteers, it is a truly ludicrous idea, that only someone who hasn't used a library in the last 10 years could make.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Climate change is here, and we need to be preparing for it.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community facilities and services, Library opening hours, Arts and culture initiatives

**Tell us why these are most important to you:** Because they are used by those in the community who truly need them, for example the elderly

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?** NA

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please leave our libraries and CABs alone, they are crucial services for many.

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. - Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Local community events, Library opening hours

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I actually think it is despicable to reduce funding for climate change solutions when we are in the middle of a climate emergency. It is extremely short-sighted. I think it is unacceptable for the council to be reducing funding for public transport in particular, when scientists have been saying for decades that we need to reduce our reliance on fossil fuels in order to have a liveable future. I am thankful that my primary bus route has busses that generally come regularly and on time; however busses on less busy routes are terrible, and I find myself waiting at bus stops for half an hour to an hour before giving up and buying an uber. As a university student who relies on public transport to receive my education I don't believe that defunding busses is acceptable. This will be especially difficult for poorer families where busses are their only feasible means of transport.

Defunding other climate initiatives like community gardens, and cycling and walking programmes are also going to cause a lot of harm. Food prices are only going to keep getting higher as crops are destroyed by natural disasters that are exacerbated by climate change - community gardens are extremely important for maintaining community wellbeing and building climate resilience.

Reducing operating hours at the library is something I also do not agree with. Libraries are one of the few places where people can learn and relax without having to partake in consumerism. They are important places for people to learn,

have fun, and be safe. They are a place where people can access so many resources that are needed, such as the internet and computers. A city that reduces the operating hours of their libraries is a failing city in my opinion.

The mark of a thriving city is how well they treat their most vulnerable people. I believe that the defunding of support for homeless people is also particularly terrible. These are people who need community support, and frankly I struggle to find words to explain why it is vital that their support is not cut.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** While from a moral standpoint I don't believe that Auckland Council should be investing in Auckland Airport because of the destruction that frequent flying has on the environment, I don't think this should be sold while the market is at a low point. I do

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Cuts to services are far from an inevitability; they're irresponsible in the midst of a climate and inequality crisis. Reducing the Water Quality and Natural Environment Targeted Rates by two-thirds is especially irresponsible in the wake of substantial d

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** The council needs to be investing in proper infrastructure to protect us against storms. I was lucky enough not to be severely impacted by the flooding; however my dad witnessed his neighbour's house fall down a cliff due to the disaster. The council need

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** The council should be investing in people and the environment, I don't see why funding business awards is necessary.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Community climate action and sustainability

**Tell us why these are most important to you:** Climate action will ensure that we have a liveable future, I feel like that's the bare minimum the council could support.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** I don't agree with the changes to the CATR. I support more investment in buses, walking and cycleways.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

### Important privacy information

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I do not support cuts to public transport and arts funding.

In a time of climate crisis, and with car emissions among Auckland's highest contributors to greenhouse gases, making public transport less attractive is illogical. For anyone who actually uses public transport, one of the biggest frustrations is wait times between services. I have to take multiple buses or trains every time I use public transport, and the greatest encouragement for me to continue to do so is knowing that I will not have to wait more than 10 minutes between services. In the past, I would often choose to take my car rather than public transport because of the poor timetable at the times I was travelling.

And I oppose cuts to any arts funding. This city has taken decades to build up a vibrant arts scene, but it is still not strong enough to cope with the enormous cuts proposed. If they are enacted, the whole scene/community will suffer, which may lead to many highly skilled practitioner leaving the creative arts professions. The proposed cuts make the arts, yet again, seem a "nice to have". Anyone with any experience realizes they are a vital part of the living culture of a city

Mayor Brown has frequently referred these cuts as "everyone taking a haircut". Axing 1,000 bus services is not a haircut. \$36 million away from arts funding is not a haircut. These are amputations.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:** I cannot support most of these statements as they are, in general, very vague in actually specifying where spending will be prioritised. For example, what exactly does "support community empowerment" mean? Does this mean prioritising funding for education

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Arts and culture initiatives

**Tell us why these are most important to you:** I have chosen these three as I think they are what the local board can do best, and which have the worst long-term outcomes for funding cuts. Natural environments will not remain as they are without active restoration, and the community arts involvement t

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the

Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

## Submitter details

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Community climate action and sustainability

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Council has a high credit rating and can afford to pay for the budget with borrowed monies as well as increasing the personal household rates

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Keep all the shares. Good dividends will continue once airport operations return to normal as well as future capital gains. Don't kill the goose who lays the golden egg. all major cities in NZ have stakes in their airports. this monopoly asset has triple

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** Increase both rates and debt.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Needs to happen. Focus on the easy solutions first.

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Keep the libraries open with skilled paid teams.

Run youth and social programmes

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Libraries, Arts and culture are vital to the wellbeing of the people. The city is it's people. Affordable services such as these are necessary as many people cannot afford private provider services, buying books, music and theatre that is not supported by council. Small community arts groups will not survive without the support from council.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:** The council doesn't need to own the Airport shares, but it should only be sold to a New Zealand buyers

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** The present conditions are woefully inadequate

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Do not support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Keep family friendly places as this contributes to wellbeing and resilience.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** We pay enough for rates now

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Local waste minimisation initiatives, Community facilities and services

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Submitter details

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Other

**Tell us why:** Don't sell shares, instead increase rates and debt combined

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Local waste minimisation initiatives, Community climate action and sustainability

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

**What do you think of these proposals?** Increase bus services and cycle and pedestrian shared pathways to make walking and cycling a safe and pleasant option that more people will use

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I'm concerned that we're not doing enough to reduce our emissions, climate change is the biggest and most important challenge we're facing, followed by a health crisis due to lack of exercise, unhealthy eating and other lifestyle choices. It makes perfect

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Community related funding is vital to continue if not improved.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** It's like selling the gold egg laying goose. Not a good idea at all.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:** Council can afford to get more debt while doing all these infrastructure projects.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** It makes sense to increase to handle further climate effects.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** Something more specific for youth related will be good to add.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local waste minimisation initiatives, Community facilities and services, Community programme delivery

**Tell us why these are most important to you:** All are important, but community related are important.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Wish there were more time and explanation of the impacts of this significant budget proposal.

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Other

**Tell us why, and which reductions you would not proceed with if any:** Do not reduce regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres and don't reduce early childhood educations- These are important for the community especially youth and little children. Young people need to have programmes to keep them educated, occupied so that they don't turn to crime.

Instead you should increase rental or membership for Golf course. Only the rich can afford to play Golf and they should have money to pay for increase fees to use the golf course.

You can put a toll on cars going into the city and provide more frequency public transport. This will help reduce congestion, pollution.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** AIA shares are good long term investment.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** You need to ask expert from other countries e.g. Singapore to come and help design the infrastructure so as to prevent future flooding. Prevention is important - think long term and get experts in. Don't waste money in consultation all the time. Look

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I don't know

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Protection and restoration of local waterways, Community climate action and sustainability

**Tell us why these are most important to you:** important to look after the environment and support local charities/organisation.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Auckland's rates are already relatively low. The proposed cuts included important community services that are well worth the expense.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Auckland Airport is an important long term economic and strategic asset. Auckland council should be seeking to increase their shareholding.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:** 'Wasteful' spending should be reduced if possible, but I have no objection to raising rates if that is required to maintain existing services.

Any proposed cuts should undergo a thorough cost-benefit analysis.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** It is essential to invest heavily in future climate preparedness. Spending now to prepare our infrastructure and communities for the oncoming effects of climate change will save magnitudes more in cleanup and rebuilding efforts.

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Council should both set a higher general rates increase and make greater use of debt.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Community climate action and sustainability

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** Support more investment in buses,

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. ### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** 'Please do not reduce the funding for:

- Public Transport, because you need to help Aucklanders get moving more quickly, and the most efficient way ought to be by public transport.
- Auckland Zoo, because young people need to learn about animals and their care.
- Venues, because people need to socialise and learn together as a community.
- Youth Centres, because young people need to have somewhere safe to go to get together, play sport, learn, socialise, and STAY OUT of TROUBLE.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Keep all our Auckland Airport Shares, because we should keep our assets. We should NOT SELL any of the shares, because we need Auckland to be run by Aucklanders and not other disinterested parties who are probably mostly interested in the money.

It is

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Higher general rates increase helps to spread the load, and it is fairer to spread the load.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** We have to make long term decisions about what's sensible in the circumstances.

We should never have allowed Houses to be built on a Flood plain.

We should NEVER SELL QUALITY FOOD-GROWING LAND FOR HOUSING (such as Pukekohe).

Two big mistakes.

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** I support priorities for increased Safety in a sensible manner; Community Empowerment; Maintenance of assets.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local waste minimisation initiatives, Community facilities and services, Library opening hours

**Tell us why these are most important to you:** Education; safety; education.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** I hope you are reading all our opinions and submissions.

You haven't achieved the cost savings promised when combining the five cities.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

1.) I feel a straight percentage cut to EVERYTHING might be the fairest overall.

2.) SALARIES for most Auckland COUNCIL STAFF should be REDUCED- especially those who receive over \$120,000 per annum.

## Important privacy information

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$20 million

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community facilities and services, Community climate action and sustainability, Arts and culture initiatives

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Local waste minimisation initiatives, Library opening hours

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### **Rates**

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### **Debt**

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Library opening hours, Arts and culture initiatives

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I think a reduction can be done but by closing down services that don't have much engagement ie Reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$20 million

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:** The debt appears to be quite high and with rates increases alone will unlikely get to a level that this could reduce the debt too.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Arts and culture initiatives

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Reducing funding to Tataki Auckland Unlinites, Reducing regional services, reducing local board-funded activities and reducing regional contestable gains.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, well-being and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability of our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Environmental initiative volunteers, Arts and culture initiatives

**Tell us why these are most important to you:** We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feel.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Do not proceed with:

Reducing regional contestable grants.

Reducing regional services,

Reducing local board-funded activities

Reducing funding to Tātaki Auckland Unlimited

These proposed cuts, which while small in terms of the Council's overall b

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I understand there needs to be cuts but I think better to reduce some funding to programs then to eliminate.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Once you sell your shares you cannot get them back. We have lost money at Airport due to the pandemic, so what happens when our tourism resumes and we then take a further loss?

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:** If too high of rates for residential and business our set I think we will see a more closures of businesses due to landlords raising rents.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Manurewa Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:** I know that once you take things away from communities they never come back and this will then create a greater break down in a healthy community. As there will be a shortage of resources for some of the folks that need them the most.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Reduction in service levels for community centres and arts centres (Nathan Homestead), Potential closure of local facilities, Youth programmes

**Tell us why these are most important to you:** Community and getting our youth to be engaged.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Why are you not looking at some of the other assets that the council earns money from such as the golf courses? What about cuts in pay from Councillors?

If you are planning on taking away from communities I believe you should also be taking away from your

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and	Do not support

c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals? .

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Tātaki Auckland Unlimited funding can be decreased and ask central government funding for overall tourism. Some libraries can and should be consolidated.

Council should not be involved with ECE.

CAB funding should be remained and I agree with increasing rates.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Auckland Airport is a strategic holding and should be not sold to reducing the debt in a one-off fashion. The long term return by dividend and the voting share on such important infrastructure is far more important. I agree with increase rates.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Try not to raise debt, the general rates has not been kept up with times and the "real" rate vs the housing value has been fallen over the past decade. I support increasing rates.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Environmental restoration and pest control, Sports and recreation grants

**Tell us why these are most important to you:** Consider combining some of the libraries that are close to each other.

e.g. Grey Lynn, Ponsonby, Pt Chev

Pakuranga, Howick, Botany

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** 'I would not proceed with reducing funding for

- Tataki Auckland Unlimited \$27.5m
- Community & education programmes \$20m
- Child hood education services \$1m

I would prefer we went into more debt.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:** We receive no benefit as we are not a big enough voting block at 18% ownership as explained in your consultation documents. We can control what Auckland Airport does with our council regulations as to building consents etc.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** I wanted to say yes to proceed with the proposed increase to rates(I would be ok to pay \$154 a year extra) as well as making greater use of debt.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**Prefer to go into greater debt

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** I think in light of recent storms we should concentrate on stream restoration, maintenance of existing assets and safety in public places. Forget about community empowerment and partnerships with the community until a later date.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Community facilities and services

**Tell us why these are most important to you:** Looking after our environment is important. We can see what has happened here in Auckland when we don't. I will be sad to see a reduction in the arts, libraries and community programmes but this will only be in the short term.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** You can raise money via alternative methods to what has been proposed.

You are at 250% of annual Income and are allowed to 290% so more money can be raised via debt in the short term and without impacting the cities status.

Cutting services and activities reduces the cities attractiveness to tourists and lessens the number of people at a whole variety of venues across auckland reducing the take by the businesses close to these Activities.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** We sell now we lose for all time. Short term thinking for short term gain that can never be got back. There is huge advantages that accrue to keeping a central transport hub like the airport and surrounding land and commercial business. We need to keep th

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Setting higher general rates will ensure a greater revenue stream and have the least affect on ratepayers particularly if you don't stop more targeted rates like water and the natural environment. when we need all the infrastructural water money we can g

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local waste minimisation initiatives, Community facilities and services, Arts and culture initiatives

**Tell us why these are most important to you:** These add to my culture and my enjoyment of my area and my home

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Support systems around Auckland like Visionwest which helps hugely the people of the west is only supporting our fellow aucklanders who are struggling in this current climate of increasing tax, housing and food prices. These organisations need the help th

## A Better Budget for Tāmaki Makaurau Auckland

The Council – led by Mayor Wayne Brown – has put forward a 2023-2024 draft budget for public consultation. The Council says a \$295m financial hole needs to be filled. It proposes: general spending cuts, selling the Council's shares in Auckland International Airport, an average 4.66% rates increase, up to \$75 million in borrowing.

### How did we get here?

The Council proposal says the financial pressures come from an expansion in services and assets that has brought higher maintenance costs, worsened by high interest rates and inflation. Cyclone Gabrielle and recent flooding events have added further financial strain.

Recent years have seen increased inflation and interest rates. **But some of the pressures on Council are temporary and others have been overstated.** A major reason for revenue being lower than it otherwise would be is COVID-19, a pandemic experienced by thousands of councils and governments worldwide. Non-rates revenue has remained steady, as the table on the left shows. Revenue from Council venues, services, and public transport is likely to grow over time as Auckland recovers from COVID-19.

2018	\$2,836
2019	\$3,089
2020	\$3,291
2021	\$3,339
2022	\$3,554

Non-Rates Revenue (\$m)  
Source: Auckland Council Financial statements  
2021/2022, 2020/2021, 2018/2019

Interest rates are projected to fall over time,<sup>1</sup> and Council acknowledges that 80-100% of its borrowing is at fixed rates – which means only a small part of its borrowing is affected by short-term increases in interest rates.<sup>2</sup> The budget was prepared before floods and Cyclone Gabrielle; these events will require reconstruction, but central government has partnered for that.

**“Signs that inflation will ease meaningfully over 2023 are becoming increasing clear.”<sup>3</sup>**

Auckland Council is not facing a debt crisis: Auckland's debt is at 250% of its revenue, well below the 290% debt ceiling. Total debt as a ratio to revenue has been relatively stable (see graph on the right). The cost of servicing interest increased in 2022 as a proportion of total revenues, but the overall trend is declining.

### Why can we do better?

**The proposed cuts will have irreversible long-term impacts.**

The axing of operational spending could mean a permanent end to the services and institutions that help to make Auckland a community.

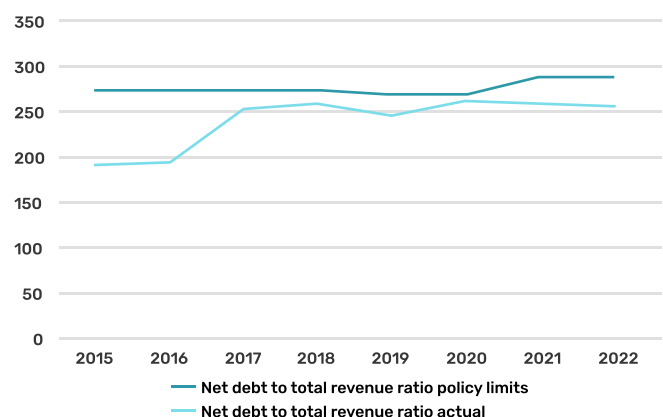

The cuts could affect – among other things – cultural events, library services (including services that support community safety), Māori and Pasifika employment (through reduced support of The Southern Initiative and The Western Initiative), Early Childhood Education services, and organisations like the Citizens Advice Bureau that allow people to access their minimum legal rights. Events and organisations may disappear due to the cuts.

**Selling the airport shares does not add up.** The loss of the 18% shareholding in Auckland International Airport would make the city permanently poorer and would remove people's level of control over a strategic asset. The Council proposal does not consider the loss of a stake in the airport's extensive landholding. It will be very difficult to return the land and future value of the shares to the public once these shares are sold. This has implications for:

1. **Māori land interests: the Waitangi Tribunal cannot recommend return of private land, so airport land will be permanently alienated from Māori.**
2. **Future climate and other emergencies: we need coordinated transport hubs, which is harder when airports are privatised.**

**Our communities are more important than ever.** Cyclone Gabrielle and the recent floods show that community organisations (such as Visionwest Community Trust, which will be affected by the cuts) are essential as a source of food, shelter, and social support in times of emergency. These organisations make a community resilient. Eliminating these organisations makes individuals and communities more vulnerable and precarious.

### Net debt to total revenue

Source: Auckland Council annual reports for 2018/19 and 2020/21

[2] Council Budget consultation document, online at <https://www.aucklandcouncil.govt.nz/externalcontentdelivery/consultations/budgets/annual-budget-2023-2024/annual-budget-2023-2024-consultation-document.pdf>, at page 47.

[3] ANZ research note, reported in January 2023: <https://www.stuff.co.nz/business/131057053/anz-trims-interest-rate-forecast-after-inflation-comes-in-unchanged>.

Citizens Advice Bureaus face closure as a result of proposed cuts. Going by 2022 figures, this is estimated to impact 163,000 people seeking access to assistance concerning their legal rights, including in relation to immigration, MSD, and KiwiSaver.

There are many more options available than what the Budget Proposal suggests. The proposal suggests the public will have to accept the budget, or face a 13.5% increase in rates, or increased borrowing. But many other combinations of rates, borrowing, charges, and central government support are possible, such as:

## How can we do better?

Local Government Act 2002

When considering alternative options, a starting point is that the Council does not have to run a 'balanced budget'. The law says councils have a Balanced budget requirement but that they only have to 'balance the books' if it would not be "financially prudent" to do so (for example, if cutting services creates its own financial costs), factoring in the need to maintain services set out in a long-term plan. **But if the Council is intent on 'balancing the books', another budget is possible.** The Council has not made it easy to construct another budget by imposing a very short (one month) timeframe on the consultation process, but a budget does not need to be finalised until June and it is still feasible to develop alternative proposals.

**Council is opting to pause two important targeted rates and they don't have to do that.** The Council says its reserves from the Water Quality Targeted Rate and the Natural Environment Targeted Rate are not spent, and that these rates can be suspended for a year. Now is not the time to freeze funding for water quality or the natural environment.

**\$50.9m**

Annual revenues from unfreezing the Water Quality Targeted Rate and the Natural Environment Targeted Rate

**\$150.9m**

Increasing borrowing avoids the need for community cuts and sale of airport shares

**Council can borrow more.** The Council is proposing to borrow \$75 million. Council says that it cannot borrow more than \$140m without breaching internal policy, but as the Council these policies can be adjusted (as the Council has recognised by acknowledging it would need to amend its airport shareholding policy to sell off its shares). Combining borrowing with a strong revenue plan, ensures Auckland's strong credit rating is not impacted.

**The existing rates proposal will provide necessary revenue.** This general rates increase, along with increased borrowing and unfreezing targeted rates, can provide \$295m in revenue.<sup>4</sup> This alternative budget plan will address the shortfall and provide the foundation for a budget that is more flexible, fairer, and better for Tāmaki Makaurau Auckland over the long-term. Building on this foundation, **Auckland Council should be investing now** – in tourism, public transport, the arts, and other social services. Investing in the city will bring revenue back. That investment can be funded through the same mix of borrowing and rates set out here. This plan demonstrates that the budget shortfall can be addressed, if necessary. Cutting and selling are no way to bring Auckland back on its feet – and back to its best.

Unfreeze targeted rates <sup>5</sup>	\$50.9
Existing Council rates package <sup>6</sup>	\$93.2
Extend borrowing	\$150.9
Alternative Budget Revenues	\$295.0

[4] The figures used in the table are rounded to one decimal place. Unrounded calculations add up to \$295m.

[5] To reach this figure, we take the 2018-2028 10-year Budget's projections for the Water Quality Targeted Rate (\$452 million over 10 years) and Natural Environment Targeted Rate (\$311 million over 10 years), take an annual figure for each targeted rate from this ten year projection (452/10=45.2 for the WQTR and 311/10=31.1 for the NETR), and then calculate what an annual two-thirds reduction would be in light of what is said in the Budget consultation document at page 52, rounding to one decimal place (76.3\*(2/3)=50.87).

[6] We adopt the Council's own assumption that "a 1 per cent change in general rates is equivalent to around \$20 million of revenue for the council" (20\*4.66=93.2): <https://www.aucklandcouncil.govt.nz/budget-reductions-operational-spending>

We have assumed that the proposed Council rates package can be directed to addressing the Budget shortfall. Nowhere in the Budget consultation document does it say that any of the rates package has already been accounted for. If some of the rates package has already been 'banked' (for example, 3.5% under the LTP) then some further revenues may have to be secured from additional increases in general rates, additional borrowing, or any other options listed on the previous page.

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	

Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?** Unclear whether this question is related to domestic waste or public areas waste. I support public areas having larger bins and more waste resources in conjunction with waste and recycling education. Domestic homes shouldn't have the option to increase bin

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Do NOT cut funding to the arts.

- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Tax the top 1%.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** We have people with the money that invest in these properties making millions and millions. A tax increase for the working man will worsen our living.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** There is a lack of community all over Auckland and taking that sense of community away especially from the youth that need that level of guidance and outlet will grow to act up and cause more crime. Why do you think there are more and more instances of yo

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community facilities and services, Arts and culture initiatives, Sports and recreation grants

**Tell us why these are most important to you:** While I find that all of these initiatives are important and really none should be neglected over the others, I feel like the three that I have picked will help encourage the members of communities to help each other, to guide each other and lead them to

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Keep funding for youth services, CAB and Southern Initiative.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Do not sell the shares. Preserve them for younger generations.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Higher rates.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community facilities and services, Arts and culture initiatives, Community programme delivery

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** you do NOT sell the shares, they will give revenue for the future... we can pay off the debt into the future - selling shares is not the way to do this. lay off staff, cut wages, increase rates, there are other ways and means but DO NOT sell the shares.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:** balance debt and rates increases to achieve what has to be achieved. ideally lower rates increases, but we cannot do this until the debt that ballooned is under control. CUT all unnecessary spending NOW&gt;

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Other

**Tell us why:** urgent repairs and maintenance is needed proceed with this urgently. for future it is not correct to magic a number and ask for it. that has to be justified. STOP approving buildings to be built in FLOOD PRONE areas. this is just STUPID!!!!... red stic

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** i support these priorities but you need to add in that we need to push central government for URGENT funding to FINISH the REEVES Road flyover sooner and NOT later. traffic down Pakuranga Road is terrible. this needs to be funded and finished. Buslane

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Community facilities and services, Sports and recreation grants

**Tell us why these are most important to you:** funding Community facilities and services is what makes it a nice place to live, it is what we do and where we go in our days off. Sports and recreation too has to be maintained and improved for the long term for same reasons for the youth and all sports

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** make council services more USER pays. if someone has a pool they should pay the actual costs of the inspections. Get rid of the speed humps and bumps all over the place. get rid of the silly concrete barriers bordering the cycle ways, they are a safet

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

focus on core council services cut all the fluff, cut council staff, stop the wage increases. START living within your means. Live within the budget. get the jolly roadworks and flyovers and buslanes FINISHED. Stop procrastinating - put pressure on C

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** The spending reductions will have a devastating impact on the cultural and social wellbeing of Auckland and is part of the basic functionalities and expectations of the Council. The funding shortfall is not urgent and does not in any way justify cutting or reducing these core services which provide so much benefit and a very low cost per person and household.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Reducing the water quality and natural environment targeted rate does not meet the environmental objectives expected of the council by both the public and the government, as well as prior declarations such as the climate change emergency

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase,	Support

b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Don't reduce funding to the ARTS. It is vital to the progression of Auckland and New Zealand as a society and a culture.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Library opening hours, Open space low / no mow areas, Sports and recreation grants

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Other

**Tell us why, and which reductions you would not proceed with if any:** To not proceed with any reductions and instead unfreeze the Water Quality and Natural Environment Targeted Rates, increase borrowing, and maintain the general rates package. I also support an increase in general rates, a request for central government support, new targeted rates, and a lift in parking charges as alternative funding mechanisms.

Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** The sale of shares like this ensures a one-off return only - with all future possible opportunities for income from this large shareholding or a stake in what is carried out at the airport lost to the multinational corporations who are likely to buy these

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** 'Rate changes, including unfreezing the Water Quality Targeted Rate and the Natural Environment Targeted Rate, will generate much needed revenue that can help avoid the proposed cuts. Unfreezing these rates for the coming year is estimated to raise over \$

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities are feeling.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community facilities and services, Arts and culture initiatives, Community programme delivery

**Tell us why these are most important to you:**

### Maungakiekie-Tāmaki Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities are feeling.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Programming at Te Oro, Oranga and Onehunga Community and Arts Centres, Local community events, Support and capacity building for community-led activities (Strategic Partnerships Programme)

**Tell us why these are most important to you:**

**If funding for local board activities is reduced, which three of our services would you be prepared to have funding reduced for? (i.e. which are least important to you?)**

**Do you think there are other areas where we could make savings to our local budgets?**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support

Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Reducing educational services such as Kauri Kids. This is such a valuable service to so many families and would have a huge detrimental impact on children who have been there for years and would otherwise stay there until starting school. We would be willing to pay increased fees if needed to help support the center staying open and manage budget pressures.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Weather event severity and its impact on the community only increases with the population density

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community facilities and services, Community programme delivery

**Tell us why these are most important to you:** Community facilities and services such as Kauri Kids provide an integral support network to families in the areas they service. To reduce these would likely increase stress both socially and economically

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** the arts, regional services and childcare subsidies.

These things contribute to society and provide relief (social, emotional and financial) for people who may not have the means to access these services.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

<b>Waste management rates changes</b>	
---------------------------------------	--

Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?** It feels like a cash grab and taking services and resources away from vulnerable people. Is the goal to drive people out of Auckland and make it unlivable? Perhaps we should review the copious amounts of unnecessary bike lanes being built and under utilize

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Regional services and early childhood education services.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Believe that the airport shares are usually (apart from during unusual events like pandemics) a source of income for Council. They can never be replaced once sold.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Believe increase should be set at least the rate of inflation.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Infrastructure needs to be improved to cope with intensification and weather events.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** Believe that safety initiatives are the role of central government.

Strongly believe in renewal and maintenance of assets.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Open space low / no mow areas

**Tell us why these are most important to you:**

#### Manurewa Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** Believe these are the right priorities for Manurewa.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Reduction in service levels for community centres and arts centres (Nathan Homestead), Potential closure of local facilities, Community programme delivery

**Tell us why these are most important to you:** Believe current programming at Nathan Homestead has revitalised and reenergised this facility and that the community is enjoying and benefitting from this. Would not like to see this facility closed. Think programming needs to be council led in communiti

#### Papakura Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** Despite local military history don't believe Anzac events should be a priority.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Community programme delivery, Arts and culture facilities and programmes

**Tell us why these are most important to you:** Would hate to see programmes at Hawkins Theatre diminished. There is potential increase revenue from this facility as well as change up the programming.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).

- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

### Important privacy information

## Submitter details

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing our funding to Tātaki Auckland Unlimited to save a further \$27.5 million, with effects on service delivery (including economic development and tourism promotion) and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland

Reducing regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$20 million

Reducing local board funded activities across all boards to save \$16 million

Reducing regional contestable grants to save \$3 million

No longer directly providing early childhood education services to save \$1 million.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:** Sell 'em now while you need the money and buy them back if/when you can/need

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** FIX OUR DRAINING SYSTEMS PLEASE

## 5. Local Boards

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** 1. Public transport

2. Regional services such as community and education programmes, arts and culture programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$20 million

3. Early childhood education services to save \$1 million.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** Other

**Tell us why:** I suggest selling the shares to central government instead of private investors. The airport should remain as public asset.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:** The highest proposed rate increase for a household is roughly the price of a cup of coffee per week. I also believe that the benefits of rate increases to maintain critical community and environmental services outweigh the disadvantages. I strongly recomment

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** I support investing in long-term climate resilience rather than reactionary solutions. I also emphasise that other climate and community resiliency initiatives funded through the Auckland Council budget cannot be cut. With cuts this would inhibit an Auckl

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** I support all the priorities but question the effectiveness and efficiency of the systems that trust the local boards to deliver. The bigger issue is around how the local boards work FOR the community, both locally and interdependently for the greater good

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental restoration and pest control, Local waste minimisation initiatives, Community climate action and sustainability

**Tell us why these are most important to you:** Reducing WASTE, in ALL its forms will support climate action. Educating our communities to understand the imperatives to shift from ego-centric, consumer-driven, "It's all about me" mentality to an eco-centric approach that considers ALL of LIFE is vital

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Most, if not all the reductions proposed will disempower our communities and whanau. Any service dealing with education, public transport, and health must be nourished, not starved. The Council needs to take a good look at the WASTE it generates through

## Important privacy information

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I would not want community services to be cancelled. I would prefer libraries to be open for fewer hours as volunteers do not have the skills and experience to buy books etc. Funding for youth and homeless people may assist in reducing crime. This could be funded by government rather than locally.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Maintaining a shareholding gives Auckland a say in a major asset.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:** Auckland's infrastructure needs urgent work- housing intensification is putting pressure on aging water and sewage pipes as well as roads.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** We can expect more severe storms in the near future so need to be prepared for them.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** Community groups such as Friends of Mangemangeroa and Pest Free Howick can be supported as they also support the environment priority.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Protection and restoration of local waterways, Environmental restoration and pest control, Environmental initiative volunteers

**Tell us why these are most important to you:** These items will have a lasting impact for future generations.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Another way to save money is for low maintenance shrubs to be planted in local beds to replace the flowers which are costly to replace. An example is the beds near Howick library which are replanted every few months.

## Submitter details

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Mayor Brown appears out of touch removing CAB access.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** Mayor Brown appears out of touch removing CAB access.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Other

**Tell us why:** Please adjust notes left for the next mayor: do not await deaths before declaring emergencies. You do have the authority to make such decisions earlier.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** Mayor Brown appears out of touch removing CAB access. Yes even in this ward.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Library opening hours, Community programme delivery

**Tell us why these are most important to you:** Please consider when your rate payers actually have time to visit a library. How out of touch are all your policies? Yes, even in this ward.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?** In general, please actually consider who your rate payers are, all of them, across the multitude of livelihoods, and consider what they actually use. Please try not to be so out of touch. Think how a normal rate payer would actually be impacted please. Pe

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I do not think you should cut community centric services such as the Citizens Advice Bureau, libraries or the South Auckland community groups that were heavily involved in the covid vaccination drives.

These groups provide a priceless resource for many citizens that otherwise would not have the (financial) resources and ability to seek help, advice and expertise. They are open to citizens regardless of background, and serve selflessly. I myself have used CABs services before, and find their advice to be extremely affirming and helpful. The volunteers are wonderful. I have approached CAB for employment matters, and consumer rights advice. If anything, services like CAB and Community Law should be extended to further be able to service more people outside of their existing qualifying criteria.

If we lose these services, I have a feeling there will be more increase in poverty, unwanted behaviours, and crime.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Don't be short sighted. Auckland airport shared will keep generating dividends and revenue, and is important as part of a varied portfolio.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:** I'm not mathematically minded and well versed enough on the details and statistics of this topic to make an informed opinion/decision.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Increase, and also plan to future proof for those "once in a 100 year weather events", which will be more like once in every 1-5 years now because of the climate crisis. Smarter urban planning. More walkable cities. Invest hard and properly into public tr

## 5. Local Boards

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Definitely NOT - public transport, community/education/cultural/social services

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community facilities and services, Library opening hours, Community programme delivery

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. The privacy policy explains how we can use and share your personal information in relation to any interaction you have with the council, and how you can access and correct that information. You should familiarise yourself with this policy before submitting this form.

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I appreciate it is a balance but the proposed reductions to Tātaki Auckland Unlimited will greatly damage Auckland's place as a premiere tourist attraction if we cannot host major events in the coming years. Recovery from the impacts of covid to businesses and community is important, esp since Auckland bore the brunt of government restrictions. Also, proposed reductions to regional services - especially libraries - will remove safe places and communities for many of all ages and groups of people. Libraries are a meeting place of community, not just about books. Also, given the rising cost of living, libraries as a free resource of books and knowledge will keep building Auckland's education (as we no longer can purchase our own materials but share a common resource that libraries provide). I personally use the library frequently over the weekend on both days.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** I don't know

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:** Yes, I support initiatives that look towards long-term and sustainable maintenance of assets - we need resilience. The other priorities have not impacted me and therefore feel unnecessary in light of the reduction of existing services that work well (such

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Community climate action and sustainability

**Tell us why these are most important to you:** We must continue towards improving resilience and education towards climate matters and environmental protection and restoration. The land is where we live and it's health is tied to the health of myself and my family.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

#### Tell us why, and which reductions you would not proceed with if any:

Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and

welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Community climate action and sustainability, Arts and culture initiatives

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Other
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Do not proceed with:

Reducing regional contestable grants.

Reducing regional services,

Reducing local board funded activities

Reducing funding to Tātaki Auckland Unlimited

These proposed cuts, which while small in terms of the Council's overall

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** These budget cuts are a somewhat horrific step backwards for Auckland given its history of underfunding public infrastructure projects that are sorely needed. This is especially noticeable given the extreme weather disasters that have hit us lately and the many that still need support from the council in order to survive.

Congestion is an enormous issue for Auckland already and the massive disruptions to public transport play a major role in decreasing confidence in future public transport operations and further intensifying the congestion issue. If Auckland is to have any hope of not choking to death in traffic then public transport needs to be a top priority.

Arts and community funding is essential for funding activities that enrich our lives and maintain Auckland's civic character. By slashing funding for these community groups, the council threatens their survival in a major way and by extension threatens the sanity of people who need those connections and communities to get through the work week. Losing those would be an enormous blow and a highly unnecessary one. Ditto for reducing availability to Auckland Zoo, Art Gallery etc.

Cutting funding for the Citizen's Advice Bureau is such an atrocious idea I do not know where to start. We just had several enormous weather disasters which left people in very precarious financial straits and now we are trying to cut their food packages?

Overall this plan smacks of the council trying to disavow itself of responsibility to actually fix the problems of the city it ostensibly has jurisdiction over in a grim attempt to make its books look slightly better.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** This is not a great time to be selling shares. Hold on to those shares and use them to support future spending.

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** An even higher rate increase would be appropriate here. Our investment in infrastructure is so far below standard and so desperately in need that we must take action fast. Auckland Council must do more to mitigate more disasters such as those that struck

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** The storm has impacted a great many people and given the rate of climate change and the frequency of the disasters we have seen already I have little doubt we will see more. Auckland cannot afford disasters of this scale so often, and more needs to be done

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** I suggest that a key priority for the council should be arts and cultural activities funding. These are no less important than safety initiatives and sustainability for maintaining the vibrancy of Howick life and will be sorely needed in the coming years

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Arts and culture initiatives

**Tell us why these are most important to you:** As above: arts and culture community groups are a major part of what keeps me in Auckland to begin with. If the funding for these groups got cut and they went under, I would be more than convinced to find somewhere else to live where the council values them

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

### Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. ## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** life for a young family with 1 income earner is already hard enough without the council cutting the funding for early childhood education!! You will only worsen a lot of families' financial well being so you can save JUST 1 million!! Also, a lot of us can barely afford going to Auckland zoo and other attractions and reducing your funding to them will make it impossible for our tamariki to enjoy such things!

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:** It doesn't matter for us who owns what as long as it will help bring down the cost of living in New Zealand

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

**Tell us why:** reducing the funding on higher income communities only and leave the low income communities alone as we are already struggling so much and cant enjoy the privileges that a higher income earner communities can afford

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Environmental restoration and pest control, Community facilities and services

**Tell us why these are most important to you:** they're all important but i just selected the ones that will most affect my family

### Ōtara-Papatoetoe Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

**Tell us why:** reducing the funding on higher income communities only and leave the low income communities alone as we are already struggling so much and cant enjoy the privileges that a higher income earner communities can afford

Please rank our proposed local board priorities from most to least important to you  
1 = most important, 5 = least important)

Rank	Proposed Priorities
1	Explore initiatives and actions raised through the safety networks to improve safety in our town centres and neighbourhoods
3	Invest in closing the digital divide by supporting community groups to upskill all residents with technology to enable work, schooling, and connection
4	Fund programmes aimed at upskilling our residents, particularly youth, for emerging sectors
5	Continue to improve our sports fields and facilities to encourage active participation and access to sports and athletic activities for organised and informal use
2	Continue to support environmental activities and initiatives, including community-led activities, to respond to climate change, reducing waste and protecting our environment

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local grants e.g. Community Grants programme and contestable grants, Community programme delivery e.g. community activations and placemaking, Environmental restoration and pest control programmes e.g. Pest Free Urban South

**Tell us why these are most important to you:** everything is important but i only chose the ones that affects my family the most

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

dont make the poor any poorer.. target only those who can afford your proposed changes and whose lives would still be abundant even with those increase rates..

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. ## Submitter details

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I am a student living in tamaki makaurau. I do not support the cutting of regional community services, local board funding, community grants, early childhood education, events, or public transportation. These initiatives provide quantifiable benefits to disabled, low income and marginalised communities who are in need of equitable support. I catch the bus everyday - it is already always overcrowded with many people standing. Our rates are considered low as compared to other OECD countries, also Auckland also pays lower rates than all other NZ cities. Low rates come at a cost to the public services that we receive and rely on. Cutting these services at this time will negatively impact communities, adding extra financial burden to those who are already struggling. Supporting our communities is crucial, we rely on this funding, and it is especially important for underserved communities.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Other

**Tell us why:** I suggest selling the shares to central government instead of private investors. The airport should remain as public asset.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:** I recommend setting a higher general rate increase and making greater use of debt. The highest proposed rate increase for a household is roughly the price of a cup of coffee per week. I also believe that the benefits of rate increases to maintain critical

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** I support investing in long-term climate resilience rather than reactionary solutions. I also emphasise that other climate and community resiliency initiatives funded through the Auckland Council budget cannot be cut. With cuts this would inhibit an Auckl

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:** I stress that community activities, initiatives and services funded through the Auckland Council budget cannot be cut to my local area. Cuts could mean a permanent end to the services and institutions that help to make my local area a community. Furthermo

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental education, Community climate action and sustainability, Arts and culture initiatives

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** CATR should remain as established and not paused or stopped as proposed in Question 1. I strongly oppose the cutting of the planned increase in bus frequency funded by the Climate Action Targeted Rate.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I support investing in long-term climate resilience rather than reactionary solutions.

I stress the importance of a comprehensive cost-benefit analysis being undertaken before any budget or rate cuts are implemented.

I stress the importance of comprehens

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** These cuts will affect the most underprivileged Aucklanders and generally make Tāmaki Makaurau a less desirable place. Also, the cuts to Auckland Unlimited threaten to take away the life of the city.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Should have been done long ago.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community facilities and services, Community climate action and sustainability, Arts and culture initiatives

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** The cuts are to important parts of the public sector, they are critical to building and maintaining good communities but they are already under funded. Cutting them will see them begin to disappear from the communities that need them most. Public Transport is not functioning with its current level of reductions, it needs investment and spend to make it a viable alternative to personal vehicles. Tātaki Auckland Unlimited is returning more to Auckland than it receives from rates, directly and indirectly. In a short period of time it has already made significant changes to find efficiencies when it was created from ATEED and RFA, and work is being done to find more. Our galleries, museums, and wider arts and culture sector is world leading, de-funding it strips value out of Auckland.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Rates should be staggered over property values, those of high values pay more rates.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don’t yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:** Howick is a safe and wealthy suburb, focusing spending on business "as community" empowerment isn't helpful.

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Local community events, Protection and restoration of local waterways, Library opening hours

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

The budget cuts are clearly aimed at the arts and cultural sector, at local community groups/boards and public transport. These cuts will negatively impact low earning, working and middle class Auckland residents the most.

There not appear to be any cuts

## Important privacy information

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Arts and culture initiatives, Sports and recreation grants

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. ### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:** I have heard multiple horror stories about the way Auckland Council runs and am quite sure that there is at least some truth to them as we have seen services becoming worse/less while rates continue to increase. We need Auckland Council to run like a proper company that looks after its shareholders' interests and keeps its books in the black. Mr Wayne Brown, it is not an easy task for you but I believe you are on the right track.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:** If a business is losing money, we should sell it to stop the bleeding!

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:** I would support the increase as a one time support and to see how well the Council is run this time.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** The storm looked like a one in many decades incident. We should look at year on year cost savings to support this.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?) Community facilities and services, Library opening hours, Sports and recreation grants

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** Another example of reduced services and increased cost: swimming pool usage used to be free and it now costs a few dollars a visit!

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

- 1) Run Auckland Council to support the people (shareholders) 's interest - the people are your customers
- 2) Continue to actively look for cost saving ideas instead of just increasing rates/reducing services

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. ## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** We need to encourage people of Auckland to use more public transport not less. The aim is to reduce the amount of traffic on the roads especially during rush hour. This not only adds to the overall well-being of people but helps with climate change and reduced emissions.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Keeping the shares in the AIAL gives the council a say in how the airport integrates with the rest of the city, and the Auckland wider community. Total private ownership of the airport will be focused on profits, and the decision makers may not think of h

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** We need the additional revenue to pay for the investment in public transport, and maintain the funding for cultural and community based services. The services of Citizen Advice Bureau should not be cut. This is a valuable service that is partially manned

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Investment is need in this area to improve infrastructure to cope with major weather events

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

**Tell us why:** Our local Howick board has to reduce their locally driven initiatives budget from \$2.5m to \$1.4m. This budget is limited before any reduction in budget.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Environmental restoration and pest control, Local waste minimisation initiatives

**Tell us why these are most important to you:** Community events are important for the well-being of locals and the businesses. They bring the community together and help make Howick area special.

I am passionate about the environment and do not want to see a reduction in this area. Our beautiful bush

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?** I agree with a new fee to extend the food scraps service

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Overall we should be investing in the Auckland community not taking away

## Important privacy information

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** This budget favours the rich over the most deprived in the community. Once this capacity is gone it's gone forever. It's unethical and I will not sit by and do nothing while the entitled make decisions based on their own self-entitled and naked self-interest.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Again, once these are gone they are gone. There are a locally strategic assets and should be retained on those grounds alone. what happens next time we're short of cash?

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:** Landowners can pay more. The poor and disposed who lose on this can't.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** Stop consenting everything regardless would be a better start.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** That's the Local Board role. If those are gutted then why bother at all. You may as well give the money back to the rich.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)**

**Tell us why these are most important to you:** I'm not answering this. Put up the rates instead. Oh, yes and ask the mayor and his henchmen including the rich lawyer to work for free. It would save what \$5m for which the return on investment is a large negative number. Hypocrites.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Submitter details

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:** It is unclear what this is for, going to rebuild in current locations or to beef up emergency services. Focus should be future proofing development in areas and ways which mitigate risk of disaster. E.g. Not building in flood zones.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Local waste minimisation initiatives, Arts and culture initiatives

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. ## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Libraries should remain fully funded as they provide the only access to books, magazines, computer access to many who cannot afford computers, the cost of internet and provide a very valuable service to those less well off. To reduce their hours may mean that those who can only access the libraries on certain days would miss out.

Public transport should not be reduced because it is those with limited means that use public transport, quite apart from the country trying to reduce dependence on cars. Some routes that are not well patronised, such as the Beachlands-Maraetai route should use smaller buses (say 10 seater buses as Hong Kong does on less popular routes) and keep larger buses for well patronised routes.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Selling assets is a short term solution. The Council should keep a blocking stake.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:** A reasonable rate increase is acceptable but debt is necessary to provide basic services that have been neglected for years.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Ensure that town planners take into account the impact of the developments they allow. Some have been approved that appear not to have been viewed from on site but authorised from an aerial map. Some of the flooding that occurred recently was due to

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** I would place emphasis in the reverse order of listing.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community facilities and services, Library opening hours, Community programme delivery

**Tell us why these are most important to you:** The library, community facilities and programmes are vital to many people in the community particularly the elderly and those with limited incomes.

The library not only has the books etc which enables those that can't afford to buy them can benefit from b

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?** Increasing costs of waste disposal only increase the amount of rubbish dumped illegally.

Those with swimming pools can afford cost increases better than those on lower incomes.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Go back to sending notices to residents that have noxious weeds on their property, telling them to get rid of them or it will be done at the Council's expense and a charge placed against their property. It will benefit those trying to keep their proper

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** all of them, as it will only have negative environmental, developmental and social effects on auckland

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** once they're gone they're gone which will only be at a detriment to the council

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Council should both set a higher general rates increase and make greater use of debt.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Investment in storm protections will have significant positive long term impacts. The storm resulted in many people losing their homes, and people already struggling financially experienced the worst of it.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community facilities and services, Community climate action and sustainability, Arts and culture initiatives

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Keep CAB. They are too valuable to lose.

## Important privacy information

The personal information that you provide in this form will be held and protected by Auckland Council in accordance with our privacy policy (available at [aucklandcouncil.govt.nz/privacy](https://aucklandcouncil.govt.nz/privacy) and at our libraries and service centres) and with the Privacy Act 1993. Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Given the current climate we are in, the arts are such an important part of our community that keeps people going and connecting. Communities are formed around the arts. Cutting cost here cuts out so many worthwhile arts programs for those who need it.

We also need to keep funding for environmental education programs for our children. They are our future and it is important that we teach them how to care for our environment.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** I don't know

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** Put money into combating climate change rather than putting a plaster over the real problem. Any stormwater redevelopment needs to be alongside environmental consulting

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** I support the stream restoration. However there is nothing that addresses enhancing arts and education programs in our area.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental education, Community climate action and sustainability, Arts and culture initiatives

**Tell us why these are most important to you:** Please see above responses to this question

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will shutter.

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** I don't know

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:**

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** Other

**Tell us why:** I would like a greater priority on the arts. We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities feeling.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Library opening hours, Arts and culture initiatives

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** These initiatives serve a lot of our communities - I'm willing to pay extra in rates to ensure that our communities receive the services it needs to.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** I don't have a connection with these shares but believe that the current shares we have do not provide us with any decision making powers and believe this connection to share is one that is purely tokenistic.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** Would be open to seeing a 3-4.66% in increase in rates.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Community facilities and services, Library opening hours

**Tell us why these are most important to you:** I believe these are services that many use and are in most need.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Maintain ECE, maintain promotional tourism and funding to Tātaki Auckland Unlimited including economic development and tourism promotion. If anything increase funding to encourage growth in this area where Auckland council can increase its popularity.

Reduce public transport to meet demand. Currently fares are reduced and this would indicate the highest interest in using the transport options.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:** AIAL will be investing to replace terminal buildings and build a new runway. In order to do this they will need to do a capital raise. Capital raises usually result in a share price reduction. Auckland council should save their money and interest until then

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Increase land availability and encourage more growth of Auckland city with new build housing with larger land footprint. This will encourage families to spread out further increasing the rates collections by Auckland council. In other words increase numbers

### 5. Local Boards

#### Franklin Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:** Fund the Fund Local Coastal Rescue Services and Coastal (seasonal) safety messaging campaigns.

Cut all other funding completely.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Parks, reserves and community facility maintenance, Environmental restoration and pest control programmes, Council funded community lease maintenance

**Tell us why these are most important to you:** These are core council requirements. If we do not maintain these 3 areas the city will devalue and deteriorate. We need people to want to live here so council can continue to remain within budget. If people move away rates collections will reduce.

Our communities have told us that providing a network of pathways (walkways and cycleways) between and within our local villages and town centres will help locals access services and facilities, and live healthy active lifestyles.

Our budgets cannot deliver a network of this scale without additional funding such as via a targeted rate. To implement a new rate, we would have to investigate further and consult with you again in a future Annual Budget process.

**Do you think we should investigate a local targeted rate to fund a network of pathways across the Franklin Local Board area?** No

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?**

**Tell us why:** Implement safety initiatives, including dedicated grant / fund to enable increased safety in public places (e.g. lighting) and supporting community groups such as neighbourhood watch and community patrols. If the police in the area were funded correctly a

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental restoration and pest control, Local waste minimisation initiatives

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Continue to keep Auckland looking nice as a city so people want to live here.

## Important privacy information

## Submitter details

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Community services and education are key for all Aucklanders who need support and cannot afford to pay for them. Culture and arts are so important and many organisations depend on the funding for them to produce events and shows. Raising some prices such as at the Zoo and Art Gallery would be fine with me. With our roading issues the concept of maintaining or reducing our public transportation after we have been pushed to use it is ridiculous.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:** saving \$87 million a year in one swoop

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:** We need to pay for the infrastructure such as roads, pipes and buildings to make Auckland more liveable. Going into more debt will help with the shortfall

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** One percent isn't that much and it is very needed to pay for the storm damage and prepare for future storms.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** As part of the local Howick community, we need this funding to continue to maintain the community projects and services that are vital.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Community facilities and services, Sports and recreation grants

**Tell us why these are most important to you:** Community events bring people together to celebrate the wonderful city we live in and we look forward to these. Community facilities and services are vital for everyone but especially those who cannot afford to pay for these services. I work for Lifewis

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Prioritizing a solution to the horrible traffic on Pakuranga Road turning on to Ti Rakau Drive and the Reeves Road flyover

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** - Reducing regional contestable grants to save \$3 million.

- Reducing local board funded activities across all boards to save \$16 million.

Key organisations such as Kolmar Charitable Trust rely heavily on the Regional Sport and Recreation Facilities Operating Grant to help sustain and improve on-going operations, support the covering of maintenance costs and enable community access. Kolmar Charitable Trust receives \$175,000 per annum.

Kolmar is a multisport and recreation facility located out of Papatoetoe, Auckland. It is a sector leading sport and recreation partnership which has bought together 13 different sport and community clubs to operate under shared facilities. The centre and facilities opened in 2011 and include an international hockey turf, 6 tennis courts, 2 netball courts, Indoor Cricket Centre, bowling greens, strength training facilities, Cricket, Soccer and Rugby fields and multi-purpose meeting and function rooms. Than overall combined membership across all codes is 2250 members with Kolmar's membership ranging from 3 - 90+ years old proving Kolmar deliver's sport and recreation opportunities for all stages of life and all nationalities which is reflected across our diverse membership. Whilst the users of our facility come from all over Auckland, the most

represented South Auckland Suburbs are Otara, Papatoetoe, Manukau, Mangere, and Manurewa.

Given Kolmar is now 12 years old it requires regular on-going maintenance and upgrade work this grant is critical to the Trust's operations and if any reduction or removal took place would be critical to the Trust as would not be able to sustain its operations and continue to provide high quality sport and recreation opportunities for its clubs and community. Increasing cost to a more user pays model would not be plausible in particular due to the centre's location in a high deprivation area where cost is already a clearly identified barrier to participation.

Kolmar offers clear value for money and impact for the grant funding allocated some non-financial statistics to support.

End of Financial Year 2021/2022 (\*Covid-19 lockdown effected – Closed 108 Days) were:

- Active Participants 141,198 which equates to a cost of 1.23c per visit against grant funding
- 33,215 Community Facility Hours across facilities and surfaces
- 2121 Members
- 56 School Engaged
- 62 Community Groups Supported.

End of Financial Year 2019/2020 (\*Pre-Covid-19) were:

- Active Participants 209,576 which equates to a cost of 0.83c per visit against grant funding
- 47,450 Community Facility Hours across facilities and surfaces
- 2225 Members
- 115 School Engaged
- 67 Community Groups Supported.

Any reductions to this grant funding should be thought through properly and slowly faced in with consultation from the organisations effected over a number of years to ensure appropriate plans can be implemented ahead of any changes. A suggestion of a Sport and recreation targeted rate makes has been proven to be effected in another regions and should be considered across the Auckland region which has seen sports and recreation heavily underinvested in.

The proposed reduction in local board funding will significantly impact community grants previously received by many important organisations . For some local boards we aware this will include further reductions in maintenance of open space, effecting clubs, sports fields and parks maintenance. We do not support any changes in this area as we know how vital these budgets are to Otara-Papatoetoe local board.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** Think vital to keep some assets as financial leverage.

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

**Rates**

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

**Debt**

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:** If it means proposed changes to the operational spending reductions can be reduced then fully supportive of rates increase.

**4. Storm Response**

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** Think recent flood and cyclone impacts have highlighted the underinvestment in infrastructure for a long time believe it required.

**5. Local Boards****Ōtara-Papatoetoe Local Board**

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** We are happy to continue to see the local board priorities sport and recreation participation.

Please rank our proposed local board priorities from most to least important to you  
1 = most important, 5 = least important)

Rank	Proposed Priorities
2	Explore initiatives and actions raised through the safety networks to improve safety in our town centres and neighbourhoods
5	Invest in closing the digital divide by supporting community groups to upskill all residents with technology to enable work, schooling, and connection
3	Fund programmes aimed at upskilling our residents, particularly youth, for emerging sectors
1	Continue to improve our sports fields and facilities to encourage active participation and access to sports and athletic activities for organised and informal use
4	Continue to support environmental activities and initiatives, including community-led activities, to respond to climate change, reducing waste and protecting our environment

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local grants e.g. Community Grants programme and contestable grants, Community lease charges , Open space low / no mow areas

**Tell us why these are most important to you:** '- Local grants and discretionary funding plays a key role in support community organisations, projects and clubs within the area. They are important to help support the wider community.

- Open Space and low mow areas - There are major concerns for the

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Parents would need the support that early childhood education provides, which if removed could lead to more parents applying for social benefit, which would only be a further issue on the system. Youth centers are major safe spaces for a lot of our young adults who need the support, which by removing will only further marginalise those who are already vulnerable.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** While it does help us currently, it also saves the AIAL as an asset for the region.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** The economy is already struggling, and an increase in rates is only going to further exacerbate the problem.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** While it is important to make a change in operational budget to help with the after effects of the storm, it is not essential at this moment in time.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental initiative volunteers, Library opening hours, Community climate action and sustainability

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

## Important privacy information

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Dont reduce community funding, dont sell shares, dont sell community centers. Dont run an economic model for community issues by reducing current local boards input. Find some better income models that support community in growth.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Short sighted to sell the shares, they belong to the people of Auckland.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:** 10 years of small rate increases has made the problem worse. Building a bus bridge in Panmure is a total waste. It's too expensive to take public transport, good with half price fares.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** Where is central government in supporting local government with civil defence operations and civil emergencies. Seems like central government like to be involved in local elections, but have no financial input. All roads should be taken off Auckland Trans

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:** The local board Auckland council governance model focus on community, let's keep that going, supporting parks, libraries and community centers. Don't cut community activities, because once they are gone, it will be gone forever. You can't have a digital mo

If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)

Tell us why these are most important to you: No, leave all these services in place.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Review all CCO funding & reduce their office expenses and waste.

- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Regional services and community programmes are the life blood of the community.. They are often quite challenging to set up in the first place and it is difficult to justify the value of their services because they are non-profit making organisations. However they are essential, especially groups and programmes catering to youth eg. cultural, art, sport and drama. These groups help youth to be confident, productive, well adjusted citizens.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less

towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

### 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

<b>Waste management rates changes</b>	
---------------------------------------	--

Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
<b>Changes to other rates</b>	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Cutting funding to either of these will result in MAJOR problems. Many of these services are barely functioning as it is, but they do provide necessary functionality to the community. The arts are crucial to mental wellbeing and creativity, especially for youth. Cutting local board funding will eliminate crucial environmental groups that rely on council funds and operations. Without the hard work of community groups, much of Auckland's green spaces and wildlife would be lost. Cutting funding to important services such as services for the homeless and those less fortunate in our communities would see many more people struggling to survive in the current economic climate. I could go on, but this is ridiculous. Think for a minute, why cut essential services to people in 2023, when the majority of people are struggling to survive, we are seeing the impacts of climate change on a faster rate than previously seen, and the wealth gap is larger than ever before.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:** Increase rates for people that own multiple houses in Auckland. They are parasites.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** We need to keep preparing for the impacts of climate change since we aren't fixing the public transport system so no cars are being taken off the road. More busses, more trains, more bikes, less cars.

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?**

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Arts and culture initiatives

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Protect the environment, protect vulnerable communities, protect the arts. Cutting the funds to these would be a disgrace to everyone in Auckland

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I am currently studying a bachelor of performing and screen arts. I strongly oppose to cutting any funding that helps to fund the arts sector in Tamaki Makaurau. As a young and upcoming artist, alongside many others it is very disheartening to see that there potentially may be no way to create work for us in a sector that I have been encouraged to study and is a vital part of the community in Tamaki Makaurau. The impacts of Covid-19, and the recent flooding and cyclones that we have experienced have already majorly setback this sector as well as many others.

Please reconsider the impacts that these proposed cuts will have on the people of Tamaki Makaurau.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** I don't know

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Local community events, Arts and culture initiatives

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	I don't know
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I believe all of these to be an essential except for the arts and culture programmes. Therefore I see a rates rise as essential.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** I do not believe this will help Auckland in the long run. We do not have very big debt levels.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase

**Tell us why:** Rates have not risen as they should to accommodate the population of Auckland and the services that this city requires. A rates rise is necessary.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** We need to prepare for more weather events.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:** I think a lot of these cuts will make Howick/Botany feel worse how I view my local community. I do like that they in the proposal they are still focusing on the busway and public transport.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Community facilities and services, Library opening hours

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

What do you think of these proposals?

## 7. What else is important to you?

Do you have feedback on any other issues, including:

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I do not believe LTDS business rates should be reduced when we have budget cuts.

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental education, Protection and restoration of local waterways, Community climate action and sustainability

**Tell us why these are most important to you:** We must take care of the land, if it rots so do we.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?** All areas should have access to food waste disposal. Reducing buses is not the way to reduce our footprint, instead more funding should be given. If the buses are good more people will use them. As it stands there are not enough.

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

- Fund buses and public transport better. It's clear that well funded public transport is better for traffic and the environment.

- We need to protect our communities and environment. Reducing the budget in areas like waste and sustainability is not the

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Why reduce services and facilities that are beneficial to community and wellbeing?

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Proceed with the proposal to enable the sale of all our shares in AIAL and use the proceeds to reduce debt and therefore annual interest costs by around \$87 million per year

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community facilities and services, Arts and culture initiatives, Sports and recreation grants

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Other
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Other

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

Tell us why, and which reductions you would **not** proceed with if any:

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** I prefer the council to keep the Airport shares in order to have more control over it's management

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:** It is preferable to build and maintain solid infrastructure now as it will save costs against run down assets and infrastructure in the future

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community grants, Environmental restoration and pest control, Library opening hours

**Tell us why these are most important to you:** They are all important and provide value for the community. beyond what the dollars and cents show

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	I don't know
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Council needs to invest in solutions that are sustainable. Any dollar spent today in improving communities and mitigating climate change will save far larger sums in the future.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Council needs input, even if small, into the running of the largest piece of transport infrastructure in New Zealand.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:** Auckland land owners have seen record profits for years, and can afford to give back to communities.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support most priorities

**Tell us why:** Safety, cycling infrastructure, and sustainability are important to me.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Local waste minimisation initiatives, Library opening hours

Tell us why these are most important to you:

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** I don't know

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:** I support the priorities that have a high direct impact on or in the community. I do not support priorities that are 'nice to have' such as exploration.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community facilities and services, Open space low / no mow areas, Community programme delivery

**Tell us why these are most important to you:** These have the highest impact on the community.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	0
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	0
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	0

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I would like to request the local board to advocate to Auckland Transport, Waka Kotahi and the Supporting Growth Alliance to reduce the scope of the Airport to Botany Rapid Transit Network to just the busway. The impact of the notice of requirement that i

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Proceed with the proposed reductions

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with reducing funding to Tataki Auckland Unlimited, regional services, local board funded activities, and regional contestable grants.

These cost reductions will only have negative impact on all sectors of Auckland's art and culture and on the wider local economy as a whole. To propose this is to demonstrate that we do not wish to invest in Auckland's present and future. When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. Events such as Big Gay Out, Diwali, and Polyfest celebrate our diversity and culture. For residents of the city, these events are a huge occasion and they make our city more inclusive, welcoming and interesting. Especially as many of these festivities are free and open to all. It is an opportunity for communities to engage with one another. It also helps us to attract tourists and retain new residents and industry. They boost the local economy, create jobs and make the city more prosperous.

Particularly for our tourism industry, this will negatively impact the ability for our restaurants, hotels and retail sectors to operate and generate revenue. Bouncing back from a pandemic was difficult and is still a continual effort for those in the arts communities. What momentum and activity the city has gained will be gone. The current CBD streets are filled with empty lots as it is. Any more inactivity and the city will become a ghost town.

In the current cost of living crisis, the suggestion to reduce funding to homelessness, community empowerment and youth centres is completely illogical. The proposed lack of support in these areas will be evident in the long term such as potentially higher crime rates (eg, ram raids! And the victims of these crimes will most likely bear the repercussions alone), vandalism, wider divisions amongst different communities in the city and so on).

The same can be said for reducing funding towards early childhood education services. Perhaps families who are in a better socio-economic situation may be fine but for families who are not, these services are essential for their jobs and making money to maintain the wellbeing of their family.

These services are not nice-to-haves that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will end permanently. In the future when demand for youth support, homelessness, support for young families, a regular bus schedule to and around the CBD increases, the council will have to bear the burdens and be required to spend more to build back these structures of support - structures which not only cost but take time to build (more costs!) This will be inevitable as the cost of living crisis continues.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** At a time when international travel will only continue to increase and bounce back globally from the pandemic, it seems too shortsighted and hasty to be so drastic to sell all shares. As a major transport hub, not only for the city but the entire country

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** I don't know

**Tell us why:** I am not a home owner

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** This seems a good strategy for the long term and may be helpful in reducing damage for potential weather events and disasters. I think that the increased budget could also go towards conducting research in taking preventative measures against weather even

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Community facilities and services, Arts and culture initiatives

**Tell us why these are most important to you:** Community facilities and services make public spaces enjoyable and active. The same can be said for arts and culture initiatives which can take many forms - events, exhibitions, festivals - and can be enjoyed by all members of the community. And as Howick

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

I read that the council manages land that is worth \$2.9 billion for the exclusive purpose of golf. Please see article attached. I hope that when drafting this budget ALL avenues to reduce debt were considered and not simply the easy 'band aid' solutions.

***While it may appear Wayne Brown is leaving no stone unturned in his epic search for savings, golf enthusiasts like me can rest assured the vast tracts of manicured grass on which we play are safe from budgetary scrutiny.***

---

OPINION

---

Dear Auckland ratepayers,

As you'll know, the council is currently consulting on its proposed budget plans for 2023/24.

This is a fairly crucial budget, not only because it's Wayne "Fix It" Brown's first as mayor, but more significantly because it aims to fundamentally reshape the services council delivers.

I write as someone who helped out with Efeso Collins' mayoral campaign, so you might say this is just sour grapes. But this is not a dig at our city's newly elected leader – rather I'm more interested in the blinkered way our council's money mandarins frame what can and can't be cut.

But before I continue, can I start by saying thank you, given I'm one of a small, privileged group who is able to enjoy relatively exclusive access to the \$2.9 billion worth of land that's either owned or managed by council for golf. It's strangely comforting knowing that my weird addiction for hitting a small white ball into a tin-lined cup around manicured fields is so favoured by our city's decision makers that it continues to avoid any kind of budgetary scrutiny from bureaucratic number crunchers.

Obviously, my tongue is firmly lodged in my cheek, as the contradiction is not lost on me that these vast tracts of land totalling around 535 hectares are preserved for a stereotypically wealthy set of older male Aucklanders, while a raft of services, programmes and facilities that serve a far wider and more diverse cross-section of our society is about to be slashed.

And I must admit I wasn't really aware of the scale of my privilege, which is why I thought it was worth bringing to attention. But this figure of \$2.9 billion is hardly a secret. In fact, it was while researching a small local story for a community magazine my wife and I run that I stumbled on a 2022 report by council officials to the Māngere-Ōtāhuhu Local Board, outlining the need for a rethink in how these golf courses are managed.

Along with stating that the land golf courses currently occupy is worth the deficit-crushing number of \$2.9b, it also outlined that golf is played by only around 100,000 Aucklanders and that many courses' leases are up for renewal soon.

Ironically, the story I was researching was about plans to upgrade a park for Māngere. This large, grassy expanse is creatively named Centre Park, given its proximity to the rest of the suburb, and while it has a smallish playground, the fields lack bike paths, basketball courts, exercise facilities and picnic tables that would turn this sleepy, "under-utilised" (according to council's own reports) space into a hive of activity. Unfortunately, there's currently no money to do these changes, so the local board has done the next best thing which is create a detailed masterplan in the hope that the millions needed to progress things materialises in future budgets.

But as the city's soon-to-be-jumping-ship chief executive Jim Stabback says, "council's facing some significant financial challenges", so it's understandable that money for a park that serves only roughly 80,000 people can't be a priority. And yet, a slightly higher number of Aucklanders continue to get exclusive use of 535 hectares for golf.

**WE WANT TO COVER ELECTION 2023  
WITH RIGOUR, RANGE AND HUMOUR.**

# TO DO THAT, WE NEED YOUR HELP.

DONATE

But it's not just community parks that council can't fund. Along with proposed cuts to library hours, arts programmes, youth employment skills training and community-run initiatives that reduce the impact of climate change, there are also plans to cut funding to humble but indispensable Citizen Advice Bureaus.

My understanding is that the savings from shutting down CABs could be in the region of \$2 million, while the cost of paying out redundancies to the many of its long-suffering staff could push into the hundreds of thousands. The trade-off seems negligible unless there are also plans in the pipeline to sell the buildings many of these CABs operate from – but that's just me utilising some creative thinking.

It would be easy to lay the blame at the feet of the new mayor and his fellow councillors, but it strikes me that council officials have had plenty of time to scope out the potential returns of selling some golf courses, or at the very least, rezone these clubs so they pay rates at a level that reflects the value of their land.

I'm well aware that writing such a column could see me blacklisted from these 13 council-managed courses, but given there are a further 25 privately owned courses in Auckland, my addiction should be able to continue unabated.

Given all this, it would be appropriate to give the Auckland mayor the final word and even though it's from a response to my [esteemed friend Sam Brooks](#), it still applies.

“Don't fucking come and talk to me, write a submission.”

**KEEP GOING!**

**Not content with transforming KiwiSaver, Simplicity is now planning to out-build Kāinga Ora. Duncan Greive meets a pair of unlikely revolutionaries trying to fix housing – a task which seems impossible, even for the state itself.**

In September of 2020, a builder named Shane Brealey sat down and typed out a manifesto. It set out “initial thoughts on how we might combine to disrupt the New Zealand housing sector.” He set out an immodest target. “We have the potential to become the second largest home provider after the Crown,” he wrote. Brealey believed he had discovered what he described as the “holy grail” of housing: the ability to build “fast, cheap and high quality”, the three crucial attributes of which only two are usually believed to be possible.

His proposed company would be a “nimble elephant”, with an appropriately oversized goal: solving our housing crisis. “The need is now – we owe it to New Zealanders to apply our skills with a sense of urgency,” he wrote.

He’d been mulling the idea for a few years. The only thing missing had been huge amounts of patient money to make it happen. But when he met Sam Stubbs, the founder of investment powerhouse Simplicity, he believed he’d found the partner he needed to make it happen. “We have a rare combination,” wrote Brealey. “Capital + heart + building skills.”

It was announced in a flurry of publicity in late 2021. Eighteen months on and the pair have hundreds of homes either built or planned, and are on their way to proving it can really work. Their creation is Simplicity Living, a housing developer which is already among the nation’s biggest, and has ambitions to grow larger still. But it contains numerous highly challenging facets that collectively make it closer in intent to a state-owned organisation like Kāinga Ora, previously known as Housing New Zealand, than a private sector giant like Fletcher Living.

Where almost all other large-scale home-builders develop to sell to the private market, Simplicity Living is building to own forever, and to rent out at below-market rates. The scale the pair has planned is vast: the manifesto talks of 10,000 to 15,000 homes over the next decade or so, but Stubbs believes the real ceiling might be far higher.

“The really big, hairy dream is to have one in 10 New Zealanders living in these things,” he says. That means a minimum of 200,000 houses – around three times the current number of state houses. That’s not an inapt comparison for Stubbs. “We think of it as the new state house,” he says. What that means is, if successful, Simplicity won’t just augment the government’s role in housing – it will far surpass it.

This will be incredibly difficult. The KiwiBuild programme has built a mere 1,300 homes, with just 1,200 more under construction as of May 2022 – a far cry from the 100,000 initially announced. The fate of KiwiBuild, a brand the government was elected on but now has basically buried, is instructive as to the risks involved here, which are huge. Find any city in New Zealand and it will be dotted with holes in the ground and half-finished projects, graveyards for the plans of ambitious people who missed a hidden risk or got caught on the wrong side of a recession.

Simplicity can control that to an extent by leveraging their member investments – but it remains a very big swing. Because it's not just about building and funding. They also need to convince New Zealanders that renting for life is something to aim for. Currently the narrative of New Zealand aspiration nearly always involves buying a home. Simplicity wants you to instead think about investing your money with them, and living in a home they own. It's an extra cultural challenge underneath the bricks and mortar, serving to underscore and augment one of the most daunting tasks any New Zealand business has attempted in recent memory.

## It might not have happened at all

If successful, Brealey and Stubbs will be the most important duo for housing in New Zealand since James Fletcher sat down with Michael Joseph Savage to plan the first of our state houses in the 1930s. Yet it could just as easily not have happened at all.

“We’d missed catching each other twice, and he was 10 minutes late to the third meeting,” says Brealey. The builder was up a scaffold in Northcote on Auckland’s North Shore, waiting impatiently for Stubbs. He wanted to show him the way he built, to explain why he was so confident in building so many homes, so well, so fast and at such a sharp price.

Stubbs, 58 but somehow still boyish, with long hair and an easy smile, admits to not having particularly high hopes. “I went in pretty cynical,” he says. “I’d had a lot of meetings.” So had Brealey. He’d been trying to find someone to scale up his home building programme for years, and had met with everyone with serious money from the Super Fund on down – even offering his process free-of-charge to Kāinga Ora – without finding anyone to buy in. Stubbs had the opposite problem – he had money he wanted in the housing market, but couldn’t find anyone with the right vision.

A mutual friend, the investor and founder of The Warehouse Steven Tindall, had urged them to get together, saying to Stubbs: “wouldn’t it be a great thing if some of your clients could also get into accommodation at a really affordable price?” But Stubbs had gone to the wrong Lake Rd, and Brealey’s patience was almost gone. He agreed to wait, and the pair finally met up on that North Shore scaffold. “After a couple of minutes the frost had thawed,” says Brealey. “The chemistry was obvious. We were just made for each other.”

Shane Brealey (left) and Sam Stubbs on site in Oranga. (Image: Duncan Greve/Arch Bana)

They have a lot in common. Both are self-made Pākehā men, born just two years apart, but from there the over-familiar archetype of business success fades fast, replaced by some quite atypical attributes. Devoting years and boundless energy to a not-for-profit is somewhat irregular for the wealthy, as is a willingness to publicly and pointedly critique their peers. One of the most striking attributes common to each is an ability to take the complex worlds of finance and construction and make them accessible, and their desire to conquer them somehow plausible. While sometimes they can come off as reductive or even arrogant, it hits different when the cause they’re championing has no impact on their financial futures.

Stubbs describes their relationship as “an unquestioned bromance”, and it’s this chemistry that has allowed them to attempt Simplicity Living, a venture even more radical than the original not-for-profit KiwiSaver scheme. It was born from NZ Living, a

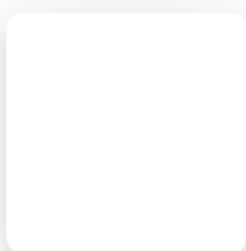

business that is only six years old, but should properly be understood as the product of Shane and Anna Brealey's decades in the building industry. They're husband and wife, while also being business partners – he the builder, she the financial controller. Together, over decades, they figured out why building is so hard, where all the hidden costs lie. The “filo pastry of inefficiencies”, as Stubbs puts it, which means an affordable, fit-for-purpose home has become something mythic for many New Zealanders.

The Brealeys built up NZ Living into a major developer, constructing 700 homes in a few short years. The business would be highly valuable – except that they have essentially gifted it to Stubbs and Simplicity, meaning the not-for-profit KiwiSaver is on its way to becoming a very unconventional conglomerate.

“The greatest act of business philanthropy in New Zealand history,” is how Stubbs describes it. This gift is not merely a going concern, a pipe of development, the IP and the relationships. The Brealeys have also donated 10 years of full-time work – what would otherwise be their retirement – free of charge. It's an enormous gift with the clear potential to force a major rethink of a number of closely linked spheres – most notably property development and the perception and reality of renting in New Zealand.

It will be powered by Simplicity's almost \$5bn in member funds, and built using Brealey's decades of construction experience. By combining those two with what Brealey calls their “warm hearts”, and Simplicity's ultra-low-fee, not-for-profit approach, they say they can charge below-market rents for lifelong tenancies in warm, dry, well-situated homes and still make a good return for Simplicity's investors.

If successful, Simplicity Living will ask provocative questions of those who manage Kāinga Ora and the government's housing portfolio. Chief among them being that if two determined individuals can build like this, why can't the state itself?

## The KiwiSaver provider and de...

## All New Zealand's problems are housing problems

Building well and efficiently really matters, largely because of the outsize role housing plays in many of our current agonies. Overcrowding and damp homes help feed the health crisis. Insecure tenancies move kids from school to school and contribute to falling educational attendance and outcomes. Poor-quality housing in the wrong place increases energy use and places an excessive reliance on private transport, feeding climate change. And paying too much for too little housing means it absorbs an excessive amount of our incomes, exacerbating the cost of living crisis and constraining our economy at the same time.

A nation which forgot how to build for a crucial decade of high population growth between 2004-2014. (Data: Stats NZ, United Nations. Graph: Duncan Greve)

It wasn't always this way. For many years we were brilliant builders, with a muscular state highly involved, and an ordinary wage could comfortably cover the cost of rent or a mortgage. But a wide variety of factors saw New Zealand fall behind what was

needed to house a growing population, with a particularly catastrophic downcycle from 2005-2015, and we have never really caught up.

While a majority of New Zealanders still live in an owner-occupied home, that number has been declining for decades. Most of the rest are renters and many in a very bad position – with insecure tenancies, poor-quality homes and around 70% receiving government support to pay rent through the accommodation supplement. This amounts to billions of dollars a year passing through tenants' wallets and mostly into the bank accounts of private landlords.

It means everyone pays too much for housing – but there's a stark difference in how that manifests. Some benefit, while others lead broken lives. It plays out devastatingly at the most dire end of the spectrum of housing need. You see it in the [heartbreaking scenes](#) coming out of motels converted into emergency housing in Rotorua. You see it in the numbers of rough sleepers in our CBDs. You see it in families living in cars or garages. It's a problem built up over decades which shows itself in a national stain. Successive governments have expressed dismay about this, while proving unable to impact it in any meaningful way.

Cynics suggest that this is because while expensive, unsuitable housing is horrible for many people, it's also pretty good for some. Homeowners see the value of what is almost always their biggest asset go up in value, which makes them feel rich – and that feeling can help swing an election. Some critics, particularly [The Kākā's Bernard Hickey](#), point to this as the source of the continued lag between what we build and what we need.

At an individual household level this is often experienced as deprivation and misery, but at a macro level it's just big numbers. The Ministry of Housing and Urban Development (MHUD) [maintains a dashboard](#) cataloguing our progress at addressing this yawning need, starting in June 2017, just before Labour was elected. There are some tough stats – the housing register of those wanting a state house currently sits at 23,590. That's an increase of over 18,000 in under six years, though its growth has been attributed to a culture shift at MSD. The total number of those helped into progressive home ownership is a tiny 268.

There are bright spots, though. The growth in the number of public homes across Kāinga Ora and community housing providers sits at 11,606, and both the number of people living in motels for emergency housing and those receiving the accommodation supplement have declined in recent months. But the overall picture is of big announcements crashing against a very stubborn problem.

This catastrophic scenario has hardly gone unnoticed. A whole sector of community housing providers or CHPs (pronounced “chips” in the sector) has evolved to try and supplement the state. Surrounding it are many others trying in different ways, whether it’s Kiwi Property’s build-to-rent scheme at Sylvia Park, or the growth of iwi housing. Above it all is Kāinga Ora, the government agency dealing with the massive increase in demand for emergency and state housing. It does not actually build homes itself, and is being asked to do a number of very difficult jobs – including commissioning construction from Invercargill to Kerikeri, opening up huge tracts of land for development, and housing tenants with highly complex needs.

What Brealey, Stubbs and Simplicity are doing, by contrast, has the benefit of complete clarity. They are laser-focused on creating as many high-quality houses as they can, at the best possible price, then renting them out for centuries. To achieve this required a major change in the thinking that was typical for homebuilding in New Zealand. For inspiration, Stubbs looked to Europe, where renting-for-life is common. Brealey looked to Japan.

## The power of kaizen

Brealey, 60 with short-cropped grey hair and a deep tradie’s tan, is a firm believer in the Toyota Way, named for the car company from which it sprang. It’s a philosophy of business that seeks to emphasise lean management and the Japanese concept of kaizen, or continuous improvement – always looking to make a process more efficient. “I just always loved that philosophy,” he says. “And really I hate waste.”

This attitude was developed over 30 years in the construction industry, first in Australian-owned giants like LendLease, then later through NZ Strong, a company he and his wife Anna co-founded in 2004, responsible for the delivery of \$370m in projects during the Brealeys’ time at the helm. If you live in Auckland, it’s near-inevitable you’ve been through an NZ Strong building, with schools, bus and train stations, venues and even the zoo part of a large portfolio of major infrastructure.

Brealey loved the work, but was frustrated by default industry practices that ended up unnecessarily costing them – oftentimes you, as the tax or ratepayer – millions of dollars.

After 10 years, the Brealeys sold their shares in the business. Anna stayed on as financial controller to teach the new owners the ropes, while Shane built a home for the whānau on Waiheke Island. Throughout that period he started to ponder a “burning question”.

He figured that life was already very comfortable. Instead of heading into retirement and watching their money pile up, he contemplated pouring a chunk of it into a development which would function as an experiment in the limits of development efficiency. It sought to discover “what the cost of construction could be if you controlled *everything*”.

The idea lodged in his mind and refused to leave. Over his career Brealey had gained a large degree of insight into the whole of the construction system, and developed a theory of where the waste was hiding. He believed that a lot of the time it came down to different parts of the process working in conflict – with each other, but particularly with the interests of the ultimate client, who really just wanted a reliable home they could afford to rent or buy. Brealey has a pretty withering view of the system that builds our houses, arguing that the standard practices of architects, quantity surveyors, engineers and developers often add unnecessary costs.

After he completed his own house in 2016, and with Anna having finished up at NZ Strong, the pair decided to test his theory. That pile of money they’d made allowed them to do what very few builders could ever contemplate: finance a whole development end-to-end. The pair registered a business under the name NZ Living in late 2016, and searched for land to build a development to test their thesis. They eventually purchased a site in Ōtāhuhu in early 2017, and started work on Mason Square.

He wanted to build three-storey walk-ups – the kind of higher-density apartment-style homes which are proliferating across Auckland at the moment. A model that has the advantage of being default allowable under planning laws and thus relatively easy to get consented. His hunch was that unlocking savings would come from kaizens around vertical integration – controlling the whole process – and not starting from scratch with each development.

He didn't stop there. "Almost every medium-density apartment building that's ever built, there's a prototype. And their reasoning is, you know, 'the site's different. We want it to be sympathetic to its environment, we want to speak to the street.'" Brealey was sceptical about just how much that was valued by the ultimate buyers, who he thought really just wanted a good, affordable home. By using the same designs, materials and contractors, all operating at scale and with complete visibility over the work pipeline, Brealey believed that NZ Living might be able to find efficiencies that could save as much as 7% or 8% over the total costs of a project – no small achievement in a notoriously competitive industry.

Mason Square blew that out of the water. When all costs were accounted for, and all 86 apartments sold or tenanted, Brealey says they saved 32% over the course of the project, building for a little over \$2,000 per square metre. To his mind, it revealed the level of inefficiency lurking across the New Zealand property development sector, while also showing just how many more houses could be built with the same budget, if their practices were applied and scaled.

It did not go unnoticed. "People in the industry are in awe of what he's been able to do," says James Palmer, the founder of Community Finance, which exists to gain funding for the CHPs. "He has a richly deserved formidable reputation for being at the top of his game." Tindall sees a kinship between Simplicity Living and his original goals with The Warehouse, and describes Brealey as building "what I consider to be the best-value homes in New Zealand", based on quality and price.

Still, for Brealey, his first development was still merely a proof of concept. It was mid-2019 when he set out on the next stage of his journey. Armed with what he knew from Mason Square, he now needed to convince someone with far more money than any individual to take what he had learned and see just how much potential it contained.

## A problem of two halves

At the same time, Stubbs was struggling with a very different problem. He had launched Simplicity in August of 2016, as an ultra-low-fee KiwiSaver aiming to take on the big banks. “If we get this right, we will literally be putting millions back into the hands of Kiwis,” he said upon its launch. He believed in Michael Cullen’s original vision for KiwiSaver, but thought that it had been perverted by some of those who had entered the industry. Their focus was on maximising their own profits, he thought, not those of their customers.

By any standard, he has been wildly successful. From a standing start, Simplicity’s not-for-profit membership model has attracted 135,000 investors and a total of \$4.7bn in funds under management. Stubbs has become a familiar figure in the media, tilting at the giants of the sector. Customer growth has been strong and resilient, and has allowed it to continually lower fees, which in turn makes Simplicity more attractive again.

Still, Stubbs looked into the future and saw trouble on the horizon. “We’ve got almost \$5 billion [under management] now after six years,” he says. “There’s every reason to think that will be \$40 to \$50 to \$60 billion in the future. It’s so hard to invest in New Zealand – you can only buy so many Meridian shares.”

He thought balancing share and bond portfolios with some exposure to property made sense – “rent and mortgages are the bills everyone pays, no matter what”. He also felt the same stirrings of moral indignation around the cost of housing that had inspired the founding of Simplicity in the first place. Surely there was a way of deploying its cash to get both a fair return on investment and do good for Aotearoa? He began to look for a way into housing.

His first foray was in home mortgages, which launched late in 2019. In typical troublemaking Stubbsian style, he undercut the market by a whole percentage point, saying “we don’t think our members need to pay that much for their first home, nor do they need to be fuelling the extraordinary profits the banking sector makes”. While Stubbs considers the scheme successful, with over \$140m loaned out, that equates to just 246 mortgages. He thought that Simplicity’s philosophy had a still broader application. He just didn’t know what it was.

Across town, Brealey was dealing with a similar frustration from the opposite end of the pipe. Determined to prove that the Mason Square method could provide an acceptable return on capital while also delivering benefits to society, he had sold it partly through a ballot as KiwiBuild homes, below market value. Yet when he returned to see how his development was travelling, he noticed a number of late-model cars in the parking spaces.

To him, the array of Audis, Mercedes and Teslas were “a visual representation of middle-class welfare”. With KiwiBuild owners able to on-sell their properties after just three years, he believed his hard-won efficiency gains would soon be in the pockets of a small number of ballot-winners. To Brealey, Mason Square was a failure if it made no difference to the needs of society at large.

Within a year, Tindall had got Brealey and Stubbs together on that scaffold, and NZ Living was on its path to becoming that enormous gift. The pair set their big target of 10,000 homes over 10 years, which, if achieved, would likely make Simplicity the largest private sector home builder in the country. But by building-to-rent, it was also on its way to becoming easily our largest landlord, after the state, while also solving a problem for its members. “We’re turning housing into a long-term massive bond – and an inflation-adjusted bond,” says Stubbs. It also marked a new European-style vision for renting in New Zealand.

## Too big to fail?

For all the pair’s bravado, their success is far from assured. Asked about risks, Stubbs reels off a long list. There’s demographic risk – that population loss sees a reduction in demand for housing. Technology risk, whereby some unknown advance, perhaps an advance in prefabrication, erodes the Brealey advantage. Financial risks – say, large investors withdraw funds en masse at an inopportune time. Execution risk, with

them failing to do a good job. But the “primary risk”, according to Stubbs, is something happening to Shane and Anna Brealey – he views them as that integral to the project.

He didn’t mention it, but there is political risk too. While at first blush the idea of a flood of high-quality rentals seems like something no one could resist, Simplicity is confronting to the core ideologies of the left and the right. The left could view their contempt for Kāinga Ora and emphasis on efficiency as a paramount virtue as a critique of big government. The right could perceive the not-for-profit angle as anti-capitalistic. Simplicity is basically what would happen if The Opportunities Party were a business, and TOP mostly polls at the margin of error. To succeed at the scale they are dreaming of, they will be greatly helped by governmental goodwill, but their whole posture – let alone the lobbying of rivals – makes that far from a given.

Above that sits what might be called a hubris risk. Both Brealey and Stubbs are incredibly confident. To some they would absolutely cross the line into cocky. Their style deliberately rubs some people up the wrong way, including people of immense means who resent the idea of taking huge markets like finance and property and attempting to, at least in part, remove them from the profit motive system. Stubbs says that's not what he's doing – that he is instead just introducing a measure of competitive tension. But I've spoken to CEOs who would not be at all mad if the Simplicity project were to stumble and fall. There are also some in finance who might even look for an opportunity to give it a nudge and see if this idea is as bulletproof as Stubbs claims.

It's not hard to imagine it toppling. The history of property development is strewn with huge plans which don't make it off the page. Stubbs knows this well, having witnessed what an ill-timed recession can do. He was briefly CEO of Hanover Finance in 2009, a year before it spectacularly collapsed. Its co-founder Eric Watson has become a pariah engaged in an epic losing battle with the IRD, a symbol of the excess of the '00s. Simplicity's market position could not be further from that of Hanover – but by moving heavily into property development, some of the risks remain the same. Only this time, rather than investors, there would be thousands of working KiwiSaver account holders on the wrong side of the bet.

## The reality on the ground

The biggest test will be whether people actually want to live in their apartments, so one afternoon I drove out to meet Brealey and Stubbs in Oranga, a small suburb between Onehunga and Ellerslie where an NZ Living development is nearing completion. It represents the first test case for the partnership and was sold almost in its entirety to become the first Simplicity rentals.

It's a juxtaposition of the old and new: handsome brick apartments rising to three storeys alongside weatherboard villas, a liquor store and a laundromat. The area has been zoned for intensification by Kāinga Ora, and its advertising wraps the site, proclaiming that the state housing agency has created "1200 new homes for Oranga". When asked about that line, Brealey smiles. "They seek glory from others' achievements," he says. "We bought the site from them. An arm's length transaction. They were a pain in the butt to deal with, but they have favourable payment terms."

We put on hard hats and hi-vis and tour the almost-finished apartments. It's still a construction site, but you can already see why the pair are so excited about the potential. The living areas are spacious, with two-bedroom flats around 78 square metres, compared to some pricier developments closer to 60 square metres. There are thick concrete slabs between apartments, meaning your neighbour "could be playing a piano" and you'd struggle to hear it, according to Stubbs.

Unlike many terrace houses, which are often spread across three floors, each flat is on a single level. This is why Stubbs says they'll hit around 85% universal access – "in terms of achieving the social outcomes, you can do that too". By way of comparison, Kāinga Ora says 9% of its new built homes met full universal design standards in 21-22, rising to 13% in the 2022/23 year.

They forego amenities common to many built-to-sell complexes. "There's a difference in mentality if you're building it to flip it and sell it. High density, you stick in a gym or pool – a lot of bling. If you're running it for 100 years, the tenants have got to love being here," says Stubbs, citing the number of trees they're planting as the kind of amenity which will achieve that.

They say all these decisions made upfront should more than pay them back over the life of the buildings. These are rated for 120 years, but Stubbs thinks they should still be going strong 200 years on. The pair ultimately believe that the quality of the homes and the communities that develop around them, along with a discount to market rent, will create environments in which tenants stay their whole lives.

Later, as we drive around this pocket of Oranga, Brealey points out what he sees as the difference between their approach and others developing with Kāinga Ora. Most are what he calls "stick-builds" – made of timber, which is cheaper than the brick he uses, but only in the short term. Over time, they will need regular repainting, which both costs money and is easily deferred, leading to the kind of rundown appearance common to much of our 70s state housing stock. They're less sound-proofed, increasing potential for conflict between tenants. Some of the external cladding carries with it potential for the same kind of weather-tightness issues to emerge as plagued leaky buildings in the 00s. To Brealey, creating state housing that will need persistent maintenance is asking for trouble, given that the state has historically been a neglectful landlord.

Then there are more philosophical decisions. “Check out the front door,” says Brealey, pointing to a development with an imposing barred gate across its entrance. “Is this an apartment building or juvie detention?” He believes imposing exteriors are unlikely to create vibrant communities, and instead nudge more people into the kind of poor outcomes across health, education and crime that are front and centre of our current political debate. “We fund a lot of ambulances at the bottom of the cliff,” Stubbs says. “But a warm, dry home is a fence at the top of the cliff.”

## Making the numbers work

After touring Oranga, the three of us head across to the Shore, to the Northcote site where they first met almost exactly three years ago. On some level, the apartments are utterly unremarkable. Three storeys high, with little variation between those in Oranga and the development in Northcote – which is why Brealey says they can masterplan a site in three days, a process which is typically weeks or months. Stubbs is at pains to point out that “there is nothing new here” – that the idea of scale and efficiency and building solid, reliable, largely identical homes for lifelong tenancies is the norm in many European countries.

Everything is tidy and life seems peaceful – save for intermittent noise from another development across the road. It’s funded by Kāinga Ora, but Brealey says the bill per square metre is around triple that of his development (Kāinga Ora deny this).

Brealey has worked closely with Kāinga Ora, and found the experience highly frustrating. Tindall believes it’s the state’s pace of working that is the fundamental driver of high costs. “I know of a builder who pays his key staff over a million dollars each. And he’s making heaps of money doing it, just because Kāinga Ora are so desperate to build.” Community Finance’s Palmer is more sympathetic. “There is still huge inefficiency in the system,” he says, but “it is going through a transformation”.

When I speak to the chief executive of Kāinga Ora, Andrew McKenzie, he strongly resists much of Brealey's critique. He says the organisation has undergone a huge shift in recent years, moving from what he describes as a "bespoke, erratic approach" to one which is "efficient and systems-driven". Of its evolution, he says "even Shane's vision doesn't drive as many efficiencies". Some numbers back him up, including a sixfold increase in land under development, and 5,000 homes under contract or construction. McKenzie acknowledges its costs are sometimes higher, but says it is due to Kāinga Ora building larger homes than the private sector, and including amenities like common rooms in many developments.

This isn't just a conflict between developers – the stakes are incredibly high. "If you could build it at half the going price, you're going to build twice as many homes," says Tindall. Ultimately, though, the best case for New Zealand is for both Kāinga Ora and Simplicity Living to succeed.

- [Renting over 65: The uncertain future facing more and more New Zealanders](#)
- [An alternative view of the 'angry' protest crowd](#)
- [Why is this Auckland club clinging to a 'discriminatory' dress-code rule?](#)

What Brealey and Stubbs are aiming at remains imposing, irrespective of the progress they've already made. Ten thousand houses in 10 years is a phenomenal number. Yet if they are successful, they could make a meaningful dent in New Zealand's gnarliest problem – and lay down a gauntlet to the whole sector at the same time. Some will find distasteful the idea of a former Goldman Sachs banker and a multimillionaire developer casting themselves as able to beat out the private and public sector while also doing good. But with their aims on record, marking their work will be a cinch.

This is why a few hundred apartments spread across Auckland contain such provocation and promise. They say they want to make renting not a curse to be endured but a proud way of life. To prioritise the long term and the community over

maximising an immediate return. To make housing a mission and not simply a market.

To achieve this they will create a complex and confronting institution – a huge private not-for-profit which aims to succeed where the Crown itself has mostly tried and failed. It is an entity which in many ways resembles aspects of the state, but with a markedly different approach. Stubbs does not shrink from the comparison. “If the government wants to get involved and has the money to do that, or the land to do it, that’s great,” he says. “But otherwise, we’re going to do it anyway.”

## Submitter details

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Auckland Transport is already struggling so to permanently shut down hundreds of buses is irresponsible and has major consequences for those who cannot drive themselves. At my school, many of my classmates are already inconvenienced by the shutting down of the trainlines which they use to get to school, and buses are even less convenient to travel on so they have resorted to travelling by car; we have already observed that traffic congestion has worsened recently.

Cutting funding for community, cultural and social services will devastate our community. They serve to make the city more inclusive and welcoming, greatly increasing social cohesion as well as attracting consumers; these in turn help generate revenue for local hospitality services, which have been hit the hardest by the recent flooding and cyclones.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:** Commentators have pointed out that because we are at a low point in the economy, it's not a great time to sell these shares because once they're gone, they can no longer be leveraged or used to support further revenue raising.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Other

**Tell us why:** The Council should both set a higher general rates increase and make greater use of debt.

The decision to reduce funding for Water Quality and Natural Environment Targeted Rates is completely irresponsible, having only recently seen the damage done to our

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** We've already seen the damage that under-investment in our critical infrastructure contributed to, with the recent floodings and cyclones. They will only get worse as climate change worsens, and the more we put this off. This is why it is crucial for us to

## 5. Local Boards

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Do not support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with any reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I think that you are looking to cut services that are part of what a good city provides for its citizens.

DON'T CUT LIBRARY SERVICES

Don't CUT BUS SERVICES (our public transport in Auckland is shit, so don't make it worse!!!)

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called “blocking stake”). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council’s shares?** Enable a partial sale of our shares, maintaining a 10 per cent shareholding in AIAL (reducing our interest costs by around \$40 million per year), and further increase rates and/or debt

**Tell us why:** I think it's wise to keep some investment in our airport.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Proceed with the proposed increases to rates (4.66 per cent overall for the average value residential property) and debt (up to \$75 million of additional debt)

**Tell us why:** By all means a modest increase \_BUT KEEP PROVIDING SERVICES.

Our parks are often looking unkempt, there are less rubbish bins etc.

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Proceed with the proposal to increase our operating budget by around \$20 million each year

**Tell us why:** how about less in-fill housing so that all the green land which helps soak up rainwater is available to do its job.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Local community events, Protection and restoration of local waterways, Library opening hours

**Tell us why these are most important to you:** Libraries are really important to all ages - particularly so for young families. Reading = education

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	0

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Please improve bus services and get those trains moving asap.

Poor planning not to do rail upgrades during COVID&gt;

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** Do not proceed with:

Reducing funding to Tātaki Auckland Unlimited,

Reducing regional services,

Reducing local board funded activities, and

Reducing regional contestable grants.

I do not support these cost reductions. The net effect of such a sizeable reduction in funding will negatively impact the local economy and devastate Auckland's culture, art and community sectors.

This is not the time to be cutting back. Now is the time to invest in Auckland's future. Our arts events, music, cultural festivals, theatre, dance, comedy and other creative activities bring life to our city, bring Auckland communities together, and attract domestic and international tourists. This also has a positive knock-on effect to our restaurants, hotels, transport and other sectors.

When Auckland's communities are thriving and our arts and cultural sector is prospering, the entire city benefits. These services directly improve social cohesion, wellbeing and our quality of life. They make our city more inclusive and welcoming helping us to attract and retain new residents and industry. They also boost the local economy, create jobs and make the city more prosperous.

Cutting this funding will negatively impact the local economy and the ability for our restaurants, hotels and retail sectors to generate revenue. And it will negatively impact the quality and diversity of education in our schools and communities.

These are not "nice-to-haves" that can be turned on or off at will. Jobs will be lost and some of the organisations responsible for delivering these services will close. Once there is no opportunity for work and artistic expression, artists and arts practitioners have no reason to remain in Auckland. We will become a cultural wasteland!

A reduction of this size will send our city backwards and cost us more in the long run.

## 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Don't change the policy, keep all our shares and further increase rates and/or debt

**Tell us why:**

## 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a lower general rates increase and make greater use of debt

**Tell us why:**

## 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?**

**Tell us why:**

## 5. Local Boards

### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support most priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Environmental restoration and pest control, Community facilities and services, Arts and culture initiatives

**Tell us why these are most important to you:** We need to invest in our communities if they're going to grow. We're still recovering from COVID, floods and cyclones. Losing these initiatives will further compound the hurt our communities are feeling.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	0
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).

- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

#### Reduction in Cultural Events

Without funding, most of Auckland's cultural events and festivals will be cancelled or scaled back, leading to a reduction in the diversity and vibrancy of the city's cultural scene.

#### Job Losses

Many artists, performers, and

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

#### What is your preference on the proposed operating cost reductions?

Do not proceed with some reductions and instead further increase rates and/or debt

**Tell us why, and which reductions you would not proceed with if any:** I would not proceed with reducing PT services, regional community services or grants to CAB. These cuts will disproportionately affect the household that are less well off. If the south and west are even willing to pay more rates to keep these valuable services, the wealthy suburbs should should more rates burden by the virtue of their high property values and they can afford to do so more than the poor.

Council also needs to reduce the middle and back office cost. The visible cuts in the front line services do not result in less support functions as a result in the past and yet the overheads cost has become proportionally larger over time, especially the council outsources lots of the core services itself or through CCOs. Council should not have as many staff manage these outsourced services.

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?** Other

**Tell us why:** Maintain AIAL shareholding and reduce the number/size of the golf courses the council owns.

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Set a higher general rates increase and make less use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:** It is not transparent and no assurance that this increase would be used for storm response in the future. This should be part of the dedicated package for climate change adaptation.

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I support all priorities

**Tell us why:**

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Community facilities and services, Library opening hours, Community programme delivery

**Tell us why these are most important to you:**

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	I don't know

**What do you think of these proposals?**

## 7. What else is important to you?

**Do you have feedback on any other issues, including:**

- Local board decision-making over local community services (page 53 in the consultation document).
- Tūpuna Maunga Authority Operational Plan 2022/2023 (page 53 in the consultation document).
- Changes to fees and charges (page 53 in the consultation document).

Or is there anything further you would like to give feedback on?

Organisation (if applicable):

Your local board: Howick

## Your feedback

### 1. Operating spending reductions

Auckland Council have already decided to reduce costs by simplifying management structures and sharing resources more across the Council group (including Auckland Transport and other Council Controlled Organisations).

Our proposal to save \$130 million would also require us to make other reductions, including:

- Maintaining the currently reduced number of public transport services (as of December 2022) for 2023/2024 to save \$21 million
- Reducing our funding to Tataki Auckland Unlimited to save \$17.5m, with some effects on service delivery and pricing at venues it manages such as Auckland Zoo, Auckland Art Gallery, and stadiums and venues in Auckland
- Reducing regional services such as community and education programmes, regional events, economic development, and other social services activities such as homelessness funding, community empowerment and funding for youth centres to save \$22 million
- Reducing local board funded activities across all boards to save \$16 million
- Reducing regional grants to save \$6 million
- No longer directly providing early childhood education services to save \$1 million.

**What is your preference on the proposed operating cost reductions?**

Other

**Tell us why, and which reductions you would not proceed with if any:**

### 2. Amending Auckland International Airport Limited (AIAL) Shareholding Policy

Our proposed budget includes a planned change to the AIAL shareholding policy. This will allow us to sell some or all our shares in AIAL.

Selling all our shareholding (currently around 18% of shares in Auckland Airport) would reduce our debt by an estimated \$1.9 billion. This would reduce interest costs on our debt by around \$88 million per year, which is greater than what we'd expect to earn from the dividends if we kept the shares.

We have also considered other options, including both keeping all our shares and a partial sale that reduces our shareholding while maintaining at least 10 per cent (a so-called "blocking stake"). These options would contribute less towards our budget reduction target and require other actions – most likely by further increasing rates or debt (within existing policy limits).

**What is your preference on this proposal to change the AIAL shareholding policy to enable the sale of all Auckland Council's shares?**

**Tell us why:**

### 3. Managing rates and debt

To help with our budget challenge, we propose a total rates increase for the average value residential property of around **4.66 per cent or \$154 a year** (around \$3 a week) and to increase our use of debt by up to **\$75 million** in 2023/2024.

#### Rates

Our proposed 4.66 per cent total rates increase would be achieved by:

- An average increase in general rates of 7.0 per cent across all existing properties, including non-residential
- Reducing the Natural Environment Targeted Rate (NETR) and Water Quality Targeted Rate (WQTR) by around two thirds and using the money we have already collected from these targeted rates to continue delivering these work programmes as planned in 2023/2024
- Pausing our change to the split between business and residential rates. Under our current policy, annual increases to general rates for business properties are less than for non-business (residential and farm/lifestyle) properties, so that over time the share of general rates paid by business properties is fairer. Our proposal is to put this change on hold for one year

#### Debt

We propose to increase our use of debt by up to \$75 million for 2023/2024. This will be used to fund some capital expenditure (assets such as roads, pipes and buildings) that is currently planned to be funded by operating revenue (such as rates and user charges). This will free up that operating revenue to help address our budget shortfall.

**What is your preference on our proposal to manage rates and debt?** Make greater use of debt

**Tell us why:**

### 4. Storm Response

The impacts of the recent storm events beginning on Auckland Anniversary weekend could be substantial over time and we don't yet know the full costs.

Changes to our investment in land, infrastructure, buildings and equipment will be needed. Some new investments will be delayed so we can undertake urgent repairs and replacements.

Additionally, from 2023/2024, we are proposing to increase our operating budgets by around \$20 million each year to improve our ability to prepare for and respond to future storms. This would likely require rates to increase for 2023/2024 by around an additional 1 per cent (on top of the 4.66 per cent increase proposed to address our budget shortfall).

**What is your preference on our proposal to manage the impact of future storms?** Do not proceed with the proposal

**Tell us why:**

### 5. Local Boards

#### Howick Local Board

It is proposed to reduce funding by \$16 million across all local boards which will impact the activities and services delivered by local boards. Given this possible reduction in funding, **what do you think of our proposed priorities for services and activities in this local board in 2023/2024?** I do not support any priorities

**Tell us why:** If this is reduced, this will impact communities across Auckland.

**If funding for local board activities is reduced, which three of our services do you not want to reduce funding for? (i.e. which are most important to you?)** Protection and restoration of local waterways, Environmental restoration and pest control, Community climate action and sustainability

**Tell us why these are most important to you:** We need to improve our environment. These activities should never be reduced and not funded.

## 6. Changes to other rates and fees and charges

We are proposing some changes to targeted rates as set out in the following table. The changes are mainly to ensure we are covering the necessary costs. If we do not proceed with the changes then the general rates increase may need to be higher than we have proposed.

Waste management rates changes	
Cost changes in waste management, including: a) a 10.6 per cent base rate increase, b) an option for a new 80L bin in the former Auckland City Council and Manukau City Council areas (80L bin price will be \$143.71), and c) an increase to the 240L refuse bin price (from \$254.15 to \$287.41).	Do not support
Introduce a one-off fee of \$40 for those residents wishing to change their bin size.	
Extend the food scraps targeted rate to the new areas that will receive the service this year.	
Changes to other rates	
Swimming Pool/Spa Pool Fencing Compliance Targeted Rate: increases to reflect the actual costs of the service, and an increase in the fee for follow up inspections.	Do not support
Change which bus services are funded by the Climate Action Targeted Rate from what was planned, to ensure that we can continue to deliver the climate and service outcomes for which the CATR was established.	Support
